These celebrated hostesses were often photographed descending the stairs of their grand ball rooms in glittering jewels, court feathers, and fabulous gowns. Women like Alva Vanderbilt, Mrs. Clarence Mackay, Barbara Hutton, and the countess of Bismarck, took the lead at sought after social events, and everyone wanted to be and dress just like them. Elected four times as a Regent on the New York State Board of Regents, Roger Tilles has been representing Long Island’s educational interests since 2009. According to Mr. Tilles, our goal needs to be, “Education excellence for our kids, education excellence for ALL kids.” “Until all children get the appropriate resources for programs to allow every child to succeed in employment, college and civic engagement, our society fails all children.” The program will include a review of the current K-12 landscape and what is needed to achieve excellence and equity in education.

56698. CENTRAL PARK: MANHATTAN’S CHANCE FOR EDEN
Dr. Stephen Wolf

Through an historic and deeply personal wandering through Central Park, Stephen Wolf tells the remarkable story of the nation’s first great public park. Meant for the poorest citizens unable to leave the city for nature’s restorative powers, Central Park brought nature to the city with meadows, forests, and terraces that astonished visitors. From a remote cave, calming waterbodies, the wide variety of city performers – including Philippe Petit who walked between the Twin Towers in 1974 – with stories about the best and worst of the park’s statues, and where more bird species are sighted than the Florida Everglades, our session together – as the Times wrote of Wolf’s book, “Central Park Love Song,” – will be “the next best thing to being in the park.”

Dr. Richard Quinlan

The art of the Holocaust captures the strength of spirit of those condemned by the Nazis. Attendees will gain a greater perspective on how art allowed concentration camp prisoners to reflect the protection of their humanity in the midst of constant attempted dehumanization.

Keith Crocker

In spite of all the pomp and circumstance, the comedy duo also brought joy, laughter and song to a very worried populace. Round up your friends and enroll in this delightful program.

56702. FROM USSR TO RUSSIA TO...?
Shai Franklin

Russia was a vast if not always a great empire straddling Europe and Asia. It was subsumed by the Soviet Union and Cold War confrontation, re-emerging in the 1990s as an uncertain participant in the modern liberal order. Under Putin, it has regressed and reasserted itself as a spoiler in Europe and in the world. Will it ever join the post-feudal modern world, and how should we engage with the country?

56706. ISRAEL AT THE BRINK: THE YOM KIPPUR WAR Part II  
David B. Nemschoff

David Nemschoff returns to Hutton House to provide an in-depth lecture on the Yom Kippur War, fought between October 6-26, 1973. This course is meant to provide the student with a deeper understanding of the conflict, starting with a brief history as to how this region evolved, after World War I, into an unstable and combustible mix of countries that laid the groundwork for war in 1973. We will also examine the evolving relationships between the world powers – America, USSR, Britain, and France – and their clients in this region. The war itself will be covered in a higher level of detail including an evaluation of key decisions that were made, and how effectively each party in the conflict worked with its military personnel, the equipment it brought to bear, and the intelligence it had access to. Finally, we will look at how 1973 shaped the Middle East as we see it today, in terms of alliances, peace treaties, diplomacy and the way wars have been fought ever since.

Valerie Franco

As the year draws to an end, and the holiday season is upon us, we will look at family celebrations and love in film. Film Historian Val Franco will take us to Paris, where two childhood schoolmates reconnect through the taming of nature, and to Long Island, where a failed comic returns home to regroup and find his path. We will also head back to Pre-Revolutionary France and the outskirts of Paris where food, love and respect intertwine. These films feature internationally renowned actors and directors including Daniel Auteuil, Billy Crystal and Eric Bésnard. Films include “Conversations,” “Delicious” and “Standing Up.” Films are in English or French with English subtitles and are subject to change.

1 – 3:30 p.m.  1 session
Tuesday, December 6  Fee: $32

56723. WOMEN IN FILM
Greg Blank

Women have always been a force in filmmaking, but often their talents were suppressed by a male dominated industry. Alice Guy-Blanche was a pioneer filmmaker, and has paved the way to opening doors over the decades for filmmakers of the silent era like Lois Weber and Chaplin protégé Mabel Norman. But until the rise of feminism in the late 60s, female filmmaker’s voices were suppressed until such directors as Penny Marshall, Katheryn Bigelow, Sofia Coppola, and others were recognized. We will examine the dynamics of sexism in the film industry, the challenges women have met and often overcome, and the artistic achievements of female directors over the years.

