Emergency Numbers
Emergency Services: 911

Public Safety: 718-488-1078 (extension 1078 for on-campus landline phones)

PROFILE OF AN ACTIVE SHOOTER

An Active Shooter is an individual actively engaged in killing or attempting to kill people in a confined and populated area; in most cases, active shooters use firearms and there is no pattern or method to their selection of victims. Active shooter situations are unpredictable and evolve quickly. Typically, the immediate deployment of law enforcement is required to stop the shooting and mitigate harm to victims. Because active shooter situations are often over within 10 to 15 minutes, before law enforcement arrives on the scene, individuals must be prepared both mentally and physically to deal with an active shooter situation.

Good practices for coping with an active shooter situation
• Be aware of your environment and any possible dangers
• Take note of the two nearest exits in any facility you visit
• If you are in an office or dorm room, stay there and secure the door
• If you are in a hallway, get into a room and secure the door
• As a last resort, attempt to take the active shooter down. When the shooter is at close range and you cannot flee, your chance of survival is much greater if you try to incapacitate him/her.

CALL 911 WHEN IT IS SAFE TO DO SO!
**HOW TO RESPOND WHEN AN ACTIVE SHOOTER IS IN YOUR VICINITY**

1. **Evacuate:** If there is an accessible escape path, attempt to evacuate the premises. Be sure to:
   - Have an escape route and plan in mind
   - Evacuate regardless of whether others agree to follow
   - Leave your belongings behind
   - Help others escape, if possible
   - Prevent individuals from entering an area where the active shooter may be
   - Keep your hands visible
   - Follow the instructions of any police officers
   - Do not attempt to move wounded people
   - Call 911 when you are safe

2. **Hide out:**
   If evacuation is not possible, find a place to hide where the active shooter is less likely to find you. Your hiding place should:
   - Be out of the active shooter’s view
   - Provide protection if shots are fired in your direction (i.e., a dorm with a closed and locked door)
   - Not trap you or restrict your options for movement. To prevent an active shooter from entering your hiding place, lock the door or blockade the door with heavy furniture

3. **If the active shooter is nearby:**
   - Lock the door
   - Silence your cell phone
   - Turn off any source of noise (i.e., radios, televisions)
   - Hide behind large items (i.e., cabinets, desks)
   - Remain quiet
   **If evacuation and hiding out are not possible:**
   - Remain calm
   - Dial 911, if possible, to alert police to the active shooter’s location
   - If you cannot speak, leave the line open and allow the dispatcher to listen

4. **Take action against the active shooter:**
   As a last resort, and only when your life is in imminent danger, attempt to disrupt and/or incapacitate the active shooter by:
   - Acting as aggressively as possible against him/her
   - Throwing items and improvising weapons
   - Yelling
   - Committing to your actions

**HOW TO RESPOND WHEN LAW ENFORCEMENT ARRIVES**

Law enforcement’s purpose is to stop the active shooter as soon as possible. Officers will proceed directly to the area in which the last shots were heard.
   - Officers usually arrive in teams of four (4)
   - Officers may wear regular patrol uniforms or external bulletproof vests, Kevlar helmets, and other tactical equipment
   - Officers may be armed with rifles, shotguns, handguns
   - Officers may use pepper spray or tear gas to control the situation
   - Officers may shout commands, and may push individuals to the ground for their safety

**How to react when law enforcement arrives:**
   - Remain calm, and follow officers’ instructions
   - Put down any items in your hands (i.e., bags, jackets)
• Immediately raise hands and spread fingers
• Keep hands visible at all times
• Avoid making quick movements toward officers such as holding on to them for safety
• Avoid pointing, screaming and/or yelling
• Do not stop to ask officers for help or direction when evacuating, just proceed in the direction from which officers are entering the premises

Information to provide to law enforcement or 911 operator:
• Location of the active shooter
• Number of shooters, if more than one
• Physical description of shooter/s
• Number and type of weapons held by the shooter/s
• Number of potential victims at the location

The first officers to arrive to the scene will not stop to help injured persons. Expect rescue teams comprised of additional officers and emergency medical personnel to follow the initial officers. These rescue teams will treat and remove any injured persons. They may also call upon able-bodied individuals to assist in removing the wounded from the premises. Once you have reached a safe location or an assembly point, you will likely be held in that area by law enforcement until the situation is under control, and all witnesses have been identified and questioned. Do not leave until law enforcement authorities have instructed you to do so.
