LIU Brooklyn
2015-2016
Graduate Bulletin
Notice to Students: The information in this publication is accurate as of September 1, 2015. However, circumstances may require that a given course be withdrawn or alternate offerings be made. Therefore, LIU reserves the right to amend the courses described herein and cannot guarantee enrollment into any specific course section. All applicants are reminded that the University is subject to policies promulgated by its Board of Trustees, as well as New York State and federal regulation. The University therefore reserves the right to effect changes in the curriculum, administration, tuition and fees, academic schedule, program offerings and other phases of school activity, at any time, without prior notice.

The University assumes no liability for interruption of classes or other instructional activities due to fire, flood, strike, war or other force majeure. The University expects each student to be knowledgeable about the information presented in this bulletin and other official publications pertaining to his/her course of study and campus life. For additional information or specific degree requirements, prospective students should call the campus Admissions Office. Registered students should speak with their advisors.

Accreditation and Program Registration

Long Island University is accredited by the Middle States Commission on Higher Education, 3624 Market Street, Philadelphia, PA 19104; 267-284-5000; website: www.msche.org. The Middle States Commission on Higher Education is an institutional accrediting agency recognized by the U.S. Secretary of Education and by the Council for Higher Education Accreditation. The degree and certificate programs are approved and registered by the New York State Department of Education.
ABOUT LIU BROOKLYN

Mission Statement

Expressed in its still-relevant motto Urbi et Orbi, the mission of LIU since 1926 has been to open the doors of the city and the world to men and women of all ethnic and socioeconomic backgrounds who wish to achieve the satisfaction of the educated life and to serve the public good. Its mission is to awaken, enlighten and expand the minds of its students.

Overview

Located in the heart of Downtown Brooklyn’s thriving Tech Triangle, LIU Brooklyn provides students with experiential learning opportunities reflecting the entrepreneurial urban community it serves. Distinctive programs encompass the arts and media, natural sciences, business, social policy, urban education, the health professions, pharmacy, and health sciences.

Founded in 1926, LIU Brooklyn is the original unit of Long Island University. Its beautifully landscaped, 11-acre campus is a self-contained urban oasis, steps away from world-class arts and entertainment venues like Brooklyn Academy of Music and the Barclays Center, as well as the hip restaurants and cafes of Fort Greene and the Fulton Mall shopping district. Just a 10-minute subway ride from the professional and cultural opportunities of Manhattan, the vibrant campus includes residence halls for more than 1,100 students.

LIU Brooklyn has a deeply rooted tradition of athletic excellence. The basketball teams of the 1930s captured two national championships, and the campus’ success in sports has continued over the decades with numerous Northeast Conference championships. Over the last 10 years, the Blackbirds have won 34 NEC titles, including 12 in the last three seasons. The campus currently fields 18 NCAA Division I teams.

The $45-million Steinberg Wellness Center, which features an NCAA regulation swimming pool, a 2,500-seat arena, state-of-the-art workout facilities and a rooftop track, serves the campus and the surrounding community, and the Kumble Theatre provides an entertainment venue for student and professional performances. The historic Paramount Theater, which is an integral part of the campus, is being restored to its original grandeur and will provide another dynamic performance space for the Brooklyn community.

Dining facilities and food service areas are available in several locations. Blackbird Café, located in Connolly Residence Hall, offers an all-you-can-eat dining menu, including cutting-edge American entrees, international specialties, vegetarian selections and much more. Lunute Commons, located in Metcalfe Hall, is a food court, including Habanero Mexican Kitchen, the All Tossed Up salad bar, Grille Works, and the Express Station. The glass-enclosed Cyber Café is home to Hale and Hearty Soups, Red Mango, and Subway. Two student-run enterprises, Healthy Choices and the Brooklyn Treat Shoppe, are located on the third floor of the Library Learning Center. Peet’s Coffee is located on the third floor of the Arnold and Marie Schwartz Hall of the Arts and Humanities, and the Smoothie Bar is located in the Steinberg Wellness Center.

Generation after generation, much like Brooklyn itself, the LIU Brooklyn student body has been made up of people from a wide variety of cultures and nationalities. Like their predecessors, many of today’s students are new to America and/or the English language or are the first in their families to seek a university education. At LIU Brooklyn, all students find an academic community where cultural, ethnic, religious, racial, sexual, and individual differences are respected and where commonalities are affirmed. This diversity creates an open and welcoming environment on campus, even as the University maintains respect for intellectual, cultural, and academic traditions.

Nationally recruited, the faculty has a strong commitment to teaching, to personal advisement of students, to the fullest range of scholarship, and to faculty development and service.

LIU Brooklyn recognizes both the faculty’s training and experience and the character of its diverse student body as two of its greatest strengths. No matter what their background, students come to LIU Brooklyn to build the educational and intellectual foundations for successful personal lives and careers. The campus faculty and administration believe that a liberal education, along with careful preparation for a fulfilling career, is the best way to achieve this end.

To carry out its mission, LIU Brooklyn offers comprehensive undergraduate curricula, supported by advanced courses for specialized knowledge and graduate programs in those areas in which it has developed strength or has a unique contribution to make. In addition, the campus has designed programs to permit students to acquire essential literacies, intellectual curiosity, analytic and reasoning skills, and effective communication skills. In this way, the campus serves as a conservator of knowledge, a source and promulgator of new knowledge, and a resource for the community it serves.

LIU Brooklyn offers nearly 160 associate, undergraduate, graduate, doctoral, and certificate programs, including Ph.D. programs in clinical psychology and pharmaceutics, the D.P.T. in physical therapy, and the Pharm.D. in pharmacy. Serving a diverse student body, its academic units include the LIU Brooklyn Honors College, the Richard L. Conolly College of Liberal Arts and Sciences; the School of Business, Public Administration and Information Sciences; the School of Education; the Harriet Rothkopf Heilbrunn School of Nursing; the School of Health Professions; LIU Global, LIU Pharmacy (the Arnold & Marie Schwartz College of Pharmacy and Health Sciences); and the School of Continuing Studies. The campus is known for its nationally recognized Honors College, which was the first of its kind in the country and emphasizes a holistic, liberal arts background.

LIU Brooklyn offers early action decisions for undergraduate students who apply by December 1 for the following fall semester. Additional information can be obtained by contacting the offices below:

Undergraduate and Graduate Offerings

Richard L. Conolly College offers liberal arts and sciences programs leading to the degrees of Associate in Arts, Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Science, Master of Arts, Master of Fine Arts, Master of Science, and Doctor of Philosophy (in Clinical Psychology). It also offers a B.S./M.S. in Communication Sciences and Disorders/ Speech-Language Pathology, and a United Nations Graduate Certificate Program.

The School of Business, Public Administration and Information Sciences offers the degrees of Associate in Applied Science in Business Administration; Bachelor of Science in Accounting, Computer Science, Entrepreneurship, Finance, Healthcare Management, Management (available with a concentration in Human Resource Management), Marketing, and Technology Management; Bachelor of Science/Master of Science in Accounting; Master of Business Administration (M.B.A.) in Accounting; Master of Business Administration (M.B.A.) with concentrations in Entrepreneurship, Finance, International Business, Human Resource Management, Management, Management Information Systems, and Marketing (the MBA is also available as an accelerated One-Year MBA for all concentrations); Master of Science in Accounting, Computer Science, Human Resource Management, and Taxation; Master of Public Administration (M.P.A.) with majors in Public Administration and Health Administration; Advanced Certificates in Gerontology, Human Resource Management and Non-profit...
Management; and a collaborative program leading to the United Nations Advanced Certificate and Master of Public Administration.

The School of Education offers, on the undergraduate level, the Bachelor of Arts, the Bachelor of Science and the Bachelor of Fine Arts degrees in various disciplines in urban education. On the graduate level, the school offers the Master of Science in Education degree in the areas of Childhood Urban Education, Early Childhood Urban Education, Adolescence Urban Education, Teaching Urban Children with Disabilities, Teaching Urban Adolescents with Disabilities, Teaching English to Speakers of Other Languages (TESOL), School Counseling, Bilingual School Counseling and School Psychology; the Master of Science degree in Mental Health Counseling and Marriage and Family Therapy; and Advanced Certificates in Bilingual Education, Educational Leadership, Early Childhood Urban Education, School Counseling, Bilingual School Counseling, Mental Health Counseling, Marriage and Family Therapy and Applied Behavioral Analysis.

The School of Health Professions offers the Bachelor of Science degrees in Health Science, Diagnostic Medical Sonography, Respiratory Care and Sports Sciences, and the Bachelor of Arts degree in Social Work. It also offers combined B.S./M.S. degrees in Athletic Training and in Occupational Therapy and the B.S./M.P.H. in Health Science / Master of Public Health. It offers the M.S. degrees in Exercise Science, and in Physician Assistant Studies as well as the Master of Social Work and the Master of Public Health. The Division of Physical Therapy offers a Doctor of Physical Therapy (D.P.T.) program that is a three-year post-baccalaureate graduate degree. An accelerated 3+3 B.S./D.P.T. in Health Science / Doctor of Physical Therapy is also offered.

The Harriet Rothkopf Heilbrunn School of Nursing offers the Bachelor of Science with a major in Nursing for generic, R.N.-B.S. and 2nd degree students, the Master of Science in Adult-Geri Nurse Practitioner and Family Nurse Practitioner, and Nurse Educator. The following Advanced Certificates are offered: Adult Nurse Practitioner, Family Nurse Practitioner, and Education for Nurses. The School of Nursing offers an accelerated R.N.-B.S./M.S. Adult Nurse Practitioner dual degree program.

LIU Pharmacy (The Arnold & Marie Schwartz College of Pharmacy and Health Sciences) offers an entry-level, six-year Doctor of Pharmacy (Pharm.D.) degree and the Master of Science degree in Pharmaceutics (with concentrations in Industrial Pharmacy and Cosmetic Science), Drug Regulatory Affairs and Pharmacology/Toxicology. It also offers the Doctor of Philosophy in Pharmaceutics (Ph.D.) degree.

LIU Global is designed for students who desire a hands-on learning approach in a variety of international locations. The college offers a Bachelor of Arts in Global Studies.

</table>
ADMISSION

Applicants are strongly encouraged to submit an application online at www.liu.edu/apply.

A paper application may also be obtained by visiting the Office of Admissions, LIU Brooklyn, 1 University Plaza, Brooklyn, N.Y. 11201-5372, e-mailing bkln-admissions@liu.edu, or by calling 718-488-1011. A bachelor’s degree (or its equivalent) from an accredited institution, indicating an acceptable record, is necessary to be considered for admission to the graduate programs. Additional requirements are described in the sections for each discipline.

The completed application must be submitted with a personal statement of approximately 500 words. In general, applicants must also submit official transcripts from all colleges and universities attended showing all undergraduate and graduate coursework taken and grades received, if any. Some departments may request letters of recommendation, resumes, test scores, writing samples, portfolios, copies of professional licenses or other additional documents. Applicants should refer to the section of this bulletin for their program of interest as well as the departmental web site to determine what documents are required for admission by their program as well as to determine where credentials and materials are to be sent for processing. An application fee of $50 is required. LIU Brooklyn encourages students to self-manage their application, which means it is the responsibility of the applicant to collect all required documents needed for admission and submit them to the Admissions Office. Students needing assistance and clarification are encouraged to email the Graduate Admissions Office at bkln-admissions@liu.edu.

Most graduate programs are available each semester on a rolling admissions basis. However, it is strongly encouraged that applications and supporting materials be submitted as early as possible. Several graduate programs have specific application deadlines. Examples of these programs are the Doctor of Physical Therapy (D.P.T.) which is due March 1; the Master of Physician Assistant Studies due on January 15; the Ph.D. in Clinical Psychology due on December 1; the Master of Speech-Language Pathology due on February 1; and the Master of Social Work due on April 15.

Consult the section for your academic discipline for additional information.

Classification of Students

All students admitted to the master’s programs will be classified as matriculants or non-degree students. Matriculants must submit evidence of a bachelor’s degree or its equivalent. They must have an acceptable record in undergraduate and other studies as reflected in official transcripts of all colleges and universities attended. Usually a B average in the undergraduate major subject is required. Attention is given to overall grade averages, grade trends during undergraduate study, and areas of scholastic strength.

Applicants must receive satisfactory scores on any required examinations. Students whose undergraduate average is less than B-, and all students from foreign colleges or universities, may be requested to take the Graduate Record Examination (GRE) or the GRE advanced subject examination. Applicants to Master of Business (M.B.A.) in the School of Business, Public Administration and Information Sciences must submit scores from the Graduate Management Admissions Test or the Graduate Record Examination before the completion of their first semester of study. Applicants for the Master of Public Health, Ph.D. in Clinical Psychology, Doctor of Physical Therapy, Physician Assistant Studies and all graduate Pharmacy programs must submit GRE scores from the General Aptitude Test at the point of application. Additionally, individuals who apply for the Ph.D. in Clinical Psychology must submit GRE scores from the GRE Subject Test in Psychology.

A student will be classified as matriculant when accepted into a degree program. Students admitted with technical or academic deficiencies (e.g., incomplete official transcripts) will be classified as matriculants with conditions, pending fulfillment of those conditions. Technical deficiencies must be removed before the end of the first semester of enrollment. Academic deficiencies must be satisfied before the completion of 12 credits required in the degree program or within one year.

Non-degree students must meet the same admission standards as those admitted to degree programs. A student in this category may take a limited number of courses for certification, professional advancement or personal enrichment, but he or she is not classified as a graduate degree-seeking student. Admission as a non-degree student permits registration for a maximum of 12 credits.

If a non-degree student wishes to matriculate, a graduate application must be filed with the Office of Admissions. Upon review of the student’s application and supporting credentials, the appropriate department will decide if all requirements for matriculation have been met. Courses completed by non-degree students, if pertinent to the degree program in which the student has matriculated, and if completed within the time limit, are credited toward the degree.

Students Presenting International Credentials

Applications are welcome from students who hold the equivalent of a four-year bachelor’s degree. To be considered for admission, undergraduate transcripts/marksheets for each year of study, including degree conferral (diploma/degree certificate) are required. All records must be translated into English and be original or copies of the original, certified/attested by an official of the school issuing that record or the Consulate/Ministry of Education of the issuing country. A course-by-course evaluation, completed by an acceptable international credential evaluation agency, is required for some programs. Please refer to the section of this bulletin for your program of interest as well as the departmental website to determine if an evaluation is required. The graduate admissions office reserves the right to request an evaluation on any transcripts/marksheets from colleges or universities outside the United States. A complete list of acceptable agencies can be requested from the Office of Admissions or found on www.liu.edu/brooklyn. All students for whom English is not a native language are required to take the Test of English as a Foreign Language (TOEFL) administered by the Educational Testing Service or the International English Language Testing System (IELTS) examination. Information on the examinations may be obtained by visiting www.ets.org and www.ielts.org, respectively from American consulates and embassies abroad, or from the United States Information Service (USIS) in each country.

Proficiency in English must be demonstrated. A student who needs additional study in English may be required to take English courses for foreign students at LIU before or concurrently with an academic program (see English Language Institute section).

International Students

Applications and all supporting documents from international applicants must be received by May 1 for Fall admission and by November 1 for Spring admission.

Upon notification of admission, the student will be requested to send a nonrefundable deposit fee of $200, which will be applied toward the first semester’s tuition and fees. Selected programs of study require a $500 deposit. Upon admission students are advised if their program of study requires a higher deposit. Upon receipt of the deposit and of a sponsor’s affidavit of support and official bank statement, an I-20 form will be issued that will enable the student to apply for a student visa. Students should not make plans to come to the United States until they have received appropriate nonimmigrant forms.

Students should be aware of the cost of living and studying in New York City. It is advised that students make realistic plans to finance their education. A limited number of graduate assistantships are awarded primarily to students who have been in attendance at least one semester. Health insurance coverage is compulsory for all international students and for their dependents. Information pertaining to the health insurance coverage may be obtained from the Office of International Students, which assists students on campus.

Students holding F-1 (student) visas are
required by law to be fully matriculated and must be registered for at least nine credit hours per semester.

All forms can be found at www.liu.edu/brooklyn/forms.

Veterans

LIU Brooklyn welcomes applications from veterans and encourages them to take full advantage of their G.I. Bill benefits. Candidates are required to submit a copy of Form DD214, Report of Separation, to the Office of Admissions. A veterans counselor is available to assist in admissions and funding procedures. For further information, contact the Office of Veterans Affairs.

Visiting Students

Graduate students who are degree candidates in good standing at other universities may be granted permission to attend courses at LIU upon filing a visiting student application for the courses and submitting a letter of authorization from the graduate school that they are attending. Courses in the Ph.D. programs and field experience courses need additional departmental approval.

Enrollment and Admission, Related Policies

Post-baccalaureate Students

An applicant who has not completed adequate preparation for a particular graduate program but who presents an otherwise acceptable undergraduate record may be given an opportunity to remove specific course deficiencies. A post-baccalaureate student enrolls in a program of advanced undergraduate courses in the field selected for graduate study. The appropriate department approves the number of credits necessary, the level of achievement required, and the specific courses to be completed. Upon compliance with those conditions, the post-baccalaureate student becomes eligible for admission to the graduate school.

Admission to Classes

Admission to graduate classes does not imply that the student has been accepted as a candidate for a degree. Acceptance to degree candidacy is contingent upon the student’s obtaining matriculated status and satisfying all admission requirements of the graduate program in which major study will be pursued.

Transfer Credits

Graduate courses taken at other institutions before admission to LIU may, if pertinent to the plan of study, be credited to the graduate degree. Permission to transfer such credits must be requested at the time of admission, and official transcripts must be submitted to the LIU Admissions Processing Center. Transfer credit toward the master’s degree is normally limited to six semester hours of credit for courses in which the student has received a grade of B or better and is not recorded as part of the grade point average. Courses with a grade of B- are not transferable.

Students seeking a second master’s degree may be granted up to 12 credits, when academically appropriate, at the recommendation of the Department Chair and with the approval of the Graduate Dean. Students entering the School Psychology program may be granted up to 18 credits.

New York State Immunization Law

The New York State Health Department requires college and university students born on or after January 1, 1957 to be immunized against measles, mumps and rubella. All students attending the university, including matriculants and non-degree students, must show proof of immunity if they wish to register for classes. In addition, New York State requires that LIU Brooklyn maintain a record of each student’s response to the meningococcal disease and vaccine information. The form must be signed by the student and contain either a record of meningitis immunization within the past 10 years OR an acknowledgement of meningococcal disease risk and refusal of meningitis immunization signed by the student.

For information on student procedures for complying with this law, please contact the Office of Enrollment Services at 718-488-1037.

Admissions Processing Center

All application materials for domestic graduate students should be sent to the Application Processing Center:

LIU Brooklyn
Admissions Processing Center
15 Dan Road, Ste. 102
Canton, MA 02021
Grades

Credit is granted for courses completed with the grade A-, B+, B-, C+, or C. The F grade signifies failure. P (passed for credit) may be used to mark completion of work in certain research practicums, seminars, workshops and thesis courses.

INC (incomplete) may be used as an interim grade for the first half of a two-semester course, for failure to complete all course requirements, and for thesis courses before acceptance of the thesis. Any other failure to complete the course requirements (e.g., the submission of a term paper) may be recorded as INC. Except in thesis courses, INC grades that have not been replaced by a letter grade within one year may be changed only by repeating the course.

A student may not repeat a course without permission of his or her Dean. If a student, with the permission of the Dean, repeats a course more than once, all grades except the first will be computed in the student’s average. SATISFACTORY completion of the course does not eliminate the original INC from the student’s record.

AUD recognizes that a course has been audited. The symbol W is assigned when students officially withdraw from a course in which they were doing satisfactory work. The symbol UW is assigned when students unoficially withdraw from a course. The UW is not computed in the student’s average.

Students have until the time of their graduation to have changes made on their academic records. Once a student has graduated, the academic record is frozen and cannot be changed retroactively.

Quality Points

Grade-Point Average

The University’s grade-point average is employed to determine the average grade status of a student. The grade A corresponds to a 4.000 quality point equivalent, A- to 3.667, B+ to 3.333, B to 3.000, B- to 2.667, C+ to 2.333, C to 2.000 and F to 0.000. P, INC, W and UW grades do not affect the index.

The quality points to which a student is entitled are computed by the formula X = N x Y, where X is the number of quality points, N the quality point equivalent assigned to the grade, and Y the number of credits.

The grade point average is obtained by dividing the sum of the quality points received in all courses by the total number of credits, including unpeated F’s.

Grade point average computations are carried to the third decimal place from which rounding takes place to the second decimal place. For example, a computed grade point average of 2.994 will be rounded down to 2.990. A computed grade point average of 2.995 will be rounded up to 3.000. On all official LIU transcripts, a grade point average will be displayed to three decimal places with the third decimal place always being zero due to rounding.

Good Standing

The average of grades earned in the approved program of study may be no less than B (equivalent to a quality-point index of 3.00). A student whose cumulative grade index is below 3.00 has an academic deficiency. Nevertheless, such students will continue to be considered in good standing so long as they demonstrate satisfactory progress toward removing the deficiency in subsequent semesters. Failure to make a significant improvement in the grade-point average may lead to dismissal from the graduate program. Final disposition of such cases is made by the Dean after consultation with the appropriate department.

A grade of F in any graduate course is ordinarily grounds for dismissal from the University.

Students accumulated in excess of nine credits of incomplete (INC) may not register for additional courses until their work is completed. Such a restriction does not apply to INC grades in thesis courses.

Individual departments may impose even more stringent academic standards.

In all schools, a B average or 3.00 cumulative grade-point average is required for awarding of the graduate degree or any graduate certificate. The School of Business, Public Administration and Information Sciences awards diplomas With Distinction to students graduating with a 3.50 average or better.

Absence from Final Examination

Students who for valid reasons do not appear for final examinations must apply in writing within 10 days to their Dean for permission to take deferred final examinations, provided they have received the grade of INC. They may be asked to provide medical certificates in cases of sickness or injury or other documentation of legitimate excuses. Students will be required to pay the Deferred Final Examination Fee per examination.

Application for Degree

Candidates for graduation are expected to file an application for graduation online in the MY.LIU.EDU student portal. Alternatively, a paper application can be submitted at Enrollment Services. Degree application deadlines can be found in the Academic Calendar available on the Brooklyn website at http://liu.edu/Brooklyn/Enrollment-Services/Registration/Academic-Calendar.

Academic Integrity

Academic integrity is the practice of honesty and openness in scholarly, creative, and communal endeavors. Academic integrity is multifaceted. It involves, in addition to ethical practices, the avoidance of plagiarism, cheating, and other forms of professional and personal misrepresentation and dishonesty.

Integrity is essential to the values and discourses that characterize the academic environment; to the maintenance of the academic community itself; and to the role of the academic community within society at large.

Trust and integrity are integral to any relationship, whether on campus or in later personal and professional life.

Plagiarism and cheating are serious violations of academic integrity that have significant consequences for the student.

Cheating includes:

1. falsification of statements or data
2. listing of sources that have not actually been used
3. having another individual write a paper or create a work in lieu of one’s own; writing a paper or creating a work for another to use without attribution
4. purchase of a written paper or work for the purpose of submitting it as one’s own, or selling a written paper or other work for another’s submission as his/her own
5. using written, verbal, electronic, or other sources of aid during an examination (except when expressly permitted, such as on a stated “open-book” exam), or knowingly providing such assistance to another

Please note: This statement and these definitions were agreed upon and accepted by the Faculty Senate of LIU Brooklyn Campus, March 27, 2007. They are to be supplemented by additional principles of academic integrity that are specific to each discipline.
of others and, in particular, that their behavior will not interfere with the ability of the academic community to carry out its usual academic functions. It also implies that students will observe the usual standards of integrity with regard to the preparation of essays and the taking of examinations. Students are also expected to comply with those reasonable rules of procedure promulgated by a faculty member for the conduct of his or her class or by the University for the conduct of its business.

Specifically, students must be aware not only of the performance and intellectual standards of each course, but also of the means acceptable for achieving those goals. Students are expected to study all materials presented and to master them. Students may avail themselves of all sources that will further that mastery – textbooks, the library, student study sessions, tutoring, study aids, and so on. Ultimately, however, the instructor’s judgment of a student’s performance is based on the student’s own intellectual achievement and honesty.

Cheating on examinations and plagiarism of any sort are unacceptable. If proven, either is cause for the most severe penalties up to and including suspension or dismissal from the University.

The classroom instructor determines the rules of acceptable student conduct during examinations. Each instructor has the right to insist on procedures to ensure the integrity of those examinations – seating arrangements, no communication among students, the restriction of materials available to students during the examination, and so on.

If a student is discovered cheating on a classroom examination or written assignment, either by crib notes or by receiving information from or giving information to a fellow student or by any means not stipulated by the rules of the examination, the instructor has the right to confiscate all test materials from the person or persons involved and give the grade of zero for the examination to the person or persons knowingly involved. The instructor also has the right to fail the students involved for the course.

Also, students who submit written or other work provably not their own or who submit work with sources inadequately acknowledged or with an inadequate system of documentation for a specific course assignment may be given the grade of zero for the work submitted and a failing grade for the course.

Any breach of discipline may result in disciplinary action, including suspension or dismissal. The Faculty-Student Judicial Review Board, in accordance with its procedures, may hear all cases that may result in suspension or dismissal and will recommend an appropriate course of action to the Dean.

The activities of a student may upon occasion result in violation of state or federal law. Respect for the presumption of innocence requires that the University not impose academic sanctions for the sole reason that a student is or has been involved in criminal proceedings. The University may, however, impose its own sanctions to protect the safety of other students, faculty and property and to safeguard the academic process. If students, in breaking the law, violate University regulations, they will be subject to no institutional penalty greater than that which would normally be imposed.

All matters involving criminal activity will, upon approval of the Dean of Students, be referred to the appropriate civil authorities for action.

If there is a possibility that testimony or other evidence at a University hearing may be subject to disclosure to civil authorities by way of subpoena, the University’s proceedings should be postponed to safeguard the student’s right to a fair civil determination.

### Appeals Process

Students at LIU Brooklyn may expect a scrupulous regard for their rights as students and individuals and should expect to be treated fairly and with courtesy by all members of the academic community. In any matter in which students feel that their rights have been violated, or in matters of serious dispute with members of the administration or faculty, students may avail themselves of the following formal grievance procedure:
1. The student will write out a clear statement of the grievance.
2. The student may submit the statement to the staff member involved. The student will be given a written response within a reasonable time.
3. If the student is not satisfied with the response or, initially if preferred, the student may submit a statement to the appropriate director or department head. The director will review the matter and provide the student with a written response within a reasonable time.
4. If still not satisfied, the student may institute a formal complaint with the Dean of the school in which he or she is enrolled. The Dean will review the matter, hear the student and staff member where appropriate, and see that the proper action is taken.

The foregoing procedure shall be a formal grievance procedure for the resolution of all student grievances, including those alleging actions prohibited by legislation.

Student complaints brought to the Office of Academic Affairs are investigated and responded to only when the complaint has been addressed at the campus level.

### Criminal Background and Drug Testing

A criminal conviction and/or the use of illegal drugs may impede or bar your entry into your chosen field of study. Students seeking entrance into many graduate fields of study including counseling, education, and health and human services professions should be aware that a criminal record can result in the refusal of licensing/certification/registration agencies to issue the credential needed to practice in that field of study. Prospective students are urged to contact the pertinent state and/or federal licensing agency to inquire whether a criminal record will have an impact on licensure or certification eligibility.

Many clinical/field experience affiliates now require the completion of criminal background checks and/or drug testing for employees, volunteers and students affiliated with the site. Therefore, students who plan to participate in a clinical/field experience may be asked to undergo a criminal background check, and/or a drug screen. Students should be aware that our clinical/field affiliates can reject or remove a student from the site if a criminal record is discovered or if a drug test is positive. In the event that a student is rejected from a clinical/field site due to information contained in the criminal background check, or drug screen, the student may be unable to complete a required clinical/field experience. In such an event, the student, may be advised to withdraw from the program.

### Related Curricular Matters

The responsibility for compliance with these regulations rests entirely with the student.

**Course Numbers**

Courses numbered 600 and above are usually open only to those who qualify for graduate standing. Courses numbered 500 to 599 are designed primarily for those who qualify for graduate standing, but may be taken by advanced undergraduate students with permission from the Dean of the school in which the graduate course is offered.

Two consecutive numbers joined by a hyphen (e.g., Psychology 660-661) designate a course that runs through two semesters. The first half of such a course is a prerequisite to the second. That is not true of courses with consecutive numbers separated by a comma (e.g., Chemistry 603, 604), which may be taken individually. Some courses are offered in alternate years. A schedule of courses is published for each semester, may be obtained from the Registrar’s office, and is available online at www.liu.edu/brooklyn/schedule.

**Change of Plan Department**

A student transferring from one plan (major) department to another must be formally accepted by the Chair of the department to which application for admission is made. The student is expected to notify the Chair of the department that he or she is leaving. Application forms are available in the Graduate Admissions Office.

**Readmission**

Students who have not attended classes for more than five academic years are required to
apply for readmission and must gain approval from his or her Dean. Such students re-enter under the admissions standards and program requirements in existence at the time of re-entry. Readmission applications are available in the Office of Admissions.

**Criminal Background and Drug Testing**

A criminal conviction and/or the use of illegal drugs may impede or bar your entry into your chosen field of study. Students seeking entrance into many graduate fields of study including counseling, education, and health and human services professions should be aware that a criminal record can result in the refusal of licensing/certification/registration agencies to issue the credential needed to practice in that field of study. Prospective students are urged to contact the pertinent state and/or federal licensing agency to inquire whether a criminal record will have an impact on licensure or certification eligibility.

Many clinical/field experience affiliates now require the completion of criminal background checks and/or drug testing for employees, volunteers and students affiliated with the site. Therefore, students who plan to participate in a clinical/field experience may be asked to undergo a criminal background check, and/or a drug screen. Students should be aware that our clinical/field affiliates can reject or remove a student from the site if a criminal record is discovered or if a drug test is positive. In the event that a student is rejected from a clinical/field site due to information contained in the criminal background check, or drug screen, the student may be unable to complete a required clinical/field experience. In such an event, the student, may be advised to withdraw from the program.

**Public Information Policy**

The Family Educational Rights and Privacy Act of 1974 specifically provides that a school may provide what they deem "directory information," and only this information, without the student's consent or as provided by the law. Directory information at Long Island University includes the following: the student's name, enrollment status, major field of study, dates of attendance, degrees and awards received, past and present participation in officially recognized sports and non-curricular activities, physical factors (height, weight) of athletes and the most previous educational agency or institution attended. Students who wish to have their directory information withheld can make this election by filing the appropriate form at Enrollment Services.
REQUIREMENTS FOR DEGREES

The responsibility for properly fulfilling the requirements for degrees rests entirely with the student. Students generally meet the requirements announced in the Graduate Bulletin for the academic year in which they were matriculated or readmitted. Students for whom graduation requirements change during their progress to a degree may, with their Dean’s permission, choose requirements in effect at the time of admission or those in effect at the end of the course of study.

Exceptions to the provisions of this section of this Bulletin may be made only with the prior written sanction of the appropriate Dean on the recommendation of the appropriate Department Chair.

In addition to the requirements listed below, students must satisfy the various additional requirements and conditions that appear in the respective departmental sections of this Bulletin.

Doctoral Degrees (consult the specific department for requirements)

The doctor of philosophy degree is offered by the Psychology Department in the field of clinical psychology and in pharmaceutics by LIU Pharmacy.

The Ph.D. in Pharmaceutics and the Pharm.D. in pharmacology are offered by LIU Pharmacy.

The Doctor of Physical Therapy (D.P.T.) is offered by the School of Health Professions.

Master of Arts

Master of Science

Master of Science in Education

Master of Fine Arts

Degree requirements vary among different programs and are described fully under departmental listings. There are two general routes to the master’s degree: thesis and non-thesis. With an acceptable thesis, a candidate usually completes 30 graduate credits, at least 15 of them in the major department or area of study. Without a thesis, the candidate completes 36 credits of specified courses and passes a comprehensive examination or completes an appropriate specific project.

A maximum of three one-credit workshops may be applied toward a degree. No more than three independent study or tutorial courses may be taken for degree credit.

If a student is seeking a second master’s degree, at least 24 graduate credits must be taken in residence. Advanced placement of up to 12 credits may be awarded upon the written recommendation of the Department Chair and the approval of the student’s Dean. In some programs with greater credit requirements, as many as 18 credits may be accepted. When such an option is not available, the candidate will be so advised in the Letter of Admission or in a letter from the department before commencement of course work.

Master of Business Administration

Master of Public Administration

B.S./M.S. in Accounting

The M.B.A. and the M.P.A. degrees are offered by the School of Business, Public Administration and Information Sciences. The M.B.A. requires completion of 24 credits in general business core courses, 18 credits in an advanced core, 12 credits in a concentration, and 6 credits of capstone coursework for a total of 60 credits.

The M.P.A. program consists of 48 credits, including 18 credits in management courses, 12 credits of advanced courses, 12 credits in a concentration and 6 credits of Capstone project.

The B.S./M.S. in Accounting is a 150-credit program designed to prepare Certified Public Accountant candidates for licensure. The program meets the 150-hour Certified Public Accountants requirement necessary before candidates may sit for the CPA examination.

600- and 700-Level Courses

In the master’s degree programs, a minimum of 18 credits must be taken in courses above the 500 level.

Thesis

The thesis required in many of the graduate programs is intended to test a candidate’s ability to engage in original research, organize and evaluate source materials, and express himself or herself creatively in the area of specialization. A course in research methods is required of most candidates writing a thesis. The interim grade for thesis courses is INC. That grade will be replaced by the grade P only upon acceptance of the approved thesis by the University Reference Library.

Completion of the required courses and matriculant status are among the prerequisites that must be met before a candidate’s thesis will be accepted for consideration. An oral defense of the thesis is normally required.

Each candidate for the master’s degree writes the thesis under the direct supervision of the Chair of the Sponsoring Committee, who is selected on the basis of knowledge of and interest in the subject of the candidate’s thesis proposal. The selection of the Chair and one or two additional committee members will be made by the student and the Chair of the department concerned.

Special Examinations

Departments with degree programs have various requirements for examinations at different stages of the student’s academic career. Students should read departmental requirements and consult departmental advisers to determine which of the following types of examinations are required in their programs.

Admission to examinations requires full matriculant status and the acquisition of the minimum credits indicated under the respective departmental headings. Students must be in attendance or maintain matriculation during the semester they take an examination.

Preliminary Examination

The preliminary examination is usually given in departments that require all students to take a common core of courses. It is sometimes a condition of continued enrollment.

Comprehensive Examination

Most departments require a comprehensive examination of students choosing the non-thesis option; it is given after the completion of a specified number of credits. The examination is designed to test the candidate’s knowledge of general concepts as well as his or her areas of concentration and may be oral or written. Failing the comprehensive examination on three occasions will result in dismissal from the program.

Examinations are administered at least twice a year – in the Fall and the Spring. Information concerning their administration may be obtained from the appropriate department. Applications for the comprehensive examination, which are available in the Office of the Registrar, must be signed by the Department Chair and cleared by the Bursar.

Oral Examination (defense of thesis)

Given by most departments as part of the thesis requirement, the oral examination tests the candidate not only on the thesis project but also in areas ancillary to the thesis. Some departments require an oral defense of the thesis proposal as well as defense of the completed thesis. Other departments require an oral defense of research projects.

Residence

A candidate for the master’s degree must complete at least one year of work (excluding 24 credits at the University; in the M.B.A. program, 30 credits of advanced work are required).

A candidate for the doctoral degree is expected to complete three years of work in residence at LIU Brooklyn.

Students enrolled in LIU Brooklyn programs at branch campuses or off-campus sites must register and complete residency requirements (usually six credits) at LIU Brooklyn.

Courses taken at another university after admission to LIU may not be used for transfer credit unless prior permission is obtained from the major department and the student’s Dean. The sum total of transfer credit granted on admission or authorized subsequently toward the master’s degree is normally limited to 6 to 8 semester hours of credit and is not recorded as part of the grade-point average. In all instances, transfer credit will not be allowed for any graduate courses in which the grade was less than B; that is, courses with a grade B- are not transferable. (Time limits on transferability are outlined below.)

Time Limits

Work for the master’s degree must be completed within five years from the date of admission to the graduate program (exclusive of time spent in the U.S. armed forces), unless the appropriate Dean approves an extension in writing.
Any courses outside the time limit will not count as credits toward the degree unless approved in writing by the appropriate department and Dean.

In the Psychology Department, work for the doctoral degree must be completed eight years after admission.

Transfer credit will be granted only for courses taken in the five-year and eight-year periods, respectively, before the granting of the degree.
REGISTRATION

Registration each semester takes place during the periods indicated in the academic calendar. Non-degree students must obtain permission to register from the Graduate Admissions Office before the beginning of each semester.

Registration and Advisement

To be eligible for registration, every graduate student must confer with a representative in the proposed major department. Students can register online at MY.LIU.EDU.

Payment of all tuition and fees is required in advance of the beginning of classes, unless special arrangements are made with Enrollment Services. Students who have not been cleared by Enrollment Services cannot be considered registered.

Course Load

Full-time graduate students register for no fewer than nine credits in each semester of the academic year. Permission of their dean is necessary to take more than 12 credits in the fall or spring semester or more than six credits in either summer session. New York State residents are eligible for the Tuition Assistance Program grants when enrolled for 12 or more credits. (Please see Student Financial Services for complete requirements and procedures.) Non-degree students are normally limited to two courses in the regular semester and one course in each of the summer sessions.

Admission of Undergraduate Students to Graduate Programs

Seniors who need substantially less than a full program to meet the requirements for the bachelor’s degree may take, concurrently with their undergraduate program, a limited number of 500- and 600-level graduate courses and reserve the credits for a master’s degree. Such a special arrangement will be limited to undergraduate students who have been formally admitted as graduate students, pending satisfactory completion of bachelor’s degree requirements. Applicants must have permission from the graduate program as well as authorization from the undergraduate institution. Qualified juniors and seniors attending LIU Brooklyn may, with the approval of the Chair of the Department concerned and the Graduate Dean, take courses on the 500-level for undergraduate credit to complete the requirements for the bachelor’s degree. The credits they receive may not subsequently be applied toward the credit requirements for the master’s degree.

Undergraduate student enrollment in 600-level courses will not be approved by the Graduate Dean unless there is exceptional justification given by the Department Chair.

Auditing of Courses

In order to gain necessary background or enhance general knowledge, students may audit graduate courses for no credit. The permission of the instructor and of the Dean is required in every case. Laboratory courses and fieldwork practicums may not be audited. Students (who must have been admitted to a graduate program) pay half the regular tuition for courses, and their transcripts will show that the courses have been audited.

Maintenance of Student Standing

It is expected that students will fulfill the requirements for the degree by registering over successive semesters, either by attending classes or maintaining matriculation. A degree candidate who does not reregister for classes must apply to his or her Dean for maintenance of matriculation before or during the registration period, if the student wishes to continue under the requirements in effect when admitted. A fee must be paid during the registration period of each inactive semester (excluding summer sessions).

Maintenance of matriculation does not extend the time limits specified under Requirements for Degrees.

Students serving in the armed forces of the United States maintain their standing automatically during their time of service. They are, however, required to inform the Office of Enrollment Services of the dates of entrance into military service and termination of active duty.

Change of Status

A non-degree student who has met all the requirements for matriculation must submit a graduate application to the Office of Admissions.

Withdrawal

Withdrawal from All Courses

An Official Withdrawal refers to an action taken by a student to discontinue enrollment after the drop period has expired. The course is recorded on the transcript with a grade of W.

- Course Withdrawals/Partial Withdrawals - when a student withdraws from one or more classes, but remains enrolled in at least one class.
- Term/Session Withdrawals/Complete Withdrawals - when a student drops or withdraws from all of his/her courses in a current term. This can occur at one time or over a period of time within a term.

Unofficial Withdrawal

An Unofficial Withdrawal refers to a student who fails to attend or ceases to attend one or more classes without officially withdrawing from the University. The course is recorded on the student’s transcript with a grade of UW.

Course Drop

A Course Drop is an action taken by a student prior to the start of, or during the term. The dropped course does not appear on his/her transcript. Please refer to the University Add/Drop Policy for details on course drops.

Official Withdrawal Deadlines

- Complete Term/Session Withdrawals - Students may officially withdraw from the University prior to the start of finals.
- Summer Session Withdrawals - Students may officially withdraw from the University prior to the start of finals for the session.
- Winter Session Withdrawals - Students may officially withdraw from the University on or before the seventh day of the session.

Course Withdrawals/Partial Withdrawals - Students may officially withdraw from one or more classes through the 10th week of the term. Please refer to the Academic Calendar in the Campus Bulletin on the University website for specific dates in each term.

Withdrawal Methods

The University permits students to withdraw from a course, session, or term in the following manner:

Submit Completed Withdrawal Application Form

A student may withdraw in person, by fax, or by email by submitting a signed and completed Withdrawal Application Form to Office of Enrollment Services by the withdrawal deadline. Forms are processed upon receipt. Any forms faxed outside business hours, during weekends or holidays will be processed the following business day.

Process through MyLIU

- Course Drop - Students can use their MyLIU portal to drop courses online through the second week of the term. Please refer to the University Add/Drop Policy for details on course drops.
- Email to Office of Enrollment Services - A student may notify the Office of Enrollment Services of their intent to withdraw from the University via their MyLIU e-mail account. Due to FERPA regulations, the University will not respond to requests from outside email sources. In the body of the email, the student must state their intent to withdraw from a course, session, or term. Please include your Student ID number and direct contact information.

Withdrawal Impacts

Effective Date of Withdrawal

- Official Withdrawals: The withdrawal date will be recorded with an effective date when all forms are completed, signed and returned to the Office of Enrollment Services. The University has a published Appeals Policy for students who wish to appeal their official withdrawal date.
- Unofficial Withdrawals: The withdrawal determination date for students who do not
officially withdrawal will be recorded as the last date of the term. For Federal financial aid purposes, it will be assumed that the student unofficially withdrew at the midpoint of the term. See Grading Policy for additional details.

**Tuition Liability/Refund**

- **Official Withdrawals and Drops:** The effective date of drops and/or withdrawal will determine the student tuition liability due or refund due to the student. See Tuition Liability Policy for additional details, including refunds for room and/or board charges. The University has a published Appeals Policy for students who wish to appeal tuition charges and fees due.

- **Unofficial Withdrawals:** The student is responsible for all associated tuition charges and fees.

**Transcript/Grades**

- **Official Withdrawals:** A grade of W will be assigned for the course or courses and will appear on the student’s transcript.

- **Unofficial Withdrawals:** A grade of UW will be assigned for the course or courses and will appear on the student’s transcript.

- **Drops:** The course or courses will neither be considered attempted nor earned.

**Credits Attempted/Earned**

- **Official Withdrawals:** The course or courses will be considered attempted but not earned.

- **Unofficial Withdrawals:** The course or courses will be considered attempted but not earned.

- **Drops:** The course or courses will neither be considered attempted nor earned.

**Grade Point Average**

Withdrawn or dropped courses do not affect a student's grade point average.

**Financial Aid Adjustments**

- **Change in Student Status:** Students will have their financial aid cancelled if the student drops all courses and does not incur any liability, or fails to meet satisfactory academic progress standards as a result of the withdrawal. Financial aid for future terms may also be cancelled. See Appeals Policy and SAP Policy for additional details.

- **Cancellation of Financial Aid:** Students who have their financial aid cancelled will have their financial aid adjusted. The University may also be required to report the student's change in enrollment status to lenders, which can trigger the repayment of student loans. Students will be notified in these cases via writing.

- **Return of Federal Funds:** The University is required to return funds for students who stop attending all courses before completing 60% of the term. The student will be notified by mail of the unearned amounts returned to the Federal financial aid programs. The return of Federal funds may result in a balance due to the University, particularly if the student previously received and cashed a refund check. See Return of Federal Funds Policy for additional details.

**Residential Life**

Students residing in on-campus housing must contact the Office of Residence Life upon withdrawal from the University. Students must follow proper check-out procedures and must vacate their campus housing within 48 hours of the effective withdrawal date. Students who drop or withdraw from a future term must vacate their campus housing after completion of finals. Room and board charges must be cancelled through the Office of Residence Life. Liability for these charges will be assessed at the time of cancellation.

**Future Enrollment**

Students who withdraw from all courses may be subject to readmission. Students who withdraw from the University must be in good financial standing in order to register for future classes or have access to their official and unofficial transcript.

**Special Program Participation**

- **Athletics:** In accordance with NCAA regulations, all intercollegiate athletes must notify the Athletic Department and Office of Admissions when partially or fully withdrawing from the University.

- **Veterans:** In accordance with VA regulations, students receiving veteran's benefits must notify the VA Certifying Official in Enrollment Services when partially or fully withdrawing from the University.

**Alternatives to Withdrawal**

**Schedule adjustments**

When contemplating a withdrawal due to scheduling conflicts, students should discuss their situation with their academic advisor, academic dean, or the Office of Enrollment Services to see if accommodations can be made.

**Incomplete Grades**

For some students, receiving an incomplete grade and finishing the coursework at a later time may be a better option than withdrawing from the University. Students should be advised to discuss this option with their instructor, academic advisor or academic dean.

**Refund of Tuition in Cases of Withdrawal**

When a student withdraws from courses, the University refunds tuition as outlined in the Withdrawal Policy (please see the Tuition and Fee Schedule).

**Student Access to Educational Records**

In compliance with the Family Educational Rights and Privacy Act, LIU Brooklyn informs eligible students and their parents that they may obtain copies of the Campus’s Policy Statement concerning the act from the Office of Institutional Rights and Privacy Act, LIU Brooklyn informs
GRADUATE TUITION AND FEES
(2015-2016 RATES)

Students are billed for tuition and fees at the time of registration. Room and board charges are reflected at the time of room assignment. Students must make satisfactory payment arrangements prior to the start of each term or before moving into residence halls to remain in good financial standing.

Students must make acceptable payment arrangements or officially withdraw prior to the start of classes to remain in good financial standing. Acceptable payment arrangements include:

- Payment in full using check or credit card;
- Approved financial aid covering all charges;
- Signed and approved University Payment Plan Agreement Form; and/or
- Participation in an approved third-party payment agreement.

A student who complies with any of the above shall be considered in good financial standing, so long as all conditions are met throughout the term. All payment arrangements must be completely satisfied or late payment fees and/or penalties will be applied to your account. If your balance becomes seriously past due and no arrangements are made, the University will refer it to an external collection agency or law firm, where additional fees and penalties may be charged to your account. All policies can be found online at www.liu.edu/enrollment-services.

A detailed listing of all tuition and fees can be found at www.liu.edu/enrollment-services.

Residence Life

ACCOMMODATIONS (per term)

| Housing Deposit (non-refundable) | $300 |
| 490 Fulton Street: |
| Studio | 9,780 |
| Double Studio | 7,956 |
| 1 Bedroom Double | 8,262 |
| 1 Bedroom Apartment | 10,690 |
| 2 Bedroom Apartment | 10,200 |
| 3-4 Bedroom Apartment | 9,792 |
| 5-6 Bedroom Apartment | 6,528 |

MEAL PLANS (per term)

| Residential Meal Plan 1 (unlimited meals plus $300 dining dollars) | 2,469 |
| Residential Meal Plan 2 (14 meals per week plus $300 dining dollars) | 2,259 |
| Residential Meal Plan 3 (10 meals per week plus $300 dining dollars) | 2,049 |
| Residential Dining Dollars | 300 |
| Dining Dollars+ Plan ($200 additional dining dollars) | 200 |

All resident students are required to participate in a meal plan. The Residential Dining Dollars plan is only available to residents in apartments with kitchens. Dining dollars can be used at point of sale locations across the campus.

Tuition Liability and Refund Policy

Students are responsible for knowing that they are registered for classes, that they are expected to pay for these classes in a timely manner, and must understand and follow the correct procedures to withdraw from classes. Non-attendance and/or non-payment do not constitute official withdrawal from the university. The calculation of your tuition and fee liability, if any, is based on the date of your official withdrawal or drop in accordance with university policy. Room and board charges must be cancelled through the Office of Campus Life. Liability for these charges are assessed on a pro-rata basis at the time of cancellation.

When a student withdraws, the university will refund tuition and fees as per the following schedules:

Fall and Spring Regular Sessions

<table>

Students requesting a review of their assessed tuition and fee liability must complete the appeals form for student withdrawals in accordance with university policy and submit all required supporting documentation. Detailed policies and procedures can be found at www.liu.edu/enrollment-services.

Student Health Insurance

Long Island University has partnered with Gallagher Koster to develop a cost-effective Student Health Insurance Plan that provides our students and families with robust medical coverage at school, back home, and while traveling or studying abroad. All international students, clinical students, residential students, Global College students and intercollegiate athletes qualify and are automatically enrolled in the plan but can waive participation online at www.gallagherstudent.com/liu if they have comparable coverage under a family plan or other policy.

Annual Rates
• Mandatory and Compulsory/Hard Waiver Students - $2,193
• Spouse/Domestic Partner - $2,193
• Each Additional Child - $2,193

Qualifying new students who enter during the Spring or Summer terms can participate in the plan with prorated coverage periods and rates.

Enrollment/Waiver Periods
Annual Plan: July 1 – September 30
Spring Plan: January 1 – February 15
Summer Plan: May 15 – July 1

Beginning on July 1st, students can go to their MyLIU account and click on the "Student Health Insurance" link from the Student Center Home Page to enroll in the plan, waive coverage, print temporary ID cards, and file or check claims. Coverage begins on August 15, 2015, which represents the start of the plan year, and extends through August 14, 2016. You can also visit the Gallagher Koster website directly at www.gallagherstudent.com/liu.
FINANCIAL AID

Financial Aid is awarded on an annual basis in the form of scholarships, grants, loans and part-time employment. Assistance is offered to students admitted into eligible graduate degree and advanced certification programs at LIU Brooklyn.

Application Process

All candidates for LIU scholarships or grants, Federal grant and loan programs, work-study opportunities, and New York State awards are required to complete the Free Application for Federal Student Aid (FAFSA) each year. The FAFSA should be completed online at www.fafsa.ed.gov. The federal school code for the LIU Brooklyn campus is 002751. Continuing students at LIU must reapply for financial assistance each year. Applicants for financial aid may expect to be notified of the decision reached by the Office of Enrollment Services (Financial Aid) shortly after their files have been completed. No action will be taken until the candidate has been accepted by the Office of Admissions.

Awards

LIU Scholarships and Awards

The LIU Brooklyn campus awards approximately $100 million in university scholarship assistance to students each year. These scholarships and grants, which do not require repayment, are based on academic success, athletic ability, community service, artistic talent, and financial need. The campus also offers honors and departmental scholarships for specific programs of study. A detailed listing of graduate scholarships can be found online at www.liu.edu/brooklyn/scholarships.

Federal and State Aid Programs

The Federal government awards financial assistance to students who demonstrate financial need according to a variety of economic criteria as determined by the United States Department of Education. The criteria include an individual and/or parents’ income and assets, family’s household size, and the number of family members attending college. Benefits from all federal programs are subject to legislative changes. Recipients of federal programs must be U.S. citizens or permanent residents. Contact the Federal student aid agency at 1-800-433-3243 or www.federalaid.ed.gov for more information.

A detailed listing of Federal and State programs, including Direct Loans, can be found online at www.liu.edu/brooklyn/finaid/grants.

Veteran Benefits

The LIU Brooklyn campus has a proud and distinguished history of serving its nation’s military veterans and active duty service members. Our supportive community of staff and faculty is dedicated to seeing veterans succeed in their education, career and life. To accomplish this mission, LIU Brooklyn provides the resources needed to pursue educational opportunities while balancing the demands of life both inside and outside the classroom.

With the Post-9/11 GI Bill, education-related benefits, including funds for tuition, housing, books and supplies, are better than ever for our veterans. In addition, financial aid, scholarships and New York State tuition awards and grants may also be available to help you with costs that are not covered by your veteran benefits. Additional information can be found online at www.liu.edu/Brooklyn/StudentLife/Veterans.

Private Loan Program

If you find that you need funding beyond the limits of the Federal Direct Student Loan Program, you may wish to consider a private loan. These loans are not guaranteed by the Federal government and are considered private loans. We urge all students and parents to research any lender they are considering for this type of funding and to specifically ask a number of key questions, including:

- current interest rates
- co-signer requirements
- repayment options, both in school and out
- whether or not the loan may be sold to another provider

The University does not have a preferred lender for alternative loans; each student has the right to select the educational loan provider of his or her choice.

If you have considered applying for an alternative loan, you may be required to complete the Free Application for Federal Student Aid at www.fafsa.ed.gov in order for the University to certify your loan eligibility. Alternative loans that are used to cover prior semesters may require additional information for approval, such as letters certifying indebtedness, attendance verification, official transcripts, etc. As such, when requesting funding for prior terms, be sure to reference the correct academic year on your application.

The basic process involved with securing alternative loans is the electronic filing of an application, institutional certification, and approval information. Generally speaking, electronic filing processing requires at least 72 hours before a lender will respond. The University will assist you in this process and will determine for you the maximum loan amount you will be allowed to borrow based on your estimated cost of attendance and pre-existing financial aid awards. The complete process normally takes 7-14 business days.

Terms and Conditions

Awards are not finalized until all requested supporting documentation has been properly submitted and reviewed. All awards are subject to funding levels and appropriations by Federal and State agencies. Many aid programs require that you be matriculated and attend the LIU Brooklyn campus on at least a half-time basis. LIU reserves the right to adjust or cancel offers of financial assistance if you make changes to your FAFSA, adjust your registration status, withdraw from one or more courses, or fail to maintain good academic standing for financial aid purposes. LIU also reserves the right to change the selection criteria, deadlines, and awarding process of academic awards.

Awards, grants, and scholarships listed are for graduate study only and do not apply to undergraduate or professional studies. Students enrolled in accelerated and dual degree programs are advised to contact the Undergraduate Admissions office to obtain information on aid for the undergraduate portion of their degree.

All awards from the LIU Brooklyn campus are accompanied by a letter of stipulation detailing the terms of the award. Students are governed by the stipulations accompanying their specific awards. Part-time status, for the purpose of scholarship and grant renewal, is defined as carrying and earning a minimum of 6 credits per semester. Unless otherwise indicated, University assistance is for tuition charges only. Students are advised to inform LIU of any aid received from outside sources, and awards from LIU may be adjusted if such additional assistance is in excess of estimated need.

Standards for Satisfactory Academic Progress

Federal Financial Aid Programs

Federal regulations require students to make satisfactory academic progress (SAP) toward the completion of a degree or Title IV eligible advanced certificate program in order to receive Title IV financial aid through the Federal Direct Loan Program. Satisfactory academic progress is measured qualitatively and quantitatively by two components: a student’s cumulative grade point average (GPA) and the amount of credits they have earned relative to their year in school and enrollment status.

Satisfactory academic progress is measured annually, at the end of the Spring semester, after all grades have been submitted. Students failing to meet the criteria stated below are eligible to appeal this decision if extenuating circumstances played a factor in their academic performance. Examples of such circumstances could include an illness, accident, separation or divorce, or the death of a relative. An appeal must be made in writing to the university and include an explanation of the circumstance(s) that may have adversely affected the student’s ability to meet the academic requirements, and the plan or changes that have occurred which will allow them to make SAP in the future. All appeals must be accompanied by supporting documentation, such as a letter from a
If an appeal is granted, the student will either be placed on probationary status for one semester during which the student must meet SAP guidelines, or must successfully adhere to an individualized academic plan that was developed for them by their academic advisor as part of their appeal. Failure to meet these criteria will result in loss of eligibility for Title IV funds.

Students wishing to receive Title IV financial aid for Summer semesters may have these awards evaluated and offered prior to a determination of SAP. All students receiving summer aid will have their SAP evaluated after all spring grades have been submitted. Students not making progress will have their summer aid cancelled, and the student will be liable for all tuition and fee charges incurred unless an appeal is filed and granted as outlined above.

The criteria below outline the progress that is required for a full time graduate student to be considered in good standing:

Completion Rate Requirements: All students must earn at least 67% of their attempted hours. The maximum time frame to complete each degree varies by department and is outlined herein under the specific degree program.

- GPA Requirements: Students who have earned fewer than 13 credits must maintain a 2.5 GPA; students who have earned 13 credits or more must maintain a 3.0 GPA.

Notes:

- Progress standards for part-time students are prorated based upon the criteria above.
- Qualifying transfer credits are counted as both attempted and earned credits but have no effect on the GPA.
- Grades of W (Withdrawal), UW (Unofficial Withdrawal), INC (Incomplete), ABS (Absent) and IF (Incomplete Fail) are counted as credits attempted but not completed, and do not affect the GPA.
- Repeated classes will count only once towards credits completed. A student may receive aid for a repeated class that has been successfully completed once.
- Any departmental requirements that exceed these standards must be adhered to for the purposes of evaluating SAP.
ATHLETICS

LIU Brooklyn Athletics is a member of the Northeast Conference in NCAA Division I, and currently supports 18 varsity sport programs that compete at the highest collegiate level in the country. The Blackbirds have won 14 league championships over the last four seasons, the most over any four-year stretch in school history, including three straight NEC titles in men’s basketball from 2010-13 and nine NEC titles in women’s volleyball in the last 11 years.

CAMPUS MINISTRY

Rev. Charles P. Keeney
718-488-3359

Campus Ministry at LIU Brooklyn dares to foster a community that takes its faith traditions very seriously. We challenge our members to be credible witnesses of their traditions of faith and to employ the best elements of the same in the services of our community.

As a diversified, multi-religious and ethnic community par excellence, we seek to enrich one another and our community with the values of our different traditions, and to collaborate ecumenically as advocates for justice, peace and reverence for life.

The sacred writings of the different religions serve as our guide for action. And our mode of operation is from campus to social outreach, from place of theory to place of reality, from feelings of concern to actions against poverty, hunger, disease and social injustice.

Our goal is to help our community develop the full potentials of their humanity, become better citizens and responsible inhabitants of our planet, and to die with a better hope.

CULTURAL PROGRAMS AND EXHIBITIONS

With three galleries, LIU Brooklyn presents monthly exhibitions of paintings, sculpture, photographs, prints, and other art forms by emerging and established artists. This thriving and diverse exhibition program, sponsored by the Visual Arts department, reflects LIU Brooklyn’s strong commitment to making an array of visual art accessible to both students and the community. Gallery spaces include the Salena Gallery, the Nathan Resnick Showcase Gallery and the Humanities Building Gallery. Located in the lobby of the Kumble Theater, the glass-enclosed, elliptically shaped Humanities Gallery showcases unique presentations of projects and installations, many of which could not be displayed anywhere else.

LIVING ON CAMPUS

Manisha Ford-Thomas, Director
718-488-1046
email: bkn-reslife@liu.edu
website: www.liu.edu/brooklyn/campus-life

Residence Life and Housing provides a safe, caring and respectful community where experiential interactions inspire learning, citizenship, leadership and holistic reflection aligned with the Long Island University mission.

Residents reside in one of three residential halls. Richard L. Conolly Hall is a 16-story building of standard, suite, and apartment spaces for freshmen, sophomore, and junior class residents. Seniors live in the 1 Hoyt Street which is comprised of suites and apartment spaces. Graduate students reside in 490 Fulton a three-floor all-apartment residence.

All residential students are required to participate in one of the University Meal Plan options. All residences offer free wireless internet, cable, study lounges, recreation rooms, TV lounges, laundry rooms, 24 hours/day security officers, and dedicated professional and paraprofessional staff. Typical residential spaces include an extra-long twin sized bed, desk, desk chair, dresser, MicroFridge, wardrobe unit/closet, AC, and personal digital safe.

PUBLIC SAFETY

Emergencies: 718-488-1078
Non-Emergencies: 718-488-1078

The Department of Public Safety at the Brooklyn campus of Long Island University is located in the rear of Metcalfe building, opposite the Pharmacy building. The department has a full-time staff that consists of a director, three tour commanders, three lieutenants, three desk sergeants, 45 public safety officers, and an administrative assistant. Public safety officers are licensed by the State of New York and are trained, certified and registered pursuant to the New York State Security Guard Act of 1992. The department serves the campus 24 hours a day, 7 days a week year-round and may be reached by dialing 1078 on campus telephones (add prefix 488 when using outside lines).

The Department of Public Safety is concerned with the welfare and safety of all members of the campus community and their guests. The activities of the Department of Public Safety are enhanced by its close relationship with the 84th and 88th Precinct, who shares the responsibility of maintaining law and order on the campus. This agency often notifies the department of any off-campus arrest involving members of our campus community if there is a perceived threat to the welfare of the other members.

Public safety officers are not peace officers, but they do handle criminal acts and crime scenes until the police department arrives. Suspects are identified and detained for action by the arriving police personnel.

ANNUAL CAMPUS SECURITY REPORT

In accordance with the provisions of the Jeanne Clery Act, Brooklyn Campus’ annual security report includes statistics for their previous three calendar years concerning reported crimes that occurred on campus; in certain off-campus buildings or property owned or controlled by LIU Brooklyn; and on public property within, or immediately adjacent to and accessible from, the campus. The report also includes institutional policies concerning campus security issues, such as those concerning alcohol and drug use, crime prevention, the reporting of crimes, sexual assaults, hate crimes, and other relevant matter.

EMERGENCY MANAGEMENT

LIU Brooklyn’s Department of Public Safety offers comprehensive services in emergency response and management to ensure the safety of our students, faculty and staff. Through several initiatives, the campus is prepared for a wide array of emergency situations, ensuring prompt notification and protection of the campus community whether the event is commonplace or extraordinary. In the event of emergency, LIU Brooklyn’s Emergency Notification System is enabled to instantly and simultaneously contact LIU Brooklyn students, faculty and staff via Long Island University email, Web site notifications and text messaging to those who register their cell phones with the university. Emergency Building Managers assist Public Safety in disseminating information in their designated building and have been trained in “Evacuation” and “Shelter-in-Place” procedures. LIU Brooklyn employs the use of an outdoor siren warning system.

An efficient Snow and Emergency School Closings system is in place to ensure our students are informed of closings immediately via the LIU Brooklyn homepage, our emergency closings hotline (718-488-1000 or 718-488-1078), as well as local radio and television stations.

STUDENT LIFE

Division of Campus Life
Pratt 122, 718-780-6545

LIU Brooklyn’s Office of Student Life facilitates the development of students, and hones their personal and organizational leadership skills by providing opportunities for participation in co-curricular, cultural, social, civic, community and wellness programs. The core values of student life are leadership, integrity, service, community, diversity, learning, and school spirit, and we carry out our mission primarily through our oversight of clubs and organizations, leadership training programs, evening programs, civic and community programs.

All students in good standing are encouraged to take part in extra-curricular activities. Activities as well as academics combine to develop and hone
skills that are beneficial in the workplace, and that provides the springboard for leadership opportunities in the world beyond LIU. Programs offered through the Office of Student Life are funded by the proceeds of the student activity fee. The distribution of the student activity fee promotes a progressive and student-centered program.

**Student Organizations**

We guide and assist 30 academic student organizations, 22 social organizations 19 cultural organizations, 6 religious organizations, 11 honor societies, and 11 Greek organizations with the planning, organizing and implementing of each group's goals and events. In addition, we oversee the student media coalition which is comprised of: WLIU Radio, a state-of-the-art radio station, WLIU DJ Mobile Unit, Seawanhaka Newspaper, Sound Yearbook, and LIU Television.

**Leadership Training**

Student life provides yearly leadership training for all students involved in student organizations at our summer leadership retreat as well as workshops for secretaries and treasurers. In addition, we have a student leadership academy which is primarily designed to train students to be leaders on campus. Both trainings are augmented by other stand alone trainings, workshops or webinars on specific issues like goal-setting, time management, diversity, friendship and self-esteem, and alcohol awareness.

**Avena Lounge**

The Avena Lounge is a student area complete with opportunities for building business management and event planning skills. The lounge has a game room, kitchen for special events, and a snack bar which operates in the evenings from Mondays through Thursdays. Employment opportunities in the lounge also affords students the ability to hone their leadership skills while receiving payment.

**Evening Recreation Program**

Our dynamic evening recreation program is multi-faceted ranging from basketball, tennis and African/Caribbean Dance to board games, table tennis and X-Box game tournaments. Students in the program compete in national and local tournaments. The program also sponsors trips to The New York Rangers and New Jersey Devils hockey, New York Knicks and Brooklyn Nets basketball, New York Mets and Yankees baseball, and New York Jets and Giants football.

**Civic and Community Program**

Student Life co-hosts at least two workshops per year on the American electoral process and the importance of being registered to vote and being informed about political issues in general. The office registers approximately 400 students per year in our various voter registration drives. In addition, we accommodate students who go to Albany to lobby for student financial aid and other issues pertinent to them.

Additionally, the office sponsors a One Good Deed program which involves a myriad of community service projects that include fundraising for various benefits such as Haitian earthquake and Hurricane Sandy relief, Breast Cancer research etc., an alternative spring break trip, several blood drives throughout the year, clothing and book drives, holiday celebrations for children in the community and several others. All students and members of student organization in particular are encouraged to complete at least 100 hours of community service per year.

Applications for the Student Leadership Academy, and the Community Service Involvement Forms are available in our office, Pratt 122.

**Student Government Association**

All enrolled students are members of the Student Government Association (SGA). The executive officers of the SGA, along with the elected representatives from each class, constitute the Student Council. Some of the Student Council’s many duties include allocating of funds to all campus clubs; approving the formation of new organizations; and sponsoring extracurricular programs of intellectual, cultural and social appeal for the student body. In addition to its administrative functions, the Student Council acts as a liaison between the student body and the faculty and administration. All students, including entering freshmen, in good academic standing are eligible to take part in the extracurricular activities program.
Arnold & Marie Schwartz Gym

The Brooklyn Paramount Theater opened on November 23, 1928. At the time of its opening it was the second largest theater in New York with 4,500 seats. Once considered the most beautiful motion picture theater in the world, it was the first designed theater for movies with sound. Doubling as a concert hall, many famous musicians such as Ella Fitzgerald, Miles Davis, Duke Ellington, Chuck Berry and Buddy Holly all graced the theater with their musical presence.

In 1962, a transformation began to turn the historic Paramount Theater into the Arnold and Marie Schwartz Athletic Center.Though modified into an Athletic Center, all the original decorative detail on the walls and ceiling were preserved. In addition to the preservation of the structure, the world famous Wurlitzer organ is housed and still operational underneath the basketball court. The Arnold and Marie Schwartz Athletic Center became home to the LIU basketball and volleyball squads. Officially opening in 1963, it was the Blackbird’s home until the opening of the Wellness, Recreation and Athletic center in 2006. With the opening of the Wellness, Recreation and Athletic Center - now the Steinberg Wellness Center - in 2006, the Paramount Gym has become a multipurpose venue used by the university for events, shows, dinners, classes and intramural sports. Because of its unique history, majestic ceiling and hand carved wall fixture, the gym as become a site that outside businesses and the Brooklyn Community love to use for events.

Downtown Brooklyn Speech-Language-Hearing Clinic

The Downtown Brooklyn Speech-Language-Hearing Clinic, located in the Fort Greene/Downtown Brooklyn community, is a vital part LIU-Brooklyn’s graduate program in Communication Sciences and Disorders. Our state-of-the-art center employs speech-language pathologists who serve as clinical faculty and supervisors to our graduate interns. Clinical staff are licensed by the NY State Office of the Professions, and certified by the American Speech-Language-Hearing Association (ASHA) and the New York State Department of Education. The graduate program is accredited by the Council on Academic Accreditation of ASHA.

If you believe that you, or someone you know, has a speech-language, swallowing or hearing problem, call us at 718-488-3480. Our fees for services are affordable. We also have a reduced fee schedule, if needed.

Kumble Theater for the Performing Arts

Kumble Theater for the Performing Arts at LIU Brooklyn is a dynamic, state-of-the art performance venue serving one of the most diverse campuses and communities in the country. It is designed to nourish artistic exploration and development by students and other emerging artists while providing the entire community greater access to an exciting range of quality classical and cutting-edge professional performances from around the world.

Impeccably crafted for the dramatic and technical demands of dance, music and theatrical productions, this elegant, 320-seat theater provides finely tuned acoustics and top-tier lighting, projection and other electronic capabilities. With a stage featuring a “sprung” floor extending to the seating area, the theater fosters an intimacy between performers and their audiences.

This extraordinary theater was made possible through the generosity of LIU Trustee Steven J. Kumble. It is part of an ambitious campus renovation that created an extensive performing arts complex also featuring a black box theater, dance studios and a glass-enclosed art gallery. Among other major supporters of the performing arts complex are the EAB/Citigroup Foundation, through former LIU Board of Trustees Chair Edward Tragavliani, LIU trustee emeritus Donald H. Elliott, former LIU trustee Bruce C. Ratner, the City of New York and the Independence Community Foundation.

Psychological Services Center

Seymour Pardo, Director
718-488-1266

At our Psychological Services Center, free and confidential personal counseling is offered to students by supervised doctoral candidates in Clinical Psychology. Students experiencing stress in relation to academic, social or family situations or students who simply feel they are not living up to their full potential for various reasons may benefit from speaking to someone at the Center. Whether stress is interfering with a student’s ability to do his/her best at school or is affecting the student’s family or social life, talking can help. No one in or outside the university knows who comes to the center, except in the rare case of danger to self or other.

The Psychological Services Center is located on the fifth floor of the Pratt Building, Room 510 and is open on Mondays and Thursdays 9 a.m. to 4 p.m., Tuesdays 11 a.m. to 4 p.m., and Fridays 10 a.m. to 3 p.m. Students can call to make an appointment or just stop by.

Steinberg Wellness Center / Wellness, Recreational & Athletic Center (WRAC)

This 112,000 square foot facility supports the Campus’ 17 Division I Athletic teams, provides a state-of-the-art workout facility and swimming pool for the Campus Community, and offers a broad array of health and wellness services to our students, faculty, and administrators, as well as the members of the Brooklyn community at large.

Steinberg Wellness Center (previously called Wellness, Recreational & Athletic Center (WRAC)) features a 2,500 seat arena, which hosts the Campus’ Division I basketball and volleyball games, high school athletic events, and a variety of other special events. The fitness center includes state-of-the-art cardio and strength equipment, and a group exercise studio that includes free classes such as Pilates, yoga, hip hop dance, total body conditioning, Salsa, Zumba and abs-workout classes. The facility also includes a 25-yard, eight lane swimming pool and a rooftop track and tennis courts.

Steinberg Wellness Center encompasses the Health and Wellness Institute which provides activities and programs that promote good health and wellness behaviors that reduce health disparities and improve the quality of life for members of the Campus community and the community at large. The Health and Wellness Institute houses one of New York City’s only state-of-the-art HydroWorx 2000 therapeutic pool, which includes an elevating floor to allow for easy access and varied water levels, an underwater treadmill with speeds up to 8.5 mph, underwater video camera and viewing monitors, body weight-support harness system, adjustable temperature control, and jets that propel water and can be used to resist movement and to challenge a person’s balance.

The Center for Physical Rehabilitation is a state-of-the-art facility that offers a wide range of physical therapy services to the LIU Brooklyn community as well as to residents of the surrounding community. The Center provides a “hands-on” approach for a broad array of physical issues and offers a customized treatment plan that is tailored to your specific health needs. We pride ourselves on delivering individualized care by licensed physical therapists who are experts in treating a diverse client population.

The Harriet Rothkopf Heilbrunn Academic Nursing Center is also located in the cellar level of the Steinberg Wellness Center. The HRH Academic Nursing Center’s mission is to reduce health disparities among high-risk populations by providing accessible and affordable, primary, secondary and tertiary prevention activities focusing on risk assessment, education, counseling, and referral for vulnerable, underserved populations in downtown Brooklyn.

LIU Brooklyn Graduate Bulletin 2015 - 2016
including the students and employees of LIU Brooklyn. The Center provides free health screenings, programs to monitor existing health conditions, Mammogram and HIV testing and counseling and support programs.

### Student-Run Businesses

LIU students learn what it takes to run a business by running a business. Students are involved in every facet of operations, from product selection and marketing to sales management and bookkeeping. Profits from LIU’s student-run businesses support student scholarships, along with new business initiatives to create real-world business experiences for more students.

#### Brooklyn Treat Shoppe

Located in the Library Learning Center on the third floor, the Brooklyn Treat Shoppe offers a wide range of options to satisfy your snack craving, from baked goods and candy to healthier options like fruit and baked chips, along with an array of beverages that includes iced coffee and coconut water.

#### Browse

Browse offers a selection of popular technology brands and products, and is an authorized Apple products retailer. Students will find all the tools they need to power their LIU Brooklyn experience, from tablets and notebooks to all-in-one desktop computers and gaming consoles, as well as accessories. Students will benefit from the IT help desk, which they can use as a resource for technological needs and questions. In addition, students working in the store will gain expertise as they work alongside certified Apple service help desk technicians.

Browse is a Dell University Campus store and special discounts are available for LIU Community members.

#### Healthy Choices

Healthy Choices is LIU Brooklyn’s newest student-run business, located on the third floor of the Library Learning Center. The shop offers wholesome food, including many kosher-friendly items, and is managed by students under the direction of the Center for Entrepreneurship.
Alumni Community

Office of Development and Alumni Relations
718-488-1016

The Office of Alumni Relations and Development is dedicated to advancing LIU’s mission of Access and Excellence. Guided by the university’s strategic priorities, the office nurtures lifelong relationships with alumni, parents, friends, and organizations that result in volunteer engagement and philanthropic support. All students of LIU Brooklyn are members of the alumni community upon graduation.

Alumni Benefits

The Alumni community of LIU receives access to a lifetime of benefits designed to keep alumni connected to one another:

Furthering Your Education

- Graduate Admissions Preparedness Program (GAPP): GAPP permits alumni who have held their degrees for two years or longer to register for a lifetime maximum of 12 credits in credit-bearing undergraduate courses for which prerequisites have been completed. Students can take no more than 2 courses per semester, and must complete their work over 3 consecutive terms. A $200 registration fee is required per semester, but tuition is waived.
- Lifetime of Learning: Lifetime of Learning is a program which enables alumni to audit courses for pleasure and enrichment. For a fee of $100 per semester, and with permission of the instructor, you may take up to two courses.

Graduate Alumni Award: Graduates with a 3.0 GPA who want to pursue their first master’s degree are eligible for a $1,500 scholarship each semester if they maintain a 3.0 cumulative average. Students must enroll in six credits per semester.

Paying it Forward

- Legacy Alumni Scholarship: Children or siblings of alumni are eligible for the legacy alumni scholarship award for up to $1,500 each semester in their first year if they maintain a 3.0 cumulative average.
- Summer Camp discount: Enjoy a one-time 15% discount at LIU Post Youth Camps and the Children’s Academy at LIU Brooklyn.

Visiting Campus

Enjoy the performing arts: alumni receive a 10% discount at the Tilles Center for the Performing Arts at LIU Post and receive discounted tickets at the student price at Kumble Theater for the Performing Arts at LIU Brooklyn.

Stay healthy: alumni receive a discounted $345 membership fee to join the Pratt Recreation Center at LIU Post and the Wellness Recreation and Athletic Center (WRAC) at LIU Brooklyn.

Library resources: alumni receive access to LIU’s large and diverse university libraries and computer labs, including a 10% discount at the campus bookstores.

Retail Discounts

PerksConnect Card: access to PerksConnect which provides discounts to local and national retailers. Visit www.perksconnect.com

GEICO: alumni receive discounted insurance through GEICO. visit www.geico.com/alum/liu

Bloomberg Businessweek: save up to 90% off your subscription, visit www.businessweek.com/subscribe. Use code: LIU.

Discovery Times Square: save $5 on adult/senior tickets and $2 on child tickets at Discovery Times Square in NY.

Kaplan Test Prep: save 10% on Kaplan Test Prep Courses including the GRE, GMAT, LSAT and MCAT. Use discount code: LIUAlumni10.

LIU Brooklyn alumni are encouraged to support the Fund for LIU, which provides assistance to LIU students in need through vital financial aid programs. To obtain an alumni ID card, update your contact information, or to learn more about benefits and volunteer opportunities, please contact the Office of Development and Alumni Relations at 718-488-1016 or email alumni@brooklyn.liu.edu. The office is located in the Metcalfe building, rm. M101.
modern tools to our students, faculty, staff competitive edge in higher education and to offer university ahead of the technology curve to build a single unit that facilitates and fosters technology Information Technology's role has transformed, Vice President for Information Technology study groups. exam review sessions, and assistance with forming tutoring sessions, online tutoring, targeted group one-on-one or small-group sessions, walk-in help you become a better learner. Tutoring sessions are assistance in mathematics, business, languages, and the humanities, as well as the social, physical and technology brands and products, from tablets and technology in the classroom. My LIU My LIU portal provides students with convenient access to information about their records. By logging onto https://my.liu.edu, students may view their schedule of classes, register for courses, obtain their grades, request transcripts, and apply for graduation. They may also view financial aid awards, billing information, make online payments, accept and decline Federal Loans and Federal College Work Study, and make an appointment to see counselors. For more information, please visit or contact Browse. Student E-Mails Each student is assigned a university e-mail address to use for corresponding with university faculty and staff. Students can check their e-mail by logging into https://my.liu.edu. If you have any trouble accessing your My LIU account, please check with the helpdesk at Browse at LIU Brooklyn on Dekalb Avenue. IT Website: http://it.liu.edu IT Email: IT@LIU.edu Phone: 718-488-3300 International Student Services Steve A. Chin, Director Phone: 718-488-1389 Fax: 718-780-6110 E-mail: steve.chin@liu.edu The Office of International Student Services provides special services to students from abroad and responds to their unique needs and problems. It gives information and sees to it that the resources available on campus are being used. It also guides and helps students with immigration and personal matters. All international students are required to contact the Office of International Student Services as soon as possible after registration. Special orientation programs are given during the fall and spring semesters. The office is a source of reference for international students on F-1, M-1 and J-1 visas. Mathematics Center Dung Duong, Assistant Director 718-246-6317 Hours: Monday – Thursday: 10 a.m. – 7 p.m. Friday: 10 a.m. – 5 p.m. Saturday: 10 a.m. – 3 p.m. The Mathematics Center, located in room M – 1105, offers students the opportunity to develop basic mathematics skills required for mathematics problem solving, as well as logical and analytical thinking by offering the non-credit courses DSM-
01 and DSM-09. Tutors are available as well as opportunities to learn how to use software in personal computers. The Mathematics Center is a place where all students will be able to enhance their knowledge and understanding of mathematics. All students are able to visit the Mathematics Center to obtain free tutoring. The Mathematics Center provides help and tutoring for all students taking freshman level mathematics for academic credit. The Mathematics Center is not only a place for students with mathematics related problems on specific subjects, it is also a challenging work site for advanced students in all areas of studies where mathematics is involved. The Mathematics Center always welcomes walk-in students. In addition, individual tutors are available to assist with the use of software applicable to other areas of study – biology, chemistry, physics, pharmacy – offering useful tools for a better analysis and understanding of those disciplines. All students are eligible to participate, either voluntarily or upon instructor referral.

Modern Language Center

718-488-1323

The Modern Language Center offers both intensive and non-intensive English language programs for international students, immigrants and refugees who wish to improve their language skills. Classes are given mornings and evenings, Monday-Thursday, throughout the year; F-1 (student) visas and financial aid are available for qualified students. The Modern Language Center is located in the Library Learning Center, 4th Floor.

Multimedia Language Laboratory

Peter Kravsky, Associate Director
718-780-4568

Location: LLC-021

The Multimedia Language Laboratory enables students of foreign languages as well as English as a Second Language (ESL) to improve their language skills at their own pace, either individually or collaboratively, using a full range of interactive language learning software. The Language Laboratory provides a learning environment where students can:
• test their comprehension on any items covered in class,
• check their understanding of grammar and spelling,
• read a variety of material and check their comprehension of vocabulary and content,
• practice pronunciation and listening comprehension through viewing and hearing material in the target language.

Student Support Services

Dr. Joanne Hyppolite, Director
718-488-1215

Student Support Services is a federally funded TRIO program which aims to encourage and assist students who are traditionally under-represented (first generation, low income) in postsecondary education, as well as provide qualified students with disabilities with appropriate academic accommodations and support needed to ensure equal access, in the preparation for, entry to, and completion of a post secondary degree.

The Office of Student Support Services provides opportunities for academic development with the aim of increasing the retention and graduation rates of its students. This is done by:
• Pairing all registered students with an education specialist who will guide and work with them for the duration of their academic career
• Ensuring that all students receive academic tutoring and instruction in areas such as reading, writing, math and science
• Routinely monitoring the academic progress of its students
• Identifying current and potential problem areas, devise and implement interventions and make appropriate referrals
• Acting as a liaison for students with disabilities
• Improving financial and economic literacy

Disability Support Services

In order to receive accommodations under the Americans with Disabilities Act a current or incoming student must:
• have a physical or mental impairment which substantially limits any major life activity
• have a record of such an impairment
• be regarded as having such an impairment

Students who wish to receive accommodations must self identify to the Office of Student Support Services.

For additional information please contact our office at the number above or visit our website www.liu.edu/Brooklyn/StudentLife/SSS.

Testing Center

Andres Marulanda, Director
718-488-1392

Location: Pratt, Suite 110

Hours: Monday – Thursday, 9 a.m. - 6 p.m.
Friday, 9 a.m. - 5 p.m.

The Testing Center is committed to provide a nurturing, informative environment for students taking the LIU Brooklyn Placement Examination or other examinations deemed necessary by the university community. The placement examination is administered on campus or electronically through the Online Writing Assessment. Our Testing Center supports student success by ensuring that entering students are placed in appropriate English and mathematics courses. Other examinations administered by the center include retests and exemption exams such as the Math 10 and language exams, Ability-to-Benefit exams required for some students for financial aid and exams to fulfill the core curriculum computer literacy graduation requirement. Support and appropriate arrangements are available for out-of-state students or applicants with qualifying disabilities.

The Testing Center works collaboratively with the campus community and supports academic departments by providing testing and proctoring services. The office administers the Teaching and Learning Assessment, the HESI A2 Nursing exam, diagnostic tests including the ASSET and Accuplacer exams, and other professional and certification examinations including the CST, CPT, and CSCS, among others.

Veteran Services

LIU Brooklyn has a proud and distinguished history of serving its nation’s military veterans and active duty service members. Our supportive community of staff and faculty is dedicated to seeing you succeed in your education, your career and your life. To accomplish this mission, LIU Brooklyn provides the resources needed to pursue your education while balancing the demands of life both inside and outside the classroom.

For additional information, our Veterans School Certifying Official can be reached at 718-488-1013 or 718-488-1587; email: bklnmilvets@liu.edu.

Writing Center

Patricia Stephens, Director
Lynn Hassan, Associate Director
718-488-1095

Hours: Monday-Thursday: 9 a.m.-8 p.m.
Friday: 9 a.m.-5 p.m.
Saturday: 10 a.m.-4 p.m.

The Writing Center, located in Room H-218, offers one-on-one and small group tutoring to all LIU Brooklyn students. Its mission is to help students become better writers over time. Tutors work with students at all stages of the writing process: understanding an assignment, drafting an essay, learning more effective reading strategies, developing and supporting arguments, and learning how to proofread and edit papers. Students may register for ongoing weekly 50-minute sessions, one-time appointments, or distance tutoring. The Writing Center also serves as an on-campus resource and reference center for writing instruction and, through its Student Writing Group Project, works closely with the Writing Across the Curriculum (WAC) program, offering in-class writing workshops across the disciplines. Students registered at the Writing Center are welcome to use the dual-platform computer lab.
The FUN (Family UNiversity) Program has been designed to serve financially eligible LIU Brooklyn students and their children. The FUN Program is located within the Learning Center for Educators & Families (LCEF), a vital site for inquiry and learning and part of LIU’s School of Education at 9 Hanover Place. With support from LIU Brooklyn and the School of Education, we are able to provide a safe space for children to engage in community-building, explore their creativity through arts and literacy based activities, receive help with their schoolwork and eat a healthy dinner - leaving parents free to pursue their education. Beginning Fall 2015, in addition to the school-age (grades 1-7) program, FUN will offer an afternoon and evening early childhood (ages 2.5-5) program.
The LIU Libraries system serves a combined total of over 20,000 students and more than 600 full-time faculty members across residential and regional campuses. The university’s libraries share many online resources that can be accessed from anywhere at any time via remote access including subscriptions to more than 99,000 online journals; 150 online databases; 155,000 electronic books; and 56,000 files of streaming media. These resources may be accessed via the LIU Brooklyn Library homepage at http://www.liu.edu/brooklyn/library.

Collectively, the libraries house approximately 675,000 print books and more than 14,000 non-print media items. The collections of all LIU libraries are listed in LIUCAT, the library catalog. Books, journal articles and other library materials owned by LIU’s libraries not available at a particular campus can be requested through LIUCAT and through the intercampus library loan courier service. Items not available at LIU libraries can also be requested through interlibrary loan and brought to campus or delivered electronically.

The LIU Brooklyn Library houses a rich collection of books, periodicals, microforms, audio and videotapes, CDs and DVDs, pamphlets, and other materials in support of the campus’ educational programs.

The reference collection, reference desk, paralegal collection and Technical Services departments are situated on the third floor of the Salena Library Learning Center. An information commons, consisting of clusters of computers, provides access to the databases, library catalog, and the Internet, all within a few steps of the reference librarians. These computers, as well as all other computers in the library, are also equipped with productivity software such as word processing, spreadsheet, and presentation programs.

The Periodicals department, with a collection of both print and microform titles, is located on the fourth floor, where digital microform readers and printers are available. The InterLibrary Loan, Special Collections, Rare Book Room, and the Electronic Services department are also located on the fourth floor.

The circulation desk, reserve collection, and the main book stacks are located on the fifth floor. The Media Center, housing the multimedia collection, media equipment and a group viewing room, is also on the fifth floor, as is the Library’s Cyber Lab. The Cyber Lab is equipped with computers that provide access to databases, library catalog, and Internet as well as up-to-date word processing, spreadsheet, presentation and database programs. In addition, the Library’s “smart classrooms” are located on the fifth floor. Photocopying machines are available on all three floors of the Library.

The Library is a member of several consortia, which grant both reading and borrowing privileges to LIU students. The Library offers information literacy classes and curriculum-integrated instruction. Library faculty and staff are available to help faculty and students with reference questions and research strategies.
The College of Liberal Arts and Sciences at LIU Brooklyn offers the doctoral degree in clinical psychology, as well as the master’s degree in biology, chemistry, English, media arts, political science, psychology, social science, speech-language pathology, urban studies, master of fine arts degrees in media arts and writing and producing for television and the United Nations certificate program. All degrees and certificates are registered with the New York State Department of Education. The College is named in honor of Admiral Richard L. Conolly, who was the university’s president from 1953-1962.

For information, please contact the Dean’s Office at 718-488-1003, fax 718-780-4166, or visit the website at www.liu.edu/brooklyn/clas.

ANTHROPOLOGY

Professor Ali
Professors Emeriti Carden, Hittman, Rosenberg
Associate Professors Hendrickson (Chair), Kim, Barton, Juwayeyi
Associate Professor Emeriti Gritzer, Harwood
Assistant Professor Emeritus Sherar
Adjunct Faculty: 4

The Master of Arts degree in Anthropology is not offered at this time, but graduate courses in anthropology are offered as part of other departments and programs including the United Nations Graduate Program, Urban Studies and Social Science.

Anthropology Courses

ANT 500 Reading In Anthro
Independent reading, research and study under the guidance of an anthropology faculty member; topic to be mutually agreed upon in advance.
Credits: 3
On Demand

ANT 510 World Cultures
This course allows graduate students in any degree program to access the wealth of knowledge anthropology has contributed to the study of human diversity. Students will be introduced to a set of conceptual tools for researching, analyzing and comparing people across the globe, including anthropology's signature method, "ethnography." Students will read classic and current writing in the social sciences and consider the ways an anthropological perspective can enrich their professional and academic work.
Credits: 3
On Occasion
A master of science degree can be used as a steppingstone for multiple career paths. Students may further their scientific pursuits by continuing on to earn a Ph.D. in the biological sciences. Alternatively, students may enter the work force and be employed in research laboratories in pharmaceutical and biotechnology companies, hospitals and federal and state agencies. Successful graduates also may choose to enter medical, osteopathic, veterinary or dental schools to obtain professional degrees. In addition, students can choose from a wide variety of health related fields, such as physical therapy, nursing, genetic counseling, radiologic technology, to name a few. Biology majors are encouraged to develop specific career objectives while pursuing their graduate studies. Departmental advisers will assist students in exploring career possibilities and in devising a personalized plan of study that will best prepare them for their career goals.

**Admission Requirements**

To be admitted to this program you must:

- Have completed a bachelor’s degree with a grade point average of 3.0 or greater
- Have completed the undergraduate level (1) six advanced courses in biology, (2) one year of college mathematics including at least one semester of calculus, (3) one year each of inorganic and organic chemistry, and (4) one year of college physics. Deficiencies in any of these qualifications may be removed during the first year of graduate study without credit.
- International students: (1) Must complete the equivalent of a four-year bachelor’s degree. (2) Submit all records translated into English and have the original record, or copies of the original, certified or attested to by an official of the school issuing the record, or by the Consulate/Ministry of Education of the issuing country. (3) Submit a course-by-course evaluation, completed by an acceptable international credential evaluation agency, for all transcripts/marksheets from colleges or universities outside of the United States. (4) Submit an official copy of the Test of English as a Foreign Language (TOEFL) administered by the Educational Testing Service or the International English Language Testing System (IELTS) examination.
- Transfer students must present an overall grade point average of 3.0 and submit official transcripts for the attended college(s)
- Submit a completed application to the Office of Admissions (see Submitting an Application for Admission)

**Submitting an Application for Admission**

All applicants must apply for admission to LIU Brooklyn. Please apply online at My LIU or use the Apply Now link in the top navigation bar. For more information on the admissions process, visit the Office of Admissions website.

Fully matriculated students may begin their research projects after defending their thesis proposals before a committee of graduate biology faculty. An oral defense of the completed thesis before a committee of the graduate faculty of the department is required.

All graduate students are required to attend the regularly scheduled seminars given by the Department of Biology. Students will be responsible for answering comprehensive questions relating to those seminars that are relevant to their graduate courses.

**M.S., Biology**

**Student must complete either Option A or Option B.**

**Thesis Track (Option A):**

The minimum credit requirement for thesis track (Option A) is 30 credits. In addition to the courses listed above (15 credits), the following is required:

- **Thesis courses:**
  - BIO 707 Research and Preparation of the Thesis | 3.00 |
  - BIO 708 Research and Preparation of the Thesis | 3.00 |
- A total of 9 credits in electives from graduate biology courses:
  - BIO 500-599 all BIO Subjects listed in catalog | |
  - BIO 600-699 all BIO Subjects listed in catalog | |
  - BIO 700-799 all BIO Subjects listed in catalog | |

**Internship**

- **maximum of 6 units**

**Comprehensive Exam Track (Option B):**

The minimum credit requirement for comprehensive exam track (Option B) is 36 credits. In addition to the courses listed above (15 credits), the following is required:

- 21 credits from graduate biology courses:
  - BIO 500-599 all BIO Subjects listed in catalog | |

---

**DEPARTMENT OF BIOLOGY**

Professors: Chung, Cohen, Griffiths, Morin (Chair), Serafy, DePass, Marsh

Professors Emeriti: Hammerman, Polak, Smith

Associate Professors: Birchette, Haynes, Kovac, Kwon, Leslie, Tello

Associate Professors Emeriti: McKenna

Assistant Professors: Kwak, Molina, Vogelstein

Instructor: Peckham

Adjunct Faculty: 20

At the graduate level, the Department of Biology offers the M.S. in Biology which offers concentrations in molecular/cellular biology, microbiology and medical Microbiology. Our core of 16 full-time faculty members augmented by over 20 adjuncts provides students with unrivaled expertise in a wide variety of subject areas including molecular and cellular biology, bioinformatics, ecology, evolution, microbiology, genetics, ornithology and marine biology. The goal of the department is to provide a challenging and stimulating curriculum that fosters critical thinking and promotes scientific curiosity on current topics in the biological sciences.

**M.S. in Biology**

The M.S. in Biology is designed to prepare students for graduate or professional studies as well as for entering the job market. Students choose from one of four concentrations: general biology, molecular/cellular biology, microbiology or medical microbiology. Students, with the approval of their advisor, design their course of study which may vary from the specific areas of molecular/cellular biology, microbiology or medical microbiology to more general areas such as sustainability, ecology, systematics or environmental studies. For each concentration a student chooses one of two pathways to complete the degree: (1) complete a research project under the advisement of one of the faculty members, and write and successfully defend a thesis based upon that research; or (2) take a comprehensive examination based upon the course work completed. Each concentration has a set of required core courses (see Course of Study) which the student must complete; additional course work is completed from elective classes.

Students who elect to complete a thesis must complete a total of 30 credits (core plus electives). Students who elect to take the comprehensive examination must complete a total of 36 credits (core plus electives). For qualified students, financial aid packages are available in the form of graduate assistantships for teaching and research. These assistantships provide a stipend for the student and cover the cost of tuition for up to 9 credits per semester. Students can receive these assistantships for a maximum of four semesters.
BIO 600-699  all BIO Subjects listed in catalog

BIO 700-799  all BIO Subjects listed in catalog

Internship  maximum of 6 units

Biology, Medical Microbiology (Plan II)
The following courses are required:
BIO 536  Laboratory in Bacteriological and Molecular Techniques  1.00
BIO 537  Laboratory in Biochemistry and Computer Use  1.00
BIO 620  Biochemistry  3.00

The following courses are required:
BIO 550  Molecular and Cell Biology  2.00
BIO 551  Molecular and Cell Biology Laboratory  2.00

Of the following courses only one (1) is required:
BIO 612  Cytology: The Nucleus  3.00
BIO 613  Cytology: The Cytoplasm  3.00

Student must complete either Option A or Option B.

Thesis Track (Option A):
The minimum credit requirement for thesis track (Option A) is 30 credits. In addition to the courses listed above (15 credits), the following courses are required:
• Thesis courses
BIO 707  Research and Preparation of the Thesis  3.00
BIO 708  Research and Preparation of the Thesis  3.00

• 9 credits of electives from graduate biology courses:
BIO 500-599  all BIO Subjects listed in catalog
BIO 600-699  all BIO Subjects listed in catalog
BIO 700-799  all BIO Subjects listed in catalog
Internship  maximum of 6 units

Comprehensive Exam Track (Option B):
The minimum credit requirement for comprehensive exam track (Option B) is 36 credits. In addition to the courses listed above, the following is required:
• 9 credits of electives from graduate biology courses:

BIO 500-599  all BIO Subjects listed in catalog
BIO 600-699  all BIO Subjects listed in catalog
BIO 700-799  all BIO Subjects listed in catalog

Internship  maximum of 6 units

Biology, General Biology (Plan IV)
The following courses are required:
BIO 701  Biology Seminar  1.00
BIO 702  Biology Seminar  1.00

The following courses are required:
In addition, all students must take a minimum of 11 credits (Option A - See below) or 17 credits (Option B - See below) from the foundation courses listed below

BIO 503  Modern Concepts of Evolution  3.00
BIO 505  Biostatistics  3.00
BIO 536  Laboratory in Bacteriological and Molecular Techniques  1.00
BIO 537  Laboratory in Biochemistry and Computer Use  1.00
BIO 608  Ecology  3.00
BIO 613  Cytology: The Cytoplasm  3.00
BIO 620  Biochemistry  3.00
BIO 622  Effective Communication in Science  3.00
BIO 625  Plant Molecular Biology  3.00
BIO 631  Genetics  3.00
BIO 692  Molecular Biology  3.00

Students must complete either Option A or Option B.

Thesis Track (Option A):
The minimum credit requirement for thesis track (Option A) is 30 credits. In addition to the courses listed above (13 credits), the following courses are required:
• Thesis courses
BIO 707  Research and Preparation of the Thesis  3.00

BIO 500-599  all BIO Subjects listed in catalog
BIO 600-699  all BIO Subjects listed in catalog
BIO 700-799  all BIO Subjects listed in catalog

Internship  maximum of 6 units
BIO 708  Research and Preparation  3.00
of the Thesis

- 11 credits of electives from graduate biology

**Credit and GPA Requirements**
Minimum Credits (Thesis Option): 30
Minimum Credits (Comprehensive Exam Option): 36
Minimum Major GPA: 3.00
**Biology Courses**

**BIO 503 Evolution**
A study of the basic concepts and principles of evolutionary biology, beginning with a brief history of evolutionary thought, followed by the fundamental concepts of evolutionary genetics, adaptation and natural selection. Additional topics include molecular evolution and systematics, the origins of biological diversity, and paleobiology and macroevolution. The primary emphasis will be on concepts with a major goal to impart some understanding of the methods used in evolutionary investigations: the kinds of observations and experiments that are used, the facts that are observed and inferred, and the kinds of reasoning used to develop and test hypotheses. Concepts are reinforced through independent trips to the American Museum of Natural History. Two hours of lecture per week plus a term paper. Prerequisite: An undergraduate major or minor in biology. A course in genetics is strongly recommended.

Credits: 3  
Every Fall

**BIO 504 Evolution and Human Development**
This course explores the evolution of humans within a broad comparative and theoretical framework involving molecular genetics, gross and microscopic anatomy, embryology, human and non-human paleontology, ecology, and macro/micro-evolutionary processes. An overview of current primate taxonomy and its attendant problems is followed by a brief consideration of our earliest primate ancestors before proceeding to a comprehensive examination of subsequent ‘human’ precursors and several controversies regarding the rise and distribution of modern human populations. Two hours of lecture per week plus term paper. Prerequisite: An undergraduate major or minor in biology which includes at least one upper level course in human anatomy and physiology. BIO 503 is strongly recommended.

Credits: 3  
Every Spring

**BIO 505 Introduction to Biostatistics**
This course is designed for graduate students in the biological or health related sciences with the objective of enabling them to understand and apply the theories underlying the techniques of point and interval estimation, hypothesis testing, regression analysis and the design of experiments. In the main, the course will focus on the analysis of biostatistical, pharmaceutical and clinical trial data and will be motivated by solving problems in many diverse areas of applications in the biological and pharmaceutical realms. Two hours of lecture per week. Pre-requisite: MTH 30.