The lecture separates fact from fiction and details the ingenious operation of the intelligence network that helped the Patriots win the war.

56732. THE FIRST GREAT CIVILIZATION, THE MINOANS
Denise Gold

Archaeologist Denise Gold returns to discuss this great civilization. On the island of Crete that is in the "wine dark sea" (the Mediterranean), Europe’s first great civilization developed. This civilization was re-discovered in the 20th century. These ancient and talented Europeans with their sophisticated architecture, art, customs, and dress astonished the whole world. In 1900, an Englishman, Sir Arthur Evans, came to Crete and excavated the lovely city of Knossos. Here he found the great palace of the legendary King Minos, and so Evans called this fabulous culture Minoan. Evans was not a great scholar, but his fiery passion and strong determination, with his great discovery of the Bronze Age civilization of Crete The Minoans earned him an important place in history.

56734. MARCO POLO
Anthony Edward Major

Much more than a merchant, Marco Polo was an explorer, writer and diplomat who found his way into the court of the mighty Emperor Kublai Khan of China, and ended up jailed in an Italian prison. The son of a merchant family, his remarkable travel story takes place in the 13th Century. An adventurer nonpareil, he wrote about his exploits, opened diplomatic communication between Europe and the exotic, as well as refined the culture of China. His engagement with the royal court would expand trade and influence art for a millennium. Perhaps his most important accomplishment has to do with pasta. Some say he brought back the recipe from China!

In addition, the class will also cover the personal demons that nearly destroyed Caesar and his family as they lived here on Long Island in Kings Point.

“Dr Livingston, I presume.” This casual remark was made by an American to a British doctor at their fortuitous meeting at an unlikely place in Africa on November 1871. Stanley was a reporter sent to find the distinguished and intrepid explorer Livingston. From an inauspicious beginning in Scotland, Livingston became a medical doctor, studied theology, and made expeditions into the interior of Africa, as a Christian missionary. He was also an abolitionist who promoted legislation which limited the Arab trade in slavery. Dr. Livingston was an example of the English can-do attitude of responsibility to humanity.

Anthony Edward Major

Widely known as the greatest knight of his day, Sir William was a commoner who rose to nobility on the basis of his chivalry and proficiency at arms. As a result, he married into nobility and was granted extensive land in Wales. He also played an indispensable role in the sealing of the Magna Carta in 1215 as a man of integrity who could be trusted by both King John and the insurgent nobles. His unlikely role as the staunch protector of the disreputable King John while supporting the nobles’ revolt, made the Magna Carta possible.

A dominant motivation in adopting the U.S. Constitution was to provide the people with a “guardian of the national security,” as Alexander Hamilton wrote in 1788. That same document added a protection of individual rights in 1791. Despite the sometimes-opposing objectives in the balance of personal liberty and the preservation of public safety, the Constitution’s application and interpretation during wartime will be the focus of our discussion.

56764. DVOŘÁK’S SYMPHONY NO. 9 IN E MINOR, OP. 95 “NEW WORLD
Jeffrey Norwood

Despite its inescapable nickname, this was not an “American” symphony, but rather a symphony “from the New World.” Dvořák was deeply inspired by American musical sources in composing it. Antonín Dvořák (1841-1904) was a passionate Czech whose music transcended national boundaries and, indeed, crossed the world. Dvořák is a wellspring of melody, with joy and anguish in equal measure. Yet, even if anguished, the music has a fundamental vitality.

Peter Kohler

If the Supreme Court overturns Roe v Wade will many more states ban the use of abortion with respect to Eugenics? Meanwhile, states like Indiana have banned the use of abortion to prevent the birth of infants with Down syndrome, leading Justice Clarence Thomas to argue that abortion promotes the history of Eugenics. If we can genetically alter humans to free future generations from a disease – and not without also risking other health threats to future generations – should we?

