Immunization Compliance Reminder

Dear Student:

LIU Brooklyn is committed to providing you a rewarding college experience. Over the years, we have consistently given new and transfer students the maximum time allocated by law to submit health records, affording you the opportunity to register and attend classes during this period. However, you must check your MYLIU Account and if you have a H2A and/or H9A hold on your account, you have not completed the process for compliance with NYS Public Health Law(s).

NYS Public Health Law §2165 requires all students born after December 1957 to be vaccinated with two doses of Measles, one dose of Mumps and Rubella (MMR). NYS Public Health Law§ 2167 also requires that all students taking more than six semester hours must be sign a Meningitis Response form. The MMR/Meningitis form is available at Long Island University – University Health and Medical Services (UHMS) as well as on-line via the UHMS website http://www.liu.edu/Brooklyn/UHMS/Forms-Brochures/Immunization-Forms.(*No fax-original signatures required*). Please refer to your high school, doctor's office and/or previous academic institution for records or take a MMR blood test/Titer in order to complete this process.

For your convenience, we have created a partnership with The Brooklyn Hospital Center, to ensure that your vaccination requirements and medical needs can be satisfied. For further information and/or to make an appointment, please contact Medical Services at (718) 246-6455. Office hours are Monday–Friday from 9:00 a.m. - 5:00 p.m.

Please bring or mail the outstanding original form and/or proof of health compliance to 175 Willoughby Street, Brooklyn, New York 11201 (entrance on Fleet Place). **Faxed copies will not be accepted.**

In accordance with New York State law, we ask that you please resolve this matter in a timely fashion. Should you feel you have received this email in error and/or have any additional questions email us at bkln-uhms@liu.edu or contact our office at 718-246-6450.