Credits: 3  
Cross-Listings: BIO 505, MTH 505  
Every Spring

**BIO 508 The Biology of Cancer**
A general survey in oncology. Lectures address the historical perspective of cancer research, the definition and classification of tumors, the epidemiology of human cancer, gene regulation and differentiation in normal and tumor cells, characteristics of transformed malignant cells, the biology of tumor metastasis, host transformed malignant cells, the origins of human cancer, and cancer therapy. Two hours of lecture per week plus term paper. Prerequisite: General background in Biology and Chemistry.

Credits: 3  
Cross-Listings: BIC 508, BIO 508  
Alternate Fall

**BIO 531 Neurochemistry**
A discussion of the morphology, biochemical composition, metabolism, physiology and pharmacology of the nervous system. The course begins with the general principles of synaptic transmission and deals in depth with several of the neurotransmitter systems in terms of biosynthesis of the transmitter, storage, release, inactivation in the synapse, and receptor types and how they mediate their signals in the postsynaptic cells. Also included are discussions on aging and development in the nervous system, drug addictions, and the role of various dietary nutrients on nervous system function. Two hours of lecture per week. Offered on occasion. Prerequisite: At least one semester of Biochemistry.

Credits: 3  
Cross-Listings: BIC 531, BIO 531, CHM 531  
On Occasion

**BIO 536 Laboratory in Bacteriological and Molecular Techniques**
A laboratory course that introduces students to the basic methods in bacteriology and molecular biology. The first seven weeks deal with such bacteriological techniques as pure cultures, sterile bacteriological techniques as pure cultures, sterile

**BIO 543 Current Topics in Biology**
This course is a one-day conference on a current and interesting biological topic, covering a wide range of biological disciplines. Each year the topic is chosen for its timeliness. Speakers who are experts in their particular field are invited to speak and to suggest several pertinent papers. Students are required to write a paper that presents an overview of the topic and then synthesizes the information from the talks and papers.

Credits: 1  
Every Spring

**BIO 544 Biology of Pathogenic Microorganisms**
Emphasis on microorganisms that cause infectious diseases, including bacteria, fungi, viruses as well as their interrelationship with the host's immune system. Characteristics of these infectious microorganisms with respect to mechanisms of pathogenesis and transmission as well as methods of prevention and treatment where appropriate. Two hours of lecture per semester. Prerequisite: Undergraduate or graduate-level general bacteriology course.

Credits: 3  
On Occasion

**BIO 545 Biophysical Chemistry**
An introduction to principles and techniques in Physical Chemistry and the application of those fundamentals to studies on biomolecules, including biomembranes, peptides, proteins and DNA. Designed for students who plan to work in chemical or pharmaceutical companies or who plan to do research in the biochemical, biological, biomedical and chemical sciences. Two hours of lecture and three hours of laboratory per week.

Credits: 4  
On Demand

**BIO 550 Molecular and Cell Biology**
An advanced course in the molecular biology of eukaryotic gene structure and regulation, with emphasis on mammalian cell and developmental biology and genetics. Biochemical and biophysical studies of nucleic acids, chromatin and chromosome structure, somatic cell and immunogenetics; DNA sequence organization and cell developmental biology are all considered. Two hours of lecture per week.  
Prerequisite: Biology 161 or permission of the instructor.

Credits: 2
BI 551 Molecular and Cell Biology Laboratory
An advanced laboratory course in the molecular biology of eukaryotic cells. Laboratory instruction may include RNA isolation and analysis, protein expression and purification, protein-protein interaction, DNA-mediated gene transfer and microcomputer analysis of DNA sequence databases. Two two-hour laboratory sessions per week.

The co-requisite of Biology 550 is required.
Credits: 3
Every Fall

BI 554 Principles of Molecular Pharmacology
Molecular pharmacology is the study of drug function at a molecular level. A major focus of this course involves the exploration of the molecular mechanisms of drug action and metabolism. Research on drugs from the major therapeutic areas will be studied. The mechanisms of both intended effects and side effects will be reviewed. New approach to drug discovery will be considered, with a focus on the molecular basis of drug function as a key to drug identification. There will be an assigned paper on the molecular mechanism, distribution, and function of a selected drug group. Two hours of lecture per week plus term paper. Pre-requisites: Chemistry 121 and 122. (Biochemistry would be helpful but is not required.)
Credits: 3
Alternate Spring

BI 562 Conservation Biology
Conservation Biology is a study of the diversity of life and threats to that diversity. This course will include introductory topics that are the foundation for the field, issues at the levels of populations, communities and ecosystems, and end with the practical application of conservation biology in a real and complex world. Specific topics to be investigated are: the meaning and ethics of conservation and biodiversity, the recognition of species in danger of extinction (using techniques of population genetics and ecology, biogeography and systematics), and preservation of species. The course will consist of lectures, class discussions of original research and review papers, and a research paper and presentation. Two hours of lecture per week plus two field trips and a term paper.
Credits: 3
Alternate Spring

BI 565 Topics in Evolution and Ecology
This course will be an interactive discussion of avian ecology and evolution, designed to go beyond the textbook knowledge of avian ecology and evolution and provide the students with a critical examination of the theories, hypotheses, and lab and field based data that support or refute these hypotheses. This course will be based on a recent book on avian speciation, which presents some novel and provocative perspectives on important issues in avian ecology and evolution, plus additional readings from primary literature. Two hours of lecture per week plus a term paper.
Credits: 3
On Occasion

BI 607 Neuroanatomy
A study of the organization of the human central nervous system. Emphasis is placed on the structures and organizations of the brain and spinal cord and on the cranial nerves, with additional material on the cranial and spinal column, the meninges, the blood supply, embryonic development, and histology of the central nervous system. Two hours of lecture per week plus a term paper. Prerequisites: General Biology. A course in anatomy is recommended.
Credits: 3
Every Fall

BI 609 Human Genetics
A basic course in the principles of human genetics and molecular biology. Lecture topics include structure of the human chromosome; techniques in molecular biology and cytogenetics; structures of chromosomal abnormalities; abnormal chromosomes in humans and their related diseases; karyotype analysis; inheritance patterns of human diseases; mapping human chromosomes; and human gene isolation. Two hours of lecture per week plus term paper.
Credits: 3
Alternate Fall

BI 610 Signal Transduction and Pharmacology
A study of the mechanisms by which molecules and drugs affect biological processes. Signaling on the organismal, cellular and molecular levels is described, with an emphasis on establishing a firm foundation of understanding of important signaling systems in biology. Molecular and genetic aspects of intracellular signal transduction are explored in depth. Topics also include quantitative and qualitative treatment of the interaction of ligands with their receptors. Knowledge-based approaches to drug discovery are analyzed as well. Two hours of lecture per week plus term paper. Prerequisites: Undergraduate biochemistry.
Credits: 3
Alternate Spring

BI 612 Cytology: The Nucleus
A detailed treatment of the structure and function of the cell, with particular attention directed toward the chromosome and its composition, structure and conformation during the cell cycle. Regulation of nuclear events by extracellular ligands and cytoplasmic signalling pathways are discussed. Two hours of lecture per week plus collateral reading and a term report.
Credits: 3
On Occasion

BI 613 Cytology: The Cytoplasm
An investigation of the organization and structure of the cytoplasm, including a detailed treatment of cell organelles and their activities and interactions. The molecular and biochemical relationship among all cellular components is stressed. Two hours of lecture per week plus a term paper.
Credits: 3
Every Spring

BI 615 Bioinformatics
The course covers modern approaches to analysis of the vast quantities of data generated by current biological studies. Advanced statistical methods are explored including Bayesian approaches. The uses of DNA sequence comparisons are explored. Finally the structural role of proteins in health and disease are covered and a statistical framework to explain structural features is developed. Three hours of lecture per week.
Credits: 3
Every Fall

BI 616 Biochemistry of the Blood and Bone Marrow
This course presents an overview of hematology, including the structure and function of erythrocytes, leukocytes and platelets, and their development in the bone marrow. Mechanisms of normal and abnormal hemostasis (blood coagulation) will be covered. Recent findings in normal and in pathologic states will be discussed. Two hours of lecture per week plus a term paper.
Credits: 3
On Occasion

BI 619 Structural Biology
The course examines the structure of biological molecules with a focus on proteins. The synthesis, folding of protein families and the structural motifs of proteins are studied. Tools for the determination and prediction of protein structure are presented from the perspective of the investigator who needs to judge the quality of available data. A major focus is the area of structural genetics: understanding how changes in protein structure induced by mutation lead to genetic dysfunction and disease. Course includes a computer laboratory. Two hours of lecture per week plus term paper.
Credits: 3
Every Spring

BI 620 Biochemistry
The course examines the synthesis and degradation of cellular macromolecules in prokaryotic and mammalian systems. Topics include the structure of macromolecules and sugar, lipid and amino acid metabolism. Emphasis is placed on the regulation, integration, and organ specialization of the metabolic pathways. Two hours of lecture per week plus term paper.
Credits: 3
Every Fall

BI 622 Effective Communication in Science
Students will develop creative and imaginative means to produce a presentation. A highlight of the course will be when students present a seminar to the class. The means and needs for producing a
BIO 623 Molecular Genetics of Bacteria and Phage
Overall objective of this course is to offer a comprehensive vision of molecular genetics of prokaryotic microorganisms including Bacteria, Archaea, and Bacteriophages. This course is suited for advanced undergraduate and graduate students. Emphasis of the course will be placed on the molecular aspects of bacterial chromosomes, transformation, conjugation, transduction (lytic and lysogenic phages), genetic recombination, and global regulatory mechanisms in prokaryotic microorganisms. This course will also include a laboratory session to practice the lecture subjects. Two hours of lecture and three hours of laboratory per week. Prerequisites: BIO 101, BIO 109, BIO 126, BIO 128 or other lower-level microbiology-related courses.
Credits: 4
Every Spring

BIO 631 Genetics
A comprehensive review of modern genetics with an emphasis on recent approaches. One major theme is genomics, gene mapping and discovery; another is use of functional genetics to understand gene function and complex processes in model organisms. Two hours of lecture per week plus term paper. Prerequisites: An undergraduate major in Biology or equivalent and knowledge of the fundamental principles of genetics.
Credits: 4
Every Spring

BIO 632 Developmental Biology
A review of the current concepts and experimental evidence regarding developmental phenomena. Special emphasis is placed on the molecular biology and genetic control of selected phases and processes of animal development. Two hours of lecture per week plus collateral readings and term paper. Prerequisite: A college course in Embryology or the equivalent; a college course in Genetics is recommended.
Credits: 3
On Occasion

BIO 641 Advanced Microbiology
First semester of a two semester sequence (BIOs 641 & 642). Presentations on the anatomy and physiology of various prokaryotic and eukaryotic microorganisms. Emphasis is placed on the composition, structure and function of cellular organelles, enzyme localization, molecular mechanisms of action of antimicrobial agents, and selected topics of current interest in microbial physiology. Two hours of lecture per week plus collateral readings and term paper. Prerequisite: Microbiology.
Credits: 3
On Occasion

BIO 642 Immunology
A study of the basic principles of immunology, including antigens and their reactions, antibodies and their properties, the cells and tissues of the immune system, tolerance, and the specificity and molecular biology of the immune response. Two hours of lecture per week plus term paper. The prerequisite of BIO 604 is required.
Credits: 3
Every Fall

BIO 661 Endocrinology
An exploration of the development, structure and function of the endocrine system: how hormones act as regulators of growth and metabolism by affecting activity of target cells and tissues. Using a combination of lecture, interactive questioning and microscope or Kodachrome slides, basic anatomy is correlated with the physiology, regulation and effects of secretions. Homeostasis and pathophysiology are discussed. Two hours of lecture per week plus term paper.
Credits: 3
Every Fall

BIO 670 Plant Ecology and Biogeography
Plant Ecology and Biogeography is a three credit graduate course, covering the current topics and state-of-the-art methodologies of addressing the topics in the science of plant ecology. The topics include global change, the value and preservation of biodiversity, invasion biology, and habitat destruction/fragmentation and restoration. The methodologies include experimental design, data analysis and SAS programming, classification, ordination and PC-ORD software, meta-population theory and RAMAS software, meta-analysis and MetaWin software, spatial analysis and PASSAGE software, and GIS/remote sensing and ARCVIEW/ARCPINFO software. The class meets two hours per week and is a combination of lectures, computer lab exercises and literature reviews.
Credits: 3
On Occasion

BIO 684 Advanced Microbiology
Second semester of a two semester sequence (BIOs 641 & 642). Presentations on the anatomy and physiology of various prokaryotic and eukaryotic microorganisms. Emphasis is placed on the composition, structure and function of cellular organelles, enzyme localization, molecular mechanisms of action of antimicrobial agents, and selected topics of current interest in microbial physiology. Two hours of lecture per week plus term paper. Prerequisite: BIO 641.
Credits: 4
Every Spring

BIO 692 Molecular Biology
A detailed look at the biosynthesis of DNA and RNA, the genetic code, and the mechanisms of protein biosynthesis. The application of molecular
biology techniques to current research problems is explored. Two hours of lecture per week plus term paper.

Credits: 3
Alternate Spring

**BIO 695 General Virology**

A consideration of such topics as physico-chemical characteristics, identification, genetics, and immunology of viruses. Molecular biology of virus-host interaction is emphasized. Representative studies of animal, bacterial, and plant viruses are emphasized to illustrate fundamental aspects of viral replication, cell susceptibility, and cell response to viral infection. Two hours of lecture per week plus collateral readings and term paper.

Credits: 3
Every Spring

**BIO 697 Medical Microbiology**

First semester of a two semester sequence (BIOs 697 & 698). A study of microbial/ human host interrelationships, with particular attention to the transmission, pathogenicity, and principles of immunity of infectious diseases, especially those of bacterial origin. Emphasis is placed on the newest approaches to the detection, isolation and identification of the organisms implicated in the disease process. Two hours of lecture per week plus term paper. Two hours of lecture and one three-hour laboratory per week in the Spring semester.

*The prerequisites of BIO 641 and 642 are required or approval of the Department Chair.*

Credits: 3
Every Fall

**BIO 698 Medical Microbiology**

Second semester of a two semester sequence (BIOs 697 & 698). This course is a study of microbial/human host interrelationships, with particular attention to the transmission, pathogenicity, and principles of immunity of infectious diseases, especially those of bacterial origin. Emphasis is placed on the newest approaches to the detection, isolation and identification of the organisms implicated in the disease process. Two hours of lecture and one three-hour laboratory per week.

*The prerequisite of BIO 697 is required or approval of the Department Chair.*

Credits: 4
Every Spring

**BIO 701 Seminar in Biology**

A presentation of selected topics in biological fields by members of the graduate faculty and visiting guest speakers. This course may be taken for credit, but it is required that all Biology majors attend. Subject matter changes each semester. May be repeated for credit. One hour per week.

Credits: 1
Every Spring

**BIO 703 Seminar in Microbiology**

Meetings conducted by the members of the staff to consider current research and problems in the area of medical microbiology and related fields. Participants include staff members, students and invited guests. All students registered in the program must attend. One hour per week.

*The corequisites of BIO 697 and 698 are required.*

Credits: 1
Every Fall

**BIO 704 Seminar in Microbiology**

Meetings conducted by the members of the staff to consider current research and problems in the area of medical microbiology and related fields. Participants include staff members, students and invited guests. All students registered in the program must attend. One hour per week.

*The corequisite of BIO 698 is required.*

Credits: 1
Every Spring

**BIO 706 Seminar in Molecular Biology**

Research presentations by students on current topics in molecular biology. Faculty discuss their research interests with students. One hour per week.

Credits: 1
On Occasion

**BIO 707 Research and Preparation of the Thesis**

Open only to matriculated students with approval of Department Chair. Selection, supervision and completion of the thesis topic. Pass/Fail only.

Credits: 3
Every Fall, Spring and Summer

**BIO 708 Research and Preparation of the Thesis**

Selection, supervision and completion of the thesis topic. Pass/Fail only. Open only to matriculated students with approval of Department Chair.

Credits: 3
Every Fall, Spring and Summer

**BIO 709 Independent Study**

Prerequisites: 12 credits toward the master's degree; specific course prerequisites to be determined by faculty supervisor.

Credits: 1 to 3
On Demand

**BIO 710 Independent Study**

Prerequisites: 12 credits toward the master's degree; specific course prerequisites to be determined by faculty supervisor.

Credits: 1 to 3
On Demand
M.S. Chemistry

Program Code: 06944

Degree Requirements

The following four (4) courses are all required:

- CHM 503 Advanced Inorganic Chemistry
- CHM 606 Advanced Physical Chemistry
- CHM 525 Instrumental Methods of Analysis
- CHM 621 Advanced Organic Chemistry I

In addition, degree candidates must select one of the following two options:

1. An additional 18 graduate credits from among the courses offered by the Department of Chemistry and Biochemistry, for a total of 32 credits. Candidates must also either pass a comprehensive examination or submit an acceptable library research paper assigned by the department.

2. An additional six credits of registration in thesis research resulting in an acceptable thesis and 10 credits of graduate chemistry courses, for a total of 30 credits.

Credit and GPA Requirements

Minimum Credits (Comprehensive Exam Option):
- 32

Minimum Credits (Thesis Option):
- 30

Minimum Major GPA:
- 3.0
Chemistry Courses

CHM 503 Advanced Inorganic Chemistry
A study of such selected topics in inorganic chemistry as the nature of the chemical bond, acid-base theories, reaction kinetics and mechanisms, coordinating - their theories and structure. Two lecture hours and four laboratory hours.
Credits: 4
Every Fall

CHM 525 Instrumental Methods of Analysis
A hands-on approach to instrumental analysis and its application to research. Students use several analytical techniques, including voltammetry and polarography, high performance liquid chromatography (HPLC), gas chromatography (GC), uv-visible and infrared spectrophotometry, atomic absorption spectroscopy, and proton magnetic resonance spectroscopy. Students are also encouraged to use the computer for data analysis and presentation. One-hour lecture and six-hour laboratory.
The prerequisite of CHM 503 is required or permission from the Department.
Credits: 4
Every Fall

CHM 531 Neurochemistry
A discussion of the morphology, biochemical composition, metabolism, physiology and pharmacology of the nervous system. The course begins with the general principles of synaptic transmission and deals in depth with several of the neurotransmitter systems in terms of biosynthesis of the transmitter, storage, release, inactivation in the synapse, and receptor types and how they mediate their signals in the postsynaptic cells. Also included are discussions on aging and development in the nervous system, drug addictions, and the role of various dietary nutrients on nervous system functions. Two hours of lecture per week. Offered on occasion. Prerequisite: At least one semester of Biochemistry.
Credits: 3
Cross-Listings: BIC 531, BIO 531, CHM 531
On Occasion

CHM 541 Special Topics in Chemistry
A presentation of subjects of unusual current interest. Three hours of lecture, including selected demonstrations. Course may be repeated.
Credits: 3
On Occasion

CHM 551 Environmental Chemistry
A survey of the chemistry of the environment covering chemistry of the atmosphere, the hydrosphere, the lithosphere and the biosphere. An in-depth look is taken at the role of energy and the various sources of energy in modern societies, ranging from fossil fuels and nuclear power to alternate and renewable energy sources, such as solar, hydroelectric, wind, biomass, geothermal and ocean energy, with an emphasis on the impact of those energy sources on the environment. Discussions of toxicology as it relates to environmental pollutants are conducted.
Credits: 4
On Occasion

CHM 606 Advanced Physical Chemistry
A review of advanced topics in physical chemistry and their applications in thermodynamics, kinetics and quantum mechanics.
Credits: 3
Every Spring

CHM 621 Advanced Organic Chemistry I
A study of the major classes of organic reactions with respect to their applications to synthesis, their mechanisms and methods for determining them, and the effect of structure on reactivity. Bonding and structure, stereochemistry, molecular conformation, stereoelectronic effects, substitution, addition and elimination reactions, reactions of enolates, carbonyls and free radicals.
Credits: 3
Every Fall

CHM 622 Advanced Organic Chemistry II
The emphasis is on synthetic applications and total synthesis. Oxidations and reductions, cycloadditions and rearrangements, aromatic substituted, carbon-carbon bond forming reactions of boron, tin and silicone, and other selected topics.
Credits: 3
On Occasion

CHM 623 Organometallic Chemistry
A study of syntheses and properties of p bonded organometallic complexes. Oxidative addition, reductive elimination, insertion and elimination reactions, nucleophilic and electrophilic additions and abstractions are considered, as are synthetic and catalytic aspects of organometallic chemistry. Biological applications and environmental aspects of organometallic compounds are also examined.
Prerequisite: CHM 621.
Credits: 3
On Occasion

CHM 626 Polymer Chemistry
A study of synthetic and natural macromolecules, including polymerization, depolymerization, structure determination, and physical and chemical properties.
The prerequisite of CHM 621 is required.
Credits: 3
On Occasion

CHM 631 Spectroscopy
An illustration of modern spectroscopic methods for the structural elucidation of organic and inorganic compounds including UV/V, H NMR, C NMR, mass spectrometry, and IR. Prerequisites: CHE 606, 621.
Credits: 3
On Occasion

CHM 701 Seminar in Chemistry
A presentation of selected topics in the branches of chemistry, with attention to recent literature. One one-hour conference. Attendance mandatory for all matriculated students. Pass/Fail only.
Credits: 1
Every Fall

CHM 702 Seminar in Chemistry
A presentation of selected topics in the branches of chemistry, with attention to recent literature. One one-hour conference. Attendance mandatory for all matriculated students. Pass/Fail only.
Credits: 1
Every Spring

CHM 707 Research and Preparation of Thesis
Open only to matriculated students with approval of the Chair. The assignment of a thesis problem to each student for investigation. Original laboratory work is required. Pass/Fail only.
Credits: 3
Every Semester

CHM 708 Research and Preparation of Thesis
Open only to matriculated students with approval of the Chair. The assignment of a thesis problem to each student for investigation. Original laboratory work is required. Pass/Fail only.
Credits: 3
Every Semester

CHM 709 Research and Preparation of the Thesis
Prerequisite: Chemistry 708
If the student's thesis is not accepted by the Department during the semester in which the student is registered in CHM 708, the student will be required to register in the appropriate thesis course in each successive semester until the thesis is accepted by the Department. Pass/Fail.
Credits: 1
Every Semester

CHM 709X Research and Preparation of the Thesis
Open only to matriculated students with approval of the Chair. The assignment of a thesis problem to each student for investigation. Original laboratory work is required. Pass/Fail only.
Credits: 3
Every Semester
**Biochemistry Courses**

**BIC 508 The Biology of Cancer**
A general survey in oncology. Lectures address the historical perspective of cancer research, the definition and classification of tumors, the epidemiology of human cancer, gene regulation and differentiation in normal and tumor cells, characteristics of transformed malignant cells, the biology of tumor metastasis, host transformed malignant cells, the origins of human cancer, and cancer therapy. Two hours of lecture per week plus term paper. Prerequisite: General background in Biology and Chemistry.

Credits: 3
Cross-Listings: BIC 508, BIO 508
Alternate Fall

**BIC 514 Bioanalytical Chemistry**
A practical approach to techniques used for analysis of biological materials and the study of biochemical processes. The principles of the techniques will be discussed in lecture, and practical application of these techniques will be performed in the laboratory. Topics include: protein separation techniques; enzyme assays and enzyme linked methods for biochemical analysis, techniques for studying protein structure and function with emphasis on data available from the Protein Data Bank; analysis of lipids and carbohydrates; and analysis of bioactive molecules and their metabolites. Two lecture hours, four laboratory hours per week.

The prerequisite of CHM 113 and CHM 153 or BIC 153 is required.

Credits: 4
On Occasion

**BIC 531 Neurochemistry**
A discussion of the morphology, biochemical composition, metabolism, physiology and pharmacology of the nervous system. The course begins with the general principles of synaptic transmission and deals in depth with several of the neurotransmitter systems in terms of biosynthesis of the transmitter, storage, release, inactivation in the synapse, and receptor types and how they mediate their signals in the postsynaptic cells. Also included are discussions on aging and development in the nervous system, drug addictions, and the role of various dietary nutrients on nervous system function. Two hours of lecture per week. Offered on occasion. Prerequisite: At least one semester of Biochemistry.

Credits: 3
Cross-Listings: BIC 531, BIO 531, CHM 531
On Occasion

**BIC 541 Special Topics in Biochemistry**
A consideration of subjects of special or current interest that may include the following or a combination of two or more: hormonal regulation of metabolism, metabolic significance of enzyme deficiency, biochemical aspects of nutrition, cancer and carcinogenesis, and HIV and protease inhibitors.

Credits: 3
On Occasion
DEPARTMENT OF COMMUNICATION SCIENCES AND DISORDERS

718-488-4122
Professor: Champion (Chairperson)
Professors: Koenig, Moses
Associate Professors: Shu, G. Youmans, S.
Youmans, Barriere
Assistant Professor: Tyrone
Clinical Administrators: Dwyer (Clinical Director)
Adjunct Faculty: 10

M.S. in Speech-Language Pathology

The Department of CSD seeks to advance the study of human communication sciences and disorders within a culturally and linguistically diverse society. Intellectual growth is promoted through the recognition and expression of multiple theoretical, cultural, and individual perspectives. The department fosters respect for diversity and a commitment to serve individuals with communication problems. The program is registered by the New York State Department of Education and is accredited by the American Speech-Language-Hearing Association (ASHA). Graduates of the program receive a Master of Science Degree in Speech-Language Pathology that satisfies the academic and professional requirements specified by ASHA for the CCC-SLP, and are eligible to apply for licensure in SLP by the New York State Department of Education's Office of the Professions. Students who wish to satisfy the New York State Education Office of Teaching requirements for Teacher of Students with Speech and Language Disabilities (TSSLD) may also prepare for this certification as part of their graduate program. Students demonstrating proficiency (i.e., speaking, listening, reading, and writing) in a language other than English may further prepare for a certificate in Teacher of Students with Speech and Language Disabilities (TSSLD) when they fail to maintain a minimum GPA of 3.0. Admissions procedures and requirements for admission to both the monolingual and bilingual specializations are detailed below.

Admissions Procedures

The institutional policy for admission of students to graduate study is a bachelor's degree from an accredited university indicating an acceptable record, with additional requirements set by individual graduate programs. The faculty of the graduate program in Speech-Language Pathology has set the following specific admissions standards for entry into the program:

- B.A. or B.S. degree with a minimum grade point average (GPA) of 3.2 in Communication Sciences and Disorders; or B.A. or B.S. degree in another field plus completion of pre-requisite coursework in speech-language pathology and audiology. The following courses (or their equivalents at other institutions) must be taken (19 credits if taken at LIU):
  - SLP 104 Articulatory Phonetics
  - SLP 113 Anatomical and Physiological Bases for Speech & Language I
  - SLP 133 Speech Science I: Acoustic Phonetics
  - SLP 231 Language Acquisition Across Life Span I: Early Years
  - SLP 321 Audiology I-Hearing Science
  - SLP 410 or 411 Introduction to Communication Disorders Across the Life Span
- Three letters of recommendation (two must be academic)
- Completion of a personal interview
- Passing an oral and written language screening in English
- Minimum grade of a B- in all pre-requisite courses and grade point average of 3.2
- Post-baccalaureate students must complete a minimum of 4 (out of 6) pre-requisite courses before applying to the program
- Course credits may be granted for designated courses completed within 5 years
- Students preparing to obtain the Bilingual Extension to the Teacher of Students with Speech and Language Disabilities Certification must also demonstrate written and oral language proficiency in a second language on the Bilingual Education Assessment (BEA) or other approved examinations.

International Students Admission

Applicants whose undergraduate, graduate or pre-requisite course work was completed in an institution where English was not the principle language of instruction must present scores for the Test of English as a Foreign Language (TOEFL).

Program Requirements

The Master of Science degree in Speech-Language Pathology at LIU Brooklyn can be completed in 2.5-3 years of intensive study. The time limit for the degree is 5 years. Candidates for the degree must have completed a minimum of 64 credits and a summative requirement.

The master’s degree program offers two options:

1. A clinical master’s degree program with a comprehensive examination as the summative requirement
2. A clinical master’s degree program with a research project in which the summative requirement is a presentation.

Both options are subject to the rules of the departmental Graduate Program Committee.

Curriculum

The programs in Speech-Language Pathology consist of required and elective course work from the following categories: Professional Foundations, Speech Disorders, Language Disorders and Practica. Most course work is infused with multilingual/multicultural content.

Clinical Practicum

All students are required to complete a minimum of 400 competent clock hours of clinical practicum, including 25 hours of observation. Up to 50 clock hours of undergraduate practicum and 25 hours of observation may be credited toward clinical practicum requirements. Clinical practicums are completed in several locations: on campus, in the university clinic; at the university satellite centers; at off-campus hospital settings and in school settings. Clinical practicum requirements, facilities, and regulations are described in detail in the Clinic Procedures Manual. Students are advised that the specific hourly requirements listed here and by ASHA constitute minimum standards requirements, and may be adjusted upwards according to individual student needs and skill levels.

Grading Policy

The university grading policy involves a plus and minus grading system (e.g., A, A-, B+, B, B-, C+, C, C-).

Foundation Courses

Students receive a midterm evaluation in all foundation courses. Students whose midterm evaluations are less than a B- may be directed to advisement, counseling, and support services (tutoring, Writing Center, Speech-Language-Hearing Clinic). Students may retake a maximum of two Foundation courses to remediate grades of C+ or below. Foundation courses may be retaken only one time.

Students who have failed to maintain satisfactory scholastic standing at the completion of the foundation sequence will not be permitted to continue with the program. Students must complete all undergraduate pre-requisites by the end of their first year of graduate coursework.

Higher Level Courses

Students may receive up to one grade of below B- in their non-foundation courses. Students may opt to retake only one higher-level course a single time to remediate a grade of below B-.

Students must maintain an overall GPA of 3.0 to continue in the program throughout their academic career. Students are only allowed one grade of C+, C, or C- in their graduate coursework. Students who earn two or more grades of C+, C, or C- will not be allowed to continue in the graduate program and will be referred to the Academic Standing Committee.

Students are placed on Academic Probation when they fail to maintain a minimum GPA of 3.0.

Post-Baccalaureate

Post-baccalaureate students must complete a minimum of four undergraduate pre-requisite courses (SLP 104, SLP 113, SLP 133, and SLP 231) prior to applying to the graduate program. Students admitted to the program must maintain a minimum GPA of 3.0 in their pre-requisite coursework to matriculate fully and continue into
the graduate program.

**Summary of Master's Degree Graduation Requirements**

Student may opt to complete ONE of the following (as partial fulfillment of the M.S in Speech-Language Pathology):

1. **Comprehensive examination**
   
2. **Master's thesis**

   The student and the student's advisor will decide whether the student may elect the master's program of study with a research option. It is recommended that this decision be reached as early as possible in the Master's program to allow for adequate planning and implementation. The deadline for application for the research option program will be at the end of the second semester when the student successfully completes the foundation sequence.

**Comprehensive Examination Option**

Students must take a comprehensive examination as part of the program and degree requirements. Students are generally advised to take the comprehensive exam during their last semester in the program, and may not take the exam before completing at least 30 graduate credits. The comprehensive examination consists of an essay component addressing the application of content from foundations and higher level courses to speech-language assessment and intervention. Students who fail the exam must be counseled by the department chairperson, directed toward remedial instruction, and should retake the exam.

Students must also present a completed KASA disk indicating achievement of all objectives, a completed clinical hour spreadsheet for approval by clinic administrators, and a KASA Verification Form for approval by the advisement counselor and the program director.

**Research Option**

The research option requires a student to conduct empirical research on a topic relevant to communication sciences and disorders or dysphagia. Selection of the research option implies that completion of the requirements here listed is in lieu of the comprehensive examination. The chosen topic may involve basic or clinically oriented research. The precise topic addressed will be developed by the student and guided by an advisor.

**Speech-Language Performance and Writing Proficiency**

Graduate students admitted to the Speech-Language Pathology program must demonstrate English writing proficiency as a requirement for graduation.

**Formative Assessment:**

The ASHA has established a Knowledge and Skills Assessment (KASA) requirement. KASA objectives have been developed for each course. Students receive both a grade and an evaluation of KASA objectives for each course. A passing grade in the course does not necessarily indicate achievement of all KASA objectives. Therefore, a remediation plan will be developed to address those objectives not achieved. In order to graduate, students must achieve all KASA objectives and complete any required remediation(s).

### MS Speech-Language Pathology Requirements

The following are the required Foundation courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SLP 601</td>

LIU Brooklyn Graduate Bulletin 2015 - 2016

Page 46
Advanced Certificate - Alternate Certificate Bilingual Extension

This fourteen (14) credit program qualifies Speech-Language Pathologists with a Master of Science degree and with Teacher of the Speech and Hearing Handicapped certification to earn a Bilingual Extension, thereby making them eligible to work with communicatively impaired English language learners in schools. The program consists of:

- Course work comprised of theoretical foundations of bilingual and second language development, culturally and linguistically appropriate assessment and intervention principles and practices, communication patterns and disorders in culturally diverse populations, bilingual education theory and practice, and bilingual teaching of language.
- Practicum experiences focusing on speech and language sampling and analysis in the target language, bilingual speech and language assessment and intervention with communicatively impaired English language learners.

Bilingual Certificate (Extension) Program for Speech-Language Pathologists

Coursework
SLP 603 Multicult. Fdns: Cul, Comm, and Lang. Lrng (3 credits)
SLP 604 Bilingual Foundstions (3 credits)
SLP 642 S&H Svcs-Lg/Lrng.DisabSLP 644 SLH Srvcs/Multiling & Multicult Schls (3 credits)
SLP 644 Language/learning disabilities in multicultural/bilingual settings

Practice
SLP 611 C Student Teach (Biling) (1 cred)
SLP 614 B Diag Practicum (Biling) (1 cred)

Credit and GPA Requirements
Minimum Credits: 14
Minimum Major GPA: 3.0

Student Committees

Academic Advisory Graduate Committee
The Academic Advisory Graduate Committee was established to provide an opportunity for the graduate student body in the Department of Communication Sciences and Disorders to provide ongoing feedback to the faculty regarding academic issues, curricular issues, and any other concerns that may arise.

National Student Speech-Language-Hearing Association (NSSLHA)
The National Student Speech-Language-Hearing Association (NSSLHA) is the pre-professional national organization for master's candidates and undergraduate students interested in the study of normal and disordered human communication behavior. The Department of Communication Sciences and Disorders at LIU Brooklyn has established a Speech and Hearing Society as a local chapter of the National Student Speech-Language-Hearing Association. All undergraduate and graduate students in the department of CSD are encouraged to apply.
Communication Sciences and Disorders Courses

SLP 601 Introduction to Research in Speech-Language Pathology
A course designed to (1) give students a broad-based introduction to the research literature in speech-language pathology; (2) develop critical reading skills; (3) cover technical aspects of research design and methodology including basic statistical methods and issues in data interpretation; and (4) develop writing skills for empirical report writing.
Credits: 3  
Every Fall and Spring

SLP 602 Advanced Language Acquisition
Advanced study of typically achieving children and their developing language and communication system, focusing on syntactic, semantic and pragmatic abilities of children in relationship to their developing perceptual, social/emotional and cognitive systems. The acquisition of language in relationship to other domains of child development is highlighted. Normal variations in language acquisition and development are viewed from a cross-cultural perspective.
Credits: 3  
Every Fall and Spring

SLP 603 COMMUNICATION AND LANGUAGE LEARNING IN BILINGUAL/MULTICULTURAL POPULATIONS
Course Description: The course will examine language variation in the United States. We will examine our own cultural, ethnic, language backgrounds and value and beliefs that we hold about individuals who are different from ourselves. Next we will examine what it means to develop cross cultural competence to appropriately work with children from culturally/linguistically diverse populations who have communication disorders. In addition we will examine dialects in the Northeast and the South including African American. This course will provide students with research on the language and narrative skills among African American children.
Credits: 3  
Every Fall and Spring

SLP 604 Biling/Multicult Foundations II: Assessment and Intervention Methods & Materials
This course provides an overview of the diverse cultural/linguistic groups in the United States with reference to how cultural and linguistic variations impact upon the assessment and treatment of communication disorders and the role of culture on specific speech and language disorders. Culturally and linguistically appropriate methods and materials for assessment and intervention, including bilingual materials, alternative assessment approaches, and intervention strategies are examined. An overview of legislation pertaining to bilingual education and special education is presented.
The pre-requisites of SLP 601, 602, 603, 606, 608 and 620 are required.
Credits: 3  
Every Fall and Spring

SLP 605 Diagnostic Process
Diagnosis of speech-language and swallowing disorders in children and adults. Norm-referenced, criterion-referenced, and developmental approaches to assessment are identified. Standardized and non-standardized assessments used in the field of speech/language pathology are reviewed. Focus is on data collection, observation and interpretation of test results. Emphasis is also on the impact of cultural and linguistic diversity on assessment and overall identification/diagnosis.
The pre-requisites of SLP 601, 602, 603, 606, 608, and 620 are required.
The corequisite of SLP 607 is required.
Credits: 3  
Every Fall, Spring and Summer

SLP 606 Advanced Neuroanatomy for Speech-Language Pathology
This course is a broad survey of the structure, function and pathology of the human nervous system. The course emphasizes structural characteristics of the central and peripheral nervous system and their relationships to function and dysfunction, particularly how they relate to speech, language, hearing, and swallowing. Related disciplines such as cell biology, histology, biochemistry, physiology, neuropsychology, neurology, and psychiatry are included to facilitate understanding of the functional mechanisms and relationships.
Credits: 3  
Every Fall and Spring

SLP 607 Advanced Clinical Audiology
This course provides an advanced discussion of clinical audiology in relevance to speech-language pathologists, mainly including the following areas: rationale and procedures of clinical tests of basic auditory function, manifestation and assessment of common audiological and otological disorders, and hearing evaluation for pediatric, geriatric, and bilingual/multicultural populations.
The pre-requisites of SLP 601, 602, 603, 606, 608, and 620 are required.
The corequisite of SLP 605 is required.
Credits: 3  
Every Fall, Spring and Summer

SLP 608 Seminar in Speech-Language Pathology
An examination of professional ethics and issues as well as cultural considerations for studying and teaching speech, language, communication, and swallowing disorders in culturally and linguistically diverse populations. The course also covers such issues as professional organizations, the ASHA code of ethics, state license and certification requirements.
Credits: 1  
Every Fall and Spring

SLP 609 Speech Science and Instrumentation
This course is designed to give students of communication disorders a thorough grounding in the characteristics of normal speech production and perception and the techniques for studying them. Students should be equipped to (1) read the contemporary research literature, (2) assess speech production patterns in children and adults from varying language backgrounds, (3) understand how speech is perceived and processed in laboratory and field situations, (4) evaluate claims about the etiologies of speech disorders, and (5) evaluate treatment protocols based on particular views about the nature of speech production and perception.
The pre-requisites of SLP 601, 602, 603, 606, 608 and 620 are required.
Credits: 3  
Every Fall and Spring

SLP 610A Clinical Practicum Intro to Treatment of Speech-Language and Hearing Disorders
An introduction to remediation of speech-language and communication disorders. Students participate in the supervised treatment of speech, language, hearing and swallowing disorders in children and adults. All SLP 610 practica courses involve internship experiences and are completed at the Downtown Brooklyn Speech-Language-Hearing Clinic and/or LIU satellite centers. Students also participate in a weekly seminar focusing on intervention planning, development of goals and procedures, the relationship between assessment and intervention planning, and professional decision-making and problem solving. Weekly seminars are periodically devoted to special topics related to assessment and intervention.
The pre-requisites of SLP 601, 602, 603, 606, 608, 620 and 640 are required.
Credits: 2  
Every Fall and Spring

SLP 610B Clinical Practicum Intro to Treatment of Speech-Language and Hearing Disorders
An introduction to remediation of speech-language and communication disorders. Students participate in the supervised treatment of speech, language, hearing and swallowing disorders in children and adults. All SLP 610 practical courses involve internship experiences and are completed at the Downtown Brooklyn Speech-Language-Hearing Clinic, LIU satellite centers and/or specialty sites. Students also participate in a weekly seminar focusing on intervention planning, development of goals and procedures, the relationship between assessment and intervention planning, and professional decision-making and problem solving. Weekly seminars are periodically devoted to special topics related to assessment and intervention.
The pre-requisites of SLP 601, 602, 603, 606, 608, 620 and 640 are required.
SLP 610C Clinical Practicum Intro to Treatment of Speech-Language and Hearing Disorders
An introduction to remediation of speech-language and communication disorders. Students participate in the supervised treatment of speech, language, hearing and swallowing disorders in children and adults. All SLP 610 practical courses involve internship experiences and are completed at the Downtown Brooklyn Speech-Language-Hearing Clinic, LIU satellite centers and/or specialty sites. Students also participate in a weekly seminar focusing on intervention planning, development of goals and procedures, the relationship between assessment and intervention planning, and professional decision-making and problem solving. Weekly seminars are periodically devoted to special topics related to assessment and intervention. The prerequisites of SLP 601, 602, 603, 606, 608, 620 and 640 are required.
Credits: 1
On Demand

SLP 611A Intermediate Clinical Practicum in the Treatment of Speech-Language and Hearing Disorders
An intermediate level practicum within school or other pediatric settings. Students participate in the supervised treatment of speech, language, hearing and swallowing disorders in children and adults at off-campus sites. Focus is on in-depth diagnosis and treatment of individuals with specific speech, language and hearing disorders. Students conduct diagnostic and treatment sessions in school, clinic and classroom settings and participate in a weekly seminar. Emphasis of the practicum is on diagnosis, intervention planning, development of IEP goals and procedures, collaboration with allied professionals, and professional decision-making and problem solving. Prerequisites: Permission of the Department. The prerequisites of SLP 604, 605, 610A and 614A are required.
Credits: 1
Every Fall, Spring and Summer

SLP 611C Intermediate Practicum in a School Setting/Bilingual
An intermediate level practicum within school settings. Students participate in the supervised treatment of speech, language, hearing and swallowing disorders in children at off-campus sites. Focus is on in-depth diagnosis and treatment of individuals with specific speech, language and hearing disorders. Students conduct diagnostic and treatment sessions in school settings with bilingual populations. Students participate in a weekly seminar. Emphasis of the practicum is on diagnosis, intervention planning, development of IEP goals and procedures, collaboration with allied professionals and, and professional decision-making and problem solving. Prerequisite: Permission of the Department. The prerequisites of SLP 604, 605, 610A and 614A are required.
Credits: 1
Every Fall, Spring and Summer

SLP 612A Advanced Clinical Practicum: Assessment and Treatment Speech-Language and Hearing Disorders
An advanced level practicum in which students participate in the supervised assessment, treatment and management of speech, language, communication and swallowing disorders in adults at area hospitals or clinics and/or both. Students conduct diagnostic and treatment sessions. Prerequisite: Permission of the Department. The prerequisites of SLP 604, 605, 610A and 614A are required.
Credits: 1
Every Fall, Spring and Summer

SLP 613B Extended Advanced Clinical Practicum
An advanced level practicum within a variety of settings. Focus is on in-depth diagnosis and treatment of individuals with specific speech, language and hearing disorders. Students conduct diagnostic and treatment sessions. Prerequisite: Permission of the Department.

SLP 614A Diagnostic Practicum: Children
A practicum in which students perform diagnostic evaluations on individuals with speech, language, swallowing and hearing disorders. Students also participate in a weekly seminar that focuses on the diagnostic process, formal and informal assessment procedures, and decision-making relevant to the diagnostic process. Prerequisite: Permission of the Department. The prerequisites of SLP 601, 602, 603, 605, 606, 608, 620 and 640 are required.
Credits: 1
Every Fall, Spring and Summer

SLP 615A Audiology Practicum
A practicum in which students perform supervised audiologic screenings and participate in diagnostic evaluations. Practicum includes a review of basic audiologic concepts and procedures in a weekly seminar. The prerequisite of SLP 601, 602, 603, 606, 607, 608, 620, and 640 are required.
Credits: 1
Every Fall, Spring and Summer

SLP 616 Clinical Observation
Students participate in supervised clinical observations of individuals with speech, language and communication disorders. Students have the opportunity to observe clinical assessment and intervention and to participate in a weekly seminar. The prerequisites of SLP 601, 602, 603, 606, 608 and 620 are required.
Credits: 1
On Demand

SLP 620 Comparative Phonology and Phonological Disorders
This course involves the study of phonological theory and research associated with normal articulatory and phonological development, as well as factors related to articulation and phonological disorders. Cross-linguistic phonological systems are compared. Bilingual and dialectical developmental similarities and differences are explored. Assessment and remediation principles and procedures for specific articulatory/phonological disorders are examined within a bilingual/multicultural perspective.
Credits: 3
Every Fall and Spring

SLP 621 Fluency Disorders
A study of fluency and the factors that may disrupt it; an introduction to the problem of stuttering, its causes and effects. The course includes a review of the epidemiology, classification, assessment, treatment, and management of speech, language, swallowing and hearing disorders. Students conduct diagnostic and treatment sessions. Prerequisite: Permission of the Department. The prerequisites of SLP 601, 602, 603, 605, 606, 608, 620 and 640 are required.
SLP 622 Voice Disorders
This course is designed to provide the student with a theoretical and practical introduction to normal voice production and the nature, diagnosis, and treatment of voice disorders. Information related to structural, functional, and neurological bases of voice disorders will also be provided. Classes will be primarily lecture-based, supplemented by videotapes, illustrations, handouts, in-class activities, discussions, etc. Lectures will follow the text in general, but material not included in the text will also be presented during lectures. The pre-requisites of SLP 601, 602, 603, 606, 608, 609 and 620 are required. Credits: 3 Every Fall and Spring

SLP 626 Dysphagia
This course is designed to provide the student with a theoretical and practical introduction to normal swallowing and the nature, diagnosis, and treatment of swallowing disorders. Information related to structural and neurologic bases and medical consequences of dysphagia will also be provided. Classes will be primarily lecture-based, supplemented by videotapes, illustrations, handouts, in-class activities discussions, etc. Lectures will follow the text in general, but material not included in the text will also be presented during lectures. The pre-requisites of SLP 601, 602, 603, 606, 608 and 620 are required. Credits: 3 Every Fall, Spring and Summer

SLP 627 Motor Speech Disorders
This course is designed to provide the student with a theoretical and practical introduction to normal speech production and the nature, diagnosis, and treatment of motor speech disorders. Information will be provided regarding each disease/disorder and etiologies underlying these disorders. Classes will be primarily lecture-based, supplemented by videotapes, illustrations, handouts, in-class activities discussions, etc. Lectures will follow the text in general, but material not included in the text will also be presented during lectures. The pre-requisites of SLP 601, 602, 603, 606, 607, 608, 609 and 620 are required. Credits: 3 Every Fall, Spring and Summer

SLP 640 Language Disorders in Children
An examination of contemporary theoretical paradigms and their applications to language assessment and intervention with childhood language impairments. Specific childhood language disorders are studied, including autistic spectrum disorders, specific language impairment and language-learning disabilities. Contemporary approaches to assessment and intervention are explored from varied theoretical models. The treatment of language disorders within a social communicative context is emphasized, with special reference to cultural and linguistic variations. The pre-requisites of SLP 601, 602, 603, 606, 608 and 620 are required. Credits: 3 Every Fall, Spring and Summer

SLP 641 Aphasia and Adult Neurogenic Disorders
This course provides students with a sophisticated understanding of the diagnosis and treatment of a variety of acquired neurogenic language disorders of language and cognition. Aspects of counseling in the arena of communication disorders and multicultural perspectives in medical environments are infused throughout the course. Emphasis is placed on active problem solving approaches to clinical decision making, and components of analysis of diagnostic materials. Classes will be lecture and discussion-based, with supporting handouts and video material. The pre-requisites of SLP 601, 602, 603, 606, 608 and 620 are required. Credits: 3 Every Fall, Spring and Summer

SLP 642 Speech-Language-Hearing Services for Language-Learning Disabilities
An historical-to-contemporary overview of the field of language-hearing disabilities, with attention to variations among cultural groups. The focus is on understanding the complex relationships among language, learning and literacy. Contemporary theoretical paradigms used in the assessment and treatment of language-learning disabled individuals are explored. The importance of the speech-language pathologist in understanding the relationship between language development and reading and writing in normally achieving and learning-disabled children is highlighted. The role of the speech-language pathologist in the school setting is addressed, with particular attention to the school curriculum collaboration with other professionals. The pre-requisites of SLP 601, 602, 603, 605, 608, 620 and 640 are required. Credits: 1 to 3 On Demand

SLP 644 Speech-Language-Hearing Services in Multicultural/Multilingual School Settings
This course provides an overview of the role and responsibilities of the speech-language specialist in varied school settings. The pre-referral, referral and assessment process is discussed. Formulation and implementation of linguistically and culturally appropriate therapeutic programs are considered. Family involvement and team-oriented approaches to school delivery are explored. School organization, bilingual and special education legislation and individualized education plans are described and discussed. Required for the Teacher of Students with Speech and Language Disabilities and the Bilingual Extension. The pre-requisites of SLP 601, 602, 603, 606, 608 and 620 are required. Credits: 3 Every Fall, Spring and Summer

SLP 700 Academic Literacy
In this writing-intensive course, students will acquire skills necessary to increase their success at graduate level academic and clinical writing. This course will be tailored to meet the needs of individual student authors. General topics for discussion and practice will include converting thoughts into writing, generating working outlines, conveying ideas clearly and concisely, using active and passive voice, quoting, citing, revision and editing. Elements of style for clinical, essay and research papers will be discussed and practiced. Credits: 3 On Demand

SLP 710 Independent Study-Research on Disorders of Speech
Extensive individual research on the various disorders of speech (articulation, phonology and swallowing). Students are required to submit a carefully documented research project based on a topic approved in advance by the professor. The pre-requisites of SLP 601, 602, 603, 606, 608 and 620 are required. Credits: 1 to 3 On Demand
DEPARTMENT OF ECONOMICS

Professor G. Rodriguez (Chair)
Professors: Emeriti Lombardi, Varma
Assistant Professor:
Adjunct Faculty: 4

M.A. in Economics

The Master of Arts degree in Economics is not offered at this time, but specific courses are offered to meet the needs of other departments and programs, such as the United Nations Graduate Certificate Program, Urban Studies, and the Master’s degrees in Social Science and in Public Administration.

Economics Courses

ECO 500 Groundwork Readings in Economics
A study of significant economic works on a tutorial basis in order to overcome any undergraduate deficiencies in the study of economics. Three credits per semester.
Credits: 3
On Demand

ECO 501 Groundwork Readings in Economics
A study of significant economic works on a tutorial basis in order to overcome any undergraduate deficiencies in the study of economics.
Credits: 3
On Demand

ECO 507 Quantitative Methods for the Social Sciences
An introductory course in quantitative techniques commonly encountered in statistics, economics and other social sciences, with emphasis on economic applications of linear algebra and differential calculus.
Credits: 3
Cross-Listings: ECO 507, SOC 507, URB 507
On Demand

ECO 531 Industrial Organization and Control
This course applies basic microeconomics and game theory to examine the behavior, structure and performance of industries, focusing on the strategic interaction among firms that seek to exploit profit opportunities. The course also examines the role of the government in either promoting competition or regulating imperfectly competitive industries.
Credits: 3
On Occasion

ECO 603 Microeconomic Analysis
This course provides a rigorous examination of the basic forces determining the price and production of goods and services, the allocation of resources, and the distribution of income under different market structures. The course shows how preferences and technology determine the individual market behavior of consumers and firms as well as the efficiency properties of market outcomes.
Credits: 3
On Occasion

ECO 604 Macroeconomic Analysis
This course studies the factors that determine aggregate income, employment, and price level in the context of standard macroeconomic models, addressing the role of macroeconomic policy in facilitating short-term stabilization and in promoting long-term economic growth.
Credits: 3
On Occasion

ECO 605 History of Economic Thought
This course provides a systematic analysis of the evolution of key economic concepts through an examination of the principal schools of economic thought, with particular attention to the ideas of such outstanding figures as Adam Smith, David Ricardo, Karl Marx, Alfred Marshall and J. M. Keynes. It also examines more recent trends in microeconomic and macroeconomic thinking.
Credits: 3
On Occasion

ECO 606 Monetary Economics
This course examines the role of money and other financial assets in a market economy, focusing on ordinary least squares regression analysis and the generalized versions of this method suitable to address the problems of identification, multi-collinearity, heteroscedasticity, and misspecification that typically occur in economic environments.
Credits: 3
On Occasion

ECO 607 International Economics
This course provides a unified introduction to international trade and finance. It first focuses on the concept of comparative advantages to examine the causes and consequences of trade among nations, and then provides an introduction to open-economy macroeconomics, focusing on capital flows across international financial markets and the effects of exchange rate and monetary policy on those flows.
The pre-requisite of ECO 507 is required.
Credits: 3
On Occasion

ECO 611 Inferential Statistics
This course provides an introduction to statistical inference, with special emphasis on concepts that appear in economic applications, such as binomial, normal, Chi-square and F distributions; estimation, hypothesis testing, regression analysis; correlation; and non-linear trends.
On Occasion

ECO 615 Environmental Economics
This course applies basic microeconomics and game theory to examine the behavior, structure and performance of industries, focusing on the strategic interaction among firms that seek to exploit profit opportunities. The course also examines the role of the government in either promoting competition or regulating imperfectly competitive industries.
Credits: 3
On Occasion

ECO 616 Money and Banking
This course examines the role of money and other financial assets in a market economy, focusing on the banking system and financial institutions that facilitate their creation, trade, and regulation. After an introduction to individual portfolio choice decisions, the course deals with the macroeconomic role of money in macroeconomic stabilization.
Credits: 3
On Occasion

ECO 624 International Economics
This course provides a unified introduction to international trade and finance. It first focuses on the concept of comparative advantages to examine the causes and consequences of trade among nations, and then provides an introduction to open-economy macroeconomics, focusing on capital flows across international financial markets and the effects of exchange rate and monetary policy on those flows.
Credits: 3
Cross-Listings: ECO 624, PM 770
On Occasion

ECO 635 Monetary Economics
This course examines the role of money and other financial assets in a market economy, focusing on the banking system and financial institutions that facilitate their creation, trade, and regulation. After an introduction to individual portfolio choice decisions, the course deals with the macroeconomic role of money in macroeconomic stabilization.
Credits: 3
On Occasion

ECO 636 Public Finance and Fiscal Policy
This course applies basic microeconomics to study the theory and practice of governmental taxation, expenditure and debt within the framework of a modern market economy.
Credits: 3
Cross-Listings: ECO 636, PM 720
Alternate Years

ECO 641 Labor Economics
This course provides an introduction to the economic analysis of labor markets, exploring the role of technological progress and international trade patterns as well as human capital, labor unions and employment discrimination in explaining the wage structure.
Credits: 3
On Occasion

ECO 646 Labor Economics
This course provides a comparative analysis of a variety of capitalist and non-capitalist systems, emphasizing the US economy and the mixed economies of Western Europe and Japan, the transition of former Communist countries of Eastern Europe to market economies, and the fast growing economy of Communist China. The comparison among economic systems relies on the observation that different ways of organizing economic activity amount to different information transmission protocols and incentivesstructures, which explains different economic performance.
Credits: 3
Cross-Listings: ECO 669, PM 773
On Occasion

ECO 669 Comparative Economic Systems
This course provides a comparative analysis of a variety of capitalist and non-capitalist systems, emphasizing the US economy and the mixed economies of Western Europe and Japan, the transition of former Communist countries of Eastern Europe to market economies, and the fast growing economy of Communist China. The comparison among economic systems relies on the observation that different ways of organizing economic activity amount to different information transmission protocols and incentives structures, which explains different economic performance.
Credits: 3
Cross-Listings: ECO 669, PM 773
On Occasion

ECO 651 Urban Economics
An analysis of economic problems arising in the modern urban areas of the United States. Discussion centers around the causes of such problems and possible alternative solutions. Relationships among city and state governments and the federal government receive due consideration.
Credits: 3
Cross-Listings: ECO 651, PM 788, SOC 651, URB 651
On Occasion

ECO 655 Introduction to Econometrics
This course provides an introduction to the application of statistical techniques to economic analysis, focusing on ordinary least squares regression analysis and the generalized versions of this method suitable to address the problems of identification, multi-collinearity, heteroscedasticity, and misspecification that typically occur in economic environments.
Credits: 3
On Occasion

ECO 669 Comparative Economic Systems
This course provides a comparative analysis of a variety of capitalist and non-capitalist systems, emphasizing the US economy and the mixed economies of Western Europe and Japan, the transition of former Communist countries of Eastern Europe to market economies, and the fast growing economy of Communist China. The comparison among economic systems relies on the observation that different ways of organizing economic activity amount to different information transmission protocols and incentives structures, which explains different economic performance.
Credits: 3
Cross-Listings: ECO 669, PM 773

**DEPARTMENT OF ENGLISH**

University Professor Hagedorn  
Professors Allen, Dilworth, Haynes, McGarrity, Matz, Mutnick, Pascardolada, Pattison, Schweizer, Warsh  
Professors Emeriti Bennett, Bernard, Braid, Henning, Hullot-Kentor, Hyneman, Kleinberg, Malinowitz, Silverstein, Templeton, Zilversmit  
Associate Professors Bokor, Gilles, High, Horrigan, Killoran, McCrory, Stephens, Swaminathan (Chair)  
Associate Professor Emerita Li  
Assistant Professors Antinori, Sohn  
Instructor Hall  
Adjunct Professor Berninger  
Adjunct Associate Professor Hassan  
Adjunct Assistant Professor Matkov

The Department of English offers a wide range of courses to meet the needs of a diverse student body. Beginning in the Writing Program, our courses provide training in textual analysis, interpretive skills and writing proficiency, skills that are crucial to success in graduate studies and beyond — as well as to the exercise of democracy and global citizenship.

The Department of English offers two master’s degree programs: an M.A. in English, and an M.F.A. in Creative Writing. Students seeking the M.A. in English may specialize in literature, professional writing, or writing & rhetoric. Our M.F.A. in Creative Writing program includes courses in poetry, fiction, non-fiction, and playwriting. Both graduate and undergraduate programs feature coursework in cultural criticism, literary analysis, the essay, rhetoric, and professional writing. The rigorous study of literary and cultural texts — from the canon and from traditions historically excluded from academic study — is at the center of our work.

### M.A. in English

#### Concentration in Literature

The 33-credit M.A. in English with a concentration in literature is designed for teachers, future doctoral students and those interested in expanding their knowledge of literary traditions. The program is based predominantly on courses in American, British and comparative literatures. Our professors engage in a variety of critical approaches, helping students to develop as careful readers of literature, skillful writers and knowledgeable teachers.

#### Concentration in Professional Writing

The 33-credit M.A. in English with a concentration in professional writing is designed for students interested primarily in writing-related careers associated with business and nonprofit management, science and technology, and new electronic media. The concentration offers students individualized attention and professional guidance through writing workshops and independent studies. The goal of the program is to expand the student’s knowledge and practice of professional writing genres while providing a solid base in history, theory, research and professional practices.

### Concentration in Writing and Rhetoric

The 33-credit M.A. in English with a concentration in writing and rhetoric supports the development of non-fiction, academic and workplace writing; helps prepare teachers of writing in secondary and post-secondary education; and can lead to advanced work in rhetoric and related fields. Students receive extensive feedback on their own writing, in-depth instruction in rhetorical theory and research methods and training in the teaching of writing, from diagnostics to evaluation, including a practicum in which they teach composition under the guidance of experienced instructors. The program addresses writing problems — from pedagogical and theoretical perspectives — encountered at all levels of writing from very basic to advanced composition.

### Admissions Requirements for M.A. in English

To be admitted to this program, students must:
- Submit an academic writing sample that reflects your writing and analytic abilities.
- Submit a letter of intent that describes why you want to pursue an M.A. in English.
- Submit two letters of recommendation from academic professors.
- Submit official educational transcripts with a grade-point average of 3.0 or better, preferable to advanced composition.
- Submit a completed application to the Office of Admissions (This package will be reviewed by an English Graduate Admissions Committee).

### English M.A. Requirements

**Program Code: 06929**

#### Core Requirement

All concentrations under the English M.A. plan must complete the following courses.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 707</td>
<td>Methods of Research and Criticism</td>
<td>3.00</td>
</tr>
<tr>
<td>ENG 708</td>
<td>Thesis II: Writing</td>
<td>3.00</td>
</tr>
</tbody>
</table>

#### Literature Concentration.

Twenty-one (21) credits in English literature are required, chosen from the following.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 546</td>
<td>Restoration and Eighteenth Century Literature</td>
<td>3.00</td>
</tr>
<tr>
<td>ENG 569</td>
<td>Jane Austen</td>
<td>3.00</td>
</tr>
<tr>
<td>ENG 571</td>
<td>The Eighteenth Century English Novel</td>
<td>3.00</td>
</tr>
<tr>
<td>ENG 573</td>
<td>The Nineteenth Century English Novel</td>
<td>3.00</td>
</tr>
<tr>
<td>ENG 574</td>
<td>The Twentieth Century English Novel</td>
<td>3.00</td>
</tr>
</tbody>
</table>

Six (6) additional English credits are required.

#### Writing & Rhetoric Concentration.

The following course is required.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 620</td>
<td>Theories of Rhetoric and Teaching Writing</td>
<td>3.00</td>
</tr>
</tbody>
</table>

One of the following courses is required.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 508</td>
<td>General Linguistics</td>
<td>3.00</td>
</tr>
<tr>
<td>ENG 509</td>
<td>Sociolinguistics: Language in Social Context</td>
<td>3.00</td>
</tr>
</tbody>
</table>

One of the following courses is required.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 646</td>
<td>Individual and Small Group Writing Instruction</td>
<td>3.00</td>
</tr>
<tr>
<td>ENG 700</td>
<td>Practicum in the Teaching of Composition</td>
<td>3.00</td>
</tr>
</tbody>
</table>
Nine (9) credits in literature are required, chosen from the following.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

In the 39-credit M.F.A. in Creative Writing program, students have opportunities to work in poetry, fiction, playwriting, creative non-fiction and on cross-genre projects. They explore a wide range of literary styles, from traditional narratives to the experimental, contemplative and avant-garde. In literature and theory classes, students look closely at the links between contemporary writing and literary traditions, writing and theory, and between writing, reading, music, and the visual arts. Students are encouraged to take artistic risks while moving in the context of multiple traditions. A small intimate program setting allows for easy access to, and strong mentoring by faculty members who are deeply committed to their students.

Admission Requirements for M.F.A. in Creative Writing
To be admitted to this program, students must:

- Submit a creative writing sample that reflects the genre/s of your specialties.
- Submit a letter of intent that describes why you want to pursue an M.F.A.
- Submit two letters of recommendation from academic/creative writing professors.
- Submit Official educational transcripts with a GPA of 3.0 or better, with at least 6 credits in advanced English courses (literature or creative writing). Submit a letter of intent that describes why you want to pursue an M.F.A.
- Submit a letter of intent that describes why you want to pursue an M.F.A.

M.F.A., Creative Writing
(Program Code: 31360)
Creative Writing Master of Fine Arts
The following courses are required (15 credits):

<table>
<thead>
<tr>

Credit and GPA Requirements
Minimum Credits: 33
Minimum Major GPA: 3.0

M.F.A. in Creative Writing
An M.F.A. in Creative Writing is a terminal degree program designed to help meet the needs of students as they seek to become published writers and teachers. This program offers a solid foundation and practice through courses in literature, writing workshops and writing process and technique courses designed for the aspiring writer. In this vigorous and innovative program, students will have opportunities to work with a host of visiting writers and poets, as well as to participate in the vibrant writing and performing arts communities of both Brooklyn and Manhattan.

In the 39-credit M.F.A. in Creative Writing, the focal point of the curriculum is the writing workshop.

<tbody>
<tr>
<td>ENG 502</td>
<td>Writers on Writing</td>
<td>3</td>
<td>On Occasion</td>
<td>Students will attend a weekly series of readings, lectures and discussions by visiting writers. With a faculty member, students will read and analyze the works of prominent and emerging writers and then interact with the writers themselves in the classroom. May be taken a second time for credit if there is a significant research component the second time. Please see the English Department Graduate Advisor. Student must be part of the Creative Writing program in order to register for this course.</td>
</tr>
<tr>
<td>ENG 509</td>
<td>Sociolinguistics Language in Social Context</td>
<td>3</td>
<td>Every Semester</td>
<td>An introduction to the major theories and fieldwork in sociolinguistics. Students examine the connections between language and social class, ethnicity and gender, and the implications of those connections for the teaching of writing. There is also a strong focus on the analysis of second language and second dialect writing, along with an exploration of multiple literacies. Student must be matriculated in the English MA program or the English MFA program in order to register for this course. Every Semester</td>
</tr>
<tr>
<td>ENG 510</td>
<td>Technical Writing</td>
<td>3</td>
<td>Every Semester</td>
<td>This course introduces students to the theory and practice of producing and managing documents that are used in industry and other organizational settings. Assignments include analytical writing, editing, designing, and testing of texts. Attention will be given to style manuals, users' manuals, research writing, and publication (as needed). Student must be matriculated in the English MA program or the English MFA program in order to register for this course. Every Semester</td>
</tr>
<tr>
<td>ENG 519</td>
<td>Editing</td>
<td>3</td>
<td>On Occasion</td>
<td>This course prepares students in the research, principles, and practices of editing essential to the process of publishing. Students gain knowledge of the principles underpinning different levels of professional editing and develop their own expertise through extensive practice. Student must be matriculated in the English MA program or the English MFA program in order to register for this course. On Occasion</td>
</tr>
<tr>
<td>ENG 520</td>
<td>Nonfiction Writing Workshop</td>
<td>3</td>
<td>On Occasion</td>
<td>An intensive workshop devoted to writing literary nonfiction. Class time will be spent critiquing each other's writings and discussing traditional and experimental forms. Students in the Professional Writing concentration may take this class 3 times. Student must be matriculated in the English MA program or the English MFA program in order to register for this course. Every Semester</td>
</tr>
<tr>
<td>ENG 521</td>
<td>Fiction Writing Workshop</td>
<td>3</td>
<td>Annually</td>
<td>An intensive workshop devoted to writing works of fiction. Class time will be spent critiquing each other's writings and discussing traditional and experimental forms. Students in the MFA program may take this class three times. Every Semester</td>
</tr>
<tr>
<td>ENG 524</td>
<td>Poetry Writing Workshop</td>
<td>3</td>
<td>Every Semester</td>
<td>An intensive workshop devoted to writing works of poetry. Class time will be spent critiquing each other's writings and discussing traditional and experimental forms. Students in the MFA program may take this class three times. Student must be part of the Creative Writing program in order to register for this course. Every Semester</td>
</tr>
<tr>
<td>ENG 525</td>
<td>Playwriting Workshop</td>
<td>3</td>
<td>On Occasion</td>
<td>This course begins with an introduction to the history and basics of dramatic writing, starting with Aristotle's Poetics and assessing sections of two different texts and approaches to writing for the theater. The Art of Dramatic Writing by Lejos Egri and David Ball's Backwards and Forwards. The second phase of the course focuses on scene and character development, through a series of written exercises and assignments, as each student begins drafting a one-act play. The final section of the course is devoted to workshopping each student play-in-progress. The prerequisite or corequisite of MA 550 is required. On Occasion</td>
</tr>
<tr>
<td>ENG 527</td>
<td>Topics in Professional Writing</td>
<td>3</td>
<td>Annually</td>
<td>An introduction to the theory, research, and practice of professional writing. Topics may include writing in such professions as medicine and law, writing for nonprofit and cultural institutions, writing in digital media, scientific and technical writing, business writing, and grant writing. Students will both analyze and write professional writing documents and receive detailed feedback on their writing in intensive workshops. Students in the professional writing concentration may take this class three times. Student must be matriculated in the English MA program or the English MFA program in order to register for this course. Annually</td>
</tr>
<tr>
<td>ENG 528</td>
<td>Seminar in Creative Writing</td>
<td>3</td>
<td>On Occasion</td>
<td>An intensive workshop devoted to different strategies for writing imaginative texts, especially those that cross genres. Students in the MFA program may take this class three times. Examples of special topics are: Collage: Image and Text, Science Fiction Writing, and The Prose Poem. Student must be part of the Creative Writing program in order to register for this course. On Occasion</td>
</tr>
</tbody>
</table>
ENG 529 Topics in Creative Writing
This workshop, which is taught by a visiting writer, will concentrate on a topic or craft element in creative writing. Students in the creative writing concentration may take this class three times. Student must be part of the Creative Writing program in order to register for this course.
Credits: 3
Every Fall

ENG 571 The Eighteenth Century English Novel
This course will trace the rise of the English novel and the authors who helped shape its form. Authors include Aphra Behn, Daniel Defoe, Eliza Haywood, Samuel Richardson, Fanny Burney, Henry Fielding, and Jane Austen.
Credits: 3
On Occasion

ENG 579 Seminar in Special Studies
An intensive study of special areas of interest in literature. Examples of special topics are the works of a major author, literature and the arts, and detective fiction. Student must be matriculated in the English MA program or the English MFA program in order to register for this course.
Credits: 3
On Occasion

ENG 600 Theories of Rhetoric and Teaching Writing
An introduction to rhetorical theories and the teaching of writing. Examines rhetorical trends across time and the impact of these trends on contemporary methods of teaching writing. Student must be matriculated in the English MA program or the English MFA program in order to register for this course.
Credits: 3
Alternate Years

ENG 624 Seminar in American Literature
An intensive study of special areas of interest. Examples of special topics are romancing the frontier, the body in American literature, and folk tales are considered. Authors include Poe, Hawthorne, James, Melville, Emerson, Whitman, Douglass, Twain, Crane, Dickinson, Chestnut, Wharton, and Dreiser. Student must be matriculated in the English MA program or the English MFA program in order to register for this course.
Credits: 3
On Occasion

ENG 626 Twentieth Century American Literature
An intensive study of special areas of interest in American literature. Examples of special topics are the works of a major author, literature and the arts, and detective fiction. Authors include Hemingway, Fitzgerald, Faulkner, Stein, Hurston, Hughes, Steinbeck, Eliot, Cather, and Stevens. Student must be matriculated in the English MA program or the English MFA program in order to register for this course.
Credits: 3
On Occasion

ENG 627 Nineteenth Century American Literature
A study of the diverse voices in American literature. Narratives, poetry, journals, essays, autobiographies, and folk tales are considered. Authors include Poe, Hawthorne, James, Melville, Emerson, Whitman, Douglass, Twain, Crane, Dickinson, Chestnut, Wharton, and Dreiser. Student must be matriculated in the English MA program or the English MFA program in order to register for this course.
Credits: 3
On Occasion

ENG 631 Seminar in English and American Poetry
An intensive study of poetry and poetic traditions. Examples of special topics are experimental poetry, the lyric poem, poetic movements, political poetry, poetry in performance, and major authors. Student must be matriculated in the English MA program or the English MFA program in order to register for this course.
Credits: 3
On Occasion

ENG 643 Seminar in Shakespeare
An intensive reading of a selection of Shakespeare's plays. In addition to studying the texts, students will be introduced to scholarly approaches to Shakespeare's work and to the contexts within which he worked. Student must be matriculated in the English MA program or the English MFA program in order to register for this course.
Credits: 3
On Occasion

ENG 646 Individual and Small Group Writing Instruction
A study of various collaborative and conference techniques for the teaching of writing. Designed to include theories of collaborative learning, practical applications in the classroom, and ethnographic or case studies. Student must be matriculated in the English MA program or the English MFA program in order to register for this course.
Credits: 3
On Demand

ENG 647 Advanced Creative Writing (Writing Workshop)
A workshop in which students explore and develop their own creative writing.电流
Credits: 3
On Demand

ENG 649 Seminar in British Literature
An intensive study of special areas of interest. Examples of special topics are Africa in the British imagination, British writing in wartime, and British women novelists. Student must be matriculated in the English MA program or the English MFA program in order to register for this course.
Credits: 3
Every Fall

ENG 650 Seminar in Medieval Literature
This course focuses on a particular text, topic, or tradition. Topics include Chaucer's Canterbury Tales, the Arthurian tradition, gender and sexuality in medieval literature, and women of the Middle Ages. Student must be matriculated in the English MA program or the English MFA program in order to register for this course.
Credits: 3
On Occasion

ENG 655 Seminar in Shakespeare
This course will focus on special topics in Shakespearean studies. Examples of special topics are the works of a major author, literature and the arts, and detective fiction. Authors include Hemingway, Fitzgerald, Faulkner, Stein, Hurston, Hughes, Steinbeck, Eliot, Cather, and Stevens. Student must be matriculated in the English MA program or the English MFA program in order to register for this course.
Credits: 3
On Occasion

ENG 700 Practicum in the Teaching of Composition
A practicum designed to introduce new teachers to the theory and methods of teaching pedagogy, with an emphasis on classroom practice. Student must be matriculated in the English MA program or the English MFA program in order to register for this course.
Credits: 3
Every Spring

ENG 705 Independent Study
A tutorial designed for advanced individual research. Hours to be arranged. Permission of Department Chair required. Prerequisite: 12 graduate credits in English.
Credits: 3
On Demand

ENG 707 Methods of Research and Criticism
A study of research techniques and critical approaches to literature, rhetoric, and creative writing. The course guides students through the writing of a critical research essay. Student must be matriculated in the English MA program or the English MFA program in order to register for this course.
Credits: 3
On Occasion

ENG 708 Thesis
The capstone project for the various MA/MFA concentrations may take the form of a critical research essay, a field project and documented research. Student must be matriculated in the English MA program or the English MFA program in order to register for this course.
Credits: 3
Every Fall
report, or a portfolio of creative work with an analytical coda. Students work with thesis advisers.
Prerequisites: At least 21 credits in graduate English courses completed with a 3.0 GPA and permission of the thesis director and the graduate adviser.
Concentrators in Professional Writing, Writing and Rhetoric. Candidates for the MFA must have completed at least 12 of their credits in writing.
Student must be matriculated in the English MA program or the English MFA program in order to register for this course.
Credits: 3
On Demand
Students interested in history who want a multidisciplinary program that views society through the integrated perspective of several social sciences may take a Master of Science in Social Science with a concentration in history.

History Courses

HIS 500 Germany 1870-1945, from Unification to Disintegration
A course that traces the story of Germany’s unification, rapid rise to European prominence, and eventual transformation into the Nazi state. It introduces various interpretations of the course of German history and examines a variety of interrelated questions that might be reduced to one: Why Germany? Why did an apparently modern and civilized society accept barbarism on such an unprecedented scale?
Credits: 3
Rotating Basis

HIS 501 Slavery and Freedom: A Comparative Perspective
This course involves the examination and comparison of the development of slave systems in the New World. Emphasis will be on the different definitions of freedom that developed within the various slave societies. Major points of comparison will center on the plantation systems of Brazil, Cuba, and the United States.
Credits: 3
On Occasion

HIS 502 The History of African American Women in the United States
This course examines the complex and varied experiences of African American women in the United States from slavery to the present. In the process of exploring the historical perspective of African American women’s lives, students will draw upon other disciplines such as literature, sociology, media arts and political science in a thematic coverage of the myths and realities of “black womanhood.”
Credits: 3
On Occasion

HIS 504 The Development of the American Metropolis
A study of the development of the American metropolis from the period of settlement to modern times. Special emphasis is placed on the relationship of physical development to the various factors that affect urban growth and change. (Same as Urban Studies 504).

HIS 524 The Civil War and Reconstruction (1850-1877)
An examination of the social, political and economic aspects of the Civil War and Reconstruction. Topics covered include the causes of the conflict; the impact of the war on the North and the South; issues of gender, slavery, and racism; the evolution of a free labor system; and the long-term effects of Reconstruction. (Formerly History 620)
Credits: 3
On Occasion

HIS 535 The Holocaust
This course will rely on a variety of perspectives, psychological, theological, philosophical, ethical as well as historical, to assist students in the search for the Who, What, When and possibly the Why of the Holocaust. They will also be introduced to varying and sometimes conflicting interpretations of the subject in order to underscore the complexities and dilemmas raised by the mass destruction of Europe's Jewish communities.
Credits: 3
On Occasion

HIS 565 Latin America in World History
An introduction to the graduate study of Latin American history from the pre-colonial period to the present as seen through the lens of world history. Students read a selection of texts examining such topics as indigenous culture, slavery, colonialism, imperialism, nationalism and revolution set in the context of the wider currents of history.
Credits: 3
On Occasion

HIS 583 The History of the City of New York
A chronological and topical review of the political and social development of New York City from Dutch settlement to the present. Emphasis is placed on the development of the city as a great financial, intellectual and cultural center.
Credits: 3
Cross-Listings: HIS 583, URB 583
On Occasion

HIS 582 The History of the City of New York
A study of the development of the controversy with England after 1763, the Revolutionary War, and the period of the Confederation through the adoption of the Constitution.
Credits: 3
On Occasion

HIS 622 The Era of the American Revolution
A survey of political and economic trends, including the collapse of European hegemony, the emergence of the Third World, the Cold War in Europe and in Asia, the breakup of the Soviet Empire, the resurgence of nationalism, and the growing economic importance of Asia.
Credits: 3
Rotating Basis

HIS 699 Independent Study and Research
Credit and hours arranged with approval and permission of the Department.
Credits: 3
On Demand
DEPARTMENT OF MATHEMATICS
Professors: Myers, Park, Zuckerberg
Professors Emeriti: Posmentier, Stanley, Zuckerman
Associate Professors: Allan, Bednarchak (Chair), Su
Associate Professors Emeriti: Farber, Tucker
Assistant Professor: Zablow ; Adjunct Faculty: 21

Courses in mathematics are offered for students who need them to meet the requirements for degrees in the sciences or pharmacy, or for the M.S.Ed. in Secondary Education.

Mathematics Courses

MTH 505 Introduction to Biostatistics
This course is designed for graduate students in the biological or health related sciences with the objective of enabling them to understand and apply the theories underlying the techniques of point and interval estimation, hypothesis testing, regression analysis and the design of experiments. In the main, the course will focus on the analysis of biostatistical, pharmaceutical and clinical trial data and will be motivated by solving problems in many diverse areas of applications in the biological and pharmaceutical realm. Two hours of lecture per week. Prerequisite: MTH 30.
Credits: 3
Cross-Listings: BIO 505, MTH 505
Every Spring

MTH 515 History of Mathematics
The development of mathematical concepts and methods from ancient times to the present, including bases for number systems, Euclidean and non-Euclidean geometry, and the origins of algebra and calculus.
Credits: 3
On Occasion

MTH 550 Numerical Analysis I
Nonlinear equations, matrices, linear and nonlinear systems of equations, polynomial interpolation and approximation.
Credits: 3
On Occasion

MTH 555 Numerical Analysis II
Numerical differentiation and integration, summation, least squares, numerical solutions of differential equations, boundary value problems.
Prerequisite: One year of calculus.
Credits: 3
On Occasion

MTH 610 Differential Equations I
Students will be instructed on initial-value problems, including existence and uniqueness of solutions and their dependence on initial data; linear systems; boundary value problems; qualitative theory.
Credits: 3
Every Fall and Spring

MTH 611 Differential Equations II
Systems of differential equations, Fourier Series and Fourier transforms, selected topics from partial differential equations including heat equations and wave equations. Prerequisite: MAT 610 or equivalent.
Credits: 3
On Occasion

MTH 620 Theory of Functions of a Real Variable I
Topologies on the real line, measurable functions, limit theorems, Riemann and Lebesgue integrals, metric spaces, measure spaces, normed linear spaces. Prerequisite: Advanced Calculus.
Credits: 3
On Occasion

MTH 621 Theory of Functions of a Real Variable II
Topologies on the real line, measurable functions, limit theorems, Riemann and Lebesgue integrals, metric spaces, measure spaces, normed linear spaces. Prerequisite: Advanced Calculus.
Credits: 3
On Occasion

MTH 625 Theory of Functions of a Complex Variable I
Preliminary geometrical and topological concepts; elementary, analytic and meromorphic functions; Cauchy theory; residues; Taylor and Laurent series; infinite products; entire and harmonic functions; conformal mapping; analytic continuation periodic and algebraic functions; Riemann surfaces. Prerequisite: Advanced Calculus.
Credits: 3
On Occasion

MTH 626 Theory of Functions of a Complex Variable II
Preliminary geometrical and topological concepts; elementary, analytic and meromorphic functions; Cauchy theory; residues; Taylor and Laurent series; infinite products; entire and harmonic functions; conformal mapping; analytic continuation periodic and algebraic functions; Riemann surfaces. Prerequisite: Advanced Calculus.
Credits: 3
On Occasion

MTH 630 Linear Algebra
Vector spaces, linear dependence and independence, linear operators, matrices, similarity, congruence, inner product spaces, orthogonality, adjoints, Hermitian and normal operators, eigenvalues and eigenvectors, the characteristic and minimal polynomials, Jordan Canonical form. Prerequisite: One year of calculus.
Credits: 3
On Occasion

MTH 635 Abstract Algebra I
Basic theory of groups, rings, fields. Special topics from Galois theory, group representation, field extensions, rings, modules, Lie algebras. Prerequisite: Advanced Calculus.
Credits: 3
On Occasion

MTH 636 Abstract Algebra II
Basic theory of groups, rings, fields. Special topics from Galois theory, group representation, field extensions, rings, modules, Lie algebras. Prerequisite: Advanced Calculus.
Credits: 3
On Occasion

MTH 650 Numerical Analysis II
Numerical differentiation and integration, summation, least squares, numerical solutions of differential equations, boundary value problems. Prerequisite: One year of calculus.
Credits: 3
On Occasion

MTH 670 Topology
Topological spaces and functions. Compactness, connectedness, separation axioms, extension theorems, metrization theorems. Introduction to homotopy and homology theory. Prerequisite: Advanced calculus.
Credits: 3
On Occasion
DEPARTMENT OF MEDIA ARTS

University Professor Steinberg
Professors Fishelson, Lauth, Moghaddam
Associate Professors Banks (Chair), Goodman
(M.A./M.F.A. Program Coordinator), Nappi
Assistant Professors Beasley
Adjunct Faculty: 10

Media Arts is a powerful and influential field that can be defined as the art and science of artistic expression through media such as film, television, radio, video art, the Web, computer graphics, computer art, animation, video games, music production, sound design, photography, interactive media, screenwriting, media management, media-based performance and installation. Students trained in the above disciplines are employed in the entertainment, advertising, publishing and communications industries globally, in production and executive levels.

M.A. in Media Arts

The 36 credit Master of Arts in Media Arts is for students, communication professionals and artists who wish to work in a multidisciplinary environment and gain experience in both traditional and digital techniques. The program is unique in that it offers a course of study that is explicitly designed to explore the relationship between theoretical concept and practical application. There are eight areas of concentration (see below) and a student is required to take 12 credits within one of them. In addition, the student’s Integrated thesis project, the last 6 credits of the degree, must feature this area of concentration.

CONCENTRATIONS:

There are eight areas of concentration in the master’s program. A student must declare a concentration in one of these areas and the distribution model (see below) appropriate to complete it:

1. Screenwriting: Film and Television
2. Photography: Traditional, Digital and Experimental
3. Film, Television and Video Production Including Directing, Cinematography and Editing
4. Digital Sound and Audio Design
6. Media Management: Producing and Financing
   * Media Management Concentration requires the Integrated Model.
   ** Global Media Studies Concentration requires the Theory Model.
   *** Media Studies concentration requires the Integrated Model.

DISTRIBUTION MODELS:

1) Integrated Model: 15 credits of theory courses (including MA 500 and MA 501) and 15 credits of production courses.
2) Theory Model: 21 credits of theory courses (including MA 500 and MA 501) and 9 credits of production courses.
3) Production Model: 21 credits of production courses, and 9 credits of theory courses (including MA 500 and MA 501).

Admissions Requirements

- Undergraduate degree in media arts, humanities or related subject
- 600 word artist's statement including experience and career goals.
- Two letters of reference (one professional, one academic)
- Writing Sample: Essay on media-related topic (undergraduate paper or article)
- Production Sample: A sample of work that best demonstrates student’s media skills, creative range and potential (portfolio, sample reel or script).

M.A. Media Arts

[Program Code: 21759]

A minimum of 36 credits are required:

Core Requirements

Must complete the following two (2) courses for six (6) credits.

Credit and GPA Requirements
Minimum Credits: 36
Minimum Major GPA: 3.0

M.F.A. in Media Arts

The 60 credit Master of Arts in Fine Arts degree offers students hands-on experience with the latest technologies for content creation across multiple disciplines, in five concentrations:
1. Film/Video / Screenplay
2. Computer Graphics / Animation / Interactive Media
3. Digital Audio / Sound Design
4. Photography
5. Media Management

As a terminal degree, this M.F.A. can lead to careers in the highest levels of production and management in media, in addition to college level teaching.

Note: In addition to production/studio classes in each area, M.F.A. students can take 9 credits in Studio Specialization: MA 894, MA 895, & MA 896 as independent studies in their field.

**Credit and GPA Requirements**

Minimum Credits: 60
Minimum Major GPA: 3.0

---

**M.F.A. in Writing and Producing for Television**

The M.F.A. in Writing and Producing for Television is a writing intensive program that uses a unique teaching and learning approach that mimics the real world of contemporary television. In particular, the notion of work done in collaboration as a cohort is the hallmark of this program since television demands that its writers work as a unit. The M.F.A. in Writing and Producing for Television is a full-time program. Classes are held during the day, and therefore, students must be able to commit to studying on a full-time basis. Students must also be able to work collaboratively in an environment that requires the exchange of ideas and the highest level of professional courtesy. Most classes are held at Steiner Studios, located at the Brooklyn Navy Yard.

**Admissions Requirements**

The M.F.A. in Writing and Producing for Television is a highly competitive program, which seeks to recruit 20-25 students each year, who exhibit the ability to express themselves clearly and creatively in the written form. Applicants need not have a background in writing for TV or film. However, they will be required to submit, as part of the admissions process (see below), writing samples that demonstrate the potential required to write for the television medium.

To be admitted to this program you must submit:

- An application for admission
- An original dramatic or comedic script written for film, TV or theater, or a sample of creative writing that reflects your story-telling ability.
- Two written recommendations: one professional and one academic. Include contact information.
- An up-to-date bio or CV

In addition, applicants must:

- Have earned an undergraduate degree at an accredited college or university
- Complete a personal interview, which will be
scheduled once the writing samples have been reviewed
Continued enrollment in this program is contingent upon:

- Regularly attending classes (no more than three missed classes will be allowed).
- Submitting projects and writing assignments by the predetermined deadlines.

M.F.A., Writing and Producing for Television

(Program Code: 32846)
The M.F.A. in Writing and Producing for Television is a full-time, 48-credit program, running two years; consisting of the following courses.

**Semester One**

**Credit and GPA Requirements**

Minimum Credits: 48
Minimum GPA: 3.0
Media Arts Courses

MA 500 Media Aesthetics
An exploration of problems and issues related to theories of applied media aesthetics - from cave paintings to virtual reality. Through screenings and readings, students analyze the language and meaning of visual culture and develop their own interpretations. Topics include the psychology of perception, the construction of reality, creativity, history of technology, mass culture and consumer engineering. Must be taken within the first year of study.
Credits: 3
Every Fall and Spring

MA 501 Media Theory
A foundation course that acquaints the student with the multitude of theories that together constitute Contemporary Media Theory. The course is a bridge between the multiple disciplines that have been used to examine the media, including psychology, linguistics, history and sociology and the aesthetic considerations of film, television and popular recording. The course traces the broad outlines in the evolution of each branch of Contemporary Media Theory including semiotics, psychoanalysis, feminism and theories of ideology. Considerable attention is also paid to students developing a sense of how to place the media object in its historical and cultural context. Must be taken within the first year of study.
The prerequisite or corequisite of MA 500 or MA 800 is required.
Credits: 3
Every Fall and Spring

MA 502 Media Race Gender, Class
An examination of how race, gender and class are constructed in the visual media and how they interact. Students become versed in the major historical and contemporary arguments and explore how those arguments apply to various media formations, ranging from film noir to the African-American gangster film to the independent feminist film. The course concludes with studies of media conjunctions in which class, race and gender relations are encoded in the same media formation.
The prerequisite or corequisite of MA 500 or MA 800 is required.
Credits: 3
On Occasion

MA 504 Indie Sex
This course investigates the counter-politics and aesthetic of how sex and gender are represented in the narratives of contemporary (mostly non-American) independent film. Analyzing films through the lens of globalism and its cultural contexts, students study a variety of genres including: documentary, hardcore art, horror, animation and experimental forms.
The prerequisite or corequisite of MA 500 or MA 800 is required.
Credits: 3
On Demand

MA 505 Gaming and Game Theory
This seminar examines the historical and conceptual framework of gaming and game theory. Constitutive components of the course include an exploration of the transformative, cognitive effects of play, an historical overview of video games and rule-based gaming, as well as an investigation of interactive or ergodic processes of dynamic and cybernetic systems. Media and cinematic illustrations of game theory will be screened including Memento, Dr. Strangelove, Rebel Without a Cause, Wall Street, War Games, A Beautiful Mind and Pi.
The prerequisite or corequisite of MA 500 or MA 800 is required.
Credits: 3
On Occasion

MA 514 History of the Still Images Photography and CGI
This course traces the history of the still image from its earliest chemically-based photographic form to the contemporary digital computer graphic image. Aesthetic theories of imaging, visual representation and veracity will be examined.
The prerequisite or corequisite of MA 500 or MA 800 is required.
Credits: 3
On Occasion

MA 515 Class, Crime & Film Noir
An exploration of the history of those dark, seedy crime films that came to prominence in Hollywood in the late 1940s (The Maltese Falcon, Blue Dahlia) in a style that has become nearly the dominant in Hollywood today. The course examines noir's pre-history in the gangster film (Scarface, I Was A Fugitive From a Chain Gang), its development into a full blown validation of the sympathetic male and female outside the law (Out of the Past, Desperate), its brief flowering in the 70s (Chinatown) and its reemergence under Reagan and Bush (Bad Lieutenant, The Last Seduction). Topics include: femmes fatales (Double Indemnity), international noir (Italy's Bitter Rice), black noir (A Rage in Harlem). The prerequisite or corequisite of MA 500 or MA 800 is required.
Credits: 3
On Occasion

MA 516 History of Photography
It is recommended that students following a photography track take this course. An examination of important photographers, processes and movements from the invention of photography to the present. Special emphasis is placed on sociological and artistic concepts that shape and inform the medium, such as the act of photography, the experience of being photographed, and the way the camera has changed our social world.
The prerequisite or corequisite of MA 500 or MA 800 is required.
Credits: 3
On Occasion

MA 520 Artistic and Literary Movements and the Visual Media
This course focuses on the aesthetic conventions and philosophical underpinnings of one of many 20th century movements in the fine arts and literature, including Expressionism, Constructivism, Dada and Surrealism, Literary Modernism, Poetic Realism, Magic Realism, Abstract Expressionism, Pop Art and Structuralism. Visual media artists include Luis Bunuel, Sergei Eisenstein, David Lynch, Fritz Lang, Jean Renoir, and Nam Jun Paik. (This course may be taken more than once for credit).
The prerequisite or corequisite of MA 500 or MA 800 is required.
Credits: 3
On Occasion

MA 521 Social and Political Movements and the Visual Media
This course focuses on the interaction of key 20th century social and political movements and their impact on the visual media including: Weimar Visual Culture, the French Popular Front, the 60s Student Movement, Alter Globalization, Bolivarism. (This course may be taken more than once for credit).
The prerequisite or corequisite of MA 500 or MA 800 is required.
Credits: 3
On Occasion

MA 522 Myth and Media
How do humans relate to the great forces of life and death, male and female, creation and destruction, light and darkness? Movies along with all the other arts, have embraced myth; for story lines, to explain mysteries and for a deeper influence in structure, motifs and style. In this course, students deepen their theoretical understanding of how mythic constructs, belief systems and ideologies function within film narrative. In particular, this course explores how definitions of myth, legend, fairytale or fable are often conflated within post-modern contemporary film idiom to reveal new meanings. Topics include: pastiche and satire, Magic Realism, science fiction and gender, the eco-disaster movie.
The prerequisite or corequisite of MA 500 or MA 800 is required.
Credits: 3
On Occasion

MA 524 Slavery: Roots to Rap
A survey of the development of different film treatments of social history by emphasizing both historical films and contemporary films about slavery including those from the 70s black exploitation and hip-hop eras. This course provides...
The pre-requisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3

Cross-Listings: MA 533, SOC 526

On Occasion

MA 535 Global Net Art
This course explores the position, the process and the works of cultural producers in the global terrain of digital production and distribution. Investigating the fusion of the private and the local into the global through the Internet raises critical questions about the production of artworks in a borderless virtual context, and about the relationship between these artworks and traditional representational spaces. The seminar explores these questions and their implications for the emerging discourse of universal citizenship. Lectures, readings, discussion and analysis of cultural products. Final projects will be in the form of digital works.

The pre-requisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3

On Occasion

MA 537 Comparative Film Directors
A focus on the work of either a single director/writer or on a comparative analysis of two directors/writers. Names include Katherine Bigelow, Ousmane Sembene, Stanley Kubrick, David Lynch, Fritz Lang, Spike Lee, Alfred Hitchcock/Claude Chabrol, Douglas Sirk/R.W. Fassbinder. (This course may be taken more than once for credit.)

The pre-requisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3

On Occasion

MA 538 All About...
This course involves an intense study of a single media object, including the works that led up to it and the works that were subsequently influenced by it. Studies include: Bonny and Clyde, 2001; A Space Odyssey; Blue Velvet. (This course may be taken more than once for credit.)

The pre-requisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3

On Occasion

MA 539 History of Special Effects
This seminar provides a historical and theoretical overview of special effects, from their earliest inception in theatrical, photographic and cinematic productions to their current utilization in contemporary media arts. This class surveys the ubiquity of special effects used as either obvious tropes in visualizing the fantastical, or as invisible amplifiers in simulating a more plausible reality. The class also examines the relationship of SFX to both narrative realism, and to the fabrication of the simulacrum, by tracing the semiotic use of SFX to both propel a narrative, and to maintain narrative coherence in what might otherwise be impalpable and disjointed exaggerations.

The pre-requisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3

On Occasion

MA 546 CyberCinema
As the moving image continues to morph into innumerable metaforms of digital signals and electronic transmissions, (and is trademarked as cyber-cinema), this graduate seminar explores all things cyber in cinema. Cyber - short for cybernetics - an interdisciplinary study of communications and control systems in animals, humans and machines, connects the fields of robotics, artificial intelligence, evolutionary biology, neuroscience, psychology, etc., and has been a longtime preoccupation in cinema, as seen in: Metropolis (1927), Frankenstein (1931), 2001: A Space Odyssey (1968), Blade Runner (1982), Artificial Intelligence (2001), Minority Report (2002), I, Robot (2004), etc. Through screenings, cyber-interactions, readings of cyber-SciFi, and discussions, this class probes such topics as gender guises in cyberspace, what it means to be human, consciousness, etc.

The pre-requisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3

On Occasion

MA 547 Avatars, Cyborgs, Robots
Human identity intermixes with technology in interesting and compelling ways. As we develop technology, our connection to it has become increasingly more intimate. This is evident in our latest medical advances in bionic implants and in our science fiction explorations in films, novels, and games. The image of the cyborg, a hybrid human and machine, appears in such films as Bladerunner, Terminator, I, Robot, etc., while our science fiction explorations in films, novels, and games. The image of the cyborg, a hybrid human and machine, appears in such films as Bladerunner, Terminator, I, Robot, etc., while reflecting our cultural ambivalence about technology, its potentialities as well as its dangers. But, we may ask, “Mirror, mirror, on the wall, are we to become the humanoid robot or the technologically-augmented human?” We shall explore these mediated questions together in this class.

The pre-requisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3

On Occasion

MA 548 Cinema of India
The film industry in India releases more films per year than any other country in the world and is rapidly finding a global market, second only to Hollywood. This course examines the phenomenon by means of in-depth analysis of a wide range of national and regional Indian films. Topics include: The Merchant/Ivory effect; relationship of Indian mytholgy, literature and art to story construction; Bollywood influence on contemporary western movies and audiences.
On Occasion

MA 556 Digital Photography I
An intensive introductory workshop in photographic digital imaging and print output that provides students with advanced skills in digital fine art and archival print applications. The class incorporates alternatives to chemical processes brought about with enhanced new technologies and experimentation with digital printing on different substrates and surfaces. The prerequisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3
Rotating Basis

MA 557 Experimental Photography
An examination of the relationship between technique and creative vision in photography. Students experiment using processes designed to expand the creative approaches available to the photographic artist, including alternative chemical processes (cyanotype, vandyke brown salt, platinum, gum), nontraditional mediums (wood, glass, sculpture), and alternative image sources. Particular emphasis is placed on the relationship between process and image and how invention and artistic interpretation are entwined in the photographic context.

The prerequisite or co-requisite of MA 556 is required.

Credits: 3
On Occasion

MA 558 The Business of Freelance
The course will explore aspects of working freelance in the media fields of graphic arts, photography, film and video production. The class will enable students to develop the skills necessary for a successful career using self-promotional tools and business practices involved in freelance work. The prerequisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3
On Occasion

MA 559 Studio Photography
This course is primarily about light and its control in the process of creating photographs. Students will be introduced to the fundamentals of studio lighting with an emphasis on practical applications for portraiture and still life photography. In-class demonstrations will cover the use of electronic flash equipment, portable flash equipment, tungsten lights, and the modification of light. Students will learn to consider the direction of light, proper exposure, and the effect on contrast and color balance. Students must submit a self-published body of work as a final portfolio, and complete a research project.

The prerequisite or co-requisite of MA 556 is required.

Credits: 3
On Occasion

Cross-Listings: ENG 525, MA 552

MA 560 Digital Video Imaging I
An exploration, using state-of-the-art digital cameras and nonlinear editing systems, of all aspects and stages of the video production process from pre to post. Working as individuals or in small production teams, students complete a video project of their own design.

The prerequisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3
Every Fall

MA 561 Multi-Camera Production I
An intensive exploration of the art and science of multi-camera production. Students work cooperatively at an accelerated pace on projects of their own design and examine various remote and studio technologies, directorial strategies, and production techniques.

The prerequisite or co-requisite of MA 560 is required.