56784. THE GRAVESTONES OF EARLY LONG ISLAND: 1680-1815
Richard Welch

The colonial and early national gravestones of New England and the Middle States are widely recognized as prime examples of American folk and vernacular art. Emblazoned with powerful iconography expressing cultural and religious attitudes toward death, resurrection, and sometimes lineage and status, they are among the most accessible, but often overlooked, colonial artifacts in the area. With no bedrock of its own, Long Island communities and congregations secured stones from the major New England sources, as well as those in New York and New Jersey, providing a rich, near unique, assemblage of the major and some minor schools of funerary art. This presentation will explore symbols, sources, carvers as well as stylistic evolution and the cultural and religious attitudes which they expressed.

56786. NINETEENTH CENTURY WOODEN SHIPBUILDING ON LONG ISLAND
Richard Welch

The United States became the world’s leading ship manufacturer as the production of wooden vessels reached its qualitative and quantitative peak in the first two-thirds of the nineteenth century. Several villages on the indented north shore of Suffolk County played an active role in the industry supplying craft for the cotton, California, Mediterranean, whaling, and coastal trade. Unlike shipbuilding in the great cities which was virtually extinct by the end of the Civil War, Suffolk shipbuilding, though declining, survived into the early years of the twentieth century. This presentation will explore the evolution of the industry on Long Island, its local and regional importance, and the entrepreneurs who led it. Finally, the causes for the decline and extinction of wooden ship building will be discussed.

He transformed the art world with a regenerative style of art, named Neo-Classicism by art historians, that was based on the revival of past antiquity and later became the trademark of the conservative French Academy. How did the contradictions and ambiguities inherent in David’s art and life reflect this complex, turbulent time in history?

In this lecture, we will discuss great film satires and discuss their comedic and cinematic qualities. Additionally, we will explore their place of importance in film satire’s ability to deconstruct human society and behavior, while making us think about and laugh at ourselves. Films will include Charlie Chaplin’s “The Great Dictator” (1940), Stanley Kubrick’s “Dr. Strangelove or: How I Learned To Stop Worrying and Love the Bomb” (1969), Sidney Lumet’s “Network” (1976), “Airplane!” (1980), “This is Spinal Tap” (1984), “Office Space” (1999), Idiocracy (2006), among others.

Colonel Mosby raided throughout the Shenandoah Valley with his small but dedicated cavalry unit, wreaking uncertainty and havoc behind Union lines through the entire Civil War. Breaking communications and seizing enemy supplies, his control of the Valley was so complete that it was known as “Mosby’s Confederacy.” He began the War as a scout for Lt. General J.E.B. Stuart, but later became the Gray Ghost with his Rangers who were all hand-picked men. He received the unwavering support of the local population, who sheltered and fed him despite the risks and their own deprivations. He was a respected attorney and personal friend of Robert E. Lee and J.E.B. Stuart and, after the War, became active in the party of the North, the Republicans, and supported Grant’s campaign for the presidency.

Is it true that test audiences did not like the movie? Did this cause the director to be fired? Did producer Samuel Goldwyn lose nearly one million dollars to reshoot the movie? Why was a “disclaimer” added to “The Bishop’s Wife” movie posters? Did Cary Grant really dislike his role as an angel from heaven? Who was cast as the Bishop’s Wife before Loretta Young? Also, look for three stars from It’s a Wonderful Life in this film.

This series will focus on four world hotspots that Dr. Brown personally experienced. Each lecture will explore a specific hot theme in the news. Since the tragic events of 9/11 which Dr. Brown experienced as a New-York Historical docent, “Fake News” has split Americans into rival ideological camps, each claiming to have the truth. In Mumbai, India, Dr. Brown witnessed the devastating effects of “Global Warming.” While living in Moscow during the collapse of the USSR, Dr. Brown experienced the rise of “The Oligarchs” and their aspirations to global power. Seven years in Switzerland, Dr. Brown worked on a doctorate in international politics which prepared him to analyze the many world hot spots that dominate the news today.

The Trump administration dramatically transformed American and global press news reporting. Expressions such as “Fake News,” “The Big Lie,” and “Alternative Facts” divided the press and eventually the American people into two rival and hostile camps, each devoted to opposing versions of what was taking place in the nation. This battle to dominate the news came to a head with The Washington D.C. events of January 6, 2021 that were variously described as a coup, revolt, riot, insurrection, demonstration, and tourism. Can we believe anything in the news?

