## Section C: Bug Detail

# Social Security Reporting

16054004– RED Bulletin 2012/10, December 12th

## Requirement

As a result of publishing of Red Bulletin 2012/10, December 12<sup>th</sup>:

<http://www.seg-social.es/prdi00/groups/public/documents/binario/174313.pdf>

A set of changes have been introduced in AFI file related to:

- Communication of strikes.
- Rights lost field (“*Indicativo de pérdida de beneficios*”).
- Certified Authoritation.

### New action to communicate strikes

The way to report strike situations through AFI file has change. A new **Social Security action** has been created.

Here below is an extract of the section of the Red Bulletin that drives these changes in the product:

Las huelgas seguirán tratándose como inactividades, pero se mecanizarán a través de una nueva acción denominada **MHU – Mecanización de Huelga**.

En esta nueva acción, solo será necesario comunicar el tipo de inactividad, el coeficiente de actividad huelga parcial si procede, y las fechas de inicio y fin de la huelga. NO será necesario anotar ningún otro dato de la relación laboral.

Así, para comunicar el inicio de la huelga deberá mecanizarse un movimiento MHU, con tipo de inactividad 2 (huelga total) ó 3 (huelga parcial) según corresponda, el coeficiente de actividad de huelga parcial si procede, y la fecha del primer día de huelga.

Para comunicar el fin de la huelga, se mecanizará un movimiento MHU, con el tipo de inactividad en blanco y la fecha del último día de la huelga.

Por tanto, los campos específicos para esta nueva acción son:

CAMPO	SEGMENTO
CCC	EMP
Razón social	RZS
NSS	TRA
IPF	TRA
Fecha real	FAB
Tipo de inactividad	FAB →Valores: blanco, 2 y 3
Coeficiente de actividad huelga parcial	FAB →Solo para inactividad 3

## New Functionality

In order to cover this requirement changes have been done in the product.

Let's see the new method with two **examples**:

**Example 1:** Employee KEG001 with total strike for 2 days

- First, we enter data for the beginning of the strike:
  - o Begin date (January 10<sup>th</sup>)
  - o New action reason MHU
  - o Inactivity type 2 (Total strike)

New values for rights lost field

Here below is an extract of the section of the Red Bulletin that drives these changes in the product:

Actualmente, a través del Sistema RED solo se pueden anotar los valores 01 y 08 del campo „Indicativo de pérdida de beneficios“ (tabla T-68).  
Hay ocasiones en las que al alta mecanizada a través del Sistema RED se le añade de oficio por parte de esta Tesorería General de la Seguridad Social otro valor de la tabla.

Cuando posteriormente se realiza cualquier modificación del contrato (por ejemplo modificar un coeficiente) se tienen que mecanizar todos los datos de la relación laboral, incluido el campo „Indicativo de pérdida de beneficios“, pero solo se permiten los valores 01 y 08, por lo que el movimiento se rechaza.

**Se han realizado las modificaciones oportunas para que para la acción MC se admitan todos los valores de la tabla T-68.**

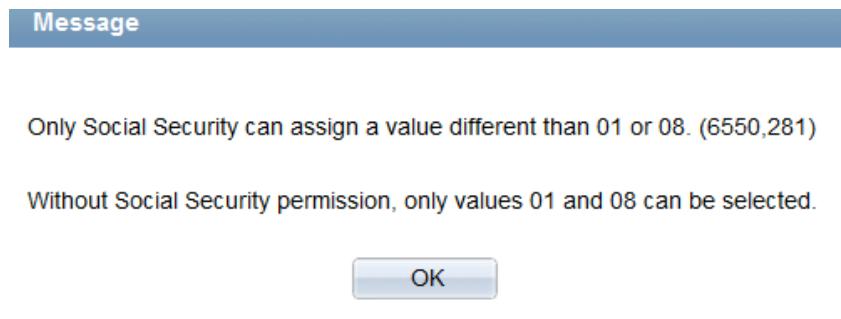

Además, cuando se anote de oficio en un alta o cambio de contrato un valor distinto de 01 o 08, en el acuse técnico se comunicará dicho valor.

We have modified the xlats values of the field **RIGHTS\_LOST\_ESP** to include all values of the table T-68 in Winsuite 32:

### Update Certificated Authorization

We have created a new Company action: ***MAC.- Update Certificated Authorization*** that user can select through the page Company Inquiries in order to modify dates granted by the company to an external CCC to check their Social Security contributions status.

Here below is an extract of the section of the Red Bulletin that drives these changes in the product:

Se ha creado una nueva acción a nivel de empresa. La nueva acción se denomina **MAC – Modificación Autorización certificado artículo 42 Estatuto de los Trabajadores**.

Además, se ha han creado dos nuevos campos en el registro FCE. Los nuevos campos son „Fecha de inicio nueva” y „Fecha de fin nueva”.

Se podrá modificar una de las dos fechas, o las dos al mismo tiempo, siempre y cuando no se haya hecho ninguna petición de certificado de situación de cotización que con la modificación quedara fuera del rango de fechas de la autorización.

Los campos de entrada del Fichero AFI específicos para la nueva acción serán:

- CCC principal que autoriza EMP (CCC principal de la Empresa emisora de la autorización)
- CCC empresa autorizada DSO (CCC de la empresa autorizada)
- Fecha de inicio FCE (Fecha desde la que se autoriza a consultar)
- Fecha de fin FCE (Fecha hasta la que se autoriza a consultar)
- Fecha de inicio nueva FCE (Nueva fecha desde la que se autoriza a consultar)
- Fecha de fin nueva FCE (Nueva fecha hasta la que se autoriza a consultar)

## Tripartite Foundation Reporting

### 16237411-HR ESP FT TRIPARTITE FOUNDATION XML 2013 LEGISLATIVE CHANGES

#### Requirement

Tripartita Foundation have defined the new structure for some of the XML files. In fiscal 2013, the new format includes some changes for End of Groups Files (Bonificated and Organizational).

From now on the fields "Functional Area" and "Other Qualifications" will disappear and other fields "*Affected by Terrorism*" and "*Affected by Domestic Violence*" will be mandatory.

#### New Functionality

We have made the code changes to add two new check boxes on the FT Employee Data page for Tripartite Foundation:

- Affected by Gender Violence.
- Affected by Terrorism.

*Main Menu > Enterprise Learning > Define Course/Cost Details > FT Employee Data ESP*

#### FT Employee Data ESP