Credits: 3
On Occasion

MA 562 DV Intensive
Students join forces to complete a DV project in five days from inception to final screen credits with original music. Students write, pre-produce, direct, shoot, edit, insert graphics, add music and turn in a final copy of a ten-to-fifteen minute narrative or mockumentary in a particular genre and film style. This course takes skills acquired in previous courses and applies them in a way that most emulates the conditions of actual production.

The prerequisite or co-requisite of MA 560 is required.

Credits: 3
Every Summer

MA 563 Digital Media For Teachers
A five-day intensive workshop designed to teach participants how to create, develop and plan effective, well-designed multimedia presentations for the classroom and professional conferences and seminars.

Credits: 3
On Demand

MA 567 Art of the Edit
This course explores the aesthetics and implementation of effective editing. It surveys examples of the craft in various iterations of its genre and modern forms of its application: theatrical narrative, commercial, montage, documentary, trailer, industrial and web-episodes.

The class will learn the in’s and out’s of story telling through the sequencing of shots and images, as well as gain a technical understanding of Codex’s, transcoding, output formats, mixing and basic DVD authoring. This class takes a hands-on approach, balanced by the theoretical underpinnings of good cinema and offers students applicable skills in the grammar of editing.

The prerequisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3
Annually

MA 568 Lighting for Visual Media
At the heart of the expression of visual media is light. This course will explore the nature, content, and the uses of light in film/video, stills, and animation. We will look at how light creates mood, depth and an emotional experience within the media. This is a hands-on production class, which requires that each student have competency in his or her form of media. Most projects will be delivered in a media form of the students choosing. We will learn to work with natural light, lighting kits, and in some cases create our own lighting instruments to work with a variety of lighting styles, and shooting conditions. We will examine the
MA 570 Digital Sound Design I
A survey course that introduces students to the technologies behind current audio production for music and sound design throughout media arts. Topics include microphones, mixers, multitrack DAT recorders, MIDI samplers, computer-based sequencing, hard disk recording, digital mixing and processing (Digital Performer and Pro Tools). Also examined are output and production considerations for CD, CD-ROM, DVD video, digital video, film 5 to 1 surround, Internet distribution, Web pages and motion graphics.
The prerequisite or co-requisite of MA 500 or MA 800 is required.
Credits: 3
Annually

MA 571 Sound for Visual Media
This introductory course in sound for film, television and multimedia covers audio post-production for video, film and other multimedia formats with a focus on sound design, SFX editing, Foley, and ADR (dialogue replacement). This class will provide an emphasis on sound and its effects on the dramatic impact and overall tone of visual imagery.
The prerequisite or co-requisite of MA 570 is required.
Credits: 3
On Occasion

MA 572 Location Sound Recording
This course is a survey course, which introduces students to the technologies behind current audio production and acquisition. Topics include: audio terminology, recording location sound for film and television, microphones, mixers, multitrack hard-disk recording, noise reduction and digital audio processing using ProTools software. This course is recommended for film and video students who want to increase their knowledge of recording sound for film, audio students and anyone looking to increase their knowledge of audio recording.
The prerequisite or co-requisite of MA 570 is required.
Credits: 3
On Occasion

MA 573 Music for Visual Media
This course focuses on music for visual media including film, television, gaming and multimedia. Topics include the psychology of music, music and emotions, music composition and the roles music plays in video, film, or other multimedia formats. The class will include an emphasis on storytelling through sound as well as on how sound can affect the dramatic impact and overall tone of images, helping to create a total artwork. Students will learn about a variety of approaches to music placement in media. In addition, class assignments give students a hands-on approach to music placement.
The prerequisite or co-requisite of MA 570 is required.
Credits: 3
Rotating Basis

MA 574 Music Production Intensive
This is an introductory graduate level audio course that focuses on creating, producing, recording and mixing original music and sound. The course explores various ways of creating and manipulating sounds using industry standard technology. Topics include MIDI, audio signal flow, digital synthesis, recording, effects processing and professional mixing techniques. Apple's Logic Audio, Avid's ProTools and Propellerhead's Reason will be used as platforms for learning audio technology throughout this course. Hands-on experience through assigned projects will be a large portion of the course work and will take place during individual studio time. MA 574 is suitable for students who are interested in building a strong foundation in music production and composition, recording engineering, and sound design.
The prerequisite or co-requisite of MA 570 is required.
Credits: 3
On Occasion

MA 575 Digital Communications Design
A Communications Design class using industry standard digital tools for media production. Students learn and work with graphics for print, video, film and web combining graphics, illustration and text. Special emphasis is placed on resolution, color, and design principals for various media.
The prerequisite or co-requisite of MA 500 or MA 800 is required.
Credits: 3
On Occasion

MA 576 Motion Graphics Production
An introductory level class in Motion Graphics production for Video, Film and the Web using industry standard software. Students work with basic motion design for graphics, live action, and text elements, in addition to special effects. The prerequisite or co-requisite of MA 575 is required.
Credits: 3
On Occasion

MA 577 3D Computer Graphics
An introductory level class in 3D modeling, surfaceing, texturing, lightning, rendering, special effects and basic digital cinematography. Students create 3D objects and renderings for film, video, web and print. The prerequisite or the co-requisite of MA 575 is required.
Credits: 3
Rotating Basis

MA 578 Interactive Media Production
An introductory level class in interactive design for the web using industry standard software. Students learn and work with basic web design using HTML and HTML editing software.
The prerequisite or co-requisite of MA 575 is required.
Credits: 3
On Demand

MA 579 Computer Graphics I
An introductory level class in Computer Graphics for print, screen and the web using Adobe Photoshop. Students learn and work with basic illustration, graphics, photo-illustration/retouching and typography. Additional topics include basic image acquisition and input with digital cameras and scanners for graphics production.
The prerequisite or co-requisite of MA 575 is required.
Credits: 3
Cross-Listings: MA 579, NMP 579
Rotating Basis

MA 580 Independent Producer
A hands-on approach to the production management tasks of the independent producer of film, video or multimedia. Topics include: script breakdown, scheduling, budgets, writing the business plan, marketing and distribution. Students will complete a production handbook and mock business plan as their final projects.
The prerequisite or co-requisite of MA 500 or MA 800 is required.
Credits: 3
Every Spring

MA 581 Music Entrepreneurship
This course provides an overview of how to succeed in today's changing music industry. The rules have changed and now more than ever each individual has the opportunity to take their careers into their own hands, making it a time for the entrepreneur. Throughout this course, emphasis will be given to the various aspects of the music business such as Contracts, Copyright Law, Business Plans, Music Publishing, Royalties, Performing Rights Organization, Niche Marketing Promotion, Creative Strategies for Marketing and Distribution, Online Presence and New Business Models. In addition the course spends time developing the LIU record label, and showcasing featured LIU artists. The prerequisite or co-requisite of MA 500 or MA 800 is required.
Credits: 3
On Demand

MA 582 Art and Commerce
A focus on a wide range of contemporary art and design enterprises in the metropolitan area. By means of on-site visits, students explore the work of individual artists, photographers, designers, curators and art directors. Discussion topics include the intersection between creativity and culture,
art and commerce, artifact and economics. Students complete a production assignment or article-length paper as their final project. The prerequisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3
On Occasion

MA 584 Entrepreneurship

Students master the tools and concepts of the Internet in their search for either an audience or a position with a media production firm. Topics include: devising an integrated strategy and selecting appropriate web technologies, understanding the significance of site architecture and user paths, designing an online storefront, building and maintaining an online community, infotainment, podcasting (audio blog) as well as fluency in digital policies for the internet economy. Students learn digital technology to reach and maintain clients as well as electronic publishing tools. The prerequisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3
On Occasion

MA 585 Music Marketing

Marketing is an essential part of being successful in the music industry. This course explores topics related to current marketing techniques including identifying and connecting with a target audience, effective approaches to promotion and publicity and branding within a focused niche. Creative strategies for successful marketing are also explored, including online and non-traditional approaches. Students who are interested in promoting their own music projects will benefit from this course as well as students who are interested in expanding their knowledge of marketing in the entertainment industry as a whole. The prerequisite or co-requisite of MA 570 is required.

Credits: 3
On Occasion

MA 586 New Media Management

This class focuses on new and emergent business models and media content that incorporate breakthrough technologies and innovative implementation of existing media. Students examine the new technological shifts in various media industries, unique management models emerging in response to these changes, the use of internet and social technologies for marketing, new distribution and deployment strategies for media such as broadband and mobile, and issues relating to innovative technologies for new media. The prerequisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3
On Occasion

MA 590 Broadcasting I

This course explores researching, writing, and on-air production for television in the areas of news and features. Students will research, write and perform their own material before the camera utilizing up-to-the-minute newsroom technology, shooting in the field and studio technology. The prerequisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3
On Occasion

MA 595 Music Production I

This is an intensive class, which covers the various stages of creating a professional music project, including composing, producing, recording, and mixing. Within a highly collaborative environment, students apply previously acquired technical skills to enact the roles of music producers, composers and recording engineers as they write and produce background music and lyrics. Emphasis is on organizational techniques, production details and deadline management as key aspects of the professional recording industry. This course is in Studios A and C and the media classroom, with Avids ProTools, Apples Logic Audio and Propellerheads Reason as creative tools. The prerequisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3
On Occasion

MA 610 History of the Documentary

This course traces the history of the documentary from its silent beginnings to the present, examining such questions as the relation of the documentary to the fiction film, its claims to truth, and its social use in times of peace and war. The prerequisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3
On Occasion

MA 620 Psychoanalysis and the Media

An introduction to basic psychoanalytical theories and the popular use of psychoanalysis for formulating conceptions about how visual media attracts audiences, how certain narrative processes function, and how psychoanalysis classifies individual character traits. Students study how such theories as those of Freud, Lacan and Interpersonal (Object Relations) Theory have been applied to cinema, television, recording media and current virtual media. The prerequisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3
On Occasion

MA 621 Philosophy and Media

An examination of the ways in which philosophical systems of thought have underpinned both media production and contemporary media theory. The influence of such systems is presented as it is registered in moments in cinema, television, popular recording and the new digital technologies. The prerequisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3
On Occasion

MA 622 Globalization and the Media

An exploration of globalization as discourse, as a social and economic event and as a contested terrain. Analysis of media conglomeration; changes in local communities as depicted in films, television and popular music; the role of global institutions such as the World Trade Organization, the International Monetary Fund, the World Bank; and the anti-global movement. The prerequisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3
On Occasion

MA 623 Corporate Structure of the Media

This course acquaints the student with the business environment in contemporary media institutions, both as workplace and as economic formation. It explores the history and current changes in Hollywood studios and independent and foreign production, in network television, in the recording industry and the Internet. The emphasis is on how these changes in media ownership affect the media artist and how they may be seen to be expressed directly in media objects such as films, television series, music videos, urban contemporary music and in the flow and design of the Internet. The prerequisite or co-requisite of MA 500 or 800 is required.

Credits: 3
Rotating Basis

MA 624 Media Bodies

This course in visual culture explores the representation of the body in art, cinema, photography on-stage from the Renaissance to the present. Topics include: ways of seeing, ethnographic and gender-based icons, semiotic and aesthetic interpretations, history as represented by image and imagination. The prerequisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3
On Occasion

MA 625 Sex, Gender, Media

This course explores the representation of sexuality in the media as well as the contribution made to the understanding of the media by gender theorists. Topics include: homosexuality, heterosexuality, polymorphous sexuality, repression and sublimation. The prerequisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3
Every Fall

MA 626 Crossing Borders

One of the key questions in contemporary media is the representation of the border, be it physical, social, racial, or sexual. This course explores how
visual artists have consistently crossed borders erected by their societies and how they have persistently been interested in questioning the notion of the border. The pre-requisite or co-requisite of MA 500 or MA 800 is required.

Credits: 3
On Occasion

MA 630 Documentary Fact/Fiction
This course is an in-depth consideration of the representation of the "real" through the prism of non-fiction media. On what basis do we understand narrative and non-narrative fiction and non-fiction? How is our understanding of race, gender, politics and ideology mediated by these new genres? Topics include: subjunctive documentary, the mockumentary, scientific animation and simulation, the memoir/confessional, reality TV and docudrama.
The pre-requisite or co-requisite of MA 500 or MA 800 is required.
Credits: 3
On Occasion

MA 631 Global Documentary
The complex processes of globalization have occasioned a number of international co-productions of filmmakers intent on explaining those processes. The course will also study the financing of these documentaries and will consider as well the alterglobalist movement which also works through this medium. The course will in addition consider "documentary-like" fiction films that use these techniques to tell personal stories with a global impact. The rich treasure trove of documentaries on this process includes: Argentina's "Social Genocide" and "The Take," China's "West of the Rails" and Jamaica's "Life and Debt."
The pre-requisite or co-requisite of MA 500 or MA 800 is required.
Credits: 3
On Occasion

MA 632 Topics in Visual Aesthetics
This course deals with various topics in visual aesthetics, outlining the history of the style or aesthetic formation, explaining its technological, industrial and cultural development, and encompassing its use in the media of film, television and video. Topics include: The Long Take, Hollywood Narration, The Experimental Film.
The pre-requisite or co-requisite of MA 500 or MA 800 is required.
Credits: 3
On Occasion

MA 633 Media Genres
This course offers intense study in a single media genre. Genres include: Television Genres, the Post-Modern Musical, Road Movies. (This course may be taken more than once for credit.)
The pre-requisite or co-requisite of MA 500 or MA 800 is required.
Credits: 3
On Occasion

MA 634 Genre Theory, Film, Television, Music
A reconstruction of theories of genre as proposed from literary sources followed by an examination of those theories as applied to the cinema and television as well as to the recently theorized field of popular recording. Students explore the transformations of genres and analyze those transformations through discussions, short written assignments, a long research paper and a group presentation.
The pre-requisite or co-requisite of MA 500 or MA 800 is required.
Credits: 3
On Occasion

MA 635 Global Cinema
This course explores world cinema as an alternative to Hollywood. The modes of production of three different cinemas are spotlighted with careful study of how each local cinema both defines its own aesthetic and interests and how it often defines those interests in relation and opposition to Hollywood. The modes include: Dogma, begun in Denmark but now a global phenomenon; Iran and its cinema which through its extended use of the long take counters current Hollywood editing strategies; and Africa where cinema production calls attention to questions of a continuing colonialism and the problems of postcolonialism. Franco-Belgium Working Class Cinema; New Argentine Cinema; and Chinese Anti-Globalist Cinema.
The pre-requisite or co-requisite of MA 500 or MA 800 is required.
Credits: 3
On Occasion

MA 636 Alternative Media
An exploration of different forms of media which exist as an alternative to mainstream, corporate media systems. Topics include impact of new technology, access to the information highway, digital images and democracy, underground radio, guerrilla video, independent cinema and the Web.
The pre-requisite or co-requisite of MA 500 or MA 800 is required.
Credits: 3
On Occasion

MA 638 The Photo Mural
The course will explore the history and cultural influences incorporated in the art form now known as the Photo Mural. The class is a production-oriented workshop where students explore several avenues involved in the making of mural images - tile printmaking, wall cover billboard and fresco type photo images. Students use a variety of substances including canvas, vinyl, Tyvek, watercolor paper and silk fabric to produce their images. Advanced Photoshop techniques and printing using Color burst rip software is included in the class. Students are required to complete several murals and install them at designated locations throughout the campus or community.
The pre-requisite or co-requisite of MA 556 is required.
Credits: 3
On Occasion

MA 650 Writing Genre
An advanced course in writing scripts for a variety of genres: Hollywood formula, independent film, situation comedy, mystery/thriller/supense, soap opera, television drama, animation, commercials. Students complete at least one script in a chosen genre. (This course may be taken more than once for credit.)
The pre-requisite or co-requisite of MA 550 is required.
Credits: 3
On Occasion

MA 652 Memory and Imagination
The class examines a number of films including Diner, Mean Streets, Platoon and Annie Hall to study the writer's use of personal experience to create story, dialogue and character. Attention will be paid to the transformational process used to lift the story from private memory to public work. Emphasis will also be placed on the development of theme in order to extract meaning from experience. Each student will be expected to write the screenplay for a short film (of at least 30 minutes) utilizing the exercises explored in the class. Both exercise work and scenes from the film scripts in progress will be read and discussed in class.
The pre-requisite or co-requisite of MA 550 is required.
Credits: 3
On Occasion

MA 654 TV Writers Roundtable
This course immerses students in the collaborative writing process of the TV show. During the semester, the class, working as cohorts, create, write, refine and then rewrite a half hour script for a prospective TV series. Along the way, each student is required to write scenes involving characters from ongoing TV series and from the script being developed by the class. A staged reading of the completed script is performed at the end of the semester.
The pre-requisite or co-requisite of MA 550 is required.
Credits: 3
Alternate Spring

MA 655 Photography Portfolio
This is a studio class that enables the student to complete a semester's work focusing on a specialty area within the field. This course introduces the fundamentals of studio lighting with an emphasis on portraiture and still-life photography applications. In-class demonstrations cover the use of tungsten lights and electronic flash equipment, as well as diffusing light with reflectors and umbrellas. Students learn to consider the direction
of light, proper exposure, and the effects on contrast and color balance. Topics include the properties of various light and film combinations. The pre-requisite or co-requisite of MA 556 is required.

Credits: 3

On Occasion

MA 656 Conceptual Digital Photography
This course introduces students to the creative world of conceptual photography. Using photographic reference and Adobe Photoshop to create photographic illustrations, students will create conceptual imagery assembled for a variety of sources. This course covers additional photographic lighting, shooting techniques, digital scanning, image enhancement and assembling, and digital printing. Hands-on activities and shooting assignments will enable each student to discover, explore, and understand the applications of conceptual "photography." In addition, there will be discussion and presentations introducing some of today's professional conceptual photographers. The pre-requisite or co-requisite of MA 556 is required.

Credits: 3

On Occasion

MA 660 Digital Video Imaging II
Expanding on the knowledge and experience gained in MA 560, students use state-of-the-art digital cameras and nonlinear editing systems to complete an advanced level video project of their own design. The pre-requisite or co-requisite of MA 560 is required.

Credits: 3

Every Spring

MA 661 Film Production I
An intermediate level class in which students produce non-sync-sound 16mm film projects and explore advanced lighting, editing, and cinematographic techniques. Convergence technologies, such as digital color correction, video assist and nonlinear postproduction, are also explored. The pre-requisite or co-requisite of MA 560 is required.

Credits: 3

Rotating Basis

MA 662 Directing the Documentary
Working in small production teams, students direct and edit mini documentaries of their own design and genre. The pre-requisite or co-requisite of MA 560 is required.

Credits: 3

On Occasion

MA 663 Digital Imaging Team Portfolio I
This advanced studio class allows students to develop and complete work on a highly specialized and involved Digital production. Students will work as a team (no less than three) to create a project that is of "A" festival quality. The team will submit a proposal to the instructor before class begins. And if accepted they will take their project from treatment to festival submission. This course will cover how to utilize a team to maximize creativity, production value and presence in the market place. This is a two part course followed by Digital imaging Team Portfolio II. The pre-requisite of MA 560 is required or professional/undergraduate documentary experience or permission of Instructor.

MA 664 Components of Visual Storytelling
This advanced course is designed to explore the power and impact of visual elements that control the audience's experience of two-dimensional imagery. We will look at Space, Line, Shape, Tone, Color, Rhythm and Movement, breaking down these visual components then recombining them to create a more dynamic project that is visually and emotionally engaging. This class, for Directors, Writers, Animators, Cinematographers, Editors, Storyboard Artists, New Media Artists and Producers, will increase their understanding of how and why a film with all the right stuff falls flat or a project with little going for it can become a powerful and influential visual statement. The pre-requisite or co-requisite of MA 560 is required.

Credits: 3

On Occasion

MA 665 Directing the Screen Actor II
This course builds on the techniques learned in MA 640, expanding on script interpretation, camera interface, scene analysis and advanced directing skills. The pre-requisite or co-requisite of MA 565 is required.

Credits: 3

On Occasion

MA 666 Cinematic Directing
In this advanced production class in directing, students work collaboratively to develop projects as a team while focusing on the form and structure of all the stages of production. Through a hands-on approach, this class covers aesthetics, drama, the shooting script, working with actors, mood lighting framing, shot sequencing, editing and finishing. The pre-requisite or co-requisite of MA 560 is required.

Credits: 3

On Occasion

MA 667 Single Camera Film-Style Video Production
This is a joint endeavor. WPT and MA Production and Media Management students will become familiar with all phases of pre-production. This will include breaking down the script, casting, location scouting, determining budgets, discussing the style in which this production will be shot, etc. WPT will make decisions as to which scenes to shoot. This hands-on experience will allow students to learn what it is to actually produce a film from the ground up. The pre-requisite or co-requisite of MA 560 is required.

Credits: 3

Cross-Listings: MA 667, WPT 631

Every Fall

MA 668 Location Production
This joint ten (10) day Intensive is part two of the production phase. During this phase, the scenes selected from the scripts written for the Central Project will be shot at various locations. WPT and MA students will work from WPT 631/MA667's pre-production plan. This course takes the production on location where a High Definition project will be completed. Students will occupy crew and on-call writing positions, according to their respective skill sets. This is a hands-on learning experience where students will have the opportunity to hear the thoughts of both Director and DP. (January/Winter Intensive)

The pre-requisite or co-requisite of MA 560 is required.

Credits: 3

Cross-Listings: MA 668, WPT 632

Every Fall

MA 670 Digital Sound Design II
An intermediate-level workshop that focuses on synthesizer fundamentals, multitrack MIDI sequencers, multitrack hard disk recording, digital audio editing, SMPTE lock sound for video and film, sound and music for CD-ROMs, and Digital Performer as a multi-track nonlinear audio editing and mixing environment. The pre-requisite of MA 570 is required.

Credits: 3

Rotating Basis

MA 671 Digital Sound Design III
An advanced workshop that focuses on MIDI sequencers and hard disk recording and editing environments. Advanced features of current versions of Digital Performer and Pro tools software are explored. Other topics include production values and sound design concepts in media, original sound creation for MIDI instruments, and outboard effects. Final projects include sound design or music (or both) for picture (computer animation, film or video), Internet (Web site), CD-ROM, DVD or CD audio. The pre-requisite of MA 670 is required.

Credits: 3

On Occasion

MA 672 Digital Sound Design IV
An advanced workshop that focuses on the completion of sophisticated individual projects in digital sound design or digital audio composition and production. Emerging tools, formats and styles are explored. The pre-requisite of MA 671 is required.
MA 673 Digital Sound Portfolio
A studio class designed to enable the student to focus on and complete a portfolio of work on a specialty area within the field. The prerequisite of MA 670 is required. Credits: 3
On Demand

MA 674 Advanced Sound for Visual Media
This class is a continuation of MA 571 Sound for Visual Media, a production course in sound for film, television, and multi-media. Topics include advanced audio post-production for video, film, video games or other multimedia formats with a focus on sound design, SFX editing, Foley, and ADR (dialog replacement). Emphasis throughout this course is placed on mastering current industry techniques in sound design as well as developing advanced editing and mixing skills in ProTools and SoundTrack Pro software. Through hands-on experience, the course will also focus on creative approaches to soundtrack development. This course is beneficial for audio students who want to improve their sound design skills as well as videographers, filmmakers, and multi-media artists who want to continue improving the quality of their soundtracks. The prerequisite of MA 571 is required. Credits: 3
On Occasion

MA 676 3D Computer Animation I
An introductory level class in 3D computer animation for Video, Film, games and the Web. Students learn and work with basic Motion Graphics, Character Animation, Logo Animation and Special Effects in a variety of different resolutions. The prerequisite or co-requisite of MA 577 is required. Credits: 3
Every Spring

MA 677 Computer Graphics Imaging Portfolio
An advanced portfolio class in Computer Graphics focusing on the conceptualization, production and output of portfolio pieces for video, film, print and the web using industry standard software. All students finish professional portfolios at the end of the class consisting of several projects for various media. Credits: 3
On Occasion

MA 679 Advanced 3D Character Animation
An advanced and specialized studio class in 3D Computer Graphics character animation for Film, Video, Web and Video Games. Character animation techniques and fundamentals of Inverse and Forward Kinematics are covered in addition to Morph based animation, and Motion Capture data. The prerequisite of MA 676 is required. Credits: 3
On Occasion

MA 680 Financing Features
This course, focusing on the marketing, distribution and management of independent and studio features, is a primer for filmmakers wishing to raise money for their personal projects. Students will learn how independent sales companies and major Hollywood distributors market their films. Attention is also paid to producing films in the digital domain and selling ideas to both broadcast and cable networks. The course seeks to demystify the role of the producer and focus directly on how to get started. Guest speakers include professionals from the legal and distribution communities. The prerequisite or co-requisite of MA 500 or MA 800 is required. Credits: 3
On Occasion

MA 681 Developing Documentaries and Shorts
This course gives students a working knowledge of independent film financing and how to develop a project from the idea stage to the lights-camera-action stage. Topics include: writing the treatment, grant proposals, researching foundations, loans, marketing and distribution and film festivals. The prerequisite or co-requisite of MA 500 or MA 800 is required. Credits: 3
Every Summer

MA 682 Digital Imaging Team Portfolio II
This advanced studio class allows students to develop and complete work on a highly specialized and involved Digital production. Students will work as a team (no-less than three) to create a project that is of "A" festival quality. The team will submit a proposal to the instructor before class begins. And if accepted they will take their project from treatment to festival submission. This course will cover how to utilize a team to maximize creativity, production value and presence in the market place. The course will delve deeply into post production and Project completion. Including editing, sound effects, color correction and special effects. Post production Marketing and distribution. The prerequisite or co-requisite of MA 660 is required. Credits: 3
On Occasion

MA 683 Producing Television Series
This course introduces students to all the stages of developing, producing, and delivering a prime-time network television series. Through lectures and workshop exercises, students will learn about development, selling, casting, deal making, budgets, preproduction, production, post production, and marketing. Students will also gain a full understanding of the collaborative imperative of the network television business. The prerequisite or co-requisite of MA 500 or MA 800 is required. Credits: 3
On Occasion

MA 690 Broadcasting II
This is an advanced level course that builds on the news writing and reporting skills gained in Broadcasting I. This course broadens the gathering, writing and producing functions to include other aspects of broadcasting including features, in-depth and investigative reporting, web casting, and visual broadcast design, while also broadening the spectrum to include business news, fashion and music news and features, and reporting on global issues. As in the first class, the range of skills honed here include news gathering techniques, story structure, interviewing, broadcast presentation and researching complex social economic issues. The prerequisite of MA 590 is required. Credits: 3
On Occasion

MA 696 3D Modeling I
An introductory level class focusing on 3D modeling using Autodesk Maya. Students learn basic modeling techniques for organic and inorganic objects for film, video, web, print and video games. The prerequisite or co-requisite of MA 678 is required. Credits: 3
On Occasion

MA 698 3D CG Special Topics
A topic-based class in 3D special effects using a collaborative production model in which students work on all facets of special effects shots for film, video and the web. Special emphasis is placed on live action integration of 3D, effects and compositing techniques. The prerequisite or co-requisite of MA 678 is required. Credits: 3
On Occasion

MA 703 Independent Study I (Theory)
This course allows the student to complete a research paper to be arranged in close association with the student adviser. Credits: 3
Every Semester

MA 704 Independent Study II (Production)
This course allows the student to complete a production project, to be arranged in close association with the student adviser. Credits: 3
Every Semester

MA 705 Field Work Experience
As an alternative to a production course, students may undertake advanced field work experience (approximately 10 hours per week) with a media organization or company. Under the guidance of the Media Arts Director of Professional Development, students integrate newly learned experiences.
skills in a professional environment. A written critique is the final project. Prerequisite: Completion of 18 credits of course work or permission of instructor. 
Credits: 3 Every Semester

MA 706 Internship
As an alternative to a production course, students may undertake an advanced field work experience (approximately 10 hours per week) with a media organization or company. Under the guidance of the Media Arts Director of Professional Development, students integrate newly learned skills in a professional environment. A written critique is the final project. Prerequisite: Completion of 18 credits of course work or permission of instructor.
Credits: 1 On Demand

MA 707 Integrated Thesis Project I (Theory)
The Integrated Thesis Project (ITP) consists of both MA 707 (theory) and MA 708 (production) whereby students create a culminating project integrating the two modes. Media Arts 707 is the writing of a traditional research paper i.e., a significant piece of writing on a topic related to media theory. Students are guided on research resources and methods, thesis structure and writing organization.
Credits: 3 Every Semester

MA 708 Integrated Thesis Project II (Production)
The Integrated Thesis Project (ITP) consists of both MA 707 (theory) and MA 708 (production) and is designed to enable students to create a culminating project combining the two modes, linked by a common theme. Media Arts 708 is the completion of a production in a chosen medium for exhibition or demonstration purposes. Students are guided on process, resources and technique. A public exhibition of work is required.
Credits: 3 Every Semester

MA 800 Applied Contemporary Media Theory
This required foundation theory course recognizes the role that Contemporary Media Theory plays not only in defining media in an era of convergence, but in some ways shaping the form and theme of media. This course is designed to acquaint the student both with select theories and theorists and to show how those theories either illuminate the work, or been used to shape the blend of feminism, Marxism, psychoanalysis, linguistics, semiotics, philosophy, sociology, political economy and aesthetics that comprises Contemporary Media Theory. Should be taken by students within their first year of study.
Credits: 3 Annually

MA 801 MFA Seminar I
The MFA Seminar I is designed to introduce students to the curricular, scholarly, technological and creative concepts and standards employed in their MFA studies. Students are encouraged to explore their artistic concepts in the Media Arts through various different class activities.
Credits: 1 Every Fall

MA 802 MFA Seminar II
The MFA Seminar II is designed to help students better develop and articulate their media art concepts as written Artist Statements and Bios, and media-based presentations. Class activities include writing exercises, media art surveys, statement/bio surveys, class critiques and class media presentations.
The pre-requisite of MA 801 is required.
Credits: 1 Rotating Basis

MA 803 MFA Seminar III
The MFA Seminar III is designed to help students develop ideas and concepts for their MFA Thesis projects through survey, critique and discussion activities. Students develop Thesis proposal packages during this seminar. All Students are required to complete MFA Seminar II prior to taking their final Thesis credit.
The pre-requisite of MA 802 is required.
Credits: 1 Rotating Basis

MA 804 Studio Specialization I
Introductory level graduate study in an area required for MFA study and specialization not supported by our existing studio or production class structures, either due to its technological or aesthetic innovation, interdisciplinary approach, or other unique requirements. Students will work with an Independent Study structure with the appropriate faculty member best qualified for supervision of this specialized study.
Prerequisites: Permission of Faculty Supervisor for the Studio Specialization.
Credits: 3 Every Fall, Spring and Summer

MA 805 Studio Specialization II
This is a Studio Specialization Intermediate level graduate study in an area required for MFA study and specialization not supported by our existing studio or production class structures, either due to its technological or aesthetic innovation, interdisciplinary approach, or other unique requirements. Students will work with an Independent Study structure with the appropriate faculty member best qualified for supervision of this specialized study.
Credits: 3 Every Fall, Spring and Summer

MA 893 Independent Study
This is an Independent Study Advanced level graduate study in an area required for MFA study and specialization not supported by our existing studio or production class structures, either due to its technological or aesthetic innovation, interdisciplinary approach, or other unique requirements. Students will work with an Independent Study structure with the appropriate faculty member best qualified for supervision of this special study.
Credits: 3 Rotating Basis

MA 894 Studio Specialization III
This is a Studio Specialization Advanced level graduate study in an area required for MFA study and specialization not supported by our existing studio or production class structures, either due to its technological or aesthetic innovation, interdisciplinary approach, or other unique requirements. Students will work with an Independent Study structure with the appropriate faculty member best qualified for supervision of this specialized study.
Credits: 3 Every Fall, Spring and Summer

MA 897 MFA Thesis I
The MFA Thesis is the culmination of a student's MFA study and consists of an artistic project in Media Form for public exhibition or screening, of the highest technical, aesthetic and conceptual merit as defined by the Department's MFA Thesis Committee for each concentration. A total of 9 credits are required for the MFA Thesis, in one of two formats, as either a Full MFA Studio Thesis consisting entirely of an artistic project to be executed with all 9 credits, or an integrated Studio and Theory option to consist of 3 credits of a scholarly Thesis level research paper and 6 credits of an artist media project.
Credits: 3 Every Fall, Spring and Summer

MA 898 MFA Thesis II
The MFA Thesis is the culmination of a student's MFA study and consists of an artistic project in Media Form for public exhibition or screening, of the highest technical, aesthetic and conceptual merit as defined by the Department's MFA Thesis Committee for each concentration. A total of 9 credits are required for the MFA Thesis, in one of two Formats, as either a Full MFA Studio Thesis consisting entirely of an artistic project to be executed with all 9 credits, or an integrated Studio and Theory option to consist of 3 credits of a scholarly thesis level research paper and 6 credits of an artist media project.
Credits: 3 Every Fall, Spring and Summer

MA 899 MFA Thesis III
The MFA Thesis is the culmination of a student's MFA study and consists of an artistic project in Media Form for public exhibition or screening, of the highest technical, aesthetic and conceptual merit as defined by the Department's MFA Thesis Committee for each concentration. A total of 9 credits are required for the MFA Thesis, in one of two Formats, as either a Full MFA Studio Thesis consisting entirely of an artistic project to be executed with all 9 credits, or an integrated Studio and Theory option to consist of 3 credits of a scholarly Thesis level research paper and 6 credits of an artist media project.
Credits: 3 Every Fall, Spring and Summer
Writing and Producing for Television Courses

WPT 610 Writing and Development - The Television Series
An introduction to the basics and complexities of television script writing, and the seamless integration of the written script into the development phase of the television production process. Students begin work on the Central Project pilot script.
Credits: 6
Every Fall

WPT 611 The History of Television
An examination of the development and evolution of television as a creative medium, with an emphasis placed on the role of the writer and producer. How did we get from the dawn of the medium of TV to the digital age? Influential TV producers and the role of the writer and producer will be highlighted. Important TV scripts of contemporary and historical importance will be studied.
Credits: 3
Every Fall

WPT 612 The Writers’ Table - Revising and Delivering the Pilot
Students enter the inner sanctum of the creative television scripting world, the writers table. During this course students revise and complete a draft of the Central Project pilot script. (January/Winter Intensive)
Credits: 3
Every Fall

WPT 620 Television Series and Programs - Writing and Pre-Production
The completed draft of the Central Project has been submitted. Students will start to explore the intricacies of production as the pilot moves from the development stage into pre-production.
Credits: 6
Every Spring

WPT 621 Genre Theory and Writing the Pilot
This course will examine the concept and theory of genre as it applies to well-known television and film forms. In conjunction with this, the ongoing development of the students individual TV pilots, a component of the Capstone project, will be supervised and guided on a one-on-one basis.
Credits: 3
Every Spring

WPT 622 The New Media: An Introduction
This introductory course deals with the tectonic impact that the internet, New Media, and the New Distribution Technologies have had on the television industry and the resulting phenomenon of digital television programing and the web series. Through a practical discussion of the new media landscape, the students will be led through the digital series development process resulting in the writing of a viable web series pilot.
Credits: 3
Every Spring

WPT 630 Television Series and Programs - Writing and Production
During this course, students see their words and images come alive as the creative process transitions from the page to the screen.
Credits: 6
Every Fall

WPT 631 Single Camera Film-Style Video Production
This is a joint endeavor. WPT and MA Production and Media Management students will become familiar with all phases of pre-production. This will include breaking down the script, casting, location scouting, determining budgets, discussing the style in which this production will be shot, etc. WPT will make decisions as to which scenes to shoot. This hands-on experience will allow students to learn what it is to actually produce a film from the ground up.
The pre-requisite or co-requisite of MA 560 is required.
Credits: 3
Cross-Listings: MA 667, WPT 631
Every Fall

WPT 632 Location Production
This joint ten (10) day Intensive is part two of the production phase. During this phase, the scenes selected from the scripts written for the Central Project will be shot at various locations. WPT and MA students will work from WPT 631/MA667's pre-production plan. This course takes the production on location where a High Definition project will be completed. Students will occupy crew and on-call writing positions, according to their respective skill sets. This is a hands-on learning experience where students will have the opportunity to hear the thoughts of both Director and DP. (January/Winter Intensive)
The pre-requisite or co-requisite of MA 560 is required.
Credits: 3
Cross-Listings: MA 668, WPT 632
Every Fall

WPT 642 Post Production
Students will expand upon the knowledge and skill sets they acquired in WPT 631 and 632 as they delve into the world of High Definition video editing or postproduction. Topics to be covered include: Nonlinear editing systems (Avid, Final-Cut, Vegas), SFX generation, color correction, audio sweetening techniques and aesthetics, advanced shooting for the edit techniques, advanced editing aesthetics, motion graphics and motion capture.
Credits: 3
Every Spring

WPT 643 Intellectual Property and Cutting the Deal
This course analyzes the business of being a professional screenwriter: developing an idea, pitching it, developing it with a producer, presenting it to network executives and, ultimately, getting a job. The class will explore the how-to of getting and then working with an agent and/or manager and a lawyer. Collaboration is a necessary aspect of screenwriting, whether it is working with a partner or as a member of a writing team. It will also include the necessary “collaboration” between writers and producers and ultimately, studio & network executives. Guest speakers will include screenwriters, producers, agents, Writers Guild representatives, network executives, lawyers and directors.
Credits: 3
Every Fall

WPT 644 The Internet and New Distribution Technologies
This is an advanced course dealing with the tectonic impact that the Internet and New Media and the New Distribution Technologies have had on the television industry.
Credits: 3
On Occasion

WPT 698 Individual Episode Writing
During the Spring semester students, will complete their individual episode script and refine their treatments for an original TV series together with a verbal pitch that could be made to a broadcast or cable network. A completed individual episode script must be submitted by the end of the first month of the coming Fall Term. Students will submit their individual episode scripts and begin to prepare their treatments for an original TV series together with a verbal pitch that could be made to a broadcast or cable network.
Credits: 3
Every Spring

WPT 699 Internship
Students will have the opportunity to do a prestigious internship placement at a media production company, or media organization. Internship placements must be cleared in advance with the MFA Advisor.
Credits: 0
Every Fall, Spring and Summer

WPT 700 The Capstone Portfolio
Capstone project will consist of the following elements: 1) The Central Project Pilot Script. 2) An individual four-act pilot or episodic script of at least fifty (50) properly formatted pages in length. 3) A treatment for an original TV series including the premise, character breakdowns and story synopsis. 4) A verbal network “pitch.” 5) An original TV pilot based on #s 3&4 above
Credits: 3
Every Spring

WPT 700 The Capstone Portfolio
Capstone project will consist of the following elements: 1) The Central Project Pilot Script. 2) An individual four-act pilot or episodic script of at least fifty (50) properly formatted pages in length. 3) A treatment for an original TV series including the premise, character breakdowns and story synopsis. 4) A verbal network “pitch.” 5) An original TV pilot based on #s 3&4 above

DEPARTMENT OF
POLITICAL SCIENCE

Senior Professor: Ehrenberg (Chair)
Professors: Stevens Haynes, Sánchez
Professors Emeriti: DiMaio, Werner, McSherry
Associate Professors: Sheppard
Assistant Professors: Fahmy
Adjunct Faculty: 6

The Political Science Department’s central mission is to help students become informed citizens and effective professionals. We offer a comprehensive curriculum that examines domestic and international power structures, socioeconomic relations, and the building blocks of public life — government, ideas and activity — in their domestic, international, comparative, geographic and theoretical dimensions. We seek to further the university’s vision of “a learning community dedicated to empowering and transforming the lives of its students to effect a more peaceful and humane world that respects differences and cherishes cultural diversity; improving health and the overall quality of life; advancing social justice and protecting human rights; reducing poverty; celebrating creativity and artistic expression; rewarding innovation and entrepreneurship; honoring education and public service; and managing natural resources in an environmentally responsible, sustainable fashion.”

M.A. in Political Science

Political science traditionally is divided into four major subfields. Students pursuing the Master of Arts degree take a core course in each of them:

American Politics: Studies in the origins and operation of the U.S. constitutional order. Subfields might include political parties; campaigns and elections; the media; and race and gender.

International Relations: The study of both classical global politics – the balance of power among states – and the rise of non-state actors in an increasingly complex world, from transnational corporations to transnational terrorist groups.

Comparative Politics: Compares and contrasts forms of government and political organization, such as institutions (militaries, political parties) or types of political systems (democracies, autocracies).

Political Theory: From Socrates to John Rawls, an examination of the ideas and influence of the great schools of thought on history, politics and society.

The remaining eight courses are electives, chosen in consultation with the faculty adviser and reflecting the student’s particular area of interest. At the end of the 12-course, 36-credit course of study, students must pass the department’s comprehensive examination in two of the four subfields. Students who choose to write an M.A. thesis do not have to take the comprehensive exam. Normally the entire program takes two years to complete. Students in the United Nations Certificate Program also can earn a master’s degree after consultation with the department.

M.A., Political Science
[Program Code: 06959]

<td>Alternate Years</td>
<td></td>
</tr>
<tr>
<td>POL 637</td>
<td>The Legislative System</td>
<td>3</td>
<td>An in-depth study of the legislative process at the local, state and national levels. Focus is on legislative analysis, including the study of legislative histories, lobbying, the role of unions, elected officials, the media and the general public. (Same as URB 637).</td>
<td>On Occasion</td>
<td>URB 637</td>
</tr>
</tbody>
</table>
POL 638 International Relations
An intensive survey of major theoretical perspectives and conceptual frameworks in international relations as well as a historical grounding in major recent and contemporary issues in world politics. Topics covered include realism, liberalism, Marxism and dependency, world systems theory, U.S. foreign policy, the role of the United Nations and international organizations, and globalization. Required of all candidates for the M.A. in Political Science.
Credits: 3
Alternate Years

POL 639 International Political Economy
A comprehensive study of political economy in the global system: the complex interactions between politics and economics, power and wealth. Students examine key theories, specific contemporary problems and major issues in political economy, including Third World development, the economic restructuring of former Communist countries, foreign aid, regional cooperation, the role of transnational corporations and the International Monetary Fund, and the relationship between democracy and free markets.
Credits: 3
Alternate Years

POL 642 International Organization, The United Nations and its Affiliated Agencies
A study of the theories, origins, functions and operations of international organizations. The principal organs of the United Nations, with emphasis on the General Assembly and the Security Council, are examined. (Same as PM 767.)
Credits: 3
Cross-Listings: PM 767, POL 642
On Occasion

POL 664 Contemporary Latin American Politics
An examination of the history, politics and economics of Latin America and an analysis of theories offered to explain Latin American development (or underdevelopment). The region's uneven development and political turmoil are charted as the course traces the historical roots of the complexities of Latin America: history of Spanish colonialism; U.S. hegemonic power; revolutions, both liberal and socialist; military coups and regimes; and recent transitions to democracy. The political-economic impact of the current embrace of free-market capitalism is considered. Case studies of major Latin American countries and regional processes and transformations are reviewed.
Credits: 3
On Occasion

POL 667 Future Politics - Utopia or Dystopia
Drawing on a range of sources from historical analogy to scientific analysis and speculative fiction, this course will assess the critical debates that will shape the politics of the future. Issues will include environmental factors, challenges to state sovereignty, prospects for human rights and exploration and colonization beyond earth.
Credits: 3
On Occasion

POL 668 Contemporary Nationalism
An analysis of the phenomenon of nationalism: its historical roots in Europe; the emergence of new states in the Third World and the post-Cold War period; and the struggle of states to achieve national identities and cultural, economic and political independence. Nonviolent as well as revolutionary-nationalist patterns are discussed as are the difficulties of achieving viable state-directed national societies in the global order.
Credits: 3

On Occasion

POL 685 Approaches to Political Inquiry
This course is a comprehensive survey of modern research techniques and methods in political science. It reviews the competing approaches to research in political science and evaluates the strengths and weaknesses of alternative methods of dealing with various research problems. Students will be trained in the proper methods of political inquiry for all subfields. These include building salient research questions, testing hypotheses, and evaluating theory. This course introduces students to both quantitative and qualitative methods of research and offers useful training in writing analytically and thinking logically.
Credits: 3
On Occasion

POL 700 Independent Study
The development of selected topics in conjunction with a faculty adviser. Prerequisite: Approval of the Department.
Credits: 3
All Sessions

POL 707 Research Methods/Thesis Seminar
A year-long development of a research thesis. In the first semester, advanced study of scientific method in the discipline of political science, together with the preparation of a master's thesis proposal. In the second semester, the actual writing of the thesis. Pass/Fail only. Open only to matriculated Masters students.
Credits: 3
Every Fall

POL 708 Research Methods/Thesis Seminar
A year-long development of a research thesis. In the first semester, advanced study of scientific method in the discipline of political science, together with the preparation of a master's thesis proposal. In the second semester, the actual writing of the thesis. Pass/Fail only. Open only to matriculated Masters students.

DEPARTMENT OF PSYCHOLOGY

Professors Duncan, Kose (Director, M.A. Program), Papouchis, Penn, Ramirez, Samstag, Schuman, Wong (Director, Ph.D. Program)
Professor Emeriti Allen, Fudin, Hurvich, Magai, McGuire, Ritzler
Associate Professors Kudadjie-Gyamfi (Chair), Meehan, Pardo, (Director, LIU Psychological Services), Haden
Assistant Professors Cain, Saunders
Adjunct Faculty: 14

The Department of Psychology offers education and training in understanding emotions and behavior, at the undergraduate, master’s and doctoral levels. The department is comprised of 14 full-time faculty members, with specialties including personality assessment, mentalization and reflective functioning, emotional regulation, psychotherapy process and outcome, cultural and ethnic issues, community violence, the development of aggression, abuse and trauma, racial stereotypes and prejudice, psychological problems with political refugees and psychodynamic and cognitive-behavioral models of treatment. Full-time faculty members teach at all levels of the department.

The department offers two programs of graduate study, one leading to the Doctor of Philosophy in Clinical Psychology, and the other leading to the Master of Arts in Psychology. Candidates for any graduate degree in psychology may be terminated at any time by reason of weak academic performance, professional unsuitability, or failure to progress at a satisfactory rate.

Ph.D. in Clinical Psychology

The Doctor of Philosophy degree in clinical psychology is offered to a small and highly select group of full-time matriculated students.

The program has been continuously accredited by the American Psychological Association since 1974, and offers high-quality clinical and research training. Its most recent accreditation took place in 2014. Students in the Ph.D. program are prepared to function as clinical psychologists in a variety of settings and are carefully trained in the development of research skills through coursework and mentoring by program faculty members who help them to develop and carry out original research projects. The Ph.D. program operates the Psychological Services Center, in which members of the campus community can receive psychological assessment and treatment at no cost.

Students complete courses and supervised clinical work in a variety of selected practicum settings. Courses are offered in the daytime. Students are expected to maintain steady, full-time progress toward the degree by completing a minimum of 24 credits of course work per year during the first three years of residence, although students in the first year of the program are expected to take a minimum of 17 credits of coursework each semester. Students in the fourth year are expected to work full time on their doctoral dissertations. The number of students in each entering class averages between 15 and 17.

A candidate for the Ph.D. may also elect to qualify for the Master of Arts degree by completing the requisite 36 credits of course work.

Program Philosophy and Goals

The philosophy of the Ph.D. program is that a clinical psychologist is a psychologist first, and subsequently a specialist. That philosophy is based on the assumption that all the skills and services a clinician may develop are founded upon, and critically evaluated from, the science of psychology. The training model followed might best be described as a scholar-practitioner model.

The primary goal of such a model is to prepare students to be clinical psychologists who are carefully grounded and competent in the scientific aspects of psychology. To achieve that goal, a variety of clinical courses, seminars and practicum experiences are available to students to develop their knowledge and skills in the areas of psychopathology, assessment and the fundamentals of a variety of intervention techniques with emphasis on empirically supported treatments.

At the same time, students are exposed to the experimental areas in general psychology and are trained in sophisticated statistical procedures, research design and methodology. Coursework in statistics and basic principles of research design are offered in the first year of training. Students are then expected to begin to develop independent research projects, the second year research project, under close faculty supervision in the Spring semester of the first year. The research projects should be completed no later than the beginning of the third year. Advanced courses in research design are part of the required curriculum in the second year of training. Students also have the opportunity to participate in other faculty research projects as part of the coursework in both the clinical and general/experimental areas.

Theoretical Orientation

The theoretical orientation of the Ph.D. program is strongly influenced by the spectrum of the various psychodynamic approaches to therapy. Cognitive-behavioral and dialectical behavioral approaches are also emphasized. Students are trained in intervention modalities such as individual, group and family therapy. There are also opportunities for students interested in child clinical/developmental issues to receive more specialized training in that area.

Clinical courses and practicum experiences over the first three years of training are designed to familiarize the student with a variety of approaches to conceptualizing and assessing psychopathology and therapeutic interventions.

Thus, graduates are well prepared to function as practicing clinical psychologists and to meet the academic requirements for licensure in psychology as set by the New York State Education Department.

Admission to the Ph.D. Program

All applicants should ordinarily have completed a minimum of 18 undergraduate credits in psychology, including courses in experimental psychology and statistics. Minimal requirements for consideration for admission to the Ph.D. program include an undergraduate grade point average of 3.2 and a grade point average in psychology of 3.4. All applicants are also required to submit scores on the Graduate Record Examination (GRE) (including the advanced test in psychology). Each applicant should ask at least three professors to submit letters of recommendation.

The deadline for all applicants is January 5, although applications will be formally reviewed beginning on December 1st. Applicants are strongly encouraged to submit their applications as early as possible. Students whose applications are favorably reviewed will be interviewed for the program at the beginning of February. Notification of the final decision of the Admissions Committee will usually take place by the beginning of March and continue through April 15. In accordance with APA standards, acceptance of an offer to the Ph.D. program must be made by April 15 and will be binding thereafter. There are no midyear admissions to the program. At the present time, no candidates are admitted with advanced standing, although students can transfer 6 credits of selected graduate courses from another university with the approval of the director of the doctoral program.

Applicants not accepted into the Ph.D. program will have their applications automatically forwarded to the M.A. program for review and possible admission.

The Admissions Process and the Current Student Body

In recent years the Department of Psychology has received approximately 250 completed applications each year. Evaluation of application materials by the Admissions Committee results in interviewing approximately 75 of the original pool of applicants.

Acceptances into the program are offered on a rolling basis until an incoming class of 15 to 17 students has been filled. The admissions committee accepts applicants solely on the basis of qualifications. Among all doctoral students currently enrolled the age range covers the early 20s to the mid-40s; women account for 70% of the group; 15% of the students are members of minority groups; and 1% are handicapped.

Admission to Ph.D. Candidacy

Admission to Ph.D. candidacy is determined by the successful completion and presentation of the second-year project and the submission of the clinical qualifying examination paper to the director of the Ph.D. program.
Degree Requirements and Time Limits

Ordinarily, completion of the requirements for the Ph.D. degree in Clinical Psychology will entail a minimum of five years of full-time academic study. The first three years in residence usually involve full-time course work, while the fourth involves full-time work on the doctoral dissertation before the clinical internship. Full-time work on the dissertation often occupies the year after the internship as well. There is an eight-year time limit on the completion of all requirements. The average time for completing the program has been 6.3 years over the past eight years. During this same time period, approximately one third of each class has completed the program within five years.

The degree requirements in clinical psychology include a minimum of 90 credits of graduate courses, completion of the second-year project, one full year of clinical internship at an approved installation, satisfactory performance on the clinical qualifying examination paper and oral exam, and the presentation and satisfactory defense of a doctoral dissertation that represents an original contribution to psychology.

Students who have completed 36 credits receive the M.A. degree in Psychology.

The internship for clinical psychology students ordinarily encompasses one full year of training at an installation approved by the department.

Further regulations concerning maintenance of good standing in the programs will be found in the Graduate Student Handbook issued by the Department of Psychology.

Academic Counseling

All faculty are willing and available to aid students encountering specific difficulties in their academic studies. In addition, the director of clinical training meets with each class in residence on a once-a-month basis to discuss issues relevant to students’ academic and clinical experience. Students are also assigned to a specific faculty member who serves as their faculty adviser during their time in the program. In courses such as Statistics and Psychological Assessment, advanced students with special skills hold teaching assistantships and work with students in laboratory sections. In courses such as Research Design, students have ample opportunity to work in a tutorial relationship with the professor, especially on preparation of designs for research projects. In connection with clinical activities, the program ensures that all treatment and diagnostic activities are carefully supervised.

Graduate Assistantships

Assistantships are available to students in the doctoral program during the first three years. Teaching assistantships, usually reserved for second- and third-year students, carry a stipend and partial tuition remission. Research assistantships within the department carry partial tuition remission and a stipend and require eight to ten hours of work per week. Information about such assistantships is available at the time of admission to the program. There are also full tuition-remission scholarships given to three minority students in each entering class, while qualified advanced students may receive paid teaching fellowships.

Housing

The best sources of housing information are current doctoral students, local real estate agents, and online. There is also new graduate housing provided by the university.

Psychological Counseling

The New York City metropolitan area is saturated with possibilities for low-cost counseling, psychotherapy and psychoanalysis, whether through neighborhood clinics or the clinical services attached to the various postdoctoral training institutes that abound in the city. Doctoral students are not required to be in psychotherapy, but such self-exploration is encouraged if it is at all possible.

M.A. in Psychology

Students enrolled in the M.A. in Psychology receive a mix of theoretical and applied coursework. The program is designed to provide a broad grounding in psychological principles and practice that ready the student for work in related fields or for continued education at the doctoral level.

Admission to the M.A. Program

Applicants to the M.A. program must have completed at least 12 undergraduate credits of psychology, including statistics, with a grade point average of at least 2.75. In addition, they must submit letters of recommendation from two professors. Admission to the M.A. program in no way implies acceptance into the Ph.D. program. Nonetheless, outstanding master’s degree candidates are admitted into doctoral courses with the permission of the directors of both programs, and some M.A. graduates are accepted into the Ph.D. program. Both graduate programs are committed to increasing the enrollment of aspiring minority students.

All applicants to the Ph.D. program who were not accepted for admission to the Ph.D. program will have their applications automatically forwarded to the M.A. program for review and possible admission.

M.A. Degree Requirements and Time Limits

The M.A. program is ordinarily completed in one and one half to two years of intensive study. The time limit for the M.A. degree is five years. Candidates must have completed 33 credits, which includes an acceptable thesis (10 courses plus Psychology 709M, Master’s Thesis Supervision), or 36 credits (12 courses) and pass a written comprehensive examination. These courses must be successfully completed before registration for the comprehensive examination. Credit for courses taken outside the Department of Psychology must be approved by the master’s program director and will be limited to a maximum of six credits.

Curriculum for M.A. Degree

The typical curriculum for the M.A. degree consists of 600-level courses designated by the letter M, which are offered in weekday late afternoon, evening or weekend classes. Some psychology courses are open to both M.A. and Ph.D. students without prerequisite.

Credit and GPA Requirements

Minimum Credits: 90
Minimum Major GPA: 3.25

Credit and GPA Requirements

Minimum Credits (Thesis Option): 33
Minimum Credits (Non-Thesis Option): 36
Minimum Major GPA: 3.0
Psychology Courses

PSY 600 Research Design I
An introduction to the basic theories issues, concepts and constructs of what constitutes sound psychological research. Students are expected to develop the capacity to critically evaluate research, and to formulate research proposals on their own. Students complete a proposal for their second-year research project as part of the course requirement. Prerequisite: Psychology 606
Must be a student in the Doctoral Psychology program
Credits: 3
Every Semester

PSY 601M Human Sexuality
A survey of sexual behaviors (both normal and deviant), with emphasis on the dynamics of motivations. Developmental aspects: myths, fallacies and taboos associated with sex; and modern concepts based on research and clinical studies are all studied.
Credits: 3
On Occasion

PSY 602 Developmental Psychology
A consideration of developmental issues from empirical research, interpersonal-psychoanalytic theory and cognitive theory. Major theorists discussed include Piaget, Bowlby, and others. The aim of the course is to look at developmental issues from differing points of view and to examine points of convergence and divergence.
Must be a student in the Doctoral Psychology program
Credits: 3
On Occasion

PSY 603 Contemporary Psychological Theories
A survey of the transformation of psychological thought from nineteenth century philosophy, physiology and medicine to modern psychology as a scientific discipline. Implications for behavioral science and its variety of disciplines and schools of thought are examined with an emphasis on history and systems of current psychological theories.
Must be a student in the Doctoral Psychology program
Credits: 3
Annually

PSY 605M Family Dynamics
An examination of the family: its structure and functions, its members and their interactions, the institutions of society that influence it, and how familial pathology is defined and treated.
Credits: 3
On Occasion

PSY 606 Statistics in Psychology I
A look at estimation and hypothesis testing and the power of a test and introduction to parametric statistics, multiple correlations and simple analysis of variance. Three hours lecture; one hour laboratory. Prerequisite: Undergraduate course in psychological statistics.
Credits: 4
Annually

PSY 607 Professional Ethics and Standards
An examination of the broad spectrum of contemporary ethical issues encountered by psychologists as teachers, researchers and practitioners and a forum for increased ethical awareness and analysis. Pass/Fail only.
Credits: 3
Every Fall

PSY 609M Independent Study
Prerequisites: Completion of the 12-credit core, at least one required course in the area of specialization, and other courses as determined by the faculty supervisor. An opportunity for practicum experience or an independent project for the advanced student. The course and its specific requirements are under the supervision of a faculty member. Successful completion requires submission of a final paper documenting the process and outcome. Requires the permission of the Chair of the Department and the Dean. May be repeated; maximum six credits. The prerequisites of PSY 603M, 616M, 617M and 665M are required.
Credits: 3
Every Semester

PSY 611 Cognitive and Affective Issues in Psychology
This course will also examine contemporary issues centering on the intersection of emotion, motivation, and cognition. Topics will include basic research from social, cognitive, and neuroscientific perspectives, as well as research relevant to understanding these topics in an applied context. We will examine core topics in which students will be exposed to essential questions and dimensions about: basic emotions; basic emotions and neuroscience; cognitive appraisals; emotion and higher-order cognition (interpretation, judgment, decision making and reasoning); unconscious processes; repression-dissociation; the intersection of self, culture, and emotion; emotion and cognition in psychotherapy; and other similar topics. The course will draw upon primary sources, and will be conducted in a composite seminar-lecture style that encourages active student participation in integrating the current literature with individual scholarly interests.
Credits: 3
Every Spring

PSY 613 Social Psychology
An analysis of fundamental concepts in interpersonal and group relations, with consideration of the application of social psychology to contemporary human problems; for example, personality development and adjustment, ethnic attitudes and conflicts, social movements, and propaganda.
Credits: 3
Annually

PSY 614M Introduction to Consultation and Community Mental Health
This course offers an introduction to the major concepts and strategies of community intervention; situation analysis and case conceptualization, program development and implementation. Emphasis will be placed on community mobilization, collaboration, and program sustainability. Required for specialization in Community-Industrial Psychology.
Credits: 3
On Occasion

PSY 615M Personality
A critical examination of the leading theories of personality, with the purpose of evolving a comprehensive conceptualization. Required for specialization in Clinical Psychology.
Credits: 3
On Occasion

PSY 615M Personality
A critical examination of the leading theories of personality, with the purpose of evolving a comprehensive conceptualization. Required for specialization in Clinical Psychology.
Credits: 3
On Occasion

PSY 616M Statistical and Research Methodology I
A study of how to design and conduct experiments, and how to read and interpret obtained results, and refine the succeeding design and procedures, as well as how to read and...
PSY 617M Statistical and Research Methodology II
This course is the second in the series for Statistical and Research Methodology. See description for PSY 616M (the first in the series). Required of all candidates for the M.A. in Psychology. The prerequisite of PSY 616M is required.
Credits: 3
On Occasion

PSY 618M Modalities of Therapeutic Intervention
A discussion of various therapeutic strategies and tactical alternatives in a variety of settings.
Credits: 3
On Occasion

PSY 620 Tests and Measurements
A consideration of the principles of psychometric theory. Issues of test construction, validity and reliability are discussed. Principles of administration, scoring and interpretation of the Stanford-Binet, the Wechsler series, and a survey of personality inventories, occupational tests and neurocognitive tests are covered. Cultural differences related to test biases and performances are covered. Three hours lecture; one hour laboratory.
Credits: 4
Every Fall

PSY 621M Tests and Measurement
An introduction to concepts of psychological test construction and evaluation. Principles of ethical conduct, administration and interpretation are illustrated for standardized tests commonly used in vocational counseling, employment practices and clinical assessment.
Credits: 3
On Occasion

PSY 625 Psychological Assessment I
A study of the basic principles of assessment, including interviewing and psychological testing, with an emphasis on individual differences. Introduction is made to the Rorschach and other projective tests, as well as continued work with neurocognitive tests. Three hours lecture; one hour laboratory. Cultural differences are covered.
Corequisite: Psychology 620 or its equivalent.
Credits: 4
Every Spring

PSY 630A Introduction to Clinical Interviewing and Practice I
An introduction to clinical interviewing techniques and didactic material across a range of intervention strategies, with a focus on cognitive-behavioral techniques. The seminar also addresses ethical issues in clinical practice and offers the opportunity to learn through direct practicum experience, role playing or observation of other students clinical experience. The empirical literature on psychotherapy outcome studies is also presented as well as cultural and ethnic factors affecting the clinical process. Issues related to the identification and reporting of child abuse and maltreatment are also addressed. Pass/Fail only.
Credits: 3
Every Fall

PSY 630B Introduction to Clinical Interviewing and Practice I
An introduction to clinical interviewing techniques and didactic material across a range of intervention strategies, with a focus on cognitive-behavioral techniques. The seminar also addresses ethical issues in clinical practice and offers the opportunity to learn through direct practicum experience, role playing or observation of other students clinical experience. The empirical literature on psychotherapy outcome studies is also presented as well as cultural and ethnic factors affecting the clinical process. Issues related to the identification and reporting of child abuse and maltreatment are also addressed. Pass/Fail only.
Credits: 3
Every Fall

PSY 630M Practica
Supervised experience in an area that relates to students' interests or specialization. On-site experiences are employed during the weekly seminar to focus on students' concerns and basic issues of ethics, theory and practice. Students must find their own placements.
Credits: 3
On Occasion

PSY 635A Advanced Clinical Interviewing III
An intensive case seminar taken in conjunction with a two-day per week practicum placement. The seminar uses the practicum experiences to focus on issues in clinical interviewing, therapeutic alliance building, treatment planning and psychotherapy as well as empirically supported therapies. Topical readings related to each of these areas are assigned regularly for discussion as well as cultural and ethnic factors affecting the clinical process. Issues related to the identification and reporting of child abuse and maltreatment are also addressed. Pass/Fail only.
Credits: 3
Every Fall

PSY 635B Advanced Clinical Interviewing III
An intensive case seminar taken in conjunction with a two-day per week practicum placement. The seminar uses the practicum experiences to focus on issues in clinical interviewing, therapeutic alliance building, treatment planning and psychotherapy as well as empirically supported therapies. Topical readings related to each of these areas are assigned regularly for discussion as well as cultural and ethnic factors affecting the clinical process. Issues related to the identification and reporting of child abuse and maltreatment are also addressed. Pass/Fail only.
Credits: 3
Every Fall

PSY 636A Advanced Clinical Interviewing IV
An intensive case seminar taken in conjunction with a two-day per week practicum placement. The seminar uses the practicum experiences to focus on issues in clinical interviewing, therapeutic alliance building, treatment planning and psychotherapy as well as empirically supported therapies. Topical readings related to each of these areas are assigned regularly for discussion as well as cultural and ethnic factors affecting the clinical process. Issues related to the identification and reporting of child abuse and maltreatment are also addressed. Pass/Fail only.
Credits: 3
Every Fall

PSY 636B Advanced Clinical Interviewing IV
An intensive case seminar taken in conjunction with a two-day per week practicum placement. The seminar uses the practicum experiences to focus on issues in clinical interviewing, therapeutic alliance building, treatment planning and psychotherapy as well as empirically supported therapies. Topical readings related to each of these areas are assigned regularly for discussion as well as cultural and ethnic factors affecting the clinical process. Issues related to the identification and reporting of child abuse and maltreatment are also addressed. Pass/Fail only.
Credits: 3
Every Fall
The prerequisite of PSY 646 is required.

PSY 646B Advanced Clinical Interviewing IV
An intensive case seminar taken in conjunction with a two-day per week practicum placement. The seminar uses the practicum experiences to focus on issues in clinical interviewing, therapeutic alliance building, treatment planning and psychotherapy as well as empirically supported therapies. Topical readings related to each of these areas are assigned regularly for discussion as well as cultural and ethnic factors affecting the clinical process. Issues related to the identification and reporting of child abuse and maltreatment are also addressed. Pass/Fail only.
Credits: 3
Every Spring

PSY 643 Teaching Seminar in Psychology
This course is designed to prepare psychology graduate students for the teaching of psychology at the undergraduate level and as teaching assistants. The course involves syllabus preparation, selection of instructional material, testing, evaluation, and demonstration lectures. Also included in the course is a discussion of classroom management strategies and techniques, as well as other practical and theoretical issues relating to the teaching of psychology.
Credits: 0
Annually

PSY 644M Group Processes and Techniques
An examination of groups and of such group techniques that may be used for treatment, promotion of growth, or improvement of relationships in diverse settings. The format of the course may be both didactic and experiential. The empirical literature is considered.
Credits: 3
On Occasion

PSY 646 Cognitive Behavior Modification I
An introduction to the theory and practice of behavior modification and cognitive-behavioral modification. Emphasis is placed on the assessment of maladaptive behavior from a cognitive-behavioral perspective and on developing and implementing behavioral and cognitive-behavioral intervention strategies with diverse populations.
The prerequisite of PSY 646 is required.
Credits: 3
On Occasion

PSY 648M Developmental Psychology I
Childhood and Adolescence
A consideration of issues that concern the development of the individual from conception to late adolescence. Theories of development are surveyed. Attention is given to the impact of biological and social factors that influence the course of development. Required for specialization in Developmental Psychology.
Credits: 3
Every Spring

PSY 655 Psychopathology I
An introduction to the core concepts and major research findings in psychopathology, including how major mental disorders are defined, explained, and classified by the DSM-5. The course will emphasize major etiological and sociocultural factors contributing to these disorders, as well as how to apply these diagnostic categories to clients presenting in clinical practice.
Credits: 3
Every Fall

PSY 655M Psychopathology
A study of the genesis, course, conceptualization, diagnosis and treatment of mental illness. Required for specialization in Clinical Psychology.
Credits: 3
On Occasion

PSY 657 Childhood Psychopathology
A study of the essentials for understanding the diagnosis of childhood psychopathology and its assessment. The empirical literature of a range of diagnostic categories is reviewed as well as the impact of cultural factors. Prerequisite Psychology 655.
Credits: 3
Annually

PSY 658 Psychotherapy of Children
An in-depth study of the theory and practice of child psychotherapy. Emphasis is on psychodynamic approaches as well as some application of behavioral management and family systems theory. The empirical literature in this area is also examined.
Credits: 3
Annually

PSY 660 Intervention Techniques I
This course is designed to orient students to current theory and research in intervention techniques, including cognitive behavioral models, psychodynamic models, interpersonal models, and humanistic models with a particular emphasis on short-term psychotherapies. This course will elucidate why (or for what purpose) therapists of different orientations use certain intervention techniques as opposed to others and will focus on areas of convergence as well as discrepancies between the various models. Finally, this course will provide an overview of important issues facing contemporary clinical psychologists, including cultural competence, psychotherapy integration, and empirically supported treatments. Corequisite: Psychology 655
Credits: 3
Every Fall

PSY 665M Professional Issues and Ethics in Psychology
A seminar devoted to discussions and the evaluation of various theoretical and practical issues in psychology. Problems of ethics and the roles of the psychologist receive particular attention. Required of all candidates for the M.A. in Psychology.
Credits: 3
Every Fall

PSY 666M Ethnic Cultural, and Minority Issues in Psychology
An examination of the impact upon gender, racial, ethnic, religious and other minorities of stereotyping, discrimination, and efforts to ignore differences or compel uniformity.
Credits: 3
On Occasion

PSY 669M Seminars in Special Topics
Consideration of special areas of interest in psychology at the master's level by intensive study in a seminar format.
Credits: 3
On Occasion

PSY 670M Seminars in Special Topics
Consideration of special areas of interest in psychology at the master's level by intensive study in a seminar format.
Credits: 3
On Occasion

PSY 671 Dynamic Psychotherapy I
This course examines the theory and techniques of dynamic psychotherapy with the neurotic and character disordered individual. The emphasis is on the beginning phase of treatment, the therapeutic alliance, transference, resistance and other key issues in dynamic psychotherapy. While focusing on common principles shared by varied schools of dynamic psychotherapy, we will also look at areas of difference between schools, at empirically supported techniques, and at treatment issues raised by clients with diverse cultural backgrounds. Concurrent supervised experience (Clinical Practice III) is required. The prerequisite of PSY 655 is required and the corequisite of PSY 635A or B is required and is only open to students in the PhD program.
Credits: 3
Annually

PSY 671M Topics In Cognition
This course will study the history and development of Cognitive psychology in the late twentieth century. This course will also review contemporary
research on perception, language, concept formation, imagery, and reasoning.

CREDITS: 3
ON OCCASION

PSY 672 Community Mental Health
The major issues in community mental health are examined with an emphasis on the impact of social and community issues on mental health. Intervention strategies for addressing these issues are examined with a special emphasis on social psychological interventions.

CREDITS: 3
ON OCCASION

PSY 672M Forensic Psychology
This graduate course considers a range of topics that are of concern to both psychologists and members of the legal profession. In this course, we will investigate how psychology works with the legal system as social scientists, consultants, and expert witnesses. We will examine how psychological theories, research data, techniques and methods can enhance and contribute to our understanding of the judicial system. In addition to offering an introduction to the field of forensic psychology, this graduate course will focus on: 1) psychological assessment of competency, malingering, and criminal responsibility, 2) jury selection process and jury decision making, and 3) psychological treatment for crime victims and perpetrators.

CREDITS: 3
ON OCCASION

PSY 674 Psychology of Gender
A psychological study of the traditional perspectives of gender, the means by which psychologists attempt to study gender, the relationship of gender to traditional issues in psychology, the causes of sex differences and similarities, and how biological and cultural factors influence the development of gender roles and identities.

CREDITS: 3
ON OCCASION

PSY 676 Psychological Assessment II
The purpose of this course, which is a continuation of Psychology 625, is to provide participants with the theoretical knowledge and practical skills necessary to conduct an individual, comprehensive psychological assessment in a mental health setting. Participants will learn about test selection, as well as approaches to working with a multi-method test battery. Tests covered will include cognitive (e.g., WAIS-IV), self-report personality tests (e.g., MMPI-2), and projective (or performance-based) personality tests (e.g., TAT; Rorschach). While participants will learn test administration and scoring, a major goal of the course will be on integration and interpretation of findings in the context of writing a comprehensive report for use in diverse clinical settings. The course will consist of weekly class meetings in a composite lecture-seminar format, and weekly lab meetings. Three hours lecture; one hour laboratory. Prerequisite: Psychology 625

CREDITS: 4
ANNUALLY

PSY 678 Clinical Neuropsychology
An introduction into the interrelation between human biology, physiology, neurology and human behavior. The literature and research concerned with the assessment of organicity or pathology, concepts of the physiological basis of abnormal behaviors, and related topics are presented.

CREDITS: 3
ANNUALLY

PSY 679 Family Therapy
A study of a variety of conceptual approaches to family therapy. These approaches include, but are not limited to, structural systems theory and object relations approaches to family therapy practice. The empirical literature evaluating such approaches is discussed as are ethnic and cultural differences.

CREDITS: 3
ANNUALLY

PSY 680 Neuropsychological Assessment
An examination of the variety of assessment techniques designed to evaluate and interpret neuropsychological functions. It is recommended that this course follow Psychology 678.

CREDITS: 3
ANNUALLY

PSY 691A Clinical Practice V
An intensive case seminar taken in conjunction with a two to two-and-a-half day per week practicum placement. This advanced seminar utilizes student practicum experiences to focus on more complex clinical issues in psychodynamic psychotherapy primarily through specific clinical case presentations. The empirical literature on clinical supervision is also discussed as are empirically supported therapies. Pass/Fail only

CREDITS: 3
EVERY FALL

PSY 691B Clinical Practice V
See the description for Psychology 691A for a full description of this clinical case seminar. Pass/Fail only.

CREDITS: 3
EVERY FALL

PSY 692A Clinical Practice VI
This case seminar is a continuation of Psychology 691A. Pass/Fail only

CREDITS: 3
EVERY SPRING

PSY 692B Clinical Practice VI
This clinical case seminar is continuation of Psychology 691B. Pass/Fail only.

CREDITS: 3
EVERY SPRING

PSY 699 Second Year Research Project
This seminar may be enrolled in when working on a Second Year Research Project and may be taken only once. Pass/Fail only. The one credit may not be used toward the 90 credits required for graduation.

CREDITS: 1
ON OCCASION

PSY 700 Research Design II
This seminar, an extension of Psychology 600, involves a detailed examination of methods used in experimental psychology that have implications for conducting research related to psychodynamic theory and treatment. Drawing upon specific studies in social, cognitive, and clinical psychology, participants will examine a variety of approaches that rely on explicit and/or implicit methods. In doing so, participants will examine different topics, including: self/self-descriptions, object relations, unconscious processes, attachment, and personality. Emphasis is placed on learning practical skills both to assess existing studies, and to develop future studies (including a doctoral dissertation research proposal). Prerequisites: Psychology 600 and 606

CREDITS: 3
ANNUALLY

PSY 701 Seminar and Readings in Contemporary Psychology
The reading and criticism of more recent literature in psychology including significant books and articles on personality, perception, learning theory, theory construction, and application in such fields as development psychology, clinical psychology, social psychology and personality theory.

CREDITS: 3
ON OCCASION

PSY 703 Current Issues in Clinical Psychology and Psychopharmacology
A review of current readings in clinical psychology and psychopharmacology.

CREDITS: 1
ON OCCASION

PSY 704 Advanced Personality Theory
A review of a variety of new empirical and theoretical developments in the psychology of personality. Conceptual topics include neo-analytic, cognitive-developmental, and factorial models of personality organization. Study of research in those spheres of personality psychology is central to course work, including examination of the content and methodological issues that are unique to this area of psychology.

CREDITS: 3
ANNUALLY

PSY 706 Statistics in Psychology II
A study of correlation analysis, analysis of variance, analysis of covariance, advanced multiple regression, non-parametric methods and other selected techniques for treatment of data. Three hour lecture; one hour laboratory. Prerequisite: Psychology 606

CREDITS: 4

### PSY 707 Issues in Trauma Research and Treatment

A review of the theoretical and methodological approaches to the investigation and treatment of trauma. Ethical issues are discussed.

**Credits:** 3  
**On Occasion**

### PSY 709M Master's Thesis Supervision

Master's degree candidates receive assistance in completing their theses. 

Prerequisite: Permission of the Chair of the Department.  
Pass/Fail only.  
**Credits:** 3  
**Every Semester**

### PSY 710 Psychotherapy Research

An examination of the history of psychotherapy research that focuses on the major topics as therapeutic alliance, alliance ruptures and treatment failures, common versus specific factors, and differential treatment outcome. Significant psychotherapy research studies and programs (e.g., the NIMH depression study), and empirically validated treatments are reviewed. A number of psychotherapy research assessment instruments that measure different change mechanisms in therapy are demonstrated using vignettes of videotaped sessions. Students interested in pursuing psychotherapy research are thus provided some hands-on experience with a number of measures.  
This course is the equivalent of Research and Design II.  
Prerequisite: Psychology 600  
**Credits:** 3  
**Every Fall**

### PSY 750 Individual Research I

Individual research projects under supervision.  
Pass/Fail only.  
Prerequisites: Psychology 600 and 700 or 710.  
**Credits:** 3  
**Annually**

### PSY 751 Individual Research II

Individual research projects under supervision.  
Pass/Fail only.  
Prerequisites: Psychology 600 and 700 or 710.  
**Credits:** 3  
**Annually**

### PSY 755 Psychopathology II

A study of contemporary theory and research in psychopathology with a special emphasis on developmental etiological factors, biosocial contributions, symptom formation and the rationale for different interventions.  
Psychodynamic and cognitive behavioral theories are emphasized as is the interaction of psychopathology with cultural factors. Discussion of the literature related to the DSM is also considered.  
Prerequisite: Psychology 655  
**Credits:** 3  
**Every Spring**

### PSY 760 Ego Functions

A focus on the definition of the major ego functions as described in psychoanalytic literature.  
Those functions include reality testing, impulse control, defensive functioning, object relations and synthesis. Emphasis is given to assessment, therapeutic implications and empirical research.

### PSY 761 Borderline and Narcissistic Psychology

A review of the historical background of borderline and narcissistic syndromes. Key literature is discussed, and differential diagnostic and therapeutic issues are extensively considered as is the efficacy of empirically supported techniques.  
**Credits:** 3  
**On Occasion**

### PSY 765 Object Relations Theory

An in-depth study of the contributions of the major British object-relations theorists and the place of such theory in psychoanalytic thought.  
The empirical support for these theories is also discussed.  
**Credits:** 3  
**On Occasion**

### PSY 771 Dynamic Psychotherapy II

A study of the way in which principles of psychodynamic psychotherapy may be applied to severe psychopathology and to short-term therapies.  
The application of such principles to the psychoses, and borderline conditions is discussed.  
The empirical literature related to such psychotherapeutic issues is discussed as are the interactions with cultural and ethnic factors.  
Empirically supported therapies for these more severe disorders are also discussed. Concurrent supervised clinical practice is required.  
**Credits:** 3  
**Annually**

### PSY 775 Seminars in Special Topics

An intensive study in special areas of interest in Clinical Psychology (not necessarily the same topics each year). Examples of topics are computer research technology, brain and behavior relationships, psychopharmacology, issues of social stress, special statistical techniques, and the study of anxiety.  
**Credits:** 1 to 3  
**On Occasion**

### PSY 779 Special Topics

An intensive study in special areas of interest in Clinical Psychology (not necessarily the same topics each year). Examples of topics are research technology, brain and behavior relationships, psychopharmacology, issues of social stress, special statistical techniques, and the study of anxiety.  
**Credits:** 1 to 3  
**On Occasion**

### PSY 801 Clinical Internship

Each candidate for the doctorate in clinical psychology must spend one year full-time or two years half-time as an intern in an approved installation, such as a mental hospital or mental hygiene clinic. Services performed concentrate on diagnostic testing and staff conferences, and supervised individual or group psychotherapy. 
Pass/Fail only. No credit. This course has an additional fee.  
**Credits:** 0  
**Every Fall**

### PSY 842 Second-Year Internship

Available to those students who wish to pursue a second year of clinical internship. Not required for the doctorate.  
Pass/Fail only. No credit.  
Prerequisite: PSY 840-841. This course has an additional fee.  
**Credits:** 0  
**Every Spring**

### PSY 843 Second-Year Internship

Available to those students who wish to pursue a second year of clinical internship. Not required for the doctorate.  
Pass/Fail only. No credit.  
Prerequisite: PSY 840-841. This course has an additional fee.  
**Credits:** 0  
**Every Fall**

### PSY 849A Dissertation Topic Seminar

Students develop the conceptual rationale and methodology for their dissertation topics. Each student has the opportunity to present his or her own research proposal, to receive feedback from other students and the instructor, and to critique the proposals of other students. Students may register for this course for one or more semesters.
Required of those students in their fourth year who are not yet in dissertation committee. Pass/Fail only. Psychology 849A offered every Fall; Psychology 849B offered every Spring; Psychology 849C offered every Summer.

Credits: 3
Every Fall

PSY 849B Dissertation Topic Seminar
Students develop the conceptual rationale and methodology for their dissertation topics. Each student has the opportunity to present his or her own research proposal, to receive feedback from other students and the instructor, and to critique the proposals of other students. Students may register for this course for one or more semesters. Required of those students in their fourth year who are not yet in dissertation committee. Pass/Fail only. Psychology 849A offered every Fall; Psychology 849B offered every Spring; Psychology 849C offered every Summer.

Credits: 3
Every Spring

PSY 849C Dissertation Topic Seminar
Students develop the conceptual rationale and methodology for their dissertation topics. Each student has the opportunity to present his or her own research proposal, to receive feedback from other students and the instructor, and to critique the proposals of other students. Students may register for this course for one or more semesters. Required of those students in their fourth year who are not yet in dissertation committee. Pass/Fail only.

Credits: 1
On Occasion

PSY 850 Doctoral Thesis Supervision
Each doctoral candidate conducts doctoral thesis research under the guidance of a committee, which may be a standing committee or one assembled with consent of the clinical director. The enrollment and fee for this course registration is repeated as long as the study is in active progress. Pass/Fail only. Students receive an Incomplete until the dissertation is completed.

Credits: 3
Every Fall and Spring

PSY 853 Doctoral Thesis Supervision
Each doctoral candidate conducts doctoral thesis research under the guidance of a committee, which may be a standing committee or one assembled with consent of the clinical director. The enrollment and fee for this course registration is repeated as long as the study is in active progress. Pass/Fail only. Students receive an Incomplete until the dissertation is completed.

Credits: 3
Every Fall and Spring

PSY 854 Doctoral Thesis Supervision
Each doctoral candidate conducts doctoral thesis research under the guidance of a committee, which may be a standing committee or one assembled with consent of the clinical director. The enrollment and fee for this course registration is repeated as long as the study is in active progress. Pass/Fail only. Students receive an Incomplete until the dissertation is completed.

Credits: 3
Every Fall and Spring

PSY 855 Doctoral Thesis Supervision
Each doctoral candidate conducts doctoral thesis research under the guidance of a committee, which may be a standing committee or one assembled with consent of the clinical director. The enrollment and fee for this course registration is repeated as long as the study is in active progress. Pass/Fail only. Students receive an Incomplete until the dissertation is completed.

Credits: 3
Every Fall and Spring

PSY 856 Doctoral Thesis Supervision
Each doctoral candidate conducts doctoral thesis research under the guidance of a committee, which may be a standing committee or one assembled with consent of the clinical director. The enrollment and fee for this course registration is repeated as long as the study is in active progress. Pass/Fail only. Students receive an Incomplete until the dissertation is completed.

Credits: 3
Every Fall and Spring

PSY 857 Doctoral Thesis Supervision
Each doctoral candidate conducts doctoral thesis research under the guidance of a committee, which may be a standing committee or one assembled with consent of the clinical director. The enrollment and fee for this course registration is repeated as long as the study is in active progress. Pass/Fail only. Students receive an Incomplete until the dissertation is completed.

Credits: 3
Every Fall and Spring

PSY 858 Doctoral Thesis Supervision
Each doctoral candidate conducts doctoral thesis research under the guidance of a committee, which may be a standing committee or one assembled with consent of the clinical director. The enrollment and fee for this course registration is repeated as long as the study is in active progress. Pass/Fail only. Students receive an Incomplete until the dissertation is completed.

Credits: 3
Every Fall and Spring
M.S. in Social Science

LIU's multidisciplinary graduate social science program is designed for professionals seeking to enhance their career opportunities within their respective fields. Students receive a Master of Science in Social Science degree following completion of twelve courses (thirty-six credits) in a variety of related disciplines. Depending on a student’s particular career aspirations, a course of study, determined in consultation with the program director, will provide the appropriate academic and analytical background for professionals in the chosen field.

M.S., Social Science

[Program Code: 06953]

Degree requirements are as follows:
1. Twelve credits (four courses) in a social science (anthropology, economics, history, political science, psychology, sociology, urban studies);
2. Six credits (two courses) in a second social science;
3. Fifteen credits (five courses) in electives
4. Three credits in research methods or statistics;
5. Comprehensive exam.

In this bulletin, social science courses are listed under departmental “Academic Offerings.” Please refer to the following departments for courses of particular interest to you: anthropology, economics, history, political science, psychology, sociology, and urban studies.

Credit and GPA Requirements

Minimum Credits: 36
Minimum Major GPA: 2.75
The Master of Arts degree in Sociology is not offered at this time, but graduate courses in sociology are offered as part of other departments and programs including the United Nations Graduate Program, Urban Studies and Social Science.

### Sociology Courses

**SOC 526 Asian Cinema**

A focus on cinema as a unique cultural product in which artistic sensibilities are mobilized to address, and thus reflect, significant aspects of contemporary society. Through a range of feature films from the region, this course examines these cultural products as collective expressions of some enduring concerns in modern Asian societies.

*The pre-requisite or co-requisite of MA 500 or MA 800 is required.*

*Credits: 3*

*Cross-Listings: MA 533, SOC 526*

**SOC 553 World Social Development**

A consideration of the world social situation, including such subjects as health, food and nutrition, housing and urban planning, education, employment, and social development in developing areas.

*Credits: 3*

*Cross-Listings: PM 769, SOC 553, SSC 553*

**SOC 601 Reading in Sociology**

Independent reading, research and study under the guidance of a sociology faculty member; topic to be mutually agreed upon in advance.

*Credits: 3*

**SOC 651 Urban Economics**

An analysis of economic problems arising in the modern urban areas of the United States. Discussion centers around the causes of such problems and possible alternative solutions. Relationships among city and state governments and the federal government receive due consideration.

*Credits: 3*

*Cross-Listings: ECO 651, PM 788, SOC 651, URB 651*

**SOC 654 Methods of Social Research**

An examination of the range of research methods employed in social science. Topics include selection of research designs, sampling and data collection, quantitative and qualitative approaches, statistics and the ethics of social research. Students are expected to apply such research strategies throughout the semester.

*Credits: 3*

**SPEECH-LANGUAGE PATHOLOGY**

See Communication Sciences and Disorders.

General.

The Institute for the Study of International
Organizations

The Institute for the Study of International
Organizations builds on the unique instructional
methodology and specialized research conducted
in the United Nations Advanced Certificate
Program and its related master’s degree
opportunities and provides for further development
of advanced studies and research in international
organizations. The Institute coordinates research
projects dealing with the United Nations system
and nongovernmental organizations, with regional
organizations, and with other international
groupings.

Advanced Certificate, United Nations
Program Code: 84578

Credit and GPA Requirements

Minimum Credits: 24
Minimum Major GPA: 2.75

United Nations Courses

UN 692 Modern Diplomacy
A comprehensive overview of contemporary international diplomacy considered as art, science, craft, practice, institution and process. Topics of discussion include the nature and development of diplomacy, diplomatic practice, methods, and techniques; types of diplomacy (with special emphasis on multilateral diplomacy); diplomatic privileges and immunities; the role and function of diplomats; the diplomat as a foreign affairs professional; and the contribution of diplomacy toward maintaining world order.

Credits: 3
On Occasion

UN 694 Management of International Organizations
A focus on structural and managerial issues within international organizations and an examination of the tools needed to function within such an environment.

Credits: 3
Cross-Listings: PM 761, UN 694
On Occasion

UN 700 Independent Study
Development of selected topics, in conjunction with faculty adviser.
Prerequisite: Approval of the Department.
Credits: 3
On Occasion

UN 701 The United Nations and Human Security
The course will focus on such global/cross border and interrelated threats as poverty, population growth and migration, global warming, energy and water scarcity, “failed states,” terrorism and weapons
of mass destruction and the denial of human rights. The "new dimensions" of these threats to human security will be explored and assessed, along with the range of global governance instruments that might be used by the international community to meet the challenges that they pose.
Credits: 3
On Occasion

UN 706 International Humanitarian Assistance
A review of the evolution of the concept and practice of humanitarian assistance. The course covers the interface between humanitarian assistance and peacekeeping operations, the continuum between emergency assistance and economic/social development, the role of humanitarian assistance in peace building, the role of nongovernmental organizations in the provision of humanitarian assistance, and the evolving international legal concepts of dealing with the right to humanitarian assistance. The course focuses on case studies of actual emergency assistance operations.
Credits: 3
Annually

UN 708 United Nations Nongovernmental Organizations
A study of the premises and functions of private voluntary organizations in the UN non-governmental organizations (NGO) structure. Student-initiated research in the functions of selected groups of NGOs is conducted. Multidisciplinary and analytical discussions of research progress reports on NGO activities and interactions with international organizations are held.
Credits: 3
Annually

UN 710 Research Methods
An introduction to research techniques in the social sciences. Students are required to research a major function or principal concern within the UN system. Based on their research, students make formal presentations and defend policy proposals drawn from their research.
Credits: 3
Annually

UN 711 Research Seminar
Cornerstone of the United Nations Program, a research seminar that provides training in policy making and requires preparation of a major study on a specific area of UN operations. Students write a research paper on a major function or principal concern within the UN system.
Credits: 3
Annually

UN 712 Advanced Seminar
An exploration of selected United Nations issues through intensive study in a seminar format.
Credits: 3
On Occasion

UN 713 The UN and Conflict Prevention
This seminar will explore the role of the United Nations in conflict prevention. More specifically, drawing from history and on the basis of case material, the seminar will seek to explain the concept and evolving practice of prevention by the United Nations with particular attention to the institutions involved and the modalities and impact of their interventions.
Credits: 3
On Occasion

UN 715 The UN and Peacebuilding
This seminar will examine the role of the United Nations in peacebuilding, with specific reference to selected problem areas in developing countries.
Credits: 3
On Occasion

UN 716 United Nations and The Middle East
The seminar will examine the events that led to the initial involvement and continued engagement of the United Nations in the Middle East. Starting with the Balfour Declaration through the independence of Israel followed by the various Security Council and General Assembly resolutions on the situation to the present "road map," the student will explore the role of the United Nations in the Israel/Palestine question. The seminar will also discuss the impact of the Gulf War, the recent intervention in Iraq, and the current challenges facing the United Nations in the fields of democratization, disarmament, and human rights in the region.
Credits: 3
On Occasion

UN 717 United Nations and Global Terrorism
This course explores these questions with particular attention to the novel features of the threat posed by terrorism to international peace and security, the effectiveness of applicability of traditional models and mechanisms for dealing with the security challenges posed by terrorism and addressing its root causes, and what can be done through the United Nations to contain and suppress terrorism.
Credits: 3
On Occasion

UN 798 Internship in Non-Governmental Organizations Field Experience in Central America
This course is designed to provide direct exposure to and experience in the work of a UN department or UN-related agency. The student engages in a supervised fieldwork activity and is expected to meet at least once every two weeks with a faculty coordinator. The student is also expected to keep a log of all fieldwork experience and complete a seminar-length paper analyzing a specific problem of the agency or department.
Credits: 3
On Demand

Students work closely with the UN Country Team, whose Resident Coordinator opens the recruitment event, and research its in-country programs. Students learn about the national priorities of the country and, dependent upon the interest of the Government, also meet with government officials, at the hosted event and/or separately. The student is also expected to keep a log of all fieldwork experience and contribute to a formal report to be submitted to the DPI/Executive Committee, the UN Country Coordinator and the NGOs recruited for association.
Credits: 3
On Demand

UN 799 Internship in International Organizations
A course designed to provide direct exposure to and experience in the work of a UN department or UN-related agency. The student engages in a supervised fieldwork activity and is expected to meet at least once every two weeks with a faculty coordinator. The student is also expected to keep a log of all fieldwork experience and complete a seminar-length paper analyzing a specific problem of the agency or department.
Credits: 3
On Demand
EMERGING DISCIPLINES: URBAN STUDIES PROGRAM

URBAN STUDIES PROGRAM

Professor Jose R. Sanchez (Political Science),
Chair; 718-488-1057; e-mail:
jose.sanchez@liu.edu
Professors: Dorinson (History), Wilson (History)
Associate Professor: Kim (Sociology)
Adjunct Faculty: 4

The Urban Studies Program provides students with a behind-the-scenes look at urban administration, economics, government, history, management, planning and sociology. It offers a comprehensive curriculum for administrators, economists, managers and planners in unrelated fields, who are interested in career change or in working in urban agencies, in addition to those already employed in the field, who lack the academic credentials needed to advance professionally.

Faculty members are experts in their areas of specialization and provide fascinating insight and an insider's perspective into the daily business, politics and economics of urban life and administration. Guest lecturers from public and private agencies visit the classroom often, offering their commentary on a wide range of urban-related topics.

M.A. in Urban Studies

The M.A. in Urban Studies provides a general and technical understanding of the metropolis, surrounding regions and world urbanization for persons interested in such areas as administration, economics, government, history, housing, management, planning, geographic information systems and sociology.

The program's faculty members are drawn from the fields of urban studies, economics, history, political science and sociology. They include adjunct faculty selected for their knowledge and experience in professional practice in such matters as administration, management, geographic information systems (GIS) and planning. Guest lecturers from public and private agencies also contribute to courses that deal with specialized subjects.

The program will interest persons who have varied interests and experiences: those seeking new career paths in such fields as administration, management, planning and public history; those working in a city or suburban agency but without previous concentrated academic education in the field; those seeking an intermediate degree as a stepping-stone to further academic or professional goals; and those interested in a graduate degree in urban studies with elective courses exploring various aspects of the metropolis including Brooklyn studies, city planning, community planning and New York City history.

The master's program in urban studies is mostly an evening program and is designed for working professionals as well as part-time and full-time students. It offers a multidisciplinary graduate course of study leading to a Master of Arts in Urban Studies. Courses at the 500-level are available to qualified undergraduates in their junior and senior years.

The M.A. in Urban Studies is more than a narrow professional degree. It provides a broad exposure to the essential elements of urban studies while developing skills in writing, research and critical analytical thinking that prove necessary and valuable in a wide range of professional fields. Graduates can look forward to a wide range of career opportunities. Planning and GIS skills are always in demand by government and non-profit organizations as well as private companies. There are also many opportunities in real estate, education, non-profit management, economic development, international development, neighborhood/community development, health care, social services, and public administration.

Admission to Degree Program

Applicants to the program leading to the Master of Arts in Urban Studies, must meet these requirements:

- Have a bachelor's degree or its equivalent
- Have at least 24 semester hours of advanced undergraduate work in the social sciences (economics, history, political science, psychology, sociology and anthropology) or the equivalent.
- Students who were not undergraduate social science majors must have at least a B- undergraduate average in such required social science courses as have been taken and may be required to take up to 12 credits of undergraduate courses, which will not be credited toward the degree, in order to compensate for any deficiencies in preparation.

MA Urban Studies

[Program Code: 06962]

Major Requirements:

Of the following courses only one is required:

<table>
<thead>

Credit and GPA Requirements

Minimum Credits (Thesis Option): 36
Minimum Credits (Project Option): 36
Minimum Major GPA: 3.0
Urban Studies Courses

URB 500 Introduction to Urban Theory
An introductory course that centers on readings in urban history and sociology in order to give graduate students a grasp of the language and literature of urban studies.
Credits: 3
Alternate Years

URB 503 Brooklyn's Community Tradition
A focus on the growth of Brooklyn in terms of such specific communities as Brooklyn Heights, Brownsville, Flatbush, Fort Greene and Park Slope. Special emphasis is given to noted architectural and environmental features of those communities. Course is supplemented by guided walking tours of related neighborhoods.
Credits: 3
Every Summer

URB 504 The Development of the American Metropolis
A study of the development of the American metropolis from the period of earliest settlement to today. Special emphasis is placed on the relationship of physical development to the various factors that affect urban growth and change. (Same as History 504)
Credits: 3
Cross-Listings: HIS 504, URB 504
Alternate Years

URB 506 The Geography of New York City
A field-based course that explores the relationships between the physical, economic and social geography of the city's development.
Credits: 3
On Occasion

URB 510 State Violence and Terrorism
An examination of individual terrorism - its origins and theories offered to explain it - and the forms of state coercion known as state terror, which is often prompted by perceived domestic or foreign threats to survival, authority or national interest. The role of surveillance and security in urban areas are also explored. Underlying conditions such as civil strife, separatist movements, racial cleavages and ideological rationales are examined. Examples of both categories of terrorism are drawn from history and from different world regions and are analyzed via theories learned in the course.
Credits: 3
Cross-Listings: POL 510, URB 510
On Occasion

URB 550 The Ghetto from Venice to Harlem
An intensive examination of the primary and secondary literature on a modern phenomenon: the ghetto. The course is intended to give students a broad understanding of the physical uses and processes of ghettoization on an international scale. The course also examines the racial, religious and cultural ideologies that govern ghettos.
Credits: 3
On Occasion

URB 560 The City through Film
An examination of how film has shaped the public's view of the city as well as the role the city has played in film. Particular films are screened and analyzed. (Same as Political Science 601)
Credits: 3
Alternate Years

URB 583 The History of the City of New York
A chronological and topical review of the political and social development of New York City from Dutch settlement to the present. Emphasis is placed on the development of the city as a great financial, intellectual and cultural center.
Credits: 3
Cross-Listings: HIS 583, URB 583
On Occasion

URB 601 Capital Cities and Politics Comparative International Urbanisation
An examination of the political, physical, economic, social and cultural aspects of urbanization as a worldwide development, with particular emphasis on selected great cities and their regions and on regional urban/suburban interaction. (Same as Political Science 601)
Credits: 3
Alternate Years

URB 603 Urban Ministry
An historical and sociological course on the special role of religious institutions in cities. A broad range of literature exposes students to the religious ideologies and movements that have responded to and defined urban problems.
Credits: 3
On Occasion

URB 604 Urban Government and Politics
A study of the management and organization of American cities; politics and changing constituencies; and the impact on community participation, city management and mayorality. (Same as Urban Studies 604 and Public Administration 781)
Credits: 3
Cross-Listings: PM 781, POL 604, URB 604
On Occasion

URB 605 Computer Technology Application to Metropolitan Affairs
The use of computer technology in metropolitan matters. An overview of general applications with specific attention to geographic formation systems.
Credits: 3
Cross-Listings: PM 780, URB 605
On Occasion

URB 608 The Role of Ethnicity in the Metropolis
A consideration of the roles played by some of New York City's ethnic, cultural and national groups in the development of urban neighborhoods.
Credits: 3
Cross-Listings: PM 787, URB 608
On Occasion

URB 619 Planning in Developing Nations
An exploration of the social, environmental and cultural elements of the comprehensive planning process at various levels of government in developing nations.
Credits: 3
On Occasion

URB 623 Independent Research
Selection and completion of a research project, under the supervision of a faculty member. Requires approval by individual faculty and chair.
Credits: 3
On Demand

URB 624 Independent Research
Continuation and completion of a research project, under the supervision of a faculty member. Requires approval by individual faculty and chair.
Credits: 3
On Demand

URB 629 Community Planning and Metropolitan Economic Development
A study of the principles and systems of community planning as methods of sustaining and promoting economic growth. The course includes selected topics such as community boards, government and private agencies and departments, zoning, special legislation, and programs pertaining to economic incentives.
Credits: 3
On Occasion

URB 651 Urban Economics
An analysis of economic problems arising in the modern urban areas of the United States. Discussion centers around the causes of such problems and possible alternative solutions. Relationships among city and state governments and the federal government receive due consideration.
Credits: 3
Cross-Listings: ECO 651, PM 788, SOC 651, URB 651
On Occasion

URB 680 Education Issues for Inner-City Family
This course explores the ability of New York City to adapt its educational policy to the growing economic and cultural diversity of its student population. The course's literature and assignments allow for an in-depth exploration of social and educational issues facing urban families and schools.
Credits: 3
On Occasion

URB 708 Thesis and Project Seminar
Completion of a master's thesis or project, research and writing of the thesis or development and
presentation of the project. Pass/Fail only.
Prerequisite: URB 7072 and Departmental permission.
Credits: 3
Annually

URB 7072 Metropolitan Thesis and Project Research Seminar
Development of a research thesis or terminal project proposal, use of urban methods, demographic and other data, bibliographical research, research design, as well as writing and presentation process. Prerequisite: Departmental permission.
Credits: 3
Annually
The School of Business, Public Administration and Information Sciences at LIU Brooklyn prepares students for professional careers in business and government. In addition to excellence in teaching, the depth and variety of academic study options and professional enrichment offerings combine to create a dynamic learning environment that provides students with the stimulation, networking opportunities, diversity and inspiration required for true academic success and professional development. Students are engaged and challenged by an internationally recognized faculty. Small classroom environments allow students to better gain knowledge, skills and ethical values in their study areas, as well as to develop the ability to evaluate current and emerging global issues and opportunities. Students’ experiential learning includes multidisciplinary teamwork, case studies and consulting projects, all of which have helped our students gain national recognition and placement in top firms and government agencies.