No one doubts that the earth is indeed warming. Degree by degree, the atmosphere is rising, the seas are ever higher, the poles are melting, and horrendous storms are ravaging the planet. But scientists, politicians, theologians, the press, and intellectuals are divided on the causes of this fact. New Orleans and Shanghai are on the verge of disappearing and many other cities are endangered. Will the planet be able to support the growing billions of humans in the 21st century?

1 – 3 p.m. 1 session

Today Europeans from Poland to Portugal and Ireland to Greece are attempting to end centuries of warfare and recreate the Roman Empire of old. Will they be successful? Will they be able to resist Russian, American, and Chinese domination? Can Europeans put centuries of nationalistic warfare behind them and create a future as Europeans?

“The Russian Oligarchs” have become the new enemy of all that the Western World has long held sacred: freedom, democracy, liberty, and capitalism. However, as Thomas Friedman has well documented “Super-Empowered Individuals” are not restricted to the former USSR. Super power individuals from Moscow and Kiev to New York City and Los Angeles, and London to Brasilia possess more power than the presidents, dictators, and generals of the planet. Will the planet be ruled by a handful of global oligarchs in the 21st century?

59442. THE LAST OF THE MOHICANS BY JAMES FENIMORE COOPER
Marc Greenberg

Reading is a cognitive process. This class is an attempt to extend that process and offers the brain extensive exercise. Literary facilitator Marc Greenberg will lead this four-series live discussion. “Mohicans” is a frontier adventure story set in the forests of upper New York State. Hawkeye, Chingachgook and Uncas become embroiled in the French and Indian War. There is the abduction of the Munro sisters, the treachery of Magua, the ambush of settlers, and the confrontation between rival war parties.

Wednesdays, October 12-November 2

59443. SOME HISTORY YOU OUGHT TO KNOW
Marc Greenberg

With apologies to Alanis Morissette there is some history “You Oughta Know.” The study of history reveals that there is no clear-cut answer for anything. Since understanding history is based on individual – and therefore subjective – interpretation, you must decide for yourself what kind of meaning(s) you will attach to the historic issues that will be revealed in this series: “What is a democracy?” (10/12), Fiscal and Monetary Policy (10/19), the Pyramid of Hate (10/26), and National Interest Groups (11/2).

1 – 3 p.m.  
Wednesdays, October 12, 19, 26 and November 2

Fee: $100

(If you would like to register for individual classes - see below)

59444. “WHAT IS A DEMOCRACY?”
Marc Greenberg

What is a democracy? Is the U.S. the definitive democracy in the world? Or, are there others? How are they different from the U.S. or the same? How does the world perceive us? Is the American form of democracy responsive to its people?

1 – 3 p.m.  
Wednesday, October 12

Fee: $30
59445. FISCAL AND MONETARY POLICY
Marc Greenberg
Most Americans misconstrue which branch of the federal government is responsible for fiscal and monetary policy. In what ways do these policies affect the U.S. economy? How do they affect you as an individual? It might be time to discover which branch is responsible for what and what is that responsibility?

1 – 3 p.m. 1 session
Wednesday, October 19
Fee: $30

59446. PYRAMID OF HATE
Marc Greenberg
The Anti-Defamation League’s (ADL: an international Jewish non-governmental organization based in the U.S. specializing in Civil Rights Law) Pyramid of Hate shows biased behaviors. As one moves up the pyramid, the behaviors have more life-threatening consequences. The hate of genocide is built upon the acceptance of the behaviors described in the lower levels of the pyramid which contributes to the hate genocide is built upon. We will define and recognize hatred in all its forms via these escalating steps.

1 – 3 p.m. 1 session
Wednesday, October 26

59447. NATIONAL INTEREST GROUPS
Marc Greenberg
National interest groups often target national-level policy-making institutions. Interest groups are a collection of people that seek to influence public policy on the basis of a particular common interest or concern. In what way(s) do these interest groups affect political activity in the U.S.: American Association of Retired Persons (AARP), American Medical Association (AMA), National Association for the Advancement of Colored People (NAACP), and National Association of Manufacturers (NAM)? We will discuss other interest groups that have a weighty influence on American governance.

