

STUDENT COMMENTS

"The HCM program was fantastic... it allowed me to truly understand all the components of our healthcare environment. There are so very many aspects – this program was perfect for providing insight into the various aspects such as Finance and Technology!"

Dolores Scacchetti Project Director Daiichi Sankyo, Inc Pharmaceuticals

"The Healthcare Management Program at LIU Hudson offers an extraordinary opportunity to attain real-life, practical education from present-day healthcare practitioners who currently work in the field. In addition, the program has the ability to become a powerful networking tool to enhance and expand your contacts and potentially your own career."

Enrico Cevetillo Healthcare Management Intern for the Senior Vice President Phelps Memorial Hospital

"With the core MBA courses as a foundation, the healthcare management concentration has helped me build on my previous hospital experience and has provided a more well-rounded perspective on the challenges we are currently facing in health care."

Marlo Asencio Human Resources Director Burke Rehabilitation Hospital

"My experience in the Health Care Sector Management program at LIU Hudson has been excellent. I appreciated the fact that all of the professors are current healthcare practitioners. They have brought their wealth of experience right into the classroom. This has allowed me, someone with no previous healthcare experience, to see the field through their eyes."

Renette Bayne Issaka Controller Child Care Council of Westchester "Having the MBA with a concentration in Healthcare Sector Management gives you a competitive edge. You obtain a strong foundation in business administration, not available in other healthcare masters programs, affording a graduate the versatility to work in and out of healthcare. The sky is truly the limit."

Meta Morrison Medical Technologist Phelps Memorial Hospital

"The program provides a global perspective on healthcare. It provided me a greater understanding of what my end user customers look to accomplish in providing quality healthcare. It also provided me with a better understanding of the challenges facing healthcare. Overall, it's been fun and I feel that I am leaving with knowledge that I can apply in my role in my organization."

Mario Pizzonia District Sales Manager Merck Pharmaceuticals

"Going through the MBA program as a cohort group was really good. We got to know each other well and learned to work together as a team. Many of my classmates were able to move on to other companies for better jobs after graduating. As for me, I work for a great company, and what I learned in the program enabled me to grow right where I am. I've had two major promotions and my salary has doubled since I earned the degree."

Kamilah Ifill Executive Director, Client Relations & Sales Service Directions Inc., Yonkers, NY