The School of Business, Public Administration and Information Sciences offers the degrees of Associate in Applied Science in Business Administration; Bachelor of Science in Accounting, Computer Science, Entrepreneurship, Finance, Healthcare Management, Management (available with a concentration in Human Resource Management), Marketing, and Technology Management; Bachelor of Science/Master of Science in Accounting; Master of Business Administration (M.B.A.) in Accounting; Master of Business Administration (M.B.A.) with concentrations in Entrepreneurship, Finance, International Business, Human Resource Management, Management, Management Information Systems, and Marketing (also available as an accelerated One-Year MBA for all concentrations); Master of Science in Accounting, Computer Science, Human Resource Management, and Taxation; Master of Public Administration (M.P.A.) with majors in Public Administration and Health Administration; Advanced Certificates in Gerontology Administration, Human Resource Management and Non-profit Management; and a collaborative program leading to the United Nations Advanced Certificate and Master of Public Administration.

The School consists of four academic units which offer graduate degrees: Department of Finance, Law, Accounting and Taxation; Department of Technology, Innovation and Computer Science; Department of Managerial Sciences; and Public Administration.

For information, please contact the Dean’s Office at 718-488-1130, fax 718-488-1125, email us at business@brooklyn.liu.edu, or visit the website at www.liu.edu/brooklyn/business.

Mission Statement

The School of Business, Public Administration, and Information Sciences at LIU Brooklyn is dedicated to advancing scholarship and preparing our diverse student population to meet the challenges of their future. Located in the heart of Brooklyn, New York, we have been both tightly connected to and reflective of our community for almost 100 years, embracing LIU’s overarching mission of access and excellence.

Our mission is to provide a transformational educational experience for our students based on the following principles:

- Our programs are relevant. Our faculty maintains close ties to practice and are continually updating their skills to keep up with our students’ needs. Our courses apply theory to practice and provide a wide variety of experiential learning opportunities.
- We teach our students to be entrepreneurial— they learn to create value in society through creativity and innovation.
- We believe in ethical professional practices and are committed to public and community service.
- We believe that all students have value. We foster close ties between faculty and students through small class sizes and faculty availability.

By following these principles, we produce graduates with:

- Marketable skills that lead to successful job placement and productive careers.
- Critical thinking and problem solving abilities that make them into lifelong learners.
- A commitment to ethics and civic responsibility that makes them solid global citizens.

Vision

In order to execute on our mission, we aspire to the following:

- We will be a school of choice—our culture, faculty and programs will differentiate us from our competition so that students make a deliberate choice to enroll here.
- We will act entrepreneurially to constantly re-evaluate our programs and curricula and seek opportunities to grow our enrollment and improve our brand.
- We will be innovative and creative in order to design programs and pedagogy that are unique, relevant, and cutting edge.
- We will teach our students to use the technology that they will need to succeed in today’s workplace.
- We will enhance traditional modes of course delivery with modern tools and techniques to improve meaning and effectiveness for our students.

Academic Policies

Transfer Credits

A maximum of 6 credits, earned at an accredited college or university graduate program, may be transferred to the master programs. A maximum of 12 credits may be transferred to the Master of Public Administration program. Grades earned for transfer credits are not included in calculation of the cumulative grade point average. In all instances, transfer credits will not be granted where the grade is less than 3.00. Transfer credit will be accepted only for courses taken within the last five years preceding enrollment in a School of Business, Public Administration, and Information Sciences graduate degree program. Courses taken at another university after admission to LIU Brooklyn may not be used for transfer credit unless prior written permission is obtained from the dean.

Time Limits

Work for the master’s degree must be completed within five years from the date of admission to the graduate program (exclusive of time spent in the U.S. armed forces), unless the dean approves an extension in writing.

M.B.A. Waiver Policy

Students with undergraduate or graduate business administration work may have courses waived in the general business core of the M.B.A. program. Students must have received grades of at least 3.0 (B) in two undergraduate courses or one graduate course with the same academic content for each general business core course to be waived. Students must submit transcripts at the time of application to be considered for waiver.

Catalog descriptions may be requested.

Probation/Unsatisfactory Grades

Students are expected to maintain at least a 3.00 cumulative grade-point average in any of the graduate programs of the school. Students who do not maintain this standard will be placed on probation. The Academic Standing Committee will make a recommendation to the dean concerning the student’s potential to successfully complete the program. The dean will make the final disposition of the case.

Plagiarism

Plagiarism is a practice that is not only unacceptable, but which is to be condemned in the strongest terms possible on the basis of moral, educational and legal grounds. Under university policy, plagiarism may be punishable by a range of penalties up to and including failure in a course and/or expulsion from the School of Business, Public Administration and Information Sciences and the University.

Application for Degree

A candidate for graduation is expected to apply for graduation on-line at my.liu.edu by the deadline specified in the Academic Calendar. Alternatively, degree application forms can be submitted to Office of Enrollment Services.
DEPARTMENT OF FINANCE, LAW, ACCOUNTING AND TAXATION

Associate Professors Scerbinski (Chair) Chung, Morgan, Uzun, Zheng
Professor Fischman
Assistant Professor Angeli
Adjunct Faculty: 11

Accountants provide financial information for evaluating the present and planned activities of companies and organizations. Accounting prepares those planning a career in business with a solid, yet versatile professional background. The field offers employment opportunities in a wide variety of areas. Every company, regardless of its size or structure, has an accounting function and employs the services of certified public accountants, auditors, tax advisors, financial managers and consultants. According to the U.S. Department of Labor’s Bureau of Labor Statistics, accounting jobs are expected to grow nearly 22% by 2018.

Accountants evaluate past performances of companies and make recommendations for improved performance. It’s the accountant’s responsibility to devise effective cost-cutting strategies aimed at improving an organization’s overall performance. They are essential to the effective operations of businesses, government agencies and not-for-profit organizations.

The Department of Finance, Law, Accounting and Taxation offers the accelerated Bachelor of Science/Master of Science in Accounting, Master of Business Administration in Accounting (M.B.A. Accounting), Master of Science in Accounting, and Master of Science in Taxation.

Master of Business Administration (M.B.A.) in Accounting

The M.B.A. in Accounting is a master’s degree in business administration with an advanced concentration in accounting. The accounting focus is designed to expand the knowledge of students preparing to work in the fields of financial management and control to enter or to advance in the field of professional accounting in corporate, government and not-for-profit organizations. The degree is ideal for career advancement in the areas of accounting and financial management.

Admission Requirements:
The standards for admission as a fully matriculated student in the M.B.A. program are as follows:
1. A bachelor's degree with a minimum 3.0 cumulative grade point average from an accredited institution.
2. Results of the Graduate Management Admission Test (GMAT) or Graduate Record Exam (GRE) unless the applicant already holds a master’s or a J.D. degree from an accredited institution or holds a Certified Public Accountant license.
3. Official transcripts from all colleges and universities previously attended (foreign documents must be accompanied by a certified English translation).
4. Official score report of the TOEFL examination for applicants with degrees from foreign colleges and universities.
5. A written statement outlining applicant’s objectives for seeking admission into the program.
6. A current résumé.
7. Two letters of recommendation.
8. A completed application submitted to the Office of Admissions.

Limited Matriculation Status
A student admitted with technical or academic deficiencies is granted limited matriculation in the program. A student with limited matriculation may enroll for a maximum of six credits per semester for the first 12 credits before being considered for full matriculation. If full matriculation status is not attained after 12 credits, the student may not enroll for any additional credits in the degree program.

In addition, a student admitted with pending GMAT or GRE scores is granted limited matriculation for a maximum of one semester. The receipt of the official GMAT or GRE scores by the Office of Admissions is a prerequisite for continued enrollment in the program.

Credit and GPA Requirements

Minimum Credits: 36-60 (depending upon course waivers)
Minimum Major GPA: 3.0

M.S. in Accounting

The 36-credit M.S. in Accounting is designed for students and professionals who have completed an undergraduate accounting degree (or equivalent*) and who seek to enhance their technical and professional skills through completion of an advanced degree in accounting.

*To establish the equivalency requirements, applicants with degrees other than accounting must fulfill the following undergraduate courses:
- 1-year sequence of the principles of Accounting (or Graduate Financial Accounting)
- Intermediate Accounting I
- Intermediate Accounting II
- Managerial or Cost Accounting
- Advanced Accounting
- Auditing

In today’s complex world, the impact of accounting plays a crucial role in how companies structure business transactions. The M.S. in Accounting provides a body of knowledge of the principles and the doctrines of accounting that prepare graduates to participate in the business decision-making process. The program stresses real-world learning that prepares you to become a knowledgeable and well-rounded accounting professional. Instruction is delivered by professors who are experienced and respected professionals and who bring their day-to-day experiences to the classroom. Students interested in becoming certified public accountants should consult the chair of the department.

The M.S. in Accounting is registered with the New York State Department of Education and the National Association of State Boards in Accountancy (NASBA). Certified Public Accountants can earn Continuing Professional Education (CPE) credits by enrolling in 700-level
graduate accounting courses. All 700-level accounting and taxation courses at LIU Brooklyn earn CPE credits. State boards of accountancy have final authority on the acceptance of individual courses for CPE credits. Complaints regarding registered sponsors may be addressed to the National Registry of CPE Sponsors, 150 Fourth Avenue North, Suite 700, Nashville, TN, 37223-2417. Website: www.nasba.org.

Students graduating from an approved undergraduate program in accounting or in business administration who aspire to become CPAs in New York State are required to meet the 150 hours of education which must include a total of 33 credits in accounting and a total of 36 credits in business and one year of experience. M.S. degree courses taken should include one course in each of the following: economics, quantitative measurements, finance, taxation, advanced auditing, and accounting and reporting. In consultation with an adviser, the program of study can be made to fulfill the above requirements. For those individuals who wish to sit for the New York State CPA licensing exam and who do not hold an undergraduate degree in accounting, consult with the department chair or your adviser.

**Admission Requirements:**

In addition to the admission requirements in Section Admission Requirements for the M.B.A. Accounting degree, a bachelor’s degree with major in accounting or its equivalent; CPA license or a J.D. is required.

*Plus an additional twelve (12) credits of electives to be determined in conjunction with your departmental advisor.

#### Credit and GPA Requirements

Minimum Credits: 36

Minimum Major GPA: 3.0

**M.S. in Taxation**

The 30-credit M.S. in Taxation provides students with a comprehensive understanding of the sources of federal taxes and the ways in which to apply tax laws in all types of business scenarios. Graduates of this program greatly enhance their career options, whether they are already in a tax-related position or are in any other business venture, by gaining a solid foundation in how to comply with the rules and regulations of taxation and how to apply them.

In today’s complex world, the impact of taxation plays a crucial role in how companies structure business transactions. The M.S. in Taxation provides a body of knowledge of the principles and the doctrines of taxation that prepare graduates to participate in the business decision-making process.

The program, which is registered with the New York State Education Department and the National Association of State Boards of Accountancy, stresses real-world learning that prepares you to become a knowledgeable and well-rounded tax professional. You will learn from professors who are experienced and respected professionals and who bring their day-to-day experiences to the classroom. In addition, CPAs can earn Continuing Professional Education (CPE) credits by enrolling in Graduate Taxation Courses.

#### Admission Requirements:

In addition to the admission requirements in Section Admission Requirements for the MBA Accounting degree, a bachelor’s degree; Accounting 501 and LAW 790 or equivalent; or CPA license or a J.D. is required.

#### Credit and GPA Requirements

Minimum Credits: 30

Minimum Major GPA: 3.0
Accounting Courses

**ACC 501 Financial Accounting**
A study of basic accounting concepts and methods and their significance to management and to the financial analyst. Topics include an introduction to financial statement analysis the measurement of income and capital, accounting for fixed assets, inventory costing and price level changes, measuring and accounting for corporate debt, corporate investment in securities, and computer applications in accounting. This course does not require previous training in accounting.
Credites: 3
Cross-Listings: ACC 501, GBA 510
Every Fall and Spring

**ACC 712 Accounting Information Systems**
An examination of accounting systems from the point of view of their objectives: effective internal control and integration with the total information system. Includes a review of computer-based information systems and their applications to new or revised systems of accounting. (45 CPE credits)
The prerequisite of ACC 501 or equivalent is required.
Credites: 3
Every Fall

**ACC 720 Not-for-Profit/Governmental Accounting**
A study of budgetary and fund accounting systems; preparation of significant reports for nonprofit organizations; and case studies and problem materials to use in governmental entities such as municipalities or school districts. (45 CPE credits)
The prerequisite of ACC 501 or equivalent is required.
Credites: 3
Every Spring

**ACC 735 Internal Auditing**
An examination of the principles of internal auditing as they apply to large corporate enterprise. (45 CPE credits)
The prerequisite of ACC 501 or equivalent is required.
Credites: 3
Cross-Listings: ACC 735, PM 726
On Occasion

**ACC 737 Advanced Cost/Managerial Accounting**
Selected cases and problems provide the forum for the discussion of current cost concepts and their applications and limitations. The aim is to develop students' ability to analyze business problems and to make decisions concerning the appropriateness of cost accounting methods in specific situations. (45 CPE credits)
The prerequisite of ACC 501 or equivalent is required.
Credites: 3
Cross-Listings: ACC 737, PM 722
Every Fall

**ACC 741 Budgeting and Controllership**
An examination of the practice of controllership in general and of dealing with budgets and business costs in particular. The installation and operation of budget systems for managerial control is considered as is the advance planning of operating goals with subsequent study of actual results. (45 CPE credits)
The prerequisite of ACC 501 or equivalent is required.
Credites: 3
Cross-Listings: ACC 741, PM 724
Every Spring

**ACC 742 Financial Statement Analysis**
An analysis of financial trends and corporate reports for solvency, quality of earnings and forecasting implications. Analytical techniques for financial analysis and their use in development of capital markets and instruments are reviewed and discussed, as are the principles and practices of the Securities and Exchange Commission. (45 CPE credits)
The prerequisite of ACC 501 or GBA 510 or equivalent is required.
Credites: 3
Cross-Listings: ACC 742, FIN 742, PM 727
Every Spring

**ACC 748 Investigative Techniques and the Legal Environment**
This course will introduce the student to proven forensic investigative techniques, such as document analysis, interview application, net worth method, public records, searches, invigilation, and surveillance. The course will also provide an overview of the criminal and civil justice systems as they relate to fraud trials with an emphasis on the principles of evidence, expert witnessing and litigation support. This course will be supplemented via case studies, practical exercises and mock interviews. This course will be taught by a member of the Association of Certified Fraud Examiners (ACFE) 45 cpe credits.
The prerequisite of ACC 501 is required.
Credites: 3
Cross-Listings: ACC 756, FIN 756
On Occasion

**ACC 750 Fiduciary Accounting**
Study of laws and procedures of estates and trusts as seen from the accountant’s perspective. Case method of instruction is used. (45 CPE credits)
The prerequisite of ACC 501 or equivalent is required.
Credites: 3
Every Fall

**ACC 752 Advanced Auditing**
A study of auditing concepts and methods embodying standard auditing procedures as well as departures. Audit evidence, sampling, diagnostic analysis, internal control evaluation and its effect on test of transactions, and problems encountered in statement preparation are reviewed and discussed. (45 CPE credits)
The prerequisites of ACC 442 or equivalent and ACC 501 are required.
Credites: 3
Every Spring

**ACC 756 Fraud and White Collar Crimes**
This course highlights the role of the forensic accountant both as an investigator and in litigation support for various forms of white collar crimes, including bankruptcy fraud, procurement fraud, divorce fraud, mortgage fraud, and money laundering by examining the legal elements of the crime. This course will also address the federal tax crimes statutes enumerated in the Internal Revenue Code and their impact on tax practitioners both in their capacity as expert witness and as the target of a criminal investigation. This course will be supplemented by case studies and video resources. Three credits, 45 CPE hours.
The prerequisite of ACC 501 is required.
Credites: 3
Cross-Listings: ACC 756, FIN 756
On Occasion

**ACC 758 Accounting and Reporting I**
A review and exploration of the concepts and developments relating to financial accounting and reporting for business enterprises. SFAS's and other recent pronouncements are analyzed in depth; problem-solving is stressed. (45 CPE credits)
The prerequisite of ACC 501, and ACC 742 or permission of the Department chair, are required.
Credites: 3
Every Fall

**ACC 759 Environmental Accounting**
Examinations. Topical material focuses on income measurement, management accounting and cost concepts. Individual research is encouraged. (45 CPE credits)
The prerequisite of ACC 501, and ACC 737 or permission of the Department chair, are required.
Credites: 3
Every Spring

ACC 770 International Accounting
Insight into the international accounting environment from the viewpoint of the U.S.-based multinational organization. (45 CPE credits)
The prerequisite of ACC 501 or equivalent is required.
Credits: 3
Cross-listings: ACC 770, IBU 770

Every Fall

LAW Courses

LAW 790 Commercial Law I
A study of the subjects required to pass the law portion of the CPA examination. Introduction is made to the law and the legal system, torts, contracts, agency, personal property, real property, partnerships and corporations. This is the first of two required law courses for CPA students, and it is recommended for all graduate business students as an elective.
Credits: 3
On Occasion

LAW 791 Commercial Law II
A consideration of the study of legal topics covered in the CPA examination. The course covers sales, secured transactions, commercial paper, estates and trusts, antitrust law, securities regulation, employment law, accountants, professional responsibilities, bankruptcy, suretyship and insurance.
The prerequisite of LAW 790 is required.
Credits: 3
On Occasion

Tax Courses

TAX 716 Federal Income Tax Principles
A study of the determination of income, deductions and exemptions in computing taxable income and tax liability of individuals, including the general rules applicable to all tax entities. Ordinary income, capital assets, gains and losses, involuntary conversions and tax-free exchanges, depreciation methods, passive activities, portfolio income, and alternative minimum tax are all examined.
Credits: 3
Every Fall

TAX 722 Corporate Taxation
A study of the following: choice of entity for conducting business; taxation of corporations, partnerships, and S corporations; tax accounting methods and taxable years; tax credits; alternative minimum tax; and reconciliation of book and taxable income; and corporate reorganizations and liquidations. An overview of corporate reorganizations is included. Three credits. (45 CPE credits)
The prerequisite of ACC 501/GBA 510 and TAX 716 are required.

TAX 723 Tax Planning and Administration
An advanced course in current tax practices and planning methods, with emphasis on planning, formation, operation, and liquidation of corporate entities. Some topics considered are the effects of tax-free incorporation, personal holding companies, professional corporations, accumulated earnings tax and collapsible corporations. (45 CPE credits)
The prerequisite of ACC 501/GBA 510, and TAX 722 or permission of the Professor, are required.
Credits: 3
Every Fall

TAX 724 Partnerships, Corporations and Limited Liability Entities
An advanced course in the provisions governing the taxation of partnerships, corporations, limited liability entities and their partners/shareholders. Tax compliance and tax reporting for such pass-through entities are covered. The tax advantages, the opportunities inherent in the choice of such entities, and the deterrents and traps for the unwary are reviewed. (45 CPE credits)
The prerequisite of ACC 501/GBA 510, and TAX 722 are required.
Credits: 3
Every Fall

TAX 725 Federal Estate and Gift Taxation
A study of tax-related factors that enter into the planning of estates for various types of taxpayers, such as those with closely-held businesses, investors, professional persons and corporate executives. Included are studies of federal estate and gift taxes and their effects on estate planning; the role of trusts in estate planning; and estate planning methods available to reduce tax liabilities. (45 CPE credits)
The prerequisite of ACC 501/GBA 510 and TAX 722 are required.
Credits: 3
On Occasion

TAX 726 Business Tax Decision
An examination of federal income tax and other business taxes that influence management decisions. Consideration is given to the major types of business transactions affected, including financing of a corporation, acquisitions and dispositions, and the purchase, leasing and maintenance of plant equipment. (45 CPE credits)
The prerequisites of ACC 501/GBA 510 and TAX 716 are required.
Credits: 3
On Occasion

TAX 729 State and Local Taxation
An analysis of state and local taxes affecting individuals and businesses in the tristate area (New York, New Jersey and Connecticut). Included is a study of issues involving residency and non-residency, domicile, and sources of income taxed in each jurisdiction. New York State income, sales and general business taxes, rent taxes, and franchise taxes are covered. (45 CPE credits)
The prerequisite of ACC 501/GBA 510 and TAX 716 are required.
Credits: 3
Every Spring

TAX 730 Corporate Reorganizations
A study of reorganizations, recapitalizations, stock redemptions, acquisition and disposal of assets, mergers, divisive reorganizations, and corporate liquidations. (45 CPE credits)
The prerequisite of ACC 510/GBA 510, and TAX 722 or the equivalent, are required.
Credits: 3
Every Fall

TAX 735 Fiduciary Income Tax
This course will facilitate the complexity of preparing fiduciary income tax returns and will provide practical step-by-step guidance on the basics of Form 1041 preparation as well as more complex issues such as determining fiduciary accounting income and distributable net income (DNI), computing the distribution deduction, allocating capital gains and depreciation, calculating the net investment income tax, reporting income in respect of a decedent, and filing form 1041 in the estate or trust’s final year.
The prerequisite of TAX 716 is required.
Credits: 3
Every Spring

TAX 745 International Taxation
A study of U.S. corporations doing business in foreign countries; U.S. taxation of foreign income and foreign tax credits; allocation of income among related entities; and tax treaties. (45 CPE credits)
The prerequisite of ACC 501/GBA 510, and TAX 723 or the equivalent, are required.
Credits: 3
Cross-listings: IBU 745, TAX 745
Every Fall

TAX 746 Advanced International Taxation
The international aspects of the U.S. tax system as it relates to cross border transactions including the governmental regulatory process. Topics covered include anti-deferral provisions, transfer pricing, tax treaties, cross border reorganizations, international tax practice and procedure, state taxation of international transactions, and IRS forms used in international taxation.
The prerequisite of TAX 745 is required.
Credits: 3
Every Spring

TAX 750 Current Developments in Taxation
An analysis of current trends in federal taxation. Tax cases, rulings and new developments are examined for their significance to the tax practitioner. (45 CPE credits)
The prerequisite of TAX 722 or the equivalent is
TAX 760 Tax Practice and Procedure
A review of the organization of the Internal Revenue Service. Selection of returns for audit, protests and conference rights, tax fraud, statute of limitations, and claims for refund are studied. In addition, research techniques such as the use of tax services, court decisions and rulings are emphasized. (45 CPE credits)
Pre-requisites of ACC 501/GBA 510 and TAX 716 are required.
Credits: 3
On Occasion

TAX 761 Tax Practice from the IRS Perspective
An insight into IRS examination practices and an opportunity to exchange views with IRS personnel, who will serve as participating faculty. The course includes topics such as auditing through the corporate balance sheet, coordinated examination programs, computer audit techniques, bankruptcy, and IRS authority to obtain information and documents. (45 CPE credits)
Pre-requisites of TAX 716 is required.
Credits: 3
On Occasion

TAX 780 Fundamentals of Qualified Employee Benefit Plans
An introduction to employee benefit plans that covers the analysis of types of plans that can be established by the employer; reviews tax rules involving participation, vesting, deduction limitations, benefit limitations and other requirements for plan qualification; and considers group insurance, flexible benefit plans, IRAs and simplified employee pensions (SEPs). (45 CPE credits)
Pre-requisites of ACC 501/GBA 510 and TAX 716 are required.
Credits: 3
On Occasion

TAX 781 Advanced Problems in Qualified Employee Benefit Plans
A study of the taxation of distributions from qualified plans, including alternate methods of payment of plan benefits; loans from plans and constructive receipt problems; advantages and disadvantages of lump-sum distribution from plans; the interrelationship between plan death benefit distributions and estate taxation; IRS audits of qualified plans; plan disqualification and its impact on the employer and the employee; plan termination rules and government regulation of plan termination; and IRS rulings and tax cases involving plan distributions and plan disqualification. (45 CPE credits)
Pre-requisite of ACC 501/GBA 510, and TAX 780 or the equivalent are required.
Credits: 3
On Occasion

FIN 702A Money and Capital Market Applications
The study of financial markets as allocators of funds and distributors of risk. Emphasis is given to the roles and functions of financial intermediaries. Theories of financial asset pricing are considered for their role in determining risk and return in competitive markets.
Pre-requisites of GBA 511 and GBA 514 or 520 are required.
Credits: 3
On Occasion

FIN 702B Financial Market Institutions, Regulations and Innovation
An analysis of asset and liability management by important financial market institutions; commercial banks, insurance companies, mutual funds, and other financial intermediaries. The course emphasizes the impact of such policies on money and capital markets. Case studies and aggregate economic and financial market data contained in Citibase (accessed with MicroTSP) are used.
Pre-requisites of GBA 511 and GBA 514 or 520 are required.
Credits: 3
On Occasion

FIN 703 Corporate Financial Policy
An analysis of techniques used to attain long-term corporate objectives by means of financial policy. Topics include capital budgeting, cost of financial and capital structure; sources of long-term funds; dividend policies; leasing, mergers, acquisitions and consolidations; and the applications of the capital pricing model, the arbitrage pricing model and the options theory to corporate financial decisions.
Pre-requisites of GBA 511 and GBA 514 or 520 are required.
Credits: 3
On Occasion

FIN 704 Financial Reports Analysis
A survey of the analytical tools and techniques used to evaluate the current financial position of the firm. Financial reports are analyzed for growth potential, solvency, earnings quality, investments, and forecasting implications. Topics include business and financial trends, proper adjustments of financial data, cash flow forecasting, estimation of debt risk premiums, and identification of likely candidates for acquisition and high bankruptcy risk firms. Required of all Finance concentration students.
Pre-requisites of GBA 511 and GBA 514 or 520 are required.
Credits: 3
On Occasion

FIN 705 Securities Analysis
An introduction to the theory and practice of security analysis, including the valuation of individual securities, with emphasis on common stocks and fixed income securities, valuation of the stock market as a whole, and portfolio management and investment strategies. Investment risks are analyzed and measurements of risk, including duration and convexity, are examined. An introduction to derivative securities and international investments is included.
Pre-requisites of GBA 511, GBA 514 or 520, and FIN 704 are required.
Credits: 3
On Occasion
FIN 706 Advanced Securities Analysis and Speculative Markets
A study of advanced valuation techniques and individual security and capital markets forecasting techniques and models. Alternative models are analyzed and compared. In addition, the course focuses on speculative markets. Price determination of futures, forward contracts and options are considered. Topics include market structure; uses and price effects of hedging, speculation and arbitrage; the relationship between contingent claims and underlying cash markets; and foreign securities.

The prerequisite of FIN 705 is required.
Credits: 3
On Occasion

FIN 707 Portfolio Management
A consideration of the most effective methods of meeting investment objectives for individual and institutional portfolios (specifically, pension funds, endowment funds and mutual funds). Focus begins with dedicated equity and fixed income portfolios and then progresses to asset allocation and management strategies for mixed portfolios. Alternative techniques for managing risk, including derivative securities, are explored. Portfolio management, implementation and performance measurement are analyzed and appraised in terms of economic shifts, yield curve changes, and tax and legal considerations. The course makes heavy use of computer programs for portfolio management and analysis. Actual individual and institutional portfolios, managed by large and small institutions, are examined.

Prerequisites of GBA 511 and GBA 514 or 520 are required.
Credits: 3
On Occasion

FIN 708 Financial Engineering Derivatives
A study of the creation of derivative securities to meet financing needs, as well as an exploration of the rapid growth of strategic financial product innovation and securitization precipitated by environmental and infraструктур factors. Chiefly as a solution to risk management, financial engineering is explored from both the corporate treasurer’s perspective (modeling a firm’s risk exposure and productizing solutions) and from the investor’s and speculator’s perspectives. Recent debt, debt-related, equity, and equity-related and derivative innovations are examined closely. Advanced trading strategies and models are developed. Tactical trading systems are developed and analyzed using probability and gambling theories. Legal protections and current issues are explored. The course makes extensive use of computer programs and spreadsheets.

Prerequisites of GBA 511, GBA 514 or 520, and FIN 705 are required.
Credits: 3
On Occasion

FIN 709 Quantitative Analysis and Forecasting for the Corporate Financial Environment
An investigation of the relationships between corporate financial flows and financial markets, industry, and aggregate economic data (national income and product accounts and flow of funds). Methods of analysis include econometric methods, time-series analysis and smoothing techniques. Use of leading indicators as a forecasting tool is emphasized. Econometric model building and forecasting are performed using MicroTSP and the associated Citibase Macroeconomic Data Bank.

Prerequisites of GBA 511, GBA 516 and GBA 514 or 520 are required.
Credits: 3
On Occasion

FIN 710 Corporate Mergers and Acquisitions
A study of business enterprise growth through merger and acquisition. Reviewed and discussed are premerger planning and fact-finding, legal and accounting considerations, financing aspects, tax and antitrust problems, personnel issues, and postmerger integration and valuation techniques. International and domestic mergers and acquisitions are considered. Case studies are employed.

Prerequisites of GBA 511 and GBA 514 or 520 are required.
Credits: 3
On Occasion

FIN 712 Capital Budgeting
An exploration of the theory of capital budgeting and risk management of long-term funds. Topics include measurement of cash flows, criteria of investment desirability, effects of taxes and inflation, risk analysis, cost of capital and capital structure, lease analysis, capital rationing, multicriteria capital budgeting, and linear programming.

The prerequisites of GBA 516 and ACC 501/GBA 510 or equivalent are required.
Credits: 3
On Occasion

FIN 715 International Trade
A review of the principles of international trade its magnitude, direction, and industrial classification as well as the institutions (e.g., GATT) facilitating it. The course focuses on practical techniques and problems of exporting and importing, with special attention to small business. Topics include sources of marketing information, techniques of payment and collections, currency fluctuation problems and balance of payments analysis, sources and uses of funds to finance foreign trade, and government assistance.

Prerequisites of GBA 511 and GBA 514 or 520 are required.
Credits: 3
Cross-Listings: FIN 715, IBU 703, MKT 716
On Occasion

FIN 716 International Financial Markets
An analysis of the financial opportunities and risks resulting in global market investment, with a focus on international portfolio diversification and management. Topics include determinants of foreign exchange rate and international capital flows; balance of payments analysis techniques; foreign exchange risk management, especially hedging and speculation strategies; the reasons for and impact of official intervention; and a study of the Eurocurrency and Eurobond markets, as well as a review of leading indicators for the various international stock markets.

Prerequisites of GBA 511 and GBA 514 or 520 are required.
Credits: 3
Cross-Listings: FIN 716, IBU 702
On Occasion

FIN 726 International Corporate Finance
An analysis of the financial opportunities, risk and decision-making processes associated with international operations. Topics include management of translation, transaction, and economic exposure; taxation issues; multinational capital budgeting and current asset management; complexities of international performance evaluation and control systems; comparative financial statement analysis; cost of capital; and international financing options. The case method is employed.

The prerequisite of FIN 716 is required.
Credits: 3
Cross-Listings: FIN 726, IBU 708
On Occasion

FIN 727 Global Economic Environment of Business
The main goal of this course is to analyze and understand the global economy in which business operates today. Attention centers on the key policy issues and major economic forces that affect business activity and on the tools necessary to evaluate these issues and forces. The tools of analysis include the portfolio approach, post-Keynesian and modern monetarist approaches, rational expectations, and state-of-the-art analysis of saving and investment. The course also explores the role played by U.S. and world financial markets in influencing the domestic and global economic environment. Material in the test will be heavily supplemented by, and integrated with, current events.

Prerequisites of GBA 520, 522, MBA 621 or its equivalents are required. Student must be in acceptable plan of study.
Credits: 3
On Occasion

FIN 750 Financial Problems Seminar
An analysis of selected current foreign and domestic financial and economic developments. Emphasis is on integrating acquired financial knowledge with the problems under study.
Pre-requisite of GBA 511, GBA 514 or 520, and FIN 710 are required.
Credits: 3
On Occasion
DEPARTMENT OF
MANAGERIAL SCIENCES

Professors Sherman (Chair), Minowa
Associate Professors Amrouch, Belliveau, Dinur
Assistant Professor Aditya
Adjunct Faculty: 7

Change is the norm for 21st century and therefore the management of change, especially technological change, is paramount for anyone desiring a successful career in business, government, and not-for-profit administration. Whether a student is interested in entrepreneurship, finance, human resource management, international business, management, management information systems or marketing as a career path, or even starting their own business, knowledge is the key to successfully managing in turbulent times. The Department of Managerial Sciences therefore provides all graduates a common knowledge and skill set abilities developed to prepare students for managing in the global marketplace. These skills include: communication, critical thinking and analysis, teamwork, appreciation of global and ethnic diversity, ethics and social responsibility, functional and technical skills.

Master of Business Administration (M.B.A.)

A Master of Business Administration (M.B.A.) opens doors to career opportunities far beyond the financial sector. In fact, information technology, energy, pharmaceuticals, and health care are among industries that saw double-digit growth in M.B.A. hiring last year and the employment outlook for M.B.A. graduates is up worldwide, according to the 2014 GMAC Corporate Recruiters Survey. The School of Business, Public Administration and Information Sciences offers a traditional M.B.A. and an accelerated One-Year M.B.A. degree program.

The 36 to 60-credit Master of Business Administration (number of credits is based on your undergraduate coursework) provides the knowledge base and skills that enable professionals to become leaders in business by offering a comprehensive program which meets the needs of an ever-changing, global business environment.

The Accelerated One-Year MBA (OY MBA) is a 36 credit Masters of Business Administration (M.B.A.) degree for students with an undergraduate business degree or significant academic or professional business experience. This cohorted program is completed in one calendar year. Courses are taken in 8 week modules – two modules each in fall and spring semesters, and one in the summer. Courses will be blended with face-to-face meetings on Saturdays and the remainder of the program completed online.

M.B.A. students are encouraged to concentrate their study in one of the following business areas: entrepreneurship, finance, human resource management, international business, management, management information systems, or marketing. The curriculum also emphasizes personal brand development, including career planning, communication and presentation skill building, project management, team leadership and group dynamics, and social media for career success. At LIU Brooklyn, you can make the most of your time, your learning, your network, and your investment.

Admission Requirements:
The standards for admission as a fully matriculated student in the M.B.A. program are as follows:
1. A bachelor’s degree with a minimum 3.0 cumulative grade point average from an accredited institution.
2. Results of the Graduate Management Admission Test (GMAT) or Graduate Record Exam (GRE) unless the applicant already holds a master’s or a J.D. degree from an accredited institution or holds a Certified Public Accountant license.
3. Official transcripts from all colleges and universities previously attended (foreign documents must be accompanied by a certified English translation).
4. Official score report of the TOEFL examination for applicants with degrees from foreign colleges and universities.
5. A written statement outlining applicant’s objectives for seeking admission into the program.
6. A current résumé.
7. Two letters of recommendation.
8. A completed application submitted to the Office of Admissions.

Limited Matriculation Status
A student admitted with technical or academic deficiencies is granted limited matriculation in the program. A student with limited matriculation may enroll for a maximum of six credits per semester for the first 12 credits before being considered for full matriculation. If full matriculation status is not attained after 12 credits, the student may not enroll for any additional credits in the degree program.

In addition, a student admitted with pending GMAT or GRE scores is granted limited matriculation for a maximum of one semester. The receipt of the official GMAT or GRE scores by the Office of Admissions is a prerequisite for continued enrollment in the program.

M.B.A. Degree Requirements
The Master of Business Administration (M.B.A.) consists of two preparation courses (pending results of entrance exam) and a 7-part module.

Preparation Courses (6 credits)

Business Writing:
- Effective communication in the business setting is a demanding task that requires a comprehensive command of written and oral communication skills, exacting attention to detail, good interpersonal skills, and the discipline to get work done on schedule.

  This course is designed for MBA students who need business communication / English for various functional and situational purposes in non-academic and academic writing. It aims at building effective language and communicative competence, which are highly desirable skills in academic and professional pursuits.

  It teaches students theory, practice, and evaluation of business communication skills as well as orientation to careers and professional concerns in academic and non-academic writing. The course includes case study, documentation style and grammar review sessions.

  Through hands-on activities and in-class discussions involving case study and qualitative research, we will explore areas such as: the theory and ethics of business communication; content analysis; and report writing.

  We will examine the role of the business communicator in organizational settings and explore topics such as: organizational culture; qualitative research; case study method; ethics and legality in business communication; and preparing documents for publication.

Business Math:
- All business functions, from finance and accounting through marketing and management, have essential quantitative components, and aspiring managers must ensure that their math skills will allow them to master basic business tools and techniques. The math required is not complicated, and is usually covered in high school or undergraduate college math programs.

  However, some aspiring business students have not used math in a long time. This course provides graduate business students with a review of essential math topics along with an introduction to how they are applied in business contexts.

Modules
- Module 1: General Business Core (12 credits)
  The general business core courses are designed for students who have not had undergraduate work in business studies. A student who studied business administration as an undergraduate may be exempt from some or all of the general business core courses, reducing the total requirements of the program. Further information about waivers is found in the Academic Policies Section above.

  The general business core courses not only provide a basis for advanced studies, but also offer an opportunity to explore the various fields of business before selecting an area of concentration. It is mandatory, therefore, that the students complete these courses before starting upon the advanced portion of the program.
• Module 2: Business Basics (9 credits)
• Module 3: Business Functions (9 credits)
• Module 4: Advanced Business Functions (10 credits)
• Module 5: Personal Brand (5 credits)
• Module 6: Specialization (9 credits)
• Module 7: Capstone (3 credits)

**Advanced Business Core**

Beyond the general business core (Modules 1 & 2), the M.B.A. program requires a minimum of 36 credits, which includes 24 credits in the advanced core (Modules 3, 4, and 5), 9 credits of chosen concentration electives (Modules 6), and 3 credits of capstone course work (Module 7).

The MBA advanced core is academically rigorous and responsive to the demands of the marketplace. Students are exposed to the complexities of global business through a series of courses: Marketing Strategy, Organizational Behavior, Corporate Financial Policy, Service and Operations Management, Management of Innovation and Technology, Marketing Analytics, Building Your Online Brand, and Career Planning.

Internationally renowned experts are invited to discuss some of the most vital trends and issues in the areas of study. The advanced business core must be completed before the student starts the concentration classes.

**Concentrations**

Students are required to take 9 credits of advanced work beyond the advanced business core. Such courses give students the opportunity to acquire advanced skills in such areas as accounting, entrepreneurship, finance, human resource management, international business, management, management information systems, or marketing.

**Accounting**

The accounting concentration is designed to expand the knowledge of students preparing to work in the fields of financial management and control, to enter or to advance in the field of professional accounting in corporate and not-for-profit organizations. For more information on combining the benefits of an M.B.A with an advanced accounting concentration, please consult the section on M.B.A. in Accounting.

**Entrepreneurship**

Entrepreneurial thinkers create value in society using innovation under conditions of uncertainty. The ability to think entrepreneurially is critical for all students, regardless of their major or their career plans. The entrepreneurship program at LIU Brooklyn is designed to engage students to think entrepreneurially while they learn how to execute on their vision efficiently and effectively.

Entrepreneurship majors at LIU Brooklyn learn how to prepare and execute a comprehensive strategy for launching a new venture. The venture can be in any organizational context – large or small, new or existing, Nonprofit or for profit. The entrepreneurial process of value creation through innovation remains the same regardless of the context or the ultimate goal. Although people often assume that the focus of entrepreneurship is on starting for-profit businesses, learning the entrepreneurial process will help you to think more strategically in all of your endeavors.

The best way to understand the entrepreneurial process is to take a hands-on, experiential approach. In this major, students will interact extensively with the business community both inside and outside the classroom and produce a plan that is both defensible to potential investors and actionable in the real world.

**Finance**

The finance concentration develops technical and managerial skills for global financial careers. Courses cover global financial instruments and markets while developing analytical and strategic decision-making abilities. The approach considers macroeconomics as well as financial aspects of individual business organizations.

**Human Resource Management**

Proper management of human resources (human capital) has the potential to be a source of sustainable competitive advantage for high-performance organizations. Students develop skill set abilities needed for managing more efficient and effective organizational systems. Based on different assumptions about people, their motivation, how they work and what they seek out of their work experiences.

**International Business**

The international business concentration focuses on decision-making in an international context and prepares professionals for positions within multinational organizations. Business functions are related to the socio-cultural, political, legal and labor forces that affect global corporations. The international business concentration evaluates, both theoretically and practically, the opportunities and risks of doing business in an increasingly complex and interdependent world.

**Management**

The management concentration focuses on the interrelated functions of business enterprises, large and small, which determine their viability in the service global marketplace of the 21st century. Strategic goal setting, organizational structures, management philosophies and cultures, ethics, production and service processes, problem analysis and decision-making techniques are explored within a range of internal and external environments.

**Management Information Systems**

The management information systems concentration provides the necessary information for managing an organization, and explores how an effective management information system provides decision-oriented information to assist managers in planning, organizing and controlling the organization. The management information systems curriculum teaches information system concepts within organization functions, as well as management knowledge and technical information systems knowledge. The graduate can work within the environment of a modern organization and can interact with both organizational functions and computer technology.

**Marketing**

The marketing concentration is designed for students who wish to pursue careers in brand management, B2B marketing, marketing research, technology marketing, new product development or other leadership roles in sales management.

Courses focus on the multiple dimensions of the decision-making process in a marketing setting, and the application of the analytical tools of economic behavior sciences and quantitative systems to problems and opportunities currently facing marketing executives.

**M.B.A. in Business Administration**

(Program Code: 87332)

This program requires 36-60 credits. Upon evaluation of your official academic transcripts, your advisor will officially communicate the required number of credits to fulfill the M.B.A. degree requirements.

Prerequisites: 6 Credits

Prerequisites may be waived pending results of entrance exam.

Minimum Total Credits: 36 credits
Minimum GPA: 3.0

M.S. in Human Resource Management

The 36-credit M.S. in Human Resource Management degree is designed to prepare students to enter the profession at the generalist level by providing a broad overview of the functional areas of human resource management (HRM). The program stresses the integration of the functional areas of HRM within the broader context of the organization and its mission, goals and values.

The Society for Human Resource Management (SHRM) has acknowledged that its Master of Science in Human Resources fully aligns with SHRM’s HR Curriculum Guidebook and Templates. Throughout the world, 196 programs in 165 educational institutions have been acknowledged by SHRM as being in alignment with its suggested guides and templates. The HR Curriculum Guidebook and Templates were developed by SHRM to define the minimum HR content areas that should be studied by HR students at the undergraduate and graduate levels. They are part of SHRM’s academic initiative, created in 2006 and revalidated in 2010, to help the society define HR education standards taught in university business schools across the nation and help universities develop degree programs that follow these standards.

Admission Requirements:

The admission standards are the same as those of the M.B.A. Program; see the section Admission Requirements for the M.B.A. program.

HRM 750 Management Seminar 3.00

Credit and GPA Requirements

Minimum Credits: 36
Minimum Major GPA: 3.00

Advanced Certificate in Human Resource Management

In today's challenging economy, human resource management is a critical and in-demand function that continues to provide employment opportunities across a broad spectrum of organizations. The graduate advanced certificate is designed to provide students with a comprehensive and broad foundation to the human resource management practice and profession. Proper management of human resources (human capital) is a source of sustainable competitive advantage for high-performance organizations. The advanced certificate is in complete alignment with the professional competencies outlined by the Society for Human Resource Management (SHRM). The SHRM competency model is globally accepted as the highest professional standard in the practice of human resources.

The fifteen earned credits in the advanced certificate can be applied towards the fulfillment of the Master of Science in Human Resource Management.

Admission Requirements:

The admissions requirement will be the same as those of the Master of Science in Human Resource Management with the exception of the GRE/GMAT scores. The GRE/GMAT scores will not be required for admission to the Advanced Certificate in Human Resource Management. Hence, the admissions standards for full matriculation in the advanced certificate are as follows:

1. A bachelor's degree with a minimum 3.0 cumulative grade point average from an accredited institution.
2. Official transcripts from all colleges and universities previously attended (foreign documents must be accompanied by a certified English translation).
3. Official score report of the TOEFL examination for applicants with degrees from foreign colleges and universities.
4. A written statement outlining applicant's objectives for seeking admission into the advanced certificate.
5. A current résumé.
6. Two letters of recommendation (optional).
7. A completed application submitted to the Office of Admissions.

Limited Matriculation Status:

A student admitted with technical or academic deficiencies is granted limited matriculation. A student with limited matriculation may enroll for a maximum of six credits per semester for the first 12 credits before being considered for full matriculation. Students are expected to achieve a minimum GPA of 3.0 in the advanced certificate.

The advanced certificate will consist of four required courses (12 credits) and an advanced HRM elective (3 credits). The students with no prior background in management or HRM will be required to take GBA 512 (Principles of Management and Leadership) in the first semester of enrollment.

NOTE: GBA 512 (Principles of Management and Leadership- 3 credits) is required for candidates with no undergraduate business degrees. The candidates with an executive experience of more than 5 years will be waived.
from taking this prerequisite.

Students are expected to achieve a minimum GPA of 3.0 in the advanced certificate.

Any Advanced HRM Elective: 3 credits

**Credit and GPA Requirements**

Minimum Credits: 15

Minimum Major GPA: 3.00
Business Courses

GBA 510 Financial Accounting
A study of basic accounting concepts and methods and their significance to management and to the financial analyst. Topics include an introduction to financial statement analysis, the measurement of income and capital, accounting for fixed assets, inventory costing and price level changes, measuring and accounting for corporate debt, corporate investment in securities, and computer applications in accounting. This course does not require previous training in accounting.
Credits: 3
Every Fall and Spring

GBA 511 Corporate Financial Management
A study of the methods by which firms and individuals in a risky global environment evaluate stocks, bonds and investment projects, combine those elements in optimal portfolios, and determine the best level of debt versus equity. The basic tools are risk versus return and the evaluation of future cash flows.
Pre-requisite of GBA 510 is required.
Credits: 3
Every Fall and Spring

GBA 512 Principles of Management and Leadership
An analysis of current management theory and practice that includes a discussion of its historical foundations and an investigation of various approaches to the management discipline. Primary emphasis is on the administrative functions of planning, decision making, organizing, staffing and controlling.
Credits: 3
Every Fall and Spring

GBA 513 Marketing Management
A survey analysis of the operations of marketing systems. The course emphasizes strategic planning, coordination and adaptation of marketing operations to opportunities in profit and nonprofit organizations. Focus is placed on the principal decision-making components of national and international marketing, including product
Credits: 3
Every Fall and Spring

GBA 515 Managerial Communications
An investigation into improving the way people within organizations communicate. The course includes the interpretation and application of organizational communication theory for the working or aspiring manager. Topics include personal communication styles, media and tools for the manager/communicator, organizational communications climates, one-to-one communications, meetings and conferences, speaking before groups, written managerial communications, planning and producing business reports, and advertising managerial communications.
Credits: 3
Every Fall, Spring and Summer

GBA 516 Business Statistics
An examination of the fundamental principles, concepts and techniques involved in application of probability and statistics to business research and managerial decisions. The range of applications covers such various functional areas such as finance, marketing, accounting, management, economics and production. Topics include descriptive statistics, probability concepts and techniques applicable in risk assessment and decision theory, and statistical inference (estimation and hypothesis testing).
Credits: 3
Every Fall and Spring

GBA 517 Fundamentals of Management Information Systems
A survey analysis of the role of information systems in business strategy. Information systems are shown to be facilitators of market penetration, competitive advantage and organizational change. The material is presented within an integrated framework, portraying information systems as being composed of organization, management and technology elements. Topics include: organizational and technical foundations of information systems; applications of information systems in all levels of decision making, including operational, tactical and strategic decision making; management of information as an organizational resource and various information architectures; emerging new information systems technologies; various approaches to building information systems; and issues related to management of information systems.
Credits: 3
Cross-Listings: GBA 517, PM 703
Every Fall and Spring

HRM 721 Industrial Relations
A survey of federal and state laws affecting the conduct of parties in a bargaining relationship. Factors in the bargaining process, strategy and tactics, principles and specifics of contract clauses, and administration and enforcement of the collective bargaining agreement are examined.
Pre-requisite of GBA 512 or MBA 613 are required.
Credits: 3
Cross-Listings: HRM 721, MAN 721
Every Fall

HRM 722 Human Resource Management
A review of the major areas of personnel administration. Topics include selection and replacement, compensation, training and development, labor relations, and employee services. Such activities are viewed from the position of both the large and small firm.
Pre-requisite of GBA 512 or MBA 613 are required.
Credits: 3
Cross-Listings: HRM 722, MAN 722
Every Fall and Spring

HRM 723 Behavior Concepts Applied to Management
A study of the application of behavioral concept techniques to the problems of managers and supervisors in large and small enterprises. Topics include approaches to personnel assessment, development and motivation of managers, and the fundamentals of executive performance.
Pre-requisite of GBA 512 or MBA 613 are required.
Credits: 3
On Occasion

HRM 724 Organizational Development
A survey of contemporary training and development problems, with emphasis on the relationship between development and the organization's personnel decisions. Techniques of personnel training are examined.
Pre-requisite of GBA 512 or MBA 613 are required.
Credits: 3
Cross-Listings: HRM 724, MAN 724, PM 711
Every Spring

HRM 725 Work People and Productivity
An analysis of the problems of the occupational environment in small and large enterprises. Emphasis is on the practical problem solving that is of immediate concern to the participants. Topics include: new approaches to motivation, attitudes, job satisfaction, job enrichment, monotony, fatigue, working conditions and conflict resolution, quality circles, and productivity.
Pre-requisite of GBA 512 or MBA 613 are required.
Credits: 3
Cross-Listings: HRM 725, MAN 725, PM 712
Every Spring

HRM 726 Legal and Regulatory Environment in Human Resource Management
An examination, discussion and exploration of laws, regulations and judicial decisions affecting the Human Resources manager. Case studies are used to develop an awareness of the legal problems facing the modern manager. Emphasis is on the federal agencies and laws, but areas of regulation reserved to the states are also discussed.
Pre-requisite of GBA 512 or MBA 613 are required.
Credits: 3
Cross-Listings: HRM 726, MAN 726
Every Fall

HRM 750 Management Seminar
A consideration of the human problems of organizational management from a multidisciplinary point of view. Concepts and research from the behavioral sciences are applied to the personnel problems of management. Theory and technique are integrated by using group and individual study projects. The course is designed to enhance interpersonal skills related to superiors, subordinates, staff specialists and peers.
The pre-requisites of GBA 512 or MBA 613; GBA...
The pre-requisite of HRM 722 or MAN 722 is required.

Credits: 3

On Occasion

HRM 797 Case Studies in Human Resource Management
This is an applications-oriented course that is designed to provide students with the opportunity to apply HR theory to the practical everyday challenges faced by HR generalists. Relevant course topics addressed during the semester include: Strategic Management: Workforce Planning, Recruitment, Selection decisions, % & D, Compensation and Benefits, Labor Relations, workplace Safety and Security. Emphasis is placed on developing and evaluating alternative solution strategies.
The pre-requisite of HRM 722 or MAN 722 is required.
Credits: 3
Every Spring

HRM 798 Special Topics in Human Resources Management
An examination of selected themes current developments, emerging issues, and areas of professional specialization in the field of Human Resources Management. Topics vary.
The pre-requisite of HRM 722 or MAN 722 is required.
Credits: 3
Every Summer

HRM 799 Advanced Topics in Human Resources Management
An in-depth study of selected themes, current developments, emerging issues, and areas of professional specialization in the field of Human Resources Management. Topics vary.
The pre-requisite of HRM 722 or MAN 722 is required.
Credits: 3
Every Summer

IBU 701 International Business
An introduction to international business that examines those aspects of economics, finance, investment and trade that have an international dimension. Topics include historical development of multinational enterprises, relations between multinational corporations and host countries, and special problems associated with international operations.
Pre-requisites of GBA 511, GBA 512, GBA 514 and MBA 620 are required.
Credits: 3
Cross-Listings: IBU 701, MAN 780
Every Fall and Spring

IBU 702 International Financial Markets
A review of the principles of international trade its magnitude, direction, and industrial classification as well as the institutions (e.g., GATT) facilitating it. The course focuses on practical techniques and problems of exporting and importing, with special attention to small business. Topics include sources of marketing information, techniques of payment and collections, currency fluctuation problems and balance of payments analysis, sources and uses of funds to finance foreign trade, and government assistance.
Pre-requisites of GBA 511 and GBA 514 or 520 are required.
Credits: 3
Cross-Listings: FIN 715, IBU 703, MKT 716
On Occasion

IBU 703 International Trade
A focus on the management of direct international investment, commonly known as multinational corporation, that examines the nature, growth and new directions of direct investment and how those elements are related to changing economic, social and monetary conditions. The course highlights the interplay of business and government in international management.
The pre-requisites of GBA 512, MBA 613 and MBA 620 are required.
Credits: 3
On Occasion

A focus on the management of direct international investment, commonly known as multinational corporation, that examines the nature, growth and new directions of direct investment and how those elements are related to changing economic, social and monetary conditions. The course highlights the interplay of business and government in international management.
The pre-requisites of GBA 512, MBA 613 and MBA 620 are required.
Credits: 3
On Occasion

IBU 705 Management of International Marketing
The study and analysis of the special problems of marketing in the international marketplace. Marketing problems of overseas subsidiaries of multinational firms are explored, as are the importing and exporting activities of domestic firms, licensing/franchising, and foreign direct investment, including strategic alliances.
Pre-requisite of GBA 513 and MBA 612 are required.
Credits: 3
Cross-Listings: IBU 705, MKT 717
On Occasion

IBU 706 Comparative International Management
Comparisons among national managerial systems. The functional inter-relationships between managers and their international environments and the problems of cross-national cooperation are highlighted.
The prerequisite of MBA 613 is required.  
Credits: 3  
On Occasion

**IBU 707 Multinational Business in Developing Nations**  
An analysis of the opportunities and problems of operating multinational firms in developing nations. Consideration is given to marketing opportunities, national customs and mores, natural resource policies, tax policies, governmental economic nationalism, and similar concepts relevant to operating in developing nations.  
Pre-requisites of GBA 512 and IBU 701 are required.  
Credits: 3  
On Occasion

**IBU 708 International Corporate Finance**  
An analysis of the financial opportunities, risk and decision-making processes associated with international operations. Topics include management of translation, transaction, and economic exposure; taxation issues; multinational capital budgeting and current asset management; complexities of international performance evaluation and control systems; comparative financial statement analysis; cost of capital; and international financing options. The case method is employed.  
The prerequisite of FIN 716 is required.  
Credits: 3  
Cross-Listing: FIN 726, IBU 708  
On Occasion

**IBU 745 International Taxation**  
A study of U.S. corporations doing business in foreign countries; U.S. taxation of foreign income and foreign tax credits; allocation of income among related entities; and tax treaties. (45 CPE credits)  
The prerequisite of GBA 510, FIN 726, and TAX 723 or the equivalent, are required.  
Credits: 3  
Cross-Listings: IBU 745, TAX 745  
Every Fall

**IBU 750 International Business Seminar**  
An analysis of the decision-making processes and methods for defining, analyzing and resolving international financial and trade problems. Emphasis is on assessing international developments and trade relating to business. Three credits.  
The prerequisite of GBA 512 is required.  
Credits: 3  
On Occasion

**IBU 770 International Accounting**  
Insight into the international accounting environment from the viewpoint of the U.S.-based multinational organization. (45 CPE credits)  
The prerequisite of ACC 501 or equivalent is required.  
Credits: 3  
Cross-Listings: ACC 770, IBU 770  
Every Fall

**MAN 702 Theories of the Organization**  
A survey of organizational theories with particular emphasis on goal setting, assessing, achievement and displacement. Topics include the relationship of authority, role responsibility, organizational structure, design and culture. Students diagnose organizational functions, analyze deficiencies, and determine ways of adapting organizational structure to realize goals.  
The prerequisite of GBA 512 or MBA 613 is required.  
Credits: 3  
On Occasion

**MAN 703 Project Analysis and Program Management**  
A survey of managerial criteria for effective project planning and management. Topics include establishing objectives, cost benefit analysis, planning methods, organizational concepts, causes of conflict, conflict resolution and options in allocation of resources.  
The prerequisite of GBA 512 or MBA 613 is required.  
Credits: 3  
On Occasion

**MAN 704 Managerial Planning and Control Systems**  
A study of the formulation of integrated long-range and strategic plans relating to organizational objectives, expense centers, performance centers and investment centers. Also studied are methods of measuring performance and handling information.  
The prerequisite of GBA 512 or MBA 613 is required.  
Credits: 3  
On Occasion

**MAN 705 Management Decision Theory**  
A survey of the decision-making processes and methods for examining, defining, analyzing and solving complex problems. Emphasis is on defining objectives, value systems, and methods for identifying and assessing alternative courses of action.  
The prerequisite of GBA 512 or MBA 613 is required.  
Credits: 3  
On Occasion

**MAN 707 Small Business and New Venture Management**  
An examination of the role of a small business in a dynamic, free enterprise economy, designed to stimulate a creative approach (by entrepreneurs) to the problems of a small firm. The course emphasizes establishing new enterprises, financing, organizing, planning, operating, marketing, growth and acquisitions.  
The prerequisite of GBA 511, GBA 512 and MBA 613 are required.  
Credits: 3  
On Occasion

A survey of new technologies in society and business. Topics include opportunities and threats, technological forecasting, evaluation of new products and services, the management of new research and development, stimulating creativity, economic evaluation of research products, organizational characteristics, and estimating and controlling research and development costs.  
The prerequisite of GBA 512, GBA 517 and MBA 613 is required.  
Credits: 3  
On Occasion

**MAN 709 Government and the Management Technology**  
An examination of the changing role of government in shaping and directing the management of technology in the civilian sector of the economy. Principal themes include the rationales, processes and mechanisms of government involvement; promotion and regulation of technological development and use by government; industrial policy in the United States and other countries; and the impact of government on product innovation and on the national economy.  
The prerequisite of GBA 517 or PM 703 is required.  
Credits: 3  
On Occasion

**MAN 721 Industrial Relations**  
A survey of federal and state laws affecting the conduct of parties in a bargaining relationship. Factors in the bargaining process, strategy and tactics, principles and specifics of contract clauses, and administration and enforcement of the collective bargaining agreement are examined.  
The prerequisite of GBA 512 or MBA 613 is required.  
Credits: 3  
Cross-Listings: HRM 721, MAN 721  
Every Fall

**MAN 722 Human Resource Management**  
A review of the major areas of personnel administration. Topics include selection and replacement, compensation, training and development, labor relations, and employee services. Such activities are viewed from the position of both the large and small firm.  
The prerequisite of GBA 512 or MBA 613 is required.  
Credits: 3  
Cross-Listings: HRM 722, MAN 722  
Every Fall and Spring

**MAN 723 Behavior Concepts Applied to Management**  
A study of the application of behavioral concept techniques to the problems of managers and supervisors in large and small enterprises. Topics include approaches to personnel assessment, development and motivation of managers, and the
fundamentals of executive performance. 
Pre-requisite of GBA 512 or MBA 613 are required. 
Credits: 3
On Occasion

**MAN 724 Organizational Development**

A survey of contemporary training and development problems, with emphasis on the relationship between development and the organization’s personnel decisions. Techniques of personnel training are examined.

Pre-requisite of GBA 512 or MBA 613 are required. 
Credits: 3
Cross-Listings: HRM 724, MAN 724, PM 711
Every Spring

**MAN 725 Work People and Productivity**

An analysis of the problems of the occupational environment in small and large enterprises.

Emphasis is on the practical problem solving that is of immediate concern to the participants. Topics include: new approaches to motivation, attitudes, job satisfaction, job enrichment, monotony, fatigue, working conditions and conflict resolution, quality circles, and productivity.

Pre-requisite of GBA 512 or MBA 613 are required. 
Credits: 3
Cross-Listings: HRM 725, MAN 725, PM 712
Every Spring

**MAN 726 Legal and Regulatory Environment in Human Resource Management**

An examination, discussion and exploration of laws, regulations and judicial decisions affecting the Human Resources manager. Case studies are used to develop an awareness of the legal problems facing the modern manager. Emphasis is on the federal agencies and laws, but areas of regulation reserved to the states are also discussed.

Pre-requisite of GBA 512 or MBA 613 are required. 
Credits: 3
Cross-Listings: HRM 726, MAN 726
Every Fall

**MAN 750 Management Seminar**

A consideration of the human problems of organizational management from a multidisciplinary point of view. Concepts and research from the behavioral sciences are applied to the personnel problems of management. Theory and technique are integrated by using group and individual study projects. The course is designed to enhance interpersonal skills related to superior, subordinate, staff specialists and peers.

The pre-requisites of GBA 512 or MBA 613; GBA 515, GBA 517, HRM 721, 722, 726, and 797 are required. 
Credits: 3
Cross-Listings: HRM 750, MAN 750
Every Spring

**MAN 780 International Business**

An introduction to international business that examines those aspects of economics, finance, investment and trade that have an international dimension. Topics include historical development of multinational enterprises, relations between multinational corporations and host countries, and special problems associated with international operations.

Pre-requisites of GBA 511, GBA 512, GBA 514 and MBA 620 are required. 
Credits: 3
Cross-Listings: IBU 701, MAN 780
Every Fall and Spring

**MBA 612 Marketing Strategy**

A focus on marketing planning processes, concepts, methods and strategies with global orientation at the product level as well as the corporate level. The course emphasizes the relationship between marketing and other functions and draws on perspectives from industrial economics, corporate finance and strategic management literature.

Marketing strategies and practices of contemporary firms are discussed as they relate to industrial and consumer products and services. The overall objective of the course is to help students incorporate and apply the skills, methods and insights they have acquired in previous marketing and other business courses to the design and implementation of marketing strategies.

Pre-requisite of GBA 513 is required. 
Credits: 1.50
Every Fall and Spring

**MBA 613 Organizational Behavior**

An analysis of both the formal and informal aspects of the administration process. Topics include human behavior in an organizational environment, individual behavior patterns, superior/subordinate relationships, group dynamics, leadership, communication, motivation and decision making, and the impact of innovation and change on the organization.

Pre-requisite of GBA 512 is required. 
Credits: 3
Every Fall and Spring

**MBA 620 Behavioral Finance**

Behavioral finance offers a new perspective on modern investing. Phenomena such as stock momentum or the tendencies of investors to hold on to losing stocks too long are inconsistent with the notions of traditional finance market efficiency, yet they are perfectly consistent with psychological human processing of information. Students will gain a proficiency in learning the knowledge of psychological factors and economics concepts, implement this knowledge in the financial markets and apply the behavior finance ideas in the analysis of real market trading phenomena.

The pre-requisites of GBA 510, 511, 512, 513, 514, 515, 516, and 517 are required. 
Credits: 3
Every Fall and Spring

**MBA 621 Service and Operations Management**

This course will focus on the various aspects involved in the management of service operations within the "pure" service sector (banking, transportation, travel and tourism, etc.) and within the services functions of manufacturing (after-sales support, financing, etc.). After an introductory section to provide an overview of the role of services in the economy and within the functioning of various enterprises, the following topics and more will be explored: design and delivery of services, the measurement of productivity and quality, managing capacity and demand, quality management redesign of service delivery processes, management of technology, and managing human resources. The course explores the dimensions of successful service firms and helps students discover entrepreneurial opportunities.

The pre-requisites of GBA 510, 511, 512, 513, 514, 515, 516, and 517 are required. 
Credits: 3
Every Fall and Spring

**MBA 625 Management of Innovation and Technology**

This course draws upon the economics of technical change for high technology businesses. The emphasis is on the development and application of conceptual models clarifying the interactions between competition, patterns of technological and market change, and the structure and development of internal firm capabilities. The aim of this course is to provide a solid foundation for managing innovation in high-technology industries. Throughout, key conceptual frameworks are linked to applications in a variety of industry and case settings.

Pre-requisite of GBA 512 is required. 
Credits: 1.50
Every Fall and Spring

**MBA 626 Risk Management**

This course deal with the theoretical and practical approaches to effective financial management. Planning, analyzing and controlling investment and short and long term financing are examined for decision-making purposes. Emphasis is placed on the application of Risk, the methods in today's business environment and related industries.

Topics include: Capital budgeting, risk and diversification, asset liability management, financial derivatives and financial engineering, swaps, options and financial future.

The pre-requisites of GBA 510, 511, 512, 513, 514, 515, 516, 517 and MBA 620 are required. 
Credits: 3
Every Fall and Spring

**MBA 800 Business Policy I**

An examination of the fields of policy making and administration that build upon and integrate the work covered in the graduate curriculum. The viewpoint is that of senior general managers who set companywide objectives and coordinate departmental policies and activities. As an integrating experience, students are expected to bring their overall acquired business knowledge to
bear on the intricacies of managerial decision making. Through text, case analysis and a
computer-based simulation, students have an
opportunity to test their skill in the use of financial,
marketing and management variables in a
competitive situation. Selected guest lecturers and
assignment of a major written project round out the
learning experience by providing each student with
a pragmatic discussion forum, as well as research
and writing experience with the dynamics of a
changing business world.

The following pre-requisites are required to enroll
in MBA 800 or 801:

<table>
<thead>
<tr>

Every Fall and Spring

MKT 701 Marketing Communication and
Advertising
A study of the role of mass and personal
communication and sales promotion in marketing
management and their social and economic
implications. Research findings in communication
theory behavioral sciences, and comprehensive
models of buyer behavior are particularly stressed.
The course surveys the planning, implementation
and measurement of effectiveness of marketing
communication activities. Students are required to
develop integrated promotional campaigns based on
actual marketing information.

Pre-requisite of GBA 513 is required.

Credits: 3

On Occasion

MKT 702 Marketing Research
An examination of information requirements for
marketing decisions. Particular emphasis is placed
on the development of cost and benefit analytical
tools for evaluating various marketing information
systems designs. Other topics include the design of
surveys and experiments, questionnaire
construction, decision models, data analysis
techniques and data interpretation.

Pre-requisite of GBA 513 is required.

Credits: 3

On Occasion

MKT 703 Sales Management and Forecasting
A focus on the management of selling activities and
the outside sales force as critical elements of
marketing operations. Includes discussion of the
administrative activities of sales force managers
from the district manager up to the top-level sales
force executive in the firm. Organization of the
sales department, operating the sales force,
planning sales force activities, and analysis and
control of sales operations are covered. Major
emphasis is given to determining market and sales
potentials, forecasting sales, preparing sales budgets,
and establishing territories and quotas. Cases are
used to stress practical applications.

Pre-requisite of GBA 513 is required.

Credits: 3

On Occasion

MKT 704 Consumer Behavior
A multidisciplinary approach to understanding
consumer behavior in the marketplace that
integrates the contributions of cultural
anthropology, psychology, sociology and economics.
The course reviews the role of the behavioral
sciences in marketing in such areas as
determination of market segments, product choice,
brand loyalty and switching shopping behavior.
Topics include learning theory, motivation,
diffusion of innovation, reference group theory,
role playing, perception and attitude formation.
Managerial implications are examined using case
studies.

Pre-requisite of GBA 513 is required.

Credits: 3

On Occasion

MKT 705 Product Planning and Marketing
The use of the case study method to develop skills
of analysis and decision making as they relate to
product planning, management and portfolio
analysis. The effects of product design, pricing,
promotion, advertising, research, distribution
channels, sales efforts and legislation are examined
in an effort to understand their interrelationships
as they affect both volume and profit. The product
management organizational structure is also
examined. Outside lecturers from industry visit, as
available.

Pre-requisite of GBA 513 is required.

Credits: 3

On Occasion

MKT 706 New Product Development
A study of the management of the product mix.
The course presents an analytical approach to new-
product decisions. Topics include product policy
considerations, new-product search, development,
economic analysis, and the factors leading to the
decision to commercialize, test market or
discontinue a product.

Pre-requisite of GBA 513 is required.

Credits: 3

On Occasion

MKT 707 Marketing Distribution Systems
An analysis of the competitive struggle for channel
command and the utilization of economic and
analytical tools and behavioral models. The growth
of, and innovation in, vertical systems are examined
with regard to social, economic and legal
constraints. The course also surveys the objectives
and decision-making processes of individual
members at various channel levels. Cases are used
to stress practical applications.

Pre-requisite of GBA 513 is required.

Credits: 3

On Occasion

MKT 708 Industrial Marketing
An analysis of current marketing practices for
manufacturers and suppliers of services to industrial
and government markets. Emphasis is placed on
the strategy of market selection, product planning,
pricing, distribution and buyer/seller relations
pertaining to industrial products.

Pre-requisite of GBA 513 is required.

Credits: 3

On Occasion

MKT 709 Management of Marketing Operations
An analysis of the marketing process, including
formulation of policies, and the planning,
organizing, directing and coordinating of activities
of marketing functions. The relation of marketing
research and consumer motivation studies as they
relate to marketing mix elements is also examined.

The pre-requisite of GBA 513 or MBA 612 is
required.

Credits: 3

On Occasion
MKT 716 International Trade
A review of the principles of international trade its magnitude, direction, and industrial classification as well as the institutions (e.g., GATT) facilitating it. The course focuses on practical techniques and problems of exporting and importing, with special attention to small business. Topics include sources of marketing information, techniques of payment and collections, currency fluctuation problems and balance of payments analysis, sources and uses of funds to finance foreign trade, and government assistance.
Prerequisites of GBA 511 and GBA 514 or 520 are required.
Credits: 3
Cross-Listings: FIN 715, IBU 703, MKT 716
On Occasion

MKT 717 International Marketing
The study and analysis of the special problems of marketing in the international marketplace. Marketing problems of overseas subsidiaries of multinational firms are explored, as are the importing and exporting activities of domestic firms, licensing/franchising, and foreign direct investment, including strategic alliances.
Prerequisite of GBA 513 and MBA 612 are required.
Credits: 3
Cross-Listings: IBU 705, MKT 717
On Occasion

MKT 750 Marketing Seminar
An analysis of the processes that shape marketing policy to maintain profitable operations. Emphasis is on the use of planning theory, game theory and input-output analysis in devising market plans and decision making. Application of such techniques is illustrated by cases and actual marketing problems of companies.
Prerequisite of GBA 513 is required.
Credits: 3
On Occasion
DEPARTMENT OF TECHNOLOGY, INNOVATION AND COMPUTER SCIENCE

Professor Rodriguez
Associate Professors Ghriga (Chair), Chung, League
Assistant Professor Shang
Adjunct Faculty: 9

In the global marketplace, no company or organization can exist without computers and technology. Companies rely on highly skilled and technically adept people to maintain software and hardware and provide support. New uses for computers emerge continuously and the potential for technology is unlimited. The outlook for continued technological development is positive, especially in the fields of communication, transportation, biotechnology, and service industries. Wireless technology, broadband and security technology are all growing fields and technology skills are still in high demand in the government and military, health care and pharmaceuticals. As computer applications expand, jobs for system analysts, computer scientists, and database and network administrators are expected to be among the fastest growing occupations. The department’s primary goal is to instill in students sound analytical reasoning in the latest technologies so that they have long successful careers in fields that are continually evolving and that offer a broad array of professional opportunities.

The department offers the Master of Science in Computer Science.

M.S. in Computer Science

Blended Learning - Onsite & Online

The 36-credit M.S. in Computer Science provides students with the knowledge and skills to become successful leaders in the field of computer science. It is open to students from all undergraduate fields. The program provides the foundations and advanced applications with an emphasis on the design and development of large software systems.

Required courses cover what is commonly accepted by the Association for Computing Machinery (ACM) as the core of graduate computer science. The inclusion of small implementation projects and/or computer programming exercises in most courses provides experience in the practical aspects of the software development cycle.

This program is offered in a NEW blended learning format, where nearly half of the courses will be delivered online and the balance will be offered in a traditional classroom setting. Please speak with a representative from the Office of Admissions or the School of Business' Office of Advisement about this option.

Admission Requirements:
The standards for admission to the program are as follows:
1. A bachelor's degree from an accredited institution
2. An undergraduate grade point average of 3.0
3. A written statement outlining applicant’s objectives for seeking admission into the program
4. A current résumé
5. Two letters of recommendation
6. A completed application submitted to the Office of Admissions

Candidates meeting the admission requirements will be placed into one of the following two tracks depending upon the candidate’s undergraduate degree and background in fundamentals of computer science and programming. Other evidence of competence may be required to grant a limited matriculation status in the program.

Track 1 – Candidates admitted into Track 1 will have a bachelor’s degree in computer science or management information systems and will begin their program with the required core courses.

Track 2 – Candidates without a bachelor’s degree in computer science or management information systems will be admitted into Track 2 and required to demonstrate proficiency in computer programming and foundations by passing the competency waiver exam or completing two preparation courses: Computer Science 601 and 605 or their equivalents.

Computer Science Background Requirements
A candidate who is not proficient in the C programming language must take CS 601 (no credits toward computer science master’s degree). A candidate who does not have sufficient background in computer science foundations (i.e., operating systems, computer architecture, discrete structures, advanced programming) must take CS 605 (3 credits). Candidates who successfully complete both CS 605 and CS 601 will get three (3) elective credits for CS 605.

Transfer Credits

Students are permitted to transfer a maximum of six (6) graduate computer science credits from other institutions with the approval of the department chair. Industry training courses that meet time and content requirements may, with the approval of the chair, qualify for transfer credits.

Competency Equivalencies
Students who can demonstrate competency in core courses may request that the course(s) be waived. The student will substitute an elective course, with the approval of the department chair.

The following seven (7) courses are required:

M.S., Computer Science
[Program Code: 89373]

Computer Science Core: 21 Credits

Credit and GPA Requirements
Minimum Credits (Thesis Option): 36
Minimum Credits (Project Option): 36
Minimum Major GPA: 3.0

<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Description</th>
<th>Credits</th>
<th>Pre-requisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS 601</td>
<td>Principles of Computer Science and Structured Programming</td>
<td>A study of the fundamentals of structured program design using a block-structured language such as C, functions and file organization, and processing. Students are required to design and run multiple programs for problem solving on a computer. Not credited to M.S. in Computer Science.</td>
<td>3</td>
<td>Every Fall and Spring</td>
</tr>
<tr>
<td>CS 605</td>
<td>Fundamentals of Computer Science and Systems Programming</td>
<td>A study of the fundamental concepts of machine architecture and operating systems, including assembly language programming, data structures and algorithms used in advanced C programming. Students are required to design and run computer programs. Not credited to M.S. in Computer Science.</td>
<td>3</td>
<td>Every Fall and Spring</td>
</tr>
<tr>
<td>CS 631</td>
<td>Algorithms and Data Structures</td>
<td>An intensive treatment of the application of data structures and algorithms in Computer Science. Topics include recursion; sequential, linked and dynamic allocation of storage stacks; queues; trees; graphs; hash tables; and internal and external sorting and searching. Emphasis is placed on the design, implementation and evaluation of algorithms. Pre-requisite of CS 601 or equivalent is required.</td>
<td>3</td>
<td>Every Spring</td>
</tr>
<tr>
<td>CS 633</td>
<td>Structured System Analysis and Design</td>
<td>Successful system development entails much more than just coding. We will survey various models of the software development process, learn how to elicit and analyze system requirements, and how to apply various design strategies, notations, and tools. In the end, you will understand why quality is so elusive in the development of information systems, and you will be comfortable with a range of processes, methods, and tools to help achieve it. Pre-requisite of CS 631 is required.</td>
<td>3</td>
<td>Every Fall</td>
</tr>
<tr>
<td>CS 641</td>
<td>Computer Architecture</td>
<td>A study of computer architecture and organization, with emphasis on quantitative analysis. Boolean algebra is introduced to teach digital devices. Students are required to design and implement on paper a simple microprocessor by the end of the semester. Microprogramming and conventional machine level are taught. Programming is expected in an assembly programming language. Pre-requisite of CS 601 or equivalent, and CS 605 or equivalent, are required.</td>
<td>3</td>
<td>Every Fall</td>
</tr>
<tr>
<td>CS 643</td>
<td>Operating Systems</td>
<td>An introduction to the algorithms and data structures of operating systems and their performance in various environments. Topics include CPU scheduling, memory management, virtual memory, mutual exclusion and deadlock concurrent processes, and protection and security.</td>
<td>3</td>
<td>Every Spring</td>
</tr>
<tr>
<td>CS 645</td>
<td>Computer Communications and Networking</td>
<td>An introductory course in computer networks, with emphasis on the physical and logical design of computer networks using the OSI and TCP/IP layered models as conceptual frameworks. The physical, data link, network, and transport layers are discussed in detail. Examples are provided from existing network architectures. The TCP/IP protocol suite is studied in the contexts of the network and transport layers.</td>
<td>3</td>
<td>Every Spring</td>
</tr>
<tr>
<td>CS 649</td>
<td>Database Management Systems</td>
<td>An examination of the concepts and practical aspects of database management systems and how data resources can be designed and managed to support information systems in organizations. Topics include data models and data and storage structures and their relation to data access; use and management of database systems, data independence; and data sharing, availability, security, integrity and consistency. Students are required to design and implement a database using a relational database management system, such as SQL.</td>
<td>3</td>
<td>Every Fall</td>
</tr>
<tr>
<td>CS 655</td>
<td>Object-Oriented Software Methodology - C++</td>
<td>A study of object-oriented analysis and design techniques. Several case studies with C++ are used to implement the object-oriented design techniques. Topics include design of classes, class interfaces, overloading (functions and operators), inheritance, polymorphism, dynamic binding, reusability and aspects of software quality. Students are required to complete projects with C++. Pre-requisite of CS 601 or knowledge of the C language is required.</td>
<td>3</td>
<td>On Occasion</td>
</tr>
<tr>
<td>CS 664</td>
<td>Compiler Theory and Design</td>
<td>A study of the following: compiler organization - symbol table, lexical analysis, syntactic analysis, semantic analysis, object code generation and code optimization techniques; polish notation, triples, trees; the translation of arithmetic expressions and programming constructs; the impact of various language designs on the compilation process; compilation of ambiguous and non-deterministic languages; formal languages, parse techniques; and optimization techniques.</td>
<td>3</td>
<td>On Occasion</td>
</tr>
<tr>
<td>CS 666</td>
<td>Artificial Intelligence</td>
<td>An examination of the concepts and methodologies used in constructing intelligent computer programs. Areas covered are state space representation, knowledge representation and reasoning techniques, and search strategies, including heuristic search and genetic algorithms. Application areas are selected from game playing, expert systems, natural language processing and machine learning. Overview of AI tools and languages is included. Students are required to implement an AI project. Pre-requisite of CS 631 is required.</td>
<td>3</td>
<td>Every Fall</td>
</tr>
<tr>
<td>CS 668</td>
<td>Advanced Topics in Data Base Technology</td>
<td>A study of the following: business and industrial application development; graphical user interfaces with client/server computing distributed data bases; interface of relational data bases with software packages. Pre-requisite of CS 649 is required.</td>
<td>3</td>
<td>On Demand</td>
</tr>
<tr>
<td>CS 669</td>
<td>Expert and Knowledge Base Systems</td>
<td>A study of the methodologies for designing and implementing expert and knowledge-based systems. Topics are expert and knowledge-based problem solving, knowledge acquisition, explanation generation, and expert system development tools. Comprehensive treatment of an expert system design and development tool such as ECLIPSE is conducted. Students are required to implement an expert system project. Pre-requisite of CS 666 is required.</td>
<td>3</td>
<td>On Occasion</td>
</tr>
<tr>
<td>CS 673</td>
<td>Internet Programming with JAVA</td>
<td>A look at programming for the Internet and concepts that relate to Internet technologies. Topics include JAVA, object-oriented programming, CGI and Dynamic HTML. JAVA topics include classes, interface classes, exceptions, libraries, threads, network programming and database access. Writing CGI code for Web servers and JDBC for database connectivity is also covered. Students are required to complete projects with JAVA. The prerequisites of CS 601 and 645, and the corequisite of CS 631 are required.</td>
<td>3</td>
<td>On Occasion</td>
</tr>
<tr>
<td>CS 674</td>
<td>Distributed Systems</td>
<td>A detailed treatment of distributed systems in applications such as databases, computer networks</td>
<td>3</td>
<td>On Occasion</td>
</tr>
</tbody>
</table>
and communication, architecture, and operating systems. Guiding theory, design principles, and tools for analyzing and performing system trade-offs are presented. Case histories of distributed systems are reviewed.

 Credits: 3
 On Occasion

 CS 675 Parallel Programming
 A study of parallel random access machine (PRAM) model, as well as processor organizations and parallel architectures. Design, analysis and implementation of parallel algorithms are studied. Case studies of parallel algorithms in various problem domains are examined. An introduction is made to fault tolerant computing. Students are required to do assignments using a parallel extension of the C language such as C*, nCUBE C or C-LINDA.

 The prerequisites of CS 631 and CS 641 are required.

 Credits: 3
 On Occasion

 CS 676 UNIX Programming
 An in-depth study of the UNIX system called interface which allows programmers to write applications that take advantage of the services provided by the UNIX kernel. Topics include file system, processes and threads, and signals. Interprocess communication: pipes, message queues, shared memory, semaphores are studied. An introduction is made to network programming using the socket interface and RPC.

 Pre-requisite of CS 601 or knowledge of the C language is required.

 Credits: 3
 On Occasion

 CS 678 Data Security
 A consideration of security problems in computing, with emphasis on legal issues. Topics include cryptography fundamentals and data security; NP-completeness and security of cryptosystems; DES, IDEA; hashes and message digests; RSA; authentication of people and systems; signature schemes; access controls, information flow controls, and inference controls; and e-mail security.

 Pre-requisite of CS 631 is required.

 Credits: 3
 On Occasion

 CS 679 Local Area Networks
 A study of local area network (LAN) technology, including topologies, communications media, communication protocol, interfacing equipment, and hardware and software. Students work on problems of planning, designing, installing and maintaining a LAN.

 Credits: 3
 On Occasion

 CS 690 Software Development Project
 The development of a large software systems project based on a current analysis and design paradigm resulting in a valid and verified software system. The application domain and the course syllabus are made available in the preceding semester. The completion of the degree core requirements is required.

 Pre-requisites of CS 631, CS 633, CS 643, CS 645, CS649 and CS 666 are required.

 Credits: 3
 Every Fall

 CS 691 Software Development Project
 The development of a large software systems project based on a current analysis and design paradigm resulting in a valid and verified software system. The application domain and the course syllabus are made available in the preceding semester. The completion of the degree core requirements is required.

 Pre-requisites of CS 631, CS 633, CS 643, CS 645, CS649 and CS 666 are required.

 Credits: 3
 Every Fall

 CS 695 Special Topics in Computer Science
 A consideration of a current topic in computer science not offered in any other course.

 Credits: 3
 On Occasion

 CS 696 Special Topics in Computer Science
 A consideration of a current topic in computer science not offered in any other course.

 Credits: 3
 On Occasion

 CS 697 Special Topics in Computer Science
 A consideration of a current topic in computer science not offered in any other course.

 Credits: 3

 Every Fall and Spring
DEPARTMENT OF PUBLIC ADMINISTRATION

Professor Lyons
Associate Professor Levine (Director)
Assistant Professors Bennett, Elmedni, Moreno, Saldivar
Adjunct Faculty: 7

The public administration program prepares public service professionals for managerial positions in government, health and nonprofit sectors. It is open to students from all undergraduate fields and provides the foundations and advanced applications expected in a graduate program.

The program focuses on competencies that employers want – leadership, ethical decision-making, analytical and budgeting expertise, written communication and oral presentation skills. Specialization courses in government, health and nonprofit fields with a variety of subtopics provide depth in the student’s area of interest. Focused capstone courses allow students to apply their new competencies in meaningful public service projects.

The M.P.A. program offers the Master of Public Administration with tracks in Public Administration and Health Administration, the Advanced Certificate in Gerontology Administration and the Advanced Certificate in Not-For-Profit Management.

Admission Requirements:
The standards for admission to the program and the advanced certificates are as follows:
- Official transcripts as proof of a baccalaureate degree from an accredited institution of higher education
- Two letters of recommendation
- A current résumé
- A two-to-three-page typewritten statement of purpose
- Standardized test scores (optional)
- A completed application submitted to the Office of Admissions

Note: Full matriculation admission requires an official transcript showing an undergraduate grade point average of at least 3.0 on a scale of 4.0. Limited matriculation may be available to applicants who do not meet full matriculation requirements. Candidates with grade point averages of 2.5 or less must contact the M.P.A. program director before submitting an application.

Such limited matriculation may require additional evidence of competence. Limited matriculation students may register for a maximum of six credits per semester for the first 12 credits. Limited matriculation becomes full matriculation upon completion of 12 graduate credits with a 3.0 average or better. Transfer students are welcome; transfer credits will be evaluated by the program director.

Master of Public Administration (M.P.A)

Helisse Levine, Associate Professor of Public Administration
Director, M.P.A. Program
718-488-1071
helisse.levine@liu.edu

The 48-credit, N.A.S.P.A.A.-accredited Master of Public Administration prepares students for public service responsibilities, blending management theory with practical applications in government, health and nonprofit organizations. Students from diverse backgrounds with varying levels of professional expertise are taught by faculty members who are current in all aspects of this continuously evolving and growing field.

The program of study is flexible and can be tailored to accommodate the professional requirements of the student by offering specialization courses that provide them with the opportunity to examine a specific management function or an area of application in greater depth.

Areas of specialization include public administration, nonprofit management, urban government management, human resources management, law and management, international public management and social policy management. Other specializations can be developed in consultation with a faculty adviser from the broad spectrum of courses available through the program and the school, as well as through courses available across the campus.

The program is divided into four parts: an introductory sequence that provides 18 credits of public service sector foundations and skills, followed by 12 credits of focused management topics including human resources, budgeting and financial management, law and accountability. Students then take 12 credits in an area of specialization and a required six-credit integrative capstone experience, which culminates in a project and a formal presentation. Capstone courses can only be taken after all course work is completed.

Master of Public Administration in Health Administration

Helisse Levine, Associate Professor of Public Administration
Director, M.P.A. Program
718-488-1071
helisse.levine@liu.edu

The U.S. Department of Labor’s Bureau of Labor Statistics predicts above-average employment growth for healthcare administrator positions through 2018. “Those with the highest education, strongest business skills and health care work experience will be well positioned to take advantage of the most coveted jobs.”

The 48-credit, N.A.S.P.A.A.-accredited Master of Public Administration in Health Administration prepares students for careers in fields that offer numerous professional paths. Students from diverse backgrounds with varying levels are taught by faculty members who are current in all of the latest trends and issues in health care administration.

The program of study is flexible and can be tailored to accommodate the professional requirements of the student by offering specialization courses that provide them with the opportunity to examine a specific management function or an area of application in greater depth.

Areas of specialization include health care administration, health care management, health care policy and aging/long-term care. Other specializations can be developed in consultation with a faculty advisor from the broad spectrum of courses available through the program and the school, as well as through courses available across...
Gerontology is designed to provide working professionals in agencies and organizations serving aging populations with the knowledge and the skills needed to ensure effective service delivery to these groups. The certificate can be earned through two different stand-alone tracks:

- **Track 1 – Long-Term Care Administration**, which is approved by the New York State Department of Health (NYSDOH) for the NYS Nursing Home Administrators Licensing Examination; and
- **Track 2 – Community Aging Services and Administration**. The field of community aging services is expanding since there is a greater emphasis on helping people remain independent and in their homes.

Students in the M.P.A. Program who are taking the advanced certificate courses as their specialization may graduate with both the M.P.A. degree and the advanced certificate.

### Advanced Certificate, Gerontology

**[Program Code: 30250]**

(Select Track I or Track II)

#### Track I: Long-Term Care Administration

**Required Course: 3 Credits**

- PM 738 Gerontology, The Process of Aging*

**Of the following, four (4) courses are required: 12 Credits**

- **MPA 602** Human Resources Management*
- **MPA 613** Health Systems Finance*
- **MPA 614** Healthcare Responsibility and Accountability for Administrators*
- **MPA 616** Legal Aspects of Health*

#### Track II: Community Aging Services and Administration

**Required Course: 6 Credits**

- PM 738 Gerontology, The Process of Aging*
- PM 743 Aging Policy in the Community

**Of the following, three (3) courses are required: 9 Credits**

- PM 714 Policy Analysis and Program Evaluation
- PM 744 Bereavement: Psychological, Cultural and Institutional Perspectives

---

**Advanced Certificate in Not-for-Profit Management (NPM)**

The 15-credit Advanced Certificate in Not-for-Profit Management is designed to provide professionals with varying backgrounds who are managers in nonprofit organizations with the essential elements of nonprofit organization theory and management. The certificate consists of an overview of the nonprofit sector, the organizations that carry out these important missions and the management challenges they face. Courses within the certificate also address key management functions of human resources, finance and decision-making.

Students may apply certificate courses to the M.P.A. degree by taking courses for graduate credit.

### Advanced Certificate, Not-for-Profit Management

**[Program Code: 30249]**

**The following courses are required: 12 Credits**

- **MPA 602** Human Resources Management*
- **MPA 603** Fundamentals of Public Budgeting and Financial Management*
- **MPA 624** Nonprofit Management*
- **MPA 626** Legal, Ethical and Governance Issues in Nonprofit Organizations*

**Of the following, one course is required: 3 Credits**

- **PM 741** Fund Raising
- **PM 742** Grant/Proposal Preparation

---

**Credit and GPA Requirements**

- **Minimum Credits**: 48
- **Minimum Major GPA**: 3.00
United Nations
Certificate/M.P.A. Degree

As the world becomes more globalized and interconnected, the need for public administration professionals who are grounded in international affairs will increase. LIU Brooklyn offers a collaborative program, which makes it possible for students to complete both a United Nations Advanced Certificate and an M.P.A. This unique combination of programs provides a comprehensive background in public administration with an in-depth overview of the United Nations system and its specialized agencies. Students begin this fascinating educational journey by earning the United Nations Advanced Certificate and subsequently transfer into the M.P.A. Program when the certificate is completed or near completion.

The United Nations Advanced Certificate consists of 24 credits of graduate-level courses that cover a broad range of topics including “Population Displacement and Migration,” “International Human Rights,” “Modern Diplomacy” and “World Social Development.”

The M.P.A. Program consists of 48 credits, of required (36 credits) and specialization (12 credits) courses. A designated list of course matches or equivalencies is located in the course of study area and is approved by LIU and by the New York State Department of Education. For more information on the United Nations Advanced Certificate, please consult the degree offerings of Richard L. Conolly College.

**Public Administration Courses**

**MPA 501 Principles of Administration**
An introduction to public and not-for-profit sector administration, including organization and management administration concepts and political processes in the context of public policy, intergovernmental relations, and policy impacts on public and not-for-profit agencies.

**Credits:** 3  
**Every Fall and Spring**

**MPA 502 Organisational Theory and Behavior**
An examination of theories of organization, administrative processes, and formal and informal relationships in organizations. Includes the environment, leadership, structure, networks, outputs and outcomes of organized action.

**Credits:** 3  
**Every Fall and Spring**

**MPA 503 Government and the Economy**
An examination of the role of the public sector in economic decision making. The nature of public goods as they relate to allocation, stabilization, and distribution functions of economic systems is studied, as are the role of private investment, relations between government and private sectors, privatization of public services, and the use of national income accounts. An analysis of fiscal federalism, and the fiscal crises of the state are included. Three credits. Offered every Spring and alternate summers

**Credits:** 3  
**Every Fall and Spring**

**MPA 504 Computer Applications**
A review of computer applications that provides students with knowledge, hands-on experience and understanding of how computers and data provide support for management decisions. Students learn spreadsheets, database management, query, and statistical skills. Students demonstrating proficiency may waive the course and select an additional elective.

**Credits:** 3  
**Every Fall and Spring**

**MPA 505 Analytic Methods**
An introduction to the methods, tools and uses of research as it applies to policy and administrative problems. Includes a review and application of research design, data gathering and analytical concepts and techniques.

**The prerequisite of MPA 504 is required.**

**Credits:** 3  
**Every Fall and Summer**

**MPA 507 Public Policy Processes**
An examination of the political system and the political, administrative and delivery processes that yield public services. Includes agenda development, the role of special interests, policy formation, analysis, implementation and evaluation.

**Credits:** 3  
**Every Spring**

**MPA 602 Human Resources Management**
An exploration of theories and practices of human resources management as they apply to the public and not-for-profit sectors. Includes a review of recruitment, civil service, training, performance evaluation, job development, compensation systems, teamwork, empowerment, unionism, equal employment opportunity, employee rights, privacy and occupational health and safety.

**Credits:** 3  
**Every Fall and Spring**

**MPA 603 Fundamentals of Public Budgeting and Financial Management**
An examination of public sector revenue generation, budgeting, accounting and auditing and their effects on managerial decisions. Includes a review of budget systems, processes and politics, and the preparation and justification of financial information and reports.

**Credits:** 3  
**Every Fall**

**MPA 604 Administrative Responsibility and Accountability**
A review of legal and ethical issues facing administrators as they seek to balance professionalism and responsiveness with the competing demands of diverse constituencies and the realities of their task environments.

**Credits:** 3  
**Every Fall**

**MPA 605 Law for Managers**
An introduction to the basic skills and perspectives of the legal environments of the public, private not-for-profit, and quasi-public sectors. The objective of the course is student understanding of the legal obligations, responsibilities and liabilities facing managers in the three sectors. Important topics include basic provisions of the United States Constitution, the exercise of delegation and discretionary authority rule-making and regulatory processes and their economic impacts), contract, tort, employment, duties and liabilities of managers and professionals in healthcare organizations, environmental law and privacy.

**Credits:** 3  
**Every Spring**

**MPA 606 Foundations of Health Systems Finance**
An examination of healthcare finance topics, including government and private health insurance, reimbursement, fees, service contracts, rate-setting, DRGs, capitated payments, managed care and multiple entities. Includes a review of financial strategies and characteristics of various health organizations. Three credits.

**Credits:** 3  
**Every Spring**

**MPA 613 Legal Aspects of Health**
An examination of legal issues in healthcare services, including governance; consents and patient rights; admission and discharge; malpractice and liability of hospitals, physicians, nurses, emergency crews; management duties and liabilities; medical records; immunity; medical staff rights and privileges; end of life decisions; moral and ethical dilemmas.

**Credits:** 3  
**Every Fall**

**MPA 624 Nonprofit Management**
This course focuses on the formation, financing and management of nonprofit organizations, including: the board of directors, the workforce, marketing, financial management, fund raising, planning, leadership and the methods and strategies that have been used successfully to manage nonprofit organizations. The course also examines the role of nonprofits in the delivery of public services through fee for service, contracts and reimbursement arrangements.

**Credits:** 3  
**Every Fall**

**MPA 626 Legal, Ethical and Governance Issues in Nonprofit Organizations**
This course considers the ethical dilemmas that confront modern health service agencies and institutions in the exercise of administrative authority. Coursework includes analysis of the problems of accountability, rights, equity, ethics and the reconciliation of administrative processes with medial, constitutional, regulatory and social mandates encountered and utilized by government organization in the administration of health systems and public affairs.

**Credits:** 3  
**Every Spring**

**MPA 627 Legal Aspects of Health**
An examination of legal issues in healthcare services, including governance; consents and patient rights; admission and discharge; malpractice and liability of hospitals, physicians, nurses, emergency crews; management duties and liabilities; medical records; immunity; medical staff rights and privileges; end of life decisions; moral and ethical dilemmas.

**Credits:** 3  
**Every Fall**

**MPA 628 Law for Managers**
An introduction to the basic skills and perspectives of the legal environments of the public, private not-for-profit, and quasi-public sectors. The objective of the course is student understanding of the legal obligations, responsibilities and liabilities facing managers in the three sectors. Important topics include basic provisions of the United States Constitution, the exercise of delegation and discretionary authority rule-making and regulatory processes and their economic impacts), contract, tort, employment, duties and liabilities of managers and professionals in healthcare organizations, environmental law and privacy.

**Credits:** 3  
**Every Fall**

**MPA 629 Foundations of Health Systems Finance**
An examination of healthcare finance topics, including government and private health insurance, reimbursement, fees, service contracts, rate-setting, DRGs, capitated payments, managed care and multiple entities. Includes a review of financial strategies and characteristics of various health organizations. Three credits.

**Credits:** 3  
**Every Spring**

**MPA 787 Independent Study**
Students taking independent study are expected to research an aspect or phase of a problem under the supervision of a faculty adviser. The product of study is an evaluative report containing a thorough
literature review and student assessment of the significance and impact of the substantive issue. With permission of director and dean.

Credits: 3
On Occasion

MPA 788 Graduate Internship
An opportunity for supervised work in a public, health, or nonprofit agency based on a plan approved by the faculty advisor and host agency supervisor. The product is a substantial research paper or management analysis of the host agency and the student's performance in it. Recommended for students lacking substantive experience in relevant organizations.