59448. PRESIDENT LYNDON JOHNSON: A TALE OF TWO PRESIDENCIES
Howard Ehrlich and Harvey Sackowitz
Lyndon Johnson was president for five years. As Vice President, Johnson was thrust into office after the assassination of President Kennedy. He was then elected in his own right in the landslide election of 1964. His presidency started with a bang with his “Great Society” social legislation. This was highlighted by such important programs such as the Civil Rights Act of 1964, the Voting Rights Act of 1965, the Elementary and Secondary Education Act, the Clean Air Act and the creation of the Medicare and Medicaid programs. But then came the Vietnam War which would put a dagger into the heart of his presidency. Eventually, he would announce that he would not run for re-election in 1968. It was a sad ending to a presidency that started with so much promise.

The first decades of the 21st century are proving to be an age of rising racism, genocide, anti-Semitism, raging pandemics, holy wars, and the civil war over who writes the history of the USA. With the defeat of Hitler and Fascism and the fall of the USSR thereby discrediting global Communism, the planet settled in for a peaceful, prosperous and happy 21st century. Alas, such was not to be the case! Will the next century be a troubled, war plagued, economically ravaged century or will humanity rise to the occasion and establish a global utopia?

1 – 3 p.m.  4 sessions
Wednesdays, November 2, 9, 30 and December 7  Fee: $100

The expulsion of the Burmese Rohinga, the persecution of Muslims in China, India, Palestine, and France, the genocide of indigenous peoples in Brazil, and the rise of anti-Semitism in the West, anti-Black and Asian racism in the USA, are only a few of the examples of hate that continues to divide the human family. Will we ever recognize and combat our age old hatreds and enter a new age of humanity?

1 – 3 p.m.  1 session
Wednesday, November 2  Fee: $30

Who ever imagined that in this day of computers, space travel, antibiotics, and artificial hearts that a tiny virus called COVID would ravage the planet with millions of deaths. Most alarming, was the fact that the countries most ravaged were those with the most sophisticated medical infrastructures on the planet, the USA, Europe, China, and Japan. Have we learned anything from the COVID pandemic and will we be ready for the next one that might well destroy half of the human population?

1 – 3 p.m.  1 session
Wednesday, November 9  Fee: $30

Ever since the gods of Egypt guided their armies in battle against the gods of Babylon, tribes, kingdoms, nations, and empires have claimed spiritual glory to the faithful children of their respective gods and goddesses. The glory of ancient Israel was glory for Jehovah, a military victory for Greece was a victory of the Greek gods, and some Evangelical Christians claim that the election of President Trump was a victory for the Evangelical god. Religions and politics have been inseparable since time immemorial. Will holy wars continue into the future and is the planet entering an age of holy wars as predicted by Samuel P. Huntington?

56781. GLOBAL HISTORY: WHO WRITES OUR HISTORY BOOKS? 9/11 IN NEW YORK CITY
Dr. Ron Brown

Historians, such as myself, have long prided ourselves as seeking truth, accuracy, fairness, and balanced accounts of past and current events. The tragic events of 9/11 and the ensuing invasions of Afghanistan and Iraq shattered this unity among historians. Right leaning and left leaning historians battled over who would write the “official” history of 9/11. The New-York Historical Society, 9/11 Memorial and Museum, history professors at universities, political figures nationwide, and concerned citizen groups all proposed their “official” histories. Will we ever know what went on that tragic day?

Howard Ehrlich and Harvey Sackowitz

We are going to discuss five courtroom dramas that changed the future of America. The first courtroom drama is the unexpected verdict when John Adams defended the British soldiers charged with the Boston Massacre. The next one is the conviction of abolitionist John Brown before the Civil War. The third courtroom drama is the treason trial of Vice President Aaron Burr to a well known Congressman who was tried for murder, and lastly, the colonial case that set the precedent for freedom of the press. We will see how these verdicts impact the U.S. even today.

59453. ABRAHAM LINCOLN AND HIS LEGACY
Nancy Spannaus

Can there be any better time to study Abraham Lincoln than today? As in the 1830-1860 period, our nation appears to be split down the middle. The economy is a mess, and there is despair over the future from all sides of the political spectrum, not to mention the controversy over race and slavery. This class will delve into Lincoln the man, his ideas, and his lasting impact on this nation and the world. We will utilize many of Lincoln’s speeches, and go in-depth into his economic and emancipation policies. You will learn about a Lincoln you never knew.