Credits: 3
Every Fall

MPA 789 Graduate Internship
An opportunity for supervised work in a public, health, or nonprofit agency based on a plan approved by the faculty advisor and host agency supervisor. The product is a substantial research paper or management analysis of the host agency and the student's performance in it. Recommended for students lacking substantive experience in relevant organizations.

Credits: 3
On Occasion

MPA 790 Graduate Internship
An opportunity for supervised work in a public, health, or nonprofit agency based on a plan approved by the faculty advisor and host agency supervisor. The product is a substantial research paper or management analysis of the host agency and the student's performance in it. Recommended for students lacking substantive experience in relevant organizations.

Credits: 3
Every Summer

MPA 798 Capstone Seminar
An integrative seminar using a team approach. Students develop a framework and design problem and environmental analysis, as well as an action plan for data collection and analysis. The following prerequisites are required for MPA 798-799:

- MPA 501, 502, 503, 504, 505, 507
- MPA 602
- MPA 603 or 613
- MPA 604 or 614 or 624
- MPA 606 or 616 or 626
- Four 700 level PM courses

Credits: 3
Every Fall and Spring

MPA 799 Capstone Project
Students carry out the plan proposed in MPA 798 using a combination of data collection methods and analytic techniques. Teams prepare and present a report of their analysis and results.

All course work must be completed before capstone. The following prerequisites are required for MPA 798-799:

- MPA 501, 502, 503, 504, 505, 507
- MPA 602
- MPA 603 or 613
- MPA 604 or 614 or 624
- MPA 606 or 616 or 626
- Four 700 level PM courses

Credits: 3
Every Fall and Spring

PM 700 U.S. Social Policy
An analysis of government health and welfare policies affecting an individual's income level and life opportunities, including an analysis of policy formulation, implementation, and impact on social problems.

Credits: 3
Every Fall

PM 706 Comparative Administration
The class is designed to provide an introduction to the field of comparative public administration. The class will examine the varying approaches to bureaucracy, administrative structure, policy formulation and implementation in the light of variations in social, cultural, and political contexts. This will include an overview of basic theories of bureaucracy and how they function and theoretical approaches to comparative analyses of performance based on changing variables. The course will also touch upon understanding variations in efforts for administrative reform. The impact of government structure on diverse constituencies will be examined to better understand the effectiveness of varying approaches to public management and organizational development.

Credits: 3
Alternate Fall

PM 707 Personnel Management
A study of the interaction of the labor movement and management in the public and not-for-profit sectors. Collective bargaining impacts on policy and budget are examined. Strategies and public opinion are considered.

Credits: 3
Every Fall

PM 708 Labor Relations
A study of the interaction of the labor movement and management in the public and not-for-profit sectors. Collective bargaining impacts on policy and budget are examined. Strategies and public opinion are considered.

Credits: 3
Every Fall

PM 709 Administrative Law
A look at public law concepts that affect public and not-for-profit sector managers: legislative delegation of power, administrative investigation, rulemaking, the relationship between citizens and the states, adjudication, judicial review of administrative action.

Credits: 3
Every Fall

PM 710 Issues in Administration
An examination of selected themes, current developments and emerging issues in the study of administration. Topics vary.

Credits: 3
Every Fall

PM 711 Organizational Development
A survey of contemporary training and development problems, with emphasis on the relationship between development and the organization's personnel decisions. Techniques of personnel training are examined.

Pre-requisite of GBA 512 or MBA 613 are required.

Credits: 3
Cross-Listings: HRM 724, MAN 724, PM 711
Every Spring
**PM 712 Work People and Productivity**
An analysis of the problems of the occupational environment in small and large enterprises.
Emphasis is on the practical problem solving that is of immediate concern to the participants. Topics include: new approaches to motivation, attitudes, job satisfaction, job enrichment, monotony, fatigue, working conditions and conflict resolution, quality circles, and productivity.
Pre-requisite of GBA 512 or MBA 613 is required.
Credits: 3
Cross-Listings: HRM 725, MAN 725, PM 712
Every Spring

**PM 714 Policy Analysis and Program Evaluation**
Policy analysis and program evaluation are more steps in a process than separate endeavors. Policies are chosen on the basis of forecasts of needs and expected results, then selected policies are implemented. Implementation then is evaluated to determine actual effects, and these results are used to adjust policy goals and implementation (processes ranging from regulations to programs) to better achieve desired results and ensure accountability. Policy processes are iterative and interactive. This course provides students with basic understanding of needs assessment, policy analysis and program evaluation, as well as practice in applying tools used in each type of analysis, or applicable to all of them. Through use of text material, cases and both quantitative and qualitative assignments, students will hone their knowledge of policy processes and limitations, and develop assessment skills.
Credits: 3
Every Summer

**PM 715 Privatization and the Contracting-Out of Public Services**
Governments, through elected officials, make decisions concerning which services should be provided by the public and the private sectors. This course provides students with both the economic and social basis for making judgments about the potential effectiveness of privatizing services in different policy areas, such as education and health care. The course provides general guidelines as to the nature of the services that are most appropriately provided by the private sector. When the public sector is determined to be the appropriate provider of a service, then government must determine whether to provide these services itself or contract-out for the service. The course also examines the principles and practices in the government contracting-out process: the decision whether to contract-out a government service, the preparation of the Request For Proposals, the evaluation of the submitted proposals for the selection of the contractor, the preparation of the contract document and the monitoring of the selected contractors. Understanding the issues of privatization and the contracting-out of public services enables students to be more effective managers and responsive to citizens.
Credits: 3
Alternate Fall

**PM 716 Public Administration and Citizen Participation**
This course will explore public participation in association with public administration processes in a time of concurrent criticism, pressure, and apathy directed towards existing institutions. The engagement of citizens in public administration will be examined as a potential challenge and as a potential support for public management. Different forms and degrees of participation will be looked at in case studies included in our texts. Students will be encouraged to relate course topics to everyday life and work experience.
Credits: 3
Every Spring

**PM 717 Advanced Cost/Managerial Accounting**
Selected cases and problems provide the forum for the discussion of current cost concepts and their applications and limitations. The aim is to develop students' ability to analyze business problems and to make decisions concerning the appropriateness of cost-accounting methods in specific situations.
(45 CPE credits)
The pre-requisite of ACC 501 or equivalent is required.
Credits: 3
Cross-Listings: ECO 636, PM 720
Alternate Years

**PM 718 Public Finance and Fiscal Policy**
This course applies basic microeconomics to study the theory and practice of governmental taxation, expenditure and debt within the framework of a modern market economy.
Credits: 3
Cross-Listings: ECO 634, PM 721
Every Spring

**PM 719 Financial Statement Analysis**
An examination of the principles of internal auditing as they apply to large corporate enterprise.
(45 CPE credits)
The pre-requisite of ACC 501 or equivalent is required.
Credits: 3
Cross-Listings: ACC 742, FIN 742, PM 727
Every Spring

**PM 720 Managing Human Behavior in Public Organizations**
The course examines the range of issues concerning managing people in the workplace. It reviews current theories and the latest research concerning human relations in organizations. Students gain an understanding of the “people skills” necessary to be successful in the world of work. The course explains the major theories of workplace human relations and behavior and the application of psychology to management in the public sector. The permanent focus is on understanding the self and others; role of perception and personality; leadership versus management; effective group/team collaborations; the need for flexibility and adaptation to change. Additionally, the courses will highlight interviewing strategies, self-marketing, oral presentations, and finding ways to enhance personal strengths and minimize weaknesses.
Credits: 3
Every Fall and Spring

**PM 721 Work People and Productivity**
An analysis of the problems of the occupational environment in small and large enterprises.
Emphasis is on the practical problem solving that is of immediate concern to the participants. Topics include: new approaches to motivation, attitudes, job satisfaction, job enrichment, monotony, fatigue, working conditions and conflict resolution, quality circles, and productivity.
Pre-requisite of GBA 512 or MBA 613 is required.
Credits: 3
Cross-Listings: HRM 725, MAN 725, PM 712
Every Spring

**PM 724 Budgeting and Controllership**
An examination of the practice of controllership in general and of dealing with budgets and business costs in particular. The installation and operation of budget systems for managerial control is considered as is the advance planning of operating goals with subsequent study of actual results.
(45 CPE credits)
The pre-requisite of ACC 501 or equivalent is required.
Credits: 3
Every Fall and Spring
PM 731 Managed Health-Care Systems
An examination of the various forms of managed health-care plans and organizations that addresses the financing, organization and delivery aspects of each form from a management perspective. The purpose is to provide students with a knowledge base from which to develop and implement effective management processes for managed care services. Among the topics covered are the legal and regulatory environment, public opinion, product development and marketing, pricing and delivery strategies, reimbursement methods, utilization review, quality assurance and control, management information systems, Medicare and Medicaid, and trends.
Credits: 3
Alternate Fall

PM 732 Public Health and Regulation
An analysis of the role of government in the health field, including concepts and practices in health policy and regulation, especially the implementation of regulatory policy as it affects health providers.
Credits: 3
Alternate Spring

PM 733 Economics of Health
An examination of health-care delivery as an economic activity. Focus is on determination of demand for health care and supply of services available. Consideration of various methods for achieving equilibrium in health care and government's role via licensure, regulation, financing, and planning.
Credits: 3
Alternate Spring

PM 736 Quality Performance Management
The course includes a study of external methods of quality review, internal methods of assessing quality (process and outcomes measurement and monitoring criteria), strategies for developing the quality infrastructure and integrating it into a quality management program, the use of management information systems in quality, and the balancing of quality and costs.
Credits: 3
On Occasion

PM 737 Mission-Based Marketing
An examination of planning and marketing in healthcare, human service and non-profit organizations, including market research and forecasting, application of research information and planning principles, translation of goals into action priorities, development of action plans, and evaluation of results.
Credits: 3
On Occasion

PM 738 Gerontology: The Process of Aging
The course examines the multidisciplinary field of gerontology and provides students with an overview of the current "state-of-the-art" and the critical issues and controversies that confront individuals as they grow older. The course examines the theories, processes and consequences of aging from both the individual and societal perspectives. A range of issues are presented, including: physical, social, psychological, health, family, race, ethnicity, gender, sexuality, retirement, economics, social work and social policy. Comparisons among African American, White, Hispanic, Asian, and Native American are offered especially in view of unequal treatment and multiple disparities among minorities.
Credits: 3
Every Fall

PM 739 Long-Term Care Administration
This course examines the special administrative and organizational methods, social systems and population that are attributable to all kinds of residential and long term care facilities, as separate entities from acute care hospitals. It includes an overview of the long term care continuum, including community care, management issues, Medicare and Medicaid, finance, pertinent laws and regulations, and patient/resident requirements and needs. Care and treatment standards will be reviewed and discussed, as well as policy changes and government trends associated with the new paradigm of aging in the 21st Century. The pre-requisite of PM 738 is required.
Credits: 3
Every Spring

PM 741 Fund Raising
An examination of revenue strategies for non-profit organization fundraising, including membership, donations, programs, foundations and government agencies. The focus is on which strategies work for what organizations, how to identify organizational needs and appropriate funding sources, and how to successfully petition funding support.
Credits: 3
Every Fall

PM 742 Grant/Proposal Preparation
An introduction to the process of developing and writing a proposal for project funding and an examination of key management techniques and decision tools needed to coordinate successfully the process of proposal development and implementation within an organization.
Credits: 3
Every Spring

PM 743 Aging Policy in the Community
This course examines the options including social supports, health care, housing and recreation that older community dwelling residents have. Psychology, personality, gender, personal history, gentrification, residential segregation and policy issues including economics are presented. Additionally, data pertaining to the aforementioned items are examined. The pre-requisite of PM 738 is required.

PM 744 Bereavement: Psychological, Cultural and Institutional Perspectives
This course is designed to explore the stages and issues related to dying and griefing. Cultural diversities in the grieving process will be identified. Myths and ideas that inhibit, isolate and interfere with the bereavement experience will be examined. Political, medical, legal and ethical issues will be analyzed. Students' values, attitudes and fears will be explored in order to inform their interventions. Social, cultural and personal issues that govern a person's reaction to death and dying will be highlighted. In addition, students will learn to design organizational structures for interdisciplinary assessments and service delivery in settings serving the dying and bereaved.
Credits: 3
Every Summer

PM 745 Health and Retirement Planning in Elder Care
The course addresses critical issues affecting health and retirement among older adults, and the relationship between gerontology and legal estate planning issues at the core of our discussions. This course examines estate, disability and retirement planning tools used by elder law attorneys with analyses of laws, regulations and programs upon which planning is based. Topics include advanced directive, power of attorney, long-term care and Medicaid, long term care insurance, and planning for asset distribution on death.
Credits: 3
Every Spring

PM 747 Nutrition Policy Across the Lifecycle
The purpose of this course is to examine the relationships among food, nutrition and health for adults in the context of public policy formation and implementation at federal, state and local government levels. Of particular interest in this examination are intended and unintended consequences for individuals of public policies on food availability, prices, consumption and health. The course reviews major areas of food and nutrition policy at various levels of government as well as social and political forces that result in particular policies and in major changes in policy, for example recent revisions in the food pyramid.
Credits: 3
Every Summer

PM 761 Management of International Organizations
A focus on structural and managerial issues within international organizations and an examination of the tools needed to function within such an environment.
Credits: 3
Cross-Listings: PM 761, UN 694
On Occasion
PM 767 International Organization, The United Nations and its Affiliated Agencies
A study of the theories, origins, functions and operations of international organizations. The principal organs of the United Nations, with emphasis on the General Assembly and the Security Council, are examined. (Same as PM 767.)
Credits: 3
Cross-Listings: PM 767, POL 642
On Occasion

PM 768 Contemporary Nationalism
An analysis of the phenomenon of nationalism: its historical roots in Europe; the emergence of new states in the Third World and the post-Cold War period; and the struggle of states to achieve national identities and cultural, economic and political independence. Nonviolent as well as revolutionary-nationalist patterns are discussed as are the difficulties of achieving viable state-directed national societies in the global order.
Credits: 3
Cross-Listings: PM 768, POL 668
On Occasion

PM 769 World Social Development
A consideration of the world social situation, including such subjects as health, food and nutrition, housing and urban planning, education, employment, and social development in developing areas.
Credits: 3
Cross-Listings: PM 769, SOC 553, SSC 553
Every Spring

PM 770 International Economics
This course provides a unified introduction to international trade and finance. It first focuses on the concept of comparative advantages to examines the causes and consequences of trade among nations, and then provides an introduction to open-economy macroeconomics, focusing on capital flows across international financial markets and the effects of exchange rate and monetary policy on those flows.
Credits: 3
Cross-Listings: ECO 624, PM 770
On Occasion

PM 773 Comparative Economic Systems
This course provides a comparative analysis of a variety of capitalist and non-capitalist systems, emphasizing the US economy and the mixed economies of Western Europe and Japan, the transition of former Communist countries of Eastern Europe to market economies, and the fast growing economy of Communist China. The comparison among economic systems relies on the observation that different ways of organizing economic activity amount to different information transmission protocols and incentives structures, which explains different economic performance.
Credits: 3
Cross-Listings: ECO 669, PM 773
On Occasion

PM 780 Computer Technology Application to Metropolitan Affairs
The use of computer technology in metropolitan matters. An overview of general applications with specific attention to geographic formation systems.
Credits: 3
Cross-Listings: PM 780, URB 605
On Occasion

PM 781 Urban Government and Politics
A study of the management and organization of American cities; politics and changing constituencies; and the impact on community participation, city management and mayoralty. (Same as Urban Studies 604 and Public Administration 781).
Credits: 3
Cross-Listings: PM 781, POL 604, URB 604
On Occasion

PM 787 The Role of Ethnicity in the Metropolis
A consideration of the roles played by some of New York City's ethnic, cultural and national groups in the development of urban neighborhoods.
Credits: 3
Cross-Listings: PM 787, URB 608
On Occasion

PM 788 Urban Economics
An analysis of economic problems arising in the modern urban areas of the United States. Discussion centers around the causes of such problems and possible alternative solutions. Relationships among city and state governments and the federal government receive due consideration.
Credits: 3
Cross-Listings: ECO 651, PM 788, SOC 651, URB 651
On Occasion

PM 793 Criminology
A systematic analysis of crime in modern society, including discussion of the major types of crime, the theories that help explain such crimes, and the procedures for dealing with offenders.
Credits: 3
Cross-Listings: PM 793, SOC 600
On Occasion
LIU Brooklyn's School of Education prepares teachers, counselors, administrators and school psychologists for the challenges and the rewards of working in urban settings. Through rigorous and stimulating programs of study, students have the opportunity to work in urban schools and in a broad range of educational and/or mental health settings to: develop an inquiry stance toward practice; integrate theory and practice; and achieve high standards of practice. Graduates of our programs acquire the experiential knowledge that is essential for interacting with and guiding children and families in urban communities. All specialties, undergraduate and graduate, within the Teacher Education Program are accredited by the Teacher Education Accreditation Council (TEAC).

Our programs are designed to ensure that our graduates keep pace with changes and innovations in their chosen fields. The School’s KEEP Mission, its urban location and its nationally recognized faculty, make it an exciting place to study!

Structures Within the School of Education

The School of Education comprises two departments: Teaching, Learning and Leadership (TLL) and Counseling and School Psychology (CSP) departments. These departments provide educational opportunities leading to rewarding careers serving urban youth and families. TLL offers undergraduate and graduate degree programs in multiple teacher certification areas and educational leadership. CSP offers graduate programs in school counseling, mental health counseling, marriage and family therapy, and school psychology, and applied behavior analysis. Our professors are experts in these fields, with a range of experience that enables them to bring best practices into the classroom. All programs incorporate fieldwork throughout the curriculum and draw upon long-term relationships with schools and organizations in New York City that offer placements that are well suited to students' needs and interests. Please consult the sections below describing in detail each department and its offerings.

For information, please contact the dean’s office at 718-488-1055, fax 718-488-3472, or visit the website at www.liu.edu/brooklyn/soe.

KEEPS: The School of Education’s Mission Statement

The KEEPS mission statement of LIU Brooklyn’s School of Education addresses one of the most important questions in urban education today: How can urban educators be expertly prepared to meet rising standards? One of the many strengths of the School of Education is that many of its future and practicing educators are themselves urban dwellers, immigrants, or members of ethnic-linguistic and racial minorities. Thus, many of its educators bring to the classroom the experiential knowledge of urban and minority communities, essential to educating the children and families in those communities. The KEEPS mission is designed to help all urban educators meet rising academic standards, while also meeting performance standards that are based on the experiences and life of urban schools and their children.

KEEPS MISSION IN BRIEF

KEEPS: The desired qualities of LIU Brooklyn Educators.

To carry on the important mission of the LIU Brooklyn School of Education, we value:

- KNOWLEDGE and intellectual inquisitiveness about children, schools and the world.

- ENQUIRY, or the collective discipline of observation, reflection, and non-judgmental description of children and their school work, as well as descriptive inquiry of teaching and professional practice.

- EMPATHY that rests on the human uniqueness and capacity to develop, as well as responsiveness to the needs and interests of urban learners and communities.

- PLURALISM and attention to differences and to inclusion of all in the learning community of schools and the wider community.

- SOCIAL COMMITMENT and the building of a just and democratic society.

KEEPS MISSION IN DEPTH

KNOWLEDGE and intellectual inquisitiveness about children, schools and the world.

LIU Brooklyn educators are intellectually rooted in the liberal arts, sciences, and pedagogy. We value knowing about the world, its people, languages and cultures, its natural and physical aspects, and its texts. We attach special importance to how to use that knowledge to teach others and work with urban children and adolescents in schools.

The curriculum of the School of Education advances this value by deepening the understanding acquired in liberal arts and sciences general education and major courses and contextualizing that knowledge through the world of schools and that of their clients – children and adolescents, families, as well as teachers and other school professionals. Foundational courses are interdisciplinary, attempting to deepen the multifaceted knowledge needed in the acts of teaching and learning, as well as spurring the dynamic and simultaneous use of interdisciplinary knowledge required in educating children.

LIU Brooklyn educators are interested in reading closely and writing carefully and extensively, and they understand that in doing so, they are constructing and developing their own knowledge about texts and the world, about the students with whom they work and the communities from which they come, and about schools and classrooms. Varied modes of writing and discussing are used throughout the curriculum to generate deep knowledge of academic texts, children and learners, teaching practice, and one another. Technology is used to increase connections and interrelatedness and thus support the construction of knowledge.

We value knowledge constructed over time and thus collect our work and that of the students with whom we work longitudinally. We actively use our collections of work to deepen reflection and generate knowledge. We’re responsible thinkers, capable of reflecting on our own work, forming our own opinions, and using our knowledge to act independently in socially responsible ways.

ENQUIRY or the collective discipline of observation, reflection, and non-judgmental description of children and their school work, as well as descriptive inquiry of teaching and professional practice.

LIU Brooklyn educators value being active inquirers, curious about social and natural phenomena, able to imagine, and to invent. We’re seriously reflective, and take time to study, reflect on words and texts, observe, research, collect work. We observe learners and their work closely and are able to describe them accurately while withholding judgment. We also value descriptive and reflective review of our own teaching practice.

We attach great importance to our ability as a group to inquire collectively into these matters and to include the voices of all members of the learning community, regardless of rank or function. We value acknowledging the range of attitudes, beliefs, experiences, knowledge and lenses of the group involved in the collective inquiry, and we look for the common threads as community is shaped. We use our collective inquiry to shape community and to create knowledge as a base for action, review, and constant regeneration and transformation.

The School of Education’s curriculum includes specific courses that develop the foundational discipline of collective descriptive inquiry as it applies to children, classrooms, and schools, and it provides ample opportunity to practice descriptive inquiry both in college classrooms and in schools. We read the best literature available, supporting the development of educators’ habits of being active inquirers, remaining “wide awake” in the words of Maxine Greene, being attentive to differences, and being able to withhold judgment. This creates an inclusive space with an expanded range of possibilities, enabling our capacity both to act and to transform.

LIU Brooklyn educators are comfortable with inquiry and persevere with questions. We extend what learners bring by asking questions that widen their horizons of knowledge and experiences. We set up and construct learning contexts that stimulate active learning and the learner’s curiosity, inquisitiveness and imagination. The Learning Center for Educators and Families (LCEF) provides experiences working with children and teachers in curriculum-related tasks, imagining, inventing, and investigating. LCEF also provides opportunities to conduct observations of student practice and to carry out research on the learning and development of children, adolescents and adults.

EMPATHY that rests on the human uniqueness and capacity to develop, as well as responsiveness to the needs and interests of urban learners and communities. LIU Brooklyn educators know that no two students are identical, as each person comes with his or her own world of experiences and beliefs, innate talents and learned skills. We believe in the potential of all students and seek to help students build on their strengths and abilities. We are deeply committed to the idea that all learners are capable of reaching their own unique potential. As empathic and caring educators, we are interested in attending to each individual student. To accomplish the goal of helping individual students grow, we seek to understand the unique perspectives and backgrounds of our students and their social context, and work within their frames of reference to help them accomplish what they seek. The curriculum of the School of Education uses collective inquiry, collaborative group work, and interactive dialogue journals to create a caring community of learners. From the very beginning, the curriculum includes field-based practices with individual children and families, building up the close familiarity that is required for empathy.

The curriculum also develops students’ ethnographic skills to study communities and to build transcultural understanding and empathy.

PLURALISM and attention to differences and to inclusion of all in the learning community of schools and in the wider community.

LIU Brooklyn educators value the sociocultural and sociolinguistic pluralism of a global world, and especially of New York City’s children and communities. We strive to acquire the different experiential knowledge bases that diverse communities have, to find commonalities in the human experience, and to shape a transcultural learning context, a third space, that is inclusive of differences. We attach importance to understanding the sociohistorical and sociocultural contexts of diverse groups, most especially of African-American, Caribbean-American, Latino and recent immigrant communities that are prominent in Brooklyn schools, and we use this knowledge in teaching. We also value ethnographic processes of observation and...
LIU Brooklyn

participation that enable us to gain understanding of the complex and dynamic pluralism of communities.

The curriculum of the School of Education advances this value by recognizing ethnic, racial, gender, language, and ability differences, and by framing issues of child development, language and literacy, and teaching and learning within sociocultural and sociohistorical contexts. All courses in the School of Education’s curriculum pay particular attention to the education of learners with disabilities and those who are bilingual, bidialectal, or learning English. While developing knowledge of specific skills and approaches needed to educate different groups of learners, for different purposes, and in different contexts, we also develop strategies for inclusion of all learners.

SOCIAL COMMITMENT and the building of a just and democratic society.

LIU Brooklyn educators are committed to making sure that all students, regardless of race, class, gender, language, sexual orientation or abilities, receive equitable educational services. We value the importance of inclusion in education and the merits of children from diverse educational and ethnic backgrounds learning together. We understand the relationship between our educational and social roles, as we advocate for children and learners and the transformation of classrooms and schools, toward the building of a better and more just world. In addition, we require that students demonstrate academic integrity, professional responsibility and ethical behavior in their scholarship and practice.

The School of Education’s curriculum has strong field-based practices and develops democratic plural communities of learners and educators who are actively engaged in the transformation of urban schools and classrooms. The curriculum prepares educators for social action, empowering them to transform practices, curricula, and schools, so as to build a more just world.

School of Education Resources

Learning Center for Educators & Families (LCEF)

The Learning Center for Educators & Families (LCEF), located at 9 Hanover Place on the 3rd floor, is an extension of LIU Brooklyn’s School of Education, which is on the 4th floor. LCEF provides a supportive environment for prospective and practicing teachers, which allows them to hone their skills. In service of these aims, LCEF provides meeting space for the School of Education faculty and for groups of teachers from the NYC schools to collaborate and work on various projects together. For further information, contact Charlotte Marchant, Director, LCEF, at charlott.marchant@liu.edu, 718-246-6496.

The classrooms at LCEF are used exclusively by education faculty members, so they can create positive learning environments, which can be replicated in the classrooms of the teachers and the future classrooms of the pre-service teachers. The faculty work to make it a place where theory and what it means to become a teacher converge with practice in a supportive risk-free environment. The students engage in inquiry-based study in the reading, science, math and social studies methods classes that meet at LCEF.

LCEF has a state of the art computer lab as well as Smart Boards thus enabling faculty and students to use technology in meaningful ways in their own studies as well as developing relevant curriculum for their own classrooms.

The Family University (FUN) After School Program for the children of LIU Brooklyn students is housed at LCEF and provides a setting for teacher education students to see creative arts and community-building activities in action. It is used as a fieldwork site for students in education, social work, music and art programs. The children’s presence in the building alongside the teacher education students serves as a reminder that theory and practice can and must be integrated to maximize learning. For further information, contact Guinevere Ellsworth, Director, FUN After School Program, at guinevere.ellsworth@liu.edu, 718-246-6488.

Academic Support

The School of Education offers academic support to students through workshops to help students prepare for teacher certification exams and writing tutoring. For more information, contact Martha Rosas, Director, Academic Support Services, at martha.rosas@liu.edu, 718-488-3452.

Teacher Resource Center

The Teacher Resource Center (located at LCEF), part of LIU Brooklyn’s School of Education. The Teacher Resource Center was created to provide the resources and workshops to help new teachers feel more successful in their classrooms. Materials are available to instructors as well.

The Center, open Monday through Thursday, from 3 p.m. to 7 p.m. (Fall/Spring/Summer semesters), welcomes students and instructors to come in and browse, get work done, use the computers, have a cup of tea or coffee, and meet with other teachers. For more information, contact Shoshana Wolfe, Director, Teacher Resource Center, at shoshana@wolfe@liu.edu, 718-780-8549.

Center for Urban Educators (CUE)

CUE’s mission is the development of culturally relevant and effective practices for the work of teaching, learning, and mental health and well-being in schools and communities in the urban context. The vision of teaching and practice guiding the Center’s work is one that supports teachers and mental health practitioners as socially responsible people who are intellectually engaged and act as advocates of children, families, and communities.

CUE’s core values are beliefs in human capacity and worth in the importance of educating, and practicing for health and democracy. The Center puts diverse perspectives alongside each other with the aim of getting beyond convention and creating new possibilities for teaching and serving children, families and communities. In order to create these opportunities, CUE supports the use of observation, description, and story as ways of generating understanding out of lived experiences. CUE incorporates descriptive inquiry to enact its values.

In its efforts to further its mission, CUE has developed a multi-faceted community of future teachers, university professors, and teachers and administrators in public schools. CUE works with New York City public schools, forms collaborations with educators both within and beyond LIU Brooklyn and supports publications and the annual CUE conference.
COUNSELING PROGRAMS

ADMISSIONS REQUIREMENTS

**Deadlines & Important Dates**

Applications are considered through a modified rolling admissions process. To be considered for full matriculation in the fall semester, applications must be submitted by June 1st of the previous spring. To be considered for full matriculation in the spring semester, applications must be submitted by November 1st of the previous fall. These deadlines permit the review process to occur in its entirety, which includes both a thorough examination of the application materials and an applicant interview.

Applications that are received after these dates (i.e., June 1 for fall admission; Nov. 1 for spring admission) are considered for limited matriculation on a provisional basis. Late applicants with an undergraduate and/or previous graduate grade point average of 3.0 or above may be accepted on a limited matriculation basis and permitted to take up to 12 credits (a full load of courses) during their first semester. During that semester, these students are interviewed and their applications more thoroughly assessed to determine if they will be accepted for full matriculation. Late applicants with an undergraduate or previous graduate grade point average below 3.0 will be eligible for limited matriculation and permission to register for up to 6 credits during their first semester. During that semester, these students are interviewed and their applications more thoroughly assessed to determine if they will be accepted into the program, either for limited for full matriculation. When a student’s status is changed, the department notifies the Admissions office.

**Application Materials**

All candidates must submit the following:

- A completed LIU Brooklyn graduate admissions application, including a personal statement
- Official transcripts of all undergraduate and graduate study. To be considered for admission to an advanced certificate program, students must have a master's degree in counseling or a related field from a nationally accredited college or university.
- A current resume (curriculum vitae)
- Two letters of recommendation from persons familiar with the applicant’s work or academic performance (i.e., employer, supervisor, former professor).

**GPAs**

- A minimum grade point average of 3.0 from undergraduate or previous graduate study is required for full matriculation. Applicants with a 2.50 – 3.0 GPA are considered for limited matriculation. If admitted with limited matriculation status, students may take a maximum of 6 credits each semester for two semesters and must attain an overall grade point average of 3.0 to continue in the program and become fully matriculated. After 12 credits on limited matriculation status, students with a 3.0 grade point average may not be permitted to continue in the program.

**Writing**

- A personal statement of 500 words or less is analyzed in terms of both content and prose. The successful applicant demonstrates an understanding of what has led them to pursue graduate study in counseling. Educational and career goals are expected to be consistent with our program mission and curriculum. Organization, cogency, and grammar are taken into consideration, with a well organized, well-reasoned, grammatically accurate written presentation required for admission.

**Resume/Vita:**

- Applicants’ experiences (including volunteer work and training in addition to employment experience) should demonstrate in breadth and/or depth a developed commitment to serving others in a helping capacity.

**Programs**

- Applied Behavior Analysis (Advanced Certificate)
- Applied Behavior Analysis (optional specializations in early childhood and bilingual)
- Marriage and Family Therapy (M.S., Advanced Certificate)
- School Counseling (M.S.Ed., Advanced Certificate)
- School Psychology (M.S.Ed., optional specializations in early childhood and bilingual)
- Applied Behavior Analysis (Advanced Certificate)

**Interview**

After a thorough examination of application materials, program faculty interview selected applicants, often in small groups. Interviews take place throughout most months of the fall and spring semesters and in early summer. Morning, afternoon, evening and weekend interviews are arranged. Interviews are one hour in length.

Interviews typically consist of two parts, each approximately 30 minutes in length:

- Applicants respond to questions pertaining to their individual, relational, educational, and vocational experiences that have contributed to their desire to pursue graduate study in counseling and questions pertaining to their educational and career goals.
- Applicants are provided with clinical vignettes and asked questions pertaining to their thinking about them.

Time is also allotted for applicants to ask questions of the faculty about the program and the University.

Applicants are evaluated on verbal and non-verbal communication skills, interpersonal interaction, and appropriateness of responses.

**The Review and Notification Process**

Graduate applications are submitted to the LIU Brooklyn Admissions Office and forwarded to the department once they are complete. The application form, personal statement, all transcripts, letters of recommendation, and resume must be received by Admissions before the applicant review process begins.

On a monthly basis, the program faculty reviews completed applications that have been forwarded from admissions to the department. The department then contacts applicants whom they have selected to be interviewed and interviews are scheduled. The remaining applicants are notified that they are not accepted. Applicants who are not accepted may request recommendations for strengthening their application for future submission. Applicants who seek to be reconsidered for acceptance in a future semester may submit an updated application at that time, with indication in the personal statement of how the applicant responded to the direction provided by the faculty when not previously accepted to the program.

Within approximately one month after being interviewed, applicants are informed of their acceptance status.

**Submitting an Application for Admission**

All applicants must apply for admission to LIU Brooklyn. Please apply online at My LIU or use the Apply Now link in the top navigation bar of the campus’ website. For more information on the admissions process, visit the Office of Admissions website or call 718-488-1011.

**PROGRAM REQUIREMENTS**

Continued enrollment in this program is contingent upon:

- Maintenance of a 3.0 Grade Point Average
- Prompt resolution of any INC or UW Grades
• Satisfactory student disposition in the areas of attendance, preparedness, attitude toward learning, response to feedback, reflectiveness, classroom engagement and participation, expressive coherence, and professionalism.

Each of these requirements is addressed in greater depth in the Counseling Student Handbook provided to all students upon enrollment in the program. These requirements are also addressed in a student orientation that occurs at the start of each fall and spring semester.

### SCHOOL COUNSELING AND BILINGUAL SCHOOL COUNSELING

#### JOB OPPORTUNITIES AND CAREER TRENDS

State-certified school counselors and bilingual school counselors are uniquely qualified to address students’ academic, personal/social and career development needs by designing, implementing, evaluating and enhancing a comprehensive school counseling program that promotes and enhances student success. School counselors are essential members of the education community. School counselors help students achieve academically, develop both personally and socially, and consider future educational and career avenues. If you are interested in a challenging career within the educational system outside of the classroom, and you want to make a real difference in the lives of young people, you will find a career in school counseling to be enjoyable and gratifying.

Professional school counselors are employed in all levels of K-12 school systems. According to the Occupational Outlook Handbook, 2014-2015 Edition, employment for school counselors is expected to grow by 12 percent between 2012 and 2022.

#### M.S.Ed. in School Counseling

The 48-credit M.S.Ed. program in school counseling provides students with core knowledge in professional issues and ethics, counseling theories, human development, counseling skills, group work, assessment, and career development. Building upon these core content areas, the school counseling program focuses specifically on the development of knowledge and skills necessary to work in today’s schools: contemporary practice of school counseling, school-based research, program development and evaluation, advocacy, leadership, collaboration and consultation. Our 48-credit M.S.Ed. program in school counseling is registered with the New York State Education Department as satisfying the educational requirements for provisional certification as a school counselor.

#### M.S.Ed. in Bilingual School Counseling

The 51-credit M.S.Ed. in Bilingual School Counseling provides students with core knowledge in professional issues and ethics, counseling theories, human development, counseling skills, group work, assessment, and career development. Building upon these core content areas, the bilingual school counseling program focuses specifically on the development of knowledge and skills necessary to work in today’s schools: contemporary practice of school counseling, school-based research, program development and evaluation, advocacy, leadership, collaboration, consultation, and counseling ethno-linguistically diverse students and families. Our 51-credit M.S.Ed. in Bilingual School Counseling is...
registered with the New York State Education Department as satisfying the educational requirements for provisional certification as a school counselor and the bilingual extension for practice as a bilingual school counselor.

The New York City Department of Education has created a Graduate Scholarship Program to address the staffing needs in critical shortage areas and to improve the delivery of service to New York City Public School students. This scholarship program prepares participants to serve in the areas of Bilingual Special Education, Monolingual and Bilingual Speech Language Pathology/Audiology, Monolingual and Bilingual Visually Impaired, Bilingual Guidance Counselor, Bilingual School Psychology, and Bilingual Social Worker. The scholarship program offers uncertified candidates a traditional path to certification by way of a master’s degree in a traditional teaching or clinical shortage area. The primary objective of the scholarship program is to provide full tuition payments to eligible students enabling them to obtain New York State certification and to seek a rewarding career in education. Successful program candidates are required to provide service in a high-need New York City Public Schools upon completion of the program. Two (2) years of service is required for every year the scholarship is awarded. Additional information on the Graduate Scholarship Program is available at www.teachnycprograms.net.

Advanced Certificate in Bilingual School Counseling

The 18-27-credit Advanced Certificate Program in Bilingual School Counseling is for students who already have a master’s degree in counseling and wish to meet the educational requirements to become certified as a school counselor with the bilingual extension. To enter this program, students’ graduate transcript in counseling must reflect coursework in professional issues and ethics, social and cultural diversity, human growth and development, career development, helping relationships, group work, and assessment. Building upon these core content areas, the bilingual school counseling advanced certificate program focuses specifically on the development of knowledge and skills necessary to work in today’s schools: contemporary practice of school counseling with ethno-linguistically diverse students and families, school-based research, program development and evaluation, advocacy, leadership, collaboration and consultation. Along with a master’s degree in counseling, our 18-27-credit Advanced Certificate Program in Bilingual School Counseling is registered with the New York State Education Department as satisfying the educational requirements for provisional certification as a school counselor and the bilingual extension for practice as a bilingual school counselor. Permanent certification requires a total of 60 credits and two years experience as a school counselor.

MENTAL HEALTH COUNSELING

JOB OPPORTUNITIES AND CAREER TRENDS

Mental Health Counseling is a distinct profession with national standards for education, training and clinical practice. The New York Mental Health Counselors Association is the state organization that represents the interests of the clinical counselors of New York State. Mental health counselors work with individuals, families, and groups to address and treat mental and emotional disorders and to promote mental health. They are trained in a variety of therapeutic techniques used to address issues such as depression, anxiety, addiction and substance abuse, suicidal impulses, stress, trauma, low self-esteem, and grief. They also help with job and career concerns, educational decisions, mental and emotional health issues, and relationship problems. In addition, they may be involved in community outreach, advocacy, and mediation activities. Some specialize in delivering mental health services for the elderly. Mental health counselors often work closely with other mental health specialists, such as psychiatrists, psychologists, clinical social workers, psychiatric nurses, and school counselors.

Mental health counselors work in community health and social service organizations, day treatment programs, outpatient mental health clinics, hospitals, or private practice. Mental health counselors are highly skilled professionals who provide a full range of services including: assessment and diagnosis, psychotherapy, treatment planning and utilization review, brief and solution-focused therapy, alcoholism and
substance abuse treatment, psycho-educational and prevention programs, and crisis management. If you are interested in a challenging career working with individuals, groups, couples, families, the young and the elderly, and you want to help people lead more fulfilling lives, you will find a career in mental health counseling to be enjoyable and gratifying.

According to the Occupational Outlook Handbook, 2014-15 Edition, employment for mental health counselors is expected to grow by 29 percent between 2012 and 2022, which is much faster than the average for all occupations.

**M.S. in Mental Health Counseling**

The 60-credit M.S. in Mental Health Counseling provides students with core knowledge in professional issues and ethics, counseling theories, human development, counseling skills, group work, assessment, and career development. Building upon these core content areas, the mental health counseling program focuses specifically on the development of knowledge and skills necessary to work in a variety of clinical settings: foundations of mental health counseling, research, evidence-based practice, program evaluation, psychopathology, and psychopharmacology. Our 60-credit M.S. in Mental Health Counseling satisfies the educational requirements for the New York State mental health counselor license (LMHC). Upon completion of these educational requirements, 3,000 hours of supervised experience in the practice of mental health counseling and a passing grade on the National Clinical Mental Health Counseling Examination (NCMHCE) are required for licensure.

The 24-credit Advanced Certificate Program in Mental Health Counseling is for students who already have a master’s degree in counseling and wish to meet the educational requirements to become licensed as a mental health counselor. To enter this program, students’ graduate transcript in counseling must reflect coursework in professional issues and ethics, counseling theories, human development, counseling skills, group work, assessment, and career development. Building upon these core content areas, the mental health counseling advanced certificate program focuses specifically on the development of knowledge and skills necessary to work in a variety of clinical settings: foundations of mental health counseling, research, evidence-based practice, program evaluation, psychopathology, and psychopharmacology. Along with a master’s degree in counseling, our 24-credit Advanced Certificate Program in Mental Health Counseling satisfies the educational requirements for the New York State mental health counselor license (LMHC). Upon completion of these educational requirements, 3,000 hours of supervised experience in the practice of mental health counseling and a passing grade on the National Clinical Mental Health Counseling Examination (NCMHCE) are required for licensure.
MARRIAGE AND FAMILY THERAPY

JOB OPPORTUNITIES AND CAREER TRENDS

Our graduates practice marriage and family therapy in accordance with the scope of practice delineated by the Office of the Professions of the New York State Education Department:

- Marriage and family therapists provide individual, couple, family, relational and group therapy. They assess, treat and implement change in the overall, long-term well-being of individuals, couples, families and those in other relationships. The traditional emphasis on the individual is expanded to include consideration of the nature and roles of individuals in relation to others, particularly in the family system.
- Marriage and family therapy focuses not only on the individual patient—even if it is a single person seeking therapy—but on the context and relationships in which the person participates. All relationship contexts are considered, including the married or committed couple, family, school, work, social, community and other relational systems.
- Marriage and family therapists treat a wide range of clinical problems including: depression, marital problems, anxiety, nervous and mental disorders, as well as relationship, couple, family and child-parent problems.
- Marriage and family therapy is often brief and solution-focused and is designed to achieve specific therapeutic goals of individuals and families.

According to the Occupational Outlook Handbook, 2014-15 Edition, employment for marriage and family therapists is expected to grow by 29% between 2012 and 2022, which is much faster than the average for all occupations.

M.S. in Marriage and Family Therapy

Our 60-credit M.S. in Marriage and Family Therapy provides students with the core knowledge necessary to work with individuals, couples and families in a variety of settings. The program requires extensive clinical training and satisfies the educational requirements for the New York State Marriage and Family License. To receive licensure, students must complete the educational requirements, 1,500 hours of supervised experience in the practice of marriage and family therapy and a passing grade on the Examination in Marital and Family Therapy developed by the Association of Marital and Family Therapy Regulatory Boards.

SCHOOL PSYCHOLOGY

ABOUT THE FIELD OF SCHOOL PSYCHOLOGY

School psychologists work with students individually and in groups. They also develop programs to train teachers and parents about effective teaching and learning strategies, techniques to manage behavior at home and in the classroom, working with students with disabilities or with special talents, addressing abuse of drugs and other substances, and preventing and managing crises. In addition, most school psychologists provide the following services:

- Consultation
- Collaborate with teachers, parents, and administrators to find effective solutions to learning and behavior problems.
• Help others understand child development and how it affects learning and behavior.
• Strengthen working relationships between teachers, parents, and service providers in the community.

Evaluation
• Evaluate eligibility for special services.
• Assess academic skills and aptitude for learning.
• Determine social-emotional development and mental health status.
• Evaluate learning environments.

Intervention
• Provide psychological counseling to help resolve interpersonal or family problems that interfere with school performance.
• Work directly with children and their families to help resolve problems in adjustment and learning.
• Provide training in social skills and anger management.
• Help families and schools manage crises such as death, illness, or community trauma.

Prevention
• Design programs for children at risk of failing at school.
• Promote tolerance, understanding, and appreciation of diversity within the school community.
• Develop programs to make schools safer and more effective learning environments.
• Collaborate with school staff and community agencies to provide services directed at improving psychological and physical health.
• Develop partnerships with parents and teachers to promote healthy school environments.

Research and Planning
• Evaluate the effectiveness of academic and behavior management programs.
• Identify and implement programs and strategies to improve schools.
• Use evidence-based research to develop and/or recommend effective interventions.

For more information on the field of school psychology, visit the National Association of School Psychologist's website at www.nasponline.org.

ADMISSIONS REQUIREMENTS
• B.A. or B.S. degree from an accredited college, with a 2.75 GPA.
• Individuals with or without a background in psychology or education are encouraged to apply.
• A written statement of professional goals, including rationale for why the candidate has chosen the field of school psychology.
• Two professional letters of reference from academic instructors or professional supervisors.

Based on the information that the candidate provides, as well as space limitations, a select number of students will be interviewed.

SUBMITTING AN APPLICATION FOR ADMISSION
All applicants must apply for admission to LIU Brooklyn. Please apply online at My LIU or use the Apply Now link in the top navigation bar of the campus' website. For more information on the admissions process, visit the Office of Admissions website.

PROGRAM REQUIREMENTS
Continued enrollment in this program is contingent upon:
• Maintenance of a 3.0 Grade Point Average
• Prompt resolution of any INC or UW Grades
• Satisfactory professional dispositional reviews in the areas of attendance, preparedness, attitude toward learning, response to feedback, reflectiveness, classroom engagement and participation, expressive coherence, and professionalism.

Each of these requirements is addressed in greater depth in the School Psychology Student Handbook provided to all students upon enrollment in the program. These requirements are also addressed in a Student Orientation that occurs at the start of each fall and spring semester.

M.S.Ed. in School Psychology
The 60-credit M.S.Ed. Program in School Psychology provides students with core knowledge and skills necessary to work in today’s schools. Specifically our program has outlined ten competencies based on what was delineated by the National Association of School Psychologists (NASP). Those include: data-based decision-making; consultation and collaboration; effective instruction; socialization and the development of life-skills; student diversity in development and learning; school and systems organization; policy development and the development of appropriate school climate; prevention, crisis intervention and mental health interventions; home-school collaboration; research and program evaluation; and information technology. Our 60-credit M.S.Ed Program in School Psychology is registered with the New York State Education Department as satisfying the educational requirements for provisional certification as a school psychologist.

In addition to the requirements for the general School Psychology degree, students may elect to take one or both of two specializations, each of which entails another 6 credits of course work:
1. Early Childhood Specialization prepares school psychologists to work with infants, toddlers and preschoolers and their families. This sequence consists of two three-credit courses: one that covers the administration and interpretation of infant assessment instruments, and one that explores current theory and research in infant development. This specialization does not lead to a separate New York State certification, but is designed to help our graduate students acquire the knowledge base and practical skills for working with a particularly sensitive population.
2. Bilingual Specialization prepares school psychologists to work with linguistically diverse children and their families. It includes two three-credit courses: a course in bilingual education and a course in bilingual assessment. Students who wish to be certified as bilingual school psychologists must also receive passing scores on the Bilingual Education Assessment Test (BEA) of the New York State Teacher Certification Exams (NYSTCE), or the previously administered Target Language Proficiency Assessment (TLP). Information regarding the BEA exam can be found at: www.nytcn.nesinc.com/NY_viewSG_opener.asp. (It is recommended that students take the exam after they have taken and completed TAL 823.)

M.S.Ed., School Psychologist
[Program Code 06905]
The following courses are required:

Developmental Sequence - 6 credits
- CSP 633 Developmental Psychology 3.00

Diagnostic Sequence - 9 credits
- CSP 650 Developmental Psychopathology 3.00
- CSP 651 School Neuropsychology 3.00
- CSP 702 Diagnosis of Learning Problems 3.00

Assessment Sequence - 15 credits
- CSP 704 Research and Measurement in Education 3.00
- CSP 721A Cognitive Assessment I 3.00
- CSP 721B Cognitive Assessment II 3.00
- CSP 722A Personality Assessment I 3.00
- CSP 722B Personality Assessment II 3.00

Intervention Sequence - 15 credits
- CSP 655 Applied Behavior Analysis I 3.00
- CSP 703 Parent Consultation and Intervention 3.00
- CSP 714 Educational Consultation in Multicultural School Settings 3.00
- CSP 720 Community School Psychology 3.00
- CSP 799 Individual and Group Counseling Practices in School Settings 3.00
Fieldwork and Professional Issues Sequence - 15 credits

CSP 680A Issues in School Psychology 3.00
CSP 680B Fieldwork in School Psychology I 3.00
CSP 680C Fieldwork in School Psychology II 3.00
CSP 781A, 781B, or 781C Internship in School Psychology I - General, Bilingual or Early Childhood 3.00
CSP 782A, 782B, or 782C Internship in School Psychology II - General, Bilingual or Early Childhood 3.00

Students who wish to specialize in bilingual school psychology should take the bilingual internship courses (CSP 781B and CSP 782B) and are also required to take TAL 823 and CSP 724. Total credits = 66.

Students who wish to specialize in early childhood school psychology should take the early childhood internship courses (CSP 781C and CSP 782C) and are also required to take CSP 723 and CSP 733. Total credits = 66.

Credit and GPA Requirements
Minimum Total Credits: 60 Credits
Minimum GPA: 3.0

Advanced Certificate, Applied Behavior Analysis

The 24-credit Advanced Certificate program in Applied Behavior Analysis provides students with the knowledge base and skills stipulated by the Behavior Analyst Certification Board (BACB©) as constituting basic competence for behavior analysts. These competences include the following: Knowledge of professional issues and ethics; basic characteristics of the science of behavior analysis; principles, processes and concepts; behavioral assessment; measurement of behavior; experimental evaluation of interventions; interpretation of data; selection of intervention outcomes and strategies; behavior change procedures; and, systemic work with agencies and institutions.

The purpose of the program is to educate and train behavior analysts who will serve children and adults who present with a wide array of emotional, behavioral, and neurological issues (e.g., intellectual disabilities, autism spectrum disorders), particularly in complex, urban settings. This program is a natural extension for individuals who are currently on one of the following two career paths: Certified school-based professionals (e.g., classroom teachers, administrators, or pupil personnel providers), or individuals who are in a program that leads to school-based certification, who attend this applied behavior analysis program, develop a more refined skill set to deal with children who evidence emotional, behavioral and neurological issues within the school setting. Licensed mental health and health care professionals (e.g., mental health counselors, physician assistants, psychologists, clinical social workers, nurses or marriage and family therapists), or individuals who are license-eligible such that they have satisfied the educational requirements for licensure in these fields and are completing experience and/or examination requirements, who attend this applied behavior analysis program work skillfully with both children and adults with emotional, behavioral and neurological issues in a variety of mental health and health care settings.

CSP 652 Human Development Across the Lifespan
An overview of theories of individual and family development, transitions across the lifespan, and theories of learning and personality development. Exploration of internal and external influences upon normal and abnormal development, disability, and exceptional behavior. Investigation of strategies for facilitating optimum development and wellness over the lifespan.
Credits: 3  Every Fall and Spring

CSP 654 Counseling Skills & Processes
Counselor characteristics and behaviors that influence helping processes are addressed. Focus is on interviewing methods, counseling skills, goal setting, treatment planning, assessment, diagnosis, documentation and report writing. Both direct service and consultation skills are discussed. The importance of self-awareness and analysis toward counselor effectiveness is highlighted.
Credits: 3  Every Fall and Spring

CSP 655 Applied Behavior Analysis I Principles and Procedures
This course will provide an in-depth analysis of the principles upon which applied behavior analysis is based, as well as an introduction to procedures that can be used to improve social and academic behaviors in all children. Students will review single subject design as well as other issues necessary to document interventions. Emphasis is placed on the application of the principles to environmental, functional and ecological analyses of behavior in a responsible ethical manner.
TARGETED FIELDWORK REQUIREMENT:  Students are expected to observe in schools and develop behavior intervention plans to improve specific social or academic behaviors in a classroom. A certified school psychologist will supervise students. 30 hours.
Credits: 3  Annually

CSP 657A Family Counseling in the Urban Setting
Marriage and family counseling theories and techniques and their application within a diverse society are presented. Students will explore the major theories of marriage and family counseling and psychotherapy, including psychodynamic, Bowenian, experiential, structural, systemic, and strategic theories, amongst others. The pre-requisites of CSP 615, 649, 652 and 654 are required.
Credits: 3  Annually

CSP 657B Marriage and Family Counseling: Clinical Knowledge and Skill
Focus is on healthy and unhealthy family functioning, including the recognition of specific problems and appropriate interventions. Attention to the impact of human sexuality on families and couples. Consideration of preventative methods to encourage family wellness. Study of societal trends and treatment issues related to working with multicultural and diverse family systems. Concentration on principles and methods of case conceptualization and assessment with couples and families. The pre-requisites of CSP 615, 649, 652, 654 and 657A are required.
Credits: 3  Annually

CSP 659 Counseling and A Pluralistic Society
An exploration of the context of relationships, and issues and trends in a culturally and linguistically diverse society. Focus on theories of identity development in multiple domains, and multicultural counseling theories and competencies. Investigation into the nature of biases, prejudices, oppression, and discrimination and their effects.
The pre-requisites of CSP 615, 649, 652 and 654 are required as well as CSP 657A, or CSP 705, or CSP 706.
Credits: 3  Annually

CSP 660A Group Work
An introduction to principles of group dynamics, approaches to group leadership and authority, theories and methods of group counseling. Issues of culture, diversity, and identity in groups will be addressed. Instructional videos and/or media representations of group dynamics will be included. Includes an experiential group experience of at least 10 hours and the study of different types and settings of group work, including psychoeducational groups and therapeutic groups with various clinical populations. The pre-requisites of CSP 615, 649, 652 and 654 are required as well as CSP 657A, or CSP 705, or CSP 706.
Credits: 3  Annually

CSP 660B Advanced Group Work
A continuation of the study of group dynamics in an advanced context. The impact of social system phenomena such as race/ethnicity, gender, and culture on groups will be assessed. Systemic and organizational dynamics related to the counselor's role will be explored. Instructional videos and/or media representations of group dynamics will be included. An intensive experiential group experience of at least 10 hours will be required. The pre-requisites of CSP 615, 649, 652, 654 and 660A are required as well as CSP 657A, or CSP 705, or CSP 706.
Credits: 3  Annually

CSP 661A School Counseling Practicum
Students work 75 hours in a K-12 school under the supervision of a certified and experienced school counselor, being exposed to and performing varied responsibilities of the school counseling program.
A minimum of 40 hours of direct service is required. Audio-taping, videotaping, or live supervision.
The pre-requisites of CSP 615, 649, 652, 654, 705 and ALCX 702, 703, 705 are all required.
Credits: 3  Annually

CSP 661B Bilingual School Counseling Practicum
Students work 75 hours in a K-12 school under the supervision of a certified and experienced bilingual school counselor, being exposed to and performing varied responsibilities of the school counseling program. A minimum of 40 hours of direct service to children with limited English language proficiency is required. Audio-taping, videotaping, or live supervision.
The pre-requisites of CSP 615, 649, 652, 654, 705 and ALCX 702, 703, 705 are all required.
Credits: 3  Annually

CSP 661F Marriage and Family Counseling Practicum
Students work 75 hours in a setting that provides marriage and family counseling under the supervision of a licensed professional, observing and performing various direct and indirect services including but not limited to intake interviewing, marriage and family counseling; record keeping; attending treatment team meetings and professional development events; and engaging in testing and assessment. Students complete a minimum of 40 hours in direct service to clients. Audio-taping, videotaping, or live supervision is required.
The pre-requisites of CSP 615, 649, 652, 654, 657A and ALCX 702 are all required. CSP 712 is pre or co-requisite
Credits: 3  Annually

CSP 661M Mental Health Counseling Practicum
Students work 75 hours in a mental health setting under the supervision of a licensed mental health professional, observing and performing various direct and indirect services including but not limited to intake interviewing; individual, group, and family counseling; record keeping; attending treatment team meetings and professional development events; and engaging in testing and assessment. A minimum of 40 hours in direct service is required. Audio-taping, videotaping, or live supervision.
The pre-requisites of CSP 615, 649, 652, 654, 706 and ALCX 702 are all required. Pre- or Co-requisite of CSP 712 is required.
Credits: 3  Annually

CSP 665A School Counseling Internship I
Students work 300 hours each of two semesters in a K-12 school under the supervision of a certified and experienced school counselor, being exposed to and performing varied responsibilities of the school...
counseling program. A minimum of 120 hours each semester in direct service is required. Audio- 
taping, videotaping, or live supervision.  
The pre-requisite of CSP 661A is required and 
approval from the Department.  
Credits: 6  
Annually  

**CSP 665B Bilingual School Counseling Internship I**  
Students work 300 hours each of two semesters in a 
K-12 school under the supervision of a certified and 
experienced bilingual school counselor, being 
exposed to and performing varied responsibilities of 
the school counseling program. A minimum of 
120 hours each semester in direct service to 
children with limited English language proficiency 
required. Audio-taping, videotaping or live 
supervision.  
The prerequisite of CSP 665A is required and 
approval from the Department.  
Credits: 6  
Annually  

**CSP 666B Bilingual School Counseling Internship II**  
Students work 300 hours each of two semesters in a 
K-12 school under the supervision of a certified and 
experienced bilingual school counselor, being 
exposed to and performing varied responsibilities of 
the school counseling program. A minimum of 
120 hours each semester in direct service to 
children with limited English language proficiency 
required. Audio-taping, videotaping, or live 
supervision.  
The pre-requisite of CSP 665A is required and 
approval from the Department.  
Credits: 6  
Annually  

**CSP 665F Marriage and Family Counseling Internship I**  
Students work 300 hours each of two semesters in a 
setting that provides marriage and family 
counseling under the supervision of a licensed 
professional, observing and performing various 
direct and indirect services including but not 
limited to intake interviewing; marriage and family 
counseling; record keeping; attending treatment 
team meetings and professional development 
events; and engaging in testing and assessment. 
Students complete a minimum of 130 hours each 
semester in direct service to clients. Audio-taping, 
videotaping, or live supervision is required. 
The pre-requisites of CSP 661F and 712 are 
required and departmental approval.  
Credits: 6  
Annually  

**CSP 666F Marriage and Family Counseling Internship II**  
Students work 300 hours each of two semesters in a 
setting that provides marriage and family 
counseling under the supervision of a licensed 
professional, observing and performing various 
direct and indirect services including but not 
limited to intake interviewing; marriage and family 
counseling; record keeping; attending treatment 
team meetings and professional development 
events; and engaging in testing and assessment. 
Students complete a minimum of 130 hours each 
semester in direct service to clients. Audio-taping, 
videotaping, or live supervision is required. 
The pre-requisite of CSP 665F is required and 
Departmental approval.  
Credits: 6  
Annually  

**CSP 666M Mental Health Counseling Internship I**  
Students work 300 hours each of two semesters in a 
clinical setting under the supervision of a licensed 
mental health professional, observing and 
performing various direct and indirect services 
including but not limited to intake interviewing; 
individual, group and family counseling; record 
keeping; attending treatment team meetings and 
professional development events; and engaging in 
testing and assessment.  
A minimum of 120 hours each semester in direct service is required. Audio- 
taping, videotaping, or live supervision.  
The prerequisite of CSP 661M and 712 are 
required and departmental approval.  
Credits: 6  
Annually  

**CSP 666M Mental Health Counseling Internship II**  
Students work 300 hours each of two semesters in a 
clinical setting under the supervision of a licensed 
mental health professional, observing and 
performing various direct and indirect services 
including but not limited to intake interviewing; 
individual, group and family counseling; record 
keeping; attending treatment team meetings and 
professional development events; and engaging in 
testing and assessment.  
A minimum of 120 hours each semester in direct service is required. Audio- 
taping, videotaping, or live supervision.  
The prerequisite of CSP 665M is required.  
Credits: 6  
Annually  

**CSP 668A Assessment and Diagnosis in Counseling Diverse Populations**  
Focus on the nature and meaning of assessment; 
standardized and non-standardized testing methods; 
statistical concepts; reliability and validity; social, 
cultural, and linguistic factors in assessment and 
diagnosis; ethical issues in instrument selection, 
administration, and interpretation of assessments. 
Introduction to the DSM classification system.  
The pre-requisites of CSP 615, 649, 652, 654 are 
required as well as CSP 657A, or CSP 705, or CSP 706.  
Credits: 3  
Annually  

**CSP 679 Substance Abuse and High Risk Behaviors**  
An overview of substance use, abuse and high-risk 
behaviors, and their interrelatedness in the contexts 
of the helping professions of psychology and 
counseling. Substance abuse counseling theories, 
practices, and treatment will be explored.  
The pre-requisites of CSP 615, 649, 652 and 654 
are all required and CSP 657A or CSP 706.  
Credits: 3  
Rotating Basis  

**CSP 682 Career Development and Counseling**  
Study of the meaning of work in people's lives, 
career development theories, decision-making 
models, and programming. Consideration of print 
electronic career information systems. 
Exploration of multiple roles and identities in 
career development. Analysis of educational and 
career counseling processes, techniques, and 
resources.  
The pre-requisites of CSP 615, 649, 652, and 654 
are required as well as CSP 705 or CSP 706.  
Credits: 3  
Annually  

**CSP 700 Family Law**  
An overview of federal and state law with regard to 
much and family relationships. Focus on the 
counselor’s role in working with various types of 
families in confronting important life decisions, 
resolving disputes and planning for the future. 
Attention to issues of consultation with legal 
professionals and the interaction of the counselor 
with the federal and state legal systems.  
The pre-requisites of CSP 615, 649, 652 and 654 
are required as well as CSP 657A or CSP 706.  
Credits: 3  
Annually  

**CSP 702 Diagnosis of the Learning Problems of Students**  
This course will review the diagnostic and learning 
issues of students with learning disabilities, such as 
dyslexia, math and writing disabilities, nonverbal 
disabilities, attention deficit and executive function 
difficulties. Profiles, assessment batteries, 
differential diagnoses, and specific measures that 
facilitate the diagnosis of such disabilities will be 
reviewed. Research findings along with theoretical 
and etiological issues will be discussed 
TARGETED FIELDWORK REQUIREMENT: 
Students are expected to administer various 
assessments such as (but not limited to): Ravens
CSP 704 Research and Measurement In Education and Psychology
This course will provide a presentation of basic statistical and measurement concepts such as central tendency, variability, correlation and factor analysis used to interpret test scores and understand test construction. Concepts of validity, reliability and the use of derived scores are presented through an analysis of the assessments used in school psychology as well as research used to inform school psychology. Major statistical and measurement concepts will be applied in order to understand how research problems are systematically investigated using experimental quasi-experimental and qualitative designs. Surveys and qualitative research are also discussed.
Credits: 3
Annually

CSP 705 Foundations of School Counseling
Introduction to the history, philosophy, and current trends in school counseling and educational systems. Exploration of the role, function, and professional identity of the school counselor. Investigation into internal and external factors that influence student learning and development. Instruction in ethical and legal issues specific to the practice of school counseling. Ten hour field component.
The pre-requisites of CSP 615, 649, 652 and 654 are required.
Credits: 3
Annually

CSP 706 Foundations of Mental Health Counseling
Introduction to the history, philosophy, and current trends in mental health counseling. Exploration of the role, function, and professional identity of the mental health counselor, including issues of credentialing, collaboration, and consultation with other treatment providers. Instruction in ethical and legal issues specific to the practice of mental health counseling. Ten hour field component.
The pre-requisites of CSP 615, 649, 652 and 654 are required.
Credits: 3
Annually

CSP 707 Research, Evidence-Based Practice and Program Evaluation
Introduction to quantitative and qualitative research methods; the use of technology and statistics, inquiry, and analyses in conducting research in the development, evaluation and modification of school counseling programs. Focus on understanding the investigative process from needs assessment through the interpretation of findings and the implementation of change for improved counseling effectiveness. Exploration of the use of data to inform decision making, with attention to both internal and external effects upon students learning and development. Ten hour field component.
The pre-requisites of CSP 615, 649, 652 and 654 and 705 are required.
Credits: 3
Annually

CSP 708 School Counseling Research, Program Development and Evaluation
Introduction to quantitative and qualitative research methods; the use of technology and statistics, inquiry, and analyses in conducting research in the development, evaluation and modification of school counseling programs. Focus on understanding the investigative process from needs assessment through the interpretation of findings and the implementation of change for improved counseling effectiveness. Exploration of the use of data to inform decision making, with attention to both internal and external effects upon students learning and development. Ten hour field component.
The pre-requisites of CSP 615, 649, 652 and 654 and 705 are required.
Credits: 3
Annually

CSP 709 Psychopathology and Psychopharmacology
An overview of the major diagnostic categories of psychopathology according to the current DSM classification system. An understanding of disorders in terms of diagnostic features, associated features, demographic features, prevalence, course, familial pattern, differential diagnosis, and cultural contexts. Basic understanding of commonly prescribed psychopharmacological medications, including uses and side effects.
The pre-requisites of CSP 615, 649, 652 and 654 are required as well as CSP 657A or CSP 706. Student must be active in the Mental Health Counseling plan.
Credits: 3
Annually

CSP 710 Educational Psychology
This course will review instructional issues inherent in school systems necessary to facilitate changes on the individual, team and programmatic level. Emphasis is on reviewing instructional and learning theory as well as exploring the role of school psychologists in assisting teachers and staff to develop and monitor curriculum. Emphasis will be placed on assisting and training staff and parents to implement evidence-based curricula as well as understanding the context and cultural background of different students. Parent training programs will be reviewed and discussed and methods of crisis intervention will be elaborated upon, as well as how issues of diversity may warrant that interventions be tailored to particular backgrounds. Consultation projects will be completed in which trainees assess student strengths and weaknesses, develop interventions collaboratively with staff, and train staff to implement these interventions, monitor these interventions and assess overall effectiveness. TARGETED FIELDWORK REQUIREMENT: Students will be required to go into schools and consult with teachers and/or administrators regarding children with academic difficulties. A certified school psychologist will supervise students. 40 hours.
The pre-requisite of CSP 655 is required.
Credits: 3
Annually

CSP 711 Cognitive Assessment I
This course is designed to teach students to administer, score and interpret standardized intelligence tests as part of the cognitive assessment process. This course focuses on the three Wechsler Intelligence Scales. Psychometric properties of those instruments are related to issues of interpretation.
Psychological issues in intelligence testing as well as ethical and legal considerations are reviewed. Students are required to administer tests and write assessment reports based on the results. Additional laboratory hours are required.

**Credits: 3**  
Annually

**CSP 721B Cognitive Assessment II**  
A continuation of 721A. Students learn how to assess the cognitive functioning of children by administering, scoring and interpreting measures of cognitive ability as well as academic functioning used by school psychologists. Integration of findings with educational and other evaluation results is examined so that individual education plans can be developed. Students are required to administer tests, write assessment reports, and make case presentations. Additional laboratory hours are required.  
The pre-requisite of CSP 721A is required.  
**Credits: 3**  
Annually

**CSP 722A Personality Assessment I**  
This course aims to teach students how to administer, score and interpret the Rorschach test, through the use of the Exner Comprehensive Scoring System. The history of projective tests along with their strengths and shortcomings will be reviewed. Cultural, ethnic and language considerations will be discussed as related to the administration and interpretation of the test. Additional laboratory hours are required.  
The pre-requisite of CSP 721A is required.  
**Credits: 3**  
Annually

**CSP 722B Personality Assessment II**  
This course is a continuation of 722A. It aims to teach students how to administer, score and interpret thematic apperceptive, figure drawing and sentence completion tests. Throughout the course students will be practicing report writing and will develop the ability to integrate information from the various personality assessments, including the Rorschach. Quantitative and qualitative interpretations will be reviewed. Additional laboratory hours are required.  
The pre-requisite of CSP 722A is required.  
**Credits: 3**  
Annually

**CSP 723 Assessing Infants, Toddlers and Preschoolers**  
Students will learn to administer, score and interpret the tests used to assess development in infants, toddlers and preschoolers. This course will focus on the psychometric properties as they relate to assessments of development, cognitive functioning and adaptive behavior. Play assessment and observational techniques for such age groups are presented. Techniques for assessing children with vision and hearing impairments are also addressed. Students will be required to administer tests, make case presentations, and write reports. Students will interpret data by integrating clinical findings so that specific intervention plans can be developed. Additional laboratory hours are required.  
The pre-requisites of CSP 721A and 721B are required.  
**Credits: 3**  
On Demand

**CSP 724 Assessing the Bilingual Child**  
In this course, students will engage in an examination of issues in the assessment of bilingual children, including the appropriate use of standardized measures, nondiscriminatory assessment, and alternative approaches to the assessment of cognitive functioning and social adaptive behavior of linguistically diverse children. Students will learn when and how to conduct evaluations in the child’s first or second language (or both). Students administer tests, make case presentations, and write reports. Interpretation of data focuses on integrating clinical findings so that individual educational plans can be developed. Additional laboratory hours are required.  
The pre-requisites of CSP 721A and 721B are required.  
**Credits: 3**  
Annually

**CSP 726 Counseling Ethnolinguistically Diverse Students and Families**  
An exploration of the experiences of culturally and ethnolinguistically diverse families in the context of an English-predominant society. The impact of linguistic fluency, immigration, acculturation, and assimilation upon family dynamics and related systems will be analyzed. Considerations such as parentification of English-speaking children of linguistic minority parents, management of bi-cultural stress, trends in bilingual education, and cultural resiliency will be addressed. Ten hour field component.  
The pre-requisites of CSP 615, 649, 652, 654 and 705 are required.  
**Credits: 3**  
Annually

**CSP 733 Development in Infancy and Early Childhood**  
This course presents an in-depth review of current research and theory in perceptual, cognitive, social, emotional and physical aspects of development from birth to age 3. Particular attention is paid to the influence of culture and environment on early development. Implications of developmental theories for assessment and early intervention practices are included.  
**Credits: 3**  
On Demand

**CSP 745 Special Topics in Counseling**  
Each year the faculty identifies critical areas of interest in counseling. Institutes are planned for intensive study related to those issues, featuring expert speakers on the topic.  
The pre-requisites of CSP 615, 649, 652, and 654 are required as well as CSP 657A or CSP 706.  
**Credits: 3**  
Rotating Basis

**CSP 781A Internship School Psychology I - General**  
Students complete a 1200 hour internship throughout the academic year in a University-approved setting under the dual guidance of an on-site staff psychologist and a University-based clinical supervisor. At least half of the hours should be in a school setting. Participation in the intake and screening process, individual evaluations, interdisciplinary staff conferences, parent conferences and professional meetings is required. Students evaluate children, write reports, and practice short-term counseling and consultation under the supervision of the on-site psychologist. Students also attend weekly meetings with the University clinical supervisor in which professional and ethical issues related to the practice of school psychology in multicultural settings are discussed. Students must apply for the internship in the semester before registration.  
The pre-requisites of CSP 721A, 721B, 722A, 722B and a total of 48 credits completed are required.  
**Credits: 3**  
Every Fall

**CSP 781B Internship School Psychology I - Bilingual Extension**  
Students complete a 1200 hour internship throughout the academic year in a University-approved setting under the dual guidance of an on-site staff psychologist and a University-based clinical supervisor. At least half of the hours should be in a school setting. Participation in the intake and screening process, individual evaluations, interdisciplinary staff conferences, parent conferences and professional meetings is required. Students evaluate children, write reports, and practice short-term counseling and consultation under the supervision of the on-site psychologist. Students also attend weekly meetings with the University clinical supervisor in which professional and ethical issues related to the practice of school psychology in multicultural settings are discussed. Students must apply for the internship in the semester before registration. Students must be placed in a setting where bilingual and multicultural populations are in place and must receive supervision from a bilingual field-based supervisor.  
The pre-requisites of CSP 721A, 721B, 722A, 722B and a total of 48 credits completed are required.  
**Credits: 3**  
Every Fall

**CSP 781C Internship School Psychology I - Early Childhood**  
Students complete a 1200 hour internship throughout the academic year in a University-
approved setting under the dual guidance of an on-site staff psychologist and a University-based clinical supervisor. At least half of the hours should be in a school setting. Participation in the intake and screening process, individual evaluations, interdisciplinary staff conferences, parent conferences and professional meetings is required. Students evaluate children, write reports, and practice short-term counseling and consultation under the supervision of the on-site psychologist. Students also attend weekly meetings with the University clinical supervisor in which professional and ethical issues related to the practice of school psychology in multicultural settings are discussed. Students must apply for the internship in the semester before registration. Students must be placed in a setting where bilingual and multicultural populations are in place and must receive supervision from a bilingual supervisor. The prerequisite of HDL 781B is required.

Credits: 3

Every Fall

CSP 782A Internship School Psychology II - General
This course is a continuation of CSP 781A. Students complete a 1200 hour internship throughout the academic year in a University-approved setting under the dual guidance of an on-site staff psychologist and a University-based clinical supervisor. At least half of the hours should be in a school setting. Participation in the intake and screening process, individual evaluations, interdisciplinary staff conferences, parent conferences and professional meetings is required. Students evaluate children, write reports, and practice short-term counseling and consultation under the supervision of the on-site psychologist. Students also attend weekly meetings with the University clinical supervisor in which professional and ethical issues related to the practice of school psychology in multicultural settings are discussed. Students must apply for the internship in the semester before registration. Students must be placed in a setting where early childhood populations are in place and must receive supervision from a field-based supervisor with expertise in early childhood assessment. The prerequisite of CSP 721A, 721B, 722A, 722B and a total of 48 credits completed are required.

Credits: 3

Every Fall

CSP 782C Internship School Psychology II - Early Childhood
This course is a continuation of CSP 781C. Students will complete a 1200 hour internship throughout the academic year in a University-approved setting under the dual guidance of an on-site staff psychologist and a University-based clinical supervisor. At least half of the hours should be in a school setting. Participation in the intake and screening process, individual evaluations, interdisciplinary staff conferences, parent conferences and professional meetings is required. Students evaluate children, write reports, and practice short-term counseling and consultation under the supervision of the on-site psychologist. Students also attend weekly meetings with the University clinical supervisor in which professional and ethical issues related to the practice of school psychology in multicultural settings are discussed. Students must apply for the internship in the semester before registration. Students must be placed in a setting where early childhood populations are in place and must receive supervision from a field-based supervisor with expertise in early childhood assessment. The prerequisite of CSP 781C is required.

Credits: 3

Every Spring

CSP 782D Internship School Psychology II - Bilingual Extension
This course is a continuation of CSP 781B. Students complete a 1200 hour internship throughout the academic year in a University-approved setting under the dual guidance of an on-site staff psychologist and a University-based clinical supervisor. At least half of the hours should be in a school setting. Participation in the intake and screening process, individual evaluations, interdisciplinary staff conferences, parent conferences and professional meetings is required. Students evaluate children, write reports, and practice short-term counseling and consultation under the supervision of the on-site psychologist. Students also attend weekly meetings with the University clinical supervisor in which professional and ethical issues related to the practice of school psychology in multicultural settings are discussed. Students must apply for the internship in the semester before registration. Students must be placed in a setting where bilingual and multicultural populations are in place and must receive supervision from a field-based supervisor with a bilingual certificate. The prerequisite of HDL 781B is required.

Every Spring

CSP 801 Applied Behavior Analysis II - Behavior Therapy
This course will introduce students to the practice of behavior therapy, in relation to the principles and procedures of applied behavior analysis. A major goal of this course is to teach students to effectively utilize behavioral techniques in the treatment of emotional disorders and the covert verbal behaviors that are unique to this spectrum of disorders. Emphasis will be placed on understanding how basic ABA principles inform the application of procedures and the importance of implementing these procedures within the context of a carefully considered behavioral case conceptualization. Students will expand their use of functional analysis as well as numerous behavioral intervention strategies (e.g., contingency management, relaxation training, systematic desensitization, exposure, response substitution). The prerequisite of CSP 655 is required.
and especially on the development and implementation of antecedent based, consequent based, and educative methods of intervention to enhance students’ success in a variety of settings. The application of the principles and procedures of behavior analysis will be monitored throughout the duration of the course. Students will begin an integrated case study project in this course, which will include assessment information, diagnostic formulations, proposed intervention(s), and implementation of the intervention(s) as well as the monitoring of the intervention. Students will be expected to take and pass the ABA comprehensive exam.

The pre-requisites of CSP 655, 714, 801, 802, 803 and 804 are all required.

Credits: 3
Annually

CSP 806 ABA Internship Supervision II
This course is meant to provide supervision to students in the second semester of full-time internship as applied behavior analytic interns. Discussions will emphasize the role of the behavior analyst as a change agent in the school system and culture. Students will discuss plans for personal growth in the field. Supervision will continue in the development and implementation of antecedent based, consequent based, and educative methods of intervention to enhance clients’ success in a variety of settings. The application of the principles and procedures of behavior analysis will be monitored throughout the duration of the course. Students will begin an integrated case study project in this course, which will include assessment information, diagnostic formulations, proposed intervention(s), and implementation of the intervention(s) as well as the monitoring of the intervention. Students will be expected to take and pass the ABA comprehensive exam.

The pre-requisites of CSP 655, 714, 801, 802, 803 and 804 are all required.

Credits: 3
Annually

CSP 931A Administrative Core II: Community Relations
This course broadens the focus from school/district/regional-related theories and practices to those that define the nature of public schooling and interrelationships between the educational agency and local, state, federal, and community forces as they impact on teaching, learning and achievement. Emphasis is put on gaining support for safe and secure learning environments. Legal frameworks with respect to community needs and their right to know are addressed. Students will use technological, interpersonal and research skills to explore community, understand the relationship between school and community, and plan for the involvement of community in the life of the school and the district/region.

The pre-requisites of TLL 930 is required or Department consent.

Credits: 3
Annually

CSP 931B Research Methods In Administration
The focus of this course is to help administrators become lifelong consumers and producers of research. Students will develop technological skill in locating research materials from varied sources. Students will learn to read, analyze, and evaluate qualitative and quantitative research articles and to use the information gained to inform decision-making in order to support teaching/learning/achievement. Students will also learn to critically evaluate published research, formulate research questions, write research reports, and develop research proposals that will become the bases for internship projects. Strategies for sharing information with teachers and parents, disseminating research data, and understanding the impact of research on practice will be explored.

The pre-requisites of TLL 930 is required or Department consent.

Credits: 3
Annually

CSP 932 Assessment in Administration
This course will focus on understanding assessment theory. Students will become knowledgeable about obtaining assessment data from automated informational links and using those data in order to make administrative decisions about students, faculty, and curriculum. Emphasis will also be placed on the ways in which administrators use standardized and alternative assessments of students, formative and summative assessments of faculty, and program evaluation. Issues of reliability and validity and their relationship to the decision-making process will be explored. The effects of diversity in language, culture, gender, and ability/disability on the use of assessment data will be investigated.

Credits: 3
Annually

CSP 933 School Business Administration
This course will focus on the business-related aspects of school and district/regional administration as they support the improvement of the instructional program. Emphasis will be given to business management practices, i.e., funding sources, budgeting, automated accounting systems, and federal, state, and municipal mandates. In addition, strategic human resource planning including recruiting and selection techniques will be explored. Students will review the collective bargaining process and understand the application of technology to the human resource field.

The pre-requisite of TLL 930 is required or Department consent.

Credits: 3
Annually

CSP 935 Education and the Law
This course will explore, from a historical perspective, legal and ethical issues as they impact education in a multicultural/multilingual/multiracial and economically diverse society. Students will study issues such as teachers’, students’ and parents’ rights and responsibilities, separation of church and state, censorship, freedom of speech, affirmative action, and educational equity and access. Special attention will be given to the implications of the No Child Left Behind legislation. Case law and case studies will be used as they relate to policy development.

Credits: 3
Annually

CSP 936 Curriculum Development
A review of learning theory, human development, and motivation as they relate to teaching, learning and achievement. Principles of curriculum development, design, and assessment to enhance teacher practice in standard-based and constructivist classrooms will be studied. Students will focus on the learning standards and analyze, critically evaluate, utilize, and develop strategies for engaging teachers in the process of assessing academic needs, implementing and adapting curriculum, and evaluating outcomes. The importance of technology in student learning will be included. Organizational decision-making and problem-solving skills needed in the development of appropriate curricula will be discussed. Connecting the curriculum to the world of work will be explored.

Credits: 3
Annually

CSP 937 The Supervisor in the School Setting
This course focuses on the elements of effective supervisory practice in the school. Students will consider the learning standards relative to the principles of supervision, supervisory leadership styles, and the assessment of teacher performance. Important topics include effective instructional practices, adult learning theories, organizing and planning professional staff development, and
coaching and mentoring models, as well as team
and consensus-building approaches that include
parents and other constituents. Strategies for the
development of school/district/regional
comprehensive plans for the continuous
professional growth of all staff will be examined.

Credits: 3
Annually

**CSP 941 School District Administrator**
This course will explore the complex role of today’s
school district/regional administrator as an effective
leader in the broader, urban-inclusive educational
community intent on enhanced student
achievement. Students will explore district/regional
composition and understand strategies and develop
skills for: building and articulating a system-wide
vision; coordinating groups for achieving
district/regional short-range and longrange goals
and objectives; developing procedures and policies;
generating and allocating resources; developing a
research-based approach to building safe and
effective schools; developing leadership in school
and community groups; working with governance
groups; capacity building; negotiating; and program
planning and accountability.

Credits: 3
Annually

**CSP 951A Internship in Administration and
Supervision I: Building Level**
This internship consists of 550 hours at the school
building level. Eight core areas are addressed:
leadership, management, curriculum and
instruction, student issues, personnel issues, staff
development, in-district/region relationships, and
community relations.

Credits: 3
Annually

**CSP 951B Internship in Administration and
Supervision II: District/Regional Level**
This internship consists of 550 hours at the district
or regional office level. Eight core areas are
dressed: leadership, management, curriculum
and instruction, student issues, personnel issues, staff
development, in-district/region relationships,
and community relations.
The prerequisite of TLL 951A is required.

Credits: 3
Annually

**CSP 998 Special Topics in School Leadership**
This course is designed to provide participants with
the opportunity to explore one topic of
administrative importance in depth. Topics will
vary each semester.

Credits: 1 to 3

DEPARTMENT OF TEACHING, LEARNING AND LEADERSHIP

Professors Kesson, Rivera
Professors Emeriti Berkowitz, Kazlow, Long, Nathanson, Pascale
Associate Professors Bains, Dyasi, Lava
(Associate Dean), Lehman (chair), Lemberger
Associate Professor Emeriti Floyd, Zinar
Assistant Professors Black, Pregot, Shuttleworth
Instructors McLaughlin
Fellows Program Administrators Harris, Walsh
Field Experiences and School Relations Assistant
Director Marchant
Adjunct: 30

The Department of Teaching, Learning and Leadership offers programs on both the undergraduate and graduate level, all leading to NYS teaching and leadership certification. The program prepares new teachers and administrators who are just starting out in their field and helps practicing professionals enhance their careers with additional specializations. All programs emphasize hands-on learning in a multicultural context. Classes are small, fostering an atmosphere of inquiry and reflection. Fieldwork, student teaching, and internship placements are in schools especially selected for excellence and diversity. With an emphasis on practice, students will be out in the schools – observing, learning, and doing – from the very beginning. Students will graduate eligible for state certification – and ready to get a job!

Job Opportunities and Career Trends

Education is an ever-growing field. As the population continues to grow, so will the need for quality teachers and administrators to work in schools. Learning the theory in classrooms and being involved in the practice of teaching through fieldwork and student teaching is the beginning of a journey. The New York City Department of Education is the primary employer of our graduates and there are high need areas such as: Early Childhood, Special Education and English as a Second Language. In addition, teachers and administrators are also employed in a range of educational settings, including pre-schools, private, independent and charter schools, private tutorial companies and after-school and literacy programs. Educators are also sought at non-profit organizations with a community service and/or educational focus, including those that are internationally-based. Having a degree in education opens up other career options including: positions in educational media, such as in publishing and television development, curriculum development, market research and human resources, notably the training function.

Admission Requirements

To be admitted into this program, you must:

- Submit an application to LIU Brooklyn's Office of Admissions (see below)
- Have a bachelor's degree from an accredited institution
- Have 2.75 minimum undergraduate grade-point average
- Submit two letters of recommendation
- Submit a statement of professional goals

Students who have not passed the Academic Literacy Skills Test (ALST) of the NYS Teacher Certification Exam and do not have prior teaching certification are also required to take the TLL Department Assessment, a measure of writing skill, upon admission and before registration. Students who do not achieve a passing score (Level 3) on the assessment must enroll in TAL 088 Textual Strategies for Educators, a non-credit course to develop reading and writing skills at the graduate level, during the first semester. They are also required to meet with the Director of Academic Support Services early in the semester to discuss the results of the assessment. In addition, students scoring at Level 1 are limited to 3 credits in the first semester; students scoring at Level 2 are limited to 6 credits.

Waiver of Courses for Students with an Undergraduate Degree in Urban Education from LIU

Students who have completed the undergraduate teacher education curriculum at LIU Brooklyn, including TAL 201 and TAL 301/302, may waive TAL 801 and TAL 830 in the graduate curriculum, reducing the total credit requirement by six credits. In the event that this results in a program of fewer than 30 credits, students are required to take an elective to bring their program to at least 30 credits. The elective must be approved by a faculty adviser.

Submitting an Application for Admission

All applicants must apply for admission to LIU Brooklyn. Please apply online at My LIU or use the Apply Now link in the top navigation bar of the campus’ website. For more information on the admissions process, visit the Office of Admissions website or call 718-488-1011.

Program Requirements

Continued enrollment in this program is contingent upon:
- Maintaining a 3.0 grade-point average
- Satisfactory review by faculty at each stage of the program

The School of Education Certification Officer reviews the transcripts of all new students seeking 1st initial certification for evidence of undergraduate or graduate study that fulfills the following NYS teacher certification requirements:
- General education requirements, including study in artistic expression, communication, information retrieval, history and social sciences, humanities, language other than English, scientific processes, mathematical processes, and written analysis and expression.
- Content area requirements, including a 30 credit concentration or major in one of the Liberal Arts and Sciences.

Students will be advised of any additional coursework that they will need to complete before graduation to fulfill these requirements.

Fieldwork

Fieldwork is required in almost all TLL courses. Students need to have at least one day a week available to be in a school placement during school hours.

Student Teaching

Student teaching is usually completed in the last semester of the teacher education programs. It is a full-time experience that consists of all-day student teaching in selected schools.

To be admitted to Student Teaching, multiple criteria include:
- Passing score on ALST
- 3.0 GPA
- Interview with Director of School Relations & Field Experience and/or Program Coordinator

Students who have not passed the ALST do not student teach but may graduate from the Non-Certification Track.

Degree Requirements

To graduate with a major in teaching students must have:
- Completion of all program requirements with a minimum GPA of 3.0
- Descriptive Review of Practice
- Capstone Portfolio

To graduate from the Certification Track, students must also:
- Pass the ALST, EAS, and CST
- Fulfill NYS general education and content area requirements
- Complete state-mandated training in (1) child abuse identification and reporting, (2) violence prevention, and (3) fire safety, substance abuse prevention, and abduction prevention.

Students who do not meet the criteria for graduation from the Certification Track will graduate from the Non-Certification Track.

Certification

All TAL graduate certification-track programs in teaching fulfill the academic requirements for the following certificates:
- Initial Certification, for students with less than 3 years of experience in the certification area
- Professional Certification, for students with a year of mentored teaching and two years of teaching experience in the certification area

To obtain initial or professional certification, students must:
- Fulfill all requirements for graduation from a certification track program, including: - Completion of student teaching, internship, and/or practicum requirements - Passing scores on the ALST and EAS - Completion of state-mandated training in child abuse identification and reporting; school violence prevention; fire safety; substance abuse prevention, and abduction and, harassment, bullying and discrimination prevention and intervention.
- Be a U.S. citizen or sign a Declaration of Intent
• Pass the Content Specialty Test (CST) in the certification area
• Pass the edTPA
• For students seeking the Bilingual Education Extension: pass the Bilingual Education Assessment (BEA) in the target language of instruction.

The School of Education (SOE) Certification Officer helps students apply for certification when all requirements are met. Students interested in Internship Certification before graduation should consult the Certification Officer.

Progression
All of the M.S.Ed. programs in teaching are divided into four Tiers:
• Tier I: Diversity, Language and Literacies in Urban Education
• Tier II: Observation and Description of Urban Learners
• Tier III: Inquiry of Urban Classrooms and Teaching Practices
• Tier IV: Advanced Inquiry and Practice

To progress from one Tier to the next, students must maintain a minimum 3.0 GPA. In addition, students must meet the following criteria,
• To progress from Tier I to Tier II: satisfactory completion of first six credits, including TAL 801.
• To progress from Tier II to Tier III: satisfactory completion of TAL 830 and other Tier II courses.
• To progress from Tier III to Tier IV: satisfactory completion of TAL 880 and other Tier III courses.

At each stage of progression, faculty teams review students’ work to ensure that all criteria are met. In some cases, students who do not meet criteria are permitted to progress to the next Tier on probation.

Teaching Certification Requirements
Requirements for teacher certification in New York includes successful completion of a bachelor’s or master’s degree; passing of certification examinations, completing workshops in (1) child abuse identification and reporting, (2) violence prevention, (3) fire safety, substance abuse prevention, and abduction prevention, and, (4) harassment, bullying and discrimination prevention and intervention. LIU Brooklyn's programs in teacher education are designed to prepare students to meet these certification requirements.

The teacher education programs in the School of Education at LIU Brooklyn prepare students for two levels of certification in New York State — Initial and Professional.

Initial Certification is the minimum certification required to teach in New York State. Initial Certification, for students with less than three years of teaching experience in the certification area, the entry-level certificate is valid for 5 years and is issued in a specific subject and/or grade level. Initial Certification leads to the Professional Certificate. After three years of professional teaching experience, you can apply for the Professional Certificate to continue to be certified in New York State. All teacher-training bachelor’s and master’s programs in the School of Education at LIU Brooklyn lead to Initial Certification.

Professional Certification is the second-level teaching certificate. A holder of an Initial certificate must apply to the New York State Department of Education (SED) for the Professional certificate upon completion of requirements. Professional Certification is awarded to students with a year of mentored teaching and 2 years of teaching experience in the certification area. Please note that when you possess this certificate you must complete 175 hours of professional development every five years to keep this certificate valid.

In addition, students in the following M.S.Ed. programs leading to 1st initial certification may be eligible to apply for Internship Certification after completing half the required credits:
• Childhood Urban Education
• Early Childhood/Childhood Urban Education
• Early Childhood Urban Education
• Adolescence Urban Education
• Teaching Urban Children with Disabilities
• Teaching Urban Adolescents with Disabilities
• TESOL

Internship Certificates are valid for two years and permit students to begin teaching while completing their degrees and other certification requirements. Please see the Certification Officer for more information about this option.

To obtain initial or professional certification, students must:
1. Graduate from the Certification Track
2. Complete state-mandated training in (1) child abuse identification and reporting, (2) violence prevention, (3) fire safety, substance abuse prevention, and abduction prevention, and, (4) harassment, bullying and discrimination prevention and intervention.
3. Pass the following portions of the NYSTCE.
   • Academic Literacy Skills Test (ALST)
   • Educating All Students Test (EAS)
   • edTPA
   • Content Specialty Test (CST) in the certification area
   • For students seeking a Bilingual Extension: The Bilingual Education Assessment (BEA) in the target language of instruction.
4. Fingerprint Clearance

Applications for certification are submitted electronically. Students who have completed all requirements of the registered New York State Teacher Certification program at LIU Brooklyn should see the SOE certification officer, Ms. Marizaldy Mercedes, 2nd floor, Pratt Building, to complete their application.

Preparing for New York State Teacher Certification Examinations

Students who have not passed the ALST are strongly encouraged to take the following non-credit course early in their program:
TAL 099 Preparing for the NYSTCE (0 credits)

Another optional non-credit course, TAL 088 Textual Strategies for Educators, is recommended for students wishing to improve their writing skills for graduate study as well as in preparation for the NYSTCE.

The following workshops are required for all programs leading to state certifications:
• The Child Abuse Identification and Reporting Workshop is required or completion of the course ALCX 702.
• The Violence Prevention and Intervention Workshop is required or completion of the course ALCX 703.
• The Fire Safety, Substance Abuse and Abduction Prevention Workshop is required or completion of the course ALCX 704.
• The Harassment, Bullying and Discrimination Prevention and Intervention Workshop is required or completion of the course ALCX 705.

The Department of Teaching, Learning and Leadership offers the following specializations:
• Early Childhood and Childhood Education
• Adolescence Education
• Special Education
• TESOL
• Bilingual Education
• Educational Leadership
**EARLY CHILDHOOD AND CHILDHOOD EDUCATION**

**M.S.Ed. in Early Childhood Urban Education (Birth - Gr 2)**

The 36 -credit M.S.Ed. in Early Childhood Urban Education (Birth-Grade 2) is for students without prior certification and leads to the degree of Master of Science and eligibility for initial NYS certification in Early Childhood Education. It prepares students to teach children from birth to second grade. There is also a 34 credit M.S.Ed. in Early Childhood Urban Education (Birth-Grade 2) for students who already have certification in another area. Students graduating from this program are eligible for teaching certification once they have passed all required portions of the New York State Teacher Certification Exam (NYSTCE). Students may also apply for Internship Certification after completing the first 18 credits. Internship Certification permits students to begin teaching while they complete their degrees. Students with prior initial certification in another area will, upon completing this program, also be eligible for professional certification in their original certification area. A 34-credit non-certification track is available for students who are not interested in or who do not qualify for certification.

M.S.Ed. in Childhood Urban Education (Grades 1-6)

The 42-credit M.S.Ed. in Childhood Urban Education (Grades 1-6) is for students without prior certification and leads to the degree of Master of Science and eligibility for initial NYSC certification in Childhood Education, grades 1-6. It prepares students to teach in elementary school classrooms. There is also a 33-credit M.S.Ed. in Childhood Urban Education (Grades 1-6) for students who already have certification in another area.

Optional extensions are available for students who wish to teach in middle schools (6 credits) or bilingual classrooms (9 credits). Students graduating from this program are eligible for teaching certification once they have passed all required portions of the New York State Teacher Certification Exam (NYSTCE). Students may also apply for Internship Certification after completing the first 21 credits. Internship Certification permits students to begin teaching while they complete their degrees. Students with prior initial certification in another area will, upon completing this program, also be eligible for professional certification in their original certification area.

A 40-credit non-certification track is available for students who are not interested in or who do not qualify for certification.

ADOLESCENCE EDUCATION

M.S.Ed. in Adolescence Urban Education (Grades 7-12)

The 39-45-credit M.S.Ed. in Adolescence Urban Education (Grades 7-12) is for students without prior certification and leads to the degree of Master of Science in Education and eligibility for initial NYS certification in Adolescence Education, grades 7-12. It prepares students to teach one of the content areas (Biology, Chemistry, English, Math or Social Studies) at the secondary level. Prior coursework in the intended content area is required. There is also a 33-39-credit M.S.Ed. in Adolescence Urban Education (Grades 7-12) for students who already have certification in another area.

Optional extensions are also available for students wishing to teach in middle schools (6 credits) or in bilingual classrooms (9 credits).

Students graduating from this program are eligible for teaching certification once they have passed all required portions of the New York State Teacher Certification Exam (NYSTCE). Students may also apply for Internship Certification after completing the first 18 to 21 credits. Internship Certification permits students to begin teaching while they complete their degrees.

Students with prior initial certification in another area will, upon completing this program, be eligible for professional certification in their original certification area. A non-certification track is available for students who are not interested in or who do not qualify for certification.

### Fast-Track M.S.Ed. in Adolescence Urban Education (Grades 7-12)

Designed for career-changers and others who have a background in one of the academic content areas (Biology, Chemistry, English, Math or Social Studies). This is a Fast-Track program leading to certification in Adolescence Education, grades 7-12. After one intensive fall and spring (24 credits), you will be qualified for NYS Internship Certification, which will permit you to seek a teaching position at the secondary level. After obtaining the Internship Certificate, students have up to two years to complete the M.S.Ed. degree (15 credits) and first initial certification. Student must have at least 24 credits in their content area to qualify for this program.
### SPECIAL EDUCATION

#### M.S.Ed. in Teaching Urban Children with Disabilities (Grades 1-6)

The 43-credit M.S.Ed. in Teaching Urban Children with Disabilities (Grades 1-6) is for students without prior certification and leads to the degree of Master of Science and eligibility for initial NYS Certification in Teaching Urban Children with Disabilities, grades 1-6. It prepares students to teach in inclusive or self-contained special education classrooms and resource rooms at the elementary school level. There is also a 35 credit M.S.Ed. in Teaching Urban Children with Disabilities (Grades 1-6) for students who already have certification in another area.

Optional extensions are available for students who wish to teach in middle schools (6 credits) or bilingual classrooms (9 credits). Students graduating from this program are eligible for teaching certification once they have passed all required portions of the New York State Teacher Certification Exam (NYSTCE). Students may also apply for Internship Certification after completing the first 21 credits. Internship Certification permits students to begin teaching while they complete their degrees.

Students with prior initial certification in another area will, upon completing this program, also be eligible for professional certification in their original certification area.

A non-certification track is available for students who are not interested in or who do not qualify for certification.

Candidates for these degrees must have:

- A major, concentration, or the equivalent, in one of more of the liberal arts and sciences;
- Completed a minimum of six semester hours in each of the following subject areas (total 24 semester hours): mathematics, English language arts, social studies, and science.

Optional extensions are also available for students wishing to teach in middle schools (6 credits) or in bilingual classrooms (9 credits).

Students graduating from this program are eligible for teaching certification once they have passed all required portions of the New York State Teacher Certification Exam (NYSTCE). Students may also apply for Internship Certification after completing the first 18-21 credits. Internship Certification permits students to begin teaching while they complete their degrees.

Students with prior initial certification in another area will, upon completing this program, also be eligible for professional certification in their original certification area. A non-certification track is available for students who are not interested in or who do not qualify for certification.

**M.S.Ed. in Teaching Urban Adolescents with Disabilities Generalist (Grades 7-12)**

The 43-credit M.S.Ed. in Teaching Urban Adolescents with Disabilities, Generalist (Grades 7-12) is for students without prior certification and leads to the degree of Master of Science in Education and eligibility for initial NYS Certification in Teaching Urban Adolescents with Disabilities, Generalist, grades 7-12. It prepares students to teach in inclusive or self-contained special education classrooms and resource rooms at the secondary school level. There is also a 35-credit M.S.Ed. in Teaching Urban Adolescents with Disabilities, Generalist (Grades 7-12) for students who already have certification in another area.

Candidates for these degrees must have:

- Minimum GPA: 3.0
- Minimum Total Credits: 43 Credits
- Minimum GPA: 3.0

M.S.Ed. in Teaching English to Speakers of Other Languages (TESOL, K-12)

The 42-credit M.S.Ed. in Teaching English to Speakers of Other Languages (TESOL, K-12) is for students without prior certification and leads to the degree of Master of Science in Education and eligibility for initial NYS Certification in TESOL, preparing students to teach English to speakers of other languages in K through 12 classrooms. There is also a 40-credit M.S.Ed. in Teaching English to Speakers of Other Languages (TESOL, K-12) for students who already have certification in another area.

Students graduating from this program are eligible for teaching certification once they have passed all required portions of the New York State Teacher Certification Exam (NYSTCE). Students may also apply for Internship Certification after completing the first 21 credits. Internship Certification permits students to begin teaching while they complete their degrees.

In order to meet the New York State Education Department's licensing requirements, students must have taken as part of their general education course work 12 semester hours or the equivalent of study of a language other than English. If this requirement is not met on admission to the program, it can be met concurrent to the student's completing program requirements. Students with prior initial certification in another area will, upon completing this program, also be eligible for professional certification in their original certification area.

A 40-credit non-certification track is available for students who are not interested in or who do not qualify for certification.

Teaching English to Speakers of Other Languages M.S.Ed. - 1st Initial

M.S.Ed., TESOL (Teaching English to Speakers of Other Languages) (K-12) - 1st Initial Certification

All of the following courses must be completed:

TAL 801 Issues in Urban Education 3.00
TAL 802 Language and Literacy 3.00
TAL 803 Perspectives on Disability 3.00
TAL 805 Linguistics and the Structure of English for Teachers

Teaching English to Speakers of Other Languages M.S.Ed. - 2nd Initial

M.S.Ed., TESOL (Teaching English to Speakers of Other Languages) (K-12) - 2nd Initial Certification

All of the following courses must be completed:

TAL 801 Issues in Urban Education 3.00
TAL 802 Language and Literacy 3.00
TAL 803 Perspectives on Disability 3.00
TAL 805 Linguistics and the Structure of English for Teachers

TAL 803 Perspectives on Disability 3.00
TAL 805 Linguistics and the Structure of English for Teachers

Credit and GPA Requirements
Minimum Total Credits: 40 Credits
Minimum GPA: 3.0
The I-START-LIU program, the first urban teacher residency in New York City, is a collaboration among Internationals Network for Public Schools, LIU, the NYC Teaching Fellows and the Department of Education's Empowerment Schools. The I-START program is designed to provide pre- and post-program placement, induction and support activities to prepare highly qualified teachers of English Language Learners (ELL) through a cohesive program that meets New York State Learning Standards for English as a Second Language and integrates empirically-based practice and scientifically valid research. Rather than considering research-based knowledge and practitioner knowledge as separate domains, this urban teacher residency model requires a unified, project-based approach to both areas. Coursework builds on and extends the highly successful project-based model utilized in the Internationals High Schools and embeds this model in a theoretical framework.

The program combines university coursework with a residency at one of the International High Schools. In the first year, residents work alongside an experienced mentor teacher at an International High School. The university courses serve as the context in which residents have opportunities to reflect on the work of the schools in view of theory, practice and research. During the second year of the program, residents are teachers of record either at an International or other public school serving high populations of ELLs, while continuing their coursework and mentorship.

I-START’s two overarching program goals are to:

- Develop highly qualified and competent ESL teachers equipped to improve student academic achievement.
- Create a New York City Department of Education sponsored program that partners Internationals Network, high needs Empowerment schools with large populations of English language learner students and LIU. The leveraging of expertise developed and implemented through I-START extends the successful education model used in the International High Schools and the LIU TESOL teaching preparation program positively impacting the quality of new teachers who are able to expertly address the needs of NYC English Language Learners.

The Need and Opportunity

There is a profound shortage of highly qualified and effective teachers of English Language Learners (ELLs) in New York City, and currently, only 23.5% of ELLs in NYC graduate in four years. More ELLs graduate after five and six years, but the results are still very low. The ELL population is one of the fastest growing K-12 populations in the United States – currently there are 900,000 high school age ELLs and an estimated 360,000 are recently arrived immigrants. Their window of opportunity to successfully complete high school is quite narrow, given that they are faced with learning a new language in which they must comprehend rigorous academic materials and acculturate into a new society, all within four years.

How to Apply

Go to the School of Education website for information on the special application process for the I-START program: http://liu.edu/Brooklyn/Academics/Schools/SOE/S pecProg/I-START/How-to-Apply.aspx.
**BILINGUAL EDUCATION**

**Advanced Certificate in Bilingual Education**

**Offered Fully Online**

The 15-credit Advanced Certificate in Bilingual Education is for individuals with prior teaching certification and proficiency in a language besides English. The Advanced Certificate, also known as the Bilingual Education Extension, certifies students to teach in their original certification area in bilingual classrooms. Students completing the program are eligible for the extension once they have passed the New York State Teacher Certification Exam, the Bilingual Education Assessment (BEA) in the target language of instruction. Please note, the Advanced Certificate in Bilingual Education is offered online as a Bilingual Extension through our Cross Campus Online Extension program and meets weekly via videoconferencing.

The following options are also available to students with prior certification:

- M.S.Ed. leading to 2nd initial certification along with optional Bilingual Extension in one of the following areas:
  - Childhood Urban Education
  - Early Childhood Urban Education
  - Early Childhood/Childhood Urban Education
  - Adolescence Urban Education
  - Teaching Urban Children with Disabilities
  - Teaching Urban Adolescents with Disabilities

- Individuals without prior teaching certification who are interested in bilingual education may pursue the M.S.Ed. leading to 1st initial certification along with the optional Bilingual Extension in one of the following areas:
  - Childhood Urban Education
  - Early Childhood Urban Education
  - Early Childhood/Childhood Urban Education
  - Adolescence Urban Education
  - Teaching Urban Children with Disabilities
  - Teaching Urban Adolescents with Disabilities

**Credit and GPA Requirements**

Minimum Total Credits: 15 Credits
Minimum GPA: 3.0

**Cross-Campus Online Bilingual Education Extension Programs**

**Information for Bilingual Education Teachers**

The online bilingual extension programs are a collaborative effort between LIU Brooklyn and LIU Hudson designed, implemented, and administered by full time faculty at both campuses. All programs are approved by the New York State Education Department. LIU Brooklyn administers the bilingual general education extension, and LIU Hudson administers the bilingual special education extension.

To determine whether or not the online programs are appropriate for you, ask yourself if you can answer YES to the following:

- You are a self-motivated learner who can keep up with readings and assignments.
- You have sufficient computer skills (e.g., advanced word-processing, PowerPoint, discussion forums, videoconferencing, etc.)
- You have updated computer equipment (no more than three years old) at home and high-speed internet access.
- You will be required to purchase additional equipment including: a headset and webcam, if you do not have one built-in.

**Tuition Support, Costs, and Reimbursement**

LIU and the NYSED Intensive Teacher Institute (ITI) program offer significant tuition support to eligible bilingual special education applicants.

Note:

- ITI funding covers ONE 3-credit course per semester. You must take courses in consecutive semesters, including summers. You will be given a course sequence, which must be followed.
- NYCDOE scholarship recipients, such as NYC Teaching Fellows or Teachers of Tomorrow, are not eligible to receive New York State ITI funding.
- If you are not eligible for ITI funding and you still want to take the program, you are most welcome to do so at full cost. Financial aid is available for students taking a minimum of 6 credits per semester. See liu.edu/Brooklyn/Financial-Services.aspx
- Please note tuition reimbursement is paid by LIU and ITI upon completion of the course, so a grade must be posted first in order for the reimbursement to be credited to your account.

**Intensive Teacher Institute (ITI) Scholarship and Eligibility Criteria**

Determination of ITI eligibility rests with the ITI office, but these guidelines will assist you in deciding whether or not to apply for this funding.

- You are a certified special education teacher (initial or preferably professional/permanent) working out-of-license with bilingual students in your class. You must currently teach in the native language and English, but you do not have the approved certification to do so. If you teach at the secondary level, you may be a bilingual content area teacher (e.g., social studies, math or science), but not a Spanish teacher.
- You are bilingual in a language other than English. You must be proficient enough to pass the NYSTCE Bilingual Education Assessment (BEA), the required exam for the NYS Bilingual Education Extension. The BEA includes speaking, reading, writing and listening components in the non-English language and other content from the bilingual extension courses.
- Your administrator (principal and/or superintendent) must recommend you for the ITI scholarship by signing the ITI application and verifying your teaching placement in a bilingual program and stating the need for your credential by providing numbers of students and staff currently at your school.
- After obtaining the extension, you must commit to work for two years in a bilingual education setting; otherwise you may be asked to repay the tuition scholarship.

For information about the ITI tuition scholarship and to download the application, go to www.emsc.nysed.gov/biling/bilinged/iti.html or call 631-244-4016.

**Admissions**

You must be fully admitted to LIU to participate in the online program. For admissions information, visit liu.edu/Brooklyn/Admissions/Graduate.aspx

**For Consideration and Information**

To be considered by LIU for this special program, please click this link to fill out the questionnaire at: http://studentvoice.com/liu/onlinprogrameligibility. Upon receipt of your questionnaire, you will be contacted promptly about next steps.
EDUCATIONAL LEADERSHIP PROGRAM

JOB OPPORTUNITIES AND CAREER TRENDS

President Obama’s Blue Print for reform, U.S. Office of Education, March 15, 2010, states that: “the effort to improve schools will require the skills and talents of many but especially our nation’s principals, and other school leaders. Our goal must be to have a great teacher in every classroom and a great principal in every school.”

There are many job opportunities for assistant principals and principals in New York City. Since 2006, 500 new public schools have opened. There are public, portfolio, charter, parochial and independent schools that seek competent leaders in the New York area. The Department of Education seeks qualified educators to become assistant principals and principals who are proficient in the Department of Education’s five school leadership competencies. Our successful graduates are prepared to complete state exams and to enter the NYC pool for assistant principals and principals.

Advanced Certificate in Educational Leadership

Blended Learning - Onsite & Online

The 36-credit Advanced Certificate in Educational Leadership is a post-graduate program that leads to NYS Certification as a School District Leader and a School Building Leader.

The program responds to the need for high quality educational leaders committed to creating excellent schools. Participants in the program develop the core competencies in leadership which include: (1) a deep understanding of curriculum, instruction and assessment to improve student learning; (2) use of data to set goals and improve achievement; (3) developing staff, sharing leadership and building strong school communities; (4) personal leadership that fosters a culture of excellence and (5) managing resources and operations to improve student learning. The curriculum includes research, theory, fieldwork, and learning opportunities offered by faculty and distinguished practitioners who prepare candidates to become efficient, effective and caring educational leaders determined to promote equity and excellence for diverse populations.

Our Educational Leadership program stands out for its small classes, experienced faculty, individualized attention and clearly identified competencies that practitioners have verified as critical to being successful in bringing about effective and productive schools.

BLEND LEARNING AND SATURDAY FORMAT

LIU Brooklyn’s new BLEND LEARNING AND SATURDAY FORMAT Advanced Certificate in Educational Leadership fuses online learning with traditional classroom studies, significantly reducing the amount of time you’ll spend on campus and maximizing interaction with faculty members and fellow students. The blended learning format is perfect for busy working professionals who want to earn an advanced degree but don’t have the time to attend on-site classes on a weekly basis, particularly at the end of a long workday. The online component of these blended courses enables you to attend class on your own schedule, virtually anywhere there is an Internet connection, while reaping the rewards of face-to-face contact with professors on scheduled Saturdays. All of the courses in the Advanced Certificate in Educational Leadership are taught in this blended format. This is an opportunity to expand your career as an educational leader, while also continuing to fulfill your personal and professional responsibilities.

ADMISSIONS REQUIREMENTS

To be admitted to this program you must:
- Have a master’s degree from an accredited university with a minimum grade point average of 3.0.
- Submit two letters of reference, one from a field-based supervisor and one from a university professor, indicating leadership qualities.
- Submit a written statement of professional goals, assessed for leadership qualities and communication skills.
- Possess certification as a teacher or pupil personnel service provider or in an appropriate specialty.
- Submit evidence of completion of training in child abuse identification and reporting, violence prevention, substance abuse and abduction prevention.
- Have completed three years of full-time teaching or pupil personnel experience in schools (N-12) or the equivalent.
- A completed graduate admissions application (see below).

SUBMITTING AN APPLICATION FOR ADMISSION

All applicants must apply for admission to LIU Brooklyn. Please apply online at My LIU or use the Apply Now link in the top navigation bar of the Campus’ website. For more information on the admissions process, visit the Office of Admissions website.

CERTIFICATION REQUIREMENTS

Initial: School Building Education Leader

A total of 30 credits including twenty-seven credits of course work, and a three-credit, 400 hour building-level internship, along with successful completion of the New York State school building education leadership certification examination.

Professional: District/Regional Education Leader

A total of 36 credits including thirty-three credits of course work, and a three-credit, 400 hour district/regional level internship, along with successful completion of the written and performance components of the New York State assessment in school district leadership.

PROGRAM REQUIREMENTS

Continued enrollment in this program is contingent upon:
- Progression to the Professional Stage (12 credits)
- Interview with area coordinator who will assess quality of coursework, portfolio entries, overall performance, and critical characteristics for leadership
- GPA of 3.0 must be maintained to continue in the program.

Teaching and Learning Courses

TAL 088 Textual Strategies for Educators
A course that focuses on improving school professionals’ abilities to write academic essays and developing reading strategies to be applied to the comprehension of complex texts in the field of education. Students will be involved in writing, editing, and revising, as well as doing close reading of texts. Pass/Fail only. This course has an additional fee.
Credits: 0
Every Fall and Spring

TAL 607 Independent Study
Content is developed by faculty and student.
Credits: 1 to 3
On Demand

TAL 801 Issues in Urban Education
Using the School of Education KEEP mission as a context, this course examines the intersection of individuals, families, schools, communities, and society as they exist and interact in urban settings. Through readings and class discussion, students will examine schooling from historical, philosophical, sociological, economic, and political perspectives. Factors such as language, ability, socioeconomic class, ethnicity, race, gender, and sexuality will be introduced through a critical perspective in order to understand how they influence and shape urban education. Students will have the opportunity to engage in field-based research related to issues studied.
Credits: 3
Every Fall and Spring

TAL 802 Language and Literacy
A course focusing on the relationship between oral language and literacy, highlighting the psycholinguistic and social foundations of reading. Principles of first and second language acquisition, dialectal differences, and the development of literacy in English Language Learners and bilingual children will be addressed. Students will be introduced to different philosophical approaches to teaching reading and will explore the connection between reading and writing. They will examine the cognitive and sociolinguistic processes involved in making meaning from text, including the importance of background knowledge, as well as processes underlying word recognition. The role of multicultural literature for children will be highlighted. Students will be introduced to a variety of literacy resources, including children's libraries and relevant Web sites.
The pre-requisite or co-requisite of TAL 801 is required.
Credits: 3
Every Fall and Spring

TAL 803 Perspectives on Disability
Provides an overview of the social, political, historical, cultural and educational contexts of disability. Students will explore the history of Special Education legislation and litigation that have influenced the field, attitudes toward people with disabilities, images in the media, and different perspectives on the meaning of disability. Major issues in the fields of Special Education and Disability Studies as well as topics central to the lives of people with disabilities such as transition, employment, and self-determination will be emphasized.
The pre-requisite or co-requisite of TAL 801 is required or membership in NYC Teaching Fellows Student Group 1 or Group 2, or in the ISTART Student Group.
Credits: 3
Every Fall and Spring

TAL 804 Fundamentals of Linguistics
An introduction to the basic concepts of linguistics needed to understand second language acquisition, language variation in urban settings, and ESL pedagogy for diverse learners. Students will become familiar with the main components of language structure (phonological, morphological, syntactic, and lexical) and will learn their significance from a psycholinguistic perspective. They will analyze data from languages spoken in New York City.
Credits: 3
Annually

TAL 805 Linguistics and the Structure of English for Teachers
This course addresses the structural components of language. Students develop and apply the knowledge of phonology, morphology, and syntax to understand the structure of the English Language and their students' development of oral and written fluency in English. Teaching candidates learn to design and implement contextualized activities and instructional techniques to assist their students in developing phonemic awareness, using their knowledge of morphology, building vocabulary and using the syntactic structures of English in oral and written communication. The course prepares students to analyze and describe the language spoken by learners at different stages of language acquisition and to instruct their students to contrast their native language and English. Attention to the teaching of formal and informal English and the use of English for a variety of purposes, including the use of academic language is also provided.
The pre-requisite or co-requisite of TAL 801 is required or membership in the NYC Teaching Fellow Student Group or in the ISTART Student Group.
Credits: 3
Annually

TAL 810 Early Development
An examination of the experience of young children from infancy through early childhood using developmental, non-developmental, historical, and cultural approaches. Students will consider different theories of early development and their implications for understanding children. Attention will be given to physical, cognitive, socio-emotional, and moral domains of development, and their relation to learning and socialization. Students will also examine the role of culture, gender, disability, race, class, language, and ability in the process of learning and development. The lives of children with typical and atypical development will be explored through observations and readings. Fifteen hours of structured fieldwork required.
The pre-requisite or co-requisite of TAL 801 is required.
Credits: 3
Annually

TAL 811 Lives of Children
A course focusing on the experience of childhood from infancy to preadolescence using developmental, non-developmental, historical, and cultural approaches. Students will consider different theories of development as well as physical, cognitive, socio-emotional and moral domains of development, with implications for learning and socialization. Consideration will be given to the role of culture, gender, disability, race, class, language, and sexual orientation in the process of learning and development. The lives of children with typical and atypical development will be explored through observations and readings. Fourteen hours of structured fieldwork required.
The pre-requisite of TAL 801 is required or membership in NYC Teaching Fellow Group.
Credits: 3
Annually

TAL 812 Lives of Adolescents
A course that focuses on the experience of preadolescents and adolescents from diverse backgrounds with a range of abilities using developmental, non-developmental, historical, and cultural approaches. Theories of development will be studied as they apply to the adolescent learner in families, communities, peer groups and schools. Physical, cognitive, socio-emotional and moral domains of development with implications for learning will be studied. Throughout the course, attention will be given to ways in which culture, gender, disability, race, class, language, ethnicity and sexual orientation play a role in the process of learning and development. The lives of adolescents with typical and atypical development will be explored through observations and readings. Fourteen hours of structured fieldwork required. For students pursuing the middle childhood extension, 20 hours of fieldwork at the middle school level will be required.
The pre-requisite of TAL 801 is required or membership in NYC Teaching Fellow Group.
Credits: 3
Annually
TAL 816 Teaching Literacy K-6
A course that addresses the teaching of literacy in grades K-6 from the emergent to the fluent reader. Students will be introduced to a variety of approaches for teaching reading and writing, including strategies for teaching word recognition, phonics, vocabulary, and comprehension through the use of multicultural literature and incorporation of multiple literacies. The use of reading for content area knowledge development will be examined as well as reading assessment and evaluation. This course will approach reading from a developmental perspective, using strategies for adaptation of instruction for children with diverse abilities and language backgrounds within a collaborative, inclusive model. Approaches to remediation of difficulties in literacy will also be addressed. Ten hours of structured fieldwork required.
The pre-requisite of TAL 801 is required or membership in NYC Teaching Fellow Group. Credits: 3 Annually

TAL 817 Teaching Literacy Grades 5-12
A course that addresses the teaching of literacy at the middle childhood and adolescent levels from a developmental perspective, building upon the foundations of literacy established in early childhood and childhood. Emphasis will be on the development of fluent mature reading, including strategies for teaching vocabulary, critical thinking, reading in the content areas, and study skills. Various approaches to the teaching of writing will be presented, and students will become familiar with a diverse range of multicultural literature for middle-school children and adolescents. Practices related to assessment and the organization of instruction will be introduced. Strategies for adaptation of instruction for children of diverse abilities and language backgrounds will also be addressed. Fifteen hours of structured fieldwork required.
The pre-requisite of TAL 801 is required. Credits: 3 Annually

TAL 822 Assessment and Special Education
The historical, political and social context of the testing and standards movements and their relation to assessment practices in Special Education will be critically examined. The concepts of reliability and validity will be explored and their relevance to standardized and teacher-made tests, as well as alternative assessment techniques, will be discussed. Emphasis will be given to the underlying assumptions of the tests and to race, class, language, and gender implications in using the tests. The process by which students receive special education services will be investigated.
The pre-requisite of TAL 803 is required. Credits: 3 Annually

TAL 823 Bilingualism and Bilingual/Multicultural Education
Introduction to the individual, social, cognitive and linguistic nature of bilingualism, including second language acquisition, sociology of language, and the relationship between language and culture. Students will examine the socio-political, historical, and legal foundations that have shaped bilingual and multicultural education policies, program models, and teaching and assessment practices. Issues pertaining to second language learners with diverse learning needs will be addressed. Students will develop an understanding of the distinction between language differences and language disability. Fifteen hours of structured fieldwork required. Students pursuing the bilingual extension will have an additional twenty hours of fieldwork.

TAL 825 First and Second Language Acquisition and Classroom Practice
Students become knowledgeable of different theories of language acquisitions as well as the role that individual differences such as age, literacy, motivation, and personality play in L1 and L2 learning. Teaching candidates learn to recognize different stages of acquisition and understand the nature of typical second language errors. Students design instructional strategies and classroom environments to support their students' oral and written first and second language development. These strategies include the use of technology, literature, and opportunities for linguistic interaction. The course prepares students to use language proficiency assessments to plan curriculum, modify instruction and monitor students' progress.
The pre-requisite or co-requisite of TAL 820 is required or membership in either NYC Teaching Fellow Student Group or in the ISTART Student Group. Credits: 3 Annually

TAL 826 Curriculum and TESOL Pedagogy
This course prepares teaching candidates to design learning environments for ELLs by examining a wide range of approaches, practices and materials for the ESL classroom. Issues in second language pedagogy and varied approaches and methods in second language teaching such as Sheltered Instruction, Community Language Learning, Total Physical Response, and the Natural and Comprehension Approaches are included. Students design and present lesson and curriculum plans and use classroom-based assessments of children's learning. They practice using technology and electronic media as well as participatory techniques, theater, role playing, games, visual arts, and music to teach ELLs. The integration of these approaches and techniques with content area and literacy instruction is emphasized. Strategies to differentiate instruction and teach in multi-level ESL classrooms are addressed. Fifteen hours of structured fieldwork required.
The pre-requisite or co-requisite of TAL 801 or 802 is required or membership in either NYC Teaching Fellow Student Group 1 or Group 2, or in the ISTART Student Group. Credits: 3 Annually

TAL 827 ESOL and Content Area Instruction: Childhood K-6
This course prepares students to plan and implement instruction that develops language, literacy and content knowledge in English. Students become knowledgeable of how to design classroom activities and use resources to teach the content areas through units that provide opportunities to use language in meaningful contexts. Students learn to integrate subject matter and language learning objectives and engage their students in problem-solving inquiries in science, math and social studies. They are prepared to create print-rich classroom environments in which their students can use print regardless of their developmental stage in English and formal accuracy. Ways to plan instruction to meet diverse developmental and learning needs as well as cultural styles are included. The use of educational resources, including technology and children’s literature is addressed. The course also attends to family and community involvement and the use of the home language to support literacy. English acquisition and content knowledge development. Fifteen hours of structured fieldwork required.
The pre-requisite or co-requisite of TAL 802 is required or membership in either NYC Teaching Fellow Student Group or in the ISTART Student Group. Credits: 3 Annually

TAL 828 ESOL and Content Area Instruction: Adolescence 6-12
This course prepares students to create learning environments that allow ELLs to access the core curriculum by integrating language and content instruction and choosing and adapting educational resources, including technology. Teaching candidates learn to assess students’ background knowledge and consider their language proficiency to plan and implement student-centered and culturally-relevant instruction to teach math, science and social studies. The use of reading and writing to promote language and content knowledge learning in English and the use of linguistic and nonlinguistic support to enhance comprehension are addressed. Students become knowledgeable on how to plan and manage instruction for diverse groups of learners and various developmental needs, including students with disabilities and those with limited or interrupted formal schooling. They become acquainted with strategies for schoolhome communication that are linguistically and culturally
### TAL 830 Classroom Inquiry I

The course aims to develop and improve aspects of teaching practice through inquiring about students work with children and adolescents in classrooms and other educational settings from a phenomenological perspective. Through collaborative inquiry, students will learn disciplined modes of observation and description and a range of ways to document aspects of Teaching and Learning. They will complete a child study including the collecting and describing of the child's work and a Descriptive Review of the Child. In addition, students will investigate the assumptions about persons and knowledge-making underlying the phenomenological modes of inquiry basic to the child study. Students will begin to develop a conceptual understanding of the nature of inquiry, documentation, evidence, questions, and knowledge. Thirty hours of structured fieldwork required.

**Pre or co-requisite of TAL 801, ALCX 702, 703, 704 and 705 is required or membership in NYC Teaching Fellow Group or in ISTART Group.**

**Credits: 3**

**Annually**

### TAL 831 Teaching Social Studies 1-6

Introduction to a theme-based, literature-rich, multicultural approach to teaching and learning social studies. The course focuses on the teaching of social studies through literacy, critical thinking, and an inquiry approach using student-centered projects. Students will learn to look at their own classrooms as places where inclusive community living can be practiced and where children can begin to explore values like community responsibility, equality, diversity, and freedom as preparation for democratic citizenship. They will design instruction and assessments to help diverse learners meet NYS/Common Core Learning Standards. Relevant uses of technology will be explored. Ten hours of structured fieldwork required.

**The prerequisite or co-requisite of TAL 830 is required.**

**Credits: 3**

**Annually**

### TAL 832 Teaching the Arts 1-6

A course that introduces students to the role of the arts and movement in elementary education as a means of helping children make sense of the world, express understanding of their experience, and develop aesthetic appreciation. Students will explore the importance of developing creativity and self-expression in children. They will participate in movement, music, drama, and visual arts activities appropriate for the elementary school classroom. Through active exploration of various media and materials students will learn how to integrate the arts into their classroom teaching. Course experience will include field trips to art museums and performances appropriate for elementary school children.

**The prerequisite or co-requisite of TAL 830 is required.**

**Credits: 3**

**Annually**

### TAL 833 Teaching Science/Technology 1-6

A course that focuses on the development and implementation of inquiry-based curricula to promote in-depth scientific literacy. Emphasis will be placed on raising questions, planning and developing solutions for open-ended science problems, formative assessment, and the use of technology as a teaching tool. While reinforcing knowledge of basic scientific concepts and inquiry skills, students will construct unit plans as a mechanism for integrating learning. Attention will be paid to developing strategies for helping children with diverse learning needs to meet NYS/Common Core Learning Standards. Ten hours of structured fieldwork required.

**The prerequisite or co-requisite of TAL 830 is required.**

**Credits: 3**

**Annually**

### TAL 834 Teaching Math/Technology 1-6

A course that utilizes an inquiry approach to explore big ideas in mathematics and to demonstrate how these ideas are evident across cultures. The following questions will be raised: What is the teacher's role in children's learning of mathematics? What abilities do children develop through the learning of mathematics? How do teachers know what children need? How do teachers organize their work to address those needs in the classroom? Students will be introduced to the use of technology as a tool in the teaching of mathematics. Attention will be paid to developing strategies for helping children with diverse learning needs to meet NYS/Common Core Learning Standards within a collaborative, inclusive model. Approaches to addressing difficulties in math will be explored. Ten hours of structured fieldwork required.

**The prerequisite or co-requisite of TAL 830 is required.**

**Credits: 3**

**Annually**

### TAL 841A Curriculum in the Secondary Classroom: Biology

A course with students as researchers of the secondary curriculum in the student's particular discipline with a focus on teaching students with diverse backgrounds and needs. Students will become familiar with NYS/Common Core Learning Standards as well as ways to bring enriching multiple representations of content and multicultural materials to their classroom instruction. The use of literature, technology, audio-visual material, and the resources of New York City will be highlighted so that students can become resourceful teachers who understand curriculum design and know how to access and utilize a range of materials for adolescents of varying interests, abilities, and language backgrounds. Fifteen hours of structured fieldwork required.

**The prerequisite or co-requisite of TAL 801 is required.**

**Credits: 3**

**Annually**

### TAL 841B Curriculum in the Secondary Classroom: Chemistry

A course that focuses on the development and implementation of inquiry-based curricula to promote in-depth scientific literacy. Emphasis will be placed on raising questions, planning and developing solutions for open-ended science problems, formative assessment, and the use of technology as a teaching tool. While reinforcing knowledge of basic scientific concepts and inquiry skills, students will construct unit plans as a mechanism for integrating learning. Attention will be paid to developing strategies for helping children with diverse learning needs to meet NYS/Common Core Learning Standards. Ten hours of structured fieldwork required.

**The prerequisite or co-requisite of TAL 830 is required.**

**Credits: 3**

**Annually**

### TAL 841C Curriculum in the Secondary Classroom: English

A course with students as researchers of the secondary curriculum in the student's particular discipline with a focus on teaching students with diverse backgrounds and needs. Students will become familiar with NYS/Common Core Learning Standards as well as ways to bring enriching multiple representations of content and multicultural materials to their classroom instruction. The use of literature, technology, audio-visual material, and the resources of New York City will be highlighted so that students can become resourceful teachers who understand curriculum design and know how to access and utilize a range of materials for adolescents of varying interests, abilities, and language backgrounds. Fifteen hours of structured fieldwork required.

**The prerequisite or co-requisite of TAL 801 is required.**

**Credits: 3**

**Annually**

### TAL 841A Curriculum in the Secondary Classroom: Biology

A course with students as researchers of the secondary curriculum in the student's particular discipline with a focus on teaching students with diverse backgrounds and needs. Students will become familiar with NYS/Common Core Learning Standards as well as ways to bring enriching multiple representations of content and multicultural materials to their classroom instruction. The use of literature, technology, audio-visual material, and the resources of New York City will be highlighted so that students can become resourceful teachers who understand curriculum design and know how to access and utilize a range of materials for adolescents of varying interests, abilities, and language backgrounds. Fifteen hours of structured fieldwork required.

**The prerequisite or co-requisite of TAL 801 is required.**

**Credits: 3**

**Annually**
TAL 841D Curriculum in the Secondary Classroom: Mathematics
A course with students as researchers of the secondary curriculum in the student's particular discipline with a focus on teaching students with diverse backgrounds and needs. Students will become familiar with NYS/Common Core Learning Standards as well as ways to bring enriching multiple representations of content and multicultural materials to their classroom instruction. The use of literature, technology, audio-visual material, and the resources of New York City will be highlighted so that students can become resourceful teachers who understand curriculum design and know how to access and utilize a range of materials for adolescents of varying interests, abilities, and language backgrounds. Fifteen hours of structured fieldwork required.
The prerequisite or co-requisite of TAL 801 is required.
Credits: 3
Annually

TAL 842B Teaching Methods in the Secondary Classroom: Chemistry
A course in which students will actively learn about the practice of teaching and co-teaching on the secondary level. Topics to be explored will include lesson and unit planning, multicultural curriculum and teaching, student-centered teaching strategies, project-based classroom instruction, methods of assessment, and classroom management. Students will develop and implement unit plans to meet NYS/Common Core Standards for adolescents of varying abilities and language backgrounds. Students will explore ways to develop and differentiate lessons and assessments based on students' learning needs and/or Individualized Educational Programs (IEPs). Fifteen hours of structured fieldwork required.
The prerequisites of TAL 801 and 841A are required.
Credits: 3
Annually

TAL 844 Environments Practices and Play in Early Childhood
This course studies the relationship between play and learning for young children and the significance of providing opportunities for choices in their interactions with the world. Students will learn how to create safe and stimulating classroom environments that provide positive behavior support for a multicultural, inclusive and anti-bias approach to learning. The focus will be on the whole child in learning contexts that enhance physical cognitive, social, and emotional development and aesthetic appreciation. Particular consideration will be given to the role of the group

TAL 842A Teaching Methods in the Secondary Classroom: Biology
A course in which students will actively learn about the practice of teaching and co-teaching on the secondary level. Topics to be explored will include lesson and unit planning, multicultural curriculum and teaching, student-centered teaching strategies, project-based classroom instruction, methods of assessment, and classroom management. Students will develop and implement unit plans to meet NYS/Common Core Standards for adolescents of varying abilities and language backgrounds. Students will explore ways to develop and differentiate lessons and assessments based on students’ learning needs and/or Individualized Educational Programs (IEPs). Fifteen hours of structured fieldwork required.
The prerequisite or co-requisite of TAL 801 is required.
Credits: 3
Annually

TAL 842C Teaching Methods in the Secondary Classroom: English
A course in which students will actively learn about the practice of teaching and co-teaching on the secondary level. Topics to be explored will include lesson and unit planning, multicultural curriculum and teaching, student-centered teaching strategies, project-based classroom instruction, methods of assessment, and classroom management. Students will develop and implement unit plans to meet NYS/Common Core Standards for adolescents of varying abilities and language backgrounds. Students will explore ways to develop and differentiate lessons and assessments based on students' learning needs and/or Individualized Educational Programs (IEPs). Fifteen hours of structured fieldwork required.
The prerequisites of TAL 801 and 841B are required.
Credits: 3
Annually

TAL 843 Curriculum in Middle School
A course in which students learn to create, evaluate, and implement middle school curriculum by asking questions about language arts, math, science, and social studies. Students will become familiar with NYS/Common Core Learning Standards and how to integrate these standards into the curriculum they develop for diverse learners. In-depth exploration of critical issues across subject areas will be emphasized. Effective ways of teaching middle school learners will be explored. Pedagogical approaches will include student centered teaching and learning, group work, project-based learning, and authentic modes of assessment. Students will explore how to select and adapt appropriate materials for adolescents. Thirty hours of structured fieldwork required.
Credits: 3
On Demand

TAL 842E Teaching Methods in the Secondary Classroom: Social Studies
A course in which students will actively learn about the practice of teaching and co-teaching on the secondary level. Topics to be explored will include lesson and unit planning, multicultural curriculum and teaching, student-centered teaching strategies, project-based classroom instruction, methods of assessment, and classroom management. Students will develop and implement unit plans to meet NYS/Common Core Standards for adolescents of varying abilities and language backgrounds. Students will explore ways to develop and differentiate lessons and assessments based on students’ learning needs and/or Individualized Educational Programs (IEPs). Fifteen hours of structured fieldwork required.
The prerequisites of TAL 801 and 841E are required.
Credits: 3
Annually

TAL 844D Teaching Methods in the Secondary Classroom: Mathematics
A course in which students will actively learn about the practice of teaching and co-teaching on the secondary level. Topics to be explored will include lesson and unit planning, multicultural curriculum and teaching, student-centered teaching strategies, project-based classroom instruction, methods of assessment, and classroom management. Students will develop and implement unit plans to meet NYS/Common Core Standards for adolescents of varying abilities and language backgrounds. Students will explore ways to develop and differentiate lessons and assessments based on students’ learning needs and/or Individualized Educational Programs (IEPs). Fifteen hours of structured fieldwork required.
The prerequisites of TAL 801 and 841D are required.
Credits: 3
Annually
in individual learning. A variety of early childhood curricula will be reviewed. Fifteen hours of structured fieldwork required.
The prerequisite or co-requisite of TAL 830 is required.
Credits: 3
Annually

TAL 845 Math and Science in Early Childhood
This course will prepare students to design environments and curriculum for the development of math and science knowledge in early childhood. Students will learn to create learning centers for young children based on principles of discovery, hands-on experience, and reasoning to reinforce basic math and science concepts and inquiry skills. They will also learn to develop instruction to meet diverse needs, including those of English Language Learners and children who present development variations. Students will construct unit plans as mechanisms for integrating learning and meeting state learning standards. The role of formal and informal assessment as a teaching tool will be examined. Fifteen hours of structured fieldwork required.
The prerequisite or co-requisite of TAL 830 is required.
Credits: 3
Annually

TAL 846 Family Literacy and Parental Collaboration
This course will prepare students to design environments and curriculum for the development of language and literacy at home and the early childhood center. Collaborative and inclusive approaches to family literacy will be emphasized. These include how to work with diverse families on issues of child development, including developmental variations, the role of first and second language acquisition, bilingualism and culture in child rearing. Students will be introduced to a variety of activities and materials to promote family literacy such as children’s books as well as materials on parenting, adult literacy and English as a Second Language. They will learn to create systems for referral and collaboration with other agencies, including Early Intervention Programs, to provide comprehensive services to families. Ten hours of structured fieldwork required.
The prerequisite or co-requisite of TAL 830 is required.
Credits: 3
Annually

TAL 851 Curriculum Theory and Practice in Special Education Childhood
An exploration of the role of curriculum in schools with an emphasis on teaching learners with diverse learning needs. Students will learn to evaluate the appropriateness of existing curricula for children with disabilities while developing curricula based on an assessment of learner’s interests, strengths, and individual needs. Strategies and instructional technology for modifying and adapting curricula for students with varying abilities will be presented. Students will investigate the impact of NYS/Common Core Learning Standards and Individualized Educational Programs (IEPs) on development and implementation of curriculum for students with disabilities. Trends and issues in the field of curriculum will be discussed in relation to the delivery of special education services. Ten hours of structured fieldwork required.
The prerequisite of TAL 803 is required or the student must be active in the NYC Teaching Fellows Student Group.
Credits: 3
Annually

TAL 852 Strategies for Teaching Learners with Diverse Needs: Childhood
Characteristics of children with particular disability classifications, as well as cultural, linguistic, gender, and ability differences, will be studied as a basis for considering strategies for teaching. Ideas, methods, and strategies for assessing student needs and for designing, adapting, implementing, and evaluating instructional practices in academic content areas will be considered. Emphasis will be placed on developing the ability to teach through a variety of teaching methods, including new technologies and effective utilization of time, space, materials, and equipment. Consideration will be given to teaching learners content in academic subject areas based on the NYS/Common Core Learning Standards. Teaching methods which support a collaborative learning environment, such as cooperative learning groups and cocohosting, will be explored. Ten hours of structured fieldwork required.
The prerequisite of TAL 851 is required.
Credits: 3
Annually

TAL 853 Collaboration and Consultation: Family School, and Community
An exploration of various team approaches and the roles of team members in the delivery of special education services. Professional and family perspectives will be examined in relation to the education of students with disabilities. Attention will be paid to the student within the context of a family system. Emphasis will be on fostering skills that facilitate ongoing and productive communication among all team members. Students will become familiar with community agencies that provide support and services to children and adolescents with disabilities and their families and will learn to advocate on their behalf. Ten hours of structured fieldwork required.
The prerequisite or co-requisite of TAL 830 is required.
Credits: 3
Annually

TAL 854 Classroom as Community
Students learn to create respectful classroom environments and curriculum that facilitate on-going and productive collaboration and problem solving processes to develop individualized interventions. Theoretical foundations and methods for supporting students with disabilities and documenting and interpreting their behaviors will be addressed. Various perspectives on constructing classroom environments such as Positive Behavior Support, Responsive Classrooms, and conflict resolution will be explored.
The prerequisite or co-requisite of TAL 830 is required or membership in NYC Teaching Fellow Group.
Credits: 3
Annually

TAL 856 Curriculum Theory and Practice in Special Education: Middle Childhood / Adolescence
An exploration of the role of curriculum in schools with an emphasis on teaching learners with diverse learning needs. Students will learn to evaluate the appropriateness of existing curricula for children with disabilities while developing curricula based on an assessment of learner’s interests, strengths, and individual needs. Strategies and instructional technology for modifying and adapting curricula for students with varying abilities will be presented. Students will investigate the impact of the NYS/Common Core Learning Standards and Individualized Education Programs (IEPs) on development and implementation of curriculum for students with disabilities. Trends and issues in the field of curriculum will be discussed in relation to the delivery of special education services. Ten hours of structured fieldwork required.
The prerequisite of TAL 803 is required or the student must be active in the NYC Teaching Fellows Student Group.
Credits: 3
Annually

TAL 857 Strategies for Teaching Learners with Diverse Needs: Middle Childhood / Adolescence
Characteristics of pre-adolescent and adolescent students with particular disability classifications, as well as cultural, linguistic, gender, and ability differences, will be studied as a basis for considering strategies for teaching. Ideas, methods, and strategies for assessing student needs and for designing, adapting, implementing, and evaluating instructional practices in academic content areas will be considered. Emphasis will be placed on developing the ability to teach through a variety of teaching methods, including new technologies and effective utilization of time, space, materials, and equipment. Consideration will be given to teaching learners content in academic subject areas based on the NYS/Common Core Learning Standards.
Teaching methods that support a collaborative learning environment, such as cooperative learning groups and co-teaching, will be explored. Ten hours of structured fieldwork required.

The pre-requisite of TAL 856 is required.

Credits: 3

Annually

TAL 862 ESL Curriculum and Methodology Teaching Literacy K-12

A study of different approaches to teaching ESL in an urban classroom with a focus on all aspects of language and literacy, including listening, speaking, reading, and writing, at different levels of proficiency in English. Students will learn to develop literacy through the content areas. They will also become familiar with uses of technology in an ESL setting and with literacy and language proficiency assessment. Students will learn how to help English Language Learners of varying ability meet NYS/Common Core Learning Standards in literacy. Fifteen hours of structured fieldwork required.

Credits: 3

Annually

TAL 863 ESL Curriculum and Methodology Teaching Content Areas K-12

An examination of the practices of teaching the content areas of science, mathematics, social studies and language arts through English. Strategies for implementing sheltered instruction, adapting materials, and developing vocabulary in specific content areas will be introduced. Attention is given to the teaching of content areas to second language learners with disabilities. The use of technology in teaching ESL is presented along with assessment tools for measuring progress in specific subject areas. Students learn to develop their own curriculum and materials in a workshop setting. Fifteen hours of structured fieldwork required.

Credits: 3

Annually

TAL 866 Native Language Teaching in the Bilingual Classroom

An exploration of theories of literacy and related teaching practices to develop native language reading, writing, speaking, and listening skills, and to use native language in teaching the content areas (mathematics, science, and social studies). Techniques of assessing native literacy skills will be examined. Students will become familiar with native language resources in the community through evaluating culturally appropriate curricula, children’s literature and media. Students will also analyze and strengthen their own biliteracy skills.

Fifteen hours of structured fieldwork required.

Credits: 3

On Occasion

TAL 867 Sociolinguistics and Teaching

This course addresses the relationship between language and society and their role in mediating educational success. The interplay of social class, ethnicity, age, and gender in language teaching and learning is considered. Students examine the multiple ways in which children are positioned in terms of language, ability, disability and learning. The ethnography of communication, classroom discourse, conversational analysis, and intercultural communication as well as the pragmatics of communication, linguistic variation, bilingualism, and code-switching are studied. Pidgins and Creoles, World Englishes, the politics of teaching English, and the role of the profession are addressed.

The pre-requisite of TAL 802 is required or membership in the NYC Teaching Fellow Student Group.

Credits: 3

Annually

TAL 868 Second Language Literacy and Biliteracy

This course addresses the connection between literacy and second language acquisition highlighting the theory and research on the development of literacy in the native language, second language literacy, and biliteracy. Taking an additive approach, the course examines the linguistic and sociocultural foundations in the development of literacy among English Language Learners and the relationships between biliteracy and content knowledge development. Students learn to teach for the development of academic language as well as for the development of language for a variety of purposes. Approaches to teaching reading and writing in the second language as well as ways to develop biliteracy are addressed. Students examine curricula and literature for children and adolescents as well as available technology to teach literacy to ELLs.

The pre-requisites of TAL 802 and 828 are required.

Credits: 3

Annually

TAL 871 Introduction to Reading Difficulties

A course that prepares students to instruct children with a variety of reading difficulties. Current research into the nature and origin of reading difficulties, including dyslexia, will be reviewed. Students will learn how to identify reading difficulties, determine instructional needs, and use diagnostic information for instructional planning. Strategies for preventing and ameliorating difficulties in word identification, comprehension, and written language will be introduced.

The pre-requisite or co-requisite of TAL 830 is required.

Credits: 3

On Demand

TAL 873 Early Literacy

A course that focuses on the importance of language development as a precursor to literacy in children from birth to five years of age, including children who grow up in a bilingual environment and those with developmental delays. It will address the significance of providing a language-rich environment at home and in formal educational settings that offers children opportunities to engage in meaningful acts of communication and social interaction as they construct their own ideas and theories about the principles of language. The importance of children's participation in literacy events with other children and adults will be emphasized. The role of play, sensory manipulation, music, movement, story telling, children's literature and the arts in the development of language and literacy will be explored. Fifteen hours of structured fieldwork required.

The pre-requisite or co-requisite of TAL 868 is required.

Credits: 3

Annually

TAL 875 Adolescent and Young Adult Basic Literacy

A course that addresses the language and literacy needs of adolescents and young adults who have had uneven or poor schooling. Students will learn how to adapt instruction, develop materials, and design appropriate curricula to meet the literacy needs of adolescents and young adults. The specific needs of English language learners, speakers of a second dialect, and those with learning difficulties will be considered. Students will become familiar with reading materials and other educational resources for this population. The use of specialized technology and media will be explored.

The pre-requisite or co-requisite of TAL 830 is required.

Credits: 3

On Occasion

TAL 879 Special Topics in Education

An in-depth and intensive study of specific critical areas of interest in education, as identified by faculty. With approval of program faculty, students may apply a maximum of three credits to their degree program. Ten hours of fieldwork may be required.

Credits: 3

On Occasion

TAL 880 Classroom Inquiry II

A course that aims to develop and improve aspects of teaching practice by deepening students’ understanding of inquiry, documentation, evidence, questions, and knowledge as introduced in Classroom Inquiry I. Students will extend their learning of collaborative modes of classroom inquiry by formulating a question and completing an inquiry into a school or classroom issue, a curricular activity, or an aspect of their teaching practice. Students will explore a range of literature related to the questions being investigated. They will investigate and compare assumptions about persons and knowledge-making underlying various modes of inquiry through exposure to a range of research designs. Thirty hours of structured fieldwork required.
They immerse themselves in the life of a school, recording and thinking about the purposes, complexities, and consequences of what they do as teachers in order to learn from their experiences. Students are supervised by a university faculty member and a cooperating teacher in a school or early childhood center and meet in regularly scheduled seminars. Students currently employed as early childhood teachers (birth-second grade) may, with faculty approval, complete the experience in their place of employment. 75 days. Pass/Fail only. Program approval required. Credits: 3  
Every Fall and Spring  

TAL 881B Student Teaching for the Practicing Teacher Early Childhood  
This course is designed for students seeking 2nd initial certification. It prepares reflective teachers who work to create excellent early childhood classrooms, environments, and schools for young children. With guidance from college faculty, students apply concepts acquired throughout the program to plan, implement, and assess instruction in their own teaching practice. Students currently teaching young children (birth-second grade) complete student teaching in their own classrooms with guidance from college faculty. Students not currently employed in an early childhood setting complete a 20-day student teaching experience under the supervision of a cooperating teacher and college faculty. Students seeking and Advanced Certificate in Early Childhood or Dual Certification in Early Childhood and another area must complete the student teaching required in their first certification before enrolling in TAL 881B. The setting must be approved by early childhood faculty. 20 days. Pass/Fail only. Program approval required. Credits: 3  
Every Fall, Spring and Summer  

TAL 882A Student Teaching: Childhood  
This course is designed for students seeking 1st Initial Certification. It prepares reflective elementary school teachers who work to create excellent elementary classrooms and schools for all urban students. Students participate in every aspect of practice, including planning, implementation, and assessment of curriculum and instruction. They immerse themselves in the life of a school, recording and thinking about the purposes, complexities, and consequences of what they do as teachers in order to learn from their experiences. Students are supervised by a university faculty member and a cooperating teacher in the school and meet in regularly scheduled seminars. Students currently employed as elementary school teachers (grades 1-6) may, with faculty approval, complete the experience in their place of employment. 75 days. Pass/Fail only. Program approval required. Credits: 3  
Every Fall and Spring  

TAL 883A Student Teaching: Adolescence  
This course is designed for students seeking 1st initial certification. It prepares reflective teachers who work to create excellent secondary classrooms and schools for all urban students. Students participate in every aspect of practice, including planning, implementation, and assessment of curriculum and instruction. They immerse themselves in the life of a school, recording and thinking about the purposes, complexities, and consequences of what they do as teachers in order to learn from their experiences. Students are supervised by a university faculty member and a cooperating teacher in the school and meet in regularly scheduled seminars. Students currently employed as secondary school teachers (grades 7-12), teaching in the subject area in which they are seeking certification, may, with faculty approval, complete the experience in their place of employment. 75 days. Pass/Fail only. Program approval required. Credits: 3  
Every Fall and Spring  

TAL 884A Student Teaching: Childhood Special Education  
This course is designed for students seeking 1st initial certification. It prepares reflective teachers who work to create excellent elementary classrooms for urban children with disabilities. Students participate in every aspect of practice, including planning, implementation, and assessment of curriculum and instruction. They immerse themselves in the life of a school, recording and thinking about the purposes, complexities, and consequences of what they do as teachers in order to learn from their experiences. Students are supervised by a university faculty member and a cooperating teacher in the school and meet in regularly scheduled seminars. Students currently employed as childhood special education teachers (grades 1-6) complete the experience in their place of employment. Membership in NYC Teaching Fellow Group or in ISTART Group is required. Credits: 3  
On Demand  

TAL 884B Student Teaching: Alternative Childhood Special Education II  
This course is designed for students in an alternative certification program. It prepares reflective teachers who work to create excellent elementary classrooms for urban children with disabilities. Students participate in every aspect of practice, including planning, implementation, and assessment of curriculum and instruction. They immerse themselves in the life of a school, recording and thinking about the purposes, complexities, and consequences of what they do as teachers in order to learn from their experiences. Students are supervised by a university faculty member and meet in regularly scheduled seminars. Students currently employed as childhood special education teachers (grades 1-6) complete the experience in their place of employment. Membership in NYC Teaching Fellow Group or in ISTART Group is required. Credits: 3  
On Demand
TAL 884E Student Teaching for the Practicing Teachers Alternate Childhood Special Education I
This course is designed for students in an alternative certification program. It prepares reflective teachers who work to create excellent elementary classrooms for urban children with disabilities. Students participate in every aspect of practice, including planning, implementation, and assessment of curriculum and instruction. They immerse themselves in the life of a school, recording and thinking about the purposes, complexities, and consequences of what they do as teachers in order to learn from their experiences. Students are supervised by a university faculty member and meet in regularly scheduled seminars. Students currently employed as childhood special education teachers (grades 1-6) complete the experience in their place of employment.
Membership in NYC Teaching Fellow Group or in ISTART Group is required.
Credits: 0
On Demand

TAL 884F Student Teaching for the Practicing Teachers Alternate Childhood Special Education II
This course is designed for students in an alternative certification program. It prepares reflective teachers who work to create excellent elementary classrooms for urban children with disabilities. Students participate in every aspect of practice, including planning, implementation, and assessment of curriculum and instruction. They immerse themselves in the life of a school, recording and thinking about the purposes, complexities, and consequences of what they do as teachers in order to learn from their experiences. Students are supervised by a university faculty member and meet in regularly scheduled seminars. Students currently employed as childhood special education teachers (grades 1-6) complete the experience in their place of employment.
Membership in NYC Teaching Fellow Group or in ISTART Group is required.
Credits: 0
On Demand

TAL 885A Student Teaching Adolescence Special Education
This course is designed for students seeking 1st initial certification. It prepares reflective teachers who work to create excellent secondary classrooms for urban students with disabilities. Students participate in every aspect of practice, including planning, implementation, and assessment of curriculum and instruction. They immerse themselves in the life of a secondary school, recording and thinking about the purposes, complexities, and consequences of what they do as teachers in order to learn from their experiences. Students are supervised by a university faculty member and a cooperating teacher in the school and meet in regularly scheduled seminars. Students currently employed as adolescent special education teachers (grades 7-12) may, with faculty approval, complete the experience in their place of employment. 75 days. Pass/Fail only. Program approval required.
Credits: 3
Every Fall and Spring

TAL 885B Student Teaching for the Practicing Teachers Adolescence Special Education
This course is designed for students seeking 2nd initial certification. It prepares reflective teachers who work to create excellent secondary classrooms and schools for all urban students. Students apply concepts acquired throughout the program to plan, implement, and assess instruction in their own teaching practice. Students currently teaching adolescents with disabilities complete the student teaching in their own classrooms with guidance from college faculty. Students not currently teaching adolescents with disabilities complete a 20-day student teaching experience under the supervision of a cooperating teacher and college faculty. The setting must be approved by special education faculty. Pass/Fail only. Program approval required.
Credits: 1
Every Fall and Spring

TAL 885C Student Teaching Adolescence Special Education I
This course is designed for students in an alternative certification program. It prepares reflective teachers who work to create excellent secondary classrooms for urban adolescents with disabilities. Students participate in every aspect of practice, including planning, implementation, and assessment of curriculum and instruction. They immerse themselves in the life of a school, recording and thinking about the purposes, complexities, and consequences of what they do as teachers in order to learn from their experiences. Students are supervised by a university faculty member and meet in regularly scheduled seminars. Students currently employed as adolescent special education teachers (grades 7-12) complete the student teaching experience under the supervision of a cooperating teacher and college faculty. The setting must be approved by special education faculty. Pass/Fail only. Program approval required.

TAL 890 Overview of Teaching in Alternative Settings

This seminar explores the history and development of education in alternative settings. Special attention is paid to the differences between teaching ESOL in public schools and the kind of teaching that takes place in museums, parks, community-based organizations, schools other than public ones, homes, and clinical settings. During the first half of the course, students visit a variety of alternative settings. During the second half of the course, students select a setting and participate in planning, implementation, and assessment of an educational plan. Pass/Fail only.

TAL 971 Capstone Seminar

In this seminar, students meet graduation requirements with the creation and submission of a portfolio that demonstrates their attainment of the TAL program standards in the areas of Knowledge, Enquiry, Empathy, Pluralism and Social Commitment (the KEEPS Claims). Through the selection and examination of prior coursework in the context of readings from the contemporary and historical field of education, students reflect on the knowledge and skills gained through the program and the implications for their teaching practice. The prerequisite of TAL 880 is required and the prerequisite or corequisite from one of the following courses is required: TAL 881A, 881B, 882A, 883A, 884A, 884B, 884F, 885A, 885B, 885F or 890.

TAL 975 Final Inquiry Seminars TESOL

This capstone seminar uses the knowledge and skills gained through the program to write and present an in-depth study on an aspect of second language acquisition and teaching practice. Students continue the work begun in Classroom Inquiry I and II and complete a project that looks...
The focus of this course is to help administrators become lifelong consumers and producers of research. Students will develop technological skill in locating research materials from varied sources. Students will learn to read, analyze, and evaluate qualitative and quantitative research articles and to use the information gained to inform decision-making in order to support teaching/learning/achievement. Students will also learn to critically evaluate published research, formulate research questions, write research reports, and develop research proposals that will become the bases for internship projects. Strategies for sharing information with teachers and parents, disseminating research data, and understanding the impact of research on practice will be explored. The prerequisite of TLL 930 is required or Department consent. Credits: 3 Annually

TLL 930 Administrative Core I: An Overview
This course will focus on organizational development and systems theory. It deals with the structural, cultural, political, business, human relations, and policy elements of traditional and non-traditional schools as social systems concerned with inputs, environments, transformation, and outcomes. Students will be expected to identify personal leadership, supervisory, and administrative abilities and demonstrate skills in the functions and processes of leadership, management, interpersonal communication, and motivation for school change by linking theory and practice in classroom-based and field-based activities. Strategies for the implementation of initiatives and the evaluation of their impact on schools are discussed. Credits: 6 Every Fall

TLL 931A Administrative Core II: Community Relations
This course broadens the focus from school/district/regional related theories and practices to those that define the nature of public schooling and interrelationships between the educational agency and local, state, federal, and community forces as they impact on teaching, learning and achievement. Emphasis is put on gaining support for safe and secure learning environments. Legal frameworks with respect to community needs and their right to know are addressed. Students will use technological, interpersonal and research skills to explore community, understand the relationship between school and community, and plan for the involvement of community in the life of the school and the district/region. The prerequisite of TLL 930 is required or Department consent. Credits: 3 Annually

TLL 931B Research Methods In Administration
The focus of this course is to help administrators and responsibilities, separation of church and state, censorship, freedom of speech, affirmative action, and educational equity and access. Special attention will be given to the implications of the No Child Left Behind legislation. Case law and case studies will be used as they relate to policy development. Credits: 3 Annually

TLL 932 Assessment in Administration
This course will focus on understanding assessment theory. Students will become knowledgeable about obtaining assessment data from automated informational links and using those data in order to make administrative decisions about students, faculty, and curriculum. Emphasis will also be placed on the ways in which administrators use standardized and alternative assessments of students, formative and summative assessments of faculty, and program evaluation. Issues of reliability and validity and their relationship to the decision-making process will be explored. The effects of diversity in language, culture, gender, and ability/disability on the use of assessment data will be investigated. Credits: 3 Annually

TLL 933 School Business Administration
This course will focus on the business-related aspects of school and district/regional administration as they support the improvement of the instructional program. Emphasis will be given to business management practices, i.e., funding sources, budgeting, automated accounting systems, and federal, state, and municipal mandates. In addition, strategic human resource planning including recruiting and selection techniques will be explored. Students will review the collective bargaining process and understand the application of technology to the human resource field. The prerequisite of TLL 930 is required or Department consent. Credits: 3 Annually

TLL 934 Curriculum Development
A review of learning theory, human development, and motivation as they relate to teaching, learning and achievement. Principles of curriculum development, design, and assessment to enhance teacher practice in standard-based and constructivist classrooms will be studied. Students will focus on the learning standards and analyze, critically evaluate, utilize, and develop strategies for engaging teachers in the process of assessing academic needs, implementing and adapting curriculum, and evaluating outcomes. The importance of technology in student learning will be included. Organizational decision-making and problem-solving skills needed in the development of appropriate curricula will be discussed. Connecting the curriculum to the world of work will be explored. Credits: 3 Annually

TLL 935 Education and the Law
This course will explore the complex role of today’s school district/regional administrator as an effective leader in the broader, urban-inclusive educational community intent on enhanced student achievement. Students will explore district/regional composition and understand strategies and develop skills for: building and articulating a systemwide vision; coordinating groups for achieving district/regional short-range and long-range goals and objectives; developing procedures and policies; generating and allocating resources; developing a research-based approach to building safe and effective schools; developing leadership in school and community groups; working with governance groups; capacity building, negotiating, and program
planning and accountability.

**TLL 998 Special Topics in School Leadership**
This course is designed to provide participants with the opportunity to explore one topic of administrative importance in depth. Topics will vary each semester.
Credits: 1 to 3
On Occasion
The School of Health Professions at LIU Brooklyn is dedicated to providing superior quality education in the health professions to a diverse student body. With strong ties to the community and to many health care facilities that support educational efforts as well as research, our programs address clinical health care, community-based health and social issues. The school prepares students for careers in the areas of respiratory care; diagnostic medical sonography; physician assistant; occupational therapy; athletic training, health and exercise science (including sport management and exercise physiology); physical therapy; social work; and public health. The programs also introduce students to interprofessional practice.

The programs span the undergraduate, graduate and doctoral levels, and lead to careers in growing professions that offer a wealth of career opportunities. Graduates of our programs are in high demand in the current health care job market, and this level of demand will continue for many years to come.

The School of Health Professions’ faculty members are renowned experts in their fields and have vast experience in their respective areas of specialization, which contributes to their exceptional teaching abilities. Many faculty members are engaged in research, which greatly contributes to the learning experience of their students and to their own professional growth.

The School of Health Professions offers a three year post-baccalaureate Doctor of Physical Therapy (DPT) degree. The school offers the B.S./M.S. degree program in Occupational Therapy; the B.S./M.S. in Athletic Training; the M.S. in Physician Assistant Studies; the M.S.W. in Social Work; and a Master of Public Health degree with a concentration in Health Education, Advocacy and Communications. The school also offers the M.S. degree in Exercise Science with tracks in:

- Exercise Physiology and Sports Nutrition
- Strength and Conditioning and Sports Nutrition
- Fitness for Special Populations

For information, please contact the Dean’s Office at 718-780-6578, fax 718-780-4561, or visit the website at www.liu.edu/brooklyn/shp.

Criminal Background Checks and Drug Testing

Many clinical/field experience affiliates, i.e., hospitals and clinics now require the completion of criminal background checks and/or drug testing for employees, volunteers and students affiliated with the site. Therefore, School of Health Professions students who plan to participate in a clinical/field experience may be asked to undergo a criminal background check, and/or a drug screen. A criminal conviction and/or the use of illegal drugs may impede or bar your entry into your chosen field of study. Students desiring entrance into the School of Health Professions should be aware that our clinical/field affiliates have the right to reject or remove a student from the site if a criminal record is discovered or if a drug test is positive. In the event that a student is rejected from a clinical/field site due to information contained in the criminal background check, or drug screen, you may be unable to complete a required clinical/field experience. If you are unable to complete program requirements, you may be advised to withdraw from the program.

In addition, School of Health Professions students should be aware that the presence of a criminal record could result in the refusal of the licensing/certification/registration agencies (NBRC and or state licensing board) to issue the credential or license to practice. Prospective students are strongly encouraged to contact pertinent state licensing board to inquire whether a criminal record, including driving offenses would preclude the individual from eligibility to obtain a license/certification.
DIVISION OF ATHLETIC TRAINING, HEALTH AND EXERCISE SCIENCE

Division Director and Associate Professor: Eugene Spatz, M.S.
Associate Professor: David Spierer, Ed.D.
Assistant Professors: Tracey Rawls-Martin, M.S., ATC; Amerigo Rossi, B.A., M.S.; Kevin Duffy, M.S., ATC, CSCS, CES, PES, Director, Athletic Training Education Program; Melissa Lent, M.S.Ed., Associate Director of the B.S. in Health Science Program; Scott Westervelt, M.S., Director of Practicum for the Health Science Program; Nikki Carosone Russo, M.S., ACSM cPT, Student Service Advisor for the B.S. in Health Science Program; Joe Branch, Director of Sport Management Concentration Program; Loeja Carter, Ph.D.; Bryn Van Patton, MS Ed, ATC, EMT, Clinical Coordinator, Athletic Training Education Program; Anthony Ricci, MS, CNS
Adjunct Faculty: 30

M.S. in Exercise Science

The Masters of Science in Exercise Science offers a comprehensive educational experience including lectures and laboratories on the constructs and applications of advanced exercise physiology. Specific concentrations serve to position graduates and career professionals in an ever-changing health care environment. The program is designed to enhance students’ marketability by combining sports nutrition with three well-established and popular areas of study: exercise physiology, strength and conditioning and fitness for special populations. Although not three distinct areas of the program, the program also offers academic flexibility with several elective courses. In addition, an active research laboratory allows students the opportunity to pursue their own data collection or get involved as a volunteer or graduate assistant. The M.S. curriculum has an overall credit requirement of 36 credits with the intention of developing graduates that can be competitive across the academic and career landscape while providing students with an education that is both satisfying and valuable.

The concentrations for the M.S. in Exercise Science include:

- Exercise Physiology and Sports Nutrition
- Strength and Conditioning and Sports Nutrition
- Fitness for Special Populations

Admission Requirements

To qualify for acceptance into the M.S. in Exercise Science program:

- Entering students (including transfer students) must have a bachelor’s degree from an accredited college
- Submit a general application for admission through My LIU
- The application must be accompanied by at least two letters of reference (preferably one academic and one personal)

To qualify for acceptance into any of the three concentrations students must:

- Must have a bachelor’s degree from an accredited college
- Attain a grade point average of 2.5 or above
- Undergo an interview with the director of the concentration

The 158-credit dual B.S./M.S. degree in Athletic Training, offered by the Athletic Training Program (ATP), prepares students to take the Board of Certification (BOC) exam to enter the field as a certified athletic trainer (ATC®). One of only four B.S./M.S. programs offered in the United States, the ATP is accredited by the Commission on Accreditation of Athletic Training Education (CAATE), and provides entry-level students with advanced teaching fellows; and a mentorship program that promotes further sharing of knowledge and experience.

**Program Goals**
- To prepare student to pass the BOC examination for athletic trainers through required GPA and competency/proficiency evaluation minimum
- To offer clinical experiences in appropriate settings that provide adequate exposure to required clinical education competencies and proficiencies
- To provide network opportunities for possible future employment

**Accreditation**
The program is registered with the New York State Education Department and is accredited by the Commission on Accreditation of Athletic Training Education (CAATE).

**Athletic Training Candidacy**
Prior to entering the professional phase of the Athletic Training program, students can attend LIU Brooklyn on a part- or a full-time basis, completing their courses in the pre-professional phase of the program. Students have at least three years to explore their career choice, complete the required athletic training volunteer experience, demonstrate their academic ability and complete their prerequisite work.

At the end of their pre-professional course of study, students apply for admission into the professional phase of the program. Admission to the professional phase is both competitive and selective. A limited number of students will be admitted annually. Enrollment in the pre-professional phase and meeting minimum application criteria does not by itself guarantee entrance into the professional phase of study.

**Application to the Professional Phase**
All pre-athletic training candidates, LIU students and transfer applicants seeking admission to the program’s professional phase must:
- Have a cumulative college grade point average of at least 2.75 or better
- Have satisfactorily completed all prerequisite work
- Submit official transcripts from all colleges and universities attended (Grades more than 10 years old cannot be accepted.)
- Submit two letters of recommendation from individuals involved in the field of athletic training (at least one from an ATC)
- Submit a completed Athletic Training professional phase program application
- Have completed a minimum of 360 hours of volunteer work experience under the supervision of a certified athletic trainer
- Completed at least 91 credits prior to application into professional phase.
- Meet the technical standards of the program (see technical standards below)

**Transfer Student Policy**
Students from other colleges and universities who satisfy the prerequisite requirements may apply for admission to the professional phase of the B.S./M.S. degree program. However, the student must first be accepted to LIU Brooklyn as an undergraduate transfer student through the Office of Admissions application process. Once Office of Admissions accepts the student, the application to the professional phase will then be evaluated. At this time, students may petition the program for acceptance of the following professional phase courses from their previous institution: SPS 151,152,189. No other professional phase SPS or EXS courses are eligible for transfer.

**Technical Standards for the Athletic Training Program**
The Athletic Training Program (ATP) at LIU is a rigorous and intense program that places specific requirements and demands on the students enrolled in the program. An objective of this program is to prepare graduates to enter a variety of employment settings and to render care to a wide spectrum of individuals engaged in physical activity. The technical standards set forth by the ATP establish the essential qualities considered necessary for students admitted to this program to achieve the knowledge, skills, and competencies of an entry-level athletic trainer, as well as meet the expectations of the program’s accrediting agency (Commission on Accreditation of Athletic Training Education [CAATE]). Please refer to the Athletic Training Student Handbook regarding the ability to meet the technical standards.

**Student Health Records**
Students must annually present a completed LIU Health Examination Form. This includes the requirement of providing proof of immunization, including HBV. Please refer to the Athletic Training Student Handbook for the specific details, including cost, as well as the form.

**B.S. / M.S., Athletic Training**
[Program Code 24403]

**Graduation Requirements**
Students must satisfy the Placement, Proficiency, Orientation and Core Curriculum criteria outlined in the Graduation Requirements section of this bulletin.

**Core Curriculum requirements for this major are summarized below:**
- Core Seminar 3 credits
- Humanities
  - English Composition 3 credits
  - English Literature 6 credits
  - Philosophy 6 credits
  - Foreign Language Not Required
### Social Sciences
- History: 6 credits
- Psychology: 3 credits
- Social Sciences (ANT, ECO, POL, SOC): 3 credits

### Science and Mathematics
- Mathematics: 3-4 credits
- Laboratory Science (BIO 3)

### Communication, Visual & Performing Arts
- Speech: 3 credits
- Visual & Performing Arts: Not Required (ART, DNC, MUS, THE)

### Ancillary Course Requirements:
Must complete the following science courses.
- BIO 137: Human Anatomy and Physiology I: 4.00
- BIO 138: Human Anatomy and Physiology II: 4.00
- CHM 3X: General Chemistry: 4.00

Choose one of the following Math courses.
- MTH 100: Introductory Statistics: 3.00
- PSY 150: Statistics in Psychology: 3.00
- PHY 20: The Physical Universe: 4.00

### Major Requirements
**Must Complete All Undergraduate Courses Below.**
- SPS 143: Responding to Emergencies in Sport and Physical Activity: 3.00
- SPS 144: Principles of Taping, Bracing and Protective Athletic Equipment: 2.00
- SPS 147: Concepts in Athletic Training: 2.00
- SPS 151: Functional Kinesiology: 3.00
- SPS 152: Exercise Physiology I: 3.00
- SPS 162: Introduction to Clinical Education in Athletic Training: 3.00
- SPS 172: Clinical Assessment of the Lower Extremity: 4.00
- SPS 173: Clinical Assessment of the Head, Neck & Upper Extremity: 4.00
- SPS 189: Basic Biomechanics and Motion Analysis: 3.00

**Must Complete All Graduate Courses Below.**
- EXS 540: Research Methods in Exercise Science: 3.00
- EXS 576: Therapeutic Exercise in Athletic Training: 3.00
- EXS 577: Therapeutic Modalities in Athletic Training: 3.00
- EXS 645: Sports Nutrition and Pharmacology in Sports: 3.00
- EXS 655: Pathology and Illness in Sport and Physical Activity: 3.00
- EXS 660: Clinical Education in Athletic Training II: 4.00
- EXS 709: Clinical Education in Athletic Training III: 5.00
- EXS 710: Organization and Administration in Athletic Training: 3.00
- EXS 711: Clinical Education in Athletic Training IV: 4.00
- EXS 721: Seminar: Current Issues and Topics in Athletic Training: 3.00

### Credit and GPA Requirements
- Minimum Total Credits: 158
- Minimum Liberal Arts and Sciences Credits: 64
- Elective Credits: 27
- Minimum Major AT Credits Undergraduate: 27
- Minimum Major AT Credits Graduate: 40
- Minimum Credits of Courses > 100 Level: 48
- Ancillary Course Requirements: See Above
- Minimum Major GPA: 2.75
- Minimum Overall GPA: 2.75
LIU Brooklyn

Exercise Science Courses

EXS 500 Personal Training Certification Preparation
This course will provide students with the most current state-of-the-art fitness education. Students will be expected to have a firm grasp of the theories and facts involved with practical fitness testing and programming. Students will apply this information in a practical setting through the performance of laboratory exercises. Each lab will address the knowledge and skills that a fitness professional must possess to safely implement effective fitness programs. Students will be prepared to take personal training certification exam offered by the National Academy of Sports Medicine (NASM).
Credits: 3
Every Fall, Spring and Summer

EXS 501 Exercise Physiology in Chronic Disease I
A course designed to provide students with an in-depth understanding and appreciation of the effect of exercise in chronic illness. Class activities include theory-based lectures; group case studies and role-play using standardized patients. Students will learn how to analyze and interpret exercise and medical data as it relates to disease, and prescribe appropriate exercise parameters. This course has an additional fee.
Credits: 3
Every Fall and Spring

EXS 507 Corrective Exercise Specialist (CES) Preparation
This course is designed to enable fitness professionals to expand their knowledge and abilities in human movement science. Students develop an expertise in injury prevention and recovery working with deconditioned and conditioned populations. Specifically students learn the movement assessment process using the Functional Movement Screen, gait analysis etc., and develop an individualized correct exercise program. Common conditions include low back pain, ACL injuries and muscle imbalance. The course prepares students for the well-recognized NASM Corrective Exercise Specialist (CES) exam. This course has an additional fee.
Credits: 3
Every Fall

EXS 508 Certified Strength and Conditioning Specialist (CSCS) Preparation
This course covers topics such as sports physiology, sport specific conditioning and training, exercise physiology, instructional techniques, pediatric sports, functional movement training and developing balance, mobility, agility, speed, strength and power of an athlete. Students will learn program design variables for improving these areas. Students will be prepared to sit for the CSCS Certification exam administered by the National Strength and Conditioning Association (NSCA).
Credits: 3
Every Fall

EXS 510 Nutrition and Wellness in Physical Activity
A course designed to expose students to basic concepts of nutrition for non-athletic and athletic populations. Students will be introduced to daily requirements for macro-nutrients and will also analyze a nutritional recall. Emphasis is also placed on current nutrition and exercise guidelines essential for a healthy quality of life. This course has an additional fee.
Credits: 3
Every Fall

EXS 518 Technology in Health and Disease
This course will explore the use of new devices and technologies currently utilized to monitor, assess, and evaluate healthy and disease states. Students will learn the theory behind the engineering of such devices as heart rate monitors, pedometers, accelerometers, and automated systems. Students will also have the opportunity to experience these items in real-time setting.
Credits: 3
On Occasion

EXS 520 Program Design in Adapted Physical Activity
An introduction to various types of research designs applicable to the planning and design of individualized adapted physical activity and daily living programs for people with developmental disabilities. Skills are developed in designing rubric assessments, data collection, identification of appropriate goals and objectives, task analysis, modification of equipment and activities, picture rehearsals, prompts and program evaluation.
Credits: 3
On Occasion

EXS 524 Exercise and Fitness for Special Populations
This course provides didactic and practical experiences in developing exercise programs for individuals who have a specific disability or health limitation including aging, arthritis, diabetes, intellectual disabilities, spinal cord injuries and asthma. This course covers applied methods of exercise prescription for individuals who require adaptations and modifications to an exercise program. This course covers a brief summary of the physiology and pathophysiology of each condition, selected research on each disability or health condition and translation of the research in practical exercise guidelines and functional fitness activities to facilitate effective program development. Class activities will include theory-based lecture and practical experiences in the functional training lab.
Credits: 3
Every Fall and Spring

EXS 527 Grant Writing for Health and Fitness Professionals
This course will provide an introduction to the basic skills, principles, and techniques of successful grant writing. Students completing the course will work to gain an understanding of fundamental components of a grant proposal such as the abstract or summary, background and significance, specific aims/goals and objectives, project design and methods, sustainability, assessment, broader impacts, budget, and budget justification. Students will further learn how to locate available funding opportunities from Federal and private institutions, focus on skills needed to develop competitive grant proposals and finally prepare a complete grant proposal to an agency of their choice. If the student is planning to continue their education onto the doctoral level in any biomedical related discipline will be encouraged to submit to the NIH Ruth L. Kirchstein MRSA Service Award. Applications will be reviewed prior to submission by a mixed board of internal and external reviewers to enhance competitiveness of applications and to provide feedback for further development of a competitive application.
Credits: 3
On Occasion

EXS 530 Adapted Physical Activity for Individuals with Autism
This course provides students with the opportunity to learn applied behavior analysis (ABA) and its application to teaching exercise and fitness skills to people with autism. Topics include exercise physiology adaptations of balance, coordination, strength and endurance, task analysis of exercises, prompting continuum, environmental equipment and instructional modifications, reinforcement, discrete trial communication and rubrics assessment of exercise skills.
Credits: 3
Every Spring

EXS 535 Field Experience I
An opportunity for the student to gain experience in his or her chosen track by spending a minimum of 125 hours at a public or private organization. Students will be placed in areas related to their selected track: Exercise Physiology and Sports Nutrition, Strength and Conditioning, or Fitness for Special Populations.
Credits: 3
Every Semester

EXS 540 Research Methods in Exercise Science
An introduction to various types of research designs and statistical methods relating to physical activity within the disciplines of exercise physiology, fitness for special populations, strength and conditioning, and athletic training. The student also learns to work with basic statistical research in the formulation of the various study designs. The student is able to apply the above to solve a
EXS 545 Field Experience II
An opportunity for the student to gain additional experience in his or her chosen track by spending a minimum of 90 hours at a public or private institution. Students will be placed in areas related to selected track: Exercise Physiology and Sports Nutrition, Strength and Conditioning, or Fitness for Special Populations.
Credits: 3
Every Semester

EXS 560 Sports Psychology
This course will enable students to apply the basic principles of sport psychology directly to competitive athletes. By understanding the relationship between sport psychology and athletic performance, students will be better prepared to achieve professional goals in the areas of coaching, exercise science and strength and conditioning for athletes.
Credits: 3
Every Semester

EXS 576 Therapeutic Exercise in Athletic Training
A review of the knowledge and skills in therapeutic exercise required of the entry-level athletic trainer, including planning, implementing, documenting, and evaluating the efficacy of therapeutic exercise programs for the rehabilitation/reconditioning of injuries and illnesses of the physically active.
The pre-requisite of HS 577 is required or permission
Credits: 3
Every Spring

EXS 577 Therapeutic Modalities in Athletic Training
A review of the knowledge and skills in therapeutic modalities required by an entry-level athletic trainer, including planning, implementing, documenting, and evaluating the efficacy of the modalities used in the treatment and rehabilitation of injuries/illnesses of athletes.
The pre-requisite of SPS 173 is required or permission of the Division.
Credits: 3
Every Fall and Spring

EXS 581 Psycho-Social, Cultural and Political Aspects of Disability
This course examines basic principles and philosophies of disability in relationship to institutionalization, normalization, inclusion, diversity and disability rights movement, employment, government policies and international perspectives.
Credits: 3
On Occasion

EXS 591 Entrepreneurship in Fitness and Health
This course aims to provide the student with a hands-on introduction to the venture creation process of business with a strong influence and direction toward fitness/wellness entrepreneurship. This course is designed for a variety of student interests and backgrounds. It directly addresses the concerns of students wanting to become entrepreneur in the future. This course will take the student from the innovation stage to the expanding or ending the venture.
Credits: 3
Alternate Spring

EXS 592 Physiology of Exercise for Healthy and Aging
This course applies the science of exercise physiology to an analysis of the aging process. It identifies the positive effects that regular exercise and physical activity have on longevity, delaying specific diseases, decreasing morbidity and increasing quality of life. Course content focuses on three groups found in the aging and health spectrum; average aging individuals, frail elderly and master athletes.
The pre-requisite of EXS 524 is required.
Credits: 3
Alternate Spring

EXS 600 Exercise Physiology in Chronic Disease II
Lecture topics in this course will focus on pathophysiological content related to chronic disease. Students will learn how to apply testing and training techniques used in chronic disease populations through role play and simulated environments. The latest concepts of the role of exercise, fitness, and physical activity on diseases such as asthma, type II diabetes, obesity, heart failure, osteoporosis, and aging will be discussed. There will also be a laboratory focus on diagnostic testing (e.g., ECG) in chronic conditions (i.e., asthma, COPD, CAD).
The pre-requisite of EXS 501 is required.
Credits: 3
Every Spring

EXS 615 Performance Enhancement Specialist Preparation
Students will learn progressive integrated training techniques and programs to enable athletes to perform at the highest level. Utilizing National Academy of Sports Medicine (NASM) optimum performance training methodology, students will learn how to individualize training programs and deliver consistent results in performance enhancement and reconditioning. Additional course fees will cover review materials and registration for the NASM PES Certification exam.
Credits: 3
Every Spring

EXS 620 Analytical Approach to Exercise Prescription
Students will undergo informative discussion on the basic components of fitness and their relation to assessment and evaluation of athletes, non-athletes and special populations. This course will consist of a strong practical component where under the supervision of a faculty member, students develop a model program of exercise prescription focused on current recommendations for fitness and health, emphasizing metabolic equations set forth by governing bodies such as the American Heart Association and the American College of Sports Medicine. This course is appropriate for students interested in clinical work upon graduation.
Credits: 3
Every Spring

EXS 645 Sports Nutrition and Pharmacology in Sports
This course will cover content related to pharmacology and supplementation and is designed to meet specific athletic training competencies in pharmacology. Course content will provide students with a strong foundation in the area of sports nutrition and supplementation. The impact of supplementation, nutrition and pharmacological agents on athletic performance will be discussed. The content of this course is designed to equip students with the knowledge, skills and abilities necessary to become certified sports nutritionists. This course is appropriate for the International Society of Sports Nutrition (ISSN). Course activities will include current topic debates, theoretical concepts and analysis of current research in the areas of pharmacology and sports nutrition.
Credits: 3
Every Spring

EXS 650 Cardiopulmonary Health and Disease
This course is designed to provide the student with a basic understanding of current topics in cardiovascular health, the pathophysiology of disorders limiting exercise, the significance in athletes and those with such conditions/disease, and management of these disorders through exercise and nutrition. Topics to be addressed include, cardiomyopathies, ischemia, infarction, coronary artery disease, valvular diseases, peripheral arterial diseases, and atherosclerosis. Special topics to be covered include; the effects of obesity, metabolic syndrome, diabetes mellitus, and endocrine disorders on the cardiovascular systems. Additionally an emphasis on the affects of nutrition and exercise on cardiovascular health and disease will pervade each discussion and will be also addressed as independent topics.
The pre-requisite of HS 501 is required.
Credits: 3
Every Spring

EXS 652 Overview of Diagnostic Testing
Students will be introduced to theoretical and practical aspects of diagnostic testing, including x-ray, MRI, CT Scan, Cardiopulmonary testing, electrocardiography. Class discussions will focus on
the use of these tools and their impact in medicine in past, present, and future.

Credits: 3
On Occasion

**EXS 653 Advanced Laboratory Techniques in Exercise Physiology**
An exploration of new techniques to test the limits of exercise science. Students will participate in class discussions related to venous occlusion plethysmography, isokinetic assessment, and lactate threshold testing. Practical applications in the laboratory will allow for students to experience first hand, how these techniques can be used by an exercise physiologist for teaching and research purposes.

The pre-requisite of EXS 501 is required.

Credits: 3
Every Fall

**EXS 655 Pathology and Illness in Sport and Physical Activity**
The study of disease processes associated with a variety of systems of the human body including, but not limited to cardiovascular, neurological, musculoskeletal, gastrointestinal, renal, hepatic, and respiratory systems. Special emphasis is placed on the relationship between a variety of such diseases and how they may affect human performance and rehabilitation. Demonstration and laboratory reinforced material presented in lecture.

Credits: 3
Every Spring

**EXS 660 Clinical Education in Athletic Training II**
This course requires the student to apply their knowledge in a hands-on, practical environment suitable for athletic training student. Each student will be assigned to a Preceptor in a clinical situation according to each individual plan of study. The focus of this course will be on the collection of knowledge, skills, and values required of the entry-level Certified Athletic Trainer to plan, implement, document, and evaluate the efficacy of therapeutic rehabilitation program for injuries and illnesses of the physically active. Open only to the Athletic Training Students. This course requires additional time at the clinical site (minimum of 200 hours) and in addition to class meeting schedule. The pre-requisites of EXS 577 and 660 are required.

Credits: 3
Every Spring

**EXS 670 Research in Health, Exercise and Sports Reading Between the Lines**
Past and current literature in health, exercise and sport will be discussed. Didactic and practical experience will encourage students to inquire as to what is truth and what is fluff. Students will also learn the techniques and process of writing a research paper, specific aspects such as introduction, methods, results and discussion will be explored.

The pre-requisite of EXS 540 is required.

Credits: 3
On Occasion

**EXS 700 Biomechanics of Human Performance**
The use of recently developed instrumentation to study applied anatomy and kinesiology of the human body. Analyses of normal and pathological conditions are studied and compared with emphasis on biomechanics of human performance. Demonstration and laboratory reinforce material presented. Recommended background in physics and kinesiology.

Credits: 3
Every Spring

**EXS 705 Individual Problems**
The course provides an opportunity to select and research a topic of interest. The student must present and orally defend his or her research findings.

Credits: 3
Every Fall, Spring and Summer

**EXS 709 Clinical Education in Athletic Training IV**
An opportunity for the student to apply his or her knowledge in a hands-on, practical environment suitable for athletic training student. Each student will be assigned to a Preceptor in a clinical situation according to each individual plan of study and fulfill all exposure requirements. The focus will be on the collection of knowledge, skills, and values required of the entry-level Certified Athletic Trainer to plan, implement, document, and evaluate the efficacy of therapeutic modality programs for the rehabilitation/reconditioning of injuries to and illnesses of the physically active. This course requires additional hours at the clinical site (minimum of 200 hours) and the standard meeting times listed in the schedule of classes. Open only to Athletic Training Students. The pre-requisite of EXS 661 is required.

Credits: 3
Every Fall

**EXS 710 Organization and Administration in Athletic Training**
This course will cover the organization and administration of an athletic training facility. Review of topics include: written and electronic medical record keeping, medico-legal aspects, preparation of budgets, purchasing, facility design, personnel management, public relations, liability and health insurance.

Credits: 3
Every Fall

**EXS 720 Neuroscience and Exercise**
A study of the gross and microscopic structures and functions of the human nervous system, including the spinal cord and peripheral and autonomic nervous systems as they pertain to physical activity and disease. Laboratory examinations of human models are offered. A sequence of lectures is given with laboratory work.

Credits: 3
On Occasion

**EXS 721 Seminar: Current Issues and Topics in Athletic Training**
Students will participate in and lead discussions regarding current issues and topics (legislature, insurance, credentialing, etc.) in Athletic Training. It is designed to meet specific athletic training competencies in professional development. Students will also be required to develop healthcare educational programming specific to a target audience (i.e. poster presentations, lecture, etc.) in a professional forum.

Credits: 3
On Occasion

**EXS 746 Multidisciplinary Approaches to Autism**
This course will review autism spectrum disorders (ASD). There will be an emphasis on etiology, symptomology (i.e., social, communicative, motor, and stereotypical issues), identification, and appropriate supports for individuals with autism.

The National Autism Council National Standards Project Report will be reviewed and discussed as a basis for developing evidence-based practice guidelines in working with individuals with ASD. Students will have an opportunity to be exposed to current research regarding ASD, as well as current legal issues, legislations and movements that define current practice in the field.

Credits: 3
Cross-Listings: CSP 746, EXS 746
On Occasion

**EXS 750 Alternative Therapies in Health**
A course designed to expand the knowledge of sports medicine practitioners in alternative
approaches to health care. Students have the opportunity to learn and experience specific hands-on techniques used to enhance sports performance and activities of daily living. The students will be introduced to alternative modalities including Acupuncture, Herbal Medicine, Massage Therapy, Qui Kung exercise, Meridian Therapy and the concept of Yin-Yang. A review of both old and new case studies are used throughout the course to illustrate advances in the field of sports medicine.

Credits: 3
On Occasion

EXS 798 Research Thesis I
Students choosing this option will select a research topic in their field of study in consultation with a faculty advisor. Students enrolled for Thesis I will complete a written thesis proposal for faculty to review. The proposal should include the purpose, hypothesis, methodology and literature review. Implementation of their proposed research is contingent upon faculty and IRB approval. This course has an additional fee. Pass/Fail.

Credits: 3
On Demand

EXS 899 Research Thesis II
Students enrolled in this course will complete their research begun in Thesis I and writing a dissertation and oral defense. Issues regarding the statistical analyses and interpretation of research findings are of primary concern. The completion of the thesis is contingent upon faculty approval and meeting university guidelines for thesis submission. This course has an additional fee. Pass/Fail.

Credits: 3
On Demand
DEPARTMENT OF OCCUPATIONAL THERAPY

Chairperson: Supawadee Cindy Lee, Ph.D., OTR/L, Assistant Professor
Academic Fieldwork Coordinators: Dale Coffin, M.S., OTR/L, Assistant Professor; Michelle Collins, M.S., OTR/L
Associate Professors: Michael Saraceno, M.A., OTR/L, CHT; Doris Obler, Ph.D., M.S.W., OTR/L
Assistant Professors: Marta Daly, MA, OTR/L; Lisa Gordon-Handler, MA, Ph.D., OTR;
Evening/Weekend Program Coordinators: Holly Wasserman, M.S. OTR/L, Associate Professor
Adjunct Faculty: 17

The Occupational Therapy Program offers a dual B.S./M.S. degree. It is designed to educate entry-level occupational therapists whose skills and training prepare them to practice competently in the rapidly changing urban health care environment and to equip patients and clients with skills for the workplace and for home. The occupational therapy curriculum offers students the opportunity to focus on individual professional growth, to participate in community-service learning, to refine cultural sensitivity and practice skills, to use health promotion in community settings, to utilize activity to promote health and independence, and to develop the skills required to treat the whole person.

The Occupational Therapy Program is approved by the New York State Education Department and the Accreditation Council for Occupational Therapy Education. Occupational therapy is an upper-division professional program, spanning three years of full-time professional academic courses and clinical work that is integrated with several community-service learning experiences. The professional phase of the program also may be completed on a part-time basis over four years. Students must complete the liberal arts and sciences core curriculum, which offers a rich base of sciences, humanities and social sciences, before entering the professional phase of the program; a minimum of 64 credits in the liberal arts and sciences for the baccalaureate degree are required.

Occupational therapy is a vital health-care and rehabilitation profession whose practitioners help clients to develop or restore and sustain the highest quality of productive life to persons recovering from illness or injury. Occupational therapy is the therapeutic use of self-care, work/productive tasks and play/leisure activities to increase independent function, enhance development and prevent disability. The term occupation refers to activities that are meaningful to the individual within the environments in which the person lives and functions. Occupational therapy promotes healthy lifestyles, prevents disability and facilitates active participation through occupation. It includes adapting tasks and the environment to maximize independence and quality of life. Occupational therapists help people adapt to changes resulting from disability and the aging process, focus on illness and injury prevention, and promote healthy and satisfying lifestyles for people of all ages.

Our faculty is actively involved in promoting community health and wellness through funded research and programs assisting people to achieve their highest level of functioning within the context of their own communities. Our students are involved in these activities as part of their training since their first year in our program. Using a variety of teaching methods and the integration of technology in the coursework, our students develop a comprehensive understanding of practice and build their research skills. Embedded in our curriculum are activities that enhance students’ communication and critical thinking skills contributing to personal and professional growth. Our students are prepared for successful clinical careers and leadership roles within their professional community.

ADMISSIONS

Our program presents an excellent opportunity for high school students who want to pursue a degree in occupational therapy. High school students can complete a B.S./M.S. degree in Occupational Therapy in 5 years (2 years for the completion of the pre-requisites and 3 years for the professional phase of the program). Our program also presents a great opportunity for college students and college graduates with a degree in another field who want to pursue a career in occupational therapy.

Students seeking the entrance into health and human service professions should be aware that the presence of a criminal record can result in the refusal of licensing/certification/registration agencies to issue the credential needed to practice in the field of study. Prospective students are urged to contact the pertinent state and/or federal licensing board to inquire whether a criminal record can result in the refusal of licensing/certification/registration. A criminal conviction and/or the use of illegal drugs may result in the refusal of licensing/certification. A criminal conviction and/or the use of illegal drugs may result in the refusal of licensing/certification.

Our faculty is actively involved in promoting community health and wellness through funded research and programs assisting people to achieve their highest level of functioning within the context of their own communities. Our students are involved in these activities as part of their training since their first year in our program. Using a variety of teaching methods and the integration of technology in the coursework, our students develop a comprehensive understanding of practice and build their research skills. Embedded in our curriculum are activities that enhance students’ communication and critical thinking skills contributing to personal and professional growth. Our students are prepared for successful clinical careers and leadership roles within their professional community.

Application Policies and Procedures

Both high school graduates and college transfer students may apply for admission to the Occupational Therapy Program, to which the following criteria apply:

Application Process for High School Students:

Students must have a minimum high school average of 85 and a minimum combined Scholastic Aptitude Test score of 1000 to apply as a pre-occupational therapy candidate. They need to apply using the LIU main application system from our Admissions office:

www.liu.edu/Brooklyn/Admissions. Upon acceptance students need to complete 64 pre-requisites and then apply for the professional phase of the program (please see details below). In order to maintain status as a pre-occupational therapy candidate and to apply to the professional phase of the program, students must maintain a minimum cumulative grade-point average of 3.0 in liberal arts and sciences courses. Grades below a C - are not acceptable in prerequisite courses.

Please note that LIU pre-occupational therapy students do not automatically enter the professional phase of the program. All students go through the application and selection process outlined below.

Application and Selection Process for College Students and Graduates:

The Department of Occupational Therapy accepts transfer students with or without a degree. Pre-OT and/or other majors (LIU) students can apply directly to the Department of OT at LIU (no OTCAS application is necessary). All students are required to submit 3 recommendation letters, personal statement, verification of a minimum of 50 hours of observation or volunteer work with a licensed occupational therapist; 50 hours is the minimum requirement and should be completed by the application deadline. It is recommended that candidates engage in more than the minimum hours and in more than one setting. Admission application and reference letter forms can be obtained from the OT Department (2nd Floor, Pratts Building, Room 224, 718-780-4508),00000

Transfer students need to apply via the OTCAS system: www.otcas.org. If you choose this system you do not need any additional applications or documents other than what the OTCAS requires. Please follow the directions that the OTCAS system provides and complete their on-line application.

Our department has direct access to those records.

1. Students are required to provide the following items when submitting their application, or your application cannot be processed:

• 3 letters of recommendation
• Your application will not be considered complete until all three reference letters are on file with OTCAS by the deadline
• We REQUEST that letters of recommendation be completed by people who know you well; for example, college professors, academic counselors, and/or employers and by at least one occupational therapist.

Personal Statement

• In your personal statement explain your career goals, your interest in occupational therapy, past work/volunteer experience that is relevant, and if there is a specialized area of occupational therapy that interests you most. You may also wish to describe your experience with illness and disability, whether the experience is your own or that of a family member or close friend.
Transfer Students Without a Degree

Prerequisite Courses for LIU Students and from other colleges/universities:

Below are the prerequisite courses for currentLIU students who have attended are required.

- General GPA of 3.0
- Science grades more than average GPA of 3.0
- An minimum cumulative grade point average of 3.0
- Professional phase of the program must have a minimum cumulative grade point average of 3.0
- *64 credits

* Each Applicant is required to complete an additional 4 credits of Liberal Arts or Science course work and will accept OS 1 for one credit and 3 credits from an elective course.

- Course work must be completed prior to initiation of professional phase course work.

- Pre-requisites

College students wishing to transfer into the Department of Occupational Therapy must complete their application and to make sure that prerequisites are completed.

**Pre-requisites**

College students wishing to transfer into the professional phase of the program must have a minimum cumulative grade point average of 3.0. A 3.0 minimum cumulative grade point average is also required in both liberal arts and sciences courses. An average GPA of 3.0 in the four biology pre-requisite courses is preferred (BIO 3, 4, 131 or 137, 13 or 138). Science grades more than 10 years old are not acceptable. Official transcripts from all colleges and universities attended are required.

Below are the prerequisite courses for current LIU students, LIU graduates, and transfer students from other colleges/universities:

For more information about our program visit our website:

www.liu.edu/Brooklyn/Academics/Schools/SHP/Dept/Occupational-Therapy

**Academic Standards**

Once accepted into the Occupational Therapy Program, students must maintain a cumulative professional-phase grade point average of at least 3.0 each semester. Students also must meet standards of professional behavior with faculty, peers and clinical instructors. Upon completion of the curriculum, students are awarded a dual Bachelor of Science/Master of Science Degree in Occupational Therapy and are eligible to take the NBCOT exam.

**Occupational Therapy Curriculum**

The Occupational Therapy Program curriculum includes 122 credits in the professional phase of the program. Occupational therapy course offerings provide 23 credits of basic and medical science classes, 82 credits in occupational therapy theory and practice, and 17 credits of clinical education.

The developmental nature of our curriculum allows students to be introduced, practiced, and mastered, core competencies pertaining to the clinical practice of Occupational Therapy. The curriculum is brought to life through organizing strands, which serve to infuse the mission and philosophy of the program into each course. The courses are organized into sequences that aim to gradually enable students’ learning and professional competency. The organizing strands for the curriculum are:

1. Clinical reasoning/evidence-based practice/research
2. Engagement in meaningful occupation
3. Health promotion, prevention and wellness
4. Professional socialization/community service

The occupational therapy program will allow you to:

- Focus on your individual professional growth and development
- Participate in community service learning
- Enhance cultural sensitivity and practice skills
- Use health promotion in community settings
- Develop skills to treat the whole person
including physical, cognitive and psychosocial needs
• Use purposeful activity to promote health and independence
• Prepare for a successful career and leadership roles within the Occupational Therapy profession.

Students spend their first year completing 72 hours of community service that introduces them to service learning experiences related to life-span development and understanding of occupations. During the second of the curriculum students participate in an enriched clinical component (Fieldwork I) that includes several supervised part-time experiences with clients and patients of all ages, located in a variety of medical, educational and community-based organizations. In the third year, students participate for seven months in full-time fieldwork (Fieldwork II) that includes 3 rotations of 8-10 or 12 weeks in a variety of clinical, educational, or community settings (focus is on: mental health, physical disabilities, pediatrics). Students also have the unique opportunity to design and implement a four-credit research project in which they conduct a faculty mentored research project.

Community Service
Students will be prepared to ultimately work in the urban environment, which presents unique challenges to health care provision. Consistent with the mission of LIU Brooklyn to provide service to the community, occupational therapy students will participate in the Common Ground, a unique community service-learning program sponsored by the university. The curriculum emphasizes the importance of community service learning, cultural competence and the relationship of the environment to health and illness. It is critical that students have early and consistent exposure to the community facilitated through developmental learning activities. The community-based learning experiences will foster a deep appreciation of the broad spectrum of social, cultural, political, and economic forces that shape this environment and influence the individual in his/her daily activities and valued occupations.

During the course of the curriculum, students will have three placements in the community, and will participate in a capstone project in which they will develop a research project that promotes occupational therapy in a community setting or emerging practice area. This project will contribute to the goal of the occupational therapy educational program to prepare students who can effectively work in traditional and nontraditional settings (including health, social, and community agencies addressing health promotion, disease prevention and rehabilitation needs).

Fieldwork Education
Clinical practice constitutes an integral part of the course of study. It provides an excellent opportunity for students to acclimate themselves to the health care setting, practice selected aspects of occupational therapy, observe various types of health care settings, and develop your professional competence.

The clinical practice component begins with a ten week clinical experience in the fall of the second professional year. The following clinical practice experiences gradually become more demanding and varied in nature. The program concludes in clinical internships with a minimum of 28 weeks in the fall/spring/summer semesters of your final graduate year at LIU Brooklyn (at which time students will be responsible for providing all occupational therapy services to their own caseload, under the supervision of licensed occupational therapists).

Many of our clinical/field experience affiliates now require the completion of criminal background checks and/or drug testing for employees, volunteers and students affiliated with the site. Therefore, the LIU Brooklyn students who plan to participate in a clinical/field experience may be asked to undergo a criminal background check and/or drug screen. A criminal conviction and/or the use of illegal drugs may impede or bar your entry into your chosen field of study. Students desiring entrance into the School of Health Professions should be aware that our clinical/field affiliates can reject or remove a student from the site if criminal record is discovered or if a drug test is positive. In the event that a student is rejected from a clinical/field site due to information contained in the criminal background check, or drug screen, you may be unable to complete a required clinical/field experience. If you are unable to complete program requirements, you may be advised to withdraw from the program.