56792. A HISTORY OF THE TV TALK SHOW: FROM CARSON TO OPRAH TO STEPHEN COLBERT
Dr. Brian Rose

From its start in the early 1950s, the talk show has been one of television’s most versatile and durable formats. Pioneering programs like “Today,” “Person-to-Person,” and “Tonight” established the basic features that have guided the format ever since, particularly the importance of the host in guiding the proceedings. Whether it was the sophisticated wit of Dick Cavett, the magnetic empathy of Oprah Winfrey, the innovative comedy of David Letterman, or the sharp political satire of Jon Stewart, the talk show has continued to provide viewers with a lively mix of entertainment, information, and compelling conversation. This presentation will look at the fascinating history of the television talk show, and examine its changing appeal from decade to decade.

56799. THE POWER OF NETFLIX
Dr. Brian Rose

From its start as a DVD-by-mail rental service, “Netflix” has systematically changed the rules of the media business. Its introduction of streaming in 2007 led to the decline of the video rental store and dramatically increased the use of broadband internet. Starting in 2013, its introduction of its own programming, from House of Cards to The Crown to “Stranger Things” challenged the traditional ways viewers watched TV. Now its original movies, like “The Irishman” and the three-time Academy Award-winner “Roma,” are upending the operations of the Hollywood studios. With an ever increasing budget of over $15 billion per year, service to 190 countries, and 150 million subscribers, this presentation will examine how Netflix is primed to become the dominant source of leisure time entertainment throughout the world.

A great American hero has lost his place of honor in the American drama. His role in the Civil War is largely disparaged and statues have been removed from pedestals where they have stood for almost 150 years. His story has been eliminated from school and university textbooks. While not the “Marble Man,” as some have labeled him, neither is he the epitome of the wickedness of slavery. This lecture will offer a subtle review of Robert E. Lee, covering his young life, performance at West Point, military career, offer to command the Union Army in the Civil War, post war career, and his influence on national politics.

Thursdays, October 13 and 20 Fee: $60

Recent DNA research combined with letters and other records gives us an unparalleled understanding of what life at Monticello was like for the Thomas Jefferson family and the enslaved Hemings family, including Jefferson’s long term relationship with Sally Hemings. Historians have long considered Thomas Jefferson as one of the great U.S. Presidents. He was also one of the most complex. Learn more about this complicated man and the family life at his plantation on top of the mountain known as Monticello, now a World Heritage Site.

1 – 2:30 p.m. 1 session
Thursday, October 27 Fee: $30

This will be a discussion that examines great political films, not a viewing. Great filmmakers have infrequently taken up political themes as their main focus. The movie makers want big box office results and a mass audience. That industry is not at work trying to change the world, though it likes to take some credit when it tilts in that direction. Nonetheless, many films really stand out for achieving artistic merit and for making a striking political statement. We will examine some of the best of that genre today like “The Battle of Algiers,” Marlon Brando’s underappreciated sleeper; “Burn,” James Wood’s notable performance in “Salvador”; and the still timely documentary of 1978, “Controlling Interests.”

Join Val Franco for a look at watercolors by some of the world’s most famous artists who explored this ephemeral medium. Watercolors have existed since at least the Upper Paleolithic period, over 40,000 years ago, but its use during the last century and a half demonstrates its refinement. From Wyeth to Sargent and Picasso to Prendergast, the use of watercolors has been, and continues to be, more than just a means to an end. We will explore this incredible medium, its development, and the gorgeous landscapes, portraits, seascapes and preparatory images created in watercolor and its sibling medium, gouache.

59449. REFLECTIONS ON THE POLITICAL IMAGINATION IN FICTION
Philip Nicholson

Many great novelists combined the creation of credible characters with their political and historical circumstances. Time and place always matter in fiction, but the big picture that includes forces that shape personal experience is often presented indirectly. Some great novelists like Jane Austen and Honore´ de Balzac captured the realities of both the personal and the political with artistry. Others, like George Orwell, were more prophetic. Everyone has their favorites, and no list can be definitive. We will review some of Mr. Nicholson’s top choices today and see what they might have in common.