Accreditation
The Occupational Therapy program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA) located at 4720 Montgomery Lane, P.O. Box 31220, Bethesda, MD 20824-1220; (301) 652-AOTA. The program is registered with the New York State Education Department. Graduates will be eligible to sit for the national certification examination by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of that examination, the individual will be an Occupational Therapist Registered (OTR). Most states require licensure in order to practice; however, state licenses are usually based on the results of the NBCOT Certification Examination.

B.S./M.S. in Occupational Therapy

B.S. / M.S., Occupational Therapy
[Program Code: 21843]

Graduation Requirements
Students must satisfy the Placement, Proficiency, Orientation and Core Curriculum criteria outlined in the Graduation Requirements section of this bulletin.

Core Curriculum requirements for this major are summarized below:
Core Seminar 3 credits

Humanities
English Composition 3 credits
English Literature 6 credits
Philosophy 6 credits
Foreign Language Not Required

Social Sciences
History 6 credits
Psychology 3 credits
Social Sciences 3 credits
(ANT, SOC)

Science and Mathematics
Mathematics 3 credits
Laboratory Science 7-8 credits

Communication, Visual & Performing Arts
Communication 3 credits
Visual & Performing Arts Not Required
(ART, DNC, MUS, THE)

Ancillary Requirements: Must complete both courses
PSY 107 Developmental Psychology I 3.00
PSY 110 Abnormal Psychology 3.00

Must complete one of the following courses
MTH 100 Introductory Statistics 3.00
PSY 150 Statistics in Psychology 3.00

Occupational Therapy Pre-Professional Science Requirements
Choose 1 of the following:
BIO 131 Human Anatomy 4.00
BIO 137 Anatomy and Physiology I 4.00

Choose 1 of the following:
BIO 132 Human Physiology 3.00
BIO 138 Anatomy and Physiology II 4.00

Occupational Therapy Professional Phase Requirements
Occupational Therapy Professional Phase Year I Requirements
OT 100 Introduction to Occupational Therapy 2.00
## Therapeutic Skills 1: Interpersonal Skills
- OT 106: 2.00

## Human Development and Occupation 1: Pediatrics
- OT 110: 3.00

## Human Development and Occupation 2: Adolescence/Adults
- OT 111: 2.00

## Human Development and Occupation 3: Geriatrics
- OT 112: 2.00

## Anatomy - Kinesiology
- OT 119: 5.00

## Theory 1: Introduction
- OT 120: 2.00

## Medical Conditions 1: Physical Disabilities in Adolescents, Adults and Geriatrics
- OT 122: 3.00

## Professional Development 1: Occupational Therapy Student Academic Experience
- OT 201: 2.00

## Professional Development 2: Communication Skills
- OT 202: 1.00

## Professional Development 3: Advocacy and Disability Perspectives
- OT 203: 1.00

## Medical Conditions 2: Mental Health in Adolescents, Adults and Geriatrics
- OT 206: 3.00

## Theory 2: Learning Theories Applied to Practice
- OT 220: 2.00

## Skills for Living 1: Play and Leisure
- OT 301: 3.00

## Skills for Living 2: Work
- OT 302: 3.00

## Occupational Therapy Professional Phase Year 2 Requirements

### Fieldwork Level I: Physical Disability Practice: Adolescents and Adults
- OT 215: 1.00

### Skills for Living 3: Self Care
- OT 303: 3.00

### Teamwork and Leadership
- OT 306: 2.00

### Theory 3: Comprehensive Models and Mental Health Sets of Guidelines for Practice
- OT 320: 4.00

### Practice 1: Mental Health Adolescents, Adults and Geriatrics
- OT 330: 5.00

### Practice 2: Neurorehabilitation Adolescents, Adults and Geriatrics
- OT 430: 5.00

### Practice 3: Orthopedic Rehabilitation and Orthotics: Adolescents Adults and Geriatrics
- OT 431: 4.00

### Practice 4: Medical and Surgical Rehabilitation: Adolescents Adult and Geriatrics
- OT 432: 2.00

### Therapeutic Skills 5: Technology and Assistive Devices
- OT 506: 2.00

## Occupational Therapy Professional Phase Year 3 Requirements

### Level II: Fieldwork I
- OT 510: 5.00

### Level II: Fieldwork II
- OT 511: 5.00

### Level II: Fieldwork III
- OT 512: 4.00

### Level II: Fieldwork IV (Elective)
- OT 513: 2.00

### Theory 5: Research
- OT 520: 3.00

### Medical Sciences 3: Clinical Conditions in Pediatrics
- OT 533: 3.00

### Fieldwork Level I: Practice 3: Pediatrics
- OT 535: 1.00

### Theory 6: Research Proposal Development
- OT 620: 2.00

### Theory 7: Community Practice Education and Health Promotion
- OT 720: 2.00

### Theory 8: Community Practice Research Project
- OT 820: 4.00

## Credit and GPA Requirements
- Minimum Total Credits: 150
- Minimum Liberal Arts and Sciences Credits: 64
- Minimum Major Credits Undergraduate: 84
- Minimum Major Credits Graduate: 33
- Minimum Credits of Courses > 100 Level: 48
- Ancillary Course Requirements: See Above
- Minimum Major GPA: 3.0
- Minimum Overall GPA: 3.0
Occupational Therapy Courses

OT 100 Introduction to Occupational Therapy
Introduction to the profession of occupational therapy including the history, philosophy, knowledge, skills and attitudes reflective of past, current and future practice. The course content introduces students to the nature of theory and the evolution of the profession related to practice, standards of practice, core values and attitudes, ethical and legal issues, roles and tasks of occupational therapists and certified occupational therapy assistants, the organizational structure of the professional association and accreditation and credentialing bodies and international resources. Trends are examined in health care and models of practice including wellness and health maintenance and health promotion in the context of social, economic, political, demographic and cultural factors that influence the delivery of services are addressed.
The pre-requisites of PSY 107, 110 and COS 50 are required.
Credits: 2
Every Fall

OT 106 Therapeutic Skills 1: Interpersonal Skills
This course will introduce the students to professional interpersonal skills and techniques used by Occupational Therapists across treatment settings and age groups. Students will both learn and practice skills including: therapeutic use of self, interviewing/counseling skills, assertive professional communication and therapeutic interaction.
Students will begin to appreciate factors relevant to disability perspectives, cultural sensitivity, client-centered care and advocacy. Students will develop in their identity as a "Helping Professional" and will show sensitivity when using new interpersonal skills in the experiential setting.
Prerequisites: PSY 107 and 110, 1 Sociology or Anthropology course and Admissions to the OT program.
The pre-requisites of PSY 107 and 110; one Sociology or Anthropology course; and Admissions to the OT program are required.
Credits: 2
Every Fall

OT 110 Human Development and Occupation 1: Pediatrics
This course focuses on bio-psycho-social development from infancy through childhood. Concepts and theories of typical human growth and development across the life span will be presented as a context for understanding behavior and occupation. Age related occupations in infancy and childhood will be examined in the context of developmental theories. Current research findings will be integrated in the course to inform occupational therapists about human growth and development in sensory, motor, cognitive and psychosocial domains. Factors influencing growth and development including the family, the social and physical environment, daily life experience, and the unique individual characteristics of the child will be incorporated throughout the course. The role of the occupational therapist in prevention and promotion of health and well being with pediatric populations will be introduced. Through volunteer work in a community service agency, students will have opportunities to develop observation and interaction skills with children in a naturalistic setting. A comprehensive understanding of childhood occupations is achieved through class activities and community service. Community service and course assignments also provide the opportunity for students to link classroom learning to both home and community practice settings.
The pre-requisites of PSY 107, PSY 110 and admissions to the OT program are required.
Credits: 3
Every Fall

OT 111 Human Development and Occupation 2: Adolescence/Adults
This course addresses human growth and development for adolescents and adults in the areas of neurosensory, motor, visual, perceptual, cognitive, physical, physiological and psychosocial skills. Principles of health promotion and disability prevention and the influences of culture and diversity are examined as they interface with the age related needs and risks of this cohort. Students will examine the influence age-related life stages and development on occupations within the framework of performance skills and patterns and contexts. Students will be exposed to current research protocols and findings related to adolescents/adults development and their relationship to occupations and healthy lifestyle. This course is coupled with a community service learning experience in which students have the opportunity to integrate course content through lectures, seminar discussions, and community service experiences. Students also examine designated cultures and health related issues in depth using a problem based learning (PBL) approach.
The pre-requisite of OT 110 is required.
Credits: 2
Every Spring

OT 112 Human Development and Occupation 3: Geriatrics
Human development and occupation for elders is the core interest of this course. Development in the areas of sensory, motor, perceptual, physical, cognitive, physiological and psychosocial skills is examined. Principles of health promotion, disease prevention and the influences of culture and diversity are examined in depth. Assignments and community service experience integrated in this course examine the role of age-related occupations on maturity, aging, death and dying, quality of life, and wellbeing. The course integrates performance skills, patterns and contexts as key factors in understanding changing occupational roles and the process of adaptation in elders.
The pre-requisite of OT 111 is required.
Credits: 2
Every Summer

OT 119 Anatomy - Kinesiology
This course is an in depth study of the human body structure, functions and abnormal motion, with emphasis on the neuro-musculoskeletal systems. Structural interrelationships shall be examined as the basis for normal functions and as a means to understand structural and functional dysfunctions of body structures that affect body functions and occupational performance. The course facilitates students’ understanding of neuromotor substrates of human performance skills required to participate in meaningful occupations. Directed laboratory experiences are comprised of cadaver dissection, study of skeletal materials and anatomical models, surface anatomy, palpation, joint, and muscle function as well computer assisted learning and video-tape presentation. Students obtain the background knowledge that assists them to understand, analyze and interpret neuromotor body structures and functions that hinder occupational performance. All students must participate in cadaver dissection lab.
Prerequisite of OT 140 is required.
Credits: 5
Every Spring

OT 120 Theory 1: Introduction
This course will provide the opportunity for students to learn about the theoretical foundations of the profession. Students will examine how theoretical information largely developed by the disciplines is used to support the development of (a) sets of guidelines for occupational therapy practice and (b) screening and assessment tools. Both non-occupational therapy theories and occupational therapy theories will be explored. Students will also learn how to read, critique, interpret and summarize research (basic and applied) regarding the reliability and validity of theories, and the effectiveness of guidelines for occupational therapy practice and screening assessment tools. The course has a writing intensive component in which students develop professional writing skills related to documenting evidence for practice. Language structure, format and argument development are emphasized. Students complete progressive assignments that are gradually revised using the professor's feedback, the assistance of writing tutors, and the use of gooleddocs. Finally students are introduced to clinical reasoning and decision making skills by assessing a client's occupational role dysfunction identify the impact of cultural, socioeconomic and political factors on their disablement and determine an appropriate theoretically based OT intervention. Opportunities to practice clinical reasoning, professional writing and decision making skills are provided through case studies, media (e.g., books, film, and video) and scientific literature.

LIU Brooklyn

Page 185

LIU Brooklyn Graduate Bulletin 2015 - 2016
The pre-requisite of OT 100 and 201 are required. Student must be admitted into the Occupational Therapy Program.
Cred: 2
Every Spring

OT 121 Medical Conditions 1: Physical Disabilities in Adolescents, Adults and Geriatrics
This course is a study of the medical, neurological, and orthopedic conditions that commonly occur during the life span of adolescents, adults, and the elderly. An understanding of the etiology, pathology, signs and symptoms, treatment, psychosocial issues, and prognosis of common conditions and diseases are promoted. The influence of culture, diversity, environmental context, and the impact of occupation and health promotion are considered.
The co-requisites of OT 129 and 112 are required.
The pre-requisite of OT 119 is required.
Cred: 3
Every Summer

OT 122 Medical Conditions 2: Mental Health in Adolescents, Adults and Geriatrics
This course presents an overview of the medical, neurological and psychiatric conditions which commonly occur during the life span of adolescents, adults and the elderly, building upon prior course work in the basic science curriculum and growth and development. Students develop an understanding of medical and psychiatric conditions, the etiology, signs, symptoms and prognosis. Implication for the person’s occupational roles and performance are examined. Occupational therapy practice is discussed with focus on the process of screening, assessment, treatment and reassessment. In addition, the influence of culture, ethnicity, health care policies and gender and its impact on occupation and health promotion are examined across the life span.
The prerequisite of OT 112 is required. The co-requisite of OT 320 is required.
Cred: 3
Every Fall

OT 129 Kinesiology 2
This lecture/lab course provides an introduction to the analysis of the human motion. It includes the study of muscle function and biomechanics of the human body. The course content integrates principles of kinesiology with muscle testing and goniometry. Changes in movement patterns across the life span are included. It provides didactic and practical experience with examination of movement principles. The impact of biomechanics on functional performance is also discussed. Students learn to apply principles of kinesiology, muscle testing and goniometry in clinical cases.
The prerequisite of OT 119 is required.
Cred: 4
Every Summer

OT 140 Neuroscience
This course provides students with an understanding of the neuroanatomical and neurophysiologic substrates of normal and abnormal human behavior. The study of cortical and subcortical anatomy and physiology includes: cranial and peripheral nerves; the ventricular system; vascular brain anatomy; the neuron and neural activity; neurotransmitters, enzymes, and other neurochemicals; the autonomic nervous system; spinal cord tracts; and proprioceptors (muscle spindles and golgi tendon organs). The neuroanatomical and physiologic functions of special senses include: the vestibular system, vision, audition, olfaction, gustation, and proprioception. The neurologic substrates of motor control, stress/emotions/motivation, learning and memory, the aging of the brain, and neuroplasticity is also reviewed. Students will learn to use their knowledge of neuroanatomical and physiologic functions of the central nervous system (CNS) to understand CNS disease, dysfunction, and injury (e.g., spinal cord injury, traumatic brain injury, schizophrenia, coma, Parkinson’s, sensory integrative disorders). Students will also use their knowledge of neuroanatomy and physiology to begin to understand the neurologic theories underlying specific occupational therapy practices (e.g., NDT - Neurodevelopmental Treatment, PNF - Proprioceptive Neuromuscular Facilitation, SI - Sensory Integration, and splinting and casting). Lab will provide the opportunities for students to directly examine human brain specimens, practice clinical neurologic exams, and develop clinical problem identification skills through case studies. During lab sessions students are also exposed to real life clients with neurological damages and learn the functional impact of the neurologic problems (using the “clinic in the classroom” approach).
The prerequisites of BIO 3, 4, 131 and 132 are required and the student must be in the Occupational Therapy major in order to register for this course.
Cred: 5
Every Fall

OT 200 Fieldwork Level I: Geriatric Practice
This course provides the opportunity for students to directly experience occupational therapy practice with a geriatric population in a clinical or community setting. Through fieldwork experience, students will begin to integrate and apply the theoretical knowledge, and professional behaviors/attitudes and clinical skills learned in the classroom. An integrative clinical reasoning fieldwork seminar both in person and online accompanies the fieldwork experience to provide students with an opportunity to analyze the professional and clinical practices observed in the clinic/community setting, and integrates this with the clients' cultural background, health status, and valued occupations. Students will complete intensive documentation assignments that will help facilitate their understanding and ability to analyze and synthesize a client's information in an occupational profile/evaluation in order to create long/short-term goals, formulate an evidence based treatment plan, progress note and discharge note. The prerequisites of OT 112, 121 and 129 are required.
The corequisites of OT 303 and 420 are required.
Cred: 1
Every Fall

OT 201 Professional Development 1: Occupational Therapy Student Academic Experience
This course focuses on foundation skills to support professional education and personal development as an occupational therapy student. Course content will include student work with self-management and health promotion, learning styles and learning skills, learning contracts, study skills, test-taking skills, use of support groups and refinement of active listening, and goal setting. Students develop e-portfolios and begin to recognize themselves in their new professional roles. Students develop and expand skills in computer literacy, improve utilization of library and data bases for review of professional literature, and start to develop experience with scientific and professional writing and speaking. Students will participate in writing groups with tutors from the Writing Center to identify areas for skill development in writing and refine written communication skills, critical thinking and problem solving. This course is part of our enrichment program.
The prerequisites of COS 50, ENG 16, SOC 3; Two from ENG 61, 62, 63 and or 64; and the student must be in the Occupation Therapy major are required in order to register for this course.
Cred: 2
Every Fall

OT 202 Professional Development 2: Communication Skills
Students will continue to refine professional communication skills in the areas of written, graphic, and oral presentation. Students will identify areas for refining professional behavior, ongoing professional development, and continuing competency in academic and community contexts. Students continue to assemble an ePortfolio reflective of their ongoing professional development. They will formulate a professional development goal and continue to identify their focus for personal wellness, study skills and stress management. Students will also review how to present themselves in professional interviews for employment, scholarship applications, fieldwork experiences and to promote the profession through community and legislative advocacy. Students will expand knowledge of resources to research professional and current literature content, broaden understanding of evidence-based practice and literature reviews, further develop skills in using media, and creative arts for professional, patient, consumer, client and community education,
LIU Brooklyn Graduate Bulletin 2015 - 2016

practice and advocacy.
The prerequisite of OT 201 is required and the student must be in the Occupational Therapy major in order to register for this course.
Credits: 1
Every Spring

OT 203 Professional Development 3: Advocacy and Disability Perspectives
The course provides principles of advocacy for Occupational Therapy and Advocacy for our clients. Professional issues related to State and National Advocacy groups for OT as well as, current professional topics for advocacy are discussed. Students learn the importance and the nature of participation in professional advocacy. In this course students also examine psychosocial factors, stereotypes, and negative attitudes affecting people with disabilities, their families and caregivers. Methods of instruction include literature review, media resources, narratives, and in-class interviews with people with a range of stigmatizing conditions. Major civil rights legislation and the disability rights movement will be explored and different models of viewing disability will be reviewed. Students will enhance their understanding of the importance of practitioner, consumer and patient advocacy to promote empathy and skills in client-centered practice. Students will increase sensitivity and skills required in the implementation of client-centered practice with people with a wide range of physical, psychological, and socially stigmatizing conditions. The prerequisites of OT 100 and 201 are required.
Credits: 1
Every Spring

OT 204 Professional Development 4: Independent Study (Elective)
An in-depth exploration of a topic of study through review of literature, field visits or community service learning under the guidance of a faculty mentor. Professional writing development is emphasized. Students, with the instructor, define the scope of the study, methods, and outcomes. Professional development will be fostered through the identification of learning objectives for the experience that will be assessed/monitored during the course of the independent study process. The prerequisite or co-requisite of OT 100 is required.
Credits: 1
On Demand

OT 205 Professional Development 5: Health Promotion
Consideration of current public health initiatives designed to improve the quality of health, eliminate disparities, and explore occupation-based interventions to address major indicators of poor health, to prevent disorders and to maintain wellness. The course will examine evidence-based practice, intervention programs, evaluation and outcome assessments for wellness, health promotion and quality of life. A range of approaches supporting health promotion and disease prevention in various populations, in institutional, community and home settings will be examined. Students will begin to develop skills in using occupational therapy interventions to enhance the quality of life and well-being. A variety of health-related occupations using traditional, alternative and complementary activities will be demonstrated and practiced. Areas of focus include enhancing coping and adaptation with stress management, time management, pain management, smoking cessation, and withdrawal from substances. Patterns of diet, physical activity, psychological states and attitude, social activities, and the role of spirituality in practice reflecting sociocultural/economic, diversity, cultural and life span factors are examined.
The prerequisites of PSY 107, 100 and COG 50 are required. The student must be admitted into the Occupational Therapy Program.
Credits: 1
Every Spring

OT 206 Therapeutic Skills 2a Group Process
A group process course for treatment, teamwork, and community interventions. Introduction and application of theories of group dynamics, task, and activity groups, including evaluation of interpersonal style and group roles, therapeutic interaction and leadership skills, collaborative and professional communication skills. Students learn to carry out groups, reflect on their experiences and provide feedback to each other on the group process.
The prerequisites of OT 100, 106 and 201 are required and the student must be admitted into the Occupational Therapy Program.
Credits: 3
Every Spring

OT 210 Fieldwork Level I: Mental Health Practices Adolescents and Adults
This course provides the opportunity for students to directly experience occupational therapy practice in mental health with adolescent/adult populations in a clinical or community setting. Through fieldwork experience, students will begin to integrate and apply the theoretical knowledge, professional behaviors/attitudes and clinical skills learned in the classroom. An integrative clinical reasoning fieldwork seminar accompanies the fieldwork experience to provide students with an opportunity to analyze the professional and clinical practices observed in the clinic/community setting, and integrates this with the clients’ cultural background, health status, and valued occupations. Students will complete intensive documentation assignments that will help facilitate their understanding and ability to analyze and synthesize a client’s information in an occupational profile/evaluation in order to create long/short-term goals, formulate an evidence based treatment plan, progress note and discharge note.
The co-requisite of OT 430 is required. The prerequisites of OT 121, 129, 303 and 420 are required.
Credits: 1
Every Spring

OT 215 Fieldwork Level I: Physical Disability Practice Adolescents and Adults
This course provides the opportunity for students to directly experience occupational therapy practice in adolescents/adults with physical disability in a clinical or community setting. Through fieldwork experience, students will begin to integrate and apply the theoretical knowledge, and professional behaviors/attitudes and clinical skills learned in the classroom. An integrative clinical reasoning fieldwork seminar accompanies the fieldwork experience to provide students with an opportunity to analyze the professional and clinical practices observed in the clinic/community setting, and integrates this with the clients’ cultural background, health status, and valued occupations. Students will complete intensive documentation assignments that will help facilitate their understanding and ability to analyze and synthesize a client’s information in an occupational profile/evaluation in order to create long/short-term goals, formulate an evidence based treatment plan, progress note and discharge note.
The prerequisites of OT 320 and 122 are required.
The co-requisite of OT 330 is required.
Credits: 1
Every Spring

OT 220 Theory 2: Learning Theories Applied to Practice
This course provides students with an understanding of teaching and learning processes. Students are prompted through class activities and the discussion of theories of learning (such as Bloom’s) to reflect on their own learning process as they pursue the OT degree. In addition students are introduced in how learning theories are used to support the development of occupational therapy interventions that are designed to facilitate personal change. Learning theories that are studied include Social Learning Theory (Bandura), The Health Belief Model (Becker), PRECEDE-PROCEED Model, Theory of Reasoned Action (Fishbein & Ajzen), Stages of Change Theory-Transtheoretical Model (Prochaska & DiClemente), Theory of Multiple Intelligences (Gardner), Learning Styles Model (Dunn & Dunn), Motor Learning, Behaviorism and Model of Human Occupation (MOHO). Characteristics of therapists and environments that facilitate positive change are examined. Learning styles and learning contracts that are sensitive to multicultural concerns and literacy levels of patients, clients, and caregivers are explored. The course is also focused on professional writing and the ability of the students to review literature and summarize it in a logical and comprehensive manner.
The prerequisite of OT 120 is required.
OT 301 Skills for Living 1: Play and Leisure
This course has a dual focus: play and leisure across the life span and activity analysis and synthesis. Meaningful occupation, with a specific focus on play and leisure will be examined in a social and cultural contexts and temporal contexts of age, developmental and life cycle stages, and disability status. Content includes the role of play and leisure in health promotion and disability prevention, and the screening and assessment of play and leisure. Students develop skills in task and activity analysis, activity modification and adaptation based on an occupational performance model.
The prerequisites of COS 50, PSY 107 and 110; and SOC 3 are required in order to register for this course.
Credits: 3
Every Fall

OT 302 Skills for Living 2: Work
This course focuses on the role of work/productive activities across the life span and in occupational therapy. Content includes vocational and functional capacity evaluation, work related assessment tools, work programs for clients with injury, developmental disabilities, cognitive deficits and mental health concerns. The influence of unique client characteristics, the environment, culture, social, economic and political factors impacting work and work programs will be considered throughout the semester. Students will be introduced to ergonomics, cumulative work injury and work hardening. Skill in activity analysis will be expanded through a job analysis, analysis of work related behaviors and skills, tool analysis, and an ergonomic seating evaluation. Lab activities link theory to clinical application.
The prerequisite of OT 119 is required. The prerequisites of OT 129 and 121 are required.
Credits: 3
Every Summer

OT 303 Skills for Living 3: Self Care
This course provides students with the opportunity to examine the meaning of self-care activities throughout the life span and across various cultures. The course content emphasizes clinical reasoning/evidence-based practice research as it relates to the engagement in self-care skills as part of meaningful occupation, health promotion, prevention and wellness. The specific performance components of self-care activities (i.e., sensorimotor, cognitive and psychosocial components) will be analyze. The way in which various performance contexts (i.e., age group, developmental stage, disability status, environmental conditions, and sociocultural factors) influence self-care activities will be explore. Students will have the opportunity to practice activity analyses of self-care tasks (for specific populations, age groups, sociocultural environments, etc.). Students will also practice the clinical techniques of grading and adaptation of self-care activities in accordance with an individual's disability status. There will be opportunity to practice grading and adaptation self-care skills, through case studies and problem-based learning activities. Students will have the opportunity to identify a variety of screenings, assessments, and intervention methods for clients who have disabilities, which interferes with self-care activities. The students will have the opportunity to practice documentation skills (goal and note writing) through case studies and problem-based learning.
The prerequisites of OT 121 and 129 are required. The prerequisite of OT 420 is required. The student must be in the Occupational Therapy major in order to register for this course.
Credits: 3
Every Fall

OT 306 Therapeutic Skills 3: Teamwork and Leadership
This course will introduce students to the conceptual, interpersonal and self-knowledge components of teamwork and leadership. Practice in applying theory and skills to teamwork will prepare students for developing competence in interdisciplinary collaboration, clinician and family centered intervention and health promotion. Roles and contribution of the full range of participants from various practice domains in institutional, professional and community settings will be explored. Students will examine approaches to problem solving, ethical challenges and conflict-handling styles in leadership. Students will be introduced to mentorship models and strategies that support effective supervision. Students will design and implement wellness/health promotion groups for a variety of populations in the community (non-traditional settings). Students will play an active role in developing educational presentations using technology for educational presentations on the reading material pertaining to teamwork and leadership. Work from this course will be used to enrich students' portfolios reflecting their continuing professional development.
The prerequisites of OT 106 and 206 are required and the student must be in the Occupational Therapy major in order to register for this course.
Credits: 2
Every Fall

OT 310 Theory 3: Comprehensive Models and Mental Health Sets of Guidelines for Practice
This course provides students with the opportunity to study the underlying theories of occupational therapy comprehensive models with an emphasis on adaptation and the environment. The structure and content of theories, models, and frames of reference/sets of guidelines for practice in mental health will be described. The delineation between basic and applied scientific inquiry will also be presented. The role of occupation as described by occupational science, occupational adaptation, the Model of Human Occupation, and client-centered practice is also presented. Each comprehensive model will be examined with respect to its (a) author/source, (b) origin, (c) populations addressed, (d) theoretical foundations, (e) concepts and assumptions, (f) sensitivity to multicultural concerns of patients/clients, (g) principles of assessment, (h) client-therapist relationship, and (i) principles of intervention. These comprehensive models will be explored, analyzed and critiqued for the purpose of determining their adequacy as a basis for practice. Health promotion and wellness models are also presented and analyzed. Current practice issues such as reimbursement for services, the professions domain of concern, and research priorities will be discussed relative to contrasting assumptions about the way in which comprehensive models should be used to guide occupational therapy practice.
The prerequisites of OT 122 are required. The prerequisites of OT 111 and 112 are required. The student must be in the Occupational Therapy major in order to register for this course.
Credits: 4
Every Fall

OT 330 Practice 1: Mental Health - Adolescents, Adults and Geriatrics
This course addresses the sequence of practice in occupational therapy: screening, evaluation, reevaluation, formulation and implementation of intervention and discharge planning in mental health practice with adolescents, adults and geriatrics in traditional and non-traditional settings. The influence of culture and diversity, environment context and psychological issues, as well as the impact of occupation and health promotion in practice are examined. Reflections on clinical reasoning are applied to practice via clinical fieldwork and field visits. Students are exposed to health promotion, wellness and quality of life principles and practices.
The prerequisites of OT 210 is required. The prerequisites of OT 122 and OT 320 are required. The student must be in the Occupational Therapy major in order to register for this course.
Credits: 5
Every Fall

OT 420 Theory 4: Physical Disabilities Sets of Guidelines for Practice
This course provides the opportunity for students to examine the primary theoretical information underlying occupational therapy practice in physical disabilities (i.e., biomechanical, sensory processing, neurodevelopmental, neurobehavioral, and cognitive-perceptual). Each set of guidelines (or frame of reference) is studied with regard to (a) its theoretical base, (b) the predominant screening and evaluation assessments used by therapists, (c) principles of intervention, (d) reassessment and revision of treatment plans, (e) applicability to specific client populations, and (f) studies reporting the degree of efficacy of the practice approach. Students are exposed to the theoretical
underpinnings of occupational performance and in health promotion and wellness strategies that promote engagement in meaningful occupation. The co-requisite of OT 303 is required. The pre-requisites of OT 129 and 121 are required.

Credits: 5
Every Fall

OT 430 Practice 2: Neurorehabilitation Adolescents, Adults and Geriatrics
This course addresses neurorehabilitation practice with adolescents, adults, and geriatrics within a variety of healthcare and community related settings. Students will learn about the sequence of rehabilitative practice in occupational therapy specific to addressing the needs of clients with neurological impairment, including: screening and evaluation, reevaluation, intervention planning and implementation, and discharge planning. The course also acknowledges the influence of culture, diversity, environmental context, and their impact on occupation and health promotion in clients with neurological damages. Students will be expected to reflect on the clinical reasoning processes required to provide competent and evidence based practice to this client population via class discussions, case based assignments, and clinical fieldwork experiences.
The co-requisites of OT 215 and 431 are required. The pre-requisites of OT 121, 303 and 420 are required.
Credits: 5
Every Spring

OT 431 Practice 3: Orthopedic Rehabilitation and Orthotics Adolescents Adults and Geriatrics
This course is designed to provide students with the background and experience in splint fabrication and orthotic management for orthopedic conditions. Furthermore, students will learn evaluation and intervention principles with adolescents, adults, and geriatrics. The lecture component will incorporate biological principles, anatomical, kinesiological concepts, and biomechanics relating to orthopedics and splinting. The class will be divided into two sections; a two-hour lecture followed by a four-hour lab. The lecture component will incorporate biological principles, anatomical, kinesiological concepts, and biomechanics relating to orthopedics and splinting. Common diagnoses and indications for selected splints will be reviewed as well as common protocols. In addition, students will be learning about the sequence of practice in occupational: screening and evaluation, reevaluation, formulation of intervention plans and implementation, and discharge planning. The lab portion will focus on splint design and fabrication as well as modality application. Students will be exposed to a variety of splinting equipment, tools, supplies, and low temperature thermoplastics used in clinical settings, and develop basic splinting skills. Furthermore, students will understand and demonstrate electrical safety standards. In addition, students will have the opportunity to apply modalities, such as, thermal, ultrasound, TENS, NMES, light and laser therapy. Finally, students will focus on hand on evaluation and treatment skills for common hand problems. The co-requisites of OT 215 and 430 are required. The pre-requisites of OT 121, 303 and 420 are required.
Credits: 4
Every Spring

OT 432 Practice 4: Medical and Surgical Rehabilitation Adolescents Adult and Geriatrics
This course addresses current occupational therapy practice methods for clients having general medical and/or surgical diagnoses—adolescent, adult, and geriatric populations. Students will learn about the most commonly seen medical/surgical diagnoses treated by occupational therapists, as well as some specialty diagnoses. The sequence of practice for this diagnostic population will be covered— Including screening and evaluation, observation of contraindications and safety protocol, formulation of treatment plans, implementation of treatment, family/caregiver education, reevaluation, and discharge planning. The impact of multicultural sensitivity, cultural diversity, and environmental context as they affect treatment will be explored. Students will be expected to appropriately grade and analyze activities in the process of developing treatment plans for patients having general medical/surgical rehabilitation needs as well as some complex and less common diagnoses. Students will also enhance their clinical reasoning and decision-making skills as they apply treatment methods via review of fieldwork experiences and case studies. Students are asked to integrate the client’s health status, occupational performance and development treatment plans that take under consideration the client’s values & routines and the context of care.
The pre-requisites of OT 430 and 431 are required.
Credits: 2
Every Summer

OT 506 Therapeutic Skills 5: Technology and Assistive Devices
The course provides a close look (hands on experiences, clinical visits, in-class equipment presentations) at assistive devices, assistive technology, compensatory strategies and environmental adaptations used in the treatment of children, adolescents, adults and elders with a wide range of disabilities to promote functional adaptation and accessibility in the client’s environment. Students explore the use of adaptive equipment and the processes of assessment and intervention using adaptive equipment for clients with a variety of disabilities. The role of adaptive equipment in promoting occupational performance and participation is integral to the course.
The pre-requisites of OT 430 and 431 are required.
The co-requisites of OT 432 and 533 are required.
Credits: 2
Every Summer

OT 507 Therapeutic Skills 6: Organization and Administration
Application of the principles of management in the provision of occupational therapy services to individuals and organizations including: planning, marketing, organizing, fiscal management, maintaining staffing, coordination, directing, controlling, and evaluating programs. Students will develop an understanding of a variety of service delivery models and knowledge of the broad spectrum of influences that impact on health care delivery and ethical practice. Completion of a grant application or business plan complete with a literature review that includes evidence-based and best practice, background/need, mission statement, project description/implementation/evaluation, budget, sources of income, foundation support, staffing and job descriptions.
The pre-requisites of OT 430, 432, 432, 330 and 533 are required. The co-requisites of OT 530 and 535 are required.
Credits: 3
Every Fall

OT 510 Level II: Fieldwork I
This course provides 10 to 12 weeks of full-time supervised fieldwork. It provides in-depth initial experience in delivering occupational therapy services to various groups of clients across the life span, persons with a variety of psychosocial and physical performance deficits, in various service delivery models reflective of current and emerging practice and trends in the profession. Through this fieldwork experience, students will integrate and apply the theoretical knowledge, and professional behaviors/attitudes and clinical skills learned in the classroom. A peer supervision process via Blackboard discussions will be incorporated for additional supervision amongst students and from the faculty.
The pre-requisites of OT 205, 430, 431, 432 and 330 are required. The co-requisites of OT 533, 530, 507 and 716 are required.
Credits: 5
Every Fall

OT 511 Level II: Fieldwork II
This course provides 10 to 12 weeks of full-time supervised fieldwork. It provides in-depth initial experience in delivering occupational therapy services to various groups of clients across the life span, persons with a variety of psychosocial and physical performance deficits, in various service delivery models reflective of current and emerging practice and trends in the profession. Through this fieldwork experience, students will integrate and apply the theoretical knowledge, and professional behaviors/attitudes and clinical skills learned in the classroom. A peer supervision process via Blackboard discussions will be incorporated for additional supervision amongst students and from the faculty.
The pre-requisites of OT 510 is required.
OT 512 Level II: Fieldwork III
This course provides 8 to 12 weeks of full-time supervised fieldwork. It provides in-depth initial experience in delivering occupational therapy services to various groups of clients across the life span, persons with a variety of psychosocial and physical performance deficits, in various service delivery models reflective of current and emerging practice and trends in the profession. Through this fieldwork experience, students will integrate and apply the theoretical knowledge, and professional behaviors/attitudes and clinical skills learned in the classroom. A peer supervision process via Blackboard discussions will be incorporated for additional supervision amongst students and from the faculty. The prerequisite of OT 512 is required.
Credits: 5
Every Spring

OT 513 Level II: Fieldwork IV (Elective)
This elective course provides 6 to 12 weeks of full-time supervised fieldwork. The number of credits awarded is prorated on the length of the fieldwork experience. It provides in-depth fourth experience in delivering occupational therapy services to various groups of clients across the life span, persons with a variety of psychosocial and physical performance deficits. It is taken place in various service delivery models reflective of current and emerging practice and trends in the profession with a concentration in practice focus substantially different than the setting and population in OT 510, OT 511 & OT 512. Through this fieldwork experience, students will integrate and apply the theoretical knowledge, and professional behaviors/attitudes and clinical skills learned in the classroom. A peer supervision process via Blackboard discussions will be incorporated for additional supervision amongst students and from the faculty. The prerequisite of OT 512 is required.
Credits: 4
Every Spring

OT 520 Theory 5: Research
This course provides the opportunity for students to learn the primary approaches of research design, methods, data collection, and analysis. Students will study (a) quantitative research designs (experimental, quasi-experimental, and non-experimental), (b) qualitative designs (ethnography, phenomenology, grounded theory, etc.); and (c) quantitative and qualitative data collection and analysis methods. Students will develop an applied research question based on the health promotion needs of individuals within a community service setting, and will begin the process of writing a research/grant proposal that will be refined throughout the remainder of the curriculum (in OT 620, 720, and 820). Students may also have the opportunity to implement and evaluate a research project.
The prerequisite of OT 205, 430, 431 and 330 are required. The corequisites of OT 533, 520 and 620 are required.
Credits: 3
Every Summer

OT 530 Practice 3: Pediatrics
A comprehensive review of best practices related to clinical decision making, interdisciplinary collaboration, client-centered practice and supervision is discussed in this course. The focus is primarily in pediatric practice. The role of legislation, policy, and reimbursement are extensively discussed. The students are exposed to pediatric clinical cases from a variety of practice settings. The occupational therapy process of screening, assessment, reassessment, formulation of intervention plans, implementation and discharge is carried out, while addressing the influence of culture, diversity, and environment on occupation and health promotion. Hands-on experiences provide students with challenges in observation, clinical reasoning skills, communication skills, professional writing and documentation skills. Students bring in examples from their clinical experiences with children and their families. Evidence based practices are reinforced through assignments and class activities, to support clinical decision making and advocacy needs of clients (pediatrics).
The corequisites of OT 535 and 507 are required.
The prerequisite of OT 533 is required.
Credits: 1
Every Fall

OT 533 Medical Sciences 3: Clinical Conditions in Pediatrics
This course presents a study of the medical, neurologial, psychiatric, orthopedic and developmental conditions that occur in childhood and adolescence. Students develop an understanding of the etiology, pathology, signs and symptoms, medical treatment, prognosis of common conditions and the influence of the clinical conditions on development, occupational performance and adaptation of the child, and the client's family. The role of the occupational therapist and the occupational therapy assistant in assessment, intervention and ongoing management, health promotion, and prevention relative to the conditions covered in the course, are extensively discussed. Students practice through clinical videos their clinical observation and clinical reasoning skills.
The prerequisites of OT 110, 111, 430, 431 and 330 are required. The corequisites of OT 506, 520, 620 and 720 are required.
Credits: 3
Every Summer

OT 535 Fieldwork Level I: Practice 3: Pediatrics
This course provides the opportunity for students to directly experience occupational therapy practice in children/adolescents with a variety of disabilities in a clinical or community setting. Through fieldwork experience, students will begin to integrate and apply the theoretical knowledge, and professional behaviors/attitudes and clinical skills learned in the classroom. An integrative clinical reasoning fieldwork seminar accompanies the fieldwork experience to provide students with an opportunity to analyze the professional and clinical practices observed in the clinic/community setting, and integrates this with the clients' cultural background, health status, and valued occupations. Students will complete intensive documentation assignments that will help facilitate their understanding and ability to analyze and synthesize a client's information in an occupational profile/evaluation in order to create long/short-term goals, formulate an evidence-based treatment plan, progress note and discharge note.
The corequisites of OT 530, 507 and 716 are required.
The prerequisite of OT 533 is required.
Credits: 1
Every Fall

OT 620 Theory 6: Research Proposal Development
The course exposes the students to the process of research proposal development. Students engage in mentored research projects with their faculty advisors. They are asked to develop research questions and/or hypotheses pertaining to the research problem of interest. They explore plausible theoretical frameworks that provide the conceptual context of their research project. They complete a research proposal that includes methods of assessment, relevant literature and theoretical base, program implementation and evaluation. The course has writing intensive component and requires advance library skills.
The prerequisites of OT 205, 430, 431 and 330 are required. The corequisites of OT 533 and 520 are required.
Credits: 2
Every Summer

OT 716 Professional Development 6: Student Clinical Experience
This course prepares for the transition from academic to clinical student roles and from student to practitioner. Ethics, supervision, conflict resolution, documentation, evolution of clinical reasoning skills, scientific inquiry, teamwork, and collaboration with certified occupational therapy assistants will be covered. Students will have a better understanding of national and state regulatory bodies and their effects on practice. The course gives students knowledge related to national and state requirements for credentialing and licensing. Tools and information are also given to the students to prepare them for becoming fieldwork educators.
The prerequisites of OT 205, 430, 431, 330 and 533 are required.
The corequisites of OT 530, 507
and 535 are required.
Credit: 1
Every Fall

**OT 720 Theory 7: Community Practice**

**Education and Health Promotion**

This course presents the theory and practice of community-based practice, education, health promotion and prevention services for the well population and populations at risk for specific physical, mental, social, or environmental problems. Foundation material includes community context, multicultural competence, and principles of prevention, use of evidence to plan and evaluate services, and consultation and collaboration. Utilizing a life-span developmental perspective, information is presented on the needs of each target group, settings to access the population, and empirical evidence supporting prevention services. The program development process is described in depth, with special emphasis on needs assessment and outcome evaluation. Students will participate in the process of identifying potential grant funding sources and understanding the requirements for grant submission. Occupational therapists and other professionals will present their experience with consultation, marketing, grant writing, implementation and evaluation.

*The co-requisites of OT 533, 520 and 620 are required. The pre-requisite of OT 205, 430, 431 and 330 required.*
Credit: 2
Every Summer

**OT 820 Theory 8: Community Practice Research Project**

This course provides students with the opportunity to refine their research proposals (from OT 620) and carry out their project under the supervision of their research mentor. Students will continue to refine skills in professional and scientific writing through the production of successive drafts leading to the final manuscript. Students will expand knowledge of resources to research professional and current literature resources, expand understanding of evidence based practice and literature review, further develop skills in applying principles of theory and practice to formulating and implementing a viable capstone research project. Students will be guided in data coding, analysis, results and interpretation of findings as well as development of discussion that describes the scientific and clinical contributions of their projects. Students are asked to produce a manuscript and present their project in a poster format during OT research day.

*The pre-requisites of OT 520, 620 and 720 are required.*
Credit: 4
Every Spring
DEPARTMENT OF PHYSICAL THERAPY

Professors: Rebecca States, Ph.D., M.A.
Associate Professors: Department Chair and Associate Professor Ellen M. Godwin PT, Ph.D.
PCS, 718-488-1498, Fax 718-780-4002; Michael Masaracchio, PT, Ph.D., D.P.T., OCS, SCS, Peggy Lynam PT, DPT, NCS
Assistant Professors: Christiana Kahl Collins, PT, Ph.D., NCS, CFMT; Rosa Elena Torres-Panche, PT, DPT, OCS, Director of Physical Therapy Admissions; Megan Freeland, PT, DPT, PCS, Director of Clinical Education
Adjunct Faculty: 16

The professional-level Doctor of Physical Therapy (D.P.T.) program at LIU Brooklyn is designed for the student seeking a career as a physical therapist. The D.P.T. program prepares autonomous practitioners who can provide a full range of physical therapy services, including screening and referral, evaluation, diagnosis, intervention, consultation and education in diverse health care settings. Our faculty members are nationally recognized for excellence in their clinical specializations. Our state-of-the-art teaching facilities include the Center for Physical Rehabilitation, an out-patient physical therapy clinic, and a therapeutic pool. The department’s diverse student body has a tradition of excellence and achievement on national licensing examinations. Merit-based scholarships are available for students in the D.P.T. program.

Doctor of Physical Therapy (D.P.T.)

The 118-credit Doctor of Physical Therapy (D.P.T.) is a professional entry-level degree program for students seeking a career as a physical therapist. The D.P.T. program has been designed to prepare highly competent professionals to act as autonomous practitioners in health care settings that include direct access by the public to physical therapy services. Graduates will be prepared to provide a full range of physical therapy services including screening and referral, evaluation, diagnosis, intervention, consultation and education.

The D.P.T. program is fully accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE) and is registered with the New York State Education Department. It is a 3-year, full-time program that spans over 11 academic terms and includes 35 weeks of clinical education. The program is a clinical doctorate that requires candidates to possess a baccalaureate degree upon entrance. The 1st year of the program begins in July. The D.P.T. program enables the graduate to:

- Value individual diversity and respect the human dignity of patients, family members and professional associates
- Provide physical therapy services as an autonomous practitioner, who is able to competently serve as a point of entry to, and collaborate within, the health care environment
- Integrate theory, academic knowledge and clinical skills to practice physical therapy within the complexities of the current health care environment
- Assess the physical therapy or health care needs of a patient; establish optimum patient outcomes based on examination, evaluation, diagnosis and prognosis; and plan and implement interventions to address the identified needs
- Communicate clearly and effectively with patients, families, colleagues, policy makers, reimbursement representatives and community members
- Apply critical thinking strategies and self-directed learning to the role of physical therapist
- Pursue and apply knowledge of the underlying science on which physical therapy practice is based
- Understand the contributing economic, medical, cultural and psychosocial issues that impact delivery of health care services.

Application Requirements

All requirements must be fulfilled prior to the start date of the program. Applicants to the D.P.T. program must:

- Hold a baccalaureate degree in any major
- Have a cumulative undergraduate grade point average (GPA) of at least 3.0 on a scale of 4.0
- Have successfully completed the following prerequisite science courses with a GPA of at least 3.0 and no grades lower than C.*
  - 1 semester of general biology with lab (designed for science majors; at least 4 credits)
  - 2-semester sequence of general chemistry with lab (preferably designed for science or health-related majors; at least 4 credits each)
  - 2-semester sequence of general physics with lab (preferably designed for science or health-related majors; at least 4 credits each)
  - 1 semester of human anatomy or part 1 of a 2-semester sequence of combined anatomy-physiology (at least 4 credits; lab required)
  - 1 semester of human physiology or part 2 of a 2-semester sequence of combined anatomy-physiology (at least 3 credits; lab preferred, but not required for human physiology; lab required for combined anatomy-physiology)
  - 1 semester of statistics (at least 3 credits)
- Submit an official score report for the GRE general test. ** A minimum composite (verbal and quantitative) of 290 for the GRE revised test is recommended.
- Provide evidence of a minimum of 36 hours of work experience in 2 different physical therapy settings, including an inpatient and an outpatient setting, with at least 18 hours in each setting.
- Submit two completed recommendation forms (available at www.ptcas.org after starting the PTCA application – see below):
  - One from a physical therapist
  - One academic reference from an instructor of an upper division course in the undergraduate major
- Submit an application for the D.P.T. Program through the Physical Therapist Centralized Application Service (see Submitting an Application to the PTCA)

All international and non-native applicants must take the TOEFL examination. The minimum total score accepted is 79 on the Internet-based test, 213 on the computer-based test, or 550 for the paper-based test. All international students who attended colleges and universities outside of the United States will need to submit a course-by-course evaluation of their transcript(s) from World Education Services Inc. (www.wes.org) to PTCA.

All applications will be reviewed and screened. Quality applicants will be notified and scheduled for an interview.

* Due to the fact that basic sciences form the foundation for clinical decisions by physical therapists, proficiency in all prerequisite science courses is paramount. In addition to an applicant’s ability to demonstrate competency in the critical science disciplines, the Admissions Committee takes into consideration their ability to do so without having to repeat courses. As a result, applicants must be aware that while a minimum grade of C or better is mandatory for each and every science prerequisite, the Admissions Committee also reviews an “average” science grade for any prerequisite course taken multiple times. In addition, any science prerequisite course taken more than 10 years prior to the application will not be accepted.

** Visit www.gre.org for more information about the GRE. The LIU Brooklyn Doctor of Physical Therapy PTCA GRE code is 0333. This code is needed for the Department of Physical Therapy to receive your GRE results. Applicants applying for the early decision cycle must have taken the GRE general test or revised general test prior to July 31, 2015. Those who are applying for the regular decision cycle must have taken the test by March 1, 2016.

Submitting an Application to the PTCA

The Department of Physical Therapy at LIU Brooklyn participates in the Physical Therapist Centralized Application Service, known as PTCA. In addition to submitting an application for admission to LIU Brooklyn, those applying to the DPT program for the 2016 entering class must:

- Visit www.ptcas.org to begin the PTCA application process
- Read the instructions available at the PTCA Web site carefully
Logon to the 2015-16 PTCAS application to complete the application process
Select “LIU Brooklyn” as a designated physical therapy program.

**PROGRAM REQUIREMENTS**
In order for a student to progress within the program, the following criteria must be met:
- Each course must be completed with a grade of “C” or better
- Each semester grade point average (GPA), must equal 2.75 or greater throughout the program
- Each semester cumulative grade point average (GPA) must equal 3.00 or greater throughout the program
- Pass annual and final comprehensive exams
- Successfully complete clinical practice courses
  - As indicated in the LIU Brooklyn Graduate Bulletin, “a B average or a minimum 3.00 cumulative grade point average (GPA) is required for awarding of the graduate degree or any graduate certificate.”

**Curricular Coursework**
The Doctor of Physical Therapy curriculum coursework includes learning in respect to:
- The foundational sciences (anatomy, physiology, pharmacology, psychology, neuroscience and movement analysis) with emphasis on the human movement system to increase the knowledge required by the physical therapist as the primary provider of health care intervention for movement dysfunction
- The clinical sciences (musculoskeletal, cardiopulmonary, neuromuscular, integumentary, urogenital, endocrine pathology, nature of illness and movement dysfunction through the lifespan
- Evidence-based physical therapy examination, diagnosis and intervention with emphasis on clinical decision making
- A clinical education model including 35 weeks of full-time clinical experience in diverse practice settings. Participation of LIU Brooklyn faculty members in the clinical education program promotes a teaching/learning model that facilitates self-directed and collaborative student learning and communication
- Emphasis on the new and expanding roles for physical therapists in cultural competence; health promotion and wellness; administration and management; health care financing; consultation in health care; and client education on individual, community and public levels
- Preparation for critical consumption of scientific and clinical literature in support of evidence-based practice and future participation in research

**Physical Therapy Scholars Award Program**
For the Doctor of Physical Therapy (D.P.T.) professional class entering in summer 2016, a considerable number of Physical Therapy Scholars Awards will be granted on a merit basis. Each award provides an annual scholarship of up to $10,000 per year ($5,000 per semester). The award is applied toward tuition charges (fees are not covered) provided that the recipient is registered as a full-time D.P.T. student, taking at least 12 credits per term. The Award is renewable for up to six (6) semesters of study and is applied during the fall or spring semesters only (summers excluded).

The selection of award recipients is based on undergraduate cumulative grade point average (GPA), GRE scores and interview performance. A minimum 3.2 undergraduate cumulative GPA at the time of application to the D.P.T. program is required for consideration.

Award recipients who have not yet completed the baccalaureate degree will receive a provisional award. The provisional award will be activated upon receipt of the final transcript, indicating conferral of the baccalaureate degree with a final undergraduate cumulative GPA of 3.2 or above. Students who are not eligible for federal student aid will not be considered for the award.

Students not selected for the award upon admission, or those who are not eligible based on their undergraduate GPA may be reconsidered for the award on a merit basis, should scholarship monies remain available after the start of the program. For these students, a D.P.T. cumulative GPA of at least 3.5 is required for consideration.

In order to remain eligible for the award during the program, all recipients are required to complete the Free Application for Federal Student Aid (FAFSA) each year, must maintain a minimum cumulative GPA of 3.0 and fulfill criteria for maintaining good academic standing. Award recipients will lose their eligibility for the award, and any opportunity of reinstating it, if they are placed on academic probation and/or fail any course or clinical practice experience in the D.P.T. program.

Note: No combination of tuition awards may exceed 100% of the cost of tuition each semester. Tuition awards include Physical Therapy Scholars Award, graduate assistantship and any other award (from any source) covering tuition.

Physical Therapy Courses

PT 697 Independent Study
Under the guidance of a faculty advisor, a student may pursue a topic or project of special interest. This course may also be used for remediation of an area of deficit as determined by the physical therapy program, with faculty advisement provided. Departmental approval required for registration, choice of topic and advisor. Student must be a Physical Therapy major in order to register for this course. Credits: 1 On Demand

PT 698 Independent Study
Under the guidance of a faculty advisor, a student may pursue a topic or project of interest. This course may also be used for remediation of an area of deficit as determined by the physical therapy program, with faculty advisement provided. Departmental approval required for registration, topic and advisor. Student must be a Physical Therapy major in order to register for this course. Credits: 2 On Demand

PT 699 Independent Study
Under the guidance of a faculty advisor, a student may pursue a topic or project of interest. This course may also be used for remediation of an area of deficit as determined by the physical therapy program, with faculty advisement provided. Departmental approval required for registration, topic and advisor. Student must be a Physical Therapy major in order to register for this course. Credits: 3 On Demand

PT 750 Anatomy I
The first part of a two-course sequence for the detailed study of human structure using a regional approach with an emphasis on various systems, including nervous, pulmonary, endocrine, integumentary, muscular, skeletal, genitourinary, gastrointestinal, and cardiovascular. The focus of the course pertains to the relationship between anatomical structure and normal human movement with lectures that supplement human dissection laboratories and problem-oriented exercises. An introduction to the clinical reasoning process by applying anatomy to clinical cases will be discussed. The corequisite of PT 760 is required and the student must be a PT major. Credits: 2 Every Summer

PT 752 Anatomy II
Continuation of a two-course sequence for the detailed study of the structures of the human body using a regional approach as described for PT 750 (Anatomy I). In addition, a 15 hour surface palpation lab is part of this course where students will use their understanding of anatomy to palpate various structures on each other, which will subsequently prepare students for the examination and treatment courses in the upcoming semesters. The pre-requisites of PT 750, 755 and 760 are required. The corequisites of PT 759, 762, 770, 775 and 780 are required. Credits: 3 Every Fall

PT 755 Human Physiology
The microscopic anatomy (histology) and function (physiology) of the cardiovascular, integumentary, nervous, pulmonary, skeletal, muscular, genitourinary, gastrointestinal, metabolic, and endocrine systems are studied. Emphasis is on the interaction of all systems relative to human movement and particularly as applied to exercise, rest, and immobility. Additional emphasis includes the principles of healing, the inflammatory process, tissue plasticity, repair, and regeneration. Lectures are supplemented by problem-oriented learning exercises in a clinical context. The corequisites of PT 750 and 760 are required. Credits: 3 Every Summer

PT 757 Pharmacology
Course content emphasizes the physiologic and metabolic responses of the human body to commonly used medications. Classroom presentations reinforce prerequisite information in anatomy and physiology and include a focus on a problem-oriented instruction to encourage active student involvement. Course content will provide the student with a theoretical knowledge base that can be used as a framework for understanding the effects of various medications on a variety of normal and pathologic conditions through critical analyses of clinical problems. The corequisites of PT 764, 766, 877 and 890 are required. The corequisites of PT 752, 759, 762, 770, 775 and 780 are required. Credits: 2 Every Spring

PT 759 Neuroscience
The basic structure, organization, and function of the nervous system within the context of rehabilitation are presented in classroom setting with an emphasis on problem-oriented learning to encourage active student participation and clinical decision-making. An emphasis is placed on neuroanatomy and neurophysiology of the sensory and motor systems that govern posture and movement. A rehabilitation framework is built on the fundamental relationship between normal structure and function, damage and dysfunction, sensory processing and integration, motor control, posture and balance. The corequisites of PT 752, 762, 770, 775 and 780 are required. The corequisites of PT 750, 775 and 760 are required. Credits: 3 Every Fall

PT 760 Movement Analysis I
The first part of a two-course sequence designed for a detailed regional study of human arthrokinematics and osteokinematics. Course materials include biomechanics of human tissue and neurological regulation of movement with an emphasis on the clinical relationship of joint structure and muscle function at individual joints. Lectures and laboratory sessions supplement problem-oriented learning exercises that cover palpation of anatomical structures, observation of human movement with an emphasis on clinical problems, and their relationship to the mechanical and physiological concepts that direct foundations of human movement. The corequisites of PT 750 and 755 are required. Credits: 2 Every Summer

PT 762 Movement Analysis II
A continuation of a two-course sequence for detailed study of human arthrokinematics and osteokinematics using a regional approach as described for PT 760 (Movement Analysis I). An in-depth discussion of normal and pathological gait is presented towards the end of the course with principles solidified in a lab-based format. The corequisites of PT 752, 759, 770, 775 and 780 are required. The pre-requisites of PT 750, 755 and 760 are required. Credits: 3 Every Fall

PT 764 Movement Analysis III
This course continues the analysis of functional movements from Movement Analysis I and II, and introduces students to foundational issues in motor learning and motor control of basic skills through problem-oriented exercises, lab activities, and traditional lectures. Additional course content includes theoretical perspectives on how to analyze movements, cognitive skills underlying motor learning and performance, and theoretical issues regarding the relationship between motor skills and the disablement model. Upon course completion, students should demonstrate an understanding of the fundamental skills and challenges required to perform movement in both healthy and disabled populations. The corequisites of PT 757, 766, 877 and 890 are required. The corequisites of PT 752, 759, 762, 770, 775 and 780 are required. Credits: 3 Every Spring

PT 766 Tests and Measurements
Tests and Measurements is a 4-credit course during the third semester of the first year of the Doctorate of Physical Therapy (DPT) curriculum and is designed to provide the student an introduction and overview to the tests and measures used in patient examination in order to determine the need
for physical therapy intervention. The pedagogical approach of the course includes an emphasis on problem-oriented learning in an effort to encourage active student involvement in the educational process. Course content has been organized to provide the student with theoretical knowledge that can be used for administration, analysis, and interpretation of tests and measures. Administration encompasses the development of psychomotor skills; analysis includes measurement theory, and interpretation involves the implementation of foundational clinical decision-making skills. Students will be expected to recall and apply information from the prerequisite courses in a clinically relevant manner to critically analyze problems covering a variety of clinical scenarios. Upon completion of the course, students will be expected to utilize a problem-solving approach to the selection and application of tests and measures.

The co-requisites of PT 751, 764, 877 and 890 are required. The pre-requisites of PT 752, 759, 762, 770, 775 and 780 are required.

Credits: 3
Every Fall

PT 770 Psychological Issues
This course integrates the psychosocial, economic, vocational, cultural, familial, religious, sexual, and illness/disability specific factors that may be encountered by a professional physical therapist.

An emphasis is placed on small group discussions, problem-oriented learning, role-playing, simulation activities, and structured experiential learning outside the classroom. The content will provide theoretical and practical knowledge that can be used during care of individuals with acute and chronic disabilities, stress-related disorders, victims of domestic violence, and mental disorders requiring intervention and/or appropriate referral.

Students are expected to recall and apply information from previous and concurrent coursework in psychology, ethics and communication and synthesize course content to demonstrate competency in the professional behaviors.

The co-requisites of PT 752, 759, 762, 775 and 780 are required. The pre-requisites of PT 750, 755 and 760 are required.

Credits: 3
Every Fall

PT 775 Clinical Seminar I
Clinical Seminar I is a 2 credit course during the Fall of the first year of the Doctorate of Physical therapy curriculum and is designed to provide the student with an introductory exploration of professional issues including the history, philosophy and present status of the profession of physical therapy, the role of the physical therapist in health care delivery, the examination of human behavior as a basis for interaction between therapist and client, including skills of cultural competence.

Course content will include ethics, patient rights, an introduction to the Guide to Physical therapist Practice and the Disability Model, use of portfolios, core values and generic abilities to foster professional development, and communication skills, including documentation. The pedagogical approach for the course will include didactic lecture, discussion, student presentation and demonstration.

The co-requisites of PT 752, 759, 762, 770 and 780 are required. The pre-requisites of PT 750, 755 and 760 are required.

Credits: 2
Every Fall

PT 780 Research Methods
This course presents the theoretical and practical foundations of research design and measurement, including descriptive and inferential statistical techniques common to clinical research studies through lectures, problem sets, problem-oriented learning experiences, and student presentations. Upon course completion, students should have a clear understanding of a basic set of research designs and statistical tests common to clinical research studies.

The co-requisites of PT 752, 759, 762, 770 and 775 are required. The pre-requisites of PT 750, 755 and 760 are required.

Credits: 4
Every Fall

PT 785 Evidence-Based Practice
This course focuses on improving student skills regarding reading, understanding, and applying clinical research literature in physical therapy. Classroom experiences include lecture, group discussion, Socratic questioning, group projects, and student presentations. Students will practice and develop skills in the formulation of clinical research questions, search for evidence related to those questions through various media, critically and systematically evaluate and write about current research studies, and draw conclusions from the literature with regard to the implications for physical therapy practice.

The co-requisites of PT 820, 834, 880 and 892 are required. The pre-requisites of PT 822, 834, and 993 are required.

Credits: 3
Every Spring

PT 790 Musculoskeletal PT I
The first of three courses designed to help students apply the theory and skills used by physical therapists to assess, evaluate, diagnose, and manage movement-related patient problems of individuals with musculoskeletal pathologies. This course will focus on the joints of the upper extremity and incorporate the pathology, diagnosis, and management of non-operative and operative conditions of the shoulder, elbow, wrist, and hand. Presentations will take place in both the classroom and laboratory settings, and will foster critical thinking, practice of new techniques pertinent to orthopedic physical therapy, independent learning, and problem solving through traditional lectures, lab practice, and small group discussions. Upon completion of the course, students will be able to safely examine and treat individuals with upper extremity musculoskeletal pathologies.

The co-requisites of PT 810, 830 and 875 are required. The pre-requisites of PT 751, 764, 766, 877 and 890 are required.

Credits: 4
Every Summer

PT 810 Physical and Mechanical Modalities
This course is designed to provide students with a theoretical knowledge base and the psychomotor skills required for the therapeutic application of commonly used physical and mechanical modalities. Clinical reasoning and evidence-based practice will be fostered through traditional lectures, group discussions, hands-on laboratory activities, case studies and review of literature. Students will be expected to apply information from previous coursework in a relevant manner to critically analyze a variety of clinical scenarios. Upon completion of the course, students will be expected to demonstrate sound clinical decision making and competency in selecting, justifying and administering physical and mechanical modalities.

The co-requisites of PT 830, 790 and 875 are required. The pre-requisites of PT 751, 764, 766, 877 and 890 are required.

Credits: 4
Every Summer
PT 820 Pulmonary Pathology, Diagnosis and Management

This course is designed to provide the student an introduction and overview of commonly encountered pulmonary conditions. Course content has been organized to provide the student with a theoretical knowledge base that can be used to understand the pathophysiology of common pulmonary disorders and to promote clinical decision making skills in the examination, evaluation, and intervention design for patients/clients with pulmonary dysfunction. Students will be expected to recall and apply information from previous coursework including the basic sciences of anatomy, physiology, and pharmacology in a clinically relevant manner to critically analyze problems covering a variety of clinical scenarios. The pedagogical approach of the course will include didactic lectures enhanced by the use of case studies with a problem oriented approach to encourage active student involvement in the educational process. Laboratory sessions will focus on psychomotor skills, examination and treatment techniques. Clinical documentation skills and professional behaviors will also be reinforced.

Pre-requisites of PT 790, 810, 830, and 875 are required.

Corerequisite of PT 850, 832, 880, and 892 are required.

Credits: 3

Every Fall

PT 822 Cardiac Pathology, Diagnosis and Management

This course will review normal and abnormal cardiopulmonary and cardiovascular anatomy and physiology. Disease pathologies and their relevance to clinical settings will be discussed. Additionally, diagnostic procedures will be reviewed as they relate to specific disease processes. Both medical and surgical management will be discussed. The role of the health care team will be discussed as well as integration of data from the patient chart review, objective assessment and creation of a comprehensive plan of care including, goals, frequency setting and discharge recommendations. Laboratory sessions will focus on psychomotor skills, examination and treatment techniques. The co-requisites of PT 785, 834 and 995 are required. The pre-requisites of 820, 832, 880 and 892 are required.

Credits: 3

Every Fall

PT 832 Pediatric Neuromuscular Diagnosis and Management

This course presents the patient management model of examination, evaluation, diagnosis, prognosis, intervention, and outcomes related to neuromuscular disabilities of children and adolescents. Course expectations include problem-oriented learning, literature review for evidence-based practice, and live video demonstrations. Principles of motor development, motor learning and motor control are explored as students become familiar with different practice settings including the Neonatal Intensive Care Unit, early intervention, and the school setting. Laboratory sessions enable students to learn assessment and intervention strategies consisting of standardized tests, outcome measures, handling techniques, and neuropsychological and neurodevelopmental treatment techniques. Upon completion, students will have entry-level clinical knowledge and skills to manage a client with a developmental disability.

Pre-requisites of PT 790, 810, 830, and 875 are required.

Corerequisites of PT 820, 850, 880, and 892 are required.

Credits: 3

Every Fall

PT 834 Adult Neuromuscular Diagnosis and Management

This course presents assessment procedures and therapeutic management techniques of adults patients with neurological dysfunction and spinal cord injuries through the use of case study presentations with an emphasis on problem-oriented learning to encourage active student participation and clinical decision-making. The presentation of course materials reinforces earlier course work in neuroanatomy, neurophysiology and neuromuscular pathology. Laboratory sessions emphasize the development of specific psychomotor skills necessary for assessment and treatment of the adult neurological client. Course content also provides an eclectic theoretical treatment rationale based on normal sensorimotor development, neurophysiology, and motor control to include Neurodevelopmental Treatment (NDT), Brunnstrom, Proprioceptive Neuromuscular Facilitation (PNF), and Motor Relearning Programme (MRP) as a basis for clinical decision-making.

Pre-requisites of PT 850, 820, 832, 880, and 892 are required.

Corerequisites of PT 875, 822 and 995 are required.

Credits: 5

Every Spring

PT 850 Clinical Practice I

Clinical Practice I is a 6-week, full time clinical practice course under the supervision of a licensed physical therapist clinical instructor (CI). The student attends a clinical practice facility for six consecutive weeks with specific hours arranged by each facility. This clinical experience is designed to provide the student an opportunity to develop professional behaviors and communication skills, apply the patient management model, develop gross and specific examination and intervention skills, develop documentation skills, and begin to develop clinical decision-making and critical thinking skills within the content of evidence-based practice.

Emphasis during this clinical practice is on the evaluation and treatment of patients, including the areas of basic examination and evaluation skills, ambulation training, transfer training, the administration of modalities, and in administering therapeutic exercise. Students are expected to recall and apply information from previous coursework in a clinically relevant manner to critically analyze problems within a variety of clinical settings. Upon completion of the clinical experience, students are expected to synthesize course content in such a way as to demonstrate development of the generic abilities and core values necessary for becoming a physical therapist.

The pre-requisites of PT 790, 810, 830 and 875 are required.

Credits: 4

Every Fall

PT 857 Current Physical Therapy Practice

This course is designed to provide the student an introduction to recent fundamental changes that have occurred in physical therapy practice relative to patient management model and the roles and responsibilities of the physical therapist including relevance and procedures of medical screening, systems review, and theories and concepts of clinical decision-making and diagnosis. The student will also be oriented to the scientific basis of the physical therapy profession and instructed in the methods of evidence-based practice. Students will be instructed in the relevance and basic skills of cultural competence in patient management. The expanding role, responsibility, and accountability of the physical therapist as a doctoring level profession will be introduced and discussed. This course serves as a prerequisite or corequisite for all other courses. Offered every Fall and Spring. Three credits.

Student must be a Physical Therapy major in order to register for this course.
Health Promotion and Wellness is a 2-credit course designed to provide students with the theoretical and practical aspects of maintaining and promoting health. Students will examine theories of wellness as well as the effects of lifestyle and the environment on wellness. The student-practitioner collaborative model and approaches to facilitating adherence to healthy lifestyle behavior changes will be explored. Emphasis will be placed on social, epidemiological, and behavioral and environmental assessment as well as educational and ecological assessment of factors affecting health-related behavior and environments. Students will also become knowledgeable about patient education and participation in community activities in the promotion of health and healthy lifestyles and the prevention of illness and injury. Upon completion of the course students are expected to understand wellness theories and implement programs on the individual and community levels.

Pre-requisites of PT 885 and 990 are required
Co-requisites of PT 915, 960 and 975 are required

Credits: 2
Every Fall

PT 880 Physical Therapy Across the Lifespan
Physical Therapy Across the Lifespan is a 2-credit course during the fall semester of the second year of the Doctorate of Physical Therapy curriculum and is designed to explore concepts of human growth and development from conception to senescence including physical, cognitive, social and emotional development. Theories of aging including somatic and other factors that influence wellness and disability across the lifespan will be addressed.

Course content has been organized to provide the student with a theoretical knowledge base that can be used in the diagnosis, prognosis, examination, and intervention of individuals with metabolic, endocrine, gastrointestinal, genitourinary, and other pathologies. Students will be expected to recall and apply information from previous coursework in a clinically relevant manner to critically analyze problems covering a variety of clinical scenarios. Upon completion of the course, students will be expected to synthesize course content in such a way as to demonstrate clinical decision-making in regard to individuals with specific system pathologies.

Pre-requisites of PT 785, 822, 834, and 995 are required
Co-requisites of PT 950 is required

Credits: 4
Every Summer

PT 890 Foundations of Therapeutic Exercise
This course will introduce students to the scientific and theoretical basis as well as the clinical application of therapeutic exercises commonly used by physical therapists such as range of motion, stretching, resistance, and aerobic exercises. Specific course content will include indications, precautions, contraindications, principles and procedures for applying various types of therapeutic exercise interventions. Clinical reasoning, evidence-based practice, and independent learning will be fostered through traditional lectures, group discussions, laboratory activities, and case presentations. In order to critically analyze clinical scenarios presented in this course, students will be expected to integrate and apply information learned from any preceding physical therapy coursework in addition to those learned from this course. At the completion of the course, students will be expected to be able to design an exercise program aimed at improving physical impairments and functional limitations.

Pre-requisites of PT 757, 764, 766 and 890 are required.
Pre-requisites of PT 752, 759, 762, 770, 775 and 780 are required.

Credits: 3
Every Spring

PT 877 Teaching and Learning Strategies
This course presents an overview of the process of teaching in settings relevant to physical therapy practice. Presentation of the course materials reinforces earlier coursework from Psychological Issues, and Clinical Seminar with an emphasis on problem-oriented learning, small group discussions, and simulation activities, and instructional unit development. Course content has been organized to provide the student with theoretical and practical knowledge of curriculum design, as well as the clinician as an educator in the academic, clinical, and community settings.

Pre-requisites of PT 757, 764, 766 and 980 are required.
Pre-requisites of PT 752, 759, 762, 770, 775 and 780 are required.

Credits: 3
Every Summer

PT 875 Clinical Seminar II
Clinical Seminar II is a 3-credit course during the summer semester of the second year of the Doctorate of Physical Therapy curriculum and is designed to provide the student with the essential skills basic to the practice of physical therapy. The psychomotor component of these essential skills include: body mechanics, positioning and draping, bed mobility, transfers, wheelchair mobility and management, and gait training. Patient safety will be strongly emphasized. This course will also provide the student with an overview of the HIPPA and OSHA requirements for clinical practice. There will be a strong focus on professional behavior and communication skills. Clinical documentation skills will also be reinforced. The pedagogical approach for the course will include lecture, demonstration, case study, and discussion.

Pre-requisites of PT 810, 830 and 790 are required.
Pre-requisites of PT 757, 764, 766, 877 and 890 are required.

Credits: 3
Every Summer

PT 885 Specific System Diagnosis and Management
Specific Systems Diagnosis and Management is a 4-credit course offered during the summer semester of the third year of the Doctorate of Physical Therapy curriculum. The course is designed to provide the student an overview of the pathology, examination, evaluation, and interventions of patients with specific system pathologies. Presentation of course material will reinforce earlier course work from anatomy, physiology, and previous examination, evaluation, and intervention courses. This course will also cover content related to the use of orthotics and prosthetics and the management of patients with amputations. The pedagogical approach of the course will include an emphasis on problem-oriented learning in an effort to encourage active student involvement in the education process. Course content has been organized to provide the student with a theoretical knowledge base that can be used in the diagnosis, prognosis, examination, and intervention of individuals with metabolic, endocrine, gastrointestinal, genitourinary, and integumentary pathologies. Students will be expected to recall and apply information from previous coursework in a clinically relevant manner to critically analyze problems covering a variety of clinical scenarios. Upon completion of the course, students will be expected to synthesize course content in such a way as to demonstrate clinical decision-making in regard to individuals with specific system pathologies.

Pre-requisites of PT 790, 810, 830, and 875 are required.
Pre-requisites of PT 850, 832, 880, and 892 are required.

Credits: 3
Every Fall
expected to recall and apply information from programs, participate at Grand Rounds/Team opportunity to engage in prevention/wellness administration skills. Students also have the opportunity to consult, educate, and develop consultation, education, and administration skills. Students may also have the opportunity to engage in prevention/wellness programs, participate at Grand Rounds/Team Conference, and outcome assessments. Students are expected to recall and apply information from previous coursework in a clinically relevant manner to critically analyze problems covering a variety of clinical settings. Pre-requisites of PT 880 and 950 are required Credits: 4 Every Summer

PT 956 Clinical Practice IV
Clinical Practice IV is a 10 week, full time clinical practice course under the supervision of a licensed physical therapist. The student attends a clinical practice facility for 10 consecutive weeks with specific hours arranged by each facility. This clinical experience is designed to provide the student opportunities to improve clinical decision-making and critical thinking skills through use of the patient management model, evidence-based practice, collaboration with patients, family members and other health professionals, and develop consultation, education, and administration skills. Students may also have the opportunity to engage in prevention/wellness programs, participate at Grand Rounds/Team Conference, and outcome assessments. Students are expected to recall and apply information from previous coursework in a clinically relevant manner to critically analyze problems covering a variety of clinical settings. Pre-requisites of PT 880 and 950 are required Credits: 8 Every Spring

PT 950 Clinical Practice II
The student is supervised by the clinical instructor while applying the knowledge and skills acquired in previous coursework. This 9-week clinical experience is designed to provide the student opportunities to improve clinical decision-making and critical thinking skills through use of the patient management model, evidence-based practice, collaboration with patients, family members and other health professionals, and develop consultation, education, and administration skills. Students also have the opportunity to engage in prevention/wellness programs, participate at Grand Rounds/Team Conference, and outcome assessments. Students are expected to recall and apply information from previous coursework in a clinically relevant manner to critically analyze problems covering a variety of clinical settings. Upon completion of the clinical experience, students are expected to synthesize course content in such a way as to demonstrate competency in the professional behaviors necessary for becoming an effective physical therapist. Pre-requisites of PT 880 is required Co-requisites of PT 885 is required Credits: 5 Every Summer

PT 955 Clinical Practice III
Clinical Practice III is a 10 week full time clinical practice course under the supervision of a licensed physical therapist. This clinical experience is designed to provide the student opportunities to improve clinical decision-making and critical thinking skills through use of the patient management model, evidence-based practice, collaboration with patients, family members and other health professionals, and develop consultation, education, and administration skills. Students may also have the opportunity to engage in prevention/wellness programs, participate at Grand Rounds/Team Conference, and outcome assessments. Students are expected to recall and apply information from previous coursework in a clinically relevant manner to critically analyze problems covering a variety of clinical settings. Pre-requisites of PT 880 and 950 are required Credits: 8 Every Summer

PT 956 Clinical Practice IV
Clinical Practice IV is a 10 week, full time clinical practice course under the supervision of a licensed physical therapist. The student attends a clinical practice facility for 10 consecutive weeks with specific hours arranged by each facility. This clinical experience is designed to provide the student opportunities to improve clinical decision-making and critical thinking skills through use of the patient management model, evidence-based practice, collaboration with patients, family members and other health professionals, and develop consultation, education, and administration skills. Students may also have the opportunity to engage in prevention/wellness programs, participate at Grand Rounds/Team Conference, and outcome assessments. Students are expected to recall and apply information from previous coursework in a clinically relevant manner to critically analyze problems covering a variety of clinical settings. Pre-requisites of PT 880 and 950 are required Credits: 8 Every Spring

PT 960 Instrumented Movement Analysis
This course provides an opportunity for students to become familiar with instruments used in the study of human movement. In addition to lecture presentations, this course includes discussions, demonstrations, and hands-on practice of instrumentation typically found in a human movement laboratory such as electromyography, two-dimensional and three-dimensional motion analysis, metabolic gas analysis, and dynamometry. Upon course completion, students are expected to describe the use of advanced instrumentation in the analysis of human movement, and be able to perform basic setups using the equipment. The co-requisites of PT 785, 822, 834 and 885 are required. The pre-requisites of PT 820, 834, 880 and 892 are required. Credits: 3 Every Spring
DIVISION OF PHYSICIAN ASSISTANT STUDIES

Professor: Joanna Shulman, MD, FACOG
(Medical Director)
Assistant Professor: Sharon Verity, PA-L, MPAS
(Division Director)
Assistant Professors: Marion Masterson, PA-C, MPAS; Maria Compte, MD, MPH; James Eckert, PA-C, MA
Instructor: Camile Kiefer, RN, PA-C; Dwayne A. Williams, PA-C
Adjunct Faculty: 14

M.S. in Physician Assistant Studies

The 86-credit M.S. in Physician Assistant Studies is an intense, 28-month professional program that prepares health practitioners to work in a wide variety of clinical settings. Physician assistants take medical histories and perform physical examinations, select and interpret diagnostic tests and manage the health problems of patients under the supervision of a physician. In general, PAs may perform 80-90% of the care provided by physicians. Additionally, they may specialize in any area of medicine or surgery and enjoy lateral mobility, meaning that they may move from specialty to specialty without additional formal training.

LIU Brooklyn’s Physician Assistant Studies program was the first such program to be approved by the New York State Education Department. The Accreditation Review Commission on Education for the Physician Assistant, Inc. (ARC-PA) has granted Accreditation-Continued to the Physician Assistant Studies Program sponsored by LIU Brooklyn. Accreditation-Continued is an accreditation status granted when a currently accredited program is in compliance with the ARC-PA Standards.

Accreditation remains in effect until the program closes or withdraws from the accreditation process or until accreditation is withdrawn for failure to comply with the Standards. The approximate date for the next validation review of the program by the ARC-PA will be March 2020. The review date is contingent upon continued compliance with the accreditation Standards and ARC-PA policy. The program is a member of the Physician Assistant Education Association.

During the didactic year, medical courses are augmented with clinical experiences. During the clinical year, students are assigned to clinical rotations for twelve months on a full-time basis, returning to the program once every five weeks.

After meeting all campus and degree requirements, a certificate and the Master of Science degree are conferred upon the candidate. This enables the candidate to sit for the National Certifying Examination administered by the National Commission on the Certification of Physician Assistants (NCCPA).

The highest ethical and professional standards are expected to be upheld throughout the physician assistant course of study. The program is challenging and requires dedication, a high ethical standard, and professionalism in addition to intelligence, skill and medical knowledge.

Program Requirements

Students may attend LIU Brooklyn on a part-time or full-time basis while completing their prerequisite courses. During this phase students are expected to:

- Complete a minimum of 500 hours of direct patient care experience. Of these 500 hours, a minimum of 300 hours must be completed by the time of submission of CASPA application.

Acceptable types of direct patient care experience include: medical assistant; surgical technologist; licensed practical or registered nurse; dental assistant; dental hygienist; certified nursing assistant; home health aide; residential aide; emergency medical technician; paramedic; physical therapist; occupational therapist; physical therapy assistant; physical therapy aide; occupational therapy assistant; occupational therapy aide; respiratory therapist; perfusionist; electrocardiographic (EKG) technician; phlebotomist; ophthalmologic technician; volunteer work involving direct patient care; shadowing a physician, physician assistant or dentist. Other types of experiences may be acceptable. If you are interested in clinical experience that differs from those listed above, please contact the Division of Physician Assistant Studies to determine if the proposed experience is acceptable.

- Obtain at least a baccalaureate degree from an accredited college or university no later than at the time of matriculation to the Division of Physician Assistant Studies.
- Maintain a grade point average of 3.0 or above (overall and in prerequisites) in courses taken at an accredited college or university.
- Demonstrate acceptable academic performance.
- Complete all prerequisite coursework, which includes: one year (two courses) of not less than 4 credits each in general biology, with laboratory; one year (two courses) of not less than 4 credits each in general chemistry, with laboratory; one semester (one course) of not less than 4 credits in human anatomy, with laboratory; one semester (one course) of not less than 3 credits in human physiology, with or without laboratory; one semester of microbiology; one semester of statistics.
- Sit for the Graduate Record Examination (GRE). The code for LIU Brooklyn is 2369.

Course work and above criteria must be completed within a specified time limit. Applicants meeting all of the criteria above may be considered for an interview.

Initial application to the professional phase of the program for transfer students should be made through the Centralized Application Service for Physician Assistants (CASPA) by visiting www.caspaonline.org. CASPA will collect and summarize all of the applicant’s data (application form, transcripts, recommendations), which will be forwarded to the Physician Assistant Studies Program. When all materials have been received and reviewed, selected applicants will be invited to a personal interview. If the candidate is accepted to the program, a deposit of $500 is required to hold a seat in the incoming class.

A supplemental application also must be filed through the Office of Admissions. Please apply online at My LIU or use the Apply Now link in the top navigation bar. For more information on the admissions process, visit the Office of Admissions Web site.

Advanced Standing

The Division of Physician Assistant Studies does not offer advanced standing to any applicants, including those who have prior experience as a medical student or physician assistant student or who are foreign medical graduates.

Technical Standards

Observation - The ability to observe is required for demonstrations, visual presentations in lectures and laboratories, laboratory evidence and microbiological cultures, microscopic studies of microorganisms and tissues in normal and pathological states. A candidate must be able to observe patients accurately and completely, both...
Communication - A candidate should be able to speak, hear and observe patients in order to elicit information, perceive non-verbal communications and describe changes in mood, activity and posture. The candidate must be able to communicate effectively and sensitively with patients through speech, and through reading and writing. Communication in oral and written form with the health care team must be effective and efficient.

Motor - A candidate should have sufficient motor function to elicit information from patients by palpation, auscultation and percussion, as well as to carry out diagnostic maneuvers. A candidate should have motor function sufficient to execute movements reasonably required to provide general care and emergency treatment to patients. Such skills require coordination of gross and fine muscular movements, equilibrium and sensation.

Intellectual-Conceptual, Integrative and Quantitative Abilities - Problem solving is a critical skill demanded of physician assistants; this skill requires all of these abilities. The candidate must also be able to comprehend three-dimensional relationships as well as the spatial relationship of structures.

Behavioral and Social Attributes - A candidate must have sufficient emotional health to fully use his or her intellectual ability, to exercise good judgment, to complete all responsibilities, and to attend to the diagnosis and care of patients. A candidate must be able to develop mature, sensitive and effective relationships with patients and colleagues. A candidate must be able to tolerate physical and emotional stress and continue to function effectively. A candidate must possess qualities of adaptability, flexibility and be able to function in the face of uncertainty. He/she must have a high level of compassion for others, motivation to serve, integrity and a consciousness of social values. A candidate must possess sufficient interpersonal skills to interact positively with people from all levels of society, all ethnic backgrounds and all belief systems. The administration of the Physician Assistant Studies program recognizes its responsibility to present candidates who have the knowledge and skills to function in a broad variety of clinical situations and to render a wide spectrum of patient care. The responsibility for these technical standards is primarily placed on the Physician Assistant Admissions Committee to select entering Physician Assistant Studies students who will be the candidates for the degree.

Health Requirements

All students entering or re-entering the professional phase of the M.S. degree in Physician Assistant Studies must complete and submit a Health Examinations/Vaccinations form located in the Forms & Documents section of the Office of Admissions website, as well as the division’s health forms. The division’s health forms will be sent along with the package of materials that is mailed out in May of the year in which the student will enter the program, after the student is accepted into the program and after the student submits the deposit to hold the seat. Additional health forms are required for entry into the clinical year of the division’s curriculum.

Clinical Year Clerkships

Each clinical year student completes ten (10) clerkships of five (5) weeks in length. The faculty creates an individual rotation schedule for each clinical year student. The student must return to LIU Brooklyn campus at the end of each clerkship for a two-day End-of-Rotation Meeting with the faculty.

Students must rotate in each of the following clerkships during the clinical year: internal medicine, surgery, family medicine, emergency medicine, pediatrics, obstetrics and gynecology, psychiatry, internal medicine elective, surgical elective and clinical elective.

M.S., Physician Assistant Studies

Program Code: 06928

Must complete all of the following courses:

Credit and GPA Requirements

Minimum Total Credits: 86
Minimum Major GPA: 3.0
Physician Assistant Courses

**MS 500 Anatomy**
The study of the structure of the human body with a clinical emphasis. Lectures and labs will emphasize anatomy and anatomic relationships significant to common clinical medicine topics and surgical procedures. Includes cadaver lab. Prerequisites: admission to the graduate program in Physician Assistant Studies. Four units.

In order to register for this course, the student must be a graduate student in the Physician Assistant plan.
Credits: 3
Every Fall

**MS 501 Physiology**
A study of organ systems, with presentations emphasizing normal physiology of each system. Lectures will discuss normal function, cellular changes and pathological changes where appropriate. Prerequisites: admission to the graduate program in Physician Assistant Studies. Three units.

In order to register for this course, the student must be a graduate student in the Physician Assistant plan.
Credits: 1
Every Fall

**MS 502A Pharmacology I**
Part one of a two-semester sequence in pharmacology and clinical therapeutics. This course introduces the principles of pharmacokinetics and pharmacodynamics, dosage forms and dose-response relationships. Classes of pharmaceuticals will be studied, with a focus on the mechanisms of drug action in different therapeutic classes, common side effects of prototypic drugs in each category, drug side effects and drug-drug interactions, the interaction of drugs with the disease state under treatment, polypharmacy, and reputable sources of information about drugs. Prerequisites: admission to the graduate program in Physician Assistant Studies. Three units.

In order to register for this course, the student must be a graduate student in the Physician Assistant plan.
Credits: 3
Every Fall

**MS 502B Pharmacology II**
Part two of a two-semester sequence in pharmacology and clinical therapeutics. This course continues the consideration of the principles of pharmacokinetics and pharmacodynamics, dosage forms and dose-response relationships. Additional classes of pharmaceuticals will be studied, with a focus on the mechanisms of drug action in different therapeutic classes, common side effects of prototypic drugs in each category, drug side effects and drug-drug interactions, the interaction of drugs with the disease state under treatment, polypharmacy, and reputable sources of information about drugs. Prerequisites: successful completion of the fall semester of the didactic year of the graduate program in Physician Assistant Studies. Three credits.

The pre-requisites of MS 500, 501, 502A, 503A, 504A, 505 and 506 are all required.
Credits: 3
Every Spring

**MS 503A Art and Science of Medicine I**
Part one of a two-semester sequence in the art and science of physical diagnosis. Students learn the principles of patient interviewing, the components and practice of conducting the medical history, and the science and technique of performing a physical examination. Areas of the physical examination considered in this semester include general survey, vital signs, head, ears, eyes, nose and throat, neck, chest and heart. Students also learn the indications, contraindications, equipment, technique, and complications of common clinical procedures. This course contains both lecture and laboratory components. Prerequisites: admission to the graduate program in Physician Assistant Studies. Four credits.

In order to register for this course, the student must be a graduate student in the Physician Assistant plan.
Credits: 2
Every Fall

**MS 503B Art and Science of Medicine II**
Part two of a two-semester sequence in the art and science of physical diagnosis. Students learn the principles of patient interviewing, the components and practice of conducting the medical history, and the science and technique of performing a physical examination. Areas of the physical examination considered in this semester include the abdominal, male and female genitalia, breasts, rectal, musculoskeletal, and neurological examinations. This course contains both lecture and laboratory components. Prerequisites: successful completion of the fall semester of the didactic year of the graduate program in Physician Assistant Studies. Four credits.

The pre-requisites of MS 500, 501, 502A, 503A, 504A, 505 and 506 are all required.
Credits: 3
Every Spring

**MS 504A Clinical Medicine I**
Part one of a three-semester sequence in clinical medicine. This course introduces the student to the epidemiology, incidence, pathophysiology, signs, symptoms, pertinent laboratory studies, diagnosis, treatment and prognosis of disease processes affecting the human body. Disciplines considered in this semester include cardiology, pulmonology, otolaryngology, ophthalmology, infectious diseases, and gastroenterology. Prerequisites: admission to the graduate program in Physician Assistant Studies. Four credits.

In order to register for this course, the student must be a graduate student in the Physician Assistant plan.
Credits: 4
Every Fall

**MS 504B Clinical Medicine II**
Part two of a three-semester sequence in clinical medicine. This course introduces the student to the epidemiology, incidence, pathophysiology, signs, symptoms, pertinent laboratory studies, diagnosis, treatment and prognosis of disease processes affecting the human body. Disciplines considered in this semester include but are not limited to: endocrinology, nephrology, immunology, rheumatology, radiology, geriatrics, psychiatry, pediatrics, and hematology. Prerequisites: successful completion of the fall semester of the didactic year of the graduate program in Physician Assistant Studies. Six credits.

The pre-requisites of MS 500, 501, 502A, 503A, 504A, 505 and 506 are all required.
Credits: 6
Every Spring

**MS 504C Clinical Medicine III**
Part three of a three-semester sequence in clinical medicine. This course introduces the student to the epidemiology, incidence, pathophysiology, signs, symptoms, pertinent laboratory studies, diagnosis, treatment and prognosis of disease processes affecting the human body. Disciplines considered in this semester include but are not limited to: dermatology, neuroanatomy, neurology, obstetrics and gynecology, and radiology. Prerequisites: successful completion of the spring semester of the didactic year of the graduate program in Physician Assistant Studies. Six credits.

The pre-requisites of MS 502B, 503B, 504B, 507, 508A, 509 and 510 are all required.
Credits: 4
Every Summer

**MS 505 Psychosocial Aspects of Medicine**
This course considers primarily the non-medical issues critical to caring for patients. Topics include: cultural competency; medical ethics; substance abuse; human sexuality; and end of life care. Prerequisites: admission to the graduate program in Physician Assistant Studies. One credit.

In order to register for this course, the student must be a graduate student in the Physician Assistant plan.
Credits: 1
Every Fall

**MS 506 Pathology**
This course considers the pathophysiology of disease states at a cellular, structural and systemic
MS 507 Role Socialization
This course examines the physician assistant profession from its inception in the mid-1960s to the present. Topics to be considered include: history of the profession; state licensure and regulation; maintenance of professional license and certification; regulation of physician assistant education; types of reimbursement through health insurance plans; the physician-physician assistant relationship; other types of health care professionals and their roles in caring for patients; interacting with other health care professionals; and professionalism.
Prerequisites: successful completion of the fall semester of the didactic year of the graduate program in Physician Assistant Studies. One credit.
The pre-requisites of MS 500, 501, 502A, 503A, 504A, 505 and 506 are all required.
Credits: 1
Every Fall

MS 508A Research Methods I: Epidemiology
This course is designed to give students an introduction to the fundamentals of clinical epidemiology: measuring health statistics, how vital statistics are used in public health research and interventions, concepts of causality and risk. The relevance of epidemiologic concepts to public health and clinical work will be highlighted through the use of case studies and the examples of current health research.
Prerequisites: successful completion of the fall semester of the didactic year of the graduate program in Physician Assistant Studies. One credit.
The pre-requisites of MS 500, 501, 502A, 503A, 504A, 505 and 506 are all required.
Credits: 1
Every Spring

MS 508B Research Methods II: Evidence-Based Medicine
Part two of a two-semester sequence in research methodology. This is a course in evidence-based medicine. Topics include: study design, diagnostic and screening tests, assessment of diagnostic studies, and medical practice as seen through the lens of evidence-based medicine. A component in clinical problem-solving is also included.
Prerequisites: successful completion of the spring semester of the didactic year of the graduate program in Physician Assistant Studies. One credit.
The pre-requisites of MS 502B, 503B, 504B, 507, 508A, 509 and 510 are all required.
Credits: 1
Every Summer

MS 509 Preventive Medicine
This course considers health promotion and disease prevention; infectious disease control and prevention; prevention of disease resulting from contaminated food sources and from poor nutrition; occupational health; international health; preventable injuries; and the importance of the role of behavior, culture and society in the perception of health.
Prerequisites: successful completion of the fall semester of the didactic year of the graduate program in Physician Assistant Studies. One credit.
The pre-requisites of MS 500, 501, 502A, 503A, 504A, 505 and 506 are all required.
Credits: 1
Every Spring

MS 510 Clinical Laboratory Science
This course is designed to introduce students to the science of clinical laboratory medicine. Topics to be considered include but are not limited to: hematology and laboratory studies, chemistry, urinalysis, cardiac enzymes, blood gases, and the ways in which these laboratory tests inform the understanding of the disease state.
Prerequisites: successful completion of the fall semester of the didactic year of the graduate program in Physician Assistant Studies. One credit.
The pre-requisites of MS 500, 501, 502A, 503A, 504A, 505 and 506 are all required.
Credits: 1
Every Spring

MS 511 Introduction to Medical Literature
This course considers methods of conducting medical database searches; the use of a personal computer in clinical medicine for data storage and access to medical databases; the variety of medical databases currently in use; use of medical references; formulation and development of a research topic. Prerequisites: successful completion of the spring semester of the didactic year of the graduate program in Physician Assistant Studies. One credit.
The pre-requisites of MS 502B, 503B, 504B, 507, 508A, 509 and 510 are all required.
Credits: 1
Every Summer

MS 512 Medical Informatics
This course considers electronic medical records; medical insurance, including Medicaid and Medicare; billing and coding; health insurance fraud; and health literacy.
Prerequisites: successful completion of the spring semester of the didactic year of the graduate program in Physician Assistant Studies. One credit.
The pre-requisites of MS 502B, 503B, 504B, 507, 508A, 509 and 510 are all required.
Credits: 1
Every Summer

MS 513 Surgery
This course considers the approach to the surgical patient. The focus is on clinical diagnoses requiring a surgical management. Topics include: anesthesia; preoperative, intraoperative and postoperative care; disorders of the upper gastrointestinal tract; disorders of the stomach, liver, spleen, pancreas, and gallbladder; colorectal disorders; cardiovascular surgery; orthopaedic surgery; vascular surgery; urology; transplant surgery. Prerequisites: successful completion of the spring semester of the didactic year of the graduate program in Physician Assistant Studies. Two credits.
The pre-requisites of MS 502B, 503B, 504B, 507, 508A, 509 and 510 are all required.
Credits: 2
Every Summer

MS 514 Emergency Medicine
This course considers the approach to the emergent patient. Emphasis is placed on stabilization and emergent care. Topics include: stabilization; emergency ophthalmology; acute coronary syndrome; myocardial infarction; heart failure; poisoning; hyper- and hypothermia; fractures and sprains; animal bites; burns; sexual assault; pneumonia; trauma; and other concerns.
Prerequisites: successful completion of the spring semester of the didactic year of the graduate program in Physician Assistant Studies. One credit.
The pre-requisites of MS 502B, 503B, 504B, 507, 508A, 509 and 510 are all required.
Credits: 1
Every Summer

MS 601 Internal Medicine
This clinical course is a clinical clerkship in internal medicine. All clinical clerkships are five (5) weeks in length. Each student is assigned a clinical site and preceptor at the inception of the clinical year. Please see the Division of Physician Assistant Studies Clinical Year Handbook for further information. Prerequisites: successful completion of the didactic year of the Physician Assistant Studies curriculum. Two credits.
The pre-requisites of MS 504C, 508B, 511, 512, 513 and 514 are all required.
Credits: 2 to 4
Every Fall, Spring and Summer

MS 602 Surgery
This clinical course is a clinical clerkship in surgery. All clinical clerkships are five (5) weeks in length. Each student is assigned a clinical site and preceptor at the inception of the clinical year. Please see the Division of Physician Assistant Studies Clinical Year Handbook for further information. Prerequisites: successful completion of the didactic year of the Physician Assistant Studies curriculum. Two credits.
The pre-requisites of MS 504C, 508B, 511, 512,
MS 603 Pediatrics
This clinical course is a clinical clerkship in pediatrics. All clinical clerkships are five (5) weeks in length. Each student is assigned a clinical site and preceptor at the inception of the clinical year. Please see the Division of Physician Assistant Studies Clinical Year Handbook for further information.
Prerequisites: successful completion of the didactic year of the Physician Assistant Studies curriculum.
Two credits.
The prerequisites of MS 504C, 508B, 511, 512, 513 and 514 are all required.
Credits: 2
Every Fall, Spring and Summer

MS 604 Family Medicine
This clinical course is a clinical clerkship in family medicine. All clinical clerkships are five (5) weeks in length. Each student is assigned a clinical site and preceptor at the inception of the clinical year. Please see the Division of Physician Assistant Studies Clinical Year Handbook for further information.
Prerequisites: successful completion of the didactic year of the Physician Assistant Studies curriculum.
Two credits.
The prerequisites of MS 504C, 508B, 511, 512, 513 and 514 are all required.
Credits: 2
Every Fall, Spring and Summer

MS 605 Emergency Medicine
This clinical course is a clinical clerkship in emergency medicine. All clinical clerkships are five (5) weeks in length. Each student is assigned a clinical site and preceptor at the inception of the clinical year. Please see the Division of Physician Assistant Studies Clinical Year Handbook for further information.
Prerequisites: successful completion of the didactic year of the Physician Assistant Studies curriculum.
Two credits.
The prerequisites of MS 504C, 508B, 511, 512, 513 and 514 are all required.
Credits: 2
Every Fall, Spring and Summer

MS 606 Obstetrics and Gynecology
This clinical course is a clinical clerkship in obstetrics and gynecology. All clinical clerkships are five (5) weeks in length. Each student is assigned a clinical site and preceptor at the inception of the clinical year. Please see the Division of Physician Assistant Studies Clinical Year Handbook for further information.
Prerequisites: successful completion of the didactic year of the Physician Assistant Studies curriculum.
Two credits.
The prerequisites of MS 504C, 508B, 511, 512, 513 and 514 are all required.
Credits: 2
Every Fall, Spring and Summer

MS 607 Behavioral Medicine
This clinical course is a clinical clerkship in behavioral medicine. All clinical clerkships are five (5) weeks in length. Each student is assigned a clinical site and preceptor at the inception of the clinical year. Please see the Division of Physician Assistant Studies Clinical Year Handbook for further information.
Prerequisites: successful completion of the didactic year of the Physician Assistant Studies curriculum.
Two credits.
The prerequisites of MS 504C, 508B, 511, 512, 513 and 514 are all required.
Credits: 2
Every Fall, Spring and Summer

MS 608 Medical Elective
This clinical course is a clinical clerkship in a particular discipline of internal medicine. All clinical clerkships are five (5) weeks in length. Each student is assigned a clinical site and preceptor at the inception of the clinical year. Please see the Division of Physician Assistant Studies Clinical Year Handbook for further information.
Prerequisites: successful completion of the didactic year of the Physician Assistant Studies curriculum.
Two credits.
The prerequisites of MS 504C, 508B, 511, 512, 513 and 514 are all required.
Credits: 2
Every Fall, Spring and Summer

MS 609 Surgical Elective
This clinical course is a clinical clerkship in a particular discipline of surgery. All clinical clerkships are five (5) weeks in length. Each student is assigned a clinical site and preceptor at the inception of the clinical year. Please see the Division of Physician Assistant Studies Clinical Year Handbook for further information.
Prerequisites: successful completion of the didactic year of the Physician Assistant Studies curriculum.
Two credits.
The prerequisites of MS 504C, 508B, 511, 512, 513 and 514 are all required.
Credits: 2
Every Fall, Spring and Summer

MS 610 Clinical Elective
This clinical course is a clinical clerkship in a particular clinical discipline of the student’s choice. All clinical clerkships are five (5) weeks in length. Each student is assigned a clinical site and preceptor at the inception of the clinical year. Please see the Division of Physician Assistant Studies Clinical Year Handbook for further information.
Prerequisites: successful completion of the didactic year of the Physician Assistant Studies curriculum.
Two credits.
The prerequisites of MS 504C, 508B, 511, 512, 513 and 514 are all required.
Credits: 2
Every Fall, Spring and Summer

MS 611 Clinical Seminar I
In this seminar, students will draw on their clinical clerkship(s) in Internal Medicine and/or the Internal Medicine elective as well as all material previously learned in the entire PA Studies curriculum to produce and deliver a detailed patient case presentation from Internal Medicine or an Internal Medicine elective before a group of clinical year PA students and faculty member(s).
Prerequisites: successful completion of the didactic year of the Physician Assistant Studies curriculum.
One credit.
The prerequisites of MS 504C, 508B, 511, 512, 513 and 514 are all required.
Credits: 1
Every Fall

MS 612 Clinical Seminar II
In this seminar, students will draw on their clinical clerkship(s) in General Surgery and/or the Surgical elective as well as all material previously learned in the entire PA Studies curriculum to produce and deliver a detailed patient case presentation from General Surgery or a Surgical elective before a group of clinical year PA students and faculty member(s).
Prerequisites: successful completion of the didactic year of the Physician Assistant Studies curriculum.
One credit.
The prerequisites of MS 504C, 508B, 511, 512, 513 and 514 are all required.
Credits: 1
Every Fall

MS 613 Clinical Seminar III
In this seminar, students practice the techniques that will lead to successful completion of the Physician Assistant National Certifying Examination (PANCE). Each student will draw on all material previously learned in the entire PA Studies curriculum and additional PANCE materials to prepare for this examination, which is a prerequisite for PA licensure.
Prerequisites: successful completion of MS 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, and 612.
The prerequisites of MS 504C, 508B, 511, 512, 513 and 514 are all required.
Credits: 1
Every Fall

MS 614 Summative Evaluation
In this laboratory course, students will draw on all material previously learned in the entire PA Studies curriculum to complete a summative evaluation. This evaluation will take place in the Division’s Simulation Laboratory. The student will demonstrate his or her ability to evaluate, stabilize, examine, diagnose, perform relevant clinical procedures, and treat the simulated patient (Sim-Man 3G). The student will also demonstrate the ability to work well with other members of the health care team and to provide culturally competent care.
Prerequisites: successful completion of MS 601, 602, 603, 604, 605, 606,
607, 608, 609, 610, 611, and 612.
One credit.

The prerequisites of MS 504C, 508B, 511, 512, 513 and 514 are all required.

Credits: 1

Every Fall

MS 615 Capstone Project

Students will draw on all material previously learned in the entire PA Studies curriculum to complete a capstone project in partial fulfillment of the requirements of the Master’s degree. The student will formulate a research paper based on a clinical issue of interest to the student from one of the student’s clinical clerkships. The student will also use techniques learned in Research Methods I and II and in Introduction to Medical Literature in the didactic year.

Prerequisites: successful completion of the didactic year of the Physician Assistant Studies curriculum.

Two credits.

The prerequisites of MS 504C, 508B, 511, 512, 513 and 514 are all required.

Credits: 2

Every Fall
DEPARTMENT OF PUBLIC HEALTH

Associate Professor and Chair: Bojana Beric, M.D., Ph.D.
Assistant Professor: Brian Gilchrist, Ph.D.
Undergraduate Practicum Coordinator: Scott Westervelt, M.S.
Director of Practicum: Joyce Hall, M.P.H.
Adjunct Faculty: 5

Public Health is the science of protecting and improving the health of communities through education, promotion of healthy lifestyles, and research to prevent disease, injury, disability, and premature death. Public health professionals analyze how genetics, personal choice, policies, systems and the natural and built environment affect health; then we work with the communities affected to develop programs, products, services, policies, and messages that protect the health of people who are or could be affected. In traditional clinical medicine, health care professionals diagnose and treat one sick person at a time. In public health, professionals focus on protecting entire communities or populations from becoming sick in the first place. Our three goals are to (1) keep well people healthy, (2) keep people who are at-risk from becoming sick or disabled, and (3) to prevent the reoccurrence of health problems among people who are already sick or injured.

The 42-credit LIU Brooklyn Master of Public Health (M.P.H.) is a very practical/applied professional degree program. The mission of the program is to inspire and prepare future public health practitioners for careers that focus on collaborating with people and communities affected to prevent illness, disability and premature death. Our course work includes service-learning opportunities so that students have “real-world” experience long before they graduate.

Our area of specialization, our “concentration,” is Health Education, Policy and Communications, often referred to as Health Promotion. The health promotion and disease prevention strategies emphasized in our program are policy change, environmental change, education, and mass media campaigns. In combination, these are very effective methods for improving the health status of communities and populations at large.

People trained in public health have many career options. There is a great demand for public health promotion specialists in local, state, federal and international government agencies (not all with “health” in their names), community-based organizations, schools and universities, not-profit organizations, workplaces, health care settings, foundations, branches of the military, and professional associations.

Graduates can find fascinating and challenging, and meaningful public health work focusing on a particular population (e.g., school-age children, working adults, seniors, hospital inpatients), on a particular setting (see above), the use of many or one or two particular skills (e.g., education, training, advocacy, community assessment, program planning, program evaluation, research, media campaign development), and/or a specific health issue (e.g., infant mortality, pollution, obesity, HIV/AIDS, depression and suicide, terrorism, natural disasters). The challenges are many, and change constantly. Public health promotion is a dynamic and exciting profession with a myriad of traditional and “out-of-the-box” options for well-prepared professionals.

In addition to earning the internationally recognized M.P.H. degree, at the time of graduation, students are also eligible to apply for the Certified Health Education Specialist examination administered by the National Commission for Health Education Credentialing, Inc. We urge students to take that exam in their last semester or within six months of graduation.

Application Requirements
To apply for this program, prospective candidates must submit all of the following to the Office of Admissions:

- **Official transcripts** from all accredited undergraduate and graduate institutions attended; degrees from institutions earned outside of the United States or Canada must be evaluated by an agency recommended by LIU Brooklyn
- **Personal statement** following the specific Master of Public Health Program guidelines. The guidelines are available on the Website. Standard/generic personal statements will not be accepted.
- At least two (2) current letters of reference on agency/institutional letterhead completed by individuals who are qualified to comment on
  - (1) your academic background/achievements and potential and 
  - (2) your volunteer or paid community or health-related experience
- **A current resume.** Highlight any health, public health, medical, or community paid or volunteer work experience, studies, or training.
- **Current Graduate Record Exam (GRE) test scores.** Test scores more than five years old will NOT be accepted.

EXCEPTION: Applicants with official transcripts showing completed graduate degrees are NOT required to submit GRE scores, though they are strongly urged to do so.
- **TOEFL test score:** If you are an international applicant who does not have an undergraduate degree from a regionally accredited US college or university, or if English is not your native language, submit official scores for Test of English as a Foreign Language (TOEFL) exam or accepted equivalent tests.
- **Interviews:** Interviews are not required but are desirable. Applicants may be invited to the university for a personal interview with

Master of Public Health

**M.P.H., Public Health**

[Program Code: 33024]

Required core courses:

- MPH 600 Foundations of Public Health and Health Education 3.00
- MPH 610 Principles of Epidemiology 3.00
- MPH 615 Principles of Biostatistics 3.00
- MPH 620 Social and Behavioral Sciences in Public Health 3.00
- MPH 625 Environmental Health Issues in Public Health 3.00
- MPH 735 Research Methods in Public Health and Health Education 3.00
- MPH 740 Public Health Planning, Implementation and Evaluation 3.00
- MPH 745 Principles and Methods of Health Education and Promotion 3.00
- MPH 750 Public Health Policy, Advocacy and Leadership 3.00
- MPH 755 Public Health Planning, Implementation and Evaluation 3.00

Master of Public Health program faculty to discuss particular aspects of their applications. Applicants who are not able to participate in person, will be asked to call in or to Skype the Master of Public Health program representative who is requesting the interview.

**Submitting an Application for Admission**

All applicants must apply for admission to LIU Brooklyn. Please apply online at My LIU or use the Apply Now link in the top navigation bar of the campus’ website. For more information on the admissions process, visit the Office of Admissions website.

**Important Dates**

Application deadlines can be found on the program website, www.liu.edu/brooklyn/mph

**Program Requirements**

Continued enrollment in this program is contingent upon:
- A cumulative 3.0 GPA must be maintained throughout the program
- Completion of 30 credits of required courses
- Completion of 6 credits of an elective course
- Completion of 6 credits of capstone and Practicum experiences (MPH 798 and 799)

**Credit and GPA Requirements**

- Minimum Total Credits: 42
- Minimum Major GPA: 3.00
Public Health Courses

MPH 500 Public Health Applications of Informatics
This course provides a basic understanding of public health informatics and its application in a public health setting. The goal is for students to understand the basic technological tools and building blocks needed to develop and manage public health data collection systems to meet analytical needs.
The pre-requisite of MPH 600 is required.
Credits: 3
On Occasion

MPH 510 Public Health Preparedness
This course introduces students to major concepts relevant to past and potential future disease outbreaks including acts of bioterrorism. Students receive a brief review infectious disease epidemiology including investigation, control, prevention and surveillance. These fundamentals are then used to construct a framework for assessing threats to public health and recommending an appropriate response.
Credits: 3
On Occasion

MPH 515 Public Health Implications of HIV/AIDS
This course will focus on public health issues related to HIV/AIDS with an emphasis on HIV/AIDS epidemiology and prevention. Lectures will cover primary prevention (preventing HIV infection in those who are uninfected), secondary prevention (preventing development of HIV disease in those who are HIV-infected), and tertiary prevention (preventing morbidity and mortality in those with HIV disease).
Credits: 3
On Occasion

MPH 520 Public Health Nutrition
This course is an introduction to public health nutrition. It covers the prevention and solutions to diet-related conditions at the population level rather than the individual level, with a focus on current problems such as obesity and type 2 diabetes. It emphasizes the determining factors of food intake and nutritional status including: economic, environmental, societal and institutional factors. It introduces current nutrition programs and policies for improving the nutrition status of various populations.
Credits: 3
On Occasion

MPH 525 Social Marketing Strategies for Improving Public Health
Social marketing, the use of marketing principles, concepts, and theories to facilitate socially beneficial behavior change, is an increasingly popular though often misunderstood public health intervention. This overview course reviews the history of social marketing applications to public health, differentiates social marketing from related but significantly different strategies, and analyzes social marketing campaign requirements, limitations, tips for success, typical challenges, and expected outcomes. Three credits.
Credits: 3
On Occasion

MPH 530 Global Public Health Challenges
This course is designed to give the student and introduction to the issues of global health and the factors controlling it. The basic principles of global health, including measurement, determinants and the relationship to socioeconomic development will be explored. The evolution of epidemics and the phenomena of endemic and pandemic disease will be considered. The understanding of burden of and determinants of morbidity and mortality are examined.
In order to register for this course, the student must be active in the Public Health plan.
Credits: 3
On Occasion

MPH 535 Infectious Diseases and Public Health Practice
This is an introduction to the epidemiology and control of infectious diseases. The course is taught from the perspective of public health communicable disease containment: detection, investigation, control, and prevention of infectious diseases in communities. The course emphasizes core concepts in infectious disease transmission mechanisms, dynamics, and containment; evidence-based approaches to designing and implementing infectious disease control and prevention measures, and an overview of epidemiologic methods for investigating infectious disease transmission and containment.
The pre-requisite of MPH 710 is required.
Credits: 3
On Occasion

MPH 540 Current Issues in Public Health I
The purpose of this course is to expose students to up to three current critical public health challenges. Students will learn about the epidemiology of selected contemporary issues; the interdisciplinary workforce involved; key research findings; efforts to integrate research findings into practice; current, new, and emerging interventions; and they will meet public health and health promotion leaders in these arenas and learn about their challenges and achievements.
Credits: 3
On Demand

MPH 545 Current Issues in Public Health II
This course exposes students to up to three current critical public health challenges. Students will learn about the epidemiology of selected contemporary issues; the interdisciplinary workforce involved; key research findings; efforts to integrate research findings into practice; current, new, and emerging interventions; and they will meet public health and health promotion leaders in these arenas and learn about their challenges and achievements.
Credits: 3
Every Fall and Spring

MPH 550 Public Health Applications of Informatics
This course provides a basic understanding of public health informatics and its application in a public health setting. The goal is for students to understand the basic technological tools and building blocks needed to develop and manage public health data collection systems to meet analytical needs.
The pre-requisite of MPH 600 is required.
Credits: 3
On Occasion

MPH 560 Foundations of Public Health and Health Education
This course is an introduction to public health and health education, specifically: academic foundations; key principles; priorities; values; concepts; vocabulary; key documents; historical milestones; pioneers and leaders; codes of ethics; professional organizations and associations; career and professional development options; future trends.
Credits: 3
Every Fall

MPH 610 Principles of Epidemiology
This course introduces the distribution and determinants of health and disease in defined populations. It also emphasizes the skills necessary to research, produce, utilize and critique epidemiologic literature.
In order to register for this course, the student must be active in the Public Health plan.
Credits: 3
Every Fall and Spring

MPH 615 Principles of Biostatistics
This course is an introduction to the field of biostatistics. Emphasis is on key concepts and health data interpretation. Includes an introduction to data and data types; tools for describing central tendency and variability in data; methods for performing inference on population means and proportions via sample data; statistical hypothesis testing and its application to group comparisons; issues of power and sample size in study designs; and random sample and other study types. Students are also taught the statistical software SPSS.
In order to register for this course, the student must be active in the Public Health plan.
Credits: 3
Every Fall and Spring

MPH 620 Social and Behavioral Sciences in Public Health
This course introduces the role of well established and new and emerging social and behavioral science theories in shaping research and practice in public health and health promotion and education. Students will analyze and compare theories and science theories in shaping research and practice in public health and health promotion and education.

Liu Brooklyn Graduate Bulletin 2015 - 2016
MPH 625 Environmental Health Issues in Public Health
The study of biological, physical, chemical, economic, political, and social factors that cause environmental health problems, and traditional and new and emerging approaches to help prevent and manage/control these problems. In order to register for this course, the student must be active in the Public Health plan.
Credits: 3
Every Spring

MPH 710 Foundations of Public Health and Health Education
This course is an introduction to public health and health education, specifically: academic foundations; key principles; priorities; values; concepts; vocabulary; key document; historic milestones; pioneers and leaders; codes of ethics; professional organizations and associations; career and professional development options; future trends.
Credits: 3
Every Fall

MPH 715 Principles of Epidemiology
This course introduces the distribution and determinants of health and disease in defined populations. It also emphasizes the skills necessary to research, produce, utilize and critique epidemiologic literature. In order to register for this course, the student must be active in the Public Health plan.
Credits: 3
Every Fall and Spring

MPH 720 Principles of Biostatistics
This course is an introduction to the field of biostatistics. Emphasis is on key concepts and health data interpretation. Includes an introduction to data and data types; tools for describing central tendency and variability in data; methods for performing inference on population means and proportions via sample data; statistical hypothesis testing and its application to group comparisons; issues of power and sample size in study designs; and random sample and other study types. Students are also taught the statistical software SPSS. In order to register for this course, the student must be active in the Public Health plan.
Credits: 3
Every Fall and Spring

MPH 725 Social and Behavioral Sciences in Public Health
This course introduces the role of well established and new and emerging social and behavioral science theories in shaping research and practice in public health and health promotion and education. Students will analyze and compare theories and techniques for coordinating multiple, well-integrated, and well-coordinated interventions. In order to register for this course, the student must be active in the Public Health plan.
Credits: 3
Every Fall and Spring

MPH 735 Research Methods in Public Health and Health Education
This course is an introduction to publication-based research design and methods, including the logic of scientific research, research ethics, causal inference, hypothesis formation, measurement theory, survey research, experimental design, qualitative methods, sampling and data analysis applications. The bridges and barriers to the diffusion and application of research results to practice will be discussed. The pre-requisites of MPH 600, 610 and 620 are required. The pre-requisite or co-requisite of MPH 615 is also required.
Credits: 3
Every Spring

MPH 740 Public Health Planning, Implementation and Evaluation
This course provides an overview of health promotion planning frameworks and issues in planning, implementing and evaluating health promotion programs in a variety of settings. Students participate in a service learning project to assist a community-based organization or public health agency in developing an evidence-based public health promotion program. The pre-requisites of MPH 600, 610 and 615 are required. The pre-requisite or co-requisite of MPH 615 is also required.
Credits: 3
Every Spring

MPH 745 Principles and Methods of Health Education and Promotion
This course examines the design, production and evaluation of health promotion and disease programs and services rooted in health education theory, research, and best practices. Includes support and work group facilitation; group presentations; community and professional group training; community organizing; and coalition building. Emphasizes the benefits of and techniques for coordinating multiple, well-integrated, and well-coordinated interventions. In order to register for this course, the student must be active in the Public Health plan.
Credits: 3
Every Fall

MPH 750 Public Health Policy, Advocacy and Leadership
This course provides an overview of effective leadership principles that contribute toward creating a shared vision among individuals, groups, organizations and communities; the role of public health practitioners in advocating for programs and policies that improve the public’s health; strategies and techniques for participating effectively in the legislative process.
Credits: 3
On Occasion

MPH 755 Public Health Planning, Implementation and Evaluation
This course provides an overview of health promotion planning frameworks and issues in planning, implementing and evaluating health promotion programs in a variety of settings. Students participate in a service learning project to assist a community-based organization or public health agency in developing an evidence-based public health promotion program. The pre-requisites of MPH 600, 610 and 615 are required. The pre-requisite or co-requisite of MPH 615 is also required.
Credits: 3
Every Spring

MPH 760 Global Public Health Challenges
This course is designed to give the student and introduction to the issues of global health and the factors controlling it. The basic principles of global health, including measurement, determinants and the relationship to socioeconomic development will be explored. The evolution of epidemics and the phenomena of endemic and pandemic disease will be considered. The understanding of burden of and determinants of morbidity and mortality are examined. In order to register for this course, the student must be active in the Public Health plan.
Credits: 3
On Occasion

MPH 765 Infectious Diseases and Public Health Practice
This is an introduction to the epidemiology and control of infectious diseases. The course is taught from the perspective of public health communicable disease containment: detection, investigation, control, and prevention of infectious diseases in communities. The course emphasizes core concepts in infectious disease transmission mechanisms, dynamics, and containment; evidence-based approaches to designing and implementing infectious disease control and prevention measures, and an overview of epidemiologic methods for investigating infectious disease transmission and containment. The pre-requisite of MPH 710 is required.
Credits: 3
On Occasion

MPH 798 Public Health Capstone Seminar: Promoting Health Equity
A culminating academic experience in which students design a public health health promotion program/strategy/intervention that involves the application and integration the perspective/mindset, knowledge and skills acquired from the Program of Study to a local public health problem. Projects focus on the application of health education, advocacy, and communication
strategies and reducing health disparities.  
*The prerequisites of MPH 600, 610, 615, 740 and 745 required.*
*Credits: 3*
*Every Fall and Spring*

**MPH 799 Public Health Field Practicum**

A 200-hour field practicum/placement at a local health organization that involves the performance of health education, health advocacy, and health communication functions, and the collection and analysis of data as appropriate, under the supervision of a qualified health professional to determine or assess a response to an actual public health challenge. A practicum report is completed and presented in the form of an oral presentation and scientific poster.

*The prerequisite or co-requisite of MPH 798 is required.*
*Credits: 3*
*Every Fall and Spring*
DEPARTMENT OF SOCIAL WORK

Professor and Chair: Susanna Jones, M.S.W., Ph.D.
Professor: Ilene Nathanson, M.S.W., D.S.W.
Program Director, LIU Post
Associate Professor: Donna Wang, M.S.W., Ph.D.
Associate Professor: Samuel C. Jones, D.S.W., LIU Brooklyn
Professor: Elissa Giffords, M.S.W., D.S.W.; LIU Post
Associate Professor: Orly Calderon, M.S., Psy.D.; LIU Post
Associate Professor: Amanda Speakes-Lewis, M.S.W., Ph.D. (Chair); LIU Brooklyn
Assistant Professors: Kathryn Krase, M.S.W., Ph.D., J.D.; Sheila Vakharia, PhD, LMSW
Assistant Professor: Jo Rees, Ph.D.; LIU Brooklyn
Field Work Coordinators: Iris Mule, M.S.W. (LIU Brooklyn), Renie Rondon Jackson, M.S.W. (LIU Brooklyn), Pamela Brodlieb, M.S.W. (LIU Post)
Adjunct Faculty (LIU Brooklyn and LIU Post): 32

LIU is the first university to offer a fully accredited social work program in Brooklyn on both the undergraduate and the graduate level. The Department’s Common Ground Service Learning Program provides students from all disciplines with the opportunity to gain valuable volunteer experience in a wide range of service venues throughout the greater New York area. Social work as a profession is an exciting growth area that offers professional flexibility, longevity and personal satisfaction.

Master of Social Work (M.S.W.)

LIU Brooklyn’s 60-credit Master of Social Work (M.S.W.) offers degree candidates five different concentrations: gerontology, nonprofit management, alcohol and substance abuse, child and family welfare, and forensic social work. The program is collaboration between LIU Brooklyn and LIU Post (Brookville), and courses are available at both locations. It is accredited by the Council of Social Work Education (CSWE), signifying that it meets the highest standards of academic excellence.

The program is integrated to provide a step-wise progression in student understanding of generalist and specialized practice. The first-year curriculum includes content in the eight foundation areas of policy, practice, human behavior, field, diversity, populations at risk, and promotion of social justice and values. It introduces the student to the components of generalist practice with systems of all sizes and provides an understanding of generalist practice that distinguishes between generalist and advanced content while supporting the integration of specialized knowledge and technologies into a generalist perspective. It also introduces the student to the principles of interdisciplinary collaboration, preparing them for work in interdisciplinary fields of practice.

The second-year curriculum builds upon the first year by deepening the student’s understanding and demonstrated mastery of psychosocial assessment, administrative theory and practice, and diversity sensitive practice. Students select a specific area of concentration – not-for-profit management, substance abuse, gerontology, child and family welfare or forensic social work – for more specialized education in a particular area of practice. The research curriculum in the second year supports the concentrated study by demonstrating application of research methodology to the student’s specialized area of concentration. Field experience in the second year provides an opportunity for the student to apply generalist and specialized knowledge in the selected area of concentration. The curriculum is consistent with program goals insofar as the student receives a generalist background that includes a conception of generalist practice, an eclectic knowledge base and an understanding of the relationship of values, diversity, populations at risk and promotion of social justice to the social work professional role with systems of all sizes.

An Interdisciplinary Approach

The M.S.W. program brings an interdisciplinary approach to graduate social work studies, combining coursework not only across campuses but also across departments within campuses and across traditional social work disciplines. Students who earn the Master of Social Work degree from LIU will have the skills, knowledge and values required to deliver direct care to a broad population as well as in the field of their chosen concentration. They will be prepared to manage and administer social service programs and agencies within the fields of mental health, community service, social service, and case and care management.

Gerontology Concentration

Students in the gerontology concentration will show an intellectual mastery of and demonstrate the professional ability to competently respond to the physical, psychological, social and spiritual needs of older people and the major issues, concepts and theories related to late-age functioning. Students who choose this concentration may choose one of two tracks: direct client service through senior community service, or leadership in long-term care administration.

The senior community service track incorporates both clinical and administrative content areas. Students in this track will learn to plan and to develop community services for older adults; perform intervention, develop treatment plans and understand and manage issues of death, bereavement and loss.

Those who take the long-term care administration track will gain an in-depth understanding of health care facility administration, health care financing, legal issues in health and personal management. The long-term care administration track meets most of the academic requirements for eligibility for the Nursing Home Administrator’s licensing examination in New York State.

As an added benefit, graduates of either Gerontology track may also qualify for a New York State Advanced Certificate by taking just one additional course, which is offered by LIU.

Non-Profit Management Concentration

The concentration in non-profit management provides students with the knowledge, the values and the skills to work effectively and to administer programs in virtually any segment of the social service community – from child welfare to health and mental health – and in a variety of programs that address a broad range of social issues from hunger and homelessness to women at risk. Upon completion of the concentration in non-profit management, graduates may also qualify for an Advanced Certificate in Not-For-Profit Management by taking just one additional course, which is offered by the School of Business.

Alcohol and Substance Abuse Concentration

The alcohol and substance abuse concentration incorporates various methods and systems of practice to prepare students to work with individuals, families, groups and the community at large. This concentration prepares graduates to work in settings ranging from school to community-based organizations and from mental health clinics to the criminal justice system.

Graduates of this program will have the knowledge, the skills and the values to deliver alcohol and substance abuse counseling and to perform assessment; clinical evaluation; treatment planning; case management; and client, family and community education. In addition, they will become completely familiar with their professional and ethical responsibilities as well as the documentation process.

The alcohol and substance abuse concentration has been designed in conjunction with the New York State Department of Education’s requirements for the Certificate in Alcohol and Substance Abuse Counseling (CASAC). Students can complete the requirements for CASAC by fulfilling additional internship hours after completing the M.S.W. degree.

Child and Family Welfare Concentration

The child and family welfare concentration will provide educational curriculum to students interested in working in an interdisciplinary context with children and their families. This concentration was developed with input from the Nassau County Department of Social Services, the Nassau County Coalition Against Domestic Violence, the Family and Children’s Association and other community-based organizations’ personnel. It incorporates knowledge, values and skills that professionals need to effectively work with children and their families across a broad range of social issues and in multiple programs.

After completing their first-year M.S.W.
coursework, students will develop their understanding about policies and services specific to children and families, family violence across the lifespan, community-based practice with children and families, and community mental health.

Forensic Social Work Concentration
Forensic social workers perform a vital public service in guiding their clients through the daunting and ever-changing legal system. These professionals possess a firm grasp of the civil, criminal and juvenile justice systems, along with a profound understanding of how socioeconomic, cultural, religious, and other aspects of their clients’ lives may impact access to legal services.

To meet a growing national interest in forensics (the application of physical science, mental health, technology and the legal system) and a growing recognition of the complex interplay between social, clinical, and legal services, the Department of Social Work offers a forensics social work concentration within the 60-credit Master of Social Work (M.S.W.) program.

As a graduate of the Master of Social Work program with the concentration in forensic social work, students will be exceptionally prepared to apply the principles of social work to the legal system, including applicable local, state and federal laws; civil and criminal courts and the juvenile justice system; law enforcement agencies; and correctional facilities. Clients may be children or adults, individuals or families, organizations or communities. Their legal difficulties may involve child custody and parental rights issues due to domestic violence and neglect and crimes relating to mental illness and substance abuse. They may face arrest and incarceration, be imprisoned or hospitalized, or be on probation or parole.

The forensic social work concentration prepares students to serve all of these populations, by identifying societal issues and their impact on your clients; screening, assessing and counseling your clients; planning and implementing interventions; making client referrals; and otherwise serving as effective advocates for diverse and at-risk clients, who may range from individual children or adults to organizations or communities.

Admissions Criteria
The admissions criteria reflect the program’s goals and objectives and support LIU’s mission of Access and Excellence. The program seeks students from varied backgrounds who reflect the diversity of the populations it serves, including the suburban population of Nassau County and the multiethnic, urban population of Brooklyn and New York City, as well as the greater tri-state area. Through direct care or leadership roles in the field of social work, students who apply to this program should be interested in working with populations at risk.

The program seeks applicants who have a broad liberal arts education consisting of the humanities; the social and behavioral sciences; the natural sciences including biology and courses reflective of a basic interest in human services.

Admissions Requirements
To be admitted to this program, you must:
• Hold a bachelor of arts degree from a regionally accredited university
• Have a minimum overall grade-point average of 2.8 or better
• Have a B average or better in courses taken during the final four semesters of undergraduate study
• Submit a minimum of three recommendations
• Submit a personal narrative autobiographical statement
• Submit an undergraduate transcript from all colleges or universities previously attended
• Possess the personal characteristics and qualifications essential for professional work with vulnerable individuals and with populations at risk
• Submit an application to the Office of Admissions (see Submitting an Application for Admission)

Submitting an Application for Admission
All applicants must apply for admission to LIU Brooklyn. Please apply online at My LIU or use the Apply Now link in the upper right-hand corner of the campus’ website.

In addition to completing the graduate application, we request that you collect all required documents needed for admission and mail them together in a single envelope to:
LIU Brooklyn
Admissions Processing Center
P.O. Box 810
Randolph, MA 02368-0810

Please note that the program admits students for the fall semester only. All applications and supporting documentation must be submitted by April 1st.

Program Requirements
Continued enrollment in this program is contingent upon:
• Earning a grade of B or better in all field education courses
• Maintaining a minimum grade-point average of 3.0
• Being in compliance with all program and CSWE standards including Education Policy 2.1.1, which requires that students “Identify as a professional social worker and conduct oneself accordingly.”
• Earning the required 60 credits within a four-year period.

Minimum Major GPA: 3.0
Social Work Courses

SWK 601 Policy I: History and Philosophy of Social Work Social Welfare Policy and Services
This introductory policy class provides information about the development of social work as a profession; historical and contemporary social welfare policies, services and institutions; and examines how economic, political, and organizational systems influence how services are created and provided. These themes are discussed within a context of social issues and connect social welfare policy and social work practice. Students will gain historical and contemporary knowledge of the various forms and mechanisms of oppression and discrimination and their relationship to social and economic justice for society in general and at-risk/special populations.
The student must be active in the graduate Social Work plan in order to register for this course.
Credits: 3
Every Fall

This course is the second class in the policy sequence. Students explore the modern welfare state from local, state, federal and national perspectives and learn about those factors which contribute to the existence of social problems. Students are introduced to a framework for policy analysis and related concepts such as the basis of social allocations, and the nature of social provisions. The course also helps students to develop a deeper understanding of the social work profession's role in advocacy and social action for policy change. Information about government benefits and programs including those that address income support, family and child welfare, disability, aging, substance abuse, and health care are also provided.
The prerequisite of SWK 601 is required.
Credits: 3
Every Spring

SWK 611 Social Work Practice I: Working with Individuals and Groups
The first of four practice courses, this course provides a foundation for social work practice on micro and mezzo levels with diverse populations in a variety of settings. It provides an overview of the values, ethics and knowledge upon which social work practice is based. The course provides a generalist problem solving approach to the understanding of social work practice with individuals and groups. Building upon the generalist model, this course demonstrates the linkages between a generalist perspective and an integrated theoretical perspective for advanced practice with individuals and groups. The course includes historical content, person-in-environment and systems perspectives, communication and relationship-building exercises, a walkthrough of a clinical interview and the stages of treatment, an integrated clinical approach to individual and group practice and an application of generalist and advanced practice skills with groups in specific settings.
The student must be active in the graduate Social Work plan in order to register for this course.
Credits: 3
Every Fall

SWK 612 Social Work Practice II: Social Work Practice with Families
The second of three courses in the Practice Sequence, this course focuses on working with families and the individuals within the family through the life span. Developing an understanding of the interplay between the developmental issues of the individual and the life stages of the family as a unit, through the life span, will be a primary focus of the course. Another primary focus of the course is an exploration of the work of various family theorists and their varied methods of intervention. Special emphasis will be placed on psychodynamic systems and cognitive/behavioral theories and techniques of intervention.
The prerequisites of SWK 611, 621 and 701 are required. The co-requisites of SWK 702, 613 and 622 are required.
Credits: 3
Every Spring

SWK 613 Social Work Practice III: Working with Organizations and Communities
This practice course focuses on macro social work practice within a systems perspective. The course clarifies the common elements of practice with systems of all sizes and identifies the application of micro and mezzo strategies of intervention within the organizational and community context, e.g. work with teams, coalitions, boards.
The course provides an introduction to role theory and its application to collaboration and other forms of multi-disciplinary and interdisciplinary activity. The course begins with an analysis of the worker's role within the organization, starting with the historical antecedents of social work practice in this macro arena.
Practice III demonstrates the relationship of the generalist intervention model (GIM) to work with organizations and the various tasks of the social worker at different phases of intervention. The second half of the course focuses on social work practice with communities. The curriculum includes a systems perspective for understanding communities with an emphasis on ecological and social systems, demographic development, social stratification, and political and economic systems.
The course highlights the factors that define power in the community and the worker's role in promoting social and economic justice. The course includes an analysis of the application of the generalist intervention model (GIM) to the change process in communities. The course includes material on value conflicts and value conflict resolution in social work practice with organizations and communities as well as strategies for evaluation of practice.
The prerequisites of SWK 611, 621 and 701 are required. The co-requisites of SWK 612, 702 and 622 are required.
Credits: 3
Every Fall

SWK 614 Advanced Principles of Administrative and Clinical Practice within an Interdisciplinary Context
The course is designed to orient advanced standing students to advanced practice knowledge introduced in the first year of the two year MSE program to close a knowledge gap between advanced standing students and regularly matriculated students. As such, the course provides a theoretical orientation to the interdisciplinary context of social work practice; identifies the components of role conflict resolution; and, explores strategies for promoting interdisciplinary collaboration. Building upon the generalist model, this course demonstrates the linkages between a generalist perspective and an integrated theoretical perspective for advanced clinical practice with individuals and groups. The course also explores commonalities and differences between a generalist perspective for working with families and more specialized approaches. Special emphasis is placed on psychodynamic systems and cognitive/behavioral theories and techniques of intervention with individuals, groups and families.
The student must be active in the graduate Social Work plan in order to register for this course.
Credits: 3
On Demand

SWK 621 Human Behavior/Social Environment I: Birth through Adolescence
This course, the first of two in this sequence, provides the theoretical and empirical support for several social work values, practice skills, and ethical standards. These values and standards include respect for the dignity and uniqueness of the individual, respect of a person’s right to self-determination, and respect for spirituality and the religious beliefs of others. In addition to biological, psychological, and social development, the course covers moral development.
The co-requisite of SWK 601 is required.
Credits: 3
Every Fall

SWK 622 Human Behavior/Social Environment II: Young through Late Adulthood
The second in the sequence of two HSSE courses, this course continues to provide theoretical and empirical support for social work values and ethics while providing the generalist practitioner with the knowledge necessary to work with individuals, groups, communities, and systems of all sizes. With
the focus on early, middle, and late adulthood, the social work values that are emphasized in the course embrace larger systems such as family relationships, communities, organizations, and socioeconomic policies.

The prerequisites of SWK 611, 621 and 701 are required.

The corequisites of SWK 612, 613 and 702 are required.

Credits: 3
Every Fall

SWK 623 Human Service Organizations and Administrative Behavior: A Context for Social Work

This course provides students with a conceptual framework for understanding human service organizations with a special emphasis on the social work field. It explores the role and function of the agency-based social work practitioner and manager through the study of organizational behavior and structural theory. Students also consider the function of human service organizations within the context of economic, political, social and technological factors and the ways in which they influence administration and service delivery. The course provides an overview of the responsibilities necessary to support effective and efficient quality services to clients including how to manage information, finances and people.

The prerequisites of SWK 601, 602, 611, 612, 613, 621, 622, 701, 702 and 798 are required.

Credits: 3
Every Spring

SWK 630 Forensic Social Work and the Criminal and Juvenile Justice Systems

The course provides an overview of the specialty of forensic social work and its interface with the criminal justice systems, from arrest to sentencing and conviction. Legal and ethical aspects of professional practice, including issues associated with the competency of the accused as well as the preparation of the presence forensic evaluator. The debate regarding punishment versus rehabilitation is explored along with a multi-systemic perspective on the causes and prevention of crime and juvenile misconduct. Their interface with sexual, religious, racial and other sub-group involvement will also be discussed and realized.

The student must be active in the graduate Social Work plan in order to register for this course.

Credits: 3
Every Fall

SWK 632 Forensic Social Work with Drug and Alcohol Populations in the Criminal and Juvenile Justice Systems

This course focuses on the role of the forensic social worker in drug and alcohol related treatment and crime. Heroin, cocaine, marijuana, prescription drugs, "club drugs" (i.e. MDMA, etc.), and alcohol will be placed under a clinical microscope. Different drugs are sought by different populations of people which generally lead to different types of criminal activity. The impact of drugs and alcohol abusing offenders' behavior on their children will also be explored. The legal and ethical issues associated with the forensic social work population are explored. Attention is focused on the relationship and potential role conflicts between social work practice and 12 step self-help programs.

The student must be active in the graduate Social Work plan in order to register for this course.

Credits: 3
Every Fall

The course focuses on the role of the forensic social worker in understanding, assessing, preventing, and managing domestic violence. The cyclical nature of domestic violence and its association with alcohol and substance abuse is addressed with special attention to the needs of adult children of alcoholics who often perpetuate a pattern of violent behavior which leads to intergenerational involvement with criminal and juvenile justice systems. The course incorporates a multi-systemic perspective with an emphasis on assessing and treating the perpetrator, as well as the victims of domestic violence and also focuses on the forensic social worker's role in impacting the institutions associated with the efforts to reduce domestic violence.

The student must be active in the graduate Social Work plan in order to register for this course.

Credits: 3
Every Spring

SWK 650 Psychopathology

This course provides a bio-psycho-social perspective to a range of Diagnostic and Statistical Manual, 4th Ed. (DSM-IV) classified maladaptive behaviors that are exhibited by many social work clients. It provides an in-depth study of the etiology, course, prognosis, and resolution of major psychological and psychiatric conditions. The DSM-IV multi-axial system will serve as a backdrop and context in which these conditions will be presented and studied. The Competency-Based Assessment Model, which follows a process of reviewing and understanding an individual's past in order to distinguish and interpret present concerns, (Zide & Grey, 2001) is the theoretical and philosophical framework through which the course's information will flow. Student will become familiar with DSM-IV diagnostic criteria and the empirical and epidemiological data that supports each diagnosis. The course will also look at the behavior that are evaluated in the process of arriving at a differential diagnosis. The cultural context will play a major role in understanding these conditions.

The prerequisites of SWK 602, SWK 612, SWK 613, SWK 622 and SWK 702 are required.

Credits: 3
Every Fall

SWK 660 Families and Childrend Policy and Services

This course enables students to build upon their knowledge of social welfare policy and services and apply this knowledge to the needs of children and their families. It presents students with knowledge of concepts, policies and practices, which characterize child welfare services in American society. It provides historical and legal information about various policies and programs within family and children’s services at the federal, state and local levels and examines the multiple systems that influence the life of children and their families. In addition, it explores current trends, controversial and topical issues in child welfare and family services and the social worker’s role in an interdisciplinary approach, and how to advocate for individuals and families.

The prerequisites of SWK 602, SWK 612, SWK 613, SWK 622 and SWK 702 are required.

Credits: 3
Every Fall

SWK 661 Family Violence Across the Lifespan

This course examines the problem and consequences of family violence across the lifespan and its impact on children. It presents theoretical, research, policy and practice issues involving intra-familial child abuse and neglect, intimate partner violence, child witnessing of intimate partner violence, and elder abuse. It explores individual and group level interventions, structural influences on family violence, and policy implications in the field of social work. In addition, the course will emphasize rights to safety and safety planning for populations at-risk within the context of social justice with an emphasis of how interdisciplinary approach can assist in the empowerment of survivors of abuse.
The prerequisites of SWK 602, SWK 612, SWK 613, SWK 622 and SWK 702 are required. The co-requisite of SWK 660 is required.
Credits: 3
Every Fall

SWK 663 Social Work Practice with At-Risk Children & Youth
This course provides a bio-psycho-social developmental perspective to a range of childhood disorders as they are classified in the Diagnostic and Statistical Manual, 4th Ed Text Revised (DSM-IV-TR). It provides an in-depth study of the etiology, course, prognosis, and resolution of major psychological and psychiatric conditions that are encountered by children with an emphasis on a family and system approach to the conceptualization and treatment of such conditions. The DSM-IV multiaxial system will serve as a backdrop and context in which these conditions will be presented and studied. A developmental-systems (Marsh and Barkley, 1996) approach will guide the theoretical and philosophical framework of this course as the students become familiar with DSM-IV-TR diagnostic criteria for childhood psychopathology and the empirical and epidemiological data that supports each diagnosis. The course will look at internalizing and externalizing disorders of childhood that social workers are likely to encounter in various settings of practice (e.g., schools, hospitals, community centers, adoption agencies, ACS and DSS agencies). The students will learn to consider issues such as adaptations, age appropriateness, clusters and patterns of symptoms and behaviors that are instrumental in the process of differential diagnosis. The cultural context will play a major role in understanding these conditions and the differential validity, to the extent to which it exists, in assessment and treatment of children.
The prerequisites of SWK 660 and 661 are required.
Credits: 3
Every Spring

SWK 674 Theories and Principles of Alcohol and Substance Abuse Counseling
This course will introduce students to the basic theories and principles of alcoholism and substance abuse counseling, as well as techniques for motivating the chemically dependent client to engage in treatment. Emphasis will be placed on the theories of vocational counseling and the relationship between work, self-esteem, and recovery.
The prerequisites of SWK 602, 612, 613, 622 and 702 are required.
Credits: 3
Every Spring

SWK 675 Introduction to the Techniques of Substance Abuse Counseling
This course provides students with a foundation in basic techniques of counseling the substance abuse population. Students will receive a comprehensive overview of chemical dependency treatment and explore various counseling intervention methods. The qualities and professional skills for competent and effective practice will also be thoroughly examined.
The prerequisites of SWK 602, 612, 613, 622 and 702 are required.
Credits: 3
Every Fall

SWK 677 Sociological and Psychological Aspects of Substance Abuse
This course will offer students a comprehensive view of alcohol and drug use and alcohol and addiction from a historical perspective. Utilizing cultural attitudes, legal sanctions and normative values regarding alcohol and drug use, students will analyze what addiction is and who is an addict by various disciplines (i.e., medicine, sociology, psychology, etc.) and systems (e.g., family, criminal justice, social services, etc.). Students will examine ethnicity and its role in substance abuse and counseling. Students should be prepared to think critically and engage in a dialogue regarding the complex bio-psycho-social issues that impact alcoholics and/or addicts as well as the substance abuse counselor.
The prerequisites of SWK 674 and 675 are required.
Credits: 3
Every Spring

SWK 678 Physical and Pharmacological Effects of Substance Abuse
This course will examine how the abuse of alcohol and other drugs affect the body with emphasis on the central nervous system, organ systems and general physical health. The physiological basis for the disease concept of addiction will be reviewed. Psychoactive drug categories will be explored in relation to the history of use, routes of administration and how the body processes licit and illicit substances. The effects of drugs and pharmacological interactions on metabolic processes and neuropsychological functioning will be discussed.
The prerequisites of SWK 674 and 675 are required.
Credits: 3
Every Fall

SWK 701 Field Instruction I
This is the first course in a four semester Field Instruction sequence in the Master’s in Social Work program. The first two semesters of Field Instruction provide the Foundation and the second two semesters provide the Specialization. The Specialization year prepares students (1) to gain expertise in gerontology, not-for-profit management or substance and alcohol abuse (2) to function at an advanced level of competence in a social service delivery system (3) to continue to practice problem-solving and relationship-building skills, and (4) to continue to integrate and apply knowledge from Practice, Policy, HBSE and Research to work with clients.
The prerequisites of SWK 602, SWK 612, SWK 613, SWK 622 and SWK 702 are required.
Credits: 3
Every Fall

The prerequisites of SWK 611 and 798 are required.
Credits: 3
Every Fall

SWK 702 Field Instruction II
Field Instruction II is the second course in the field practicum sequence and represents the culmination of the Foundation year. Field Instruction II provides students with the opportunity to further integrate and build upon the knowledge, values and skills assimilated during the previous semester. Students further their proficiency in intervening with diverse problems and multiple sized systems, develop more intensive interactive helping skills, become better adept at writing progress records and other agency records, assume more responsibility in supervision and inter-professional collaboration, and utilize research and the skills of policy practice to benefit clients. They are increasingly expected to apply a multilayered understanding of generalist practice concepts and skills to their work with clients. Students gain greater awareness of their own value base and its compatibility to professional social work values, and can utilize more sophisticated expression of their dilemmas through the supervisory and self-evaluative process. They must also demonstrate greater professional responsibility by preparing supervisory agendas, monitor both learning and client goals by evaluating progress made toward both. Learning contracts are further refined, and tasks are operationalized and tethered to the mid-semester field evaluation. Again, students are required to participate in the self-evaluation process continually throughout the semester both in oral and written evaluation sessions, as well as evaluating their field experience and supervisor.
The prerequisites of SWK 611, 621 and 701 are required. The co-requisites of SWK 612 and 613 are required.
Credits: 3
Every Spring

SWK 703 Field Instruction III
This is the third course in a four semester Field Instruction sequence in the Master’s in Social Work program. The first two semesters of Field Instruction provide the Foundation and the second two semesters provide the Specialization. The Specialization year prepares students (1) to gain expertise in gerontology, not-for-profit management or substance and alcohol abuse (2) to function at an advanced level of competence in a social service delivery system (3) to continue to practice problem-solving and relationship-building skills, and (4) to continue to integrate and apply knowledge from Practice, Policy, HBSE and Research to work with client systems.
The prerequisites of SWK 602, SWK 612, SWK 613, SWK 622 and SWK 702 are required.
Credits: 3
Every Fall
SWK 704 Field Instruction IV
Field Instruction IV is the second course in the Advanced Curriculum/ Specialization Year. It shares its objectives with Field Instruction III. Applying social work knowledge, skills and values in the practicum is understood as a developmental process. Students make a solid beginning in the Foundation Year, continue to work towards these objectives in the Specialization Year and continue to grow and develop as master's level practitioners after earning their degree. In this spirit, in Field Instruction IV, students further their developing expertise in their specialization as described above and deepen their understanding of allied disciplines. Collaborations with professional colleagues across disciplinary lines have the opportunity to develop and mature over time.

The prerequisite of SWK 703 is required.
Credits: 3
Every Spring

SWK 726 Interdisciplinary Assessment
The first half of this course will cover assessing mental health conditions commonly found in many older adults, such as depression, dementia, delirium, and anxiety. Caregiver and family roles will also be covered. The second half of the course will promote a clarification of the roles of different practitioners and the purpose of different health, financial legal and social services organizations serving the elderly in the community.

Credits: 3
Every Fall

SWK 790 Capstone Seminar
This course is intended to provide students with the academic framework within which they design and implement the capstone project. Students review their knowledge about role conflict within interdisciplinary setting that is related to their respective areas of concentration studies. Students then choose a topic related to the concentration area and design and carry out a research project that examines role conflict within an interdisciplinary context of social work. Finally, students design a solution to the role conflict that is embedded in interdisciplinary collaborative practice of social work. The course focuses on application of skills that have been taught in previous semesters within a particular area of concentration. Such skills include: Critical thinking, ethical practice, practice skills in systems of all sizes, research skills, communication skills, organizational skills and interdisciplinary collaboration.

The prerequisite of SWK 799 is required.
Credits: 3
Every Spring

SWK 798 Research Methods I: Introduction to Social Research
This course places significant emphasis on the adherence to social work values and ethical standards in research and in practice evaluation. It requires the students to ask themselves Why be ethical in an effort to help the student realize that a personal moral code is the best defense against unacceptable and unethical conduct. The student is encouraged to ponder the question of ethics with guidance from social work values and guiding principles, and the NASW Code of Ethics. Students are presented with practical examples of ethical dilemmas and required to address the situation using critical thinking skills, technical training, and social work values. This course aims to improve students understanding of the place research plays and has played in social work practice. Using the Code of Ethics as a foundation for all research ventures, students will be taught the basic concepts of research question formation, psychometrics and use of measurement instruments. The course will introduce key components of research including research design, data collection, appropriate communication of research findings, and its relevance to the evaluation of practice, programs, and policies.

The prerequisites of SWK 611 and SWK 701 are required.
Credits: 3
Every Spring
HARRIET ROTHKOPF HEILBRUNN SCHOOL OF NURSING

The Harriet RothKopf Heilbrunn School of Nursing Graduate Program offers the Master of Science degree for the baccalaureate prepared registered nurse interested in pursuing a career as a nurse educator or a nurse practitioner. Advanced certificate programs are available for the Master (in nursing) prepared registered nurse interested in practice as a nurse practitioner or as a nurse educator. The registered nurse with an associate degree is eligible for admission to one of the two dual degree programs culminating with a Master of Science degree.

The graduate program is fully accredited by the Commission on Collegiate Nursing Education (C.C.N.E.) and all of its programs are registered with the New York State Education Department. Graduates of the Nurse Practitioner Program are eligible for New York State certification as either an adult or family nurse practitioner.

For information, please contact the School of Nursing at 718-488-1059 fax 718-780-4019, email us at amy.ma@liu.edu, or visit the website at www.liu.edu/brooklyn/son.

School of Nursing

Graduates of the Master of Science or advanced certificate program will be prepared to demonstrate mastery of the following objectives:

- Synthesize knowledge from conceptual frameworks and empirical sciences relevant to the advanced-practice nursing role.
- Evaluate relevant data in the planning and implementation of health care.
- Utilize the research process in the systematic investigation of factors that influence the health and adaptation of client populations.
- Assume a collegial role in consultation with other care providers to enhance the quality and accessibility of health care services to consumers.
- Utilize the advanced practice role to exercise leadership responsibility, professional accountability and scholarly approach to health care.
- Generate a personal philosophy and role definition that reflects commitment to human values and contributes to the evolution of nursing as a profession.
- Utilizes oral and written communication skills to actualize the advanced practice of the nursing role.

Dual Degree Programs

- B.S./M.S. in Nursing/Adult Nurse Practitioner*
- B.S./M.S. in Nursing/Adult Nurse Practitioner*
- M.S. in Adult Nurse Practitioner*
- M.S. in Family Nurse Practitioner*
- M.S. in Nurse Educator*
- Advanced Certificate in Adult Nurse Practitioner*
- Advanced Certificate in Family Nurse Practitioner*
- Advanced Certificate in Education for Nurses*

*These programs are presented in a blended format.

Admission to the Degree and Advanced Certificate Programs

Criteria for acceptance into any of the Master of Science degree programs:

- B.S. degree from a School of Nursing accredited by a nationally recognized accrediting body with a 3.0 GPA in the Nursing major and 3.0 overall GPA
- New York State R.N. License.
- One-year current clinical experience, two years preferred. Applicants to the Nurse Educator

Program Requirements

All applicants must apply for admission to LIU Brooklyn. Please apply online at My LIU. For more information on the admissions process, visit the Office of Admissions website or call 718-488-1011.

Clinical Clearance

Students must submit all of the following documentation prior to starting the internship experience:

1. A health history and physical examination on a School of Nursing form.
2. Up to date immunization requirement
3. Current New York State license to practice as a registered professional nurse.
4. Malpractice insurance for graduate nursing students with minimum coverage of $1,000,000 per claim and $6,000,000 aggregate. It is the student’s responsibility to check with their insurance carrier to confirm that their malpractice coverage includes activities as a nurse practitioner, nurse executive or nurse educator student.
5. Current basic life support certificate.
6. Verification that mandatory fire, safety and infection control requirements have been met within the past year.
7. Current HIPPA privacy/confidentiality certificate.
9. Background investigation within the past year.
10. Drug screen within the past year.
12. If a student is pregnant, she must have written permission from her health care provider to practice where there are infectious diseases
13. Current address, email address, mobile telephone number, home and work telephone numbers on file with the clinical coordinator.
**Nurse Practitioner Programs**

The Nurse Practitioner programs are designed to prepare the Registered Nurse for an advanced practice role in a primary care setting. The master of science degree programs and the post-master’s certification programs prepare students to meet the requirements for New York State certification to practice as an adult or family nurse practitioner. Graduates also will be eligible for national certification by professional organizations.

The course of study for Adult Nurse Practitioner may be completed in six or seven semesters of part time study; the Family Nurse Practitioner may be completed in eight to nine semesters of part time study.

The primary focus of both the Master of Science degree and the post-master’s certificate program for nurse practitioners is expertise in the clinical role. The course of study for both has been developed with that goal in mind. Graduates of the any of the nurse practitioner programs will be able to:

- Use a wide range of theory and research from nursing, medicine and the social and physical sciences in formulating health care management plans for individuals.
- Assess, diagnose, monitor, coordinate and manage the health care of selected clients of all ages in both primary and acute care settings.
- Perform and interpret physical examinations and laboratory tests in both the primary and acute care setting.
- Select and recommend appropriate diagnostic and therapeutic interventions and regimes with attention to safety and cost in keeping with collaborative protocols.
- Select and prescribe appropriate drug therapy for common acute and chronic disorders in keeping with collaborative protocols.
- Prepare and submit practice protocols in order to meet the certification requirements of the New York State Education Department.
- Articulate the role of the nurse practitioner as a collaborative member of the health care team.

**M.S. in Adult Nurse Practitioner**

**Blended Learning - Onsite & Online**

The 43-credit M.S. in Adult Nurse Practitioner program prepares nurse practitioners by integrating extensive clinical practice with foundational knowledge that is required of all graduate nursing students. It is designed for the registered nurse with a B.S. in nursing, who wishes to acquire the clinical knowledge and skills needed for advance-practice nursing roles in the care of adults in a variety of primary care settings.

This program is presented in a blended format. All courses are web-enhanced using Blackboard.

**M.S. in Family Nurse Practitioner**

**Blended Learning - Onsite & Online**

The 49-credit M.S. in Family Nurse Practitioner program prepares nurse practitioners by integrating extensive clinical practice with foundational knowledge that is required of all graduate nursing students. It is designed for the registered nurse with a B.S. in nursing, who wishes to acquire the clinical knowledge and skills needed for advance-practice nursing roles in the care of families in a variety of primary care settings.

This program is presented in a blended format. All courses are web-enhanced using Blackboard. Up to 49% of the content in any one course may be online. Basic computer skills are required.

The program is approved by the New York State Education Department and is fully accredited by the Commission on Collegiate Nursing Education (CCNE). Graduates are eligible for New York State certification as an adult nurse practitioner and for national certification through the American Nurses Credentialing Center (ANCC) or the American Academy of Nurse Practitioners (AANP).

NUR 715 Role of the Nurse Educator 2.00
NUR 720 Curriculum Development 3.00

Advanced Certificate in Adult Nurse Practitioner

Blended Learning - Onsite & Online

The 33-credit Advanced Certificate in Adult Nurse Practitioner offers master’s-prepared nurses the opportunity to qualify for New York State certification as an adult nurse practitioner. Nurse practitioners certified by New York State who wish to expand into another specialty can have their academic preparation evaluated and an individualized program developed for them.

NUR 694 Diagnosis and Management of Illness and Physical Conditions of Family III 4.00
NUR 695 Preceptoried Practicum in Primary Care of the Family III 4.00

Credit and GPA Requirements
Minimum Total Credits: 35
Minimum GPA: 3.0

Advanced Certificate in Family Nurse Practitioner

Blended Learning - Onsite & Online

The 41-credit Advanced Certificate in Family Nurse Practitioner offers master’s-prepared nurses the opportunity to qualify for New York State certification as a family nurse practitioner.

NUR 690 Diagnosis and Management of Illness and Physical Conditions of Family I 4.00
NUR 691 Preceptoried Practicum in Primary Care of the Family I 4.00
NUR 692 Diagnosis and Management of Illness and Physical Conditions of Family II 4.00
NUR 693 Preceptoried Practicum in Primary Care of the Family II 4.00
NUR 694 Diagnosis and Management of Illness and Physical Conditions of Family III 4.00
NUR 695 Preceptoried Practicum in Primary Care of the Family III 4.00

Credit and GPA Requirements
Minimum Total Credits: 41
Minimum GPA: 3.0
Advanced Certificate in Education for Nurses (Blended Format)

The 12-credit Advanced Certificate in Education for Nurses offers master’s-prepared nurses the opportunity to augment their advanced practice degrees with core nursing education courses that will prepare them for the role of nurse educator in an academic or clinical setting.

Advanced Certificate, Education for Nurses

[Program Code: 30684]

Must complete all courses below.

Nursing Courses

NUR 610 Nursing Research
The purpose of the course is to teach knowledgeable consumers of nursing research at the graduate level to develop a basic research proposal or state-of-the-science paper based on a topic of interest and/or concern to the nursing profession. Additionally, it is stressed that critical evaluation of the scientific merit of nursing research and incorporation of relevant evidence-based findings into their practice will facilitate the integrity of practice as well as client health outcomes. The importance of evidence-based practice and the research process to the development of nursing knowledge and subsequent practice is discussed. Emphasis is placed on the application of appropriate research methodology, and development of a research proposal or state-of-the-science paper from critically evaluated evidence in the literature. This process occurs within a culturally-diverse and collegial atmosphere. Pre-requisite of NUR 620 is required. Credits: 3 Every Spring

NUR 612 Pathophysiology of the Adult for Advanced Practice Nursing
This course reviews the pathophysiology of disease entities and foster the development of critical thinking in interpreting changes in function that result in symptoms indicative of illness. Pre-requisite of NUR 611 is required. Credits: 3 Every Fall

NUR 613 Primary Health Care of the Adult
This course is an overview of common issues in primary care, including principles of screening, prevention, anticipatory guidance, patient education techniques, multicultural issues, occupational and alternative medicine. All issues are related to current best evidence as well as the impact of health literacy on specific populations. The Healthy People 2020 goals are the basis for all discussions. The prerequisites of NUR 610, NUR 612 and NUR 630 are required. Credits: 2 Every Spring

NUR 614 Health Care of the Older Adult
This course introduces the theories of aging, the developmental tasks of the elderly, the normal physiological changes that occur with aging and the various assessment tools available for use with older adults. The content provides students with the knowledge needed to apply the principles of primary care and diagnoses and management as covered in other courses in the curriculum to the care of the older adult client. The prerequisites of NUR 614 and NUR 630 are required.

NUR 620 The Theoretical Basis of Advanced Practice Nursing
The purpose of the course is to provide students with an in-depth examination of conceptual nursing and behavioral models applicable to advanced practice nursing. The course includes the discussion and comparison of various theoretical models from nursing and other disciplines with a major focus on their relevance and application to nursing practice, research and theory development. Credits: 3 Every Fall

NUR 630 The Advanced Practice Role
The seminar provides an opportunity to critically examine the advanced practice role within the context of a rapidly changing health care delivery system. The role of the primary care nurse practitioner is explored from historic, legal and professional perspective. The processes of interdisciplinary collaboration and policy development are discussed. Strategies for proactive leadership and decision-making are also examined. Critical thinking, group dynamics, leadership skills, and role of the APN as educator are studied and modeled in classroom experiences, field experiences, and course assignments. Pre-requisite of NUR 611 is required. Credits: 2 Every Spring

NUR 634 Advanced Physical Assessment
The student is provided with knowledge, methods and laboratory practicum experience to build upon and to refine physical assessment skills. Comprehensive physical examination of adults and children as well as psychosocial, developmental, occupational and cultural aspects of health assessment is studied in depth, using an evidence-based approach. Emphasis is placed on the collaborative aspects of being a member of an interdisciplinary health care team in a primary care setting. A laboratory practicum is incorporated into this course to give students the opportunity to integrate theoretical content into clinical experience. Emphasis is placed on developing a comprehensive and problem-oriented health assessment of clients. NUR 614 must be taken as a prerequisite or co-requisite. Credits: 3 Every Fall and Spring

NUR 644 Pharmacology
This course is designed for non-prescribing advanced practice nursing students. The focus of this course is the acquisition of knowledge of advanced pharmacology as the basis for teaching basic nursing pharmacology. The course provides the student with an advanced understanding of pharmacodynamics. The major classifications of drugs used across the lifespan are emphasized. Ethical considerations and cultural and financial issues related to medication are also discussed. Students have the opportunity to apply knowledge and gain critical thinking skills through the use of case studies and other online and classroom activities. Credits: 4 Every Spring

NUR 645 Pharmacology
This course is designed for non-prescribing advanced practice nursing students. The focus of this course is the acquisition of knowledge of advanced pharmacology as the basis for teaching basic nursing pharmacology. The course provides the student with an advanced understanding of pharmacodynamics. The major classifications of drugs used across the lifespan are emphasized. Ethical considerations and cultural and financial issues related to medication are also discussed. Students have the opportunity to apply knowledge and gain critical thinking skills through the use of case studies and other online and classroom activities. Credits: 4 Every Spring

NUR 650 Diagnosis and Management of Illnesses and Physical Conditions of the Adult I
This course is one of two courses that focus on clinical decision-making skills. Knowledge of advanced physical assessment, pathophysiology and pharmacology are the underpinnings for the course content. Critical thinking and diagnostic reasoning are reinforced as the basis of practice. The use of evidence based practice protocols and guidelines is an integral part of this course. Common acute and chronic conditions of adolescents and adults in the collaborative practice primary care setting are emphasized. Pre-requisites of NUR 611, 612, 614, 630, 634 and 644 are required. Credits: 4 Every Fall

NUR 654 Preceptor Practicum in Primary and Acute Care of the Adult I
This preceptor practicum provides an opportunity to practice skills and develop competency in the diagnosis and management of common acute and chronic conditions of adolescents and adults. Students, with the supervision of their preceptor, develop skills in diagnostic reasoning, learn to develop plans of care, and gain experience in the selection and prescription of drug therapy using practice protocols. Students also focus on the health education needs of individual clients in their clinical site.
Pre-requisite of Co-requisite of NUR 650 is required.
Credits: 4
Every Fall, Spring and Summer

NUR 654A Preceptored Practicum in Primary and Acute Care of the Adult I
This segment, of a two-segment preceptored practicum, provides an opportunity to practice skills and develop competency in the diagnosis and management of common acute and chronic conditions of adolescents and adults. Students, with the supervision of their preceptor, develop skills in diagnostic reasoning, learn to develop plans of care, and gain experience in the selection and prescription of drug therapy using practice protocols. Students also focus on the health education needs of individual clients in their clinical site.
Pre-requisite or Co-requisite of NUR 650 is required.
Credits: 2
Every Fall, Spring and Summer

NUR 654B Preceptored Practicum in Primary and Acute Care of the Adult II
This segment, of a two-segment preceptored practicum, provides an opportunity to practice skills and develop competency in the diagnosis and management of common acute and chronic conditions of adolescents and adults. Students, with the supervision of their preceptor, develop skills in diagnostic reasoning, learn to develop plans of care, and gain experience in the selection and prescription of drug therapy using practice protocols. Students also focus on the health education needs of individual clients in their clinical site.
Pre-requisite or Co-requisite of NUR 650 is required.
Credits: 2
Every Fall, Spring and Summer

NUR 660 Diagnosis and Management of Illnesses and Physical Conditions of the Adult II
This course is one of two courses that focus on clinical decision-making skills. Knowledge of advanced physical assessment, pathophysiology and pharmacology are the underpinnings for the course content. Critical thinking and diagnostic reasoning are reinforced as the basis of practice. The use of evidence based practice protocols and guidelines is an integral part of this course. Common acute and chronic conditions of adults in the collaborative practice primary care setting are emphasized.
The pre-requisites of NUR 612, 614, 630, 634 and 644 are required.
Credits: 4
Every Spring

NUR 664A Preceptored Practicum in Adult Primary and Acute Care II
This segment, of a two segment preceptored practicum, provides an opportunity to practice skills and develop competency in the diagnosis and management of common acute and chronic conditions of adolescents and adults. Students, with the supervision of their preceptor, continue to refine their skills in diagnostic reasoning, developing plans of care, and to gain experience in the selection and prescription of drug therapy using practice protocols. Students also focus on the health education needs of individual clients as well as the needs of the community served by the clinical site.
Pre-requisite or Co-requisite of NUR 660 is required.
Credits: 4
Every Fall, Spring and Summer

NUR 664B Preceptored Practicum in Adult Primary and Acute Care II
This segment, of a two segment preceptored practicum, provides an opportunity to practice skills and develop competency in the diagnosis and management of common acute and chronic conditions of adolescents and adults. Students, with the supervision of their preceptor, continue to refine their skills in diagnostic reasoning, developing plans of care, and to gain experience in the selection and prescription of drug therapy using practice protocols. Students also focus on the health education needs of individual clients as well as the needs of the community served by the clinical site.
Pre-requisite or Co-requisite of NUR 660 is required.
Credits: 2
Every Fall, Spring and Summer

NUR 690 Diagnosis and Management of Illness and Physical Conditions of Family I
This course is one of three courses that focus on clinical decision-making skills in family oriented practice. Knowledge of advanced physical assessment, pathophysiology and pharmacology provide the underpinning for the course content. Critical thinking and diagnostic reasoning are reinforced as the basic for practice. Family theory concepts are presented to form the foundation for practice. Physical assessment skills related to infants and children are reinforced. The use of evidence based practice protocols and guidelines is an integral part of this course. The student will focus on the assessment, diagnosis and treatment of pediatric and pregnancy health issues.
The pre-requisites of NUR 612, 614, 630, 634 and 644 are required.
Credits: 4
Every Fall

NUR 691 Preceptored Practicum in Primary Care of the Family I
This preceptored practicum provides an opportunity to practice skills and develop competency in the diagnosis and management of common acute and chronic conditions of infants, children, adolescents and adults. Emphasis is on pediatrics and women’s health. Students, with the supervision of their preceptor, develop skills in diagnostic reasoning, learn to develop plans of care, and gain experience in the selection and prescription of drug therapy using practice protocols. Students also focus on the health education needs of individual clients in their clinical site.
Pre-requisite or Co-requisite of NUR 690 is required.
Credits: 4
Every Fall, Spring and Summer

NUR 691A Preceptored Practicum in Family Primary Care I
This segment, of a two segment preceptored practicum, provides an opportunity to practice skills and develop competency in the diagnosis and management of common acute and chronic conditions of infants, children, adolescents and adults. Emphasis is on pediatrics and women’s health. Students, with the supervision of their preceptor, develop skills in diagnostic reasoning, learn to develop plans of care, and gain experience in the selection and prescription of drug therapy using practice protocols. Students also focus on the health education needs of individual clients in their clinical site.
The pre-requisite or co-requisite of NUR 690 is required.
Credits: 2
Every Fall, Spring and Summer

NUR 691B Preceptored Practicum in Family Primary Care I
This segment, of a two segment preceptored practicum, provides an opportunity to practice skills and develop competency in the diagnosis and management of common acute and chronic conditions of infants, children, adolescents and adults. Emphasis is on adolescents and adults. Students, with the supervision of their preceptor, continue to refine their skills in diagnostic reasoning, developing plans of care, and to gain experience in the selection and prescription of drug therapy using practice protocols. Students also focus on the health education needs of individual clients as well as the needs of the community served by the clinical site.
The prerequisite or co-requisite of NUR 690 is required.
Credits: 2
Every Fall, Spring and Summer

NUR 692 Diagnosis and Management of Illness and Physical Conditions of Family II
This course is one of three courses that focus on clinical decision-making skills in family oriented practice. Knowledge of advanced physical assessment, pathophysiology and pharmacology are the underpinnings for the course content. Critical thinking and diagnostic reasoning are reinforced as the basis of practice. The use of evidence based practice protocols and guidelines is an integral part of this course. Common acute and chronic conditions of adolescents and adults in the collaborative practice primary care setting are emphasized.
The prerequisite of NUR 612, 614, 630, 634 and 644 are required.
Credits: 4
Every Fall

NUR 693 Preceptored Practicum in Primary Care of the Family II
This preceptored practicum provides an opportunity to practice skills and develop competency in the diagnosis and management of common acute and chronic conditions of infants, children, adolescents and adults. Emphasis is on adolescents and adults. Students, with the supervision of their preceptor, continue to refine their skills in diagnostic reasoning, developing plans of care, and to gain experience in the selection and prescription of drug therapy using practice protocols. Students also focus on the health education needs of individual clients as well as the needs of the community served by the clinical site.
The prerequisite or co-requisite of NUR 690 is required.
Credits: 4
Every Fall, Spring and Summer

NUR 694 Diagnosis and Management of Illness and Physical Conditions of Family III
This course is one of three courses that focus on clinical decision-making skills in family oriented practice. Knowledge of advanced physical assessment, pathophysiology and pharmacology are the underpinnings for the course content. Critical thinking and diagnostic reasoning are reinforced as the basis of practice. The use of evidence based practice protocols and guidelines is an integral part of this course. Common acute and chronic conditions of infants, children, adolescents and adults. Emphasis is on adolescents and adults. Students, with the supervision of their preceptor, continue to refine their skills in diagnostic reasoning, developing plans of care, and to gain experience in the selection and prescription of drug therapy using practice protocols. Students also focus on the health education needs of individual clients as well as the needs of the community served by the clinical site.
The prerequisite or co-requisite of NUR 690 is required.
Credits: 4
Every Fall, Spring and Summer

NUR 695 Preceptored Practicum in Primary Care of the Family III
This preceptored practicum provides an opportunity to practice skills and develop competency in the diagnosis and management of common acute and chronic conditions of infants, children, adolescents and adults. Emphasis is on adolescents and adults. Students, with the supervision of their preceptor, continue to refine their skills in diagnostic reasoning, developing plans of care, and to gain experience in the selection and prescription of drug therapy using practice protocols. Students also focus on the health education needs of individual clients as well as the needs of the community served by the clinical site.
The prerequisite or co-requisite of NUR 690 is required.
Credits: 2
Every Fall, Spring and Summer

NUR 695A Preceptored Practicum in Primary Care of the Family II
This segment, of a two segment preceptored practicum, provides an opportunity to practice skills and develop competency in the diagnosis and management of common acute and chronic conditions of infants, children, adolescents and adults. Emphasis is on adolescents and adults. Students, with the supervision of their preceptor, continue to refine their skills in diagnostic reasoning, developing plans of care, and to gain experience in the selection and prescription of drug therapy using practice protocols. Students also focus on the health education needs of individual clients as well as the needs of the community served by the clinical site.
The prerequisite or co-requisite of NUR 694 is required.
Credits: 2
Every Fall, Spring and Summer

NUR 695B Preceptored Practicum in Primary Care of the Family III
This segment, of a two segment preceptored practicum, provides an opportunity to practice skills and develop competency in the diagnosis and management of common acute and chronic conditions of infants, children, adolescents and adults. Emphasis is on adolescents and adults. Students, with the supervision of their preceptor, continue to refine their skills in diagnostic reasoning, developing plans of care, and to gain experience in the selection and prescription of drug therapy using practice protocols. Students also focus on the health education needs of individual clients as well as the needs of the community served by the clinical site.
The prerequisite or co-requisite of NUR 694 is required.
Credits: 2
Every Fall, Spring and Summer

NUR 700 Independent Study
An opportunity for students to do advanced work under the guidance of the faculty. Pass/Fail only. Open to graduate nursing students with the permission of their Program Director
Credits: 1
On Demand

NUR 700P Independent Study - Practicum
This one credit independent study allows adult
nurse practitioner students who have not completed the clinical hours for a practicum experience in the semester in which they are registered to continue to work under the supervision of their preceptor and their practicum advisor during the following semester.

Credits: 1
On Demand

NUR 701 Independent Study
An opportunity for students to do advanced work under the guidance of the faculty. Open to graduate nursing students with permission of their Program Director.

Credits: 1
On Demand

NUR 701P Independent Study - Practicum
This one credit independent study allows family nurse practitioner students who have not completed the clinical hours for a practicum experience in the semester in which they are registered to continue to work under the supervision of their preceptor and their practicum advisor during the following semester.

Credits: 1
On Demand

NUR 710 Theories of Teaching and Learning
This course introduces the student to the theories and principles of adult learning as applied to nursing and client education. Theories of adult learning, as well as basic principles of learning theory, are the focus. Formal teaching in the classroom setting, as well as client teaching, is emphasized. Assessing learned needs, individual teaching strategies, cultural implications and the place of technology are all discussed. Learning styles are analyzed and tools for assessing learning skills are discussed.

Credits: 3
Every Fall

NUR 715 The Role of the Nurse Educator
This course is designed to explore the multiple roles of the nurse educator in the academic and clinical settings. The roles of teacher, counselor, group member, evaluator, curricular designer, advisor and informatics expert are among those reviewed. The complexity of the role of the nurse educator is discussed using case study and real-life scenarios. The process of academic progression to tenure is also considered.

Credits: 2
Every Spring

NUR 720 Curriculum Development
This course focuses on developing curricula for nursing education programs. Mission statements, philosophy, terminal outcomes, course outcomes/objectives, are examined and students critique curriculum examples as well as develop their own model curriculum. Student projects may be focused on the student's area of teaching interest. The developmental process and the progression of curriculum are discussed. Curriculum, which is evidence-based and grounded in professional standards, is explored. Use of technology in the development of high-order thinking skills is considered.

Credits: 3
Every Spring

NUR 730 Teaching Strategies and Methodologies
This course discusses a variety of teaching modalities and strategies including lecture, discussion, seminar, small group, one-to-one and online methods. Writing behavioral objectives (affective, cognitive and psychomotor) and selecting congruent teaching methods is stressed. Fostering creativity and critical thinking skills are discussed. The student develops teaching-learning plans for learners in diverse settings. The student learns to use slide shows, chat rooms, learning management systems, Internet resources and educational software with hands-on experiences.

Credits: 2
Every Fall

NUR 735 The Utilization of Technology and Simulations in Nursing Education
This course focuses on informatics and the role of technology and simulation in nursing education. Online databases as resources for evidence-based practice and social media as tools in healthcare delivery are explored. The use of computer based teaching platforms, such as Blackboard, and learning modules are explored with hands-on experiences. The use of simulation as a primary and adjunctive teaching tool is discussed. Students develop an information system and teaching plans based on technology and simulation.

Credits: 3
Every Fall

NUR 740 Testing and Outcomes Measurements
This course explores the use of evaluation techniques to assess student learning. Standardized tests, teacher made tests and other forms of measurement such as return demonstrations are explored. Statistical analysis of testing and measurement data, use of technology to both create and evaluate testing and measurement tools are discussed. Students have the opportunity to design and evaluate test and measurement tools.

Credits: 2
Every Fall

NUR 745 Academic Teaching Seminar
The seminar serves as a capstone course for the student to synthesize the information and skills acquired in other courses. Students discuss problems encountered in practicum and issues related to academic and clinical teaching. A journal club approach is used to provide a common basis for discussion. Case studies both published and from students' experiences are used. The seminar is student directed with the instructor serving as a facilitator and clarifier.

Credits: 2
LIU Pharmacy (Arnold & Marie Schwartz College of Pharmacy and Health Sciences) offers graduate curricula leading to the Master of Science degree in the following fields, as registered with the New York State Education Department: Pharmaceutics (with specializations in Industrial Pharmacy and Cosmetic Sciences), Pharmacology/Toxicology, and Drug Regulatory Affairs. The college also offers the Doctor of Philosophy in Pharmaceutics (Ph.D.) degree as well as an entry-level, six-year Doctor of Pharmacy (Pharm.D.) degree. Detailed information on the pharmacy programs is provided in the LIU Pharmacy bulletin.

For information, please contact the Dean’s Office at bkln-pharmacy@liu.edu or call 718-488-1004, or visit the website at www.liu.edu/pharmacy. For additional information:

# LIU TRUSTEES AND SENIOR LEADERSHIP TEAM

## Board of Trustees

**CHAIRMAN**
Eric Krasnoff

**SECRETARY**
Steven J. Kumble H'90

**MEMBERS**
- Linda Amper '78, '85
- Rao Subba Anumolu
- Roger L. Bahnik
- Stanley F. Barshay '60
- Mark A. Boyar '65
- John R. Bransfield Jr.
- Michael N. Emmerman '67
- Daniel B. Fisher '67
- Peter W. Gibson '82
- Michael P. Gutnick '68
- Steven S. Hornstein '80
- Alfred R. Kahn '84, H'05
- Leon Lachman H'12
- Abraham M. Lackman
- Brian K. Land '86
- Sarah Beth Levine '64, H'14
- Howard M. Lorber '70, '91, H'01
- Frank Lourenso
- Michael Melnicke
- Salvatore Naro '83
- Richard P. Nespoli '67, '73
- William R. Nuti '86
- Audrey Schein
- Cherie D. Serota
- Daniel Simmons Jr. '85, H'12
- Harvey Simpson
- Sharon Sternheim
- Ronald J. Sylvestri '66
- Charles Zegar '71

**TRUSTEES EMERITI**
- William F. de Neergaard '47, H'98
- Donald H. Elliott H'85
- Eugene H. Luntey H'98
- John M. May
- Theresa Mall Mullarkey
- Thomas L. Pulling
- Richard Stark
- Edward Travaglianti H'14
- Rosalind P. Walter H'83

**EX OFFICIO**
Kimberly R. Cline

H - indicates honorary doctorate from LIU

## Senior Leadership Team

**Kimberly R. Cline**
B.S., M.B.A., Ed.D., J.D.
**President**

**Michael S. Glickman '99, '01**
B.A., M.A.

**Vice President for University Advancement and Chief of Strategic Partnerships**

**George Baroudi**
B.S.
**Vice President for Information Technology & Chief Information Officer**

**Gale Stevens Haynes '72, '76 (M.S.)**
B.A., M.S., J.D., L.L.D.

**Vice President, Chief Operating Officer, and Legal Counsel**

**Christopher Fevola**
B.S., M.B.A.
**Vice President and Chief Financial Officer**

**Mary M. Lai '42, H'86**
B.S., M.S., D.H.L., D.B.

**Senior Advisor and Treasurer Emerita**

**Joseph L. Schaefer**
B.B.A., M.S.
**Chief of Administration and Student Affairs**

**Jeffrey Kane**
B.A., M.A., Ph.D.
**Vice President for Academic Affairs**

**Jackie Nealon**
B.A., M.S., Ed.D.
**Vice President of Enrollment**

Elizabeth Kudadjie-Gyamfi  
Department Chair;  
Associate Professor of Psychology  
B.Sc., University of Ghana (Africa);  
M.A., Ph.D., Stony Brook University, SUNY

Su-Hwan Kwak  
Assistant Professor of Biology  
B.S., M.S., Ph.D., Yonsei University (South Korea)

Dong Kwon  
Associate Professor of Biology  
B.S., M.S., Kangwon National University (Korea);  
Ph.D., Georgia State University

Seema Lall  
Assistant Professor of Nursing  
B.S., University of Delhi (India);  
B.S.N., RAK College of Nursing, University of Delhi (India);  
M.S.N., Lehman College, CUNY

Kevin Lauth  
Associate Dean, Richard L. Conolly College;  
Professor of Media Arts  
B.A., Lehman College, CUNY;  
M.S., Brooklyn College, CUNY

Valerie Lava  
Associate Dean, School of Education;  
Associate Professor of Teaching, Learning, and Leadership  
B.A., Brooklyn College, CUNY;  
M.S., Hunter College, CUNY;  
Ed.D., Teachers College, Columbia University

Gary Kose  
Director, M.A. Program;  
Professor of Psychology  
B.A., Temple University;  
Ph.D., Graduate Center, CUNY

Cristiana Kahl-Collins  
Assistant Professor of Physical Therapy  
B.S., M.A., New York University;  
Ph.D., Nova Southeastern University;  
Licensed Physical Therapist  
Neurologic Clinical Specialist

Michael Kavic  
Assistant Professor of Physics  
B.S., University of Minnesota, Twin Cities;  
M.S., University of North Carolina, Chapel Hill  
Ph.D., Virginia Tech

Edward Keane  
Reference and Instruction Librarian;  
Assistant Professor, Library  
B.A., Syracuse University;  
M.A., Stony Brook University, SUNY;  
M.A., Queens College, CUNY

Patricia Keogh  
Head of Cataloging;  
Assistant Professor, Library  
B.A., University of Virginia;  
M.L.S., University of Texas;  
M.A., St. Mary’s University

Kathleen Kesson  
Professor of Teaching, Learning, and Leadership  
M.S.Ed., Ed.D., Oklahoma State University

Camille Kiefer  
Assistant Professor of Physician Assistant Studies  
A.A.S., Farmingdale State College, SUNY;  
B.S., LIU Brooklyn;  
R.N., Certified Physician Assistant

John Killoran  
Associate Professor of English  
B.A., Concordia University;  
M.A., Ph.D., University of Waterloo

Haesook Kim  
Associate Professor of Sociology/Anthropology  
B.A., M.A., Ewha University (Korea);  
M.A., M.Phil., Ph.D., Columbia University

Rachel King  
Head of Library Media Center;  
Assistant Professor, Library  
B.A., Wellesley College;  
M.A., Columbia University;  
M.S.I.S; Albany State College, SUNY

Troy Kish  
Assistant Professor of Pharmacy Practice  
Pharm.D., University of Toledo

Laura L. Koenig  
Professor of Communication Sciences and Disorders  
B.A., University of Chicago;  
M.A., University of Pennsylvania;  
Ph.D., Graduate Center, CUNY

Yusuf McDalldiy Juwayeyi  
Associate Professor of Sociology/Anthropology  
B.Soc.Sci., University of Malawi (Africa);  
M.A., C.Phil., Ph.D. University of California, Berkeley

Cristiana Kahl-Collins  
Assistant Professor of Physical Therapy  
B.S., M.A., New York University;  
Ph.D., Nova Southeastern University;  
Licensed Physical Therapist  
Neurologic Clinical Specialist

Glen D. Lawrence  
Professor of Chemistry and Biochemistry  
B.S., Pratt Institute;  
M.A., Plattsburgh State University, SUNY;  
Ph.D., Utah State University

Christopher League  
Associate Professor of Computer Science  
B.S., Johns Hopkins University;  
M.S., University of Maryland;  
Ph.D., Yale University
Supawadee Cindy Lee  
*Department Chair;  
Assistant Professor of Occupational Therapy  
B.S., Chiang Mai University (Thailand);  
M.S., Mahidol University (Thailand);  
M.A., Ph.D., New York University;  
Registered Occupational Therapist*

Laurie Lehman  
*Department Chair;  
Associate Professor of Teaching, Learning, and Leadership  
B.A., Clark University;  
M.A., Arizona State University;  
Ph.D., New York University*

Nancy Lemberger  
*Associate Professor of Teaching, Learning, and Leadership  
B.A., M.S., California State University;  
Ed.M., Ed.D., Teachers College, Columbia University*

Melissa Lent  
*Associate Director of B.S., in Health Science  
B.A., Stony Brook University, SUNY;  
M.S. Ed., LIU Brooklyn*

Timothy Leslie  
*Associate Professor of Biology  
B.S., Ph.D., Penn State*

Helisse Levine  
*Director, M.P.A. Program  
Associate Professor of Public Administration  
B.A., M.A., Fairleigh Dickinson University;  
Ph.D., Rutgers University*

Esther Levine-Brill  
*Professor of Nursing  
B.S., M.S., Hunter College, CUNY;  
Post Master's Certificate, LIU Brooklyn;  
Ph.D., New York University*

Aaron Lieberman  
*Associate Professor of Counseling & School Psychology  
B.S., Brooklyn College, CUNY;  
M.S.W., D.S.W., Yeshiva University*

Jocelyn Lieu  
*Coordinator of the Senior Thesis Program, New York Center  
B.A., Yale;  
M.F.A., Warren Wilson College*

Kathleen Lieu  
*Assistant Director of Clinical Education, Department of Physical Therapy  
M.S., D.P.T. SUNY Downstate Medical Center  
Licensed Physical Therapist  
Certified Lymphedema Therapist*

Matthew Lippert  
*Assistant Professor of Physics  
B.S. Yale University  
M.A.; Ph.D. University of California, Santa Barbara*

Andrew Livanis  
*Associate Professor of Counseling & School Psychology  
B.A., M.S., St. John’s University  
Ph.D., Graduate Center, CUNY*

John M. Lonie  
*Associate Professor of Social and Administrative Sciences  
B.S., LIU Pharmacy;  
M.A., The New School for Social Research;  
Ed.D., Teachers College, Columbia University*

Carlos Lopez  
*Director, Europe Program  
B.A., M.A., Florida State University;  
Ph.D., Harvard University*

Hilary Lorenz  
*Department Chair;  
Associate Professor of Visual Arts and Media Arts  
B.S., Western Michigan University;  
M.A., M.F.A. University of Iowa*

Ping Lu  
*Assistant Professor of Chemistry  
B.S.; M.S., Donghua University  
Ph.D. University of California Davis*

Hanna Lujan-Upton  
*Associate Professor of Chemistry and Biochemistry  
B.S., St. Francis College;  
Ph.D., Polytechnic University of New York*

Peggy Lynam  
*Associate Professor of Physical Therapy  
B.S. Ithaca College, M.S. LIU Brooklyn, DPT  
A.T. Still University of Health Sciences, Arizona School of Health Science  
Licensed Physical Therapist  
Neurological Clinical Specialist*

Beverly Lyons  
*Professor of Public Administration  
B.A., Queens College, CUNY;  
M.A., New York University;  
Ph.D., Fordham University*

Amy Ma  
*Associate Professor of Nursing  
A.A.S., Kishwaukee College  
B.S., M.S., East China University of Science and Engineering (Shanghai);  
M.S., Medical University of South Carolina;  
DNP, Case Western Reserve University*

Carole MacCotta  
*Assistant Professor of Foreign Languages and Literature  
B.A., M.A., Universite Paul Velery (France);  
P.D., University of North Carolina*

Fraidy N. Maltz  
*Assistant Professor of Pharmacy Practice  
B.S., M.S., Pharm.D., LIU Pharmacy*

Stephen Marrone  
*Associate Professor of Nursing  
B.S., LIU Brooklyn;  
M.S., University of Delaware;  
Ed.D., Teachers College, Columbia University*

Kathleen A. Marsala-Cervasio  
*Associate Professor of Nursing  
Co-Chair Faculty Affairs  
B.S., Staten Island College, CUNY;  
M.S., Hunter College, CUNY;  
Ph.D., Kennington University;  
Ed.D., Northcentral University*

Lorraine Marsh  
*Professor of Biology  
A.B., University of California at Santa Cruz;  
M.A., San Francisco State College;  
Ph.D., Massachusetts Institute of Technology*

Nino Marzella  
*Associate Professor of Pharmacy Practice  
B.S., M.S., Pharm.D., LIU Pharmacy*

Michael Masaracchio  
*Associate Professor of Physical Therapy  
B.S., M.S., LIU Brooklyn;  
DPT, Creighton University;  
Ph.D., Nova Southeastern University;  
Licensed Physical Therapist;  
Orthopedic Clinical Specialist;  
Sports Clinical Specialist*

Marion Masterson  
*Assistant Professor of Physician Assistant Studies  
B.S., LIU Brooklyn;  
M.P.A.S., University of Nebraska;  
Certified Physician Assistant*

Nikita Matsunaga  
*Professor of Chemistry and Biochemistry  
B.A., American International College;  
Ph.D., Iowa State University*

Charles Matz  
*Professor of English  
B.A., Rutgers University;  
M.A., Columbia University;  
Ph.D., University of Notre Dame*

</tbody>
</table>
Sarsvatkumar Patel
Assistant Professor of Pharmaceutical Sciences
B.Pharm., Shri BM Shah College of Pharmacy, North Gujarat University (India);
M.Pharm., Ph.D., National Institute of Pharmaceutical Education and Research (India)

Robert Pattison
Professor of English
A.B., Yale University;
M.A., University of Sussex (United Kingdom);
Ph.D., Columbia University

Ximara Peckham
Instructor of Biology
M.D., Caldas University (Colombia)

Linda S. Penn
Professor of Psychology
B.A., University of Michigan;
Ph.D., Adelphi University

Richard Perry
Assistant Professor of Pharmacy Practice
Pharm.D., University of Rhode Island

Natalie J. Peters
Assistant Director of Clinical Education,
Department of Physical Therapy
B.S., Florida A & M University;
D.P.T., Rocky Mountain University of Health Professions;
Licensed Physical Therapist

John M. Pezzuto
Dean, LIU Pharmacy;
Professor of Pharmaceutical Sciences
A.B., Rutgers University;
Ph.D., University of Medicine and Science of New Jersey

Anthony Q. Pham
Assistant Professor of Pharmacy Practice
B.S., University of California, Irvine;
Pharm.D., University of California, Los Angeles

Rodrigo Platkogniannis
Associate Professor of Pharmacy Practice
B.S., Pharm.D., LIU Pharmacy

Dovenna S. Poonoth
Assistant Professor of Pharmaceutical Sciences
B.S., Bharati Vidyapeeth's College of Pharmacy, University of Mumbai (India);
Ph.D., West Virginia University

Michael Pregot
Assistant Professor of Counseling & School Psychology
B.A., M.A.T., Assumption College;
M.A., Framingham State College;
Ed.D., Boston University

Elaena Quattrocchi
Associate Professor of Pharmacy Practice
B.S., Pharm.D., St. John’s University

Gregory J. Racz
Department Chair;
Professor of Foreign Languages & Literature
B.A., Rutgers University;
M.A., Ph.D., Princeton University

Paul Michael Ramirez
Professor of Psychology
B.A., Herbert Lehman College, CUNY;
M.A., New York University;
M.A., The City College, CUNY;
M.Phil., Ph.D., Graduate Center, CUNY

Warren Ratna
Professor of Pharmacology
B.Sc., Hons., University of Colombo (Sri Lanka);
M.S., University of South Carolina;
Ph.D., Stony Brook University, SUNY

Jennifer Rauch
Associate Professor of Journalism
B.A., Penn State University;
M.J., Temple University

Tracey Rawls-Martin
Assistant Professor of Athletic Training, Health and Exercise Science
B.S., M.S., LIU Brooklyn

Jo Rees
Assistant Professor of Social Work
B.Sc., University College (London);
Dip.S.W., University of Bristol (UK);
M.S.C., London School of Economics (UK);
Ph.D., New York University

Anthony Ricci
Assistant Professor of Athletic Training, Health and Exercise Science
B.S., LeTourneau University;
M.S., United States Sports Academy;
M.S., University of Bridgeport

Klaudia Rivera
Professor of Teaching, Learning, and Leadership
B.S., Central America University (Managua, Nicaragua);
M.S., Bank Street College of Education;
Ed.D., Teachers College, Columbia University

Gustavo Rodriguez
Department Chair;
Associate Professor of Economics
B.S., Universidad de Buenos Aires (Argentina);
M.A., Ph.D., New York University

Jose Rodriguez
Professor of Computer Science
B.A., Rutgers University;
M.S., New York University;
Ph.D., Stevens Institute of Technology

Renie Rondon-Jackson
Director, M.S.W. Field Education Weekend & Evening Programs
M.S.W., Hunter College, CUNY;
Ph.D., New York University

Jessica M. Rosenberg
Professor of Social Work
B.A., Sarah Lawrence College;
M.S.W., Hunter College, CUNY;
Ph.D., Yeshiva University

Amerigo Rossi
Assistant Professor of Athletic Training, Health and Exercise Science
B.A., Columbia University;
M.S., California State University;
Ed.D, Columbia University

Elizabeth A. Rudey
Professor of Visual Arts
B.A., New York University;
M.A., Ed.D., Teachers College, Columbia University

Peter Salber
Coordinator of User Services;
Associate Professor, Library
B.A., Canisius College;
M.A., New York University;
M.S.L.I.S, Pratt Institute

Karina Moreno Sahlivar
Assistant Professor of Public Administration
B.A., M.P.A., Texas A & M International University
Ph.D., Rutgers University

Lisa Samstag
Professor of Psychology
B.A., Queen’s University (Ontario, Canada);
M.A., M.Phil., Ph.D., The City College, CUNY

Jose Ramon Sanchez
Director, Urban Studies Department;
Professor of Political Science
B.A., Columbia University;
M.A., University of Michigan;
Ph.D., New York University

Hazel Sanderson-Marcoux
Associate Professor of Nursing
B.S., LIU Brooklyn;
M.Ed., Ed.D., Columbia University
John Sannuto  
Associate Professor of Communication Studies, Performance Studies and Theatre  
B.A., Brooklyn College, CUNY;  
M.A., D.A., New York University

Michael Saraceno  
Associate Professor of Occupational Therapy  
B.A., M.S., Touro College;  
Registered Occupational Therapist

Benjamin Saunders  
Assistant Professor of Psychology  
B.A., University of Michigan;  
M.A., Ph.D., University of Illinois

Vincent Scebinkski  
Chair, Department of Finance, Law, Accounting and Taxation;  
Associate Professor of Accounting  
B.A., Fairfield University;  
M.B.A., St. Johns University;  
CPA, New York and New Jersey

Wayne Schnatter  
Associate Professor of Chemistry and Biochemistry  
B.S. in Chemistry, B.S. in Biology, Rensselaer Polytechnic Institute;  
M.A., Ph.D., Princeton University

Elliott P. Schuman  
Professor of Psychology  
B.S., United States Naval Academy;  
M.A., Ph.D., Columbia University

Bernard Schweizer  
Professor of English;  
B.A., University of Minnesota;  
Ph.D., Duke University

Vikas Sehdev  
Assistant Professor of Pharmacology  
B.S., M.J.P., Rohilkand University (India);  
Ph.D., Idaho State University

Keith Serafy  
Professor of Biology  
B.A., University of South Florida;  
M.A., Ph.D., University of Maine

Bupendra K. Shah  
Associate Professor of Pharmaceutical Sciences  
B.S., Poona College of Pharmacy (India);  
M.S., University of Toledo;  
Ph.D., University of Wisconsin, Madison

Di (Richard) Shang  
Assistant Professor of Management Information Systems  
B.S., Shenyang University (China);  
M.S., Ph.D., Baruch College, CUNY

Roopali Sharma  
Associate Professor of Pharmacy Practice  
B.S., University of Rhode Island;  
Pharm.D., St. John’s University

Alexander Shedrinsky  
Professor of Chemistry and Biochemistry  
M.S., Leningrad University (U.S.S.R.);  
M.S., Ph.D., New York University

Simon Sheppard  
Associate Professor of Political Science  
B.A., Auckland University (New Zealand);  
M.A., Victoria University of Wellington (New Zealand);  
Ph.D., Johns Hopkins University

Herbert Sherman  
Chair, Department of Managerial Sciences;  
Professor of Management  
B.A., The City College of New York, CUNY;  
M.S., Polytechnic University;  
Ph.D., The Union Institute and University (Cincinnati, OH)

Lu Feng Shi  
Associate Professor of Communication Sciences & Disorders  
B.M. Shanghai Medical University (China);  
M.S., Ph.D., Syracuse University

Ellen L. Short  
Associate Professor of Counseling & School Psychology  
B.A., Lawrence University;  
M.A., Northwestern University;  
Ph.D., New York University

Joanna Shulman  
Medical Director, Physican Assistant Studies  
B.S., Swarthmore College;  
M.S., Massachusetts Institute of Technology;  
M.D., New York Medical College

Jay Shuttleworth  
Assistant Professor of Teaching, Learning & Leadership  
B.A., University of California, Davis  
M.A., Ph.D., Teachers College, Columbia University

Madiha B. Sidhom  
Associate Professor of Pharmaceutics  
B.S., M.S., University of Assiut (Egypt);  
Ph.D., Moscow First Medical Institute (U.S.S.R.)

Alvin Siegel  
Professor of Chemistry and Biochemistry  
B.S., The City College of New York, CUNY;  
Ph.D., Rutgers University

Billy Sin  
Assistant Professor of Pharmacy Practice  
Pharm. D., St. John’s University

Michael Sohn  
Assistant Professor of English  
B.A., M.A., Ph.D., New York University

Eugene Spatz  
Division Director of Athletic Training, Health, & Exercise Science;  
Coordinator, Adapted Physical Education Track and Coaching and Conditioning Track  
B.S., University of Michigan;  
M.S., LIU Brooklyn

Amandia Speakes-Lewis  
Associate Professor of Social Work;  
Department Chair;  
B.A., M.S.W., Stony Brook University, SUNY;  
Ph.D., Adelphi University

David Spierer  
Associate Professor of Athletic Training, Health and Exercise Science  
M.A., Ph.D., Columbia University

Grazia Stagni  
Professor of Pharmaceutics  
B.S., Università Degli Studi di Bologna (Italy);  
M.S., Ph.D., University of Texas at Austin

Rebecca A. States  
Professor of Physical Therapy  
B.A., Barnard College, Columbia University;  
M.A., Teachers College, Columbia University;  
Ph.D., Columbia University

Patricia Stephens  
Associate Professor of English  
B.A., The City College, CUNY;  
M.A., Graduate Center, CUNY;  
Ph.D., New York University

Brook Stowe  
Coordinator of Library Instruction;  
Assistant Professor, Library  
B.A., Vermont College;  
M.L.S., Queens College, CUNY;  
M.A., LIU Brooklyn

Meiuy Su  
Associate Professor of Mathematics  
B.S., M.S., Henan Normal University (China);  
Ph.D., Graduate Center, CUNY

Srividhya Swaminathan  
Department Chair;  
Associate Professor of English  
B.A., University of Texas, Austin;  
M.A., Ph.D., Pennsylvania State University

Theresa Sweeny  
Assistant Professor of Nursing  
A.A.S., Excelsior College;  
B.A., University of California;  
M.S., Excelsior College;  
M.D., University of California;