56812. A LOOK INSIDE IT’S A WONDERFUL LIFE
Dr. Brian Rose

Voted the most inspirational movie ever made by the American Film Institute, Frank Capra’s “It’s a Wonderful Life” has been a beloved Christmas classic for many generations. The snowbound streets of Bedford Falls, the desperate travails of George Bailey, and the discovery of Zuzu’s petals have become traditional signatures of the holiday season. Yet when the film was released in 1946, it was a box-office flop, won no Academy Awards, and was largely forgotten—until it was rediscovered through endless airings on local TV stations beginning in the 1970s and on annual Christmas Eve broadcasts on NBC starting in 1992. This talk will examine the fascinating story of “It’s a Wonderful Life,” looking at the challenges of how it was made, its surprisingly dark portrait of small-town life, and how it became the ultimate portrayal of holiday goodwill and cheer.

56733. THE FILM MUSIC OF BERNARD HERRMANN
Richard Knox

Bernard Herrmann (1911-1975) had his first film score written for Orson Welles’ masterpiece “Citizen Kane,” which put “Benny,” as he was affectionately called on the fast track to fame. He proceeded to spend the next 15 years composing classic scores for films such as “The Magnificent Amberson,” “The Ghost and Mrs. Muir,” “Portrait of Jennie,” and “The Day the Earth Stood Still.” But it was Herrmann’s compositions for such Hitchcock classics as “Vertigo,” “North by Northwest,” and “Psycho” that has truly endeared him to generations of filmgoers who appreciate the importance of music in getting audiences emotionally invested in the cinematic experience.

56795. THREE GREAT ARTISTS: LEGER, PICABIA AND BONHEUR
Dr. Mary L. Dono

Fernand Léger was a French painter, sculptor, and filmmaker. In his early works, he created a personal form of cubism (known as “tubism”) which he gradually modified into a more figurative, populist style. With respect to Francis Picabia, the only constant in Picabia’s career was his unwillingness to remain the same. His early work was influenced by the Impressionist, Alfred Sisley. Then he fell under the spell of the Cubists. He returned to figurative painting, became a friend of Gertrude Stein, and concluded his career with abstraction and poetry. Rosa Bonheur was a French artist, mostly a painter of animals (animalière). She was also a sculptor, in a realist style. This lady was considered to be the most famous female painter of the nineteenth century. Join us as we journey through their different styles!

56738. COLORATURAS SINGERS OF THE PAST
Dr. Mel Haber

Most of us are familiar with the dramatic soprano voices of singers of Leontyne Price, Maria Callas, and Renata Tebaldi. However, there are wonderful sopranos who are able to sing higher notes than dramatic sopranos; these artists are coloratura sopranos. In this program, we will hear singers such as Joan Sutherland, Lily Pons, and Roberta Peters.

Claude Debussy (1862-1918) is sometimes seen as the first Impressionist composer, although he vigorously rejected the term. He was among the most influential composers of the late 19th and early 20th centuries. Debussy developed his own style of harmony and orchestral coloring which was often derided – and unsuccessfully resisted – by much of the musical establishment of the day.

While Hopper was most popularly known for his oil paintings, he was equally proficient as a watercolorist and printmaker in etching. Both in his urban and rural scenes, his spare and finely calculated renderings reflected his personal vision of modern American life. Magritte was a Belgian surrealist artist who became well known for creating a number of witty and thought-provoking images. Then, there’s Rockwell, a delightful artist, known for his wonderful illustrations that span generations, World Wars, and many Christmas holidays.

56802. HOPPER, MAGRITTE, AND ROCKWELL: EACH UNIQUE IN HIS OWN WAY
Dr. Mary L. Dono

59460. FRANK SINATRA...A RETROSPECTIVE
Richard Knox

The unique style of Gioachino Rossini (1792-1868) and his operas have a very important role in the art of singing. His vision helped to bring the florid style of baroque opera to a whole new level of virtuosity and paved the way for the Bel Canto era. Rossini referred to the art of singing as it flourished in Italy from the mid-1700s through the first decades of the 19th century, and yet, this rather loose term has long been open to interpretation. Rossini’s innovations changed the course of operatic history and influenced generations of composers for more than a hundred years.
